

It is an altogether mistaken idea to believe that the purchasing power of Greenville and Pitt County is not active. Indisputable reason for the assertion is evidenced by the way that the public responds to advertising when inducements are offered and prices right. A cursory glance into the stores is convincing of that fact.

Merchants who refrain from using publicity to exploit their business will continue to howl about hard times, and they will continue to experience hard times against competition that is up and doing and attracting trade by consistent, well-balanced advertising programs. Lamentation will get the non-advertiser no where. In time, if he is far-sighted enough he will find it out!

Here's a leading example of narrow minded business: A merchant of this city was asked why he did not advertise and do more business. "What's the use," was the rejoinder, "if I do more business I'm compelled to hire another clerk." He is still carrying the bulk of his old stock. Advertising merchants are replenishing their shelves with new stocks, looking to business expansion.

## NEGRO PRISONERS HOLD UP DEPUTY AT JAIL DOOR, ESCAPE

### Whitehurst Attacked By Pair From Rear, Gun Seized, At Liberty

Deputy Sheriff Whitehurst, returning to the county jail from the court house where he escorted two negro prisoners for medical examination was attacked by the pair as he was entering both hands to unfasten the entrance to jail today. He was assailed by one of the prisoners who was standing about four feet just behind him. The negro, it is declared, encircled his arms about the body of Whitehurst removing his revolvers from the holster and leveling one at him. With menacing gestures he backed away out into the jail yard and freedom, accompanied by the other prisoner, who it is declared, took no active part in the get away. Whitehurst lost no time in pursuit, but the two had either effectually secreted themselves or covered up the tracks of their flight. Sheriff Jackson and his staff of assistants are making a thorough search. Outside places have been advised of the escape, and it is believed that they will be in custody again soon. The holdup negro was charged with bootlegging, the other with a minor offense, it was declared.

## DeVALERA, IRISH LEADER, TAKEN BY FREE STATES

Ennis, County Claire, Ireland, Aug. 15.—Eamon DeValera, republican Irish leader was arrested today by free state troops on his appearance to address a republican meeting incident to the election campaign. His arrest was made under rather spectacular circumstances. As he was about to open his speech in the market square, free state troops appeared and fired a volley of shots over the heads of the crowds. The troops then surrounded the platform and took De Valera into custody. He declined to comment on his arrest. When the volley fired by the military over the heads of the huge gathering a stampede followed. Women and children fainted and the wildest confusion ensued. It is reported that a number were wounded. De Valera was taken to the county jail.

## "AUNT MARY" MAKES "CAL'S DRESSING"

Mrs. Mary Hazel, mfr.

Calvin Coolidge has his Aunt Mary, just as William Howard Taft had his Aunt Della. Aunt Della became famous because her nephew thought she baked the best pies in the world. Aunt Mary—she is Mrs. Mary Hazel, of West Roxbury, Mass.—has achieved fame because she and she alone can make mayonnaise salad dressing to please Mr. Coolidge. Here is Aunt Mary's recipe:

"Cream one cup of butter very lightly. Stir smoothly together the yolks of four eggs, one tablespoonful of mustard and one tablespoonful of salt. Add very slowly one cup of olive oil and half a cup of lemon juice and vinegar, pouring first the oil, then the lemon and then the vinegar. Or use all lemon juice and no vinegar."

## METHODISTS DISCUSS LIFE OF JOHN WESLEY AT GATHERING DISTRICT EPWORTH LEAGUE

The life, character and work of John Wesley formed the subject of discussion at the annual meeting of the district Epworth League last night in the Methodist church. Numerous delegates from various sections are attending the convention which will last through today. The meeting was opened with devotional services conducted by the Rev. Scoville, pastor of the church. Mayor D. M. Clark, president of the senior body of the league presided and introduced the speakers. The sparkling witticisms of the mayor in presenting each speaker caused ripples of genuine mirth, and in his address of welcome he diffused a spirit of hospitality that was felt by the large gathering. Rev. Mr. Grant, Hartford, recited the services of the league and what it meant in the expansion of Christianity. W. N. Ormond, Wilson, district secretary recounted numerous activities of the body and graphically described its future program. K. T. Futrell, county welfare officer, in an interesting talk reviewed the early childhood of Wesley. Miss Dorothy Currin, of the intermediate league talked on Wesley's preparation for the ministry. Walter Dail, president of the intermediate body, discussed the progress of Wesley in speaking and teaching of Methodism up to 1755. Miss Mary Lee Oakley, told of the expansion the church had made under Wesley. Laurence Watts, one of the leaders in the work of the league gave a splendid discourse on Wesley in America. The meeting was interspersed with songs. Refreshments were served after its conclusion. The convention will be brought to a close tonight.

## Court Holds Seizure Rum Ships Is Valid

NEW YORK, Aug. 15.—Seizure of alien rum running vessels that hover outside the three-mile limit has been held legal by Federal Judge Woodrough. The decision was handed down in the case of the British ship Marion Mosher, seized while transferring a liquor cargo to the American-owned motorboat J. H. B., eight miles off the coast near Fire Island, July 27, 1922. Bonds of the Detroit Fidelity and Surety company, given after the seizure of the craft as a guarantee that it would proceed to its supposed destination, St. John, N. B., were declared forfeited it being contended that although the vessel arrived at the Canadian port, she did not have her cargo, thereby violating her agreement.

## Chicken With Cat Face Flaps Wings, Meows

PHILADELPHIA, Aug. 15.—The dog-faced boy of circus fame has yielded place to a more amazing creature. Angelo Licciardello's cat-faced chicken, christened by neighbors "Angel Face." Angelo owns a poultry shop. "Angel Face" has a pug nose and a short, stubby tongue. Neighbors say "Angel Face" each morning prefaces his breakfast by rising on his two feet, stretching his wings and "meowing" like a cat. He climbs trees and flies back to the ground. He eats corn and drinks milk. He has no comb on his head, but instead waves a tuft of hair.

## Husband Dead And Wife Dying; Doubt Which Shot Other

DUXBURY, MASS., Aug. 15.—Henry Schlee, retired English tea merchant of Shanghai, is dead and his wife, is in a dying condition in a hospital at Plymouth. Schlee was found lying across the bed at Smith's boarding house at Powder Point at 6:30 o'clock this morning. There was a bullet hole in his forehead. His wife was unconscious on the floor from a shot through the temple. It was first believed that Schlee shot his wife and then killed himself, but later investigation developed the possibility that, owing to the fact that Mrs. Schlee suffered a nervous breakdown, she did the shooting. That Schlee, however, was in anticipation of death or serious disability was indicated by the fact that a letter was found in his effects directing the disposal of his estate.

## Sales Discussed By Retail Dealers

RICHMOND, VA., Aug. 15.—Self-ling and salesmanship occupied the attention of the Southern Retail Merchants association in annual session here today. Other subjects affecting the expansion of trade and details of the business generally were talked over.

KAMMERER, WYO., Aug. 15.—According to announcement by officials of the Kammerer Coal company today in whose mines 100 workers were suffocated yesterday, 87 bodies have been recovered. A corps of rescuers are still in the mines searching for the other bodies.

KAMMERER, WYO., Aug. 15.—The mines in the vicinity of the Kammerer Coal company are gripped in sorrow and desolation today, where approximately 100 miners perished yesterday in an explosion in mine No. 1. Despite the grief that has seized the entire section, Kammerer is preparing its deal for burial.

Early today and through the darkness of last night weeping women and children stood at the mouth of pit as the rescue workers brought from the mine the charred bodies of the miners who had suffocated as they sought refuge from the poisonous gases that followed the explosion. Of the 187 miners, entombed 87 have emerged alive.

**Populace Grief Stricken**  
Pitiful scenes were enacted about the mouth of the mine, as relatives of the men who came out alive rushed into the arms of their loved ones, while nearby stood women and children in deepest grief, fearful lest those they sought should never come forth.

Alex Inama and Pete Taper were two of the first men to come from the workings. They had been in a section of the mine near the shaft and made their way out slowly through the smoke and dust after the explosion. Both were suffering from their experience. The greatest damage to the interior of the mine was done in the 15th entry, where 15 cars had been buried by a cave in. The task of clearing the main slope delayed rescuers several hours.

**Finally Locate Survivors**  
On the entries between Twenty-Seven and Thirty, the majority of the survivors were found. Many had taken refuge in a room off the main slope. One miner who had gone through three such explosions, is credited with saving the lives of six comrades by instructing them in the method of averting inhalation of gas and directing them to a portion of the mine where the greatest safety lay as they rushed toward the smoke-filled main slope.

## Pitt County Hand Book To Be Issued Soon by H. King

An authoritative compilation of valuable facts covering Pitt county, its agriculture, soils, climate, possibilities of intensive development of diversified farming and the livestock industry will soon be issued under the title: Hand Book of Pitt County. The author of the volume Henry King has given considerable time and research efforts in making the book the most complete, and comprehensive treatment that has ever been attempted in presenting many unknown facts of the county. Proof sheets show that it treats the county not only as a whole but each subject is discussed under topical heads by townships. The book will be replete with illustrations and maps. On the whole it goes beyond its title, because of its rare educational value. It should be in the hands of every school boy and chanta association in annual session here today. Other subjects affecting the expansion of trade and details of the business generally were talked over.

### OUR TOURING REFORMERS

The departure of Mr. Voistead from New York amidst considerable publicity and inaccurate statements, brings to mind that he is one of ten tourists, all more or less interested in the prohibition cause, who are enroute to Europe. They will attend the International Congress against Alcoholism in Copenhagen. There's nothing remarkable about a group of reformers traveling half around the world to further their reforms, but the noteworthy fact about this junket is that Uncle Sam is footing the cost, which is \$7,500.

Little publicity has been given the appropriation and the methods by which it was gained. In fact, the lobbyists, remarkably industrious in circulating their publicity, have scarcely mentioned this item. How the appropriation was jammed through the closing rush of the last session of congress, how the item was never considered by the committees on appropriations, how it was only briefly discussed on the floor of the Senate, how it was never presented in the house at all, would have made a great newspaper story. But Edwin C. Dinwiddie, superintendent of the national temperance bureau, modestly refrain from mentioning his triumph.

There was some slight objection, only whispered to this largesse or charity or graft, but the senate quickly complied with the demand, notwithstanding the irregularity of the proceeding and the indignant words of

Senator Smoot, who declared that such appropriations "have grown to a scandal, in some cases."

But the earnest workers of the lobby are notoriously not thin skinned, especially when a nice long trip to Europe at public expense is to be had. They accepted the money and said nothing about it. Mr. Diwiddie, who was responsible for rushing the appropriation through, got his reward, his ten per cent, which is about the usual commission given such workers, since he is one of the ten tourists.

Of course, the amount involved in this appropriation is negligible, but the record of the method used is interesting. Mr. Diwiddie really should be on the rivers and harbors committee.

### OUR MOUNTING TAXATION

Those who have the say about the expenditure of tax moneys frequently speak of the wastefulness of armies and navies. They wish, as does every one else, that such national safeguards were unnecessary and that the funds needed for their maintenance might be diverted to serve other purposes.

But as a rule they have very little to say about our standing army of tax collectors and spenders, which is more than five times the size of our army and navy combined. In this connection the recent report of the taxation committee of the Michigan Bankers' Association is particularly interesting.

The committee asserts that in the past fifteen years, more than 1,000,000 laws have been passed in the country to control the lives and business activities of our people, and that one individual in twelve of our population is supported by the taxpaying public in one way or another. In the state of Michigan, 50 per cent of the wealth newly created every year goes to pay for government—state, local or national.

The United States Government pays salaries to 700,000 civilians and the several states have more than twice that number on their payrolls. Add their families and dependents and you will understand the surprising totals and the cost of our governmental housekeeping.

Is it any wonder that tax-free securities are popular, and that so many supposedly upright citizens are to be suspected of forgetfulness in the matter of their tax returns?

Is it any wonder that most business men hold up their hands in horror at the thought of government ownership or operation of utilities?

# Talks on Osteopathy

By Dr. F. Fitts

## OSTEOPATHY—THE NATURAL WAY

Nature gives the normal body protective machinery to keep it free from the effects of disease. So long as natural forces can work unhampered, there will be no sickness.

Interference with the mechanism which Nature provides lowers resistance and lowered resistance makes possible the ills and ails which we suffer.

The Osteopathic Physician proceeds directly toward restoring natural resistance by keeping free from interference the natural machinery through which Nature operates.

The structures that are at fault are skillfully adjusted until they are once more normal and can work as Nature intended. Natural forces are set free and the laws of Nature return health to the body. Osteopathy is the natural way to treat disease.

### Klan Gets Set Back

By Ruling N. Y. Court

ELIZABETHTOWN, N. Y., Aug. 15.—Supreme Court Justice Ellis S. Staley granted an injunction sought by the State of New York restraining the Knights of the Ku Klux Klan, Inc., and the Kamelia, Inc., its sister organization, from acting as chartered benevolent fraternal organization in New York State.

Declaring that the statute clearly intended a certificate of incorporation "should be approved," Justice Staley held that the act of incorporation of the Klan and Kamelia in altering the certificates of incorporation after approval and before filing was "not only an illegal and unauthorized act, but also an imposition and fraud upon the court."

"Dusty's" opportunity comes when the Cabrillo company's dam starts to give way in a raging storm. **"Out of the Dust" At Strand Today Is Thrilling In Theme**

"Out of the Dust" showing at the Strand today and Thursday is a story of the early '70's. The early part of the picture is devoted to showing life in an army post, and it is admirably and interesting portrayed. It is here that we meet all the principal characters. The young wife on whom the loneliness of the army post falls, the gallant young husband whose devotion to the Indians who infest the section, keep him away from his wife, and the trapper who seeks to win this wife away from her husband.

Another leading character in the story is the little son who sees but understands nothing of what is going on, and who knows only that when the trapper persuades the mother to leave the post that his mother has gone and left him, and that he is a very lonely little lad. But the mother never actually goes wrong. She discovers the errors of her ways almost as soon as she has boarded the stage coach heading for the big city. The trapper has undermined her powers of resistance temporarily only by appealing to her vanity, for she is a beautiful woman, and has a very beautiful voice. So she leaves the drunken trapper on his seat in the stage coach and plans to make her way home, when

like all well-brought up coloratura sopranos, she goes mad. She is carried for by a wandering band of gypsies, recovers her reason and ekes out her existence in the dance halls of the western country. The villain still pursues her, and life is an awful one. Just now her little son discovers her, how the husband finally punishes the villain, which he does in one of the most graphic fights that it has been our fortune to see on the screen, and how the little family is once more united, is told in the remainder of this human little story. That is the outstanding feature of "Out of the Dust" its humanness.

**CITY COAL AND WOOD COMPANY OPENS FOR BUSINESS IN THIS CITY**

The City Coal and Wood Company, located on Evans street near the Norfolk Southern Railroad with Mr. P. C. Spencer, owner and manager, has opened for business and is ready to take orders and deliver coal and wood at any and all times. Mr. Spencer needs no introduction to the people of Greenville, having for the past two years been connected with the Carolina Building Supply Company. He has a host of friends who will wish him every success in his new business. The new company is especially anxious to be of service to the public and we take pleasure in calling attention to their half page ad which appears in today's issue of this paper.

EX 96

"I had very severe attacks of indigestion," writes Mr. M. H. Wade, a farmer, of R. F. D. 1, Weir, Miss. "I would suffer for months at a time. All I dared eat was a little bread and butter... consequently I suffered from weakness. I would try to eat, then the terrible suffering in my stomach! I took medicines, but did not get any better. The druggist recommended

and I decided to try it, for, as I say, I had tried others for years without any improvement in my health. I soon found the Black-Draught was acting on my liver and easing the terrible pain.

"In two or three weeks, I found I could go back to eating. I only weighed 123. Now I weigh 147—eat anything I want to, and by taking Black-Draught I do not suffer."

Have you tried Theodor's Black-Draught? If not, do so today.

## ROBESON COUNTY FARMERS ARE DELIGHTED WITH TOBACCO PRICES; CO-OP RECEIPTS REPORTED LIGHT

By R. W. McFARLAND.  
FAIRMONT, N. C., Aug. 15.—A report of the auction sales of tobacco at this point, since the opening, Aug. 1, shows total sales to date of 950,162 pounds sold for \$201,875.85; an average of \$21.25. These figures are official having been furnished by the secretary of the board of trade. Last Friday's sale contained many of the better grades and the average was \$25.78. Farmers are delighted with the prices. No figures available as to the Co-op receipts at their house here, but they still continue to be very light—hardly on all 4 or 5 percent of what has been marketed up to date, although their house has been opened since July 17. But in justice to them it should be said that they opened at least two weeks earlier than they should, the crop being that much late. Fairmont is one of the best little towns in Southeastern North Carolina. It has opened for years its tobacco market with South Carolina markets as the crops in that section are usually a great deal earlier than those in eastern North Carolina. It draws its trade from the famous Indian Swamp section, that nearly always produces a fine quality of tobacco. Speaking of Indians, Fairmont

had not the chivalry of either. People now living in this section remember him and his reign of terror.  
**People Growing Prosperous.**  
Regardless of how much rank reformers may decry tobacco, some of them desiring to have it placed in the category with whiskey; yet it has done much for the people of Robeson county in making them prosperous. It is only a few years—probably 20 or 30 since it began to be cultivated near Fairmont. At that time the place was known as Ashpole and was no more than a little country trading post. With the cultivation of tobacco a market soon sprang up and operated at great odds against the larger markets of that section.  
With the coming several years ago to Fairmont of E. J. Chambers of Virginia, O. A. Reeves of Tennessee and E. J. Davis & Sons of Winston-Salem and Martinsville, the town took on new life for these gentlemen in conjunction with others who came were men of affairs and highly trained tobacco men. These gentlemen induced the Imperial Tobacco Company of Great Britain to locate one of their factories here and this has meant much not only to the farmers but to the laboring classes as the Imperial's factory at Fairmont employs many hands for it re-dries tobacco shipped in to Fairmont from many places. And yet, this same Imperial company that has done so much for the people of Robeson county is

one of the companies that Senator Smith and other politicians of South Carolina would, if they could, drive out of the country. But the farmers and business men are not with Smith and his politicians for they have seen with their own eyes what these British companies have done for Fairmont and markets of every bright belt.  
Upon information up to this date in the South Carolina belt the auction markets have sold around nine million pounds. Reports from Timmonsville, Lake City, Mullins and other large auction markets indicate auction sales each day running until well after dinner. Some of the markets mentioned running double sales and lasting until four o'clock.
