

A self-styled American critic of American people and institutions has broken into print with a collection of adjectives which describe us all as "timorous," "sniveling," "poltroonish," "ignominious," etc. The government is called "corrupt" and judiciary "stupid and dishonest." Quite an indictment, but equally untrue. No person pays attention to such mouthings.

However, it is possible there may be some benefit in such an outburst if only to illustrate the impossibility of accomplishing anything by destructive criticism. Such criticism makes thinking people laugh, but there are many with more moderation, if no more good sense who utter drastic criticisms with no thought of suggesting remedies.

There are wrongs without number in this great land. There is poverty, illiteracy, crime and intolerance. But calling names will not remedy such conditions. Do away with crime through better laws, even handed justice; cut red tape; knock un-American practices on the head. Fight intolerance with toleration, but think to combat none of these evils by calling names! It won't work.

ORDER GREEK FLEET TO AVOID CONTACT WITH ITALIAN SHIPS

Suspected Assassians of Boundary Mission Members Held

ATHENS, Sept. 6.—The Greek fleet has received orders to retire to the Gulf of Volo to avoid contact with Italian fleet which, according to good authorities, is cruising in those waters. The Gulf of Volo is an arm of the Aegean sea on the eastern side of the peninsula and 80 miles from Athens.

LONDON, Sept. 6.—A Central News dispatch from Rome says that Italians have occupied three islands near Corfu.

MILAN, Sept. 6.—According to advices received here today, the Greek government is on the track of the assassins of the members of the slain boundary commissioners. Two suspects are under arrest and the two others are being hunted along the Albania-Greco border.

GENEVA, SEPT. 7.—Signor Salandra's entire argument today was that the questions arising from the assassination of the Italian mission should be settled by the Council of Ambassadors and not by the League, because it was the ambassadorial body which had appointed the mission to fix the frontier between Albania and Greece. That body was the living organism of the great peace conference and was empowered with the execution of the terms of treaties.

Greece is Accused
The head of the Italian delegation accused Greece of cleverly seeking to escape from her responsibility and diverting world attention from the murder of the Italian officers to Italy's seizure of Corfu by denouncing this seizure as an act of dangerous aggressions.

It was not Signor Salandra, but Mussolini, who seemed to be addressing the council of the league today at its dramatic session. As the good natured appearing former Premier read his fateful message, the crowded council chamber thought to hear in fancy not the voice of Salandra, but that of his Fascist chief and leader who has suddenly loomed up on the stage of Europe.

To Defend Dignity
No state would wish to belong to the league, read Signor Salandra, if membership meant renunciation of the right to defend its national dignity. Italy had not menaced world peace and there was not sufficient reason for the application of the articles of the covenant cited by Greece which were founded on the supposition that danger of war existed. Until the ambassadorial body pronounced judgment, he contended, any action by the league was out of place, because of the league's evident incompetency.

POWDER MANUFACTURERS TO PROTECT GAME BIRDS

WILMINGTON.—The extensive areas of unoccupied land connected with the Du Pont explosive plants in the United States, amounting to 36,344 acres, are to be used as sanctuaries where game and insectivorous birds will be protected. The Sporting-Powder Division of the company announced that this step was being taken in connection with its plans for the better preservation of game. Several of the plants have already been stocked and the game has multiplied and been protected to such an extent that it is said to be supplying the surrounding country.

U. S. ENVOY SAFE; JAPANESE PRINCE KILLED IN DISASTER

Prince Yamashina & Ambassador Woods.
Fears for the safety of Cyrus E. Woods, United States ambassador to Japan were expressed when first news of the earthquake reached this country. However, messages received yesterday state that Woods and the entire embassy staff are safe. Woods is shown here with Prince Yamashina, a prince of the royal house of Japan who was killed in the Tokyo catastrophe.

Well Fed Hogs Up In Price, He Says

RALEIGH, Sept. 6.—An agricultural report public by W. W. Shay, swine extension specialist for State College and the department of agriculture, offers advice to hog breeders concerning marketing their swine. "Year after year," the report reads, "during December and January when the price of hogs is at the lowest point, farmers of North Carolina and the cotton belt generally sell their only and undesirable hogs at a loss. The average of 20 years, prices for city hogs for these two months has been below cost of production. The price of hogs at the present time, even in the face of a surplus, will show a profit if the hogs are of good quality and have been intelligently fed."

Church Missionaries In Japan Are Safe

NASHVILLE, TENN., Sept. 7.—All Southern Presbyterian mission workers in Japan are reported safe, according to a message received today by the executive committee on foreign missions.

Dr. William Pinson, secretary in charge of the oriental field work of the Methodist Missionary Board, also received word from Shanghai that all missionaries aboard the steamer President Madison had reached Shanghai Aug. 31, safe.

Jail Delivery Stirr Sofia.
SOFIA, Bulgaria.—One of the most sensational jail deliveries in the history of Balkan politics came to light here in the announcement by the director of public safety that two local prisoners, taken during the seizure of Stamboulsky benches, had escaped.

Ford Confers With President Coolidge On Muscle Shoals

WASHINGTON, Sept. 7.—Negotiations between the government and Henry Ford for the latter's acquisition of the Muscle Shoals Alabama power and nitrate plant, were resumed today.
Ford accompanied by his son Edsel Ford and an engineer came here for a conference with Secretary of War Weeks, regarding the proposed operation of the big plant by the Detroit manufacturer. Later he called on President Coolidge and discussed the matter with him for a brief time.
Nothing concerning the conference was given out.

Says U. S. Action In European Affairs Has Caused Trouble

MONTREAL, Sept. 6.—Had Europe known when the Versailles treaty was being drafted that the United States intended staying out of her affairs, "many matters which have caused end less trouble in the world might have been spared," it was declared tonight by the Earl of Birkenhead, former lord chancellor of England, in an address before the Canadian Bar association.
Lord Birkenhead declared he was ready to back up the speech he made at Westminster before the Institute of Politics, in which he said America was not ready for the idealism of former President Wilson so far as his idea of a league of nations was concerned.

Morrison Urges Aid For Suffering Japan

RALEIGH, Sept. 6.—Generous contribution for the relief of the desolated peoples of Japan should be North Carolina's expression of appreciation for the unusual maternal blessings that have come to the people of the state declares Governor Morrison in a proclamation calling upon the people to respond to the call of the Red Cross for aid to the earthquake sufferers.

Railroad Values Reduced 10 Millions

RALEIGH, Sept. 6.—Valuation of railroad property in North Carolina has been reduced about 10 million dollars according to the figures for the next four years certified to the several counties by the State board of assessment, composed of Commissioner of Revenue R. A. Doughton, Attorney General James S. Manning and W. T. Lee, Chairman of the Corporation Commission.

All Americans In Tokio Reported Safe

WASHINGTON, Sept. 6.—All Americans in Tokio are believed to be safe, Ambassador Woods reported to the state department. Estimates of the dead in Tokio were placed by the Ambassador at 10,000. He stated that some Americans in Yokohama had been killed. Communication with Yokohama, he said, had been opened.
Ambassador Woods' message was sent by wireless from Iwaki yesterday. It follows:
"Communication has just been opened with Yokohama. Situation there exceedingly serious and some Americans are reported to have lost their lives."

Postal Receipts Grow.

CHARLOTTE, Sept. 6.—Receipts of the Charlotte postoffice for August totaled \$45,287.79, representing an increase of more than \$5,000 over the receipts for the same month of 1922, according to an announcement by J. D. Albright, postmaster.

A. B. Duke Buried At Old Home, Durham

Angier B. Duke.

Angier B. Duke, 39 member of the world-famous family of tobacco manufacturers, was drowned when he fell from a small boat at a float off the Indian Harbor Yacht Club, Greenwich, Conn. Mr. Duke, who lost a hand in a hunting accident several years ago, was unable to swim and was drawn under the float while preparing to take a party of friends to his yacht for a midnight supper. Mr. Duke was the heir to the \$50,000,000 estate of his father, Benjamin J. Duke, and his uncle, James B. Duke.
He was buried at Durham, N. C., today.

MISS E. DODSON, KINSTON WOMAN VICTIM OF 'QUAKE

WASHINGTON, Sept. 6.—The state department has been advised in a wireless message from Consul Dickover at Kobe, Japan, that Miss Elizabeth Dodson, of Kinston, N. C., was killed in the Japanese earthquake.

KINSTON, Sept. 6.—Miss Dodson, who was about 54 years of age, was a sister of the late Charles R. Dodson, prominent tobaccoist, who died some few years ago. She was an aunt of Charles H. Dodson of Kinston, who, with others, was notified of the wireless message to the State department early today by the Morning News.
Miss Dodson left Kinston in April 1921, for extensive travel to Europe, the Near East, India, Australia, China and Japan. She was accompanied, it is said by Miss Augusta Broom, of Pennsylvania, whose fate is not known here.

Disabled Demand Probe Report On Veterans' Bureau

WASHINGTON, Sept. 6.—Declaring the disabled men throughout the country have become restless over the fact that the Senatorial committee appointed last March to probe the Veterans' Bureau has not yet held an open hearing, James A. McFarland, of Dalton, Ga., national commander of the disabled American veterans, is here urging that a date for hearing witnesses be set without delay.
Major Davis Arnold, representative here of the committee, says the report of special volunteer investigators are being compiled and much valuable evidence has been unearthed since the appointment of the committee which consists of Senators Reed, of Pennsylvania; Odie of Nevada, and Walsh, of Massachusetts.

Raise Mission Fund.

WINSTON-SALEM, Sept. 6.—Women and children of the Piloa Mountain Baptist Association have raised approximately \$20,000 for missionary work and about \$5,000 more for other religious work, according to a report made here at a meeting of the association's Women's Missionary Union.

Official Death List Is Cut To 30,000; Over 100,000 Are Injured

'QUAKE SUMMARY

Japanese home office takes up work to clear speculative figures of actual number of dead. Official statement today places dead at 30,000; injured 100,000; homeless 350,000.

All funds in vaults of banks saved from destruction by fire which followed earthquake and tidal wave.

Recapitulation shows Yokohama center of catastrophe extending from 100 to 140 miles of that city.

Area included 33 provinces; and five large cities. Seven million affected by disaster. Estimated 70 percent of cities and towns in area destroyed.

Reports say that Yokohama is totally destroyed and only one-fourth of Tokio remains.

Reported death of Maj. W. C. Crane, Jr., language officer of the American embassy at Tokio and his wife, found to be erroneous.

Twenty seven new earthquake shocks felt during Tuesday night. Authorities express view no further destructive tremors probable.

Order has been restored in Tokio. Thousands are camping in parks. Food and water remain scarce.

Provisions in large quantities are being sent to the sufferers from various points outside the stricken zone.

Colton spindles are idle and the industry has sustained tremendous setback.

TOKIO, SEPT. 6.

Dead Choke Streams.
The streets and water courses, the canals and sea front are filled with

dead and among the dead are doubtless many injured, to whom it has been impossible to take succor. In Yokohama, far more than in Tokio, foreign residents and visitors suffered loss of life or injury. It is estimated that no fewer than 200 foreigners perished in the treaty port, but even yet no comprehensive account can be extracted from the refugees, who reached here in an almost exhausted condition.

Caught by Flames.
The overwhelming effects of the first shock may be realized when it is told that thousands of Japanese, caught by the flames that swept through the city almost immediately driven by the high winds, leaped into the canals, and finding no safety in any direction, were drowned or overcome by the debris which soon choked the waterways.

The shopping district downtown was overwhelmed, and here many thousands of shoppers and business workers, died.

Open Huge Cracks.
To add to the dangers, immense cracks opened in the streets, in some places isolating entire blocks and making it absolutely impossible for those within the sections to find safety from the fire.

For two days the area of Tokio ranged, destroying possibly 200,000 houses and property, the value of which cannot be estimated, cremating the bodies of many of the dead and probably ending the sufferings of scores of injured. The casualty list will be very great; estimates at present vary from 50,000 upwards in Tokio alone. How many were killed in the outlying districts is not known because for a long time Tokio was cut off from communication with the outside world.

Face Difficulties.
Immense difficulties are being encountered in forwarding the news of Japan's great disaster to the countries of the world. Couriers have been sent out with special press dispatches; the Japanese radio is being utilized, and details have been forwarded by airplane to Nagoya and thence to Iwaki, about 150 miles from Tokio, for transmission abroad.

SAYS TURKS WILL JEER THEIR FIRST WOMAN M. P.

BUCHAREST.—"Does a round of eager applause await Mme. Mustafa Kemal, who has just been elected to the Turkish parliament, when she takes her seat in that body?" is a question asked recently by N. Batzarica, a Roumanian diplomat, who was formerly a member of the Ottoman senate.

"What I predict is that she will be greeted with grittings of teeth and with dark looks of resentment," he went on, replying to his own question. "The young woman who has been chosen by a Turkish electorate to defend its interests will have a hard road to travel. In the national assembly at Angora there are many hodjas—teachers and interpreters of Islamic law—who will regard the advent of a woman into the assembly as a blow at the sacred institutions of their religion."

WOODMAN PLAN EXTENSION OF PHILANTHROPIC ACTIVITIES

OMAHA—Expansion of the philanthropic activities of the Woodmen of the World through the establishment of an old people's home for members of the order near San Antonio, Texas, has been announced by W. A. Fraser, sovereign commander of the society.

UNIQUE FREE SCHOOL CELEBRATES ANNIVERSARY

ST. LOUIS.—When Dr. William G. Elliot, founder of what later became Washington University of this city, left Boston on his westward journey more than four score years ago to "found a school in a district not yet wholly civilized," he considered his destination reached on his arrival here, so the story goes, as he saw men carrying mail in animal skin pouches. He immediately established the Mission Free school, a non-sectarian institution which recently celebrated its 82d anniversary.

ONE-FIFTH OFF PRESBYTERIAN CHURCHES HAVE NO RECTORS

ST. LOUIS.—More than one-fifth of the 924 United Presbyterian churches in the United States are without rectors according to statistics compiled at the Xenia Theological Seminary here.
While there are 948 ministers of the denomination in this country, 191 churches are without rectors because of the large number of clergymen needed for school and home mission activities, and work of the denominational boards and agencies, it was explained.

MAYOR HYLAN BETTER SARATOGA SPRINGS, N. Y.

JAPAN'S TRAGEDY

Not since the terrific earthquake which destroyed Messina in Sicily, has the world been visited by so appalling a calamity as that which has fallen on the chief cities of Japan. In the metropolitan area of Tokio alone, the death list may reach 200,000, without accounting for the hundreds of thousands of human beings who may have perished in the large cities and villages which cluster about the capital and along the nearby sea-coast.

Although Japan has long been known as a land of earthquakes, the seismic disturbances have not been severe enough in recent years to do more than local damage, and loss of life has been inconsequential.

Japanese buildings are of wooden and paper construction, built close to the ground so that they do not collapse as readily during earthquakes as would stone or brick structures. On the other hand, Japanese houses are an easy prey to flames, so that fire, once started, quickly destroys villages and cities.

In recent years, Japan has been importing great quantities of American timber and constructing houses more on the European and

American plan than formerly. Large buildings of stone and brick also have been built, and it is probable that the collapse of such structures was responsible for much loss of life.

The action of the American government and of the American Red Cross in starting measures promptly for the relief of the millions of homeless and starving in the earthquake zone is certain to pay large dividends in the gratitude of the Japanese people and in a better understanding between the two nations.

Since America's action seventy years ago in forcibly opening the then hermit nation to the world trade, the relations between Japan and America have been increasingly close, despite the efforts of propagandists to provoke misunderstanding. No better answer to the war mongers could be made than is given by American efforts to relieve Japan's suffering at this time.

IF YOU HAVE TEARS

In that golden age of our grandfathers, long ere Fords began to honk along the country highways, power dwelt in oratory. If Shakespeare is to be believed, so great was the force of mere words, when strung together by a master, such as Mark Anthony, that all Rome was roused to action and the destiny of the ancient world was changed. Even as recently as the halcyon days of William Jennings Bryan, there were stirrings and mutterings of popular upheaval brought to pass by the persuasive voice of the great Commoner.

Just at this time, however, such words as move strong men to tears and women to hysterics are somewhat in the discard. Possibly it is the movies. More than likely education or the speed of modern life has something to do with the retrogression of oratory to a second or third place in the scheme of things. But the fact remains that the modern American is not often greatly impressed by the word pictures of a silver-tongued spellbinder. In fact, to the average citizen, the old-time "hokum" of the political campaign is exactly what its name indicates, and no more. A first-class motion picture tragedy may stir an audience sufficiently to cause surreptitious

use of handkerchiefs and coat sleeves, but a mere speech rarely.

However, there is hope for even the most hopeless, while life endures. Although pathos may be conveyed effectively only with great difficulty by the spoken word, facts and fancies, humor and messages of real import are well received by almost any audience. Proof of this may be obtained nearly every evening, morning and afternoon, when the radio receivers are in use, from one end of the United States to the other. Scarcely, the owners of radio sets will accept with great patience and hardy endurance the dryest and most lengthy oration, lecture or story, although

they would balk at remaining to listen if the same or better programs were given at some public hall.

The art of oratory by radio is as yet in its infancy; it will be developed, without doubt, much as the spoken word of the forum was made an art such as never has been surpassed. In time, the radio orator will master his invisible audiences quite as completely as did Daniel Webster his visible hearers and then may come to pass the miracle of a single, disembodied voice from the ether causing thousands, perhaps millions of listeners to weep, as Rome, at Anthony's bidding, wept for murdered Caesar.

Interest is now focused on the Alabamians who are trying to bring together the University of Alabama and the Alabama Polytechnic Institute, better known on the field as Auburn. Athletic relations were severed in 1908, and despite frequent moves every now and then towards having them meet again, little tangible progress has been made. Recently the Alabama legislature in its quadrennial session took cognizance of the situation and adopted a resolution asking that relations be resumed.

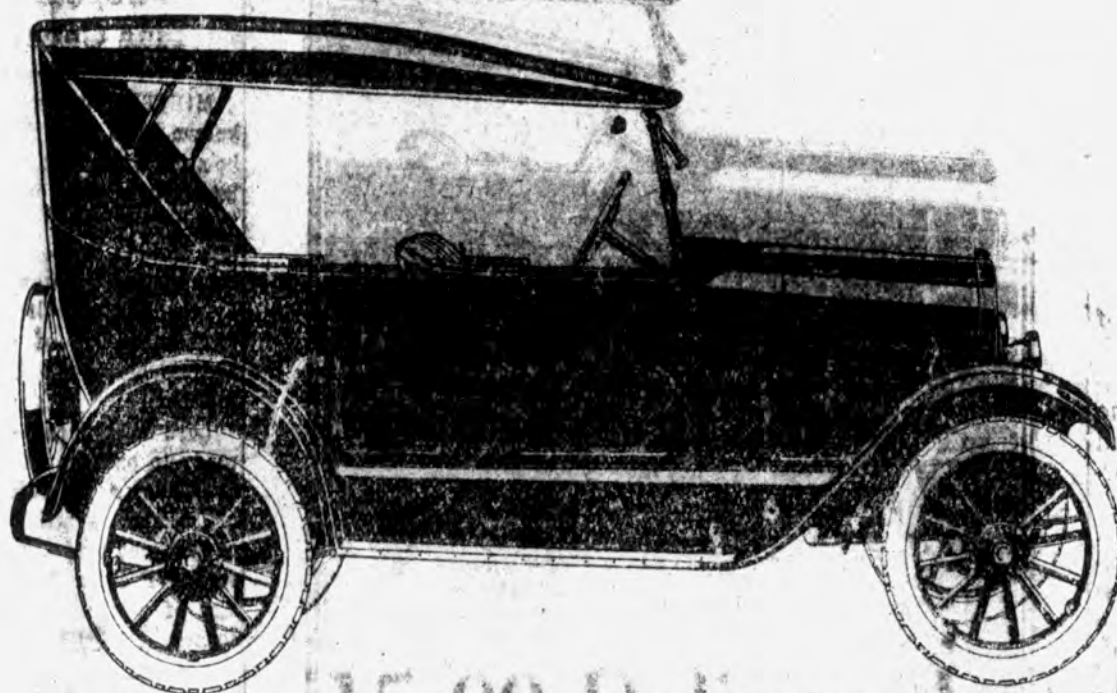

The resolution suggested that the two clubs meet in a post-season game, the proceeds of it to be used in erecting a stadium where they could play annually. The request of the assembly has been taken up by the heads of the two institutions, but nothing definite towards an ironing out of the old difference has resulted.

ALABAMA RIVALS IN FOOT BALL FIELD MAY MEET AGAIN

ATLANTA, GA.—Recurring agitation for the resumption of relations between interstate college football rivals in the South, which they were broken off when ill feeling was engendered, has met with considerable

disfavor among some southern authorities who contend that the schools involved have made much better progress in the football world with their traditional rival eliminated from the

Dorothy Dalton Has Unique Role in "Fog Bound"

Popular Star Has Excellent Part in Her Latest Stellar Picture Vehicle

The character of Gale Brenon, portrayed by Dorothy Dalton as the star in the Paramount picture, "Fog Bound," White's Theatre, today, is one most unique in motion pictures. Gale is the daughter of a revenue officer, living with her father on a Florida orange plantation. Next door lives Roger Wainright, a wealthy New York man, played by David Powell, who has bought his neighboring plantation for the purpose of being near Gale, whom he loves. Things progress more or less smoothly between the two until after a wild night spent at a nearby Inn, Wainright finds himself a fugitive, accused of the murder of Gale's father who had conducted a raid on the resort that evening.

But Gale believes in Roger, who asserts his innocence of the crime. She aids him to escape but later, when she learns the facts, she gives chase and finds him in his home. Officers of the law are close behind and the girl has to do some quick thinking. It is a case of being loyal to her dead father or protecting the man she loves. Choosing the latter, Gale determines to shield her sweetheart. With the arrival of the officers comes the climax of the production—a climax that has much to do with making "Fog Bound" a picture different from anything you have yet seen.

This is an Irvin Willat production including in the cast of supporting players Martha Mansfield, Maurice Costello and other prominent artists.

FOOT BALL TEAM STARTS PRACTICE FOR SEASON

Mr. H. H. Duncan, coach for the Greenville High School foot ball team announced today that the team met yesterday, with twenty members present, to start their practice for this season.

The team last year did splendid work and it is expected that this season will witness some of the best playing since the team was organized.

DOCTORS INVITED ATTEND OPENING OF NEW HOSPITAL

The Fifth Street Hospital at Greenville is now open for the care of patients.

This hospital is a unit of the Pitt Community Hospital, and is situated in the Daily Apartment on Fifth street, just below Cotanch.

A public reception will be given in the Fifth Street Hospital on Friday evening, September 7, from 8 to 10, to which the people of Pitt and adjoining counties are invited.

The Hospital management will appreciate it very much if all the Doctors and Dentists, with their wives, will be present on this occasion in order to meet and assist in welcoming the people who come.

A place is being reserved for you and your presence will be greatly appreciated.

Very sincerely,
PITT COMMUNITY HOSPITAL.

TOM THUMB WEDDING

The funniest show of the season will be held at the High School Auditorium, Tuesday evening, Sept. 11. About seventy five of the children of Greenville will give a Tom Thumb wedding a complete imitation of a Society Wedding.

The costumes will be the loveliest of any wedding of the season. Come and enjoy an evening of continual fun.

The wedding is being staged by the Missionary Society of the Christian Church, as held under the management of Miss Lola Record.

Born—on Thursday, Sept. 6th, to Mr. and Mrs. O. W. Smith, of Charlotte, a daughter, Mrs. Smith was formerly Miss Grace Whitaker, of this city.

Dr. and Mrs. T. H. Plemmons returned today from a ten weeks tour of European countries.

Mr. Frank Wall, of Raleigh, spent Tuesday and Wednesday in this city.

Miss Frances Mosley left today to resume her studies at Mary Baldwin College, Staunton, Va.

Miss Elizabeth White left today for Raleigh to attend the N. C. dances.

Mr. Rupert F. Allen of Burlington, N. C., son of Mr. and Mrs. Fred L. Allen of this city, has accepted a position as bookkeeper for the Water and Light Commission of this city. Mr. Allen has been with The Fuller & Brush Company in Greensboro and Burlington for the past year.

ST. AMAND-COX.

A lovely autumn wedding was solemnized Tuesday afternoon at 5 o'clock at St. Luke's Episcopal church in Winterville, N. C., when Miss Jeanette Cox became the bride of Mr. Ashley Tobias St. Amand of this city. The church was beautifully decorated in aster, and greens with a bell of white roses hanging from the arch. Prior to the ceremony Miss Pauline Williams classmate of the bride rendered, Elgar's "Pride and Circumstance," "Evening Star," from Tannhauser, "To a Wild Rose," "Salut d'Armour" by Elgar and "Melodie" by Massenet. The well known wedding marches were used as processional and recessional. The Rev. William E. Cox, cousin of the bride, performed the ceremony. The best man was Mr. Herbert Cox, and the ushers Messrs. Jimmie Ray and Claudus Johnson. The attendants were Mrs. Troy W. Rouse, dame of honor and sister of the bride who wore a stunning grey gown with hat and carried deep pink asters and Miss Grace Cox, maid of honor another sister looking lovely in orchid frock and hat and carrying pale pink asters. The bride wore a beautiful creation of brocaded silk imported from China entraine coronet veil and orange blossoms.

Mrs. St. Amand is the accomplished daughter of Dr. and Mrs. B. Thaddeus Cox, the former a prominent physician and recent Legislator. She was graduated from N. C. C. W. in music.

Mr. St. Amand was graduated from Newberry College in S. C. He is a member of a very old and prominent Charlestonian family. He holds a position at the A. C. L.

After a wedding trip the young couple will reside in Wilmington.

Among the out of town guests for their wedding were the Reverend W. E. Cox, Richmond, Va., Mrs. Isabelle St. Amand, and Miss Pauline Williams, of Wilmington, N. C., Dr. and Mrs. Frank Lynn, Baltimore, Mr. and Mrs. F. H. Von Ebenstein, Greenville, Mr. and Mrs. H. McGlohon, Kinston.

CELLS TO BECOME SCHOOLS IN NEW EDUCATION PLAN

COLUMBUS—Born in the mind of Chaplain T. O. Reed of the Ohio penitentiary as he watched men brood in their cells during idle time, an idea which those who are fostering it declare has been hailed as "the greatest step forward in prison work in years," shortly will be put into execution in penitentiaries of the country.

The project has been named the Intra-Wall Correspondence Schools, and its object is to provide means whereby convicts in their cells may obtain an education in whatever they wish.

Chaplain Reed has operated such a school in the Ohio penitentiary for 14 months. The students number 1,600 out of a population of 2,500.

Now, with the aid of Napoleon Hill of New York, publisher of a monthly magazine, Intra-Wall schools are being established in the federal prison at Atlanta, Ga., and a budget of \$1,500,000 has been set to extend the work to every penitentiary in the United States.

According to Mr. Hill, the greatest employers of labor in the United States have endorsed the plan and have assured him that every man turned out by the Intra-Wall school and vouched for by its officers will be given a position in the work for which he has fitted himself as soon as prison gates close behind him.

They also have assured him, declared Mr. Hill, that nothing will be made known of the graduate's past life and that he will take his place on equal terms with all other employes.

LONDON. Pity the poor English telephone girls! They are supposed to be able to tell people what the weather will be like. In this, their

SAVED HER FROM AN OPERATION

"The fear of the surgeon's knife embittered my life, for they said I could never get over my trouble without an operation," said Mrs. Norcne Agleton, of Berta, Ky.

"Over ten years ago I was, a sufferer from a serious female trouble. Pains all through my body, especially in my side, almost killed me. Headaches worried me and sometimes my stomach seemed to be on fire and my back ached till I couldn't stoop over. The doctor said my only chance was an operation.

"This went on for six years, then I began taking Stella Vitae and was quickly relieved of my troubles and I have been a well and happy woman ever since."

Stella Vitae may be obtained from any druggist and the purchase price will be refunded if it fails to bring relief. Sold by Horne-Staton Drug Co.

newest duty, perhaps they will receive a sigh or two of sympathy from the operators of switchboards in America who for many years bore the suffering of having subscribers ring up to ask "What time is it, please? My clock has stopped."

Not long ago the post office, which owns all the telephones in Great Britain, arranged with the Air Ministry to supply each exchange with daily forecasts of the weather in its vicinity. The first month this information was available to subscribers 10,172 persons called up to find out if it was going to rain.

SOAP WILL EXTERMINATE LEPROSY, SAYS SCIENTIST

CHICAGO.—Soap is the greatest enemy of leprosy and if economic conditions could be changed so that everyone could afford to be clean, and education create in them the desire and knowledge of hygiene, leprosy would soon cease to be a great scourge and become one of the rare diseases. Dr. Arthur W. Stillians, professor of dermatology at Northwestern University, announced in an article just published.

The author arrives at the conclusion that to eradicate leprosy in this country the first object of the attack must be on the popular fear of the disease. "It seems the greatest difficulty in the isolation of lepers in the United States is finding them, their fear of being branded as lepers be-

ing so great that those who suspect the nature of their disease will hide, at any sacrifice, rather than come into the open," says Dr. Stillians.

SHE QUILTS INK WELL WHEN OIL WELL BRING CASH

NEW YORK, Sept. 5.—How does it feel to be a poet, with scarce any worldly possessions save the necessary attic and an ink well, and awake one morning the owner of a California acre and an oil well?

A poet, Muriel Strode, can answer this question, for here is the oil well, not one oil well, but two, and a third on the way, capable of gushing 45,000 barrels of oil daily.

Mrs. Strode has been called America's "feminine Walt Whitman." As-

ter 17 years of struggle she has achieved not only literary distinction but sudden wealth. For five months she has been cashing enormous checks, and giving the money away. The checks are for oil discovered in Long Beach, California, on land she bought seventeen years ago for \$1,000, and for which she took three years to pay.

WATERCRESS RICH IN FOOD VALUE, SPECIALIST ASSERTS

PORTSMOUTH.—Watercress as a side dish for lunch is well known in most households, but few people eating it were aware that it contained all the essential vitamins, until this fact was stated by Dr. Harold Scurlfield at a Medical association meeting recently. He advocated a more extensive use of the vegetable and said that the Greeks regarded it as

food for the mind, as well as for the body.

Building Increase.

HENDERSON, Sept. 6.—Four building permits, representing an outlay for construction work here of \$9,900, were issued during August, according to a report of the fire department chief.

Darling Bomber and her crew.

The giant Barling Bomber, officially called NBL-1 (night bomber, long distance No. 1), has received its first test at Dayton, O., and has proved unusually successful. The giant airship, with 128 feet wingspread, weighs 45,000 pounds and is equipped with six Liberty motors, developing 2,400 horsepower.

DRAMATIC CAPTURE OF EAMONN DE VALLERA

De Valera's Capture.

This photograph was snapped at the instant Irish Free State soldiers, firing a volley into the air, rushed the speaker's stand at Ennis, County Clare, to arrest Eamonn de Valera, "President" of the Irish Republic, who had fled arrest for several years. De Valera fainted as the soldiers rushed for him.

TWO BOYS BURNED TO DEATH PLAYING INDIANS

While crossing a field near Spring Lake, N. J., Richard Foreman, 17; Caleb Hubbard, 18; White Hubbard, 14; Caleb's brother and Charles Spindler, 11, began playing "Indians." Richard Foreman and Caleb Hubbard tied the other boys to trees and set fire to a little excelsior around them, not realizing that the ground was soaked with oil from a neighboring gas works. Before they could beat out the flames the two boys were dead.

WILL KEEP AMERICA SUPPLIED WITH COAL

In the event of a strike of the anthracite coal mines Francis Wadleigh, Federal Fuel Administrator, will have charge of the situation and will ration out anthracite substitutes, such as bituminous, coke and oil, throughout the country. Clyde B. Atchison, Interstate Commerce Commissioner, has been charged by President Coolidge with the task of giving such substitutes priority on the railroads and to see that no section of the nation is lacking in fuel.

The Night Dish

Exploded Wheat—Airy, flavory puffs

Quaker Puffed Wheat in milk forms the greatest night dish people ever get. The grains are steam exploded—puffed to 8 times normal size. Each is a flaky, flavory globule, a real food confection. And the food cells are broken for easy digestion.

Whole wheat supplies 12 minerals which growing children must have. Also their need of bran. Milk is rich in all three vitamins. Make these essentials so enticing that your family will eat them daily and in plenty.

SHIPMAN EXPLAINS GROWTH OF LABOR DEPT. IN STATE

TORONTO, CAN., Sept. 6—Speaking before the eleventh annual meeting of the International Association of Public Employment Services here today, M. L. Shipman, North Carolina commissioner of Labor and printing and federal director of employment for that state, outlined the growth and work of public employment agencies in North Carolina. This constitutes the first annual report of the operations of the state public employment offices in North Carolina," said Mr. Shipman in beginning his address, "and has reference primarily to the activities of these offices during the first year immediately following the enactment of the law and the establishment of branches in the cities of Asheville, Charlotte, Greensboro, Raleigh, Wilmington and Winston-Salem."

"The service in the city of Raleigh continued "is conducted from the department of labor and printing, the details of which are handled by the federal government. The five other offices in the state are maintained on a co-operative basis by the federal government, which furnishes office quarters where space is assistant federal director of the United States Employment service available in government buildings.

Paint and Varnish Products

Prevent Destruction

Collisions By the Thousands!

Head-on collisions—broadside collisions—blunt edged and sharp edged—denting—gouging—splintering!

All through your house there are chairs accidentally crashing into woodwork—scarring your baseboards and disfiguring the room.

Devoe Paint and Varnish Products are shock absorbers. They fend off the crashes from the fibre of the wood and add cheerfulness and beauty to the home.

J. J. Perkins

Where to Look for Style

You'll have to go farther than the design of a suit for style; just as you must go farther than the shape of a violin for its worth.

A great part of style is in the fineness of materials; the expertness of workmanship.

Those things give the design its best expression and keep it that way.

Hart Schaffner & Marx style is not only a matter of design but of fine quality, too.

Batchelor Brothers
