

What has become of the movement to convert the site adjoining the high school into a community recreation center? That question has been repeatedly put to The Reflector for answer by groups of progressive citizens who want to see the movement organized on a basis which will insure the proposed civic improvement.

bars at meetings of the several Greenville clubs and other civic organizations. They are all unanimous in favor of pushing the enterprise to realization. But the one thing and the only thing that will accomplish the purpose is concerted effort and hard work. That is lacking! Mr. Closs Hearne, has been generous in devoting his time in furtherance of the improvement. Through him plans were drawn by one

of the recognized landscape engineers of the country which would transform the site at comparatively small cost into a beauty spot and community center. Attorneys are too busy to give an hour in the preparation of legal papers to properly organize the plan of procedure, he said.

## U.S. Consul And Wife Among Tokio Dead; Death List Increases

United States Consul at Yokohama and wife among dead. Loss of life now estimated at 300,000. Baptist missionaries safe. Streams clogged with bodies of dead. Nearly half million buildings and homes destroyed. President Coolidge orders all resources of nation be placed at disposal of stricken Japan. Tokio still in flames. Great suffering for lack of food and water. Supplies being rushed. TOKIO, Sept. 4.—According to word received here today, the American consul and his wife at Yokohama are among the victims of the terrible catastrophe which struck that place. The situation here grows more terrible as the hours pass. On every hand the scene of tragedy and desolation becomes more startling. Innumerable bodies of earthquake victims are clogging the Sumida river which flows through Tokio. Thousands of men, women and children overcome by fright have taken their own lives. It is learned that more than 1,000 perished when a bridge in this city collapsed.

The city is still in flames and any definite estimate of the dead and injured and property loss throughout the stricken zone is wild speculation. In Tokio alone, it is known that more than 150,000 are dead. WASHINGTON, Sept. 4.—All members of the embassy staff in Tokio are safe, according to advices received today. The state department was advised that the food situation is very acute and request was made to forward supplies from Manila. The message added that Tokio and Yokohama were wiped out. Without waiting for formal requests President Coolidge as soon as he received press reports of the disaster instructed every department of the government to use all available resource in alleviating as rapidly the appalling condition. All bookings of the shipping board have been cancelled to take aboard food supplies and further aid Admiral Anderson in relief work, it was announced. OSAKA, Sept. 4.—Almost the whole of Tokio and Yokohama have been destroyed by earthquakes, followed by fire, and the loss of life now is estimated at from 120,000 to 200,000 or more. Two hundred thousand houses have burned down in the two cities. Water mains have been broken and food supplies destroyed by fire, so that the people are near starvation and suffering much from thirst. It is reported, but not confirmed, that the section of Tokio where most of its foreign population resided is not greatly damaged. Martial Law Provalled. Martial law has been proclaimed and no one is allowed to enter the stricken districts at the capital, although thousands whose friends or relatives resided there have gathered about the city seeking entrance that they may at least find the bodies of their loved ones. Military and naval forces have been gathered at the Imperial Villa at Nikko for use in controlling the situation, and other forces are on duty in Tokio itself. The air is filled with wild rumors, including the one that the new Premier, Count Yamamoto, was assassinated within a few hours after formation of his cabinet. Fire Gains Headway. The reason for the rapid spread of the fire, which took such an awful toll in Tokio, came to light when it was learned that he pipes conveying gas for lighting and heating purposes throughout the city were broken by the earthquake, which shook and twisted the ground almost unbelievably. The escaping gas promptly caught fire in dozens of places, each outburst a torch that set alight dwellings on all sides. Thus, the whole lower section of Tokio was kindled at once into an inferno of flaring gas torches from the breaks in the mains, blazing wooden dwellings and glowing metal beams and girders from the newer and more modern structures, heated by the flames. Normal Institute Opening. HENDERSON, Sept. 4.—The Henderson Normal Institute will open for the fall session September 5, it is announced by J. A. Cotton, principal. The shipping board have been cancelled to take aboard food supplies and further aid Admiral Anderson in relief work, it was announced.

## COURT DEFERS HEARING COOPER FRAUD CHARGE

RALEIGH, Sept. 4.—United States Judge Henry G. Connor has continued the hearing on motions involving allegations of fraud by Lieutenant Governor W. B. Cooper and Thomas E. Cooper, his brother, who has also been prominent in political circles. Both men have been arrested and placed under bonds on United States warrants charging them with criminal acts in connection with the management of the defunct bank but the motions now pending before Judge Connor have arisen in numerous civil suits brought by the receiver of the defunct bank in an effort to collect from stockholders the assessment of 100 per cent of the value of their stock. The hearing was continued for the convenience of attorneys and another date will be fixed by the opposing counsel.

## FEAR FOR SAFETY CAROLINA MISSION JAPAN WORKERS

NASHVILLE, TENN., Sept. 4.—Word is awaited by cable or radio here, by the Methodist Mission board of the fate of the missionaries who departed on the President Madison, which sailed from Seattle, Wash., on Aug. 18, and was expected to reach Yokohama about Aug. 29. Methodist missionaries who embarked on the President Madison were Miss Mary Bell Winn, of Columbia, S. C.; Miss Alma Brandt, of Louisville, Mo.; Miss Anne Peavy, Byron, Ga.; Miss Moselle Tuzin, Winder, Ga.; Miss Cornelia Crozier, Fayetteville, Ark.; Miss M. Elston Rowland, Maryville, Tenn., and Mr. and Mrs. Stewart and daughter, Lillian, of North Carolina, it is announced by Dr. W. W. Pinson, secretary of the general board of missions. There were no Baptist missionaries on the President Madison, it was announced at Baptist headquarters.

## Texan to Get Post As Envoy to Mexico

WASHINGTON, Sept. 4.—Selection of an Ambassador to Mexico to which President Coolidge and Secretary Hughes are known to have devoted some attention probably will be made before the end of this month. It is regarded as probable in official circles here that the post will go to R. B. Greager, of Brownsville, Texas, who is known to have been the choice of President Harding and whose recent conference here with President Coolidge are said to have resulted in a favorable consideration of his name by the present Chief Executive.

## Fears of Live Stock Men Not Founded

WASHINGTON, Sept. 4.—President Coolidge was advised today by Fred Starek, director of the war finance corporation that the corporation, despite apprehensions by some western cattle men, had no intention of forcing liquidation of cattle loans. Starek informed the President during an hour's conference that the policy of the corporation was to deal liberally with the cattle men to whom credit had been extended and who must have longer term loans than farmers who have a yearly turnover.

## PRISONERS EAT TO TUNES JAZZY MUSICAL STRAINS

WASHINGTON, N. C., Sept. 4.—Prisoners in the Beaufort jail "have music while they eat." Sheriff Harris' son, George, a deputy sheriff, is a saxophonist and then George wants to play his instrument he goes to the jail to do it. Some persons say that it is very thoughtful of Sheriff Harris to allow the prisoners this entertainment, but other persons have not expressed their opinion of the matter.

## HEADS OF THE NEW RUSSIAN UNION

Above: M. Kalinin & G. I. Petrovsky. Below: A. G. Chervyakov & N. Narimanov.

Michael Kalinin is president of the new Russian Federation of states. He is known as the Peasant president. In spite of his title he has never lost his close personal connection with the village in which he was born. One time kitchen boy for a Russian baroness, he is now touring the Far Eastern provinces of Russia, where he receives ovations everywhere. Nariman Narimanov, a Tartar, is president of the republic of Transcaucasia one of the republics in the Russian Federation. A. G. Chervyakov, president of the republic of White Russia, is acting as head of the Federation while Kalinin is on his tour. G. I. Petrovsky, a member of the Duma from 1912 to 1914, is president of the Ukraine republic, a member of the Federation.

## PRESIDENT COOLIDGE CALLS ON U. S. PEOPLE AID STRICKEN JAPAN

WASHINGTON, Sept. 4.—An appeal to the American people to contribute to the relief of the people of Japan was issued today by President Coolidge. The American Red Cross was designated as the organization to which relief contributions should be transmitted. At the same time it was made clear that such assistance was within the means of the executive branch of the government would also be rendered. The text of the appeal follows: "To the People of the United States: "An overwhelming disaster has overtaken the people of the friendly nation of Japan. While its extent has not as yet been officially reported, enough is known to justify statement that the cities of Tokio and Yokohama and surrounding towns and villages, have been largely, if not completely destroyed by earthquake, fire and flood, with a result an appalling loss of life and destitution and distress, requiring measures of urgent relief. Such assistance as is within the means of the executive department of the government will be rendered; but realizing the great suffering which now needs relief and will need relief for days to come, I am prompted to appeal urgently to the American people, whose sympathies have always been so comprehensive, to contribute in aiding the unfortunate and in giving relief to the people of Japan. "In order that the utmost co-ordination and effectiveness in the administration of the relief funds be obtained, I recommend that all contributions, clearly designated, be sent to the chairman of the American National Red Cross at Washington or to any of the local Red Cross chapters for transmission to Japan." Immediately after the President's proclamation was made public the American Red Cross announced that it had started a relief fund with a contribution of \$100,000. In addition, it has appropriated from its reserve funds \$10,000 for the assistance of Americans in the disaster zone.

## W. B. Albritton Dies At His Home Today

Mr. W. B. Albritton, aged 68, died this morning at 5:15 o'clock at his home a few miles from Washington. Interment will take place tomorrow in the family burying ground near this city. Mr. Albritton was a former citizen of this county but for the past three years he has lived in Beaufort county. He was held in high esteem by a host of admiring friends. The deceased is survived by his wife and four children, Mr. B. G. Albritton and Mrs. W. E. Moore, of this city and two small children. He also leaves two sisters, Mrs. Nan Anderson and Mrs. Louisa Greene both of this city.

## Youth Killed In Dive Against Log

CLINTON, Sept. 4.—Tragedy stalked aboard in this county the past two days. Elliott Sikes, son of Dr. G. S. Sikes of Salem, 17, is dead as a consequence of a dive against log or stump in the Salem swimming hole in Little Cobaria. A number of the youth of Salem were at their daily frolic in the water of the nearby creek when the accident occurred. Haste was made to call the young man's father. He was hurried to Pittman's hospital at Fayetteville. The spinal column was found to be broken. He died yesterday.

## Italy Holds League of Nations Incompetent Pass On Controversy

JAPANESE HORROR PREDICTED 2 YEARS AGO, BY SCIENTIST WASHINGTON, Sept. 4.—The probable cause of the great earthquake in Japan will not be known for many weeks, according to Father Francis Tondorf, astronomer and seismologist of Georgetown University here. It is likely, he added, that the tremors will be found to have been "tectonic," or caused by the slipping of rock strata at great depths due to faulting or tensile stresses. Father Tondorf, considered one of the world eminent seismologists, was the first observer in this country to report that a catastrophe had occurred. In this connection Father Tondorf recalled a scientific prophecy made by a Japanese seismologist in June, 1921, that within six years Japan would be visited by a great catastrophic quake.

LONDON, Sept. 4.—A Central News dispatch from Rome today says that Premier Mussolini has instructed the representatives of that country at the session of the league of nations to maintain the position that the league is incompetent to deal with the questions involving the honor of Italy in its controversy with Greece. GENEVA, Sept. 4.—The Greek spokesman at the council meeting of the league of nations today, proposed that the Greco-Italian quarrel be referred to a neutral commission for settlement. He offered to deposit 50,000,000 lire in a Swiss bank as a guarantee. The council will consider the proposal later.

LONDON, Sept. 4.—The prospects of an early settlement are not improved. The Italian government takes the stand that it did not sign the treaty of 1864, which confirmed the neutrality of Corfu, and therefore is not bound by the treaty. Further Premier Mussolini has instructed the Italian representatives at Geneva to abstain from further discussion of the affair, and the only hopeful aspect is that Italy seems disposed to have the court of international justice pronounce on the League's competency to deal with such an international dispute.

## Confederates Gather In Twin Cities For Big Annual Meeting

WINSTON-SALEM, Sept. 4.—Confederate veterans from every section of North Carolina are here for the annual reunion which opened today. As the veterans arrive they are registered and assigned to their places of entertainment. Waiting automobiles carry them to their places, as soon as the registration has been completed. Each veteran that registers is given an assignment card, a program, meal tickets if they are not assigned to private homes, a badge and a ticket to the auditorium Wednesday evening.

## Railroads Will Tell How to Pack Furniture

NEW YORK.—A campaign national in scope and in many ways unlike any previous movement undertaken by the railroads of America, was begun yesterday and will be carried on throughout the month of September with these objectives in view: 1. Reduction of loss of and damage to the public's personal belongings when transported by rail. 2. Dissemination of information regarding the proper packing of household goods when prepared for rail shipment. 3. Education of the many thousands of railroad freight agents along the lines of proper marking, packing, boxing and crating of household goods.

## Charges Villa Burned 200 Captives to Death

MEXICO CITY.—The shooting and burning alive of 200 prisoners by the late bandit leader Francisco Villa in Chihuahua after the battle San Andres de la Sierra on Sept. 6, 1913, is related in a letter from one of the 200 war, about equally divided between wounded and un-wounded, according to the story, and many of them, still alive after falling before the fire of the execution squads, were thrown screaming on the great pyre of oil-soaked timber which had been prepared and set ablaze.

## Japs Born in America Urged to Quit Mikado

HONOLULU.—American-born Japanese have been urged to expatriate themselves from Japan, to avoid the evils of dual citizenship, by Keiichi Yamasaki, Japanese consul-general here, in an address before the student teachers at the summer session of the territorial normal school. He asked the teachers to explain to their American-born pupils of Japanese parentage the difficulties arising from dual citizenship and to advise them to expatriate themselves. Mr. Julian Rawls, of Kinston, spent today here with friends.

## JUDGE COOPER IN COUNTY COURT CLEARS UP BIG DOCKET IN DAY

The entire day was required to clean up the docket in county court yesterday. The first case was called before Judge L. G. Cooper at 9 o'clock and court did not adjourn until after 4 p. m. Cases included: John Hammond, fined \$50 and costs for selling liquor; John Johnson, larceny transferred to juvenile court; Alfred Tripp, assault, continued; A. B. Harchison, possession of liquor, \$10 and cost; Charley Blount threatening to kill, transferred to superior court; Charles Vilk, receiving, selling and having liquor in possession, cost; John Simmons, manufacturing and selling liquor, six months on roads; Percy O. EDUCATION FOR ALL

The demand for popular education to include all the people is rapidly growing and will soon manifest itself in state-wide programs for all citizens of all occupations and all ages, men, women and children, who cannot obtain formal instruction in schools and colleges.

These rather remarkable conclusions are drawn by Dr. Charles G. Maphis, of the University Extension Association, and who recently completed for the Federal Bureau of Education a careful survey of this field.

Dr. Maphis insists that in spite of the great increase of enrollment in the secondary schools and colleges, extension teaching has been the outstanding feature of educational effort in this country for the last two years, and has surpassed any other form of educational development. This growth, he declares is not ephemeral, but substantial, has resulted in setting and maintaining higher standards, and educators in all parts of the country are becoming convinced of its importance and of its real value.

While it was only a few years ago that the first of these extension courses was started, today such courses are offered by virtually every university, college, normal school, technical school and professional school, whether public or private. Justification of the use of public funds for the maintenance of these courses is found in the fact, now recognized by all commonwealths, that education is generally an asset and that an illiterate citizen is a liability in any community. It is upon this principle that the United States has entered upon the most gigantic educational task ever undertaken by any nation, and there is very indication that the effort will not prove a failure.

Through these extension courses many thousands of persons are offered educational advantages that were never within their reach before; but this does not mean that all will grasp the opportunities and make good use of them. While there has been a great reduction in illiteracy in this country within the last decade, there still remain sections where widespread ignorance prevails. Examinations by draft boards at the time of the World War showed an astonishing number of young men who had never been to school, could neither read nor write, and had oddly indefinite views of the government under which they lived.

The field is still open for vast improvement, but no doubt a steady advance is being made in the right direction. These extension courses are lending their aid in a work that must be done to insure the welfare of the people and the safety of the republic.

SAVING THE BABIES

Investigation by the Children's Bureau of the United States Department of Labor have disclosed a number of interesting facts concerning the causes of infant mortality in the United States. With the birth rate of many cities causing grave concern by its failure to climb, and with the death rate among babies unreasonably high in communities otherwise healthy, it has appeared for some time that every effort ought to be made to save as many infant lives as possible, for the sake of America's future, if for no other reason.

Sociologists will find much food for thought in the report of the Children's Bureau relative to the financial standing of families with babies to care for.

One of the most striking facts discovered was that babies die faster among poor families than among the well-to-do and wealthy, not because there are more poor babies, but because the babies of families without sufficient means to care for infants are subjected to greater hardships and encounter more handicaps in the struggle for existence.

Apparently, it is not a question of vitality so much as of proper food and care. If a poor mother is obliged to go out to work leaving her baby in the care of other persons, often young children, the baby may fail to survive those first critical months of life.

On the other hand, it is of great interest to observe that the babies of Jewish mothers, regardless of financial consideration, appear to survive better than those of other racial stocks. The Jewish mother is schooled in ancient traditions regarding health laws. She cares for her baby herself, attends to its feeding and watches faithfully over every detail of its life during the first months of its tender young life.

Of course, behind this care is a long line of ancestors who have obeyed health laws, thus insuring the infant a good start on its way into life. The combination is one that might well be studied and used as a model by other racial stocks which go to make up the complex life of America.

If America is not to imitate Germany in accelerating the work of the stork, it behooves this republic to give to the babies it has the best care that can be obtained for them.

This month the oyster returns to the stew.

How fractions fascinate: New York Doctors have removed half a man's stomach, and Mayor Shanks of Indianapolis has sold half of a racehorse.

It is entirely natural that the American Bar association should resent any curb on the power of the supreme court; every attorney is a potential supreme court justice.

Teachers of dancing would make vulgar displays of their art physically impossible. All right, hang a barrel on each dancer.

Co-Op spellbinders and other hirelings are still prating about the growing strength of the organization; but no reference has been made when farmers are going to get final payments for tobacco sold last year. Loyalty and faith are fine qualities, but don't ring anything up in the cash register, when based on a forlorn hope.

They say that the wild western "thriller" is coming back to the movie screen. Didn't know that it had been away.

## Carlos Will Repeat Free Show Tonight

Carlos the man who does thrilling mid-air stunts, will repeat his performance this evening at 7 o'clock from the Strand theatre building. Considerable effect will be added to the free show when he is hoisted to the top of the building strapped in a straight jacket from which he frees himself suspended by one foot, when large colored illuminating fuses will be employed. Later he will give a high class vaudeville act at the Strand.

In addition, the Strand is showing without extra charge the masterpiece of the screen "Mighty Lak' A Rose." The house was filled to capacity last night.

## A Wonderful Cast Seen in "The Fog"

Nathan Forge, as played by Cullen Landis in "The Fog," at White's theatre, is just such a youth as Kipling must have had in mind when he wrote "If"—one who could meet every emergency. And there were plenty of things to stand up against—a scheming, hypocritical father, poverty, blasted love affairs, disillusionment and misrepresentations that kept the sensitive boy in a maze of fog until he found the ideal love of which he dreamed. Nathan Forge is one of the best character studies we have ever seen on the screen, and he is portrayed by Cullen Landis with fine sympathy and restraint.

Mildred Harris gives a beautiful interpretation of a difficult role as Madeline Theldon, the girl whose love was the light that pierced through the fog of Nathan's life and brought him happiness.

## DOCTORS INVITED ATTEND OPENING OF NEW HOSPITAL

The Fifth Street Hospital at Greenville is now open for the care of patients.

This hospital is a unit of the Pitt Community Hospital, and is situated in the Dail Apartment on Fifth street, just below Cotanch.

A public reception will be given in the Fifth Street Hospital on Friday evening, September 7, from 8 to 10, to which the people of Pitt and adjoining counties are invited.

The Hospital management will appreciate it very much if all the Doctors and Dentists, with their wives, will be present on this occasion in order to meet and assist in welcoming the people who come.

A place is being reserved for you and your presence will be greatly appreciated.

Very sincerely,  
PITT COMMUNITY HOSPITAL.

## SWEET POTATO SYRUP IS THE LATEST DELICACY

WASHINGTON.—A table and cooking syrup made from sweet potatoes is the latest addition to the culinary arts made by the department of agriculture.

Through experiments conducted at a small plant in Georgia over a period of several years department chemists were able to produce a syrup which, it is said, has possibilities not only for table and cooking purposes, but also in making candies such as taffies, kisses and caramels.

## AMERICAN SUBWAY EXPERT MAY BUILD TOKIO SYSTEM

TOKIO.—John W. Doty, subway expert and president of the Foundation Company of New York, has just arrived in Japan to consider the project of constructing a complete subway system for Tokio.

Mr. Doty said his company was willing to invest 40,000,000 yen, about \$20,000,000 in the project if a satisfactory agreement was reached which would have to include backing by the municipal or national government.

## UNIVERSITY STUDENT

CHAPEL HILL, Sept. 4. — The opening of the University of North Carolina for registration on September 18 will find 2,200 students waiting to be enrolled, according to indications at the office of Dr. Thomas J. Wilson, registrar. This will be an increase of virtually 250 over last year.

Dormitory space is at a premium and the university is counting on the rooming houses taking care of the overflow. The freshman class will be the largest in the history of the university, officials say.

## Labor Agent Serving Time.

HENDERSON, Sept. 4. — C. B. Holmes of Washington, D. C., is working on the county roads for soliciting labor here. Holmes was convicted in city court recently for soliciting labor for a Washington, D. C., paving contractor, and fined \$200 and the costs and ordered to pay license fees aggregating \$400 more. He was unable to pay the fines and was sent to the roads to work them out.

**The Corseting of the Young Girl**

It is not such a simple matter as might be supposed. Just a light soft little corset is required, to be sure, but it must be correctly designed and firm enough to give support to the back, to brace the shoulders and to prevent any enlargement of the diaphragm.

It must give that poise which will make her frocks look smart—and, above all, it must be completely comfortable.

Redfern Corsets for slim, girlish figures are ideal in every particular. A fitting will demonstrate their unusual qualities. And let us show you some of our special front-lace models for slight figures. They are so easy to adjust and so comfortable that most young girls prefer them both for every-day wear and for dancing.

## CALVIN COOLIDGE WAS POPULAR AS COLLEGE ORATOR

OAKLAND, CAL.—President Calvin Coolidge, referred to as "C. C.," was always worth hearing when in college, according to a biographical sketch in the annual published in connection with the twenty-fifth reunion of the class of '95 at New York in 1920, a copy of which is owned here by Nelson Kingland, newspaperman and classmate of the new president. The book contains the following sketch on Coolidge:

"Other folk, may think Calvin Coolidge is famous because he has been a member of the city council of Northampton, city solicitor for Northampton, clerk of the courts of Hampshire county, member of Massachusetts senate, lieutenant governor of Massachusetts, governor of Massachusetts.

"We of '95 know that he is famous just because he is Calvin Coolidge. That is why we used to listen so eagerly to him when he was in college, and why we made him Give Orator in senior year. Where on the Hyde Fifteen or at a boarding house table, or anywhere else when 'C. C.' spoke, he always said something worth hearing. In senior year he won the medal offered by the Sons of the Revolution for the best essay on the 'Principles of the War for American Independence,' competing with undergraduates in all American colleges.

## G. A. R. VETS TO SEE MODERN WARFARE IN SHAM BATTLE

MILWAUKEE.—In sharp contrast to the now obsolete methods of warfare, which remain so vividly in the minds of the veterans of the Grand Army of the Republic, a huge and spectacular sham battle in which all of the modern implements of both land and naval warfare will be employed, is to be presented as one of the entertainment features at the 57th Annual Encampment of the organization here September 2-7.

This will be the second time that Milwaukee has been so honored, for many veterans still recall the good times they had in this city 34 years ago. Nearly 20,000 of the veterans visited De Moines during the 1922 encampment. A minimum of 35,000 persons will attend the encampment, according to James H. Williamson, executive secretary in charge of arrangements. The local committee, however, had made preparations to house 50,000 persons during the week, every available accommodation in the city being utilized. The colored population of the city has arranged through the Urban League to entertain the colored veterans.

## Outline New Laws To Curtail Deaths From Automobiles

CHICAGO.—An intelligent test for the man or woman who drives a motor car is a possibility within the next two or three years. Representatives of 13 middle western states are to be invited to attend the Conference of Motor Vehicle Administrators, representing state automobile licensing bureaus, to be held here early in September, at which plans will be made for working out safety-first laws for automobilists and pedestrians. The movement is being fostered by the National Safety Council. The convention is to be called by Fred M. Reynolds, chief of

the public safety division of the National Safety Council.  
"The man who drives a car for somebody else must pass an examination," said Walter W. Miller, chief clerk of the automobile division of the Illinois department of state. But anybody can drive an automobile if he owns it, whether he has ordinary horse sense or not.  
"The accidents do not happen to licensed chauffeurs. They happen to the unskilled drivers. The conference will make plans for uniform laws to govern the licensing of automobile operators to see if they are sufficiently competent mentally to handle a motor driven vehicle. Some form of intelligence test is likely to be devised."

## Progress of Aviation Pictured At Meeting

ST. LOUIS.—An historical exhibition showing the development of aviation will be a feature of the International Air Races to be held here Oct. 1 to 3.  
In making this announcement, B. F. Bush, director general of the St. Louis Air Board, asserted that through the co-operation of the Army Navy, the Aero Mail Service, and the Aeronautical Chamber of Commerce, the most complete collection of aircraft ever assembled in one city would be exhibited.

Four of the types of planes used in the world war will be on display. They are the French pursuit plane, the Spad owned by Eddie Rickenbacker, American ace, and the B. A. and the Fokker, used by the British and the Germans, respectively.

## British Women Ready To Fight For Rights

LONDON.—That women have been deliberately hoaxed by men lawmakers is the deepening suspicion of feminist leaders in England. So strong is the feeling that a deputation representing the principal organizations of women throughout the country is to wait upon the Home secretary to urge amendment of the Sex Disqualification Removal Act.

In the opening sentence of the act it is laid down that a person shall not be disqualified by sex or marriage from the exercise of any public function. It is now clear, say the feminist, that whenever it is challenged the act fails to secure sex equality. Its chief effect has been to enable women to sit on juries which, rightly or wrongly, is regarded by most English people as a penalty rather than a privilege of equal citizenship. Further, women have been admitted as lawyers, but this is because the legal societies have accepted the spirit of the act and have not chosen to challenge its letter. Apart from these points the act, according to its women critics, has signally failed in some vital particulars.

## Mighty Battleship Added to the Ranks Of American Navy

WASHINGTON.—The addition of the battleship Colorado, which was commissioned at Camden, New Jersey today, to the United States battle fleet once more places the navy in undisputed possession of the most powerful fighting machine afloat.  
Naval engineers of the principal maritime powers practically without exception have conceded that the 33,000-ton, 21 knot monster, electrically equipped throughout and with the ability to toss eight tons of metal and explosives 34,500 yards, is with-

out an equal on any of the seven seas.  
Formal acceptance of the Colorado by the navy department today marks the end of the work of rounding out the first line of the United States battle fleet as allotted by the five-power treaty. During the next eight years—until 1931—no keel will be laid in any American yard for a first class naval ship. In that year work will be begun on ships to replace three of the present fleet.

The new Queen of the Seas is described in marine circles as "a vast experimental laboratory." The most advanced designs in ship equipment of every sort have been installed, from her huge propelling motors to the dimly electric potato peelers in the galley. These will be tested arduously and the results placed at the disposal of American shipbuilders for their guidance in building the national merchant marine and the future navy.

Authorized in the navy bill of 1918, the Colorado was constructed at the Camden yards of the New York Shipbuilding Company on a "cost plus fee" basis which brought her total cost to \$27,000,000.

### Firpo Holds Strange Prize Ring History, Only Known 2 Years

NEW YORK, Sept. 3.—Luis Angel Firpo, ex-stevedore, the son of an Italian emigrant to the Argentine, has scaled the pugilistic heights to challenge for the world's heavy weight title after one of the strangest, most picturesque careers the prize ring has ever known. Not heard of two years ago, he is matched to fight Jack Dempsey, the champion, at the Polo Grounds on Sept. 14.

Big, strong and possessed of a powerful punch, Firpo is recognized by boxing critics here as a dangerous contender for the title, but back in his native Argentine, Luis is more than that—he is a national hero.

Firpo's early career in the land of the pampas gave little forecast of the athletic prowess he was to gain. Born October 29, 1895, nearly 28 years ago in Buenos Aires, he had little but size and ruggedness to recommend him as a ring prospect. His father, a native of Genoa, Italy, emigrated to the Argentine at an early age. Enrique Firpo was small of stature but his wife, born of Spanish parents in the Argentine, was of much larger build and from her Luis inherited his size. The mother died several years ago, leaving an older brother and a younger sister, besides Luis. The father is now employed in the government railroad offices at Buenos Aires.

Before turning to pugilism as a means of livelihood, Firpo had a variety of occupations, doing odd work as a stevedore for some time. He also earned a little as a bootblack and had another job as a bottle-washer in a drug store—the foundation upon which was built the legend that he once was a drug clerk.

Firpo, however, lived under the drudgery of these tasks and devoted most of his spare time to athletics, where he demonstrated all-round prowess through natural aptitude and physical qualifications. He had read of the achievements of the world's great pugilists and one day when a friend took him to a gymnasium he seized a chance to enter the ring against an amateur named Angel Rodriguez.

### U. S. Workmen Best Cared For In World, Asserts Sec'y. Davis

BIRMINGHAM, Ala., Sept. 3.—Both workmen and employers are better off in America than anywhere in the world today and while everywhere else there is political and economic chaos, only in this country that employer and workman are moving steadily forward under the banner of industrial peace and prosperity. James J. Davis, secretary of labor, declared today in a Labor Day address here.

A broad unemployment is the rule, he said, and wages are low, many workers being paid a mere subsistence wage, while in America wages generally are as high as they have ever been and every workman who is willing and able to work has the opportunity to fill a job. The secretary, who recently returned from a trip to Europe, asserted he is more and more convinced of the wisdom of the conviction of our late President, Warren G. Harding, in his belief that the hope of the world lies in this country.

"Both through the pay envelope and through various systems of piece-work sharing," Mr. Davis said, "many industries are reaching that condition of an equitable division of the proceeds of production between the men who manage labor and the men who labor makes industry possible. On this basis alone can we insure permanent progress and growing prosperity."

This Labor Day, the secretary said, finds the workmen and women of America at the close of 12 months of steady progress of peace and prosperity, but marred by the great loss—the death of Warren G. Harding, Mr. Harding, said the secretary, was a great friend of America's toilers.

### English Wig Etiquette Keeps Lawyers Tiptoe

LONDON.—The etiquette which governs the wearing of the legal wig is weird and hysterical, and awful things may happen to the lawyer who disregards this etiquette, for a judge may then refuse to hear him and order him out of court.

H. P. Macmillan is one of the foremost dabble-wigged lawyers and gave an amusing exhibition the other day of his thorough mastery of the etiquette of the wig.

He had to argue an appeal at the Bar of the House of Lords. He also had to oppose a private bill in committee upstairs. At the bar of the House of Lords it is essential that a K. C. should wear his full bottom wig, otherwise he would be refused a hearing. But before a committee he must wear his bob wig to command a hearing.

### Prince to Live Quietly On Canadian Ranch

CALGARY, Alta.—When the Prince of Wales visits his ranch near High River, Alta., this fall, he will travel from England in an unofficial capacity as the Duke of Cornwall, according to W. L. Carlyle, manager of the establishment, who has recently returned from England. The prince will stay here quietly several weeks, and then return direct to London.

The ranch of the prince is one of the foremost livestock breeding establishments in western Canada. He bought it four years ago on his last visit and since then has stocked it with a large number of thoroughbred horses, Shorthorn cattle, Shropshire sheep, and Dartmoor ponies.

## Merchant Praises For Remarkable Recovery

W. F. Penny, prominent merchant of Hendersonville, N. C., and a leader in the civic and business affairs of his section, lends his name to further the cause of Tanlac, the treatment that has been so beneficial to him.

"For many years," said Mr. Penny recently, "I was a great sufferer from stomach trouble and ulceration finally made several operations necessary. Utter lack of digestive power

over a long period had so weakened me that I was hardly able to get about and I was practically unfit for my duties. I slept but little, and was also extremely nervous.

"Tanlac seemed to reach the seat of my trouble exactly. I began to improve almost immediately, and so kept up the treatment until all signs of my stomach trouble have vanished, and now I have normal strength and energy to actively attend to all

above has been commenced in the superior court of Pitt county, North Carolina, to obtain absolute divorce from the above named William Nathan Sanders, and the said defendant will further take notice that he is required to appear before the undersigned clerk of the superior court of Pitt county, North Carolina, at his office in Greenville, Pitt county, North Carolina, within 20 days after Sept. 28, 1923, and answer or demur to the complaint in said action, or the plaintiff will apply to the court for the relief demanded in said complaint. This the 28th day of August, 1923.

## At Night— The best dish you can serve a child is a bowl of milk with Puffed Wheat

Do you believe that children need whole wheat, daily and in plenty?  
Then serve them Quaker Puffed Wheat in their bowls of milk. These are whole grains steam exploded—puffed to 8 times normal size. The food cells are broken for easy digestion. And the thin, crisp, toasted grains make the dish delightful.  
Quaker Puffed Wheat supplies 12 minerals which growing children must have. It provides the needed bran, and milk supplies the vitamins.  
In the morning serve Quaker Puffed Rice—the premier breakfast dietary.  
These are food confections. Children revel in them. Thus they get whole-grain nutrition in the finest form created.

### Advice from Cleopatra

"Use Palmolive" the royal message would be, because it is blended from the same palm and olive oils Cleopatra used to enhance the beauty of her complexion. Their lotion-like cosmetic qualities are imparted to the smooth, creamy Palmolive lather. That is why it is the most soothing and beneficial of all cleansers.

Best of all, the popularity of Palmolive makes it popular priced; although it is the purest and finest facial soap modern science can produce, you can afford it for every toilet purpose.
