

Civic organizations are doing real things in Mississippi. They are functioning exactly along the lines for which they were organized—to solidify communities into a unit of development and evenly balanced progress. The advantages of various sections of that state are being exploited by talking directly to prospective settlers inducements offered to invest and locate there.

The town of West Point, Miss., is not as large as Greenville and without natural conditions which obtain here, through its Chamber of Commerce is undertaking a program for intensive advancement of the dairy industry. Progressive citizens of that place are not complacently standing by waiting for something to "turn up," but are out to turn something up!

A "revelation campaign" has been formed, composed of the majority of the progressive citizens. The party will make a tour of the middle west and northwest. Dairying interests and live stock breeders will be appraised of what they are losing by not joining the development program. This spirit is bringing Mississippi rapidly to the fore. The same can be done for Pitt County!

WEATHER
Cloudy tonight and Saturday, probably showers on the coast.

Italy Declines Modified Terms Greek Ultimatum; Four Demands Accepted.

ROME, Aug. 31.—When the Italian cabinet met today the Greek ultimatum in reply to the note of Italy was found unacceptable, says the Stefani News Agency. However, it was learned that certain agreements were reached none of which were disclosed. According to the Massagero, one of the leading daily newspapers, it is reliably informed that Greece will refuse to pay 50,000,000 lire for slaying of the five members of the Italian mission and the request for the retaliatory order to salute the flag of Italy.

The Italian government has urged that all information concerning the movement of the military be suppressed.

WASHINGTON, Aug. 31.—Official notification of the killing of the Italian members of the Greco-Albanian frontier delimitation mission and the steps taken by Italy in asking of the Greek government immediate reparations and punishment of the guilty was given orally, as a matter of information, to the State Department today by the Italian ambassador.

The Italian charge is understood to have said in substance that Greece morally was responsible for the assassinations and that the Italian requests made upon Greece represent a minimum adequate to the satisfaction due Italy.

In Greek official circles here the view was said to be that since the murders were not committed on Greek soil, Greek courts had no jurisdiction, and that an adjustment should be reached short of extreme measures.

Although official comment was withheld, the American expectation, is understood to be one of hopefulness that a satisfactory arrangement will be reached without resort to arms.

Dancing Masters Now Seek Device To Puzzle Censor

NEW YORK, Aug. 31.—Prizes of \$100, \$50 and \$25 for devices to aid the instruction of censor-proof dancing are being competed for by members of the American Society of Teachers of Dancing during a five-day convention now being held at the Waldorf-Astoria. Louis H. Chalif, one of the leaders of the organization, said:

"Dancing instructions throughout the country really are facing a serious problem in that so many towns and cities are passing ordinances inimical to the interests of their profession."

"We do not believe that improper dancing can be stopped by ordinances, but dancing itself can be, and we are eager to prevent, even through sponsoring devices to make vulgar dancing physically impossible, the stigma which would be attached to our profession by such an action anywhere."

Tobacco Market At Williamston Opened

WILLIAMSTON, Aug. 31.—Three independent tobacco warehouses opened here yesterday with a record crowd to witness the sales, and the floors full. All the big companies have experienced buyers on the market, and each warehouse has a splendid corps of workers to handle the weed. Never in the history of the market has there been a more determined spirit among the people of the community to make this a good year for tobacco in Williamston.

KLAN BESEIGED BY BIG CROWD; SOME SHOOTING

PERTH AMBOY, Aug. 31.—Several klansmen following the battle last night and early today were taken to hospitals for emergency treatment and later sent home. The city has settled back to normal conditions and no further trouble is anticipated.

PERTH AMBOY, N. J., Aug. 31.—One hundred and fifty members of the Ku Klux Klan were besieged in Odd Fellows' Hall yesterday, surrounded by a crowd of more than 5,000 persons who last night broke up a meeting of 500 Klansmen despite a desperate resistance of 75 patrolmen, firemen and a large force of state troopers.

Although shots were fired by both sides, no one was reported killed. Two men, however, were believed to have been seriously injured. Both were Klansmen. One wearing a white robe was beaten unconscious when he attempted to leave the hall early today. He was beaten with clubs and his attackers were about to throw him into a sewer manhole when a patrolman pleaded with the mob and persuaded them to stop.

The other Klansman was badly beaten when a mob overturned an automobile in which he was trying to escape. The full extent of their injuries was not known and it was said many others may have been badly hurt.

Early Recognition of Mexico By U. S. Seen By Officials

WASHINGTON, Aug. 31.—The United States and Mexico resumed full diplomatic relations today, according to an announcement by the state department. Restoration of relations carries full recognition by the United States of the Obregon government.

WASHINGTON, Aug. 31.—Exchanges between the American and Mexican governments, characterized by administration officials here as necessary preliminaries to the resumption of diplomatic relations, have been successfully concluded. All that remains to restore a basis for renewal of friendly conduct of affairs between Mexico City and Washington is the making of a formal announcement to that effect. One of the exchanges already made provides the means for this last act incident to recognition.

Recent estimates of White House spokesmen that actual resumption of relations with Mexico would be announced formally the latter part of September, it was learned today, have been altered by the success of the negotiations, and in all probability the next day or so will suffice for that purpose.

Baptist Sunbeams Hold Rally Day

County units of the Baptist Sunbeams held a rally yesterday in the Memorial Baptist church. Mrs. L. W. Smith, chairman, presided. Miss Nina Collins, Knoxville, Tenn., Sunbeam leader and representative of the Roanoke association was one of the principal speakers. She reviewed the work of the organization and told of its value in extending better understanding and expanding Christian work. Each county unit had a number on the program. A sumptuous dinner was served on the church lawn.

ONE DEAD, THREE DYING WHEN POLICE AND NEGROES CLASH

JOHNSTOWN, Pa., Aug. 31.—One negro was shot dead and three policemen are probably fatally wounded following a battle between police and negroes of the Rosedale section. Three automobiles loaded with police answered the riot call and every other available officer was rushed to the scene.

As the officers climbed from the automobiles they were greeted by a volley of bullets from an unused shanty. The fire was quickly answered and one negro was killed. All suspicious persons were rounded up and arrested. The outbreak is believed to have been caused by negroes crazed from moonshine liquor.

"Jazz In The Pulpit" Organists Are Told At National Meeting

ROCHESTER, N. Y., Aug. 31.—Much has been said about "jazz in the organ loft," but the large body of organists who look upon their services in the church as an act of worship have every right to complain of "jazz in the pulpit," according to Frank L. Sealy, warden of the American Guild of Organists, who brought greetings from that organization to the convention of Organists in session yesterday. "We have all known splendid ministers and clergymen," said Mr. Sealy. "In fact, I might go so far as to say that there are just as good men in the pulpit today as can be found on the organ bench, but I regret to say that there are men in the pulpit of some of the churches whose selection of sermon topics is a disgrace."

Turn Bogs Into Garden Is Bay State Proposal

BOSTON.—The transformation into pastures and market gardens of hundreds of acres of swamp lands and submerged areas, is foreseen by John W. Plaisted of the Massachusetts department of agriculture under the state drainage and reclamation law passed by the 1923 legislature. The wetlands of the state, it is estimated, cover from 300,000 to 500,000 acres, and range from small-sized bogs to one large swamp of 7,000 acres. Many accessible swamps can be drained and tilled, Mr. Plaisted points out, and the soil may be made to produce crops of hay, vegetables or pasture, thus helping to meet an ever growing need for agricultural land in these days of rapidly expanding towns and cities.

GERMANS SEND 40,000 BOOKS TO MOSCOW FOR EXHIBITION

LEIPSIG.—German publishers have sent more than 40,000 books for exhibition at the exposition which the Soviet government is holding in Moscow this fall. Two members of the society for book exportation have accompanied the exhibit to Russia, and will supervise the arrangement in such manner that the books will give a definite idea of the historical development of Germany's publishing business.

MINERS, OPERATORS TO CONTINUE PARLEY; AGREE ON POINTS; ORDER TO CANCEL STRIKE IS NOT ISSUED

HARRISBURG, Pa., Aug. 31.—Representatives of the coal operators and officials of the United Mine Workers' Union returned answers today to the peace proposal submitted by Governor Pinchot, as a basis for continuing negotiations to settle the anthracite controversy. The operators objected to the flat 10 per cent wage increase over a long period of years. On all points except the 10 per cent increase, the operators exact that the union abandon all other demands, in consideration of the long term agreement.

Union officials agreed to the continuance of negotiations between the parties without issuing orders to suspend the general strike throughout the hard coal region, which becomes effective at midnight.

WILKESBARRE, Pa., Aug. 31.—Thousands of miners in the Wyoming valley quit work today in compliance with the suspension order, because union leaders had failed to work out a new wage scale to replace the one which expires tonight.

Lamb Butts Mary Till She's Black and Blue

NEW YORK, Aug. 31.—In response to an appeal by telephone, Yonkers police were obliged to take charge of a little lamb which, unlike the one which followed Mary to school, attacked and severely hurt 3-year-old Mary Yanciele of Yonkers. Her father, Anthony Yanciele, telephoned the police and told them that a lamb had knocked Mary down and was butting her. Police hurried to the scene and rescued the child. They found that the lamb belonged to Mrs. Julia Ferrara and she was warned to keep it tied up. Mary's forehead was cut and her back was black and blue from bruises.

Garrett Trial Is Near End; Counsel Submit Arguments

CUMBERLAND, C. H., VA., Aug. 31.—Opening arguments to the jury in the trial of R. O. Garrett, charged with the killing of the Rev. E. S. Pierce, last June will begin this afternoon. It was expected that the case will be given to the jury tomorrow and a verdict returned sometime Saturday.

Girl Clerks In Britain Poorly Paid, Ask Raise

LONDON.—Girl clerks in American offices who bemoan the slowness of fifteen and twenty dollar a week salaries are considered lucky by their poorer paid counterparts in England. There are 3,000 women clerks in government offices, some of them with eight years experience, who receive less than the equivalent of \$10 a week. They don't like it, but they don't know what to do about it, for there are still more than 1,000,000 unemployed in England who stand ready to pounce upon positions the minute they are vacated. Most of these government clerks are in the late twenties, some have passed thirty, and among them there are widows with children to support.

Mrs. E. H. Cooper left today for Raleigh to visit relatives.

NEW YORK GUNMEN ARM FOR WAR

NEW YORK, Aug. 31.—Not since Red Phillips boarded a Third Avenue street car in New York City and "bumped off" Jack Zella, gang leader, for slaying his friend, Kid Twist, have New York's professional killers been giving more technical attention to their "rods," which they are alling up for action. It all started when 16-year-old Yotekhi Church turned her love from Izzy Kaplan, of the Madison street gang, to Midget Louis Schwartz, of the Essex street gang. A few nights later Midget killed Yotekhi, a good night—and good bye, too, for an unseen gunman "croaked him" good and plenty. Now Essex and Madison street knew it was "Kid Dropper," or one of his gang, who fired the shot. Don't think "Kid Dropper" got his name because of the men he "dropped," though he did "drop" many. Instead, he got it when he was young in gangstering, when the police called him "Kid Dropper" because of the way he felled kids to rob them. "Kid Dropper's" real name is—or was—Jack Kaplan, and he is a brother of Izzy Kaplan. A few days after Midget Louis "got his" there was a threat of a musicians' strike in New York the next day, and the police were tipped off by a number of gunmen had gathered in an uptown office to fight possible strikers. A raid in Broadway resulted in the arrest of "Kid Dropper" and his gang, but they were discharged in Essex Market Court for want of evidence. As "Kid Dropper" entered a taxi with his wife, and as the police reserves of three precincts stood around, undersized, anaemic Louis Cohen poked a gun through the back of the cab and bumped "Kid Dropper" off. One of his wild bullets went thru the straw hat of Police Captain Williams. "He killed my friend, Louis Schwartzman," said Louis Cohen in explanation. So the "eggs" are alling up their "rods," and the East side is digging in.

Federal Dry Chief Beaten By Indians

SYRACUSE, Aug. 31.—Frank E. Sayer, chief of Federal prohibition enforcement in the Syracuse district was beaten, disarmed and his prisoner freed by a crowd of drunken Indians on the Onondaga reservation when he attempted to arrest an Indian for violation of the Volstead act. Sayer attempted to make the arrest single handed and was knocked unconscious as soon as he had identified himself. Sayer announced he will enforce the Volstead act on the reservation if he has to take a squad of State Troopers, Deputy Sheriffs and Federal prohibition enforcement agents from all parts of the state.

Mrs. Tom Elks Buried In Family Plot Here

The body of Mrs. Tom Elks, who died Wednesday in Weldon, was buried today in the family plot in the county. Funeral services were conducted from the home of Mr. and Mrs. Frank Elks. Mrs. Elks had been a resident of Pitt county prior to moving to Weldon 10 years ago.

First Cotton Bale Is Sold In Clayton

CLAYTON, Aug. 31.—"As it happens" the first new bale for this season was brought in today by the same party who sold the first new bale last year—namely, Paul Spence, of near Powhatan. The bale last year sold for 23 5-8, grading middling, while the bale just sold grades the same but sold for 25 1-8.

Chamber Commerce Behind Movement For Union Station

At a special meeting of the directors of the Pitt County Chamber of Commerce last night, the report of the special union station committee was submitted. Dr. K. B. Pace, chairman offered the report, which at length recites the conditions upon which necessity for the improvement is urged. It was recommended that the Atlantic Coast Line site, from various view points was the logical place for the proposed station.

A mass meeting of the citizens of Greenville has been set for Sept. 20, in the courthouse, when the matter will be discussed in detail. It was announced today by H. L. Smith, secretary of the body. P. L. Clodfelter, W. H. Dail, Jr., J. E. Winslow, F. J. Forbes, and other directors were enthusiastic in endorsing the project. J. L. Starkey and W. C. Drestbach, were other members of the committee who studied conditions and made the report.

McBrayer's Salary Is Further Reduced

RALEIGH, Aug. 31.—More addition salary were lopped off the income of Dr. L. B. McBrayer, leaving him only the \$5,000 paid him as superintendent of the State Tuberculosis Sanatorium and approximately \$1,900 paid him as postmaster when the North Carolina Tuberculosis association at its annual meeting dropped the item of \$1,200 heretofore paid him from its budget.

HARRIS BROTHERS ARE ACQUITTED IN SLAYING OF JONES

Jury Finds Men Justified in Falkland Township Shooting

Henry and Ivey Harris, of Falkland township who have been on trial in the Pitt county superior court, charged with the killing of Wiley Jones, on the farm of which they are tenants were acquitted today by a jury. Mrs. Jennie Harris, mother of the brothers, indicted also as an accessory before the fact, was also freed.

The tragedy which occurred several weeks ago was the outcome of dispute on the day preceding the killing between Richard Harris and Constable E. Allen, concerning the payment of an account. Trouble was renewed the next day when Allen accompanied by Jones, went to the Harris home. According to the testimony, words were exchanged between Mrs. Harris and Allen when the latter was told that Richard was not at home. The Harris boys then became involved in the dispute, it was shown, and a volley of shot, followed. Jones was killed and Allen wounded.

The brothers were held by the coroner's jury for first degree murder. Subsequently an habeas corpus proceeding before Judge J. Lloyd Horton, at Farmville, the charge was modified and they were released in \$10,000 bond each.

Mayor D. M. Clark, has been their attorney throughout the proceeding. At the trial he was assisted by Attorney Martin, Farmville, Fred L. Sutton, Kinston. Attorney John Paylor, Farmville, P. R. Hines and J. B. James, Greenville, appeared for the prosecution.

Police Chief Jones, And Henry Ross Play Put and Take Game

Chief of Police Lester Jones and Officer Nobles played a game of put and take yesterday with Henry Ross, who lives on one of the farms of O. L. Joyner, just west of the city. Ross conducts a small store near the city and county dividing line. Jones had a tip that Ross had a quantity of liquor. His suspicions were confirmed when he found five gallons of the stuff.

Ross sensing that Jones and Nobles would put in an appearance made his disappearance by taking the air and gobs of space. Jones declines to admit that he has lost as he put the confiscated liquor into his machine.

Finds Infant Waif On Front Porch

ROCKINGHAM, Aug. 31.—Mr. and Mrs. R. S. Leak were awakened early yesterday by the sound of an infant crying on their front porch. Upon investigating Mrs. Leak found a three-weeks old baby wrapped snugly in a pasteboard box, with clothing, food prescription, bottle of Glen, and on a slip of paper, "Born August 2nd," and on another sheet was copied the poem, "Where Did You Come From, Baby Dear." In an envelope was some sugar, and on the front of this envelope was the name, "A. W. Matthews, Tolar-Hart Mills, Fayetteville."

Music by Army Band. ROCKY MOUNT, Aug. 31.—The regular army band of Fort Bragg will be brought here, by the Cumberland post of the American Legion, Fayetteville, to furnish music for the state convention of the Legion Sept. 12 and 13, it is announced. Now that a band has been secured, practically all is in readiness for the gathering of Legionnaires of the state.

SELL AT GORMAN'S

Sales some larger Thursday. Gorman's sold 18,422 pounds, averaging \$21.15. We had several loads of the "hail struck" tobacco in this sale, which cut our average.

Prices some better on the medium and better tobaccos as one of the largest companies started on these grades. We look for larger sales from now out and believe prices on the better grades will get stronger as we get into the crop.

WE HAVE 1ST SALE MONDAY. (ORDER OF SALES WILL BE AS ON PRINTED CARDS FROM NOW OUT.)

DRIFTING TOWARDS INTERNAL STRIFE

Simultaneously with the foundation of a certain secret order several years ago based on racial and religious hatred the rule of the mob became a common occurrence in this country. Groups in various parts of the country set out to judge and condemn men and women and to administer to the victims various kinds of punishment. Men disappeared after being mistreated by agents of this order and their dead bodies were later found, but the heads of the order denied any guilt of their members or even that murder had been committed. These officials have continued to insist upon the innocence of their organization in the face of continued and increasing numbers of cases where the courts strike after federal agencies have failed to

and lawfully constituted authorities were set aside by those administering private vengeance.

But only the other day self admitted members of that organization were caught, handed and confessed to the mistreatment of an aged man whose conduct did not suit them. They were the officials of the organization. The formation of a body of organized that has resulted in the formation of other opposing and hostile bodies, and the natural if unfortunate, result happened Saturday night near Pittsburgh. There Klan and anti-Klan clashed and blood was shed. It is a sad thing to contemplate—a thing even of terror when we consider what it might mean in the future. And good, loyal Americans must awaken and ask themselves very seriously—whither are we drifting?

Sensible men and women know that no race or creed in this country is going to submit meekly to being proscribed, condemned and denied its rights as a free and equal part of the American citizenry. Nor will these races or creeds humbly take invasions of their rights or indignities to their person lying down. Therein is the danger of the whole matter. Unless this campaign of hatred is stopped the country must inevitably drift into internal strife with chaos as the inevitable goal.

What happened at Pittsburgh should be a warning to the intelligent, fair minded, far seeing members of all races and creeds. And these persons should unite to prevent a tragedy growing out of folly.

THE BEST INVITATION

Georgia like many other states in the union has awakened to the fact that the tax situation has a most direct bearing on the future of the state.

After an industry has located in a state it is possible to tax it out of existence to the great detriment of the owners as well as the state.

But you cannot by this method force new industries into the state. The prospective investor who has seen his dividends swallowed up by growing tax demands is becoming exceedingly wary. Not only does he consider the present tax situation before investing but he tries to forecast public sentiment some years into the future.

No state can send out a better advertisement to encourage capital to come in than to show a sound, conservative government backed by a determination on the part of citizens and public officials to maintain reasonable taxation and a square deal for industries.

Firpo is now the Wild Bull of the Pampas, but if we may judge by the amount of it that is going the rounds, the bull will be exhausted by the time Luis meets Dempsey, and he will clamber into the ring just plain wild.

All those who have been away for the summer are expected to be in their place Sunday morning. All friends of the church and visitors in the city are cordially invited to this service and will receive a hearty welcome.

Sarazen Pictures Ideal Golf Game At Strand Today

The privilege of receiving instruction in any branch of sport from the champion himself is one that is denied to all but a very few, but seeing "Golf as Played by Gene Sarazen" on the screen at the Strand theatre today, one can feel that he has received a complete course of instruction from this champion of champions.

The picture shows in a clear and instructive manner, Sarazen's method of using every club and making every shot known to golf. Beginning with the drive from the tee, on the fairway, in the rough, in bunkers and on the putting green, the shots are illustrated first by photography at normal speed and then in slow motion, which slows the action to a point where every posture of the player's body can be observed and studied at every instant of the stroke.

Church Members Should Study the

LAKE JUNALUSKA, Aug. 30.—Rev. Thurston B. Price, evangelist of the Methodist Episcopal church, South, in a sermon this morning before the Bible and evangelistic conference at the Southern Methodist summer assembly here, declared that the church is not a failure, but that if the members of the church would study more closely the teachings and life of Jesus they could make it much more successful.

"He shall not fail," the words of prophecy spoken by Isaiah, was the evangelist's text. The text refers to Jesus Christ.

"If this statement of my text," he began "had been spoken about any other man that ever walked the face of the earth, it would have been proven false long ago. Men have lived, it is true, whose power and fame seemed to be fixed and their ultimate success an assured fact, but history is one long list of their final failures in many ways."

Christ, he said, is the only man who never failed, whose life was crowned with everlasting success.

The church, having its foundation in Christ and his teachings, is not a failure, he reasoned. When honest and thoughtful men are inclined to say that the church is a failure it is not because of the church as a whole, but because of individual members of the church and their errors, the evangelist declared.

"We need not fail," he continued "if we would only learn from a few outstanding facts in His everyday life why it was that He was such a perfect success in His life and contact with men as well as in His great plan, laid in so short a time, for the salvation of the rest of the world."

St. Louis Boasts Fine Orchids. ST. It is a whitish mauve orchid, and Mr. Pring obtained it in Panama.

FRANK MAYO'S "THE BOLTED DOOR" A UNIVERSAL ATTRACTION

Both wives and husbands will be interested in "The Bolted Door," the Universal attraction—starring Frank Mayo at White's theatre today for it deals with an important problem of marriage.

Whether a brand new marriage can be happy where but one party loves, while the other car's for a third party is a delicate question. The manner in which one couple solved the problem has been made an interesting story by George Gibbs, the noted novelist.

Phyllis Haver is leading woman and has a role admirably fitted to her personality and talents as the wife who does not believe that a mechanic's overalls may be worn by a gentleman as well as evening dress.

Nigel Barry plays the villain role, as a special parasite, while Charles A. Stevenson, Kathleen Kirkham and others have important roles.

A Flush of Autumn Pervades This Store

Slowly but surely this store is changing from its summer atmosphere to that of Autumn. Fast arriving fall merchandise is taking the place of the lighter goods—a good sign that Autumn is on the way.

And what indeed could be a better sign, than to see the new things which delineate new thoughts and emphasize anew the originality of American and foreign designers. Looking at them, one can but reach the zenith of enthusiasm.

We cordially invite you to inspect them.

"Get those plugs right side up!"

The RIGHT Way

Say "Polarine!" —not just "a quart of oil"

Practical experience tells the fleet boss many little things that avoid trouble, for example, to mark spark plugs in overhead valve motors so they may always be turned to bring the gap at the top. Then, if you get an excess of oil it runs away from the points and doesn't interrupt the spark. You trust such advice because it's based on common sense and experience.

Experience is the greatest of all teachers, and Polarine Oil has been perfected as the result of two generations of experience in prescribing lubricating oils. You can trust Polarine because its quality is based on experience.

Seaboard States To Assist U. S. In Case Hard Coal Strike

NEW YORK, Aug. 29. — Eleven Atlantic Seaboard states today pledged themselves to do all in their power to aid Federal Fuel Administrator Wadleigh and coal-carrying railroads to minimize the suffering that might follow in the wake of a protracted suspension of anthracite mining after Sept. 1.

Four governors and representatives of seven other states voted, with delegates from the District of Columbia, to co-operate in whatever emergency measures Mr. Wadleigh might undertake. Parties to the agreement included representatives of the Interstate Commerce Commission, the American Railway association, the United States Bureau of Mines and the American Federation of Engineering societies.

Indians Plan to Combat Old Legends Savagry

CHICAGO.—A campaign to eliminate any existing belief that the primitive methods of the American Indian are still employed, will be started at the pow wow to be held here September 24-30, which will bring together the leading members of the remaining Indian tribes.

"It is far the purpose of showing the people of the country that the American Indian, who always has been looked upon as a scalp hunting tribe, is only a kind, intrepid and educated brave enjoying life in his own simple way, that the pow wow is planned," according to Miss Catherine Cook, Indian worker establishing closer relations between the Indians and the department of the interior.

House of Lords Fears For W. Indian Colonies

LONDON. — Fear that American influences may eventually affect the relations between England and the British West Indies has invaded Parliament and caused some members of the House of Lords to urge that the government lose no time in strengthening the existing bonds with the British colonies.

Viscount Burnham has urged that special representation at the Imperial Economic Conference be given the West Indies, and that better communication on the sea and under it be established at once with that part of the Empire.

Talks on Osteopathy

By Dr. F. Fitts

THE EDUCATIONAL REQUIREMENTS OF OSTEOPATHY

The ability of a professional man is measured largely by his training.

Unless that training is exhaustive and thorough, the ability of the individual suffers.

In order that Osteopathic standards may be high, rigid educational requirements are enforced.

The Osteopathic college course is four full years. Nine months of each year must be spent in concentrated study.

In the clinic of the school the Osteopathic Physician demonstrates his competency to correctly diagnose disease conditions and make certain his ability to properly treat them.

He enters practice armed with practical knowledge—the years that come add richly to his store of experience. The training of the Osteopathic Physician is complete. It is exacting. It is thorough.

COURT SHUTDOWN OF LUMBER FIRMS SETS PRECEDENT

JEFFERSON CITY.—Missouri has scored a complete victory over the new form of business combinations known as "open price associations," in a suit brought by Attorney General Jesse W. Barrett against the St. Louis Lumber Trade Exchange. The Missouri Supreme Court ousted each of the nineteen St. Louis, lumber companies composing the exchange, assessed fines totaling \$96,000 and ousted the Exchange itself.

The court sustained the attorney general in holding that the combination violated the State anti-trust laws even though it did not directly fix prices. So far as is known, it is the first decision of any State court on the points involved and follows closely the decision of the United States Supreme Court last year in the hard wood lumber cases, according to Attorney General Barrett.

After the anti-trust decisions of Federal and State courts some fifteen years ago, holding that it was illegal for competitors to come together and agree upon prices, lawyers over the country began searching for a method which would keep within the law and yet advance the interests of their clients, the attorney general said.

Irish Free State May Hold Captives Six Months Longer

DUBLIN.—Recent powers granted the Irish Government have made it clear that there will be no immediate release, in a body, of the 12,000 De Valera followers, including 300 women, who were seized during the late rebellion. The government announces it will continue the present practice of releasing 300 a month. These prisoners are given their liberty on pledge of quiet behavior.

The government made its attitude known following the enactment of a Parliamentary law, permitting the authorities to hold untried prisoners for six months longer. Government officials also pointed out that they have power to make further arrests, if necessary.

Treatment of prisoners continues to be a subject of much discussion and investigation. Protest meetings are held every Sunday in Dublin, where Mrs. Maud Gonne MacBride and Mrs. Despard, sister of the Earl of Ypres, are the chief speakers. They charge that the rebel prisoners suffer from overcrowding in jails, from lack of proper sanitation and insufficient food. Beating of prisoners is frequent, the women claim.

These complaints, when aired in the Dail, bring answers from ministers to the effect that the Republican prisoners are waging a deliberate campaign of disorderliness in jail in order to make political capital of their resulting discomforts. Such was the procedure of the ministers themselves against the British in the old days, the Free State officers say, and they charge that the rebels are imitating the tactics which they employed.

TO THE PEOPLE

I have read where it is stated: "It is a remarkable fact that Sir Isaac Newton, in his work on the prophecies of Daniel and Revelation, said that if they were true it would be necessary that a new mode of traveling should be invented."

He said that the knowledge of mankind would be so increased before a certain date, that they would be able to travel at the rate of 50 miles an hour. Voltaire got hold of this, and, true to the spirit of skepticism of all ages, said, "Now, look at the mighty mind of Newton, who discovered gravitation. But when he became an old man, and got into his dotage, he began to study the book called the Bible, and it seems in order to credit its fabulous nonsense, we must believe that the knowledge of mankind will be so increased that we shall be able to travel at the rate of 50 miles an hour. The poor dotard."

The self-complacency of the philosophic infidel made his friends laugh, but if Voltaire today could get into a fast rated automobile, a railway train, or an airplane even a skeptic of the 20th century would have to say: "Newton was a wise philosopher, Voltaire a poor old dard, played the fool."

The revelations of prophecy are facts which exhibit the divine omniscience. So long as Babylon is in heaps, so long as Nineveh lies empty, void and waste, so long as Egypt is the basest of kingdoms; so long as Tyre is a place for the spreading of nets in the midst of the sea; so long as Israel is scattered among all nations; so long as Jerusalem is trodden under foot of the Gentiles; so long as the great empires of the world march on in their predicted course, so long we have proof that one omniscient mind dictated the predictions of that book, and prophecy came not in old time by the will of man, but holy men of God spoke as they were moved by the Holy Ghost 2 Pet. 1: 21. The fool hath said in his heart, there is no God; Ps. 53:1. Poor Voltaire!

St. Louis Expects 70,000 to See Race

ST. LOUIS.—Preparation of St. Louis Field for the International Air Races to be held here Oct. 1, 2 and 3, is rapidly nearing completion. The work is in charge of Col. Albert T. Perkins and represents, virtually, the construction of a new field.

The site is the old Bridgeton Field, formerly a commercial field but now

the home of the Missouri National Guard air unit.

A unique ceremony was held last month by way of formally dedicating the field. Major Albert B. Lambert took aloft a 150-pound stone and dropped it, with a fair degree of accuracy, near where the first hangar is being built. Officials said this was the first corner-stone ever laid by airplane.

The amount of grading being done to level off the field is equivalent to about 50 miles of ordinary railroad grading. Six steel hangars, 66 by 120 feet, a machine shop and a water tower with a 10,000 gallon capacity also are under construction. Housing arrangements also will be made for the 800 regular army troops, military and civilian flyers and their mechanics who will be at the field during the meet.

Seating arrangements will be provided by the erection of 3,200 boxes, holding six persons each, as well as a promenade to accommodate 50,000. Parking space for 6,000 cars also will be arranged.

Shoulder Stoop Causes Old Age, Says Doctor

PORTSMOUTH.—Dr. Peter MacDonald startled the British Medical association conference here by stating that a stoop of the shoulders causes old age—a direct inversion of the popular theory.

He said that by following the advice of a layman he threw a score of years from his shoulders.

"I was feeling old and decrepit," explained Dr. MacDonald, "when I picked up a book, published by this layman, from a bookstall. I was then a prematurely aged man."

"I saw the author, and he told me that I was old simply because I stooped. Under the treatment he laid down I threw off my stoop, and in a few weeks I became a different man." Dr. MacDonald is an upright, spruce looking man, with an eyeglass and when he stretched himself to his full height and carefully adjusted his monocle he looked barely thirty years of age.
