

At a recent meeting of the Board of Aldermen an "assistant building inspector" was appointed to serve without compensation. We are in ignorance of just what his duties comprise. It is to be hoped that he will aid the head of the building department in not only "inspecting" buildings to be, but those that were, and thus rid Greenville of a few eyesores that are a disgrace to the city. He can make himself a busy job

Some time ago The Reflector invited attention to city authorities on one tottering shack with the suggestion that it should be removed by condemnation or other proceedings. However, so far, no effort has been apparent to eliminate the objectionable mass of debris. If the building inspector and his assistant have to do with broken down fences, there is work for them in a desirable home section of the city.

On one street the fencing on the side lot of an old building given entirely away. Boards protrude onto the sidewalk creating unnecessary hazard to pedestrians. That menace should be repaired or removed without delay. If the department needs additional tips we can furnish them. It is gratifying to note that the rank weed growth is being removed. Mayor Clark should continue this work of elimination.

GREENVILLE, N. C., FRIDAY AFTERNOON, SEPTEMBER 28, 1923.

ARMED PROTECTION ASKED FOR NEGROES IN MITCHELL COUNTY

Blacks Driven Out After Assault on Aged White Woman

RALEIGH, Sept. 28.—According to Governor Morrison's statement this afternoon if the state convict camp near Spruce Pines was ordered moved by citizens of Mitchell county is moved before troops reach the scene of action the camp will be immediately replaced in order that work on the state highways may be continued.

"Work will continue," said the governor "even though the troops have to be used to protect the convict labor."

Company B, 120th, national guard has been ordered to proceed at its base at Morganton to Mitchell county, prepared to quell any trouble that might arise, according to announcement here. The company is mobilized and ready to move.

In Asheville, at noon today, a riot called off by the fire department called together a troop of 166 men who are now at their barracks awaiting transportation to Mitchell county.

Governor Morrison received a telegram from Walter A. White, assistant secretary of Association for the Advancement of Colored People, asking for information regarding deportation of Mitchell county negroes and urging that he use all power and influence to protect "colored citizens who are being driven from their homes and jobs regardless of their innocence or guilt."

Morrison replying, stated that news of his action was being given to press as speedily as possible. He would make no private report to the association.

RALEIGH, Sept. 28.—Following the report that a group of Mitchell county officials had ordered the supervisor of the convict camp to move his prisoners before noon, after the reported attack on a white woman yesterday, Morrison today ordered troops to the scene to maintain peace.

SPRUCE PINE, N. C., Sept. 28.—Governor Morrison has been asked to send state troops here to protect negro laborers following an assault yesterday upon Mrs. Mack Thomas, 65 years old, who lives three miles from here. The outrage was committed by an escaped negro convict said to be John Goff. Immediately after the assault was reported a posse was organized to search for the negro, but no trace of him has been found.

Citizens of this section becoming indignant over the outrage started a movement to drive all the negroes engaged in construction work near here from this community. The blacks were herded and placed aboard freight trains. No more negroes would be permitted in the town, was the declaration made by several citizens.

Mayor A. H. Fuller when this declaration was made appealed to the governor for help. There are no native residents of Spruce Pine and very few in the mountain districts. It is believed that the excitement will quiet down in a day or two.

Upon the arrival here of Adjutant General Metts, who is coming at the direction of Governor Morrison, it might be necessary to ask for a guard to protect the negro laborers.

Protection Assured. The governor's telegram in which he gave assurance of protection was dispatched to Mayor A. W. Fuller, T. W. Deyton, sanitary officer, Dr. Charles A. Peterson and Dan W. Adams. The telegram follows: "Please call on local authorities to uphold the law and protect everybody in their rights including the colored people. I am directing Adjutant General Metts to leave for Spruce Pine tonight. I will afford all the protection the local authorities may require."

VET'S CORK LEG BEATS NATURAL KIND AS BRAKE

WASHINGTON, Sept. 28.—A new use for artificial legs has been reported to the Veterans' Bureau which implies at least one advantage over the natural variety.

A claim has just been received from a one-legged Indian veteran for replacement of a cork leg destroyed recently in an emergency. The claimant says that while he was hauling coal up a hill it became necessary to brake the wheel. Lacking a brake, he took off his leg and stuck it in the wheel. The wagon was stopped, but the leg was destroyed.

World Court To Be Asked to Interpret Important Questions

GENEVA, Sept. 27.—The council of the League Nations after a two hours' debate, agreed to submit two questions covering the general aspects of the league's competency in international complications to a permanent court of international justice at the Hague. This was brought about by the action of the smaller states, who sent a collective note to the council relative to an interpretation of the covenant.

The council also previously decided that two other questions shall go before a special commission of eminent jurists rather than to the Hague court because they are deemed to be of a political rather than a legal nature. One concerns the right of states to adopt coercive measures while the other endeavors to secure the fixation of a country's responsibility for crimes committed in its territory.

High Point Editor Falls Dead In Street

HIGH POINT, Sept. 28.—J. J. Farris, editor of the High Point News, weekly publication, and one of the city's prominent men, dropped dead while talking with a friend in front of the Sheraton Hotel here last night. Heart failure was the cause of his death.

Mr. Farris had just left the private dining room of the hotel where he had attended the regular meeting of the High Point Rotary Club, of which he was a charter member.

Funeral services will be held tomorrow afternoon from the First Baptist church. Mr. Farris died on the eve of his 58th birthday.

Tuttle Acquitted For Slaying Father-In-Law

GREENSBORO, Sept. 28.—F. Clyde Tuttle, well known advertising man of this city, was last night declared not guilty on a charge of manslaughter, resulting from fatally shooting his father-in-law, C. A. Jones, former judge of municipal court here on the evening of Aug. 1. The trial lasted all day in superior court before Judge T. J. Shaw. Evidence presented included that of Tuttle himself, his wife and the widow of Ex-Judge Jones, and the defendant made out a strong case of self defense.

The jury had the case a little over two hours.

Several Jury Verdicts Given in Superior Court

In the case of Ada Stocks against Joe Stocks, in the superior court in which she sought to recover possession of certain lands and rents a jury gave a verdict in her favor. She was awarded a part of the property and \$500 of the rents. A verdict was returned in favor of T. J. Braxton, defendant in a suit brought by Raymond Stocks, in which it was sought to collect for crop share. A compromise verdict was reached in the suit of the Paulico Chemical company vs. C. E. Fleming. The jury gave the defendant one-half the amount claimed in the litigation.

FIRST PHOTOGRAPH OF SPANISH REVOLT

These photographs, the first to reach America, show the revolt of the Spanish army, which resulted in the overthrow of the Alba Ministry and the appointment of a military and naval admiral in control of the nation. A military marshal is shown reading the proclamation of martial law to the mobs in Madrid, while the insert shows General Rifo Rivera, the new head of the Spanish government.

IRON HAND OF MILITARY LAW IS PLACED ON FOURTH OKLA. COUNTY; "REBELS" COMMENCE COURT ACTION

OKLAHOMA CITY, OKLA., Sept. 28.—The iron hand of military rule descended today to another Oklahoma county. Warning was given by Governor J. C. Walton, that martial law is in store, for other sections if necessary to put down the inviolable government that is attempting to throttle the state.

Responding to the appeal of more than 20 residents of Sulphur in Murray county, where it was contended the civil authorities are controlled by the Klu Klux Klan, national guard protection will be extended, it was announced. It was represented to the governor that the Klan was responsible for a number of outrages in that county. "Violence and bloodshed may result from the deplorable condition existing in the county," the petition declared, in asking that martial law be established there.

The petitioners also added that person not members of the Klan and property of non-members was un-

safe. Early today Walton declared that there would be no end to military rule in the state until "mob violence and the outrages of masked men had ceased in Oklahoma."

Start Court Action. The first move to test in the courts the legality of this special session of the lower house of the legislature, called by members who hold it in their right to investigate the official acts of Governor Walton, was taken in State district court. Sixty-seven house members applied for a temporary injunction restraining Adjutant General B. H. Markham and all members of the Oklahoma National Guard from interfering with meetings of the House.

No order was issued by the court during the brief proceedings and by agreement hearing on the petition was set for next Tuesday before Judge J. I. Phelps.

MAN OF DOUBLE IDENTITY IS J. BUNYAN RAWLS, JUDGE FINDS

HENDERSON, Sept. 28.—"Rawls" was the answer brought in by twelve Vance county men to the question of identity that has hung like a spectre over the unperturbed figure of J. Bunyan Rawls, charged with being J. Bynum Reid, wife deceiver, here last night. The acquittal was greeted with a tremendous burst of applause that could not be suppressed.

Neither the defendant nor the woman who claims him as the husband who deserted her eight years ago, were in court when the jury came in to report its verdict. Not five minutes before they had filed in to seek further instructions from the court, and with these before them, they were back in the jury room scarcely two minutes.

On the first ballot the jury stood nine to three for conviction. The second ballot was eight to four, the third six to six, and at that juncture, special instructions were asked. Judge Grady told repeatedly that if they believed the depositions to the effect that Rawls was in Auburn, Ala., Oct. 9, 1915 and continuously thereafter until January, 1916, they would return a verdict of not guilty. He repeated his instructions as to the tenth. They went out and believed it.

STATE CROPS AVER AGING WELL, LIVE STOCK CONDITIONS GOOD, HE FINDS

RALEIGH, Sept. 28.—That North Carolina is the most fortunate of states agriculturally was the terse statement made by Frank Parker, state official of the co-operative crop reporting service of the department of agriculture, on his return to his office here from a tour of crop inspection through the western part of the state. Mr. Parker and his assistant, W. H. Rhoads, Jr., traveled by automobile through Moore, Rutherford, Transylvania, Jackson, Buncombe, Caldwell, Watauga, Wilkes and Surry counties. Throughout the trip they maintained counts and classifications of all fields over one

half an acre in size on both sides of the roads they travel.

This state has, perhaps, the best average crop and livestock conditions has ever experienced, said Parker.

Through various agents of the co-operative crop reporting service Parker is enabled to keep in close touch with agricultural conditions in all parts of the state. He summarizes information on crop conditions sent to his office from the various sections of North Carolina and makes public the results and his conclusions for the benefit of the farmers of the state.

LITTLE HOPE OF FEDERAL CUT IN TAXES IN SIGHT

WHITE SULPHUR SPRINGS, W. VA., Sept. 28.—The outlook for a reduction of the national tax burden at the next session of congress is not favorable, Representative Green, Republican, Iowa, declared here in addressing the National Tax association. Certainly there can be no reduction if the soldiers bonus bill and public measures are passed, in the judgment of Green, who is in line for the chairmanship of the House ways and means committee, which passes upon all tax matters.

Beyond measures for simplification, Mr. Green looks for few changes in the tax law, but says there will be a strong effort, supported by a considerable popular opinion, for the reimposition of the excess profits tax. He told his audience, however, that the absence of the need for additional revenue probably would be a deterrent sufficient to prevent this or other new taxes, such as a levy on undistributed profits and a sales tax.

Bulgarians Capture Main Stronghold Of Communist Force

SOFIA, Sept. 28.—The city of Ferinardo, was occupied today by government forces, the communists revolutionists thus losing the last central point of resistance. The occupation was made possible by the capture of Berkowitz Wednesday night. This victory opened the way to striking at the heart of the beligerent movement against the government.

Revocation Pressmen's Charter Is Approved

NEW YORK, Sept. 28.—C. L. Berry, president of the International Web Pressmen's and Assistants union, received a message from Samuel Gompers, president of the American Federation of Labor approving the action of the International union in outlawing the local pressmen's union which ordered a strike a week ago last Monday. All the strike tied up the publication of all New York City daily newspapers for 10 days.

Business Block Is Wiped Out by Fire

BELDTON, S. C., Sept. 28.—The Stringer block of buildings here was destroyed by fire today. The loss is placed at \$50,000. Local firemen were unable to control the blaze and the fire apparatus from Anderson was called and promptly responded.

Rabbit Brings Six Pals to Dine; Dog Then Gets Rough

NEW YORK, Sept. 28.—A forlorn little rabbit sat on the back stoop of Mrs. Charles Randall's home at Jamaica a few days ago and she fed it lettuce leaves and cabbage.

The next morning the rabbit was back again, and another rabbit was with him. These were fed and the next morning, there were three rabbits waiting for food. Yesterday morning when Mrs. Randall opened her back door she saw seven rabbits sitting in a circle waiting for the free handout.

But instead of feeding them this time she set the dog on them, feeling that if the thing kept up all the rabbits in Queens county would be depending on her for their meals.

Turkey In Revolt Republic Declared, Unconfirmed Report

PARIS, Sept. 28.—Havas dispatch from Vienna says there are insistent rumors of revolt in Turkey and a republic has been declared. The reports lack confirmation.

Judge H. G. Connor Urges Upholding the Laws of Fathers

My Dear Sir: May I, as one of the oldest lawyers in the state, who sat at the feet of, and was taught by, the patriotic men and lawyers of North Carolina, 1865-1876, the truth and value of the terms of the Covenant made by the Fathers and Elders, at Halifax, (1776) call attention to this essential provision.

"In all controversies at law, respecting property, the ancient mode of trial by jury is one of the best securities of the rights of the people and ought to remain sacred and inviolable." That this right is to be secured to every citizen and enforced, for his protection by our Judges, gives me joy. Recent events in our midst have caused me anxiety and doubt but, as always, an independent judiciary responds to the call of the citizen and secures the right to carry his cause to "a jury of his country."

The recent importation, from the Pacific Coast, of novel and, in this State, unprecedented, use of injunctions, threatened to make of but little practical value the right of trial by jury to many of our people who stood most in need of it. As a citizen and a lawyer, I have watched, with apprehension, the trend of certain causes in our courts. Strange doctrines, with results, both strange and dangerous, to essential rights of the citizens, were being advanced upon the always dangerous excuse that "the end justifies the means," with apparent success.

I have, during a long life, seen banners, with strange devices, imported and unfurled in our State and, for a season, find followers. The people, when warned, have not failed to see the danger and, in response to the precepts and example of the fathers, arrest the invasion upon their rights and restore the "land marks."

It has been well and truthfully said of the Framers of the Constitution of North Carolina, 1776, that: "Inspired with the enthusiasm of Freedom, yet respecting the principles of authority, they secured the benefits of both in the fundamental Law of the State."

Let this truth be taught by those who aspire to lead the people and secure their confidence and honor—taught in our homes—in our public schools—in the market place—in the church—at all times and everywhere. It pertains to the safety, honor, welfare and happiness of all the people. Examine with care, and accept with caution, novel inventions and changes in our laws, undermining the right of "trial by jury of the country." Such, I find, to be the teaching and example of the wisest men of our past. H. G. CONNOR.

SCORES OF DEAD BURIED BENEATH RAILROAD WRECK

High Water Halts Rescue; Use Derrick to Get Bodies Out

DENVER, COLO., Sept. 28.—A special dispatch to Post here from Casper, Wyo., received said that one of the submerged cars of the Burlington train number 30, which plunged into Cole creek last night had been pulled from the scene of the disaster and eight persons were taken from it alive.

NORFOLK, Sept. 28.—Information received here shortly before noon by railroad officials said 57 persons had perished in the Burlington railroad wreck at Casper, Wyo., last night.

DENVER, COLO., Sept. 28.—No bodies can be recovered from the wrecked train of the Chicago, Burlington & Quincy railroad which occurred near Casper, Wyo., last night until derricks can be used to lift the wrecked cars above the waters of Cole creek, it was announced here today. The report that 37 bodies have been recovered was not confirmed by railroad officials.

CASPER, WYO., Sept. 28.—Thirty-seven bodies are said to have been recovered from day coaches and sleeping car of Chicago, Burlington and Quincy passenger train 30 that plunged through a bridge into the Big Muddy River near Lockett last night, according to Dan McQuaid of Denver, who says he is the only person who escaped from the Denver sleeper.

McQuaid declared that his opinion was that at least 100 lives were lost. Four cars were completely submerged, and one car was standing on end, McQuaid said, and he did not believe any of the trapped passengers escaped from the wreckage.

McQuaid made his way to the mid-west camp in the Big Muddy oil fields and telephoned news of the accident to Douglas, eight miles away. Word received at the local telegraph office of the Burlington railroad from Superintendent Griesenger was to the effect that the Big Muddy creek was a raging torrent and rescue work was out of the question.

When told that a passenger estimated the loss of life at 100 persons, the dispatcher said: "It would be easy that." He was unable to say how many people there were on the train, however.

WICHITA, KAN., Sept. 28.—This city faces another flood today. Flood warnings issued shortly before last midnight by the weather bureau, declared that the lower section of the city would be inundated before this evening.

Livestock Breeders To Meet In Hickory

RALEIGH, Sept. 28.—The annual meetings of four state livestock associations will be held at Hickory, Catawba county, beginning the night of Nov. 6 and lasting through the afternoon of November 8, according to an announcement by Professor R. S. Curtis, chief of the Animal Industry Division of North Carolina State College and the department of agriculture.

Ward Slaying Case Is Given to Jury

WHITE PLAINS, N. Y., Sept. 28.—Justice Wagner finished his charge to the jury in the trial of W. S. Ward son of the millionaire baker, indicted for murder of Clarence Peters, and the case was given to the jury shortly after noon today.

CONTINUE WAR ON MOSQUITOES

Greenville is in the grip of voracious mosquitoes. The pests are here in myriads all equipped with "brace and bit" to inject poison into the systems of human victims. There is no genuine reason why these carriers of disease should be permitted to thrive. On the contrary, however, there is every reason why THEY SHOULD NOT.

That no community is compelled to suffer from the pests was fully proved in Greenville during the life of Mr. J. G. Bowling. Under his efficient and systematic direction together with the co-operation of residents the mosquito was practically exterminated. Since his untimely death the vital importance of eliminat-

ing the pests and disease spreading media has been flagrantly neglected.

Physicians and health officers are agreed that danger to the public health from infection spread by mosquitoes cannot be estimated. In distribution of malaria and other diseases the are the worst in the South. Authorities are called on to combat.

Constant preventive measures will greatly reduce the danger and annoyance from the menace. Greenville abounds in prolific breeding spots, which should receive immediate and effective attention.

Since the death of Mr. Bowling no one has been charged with this duty by city authorities. It is suggested that the Board of Aldermen give this health question prompt consideration by the appointment of a competent person whose duty shall be to resume the work so ably forwarded by Mr. Bowling and apply the same remedies that he did in eradicating mosquitoes.

The outstanding necessity for the continuance of such work should find unanimous voice on the aldermanic board.

The old battleships which are to be sold at auction will at least be worth more than they would be if scrapped in mid-ocean during an engagement.

The fact that United States was not very well represented in the matter of airplanes during the war did not prevent America from developing some of the greatest aviators on earth.

About all a resignation rumor of federal officials accomplishes at present is to draw public attention to the fact that such a "valuable" official has no intention of resigning.

FREE! FREE!

This is one of the two sets of cooking utensils that is to be given absolutely FREE to every purchaser of THE GREAT MAJESTIC RANGE during this exhibit.

"The Live Furniture Dealer"

Finding your suit in a store is like finding your word in the dictionary!

In words, you at least have to have an idea how the world is spelled—and in clothes you at least have to go to the store that has your suit in stock before you can stalk in and claim it.

All stores like to talk about Variety—but here's one that knows what it is talking about.

For example — suppose you are looking for a Fall suit and wear a size 38—

At 401 Evans street it would take 2 hours to view and go over what we have to show in that size alone.

Seeing is believing—

Frank Wilson

North Carolina, Pitt County, In the Superior Court. Carolina Building Supply Co., Inc. vs. H. C. Brooks, E. M. Brooks and Norfolk Southern R. R. Co.
The defendant H. C. Brooks, defendant above named, will take notice. That an action entitled as above has been commenced in the Superior court of Pitt county on an attachment issued by the clerk of said court for the purpose of taking possession of certain personal property belonging to said defendant, said defendant having left the state, to avoid the payment of his debts; and said defendant will further take notice that he is required to appear before the clerk of the superior court of Pitt county at his office in Greenville, North Carolina on Monday, October 29th, 1923, and answer or demur to the complaint in said action or the plaintiff will apply to the court for the relief demanded in said complaint.
This the 24th day of Sept., 1913.
J. F. HARRINGTON,
Clerk Superior Court.

Gardner's Famous Cakes

in pound packages!

Over fifty years ago the first Gardner Cake was made from a recipe of a famous Southern cook. It called for fresh eggs, rich creamery butter and pure granulated sugar.

From that day to this the quality of Gardner's Famous Cakes remains the same—because we still continue to use big fresh eggs—rich creamery butter and pure granulated sugar.

Buy a pound package today and try it. No matter what your choice of the eight varieties may be, you, too, will agree that it is idle to bake when you can buy cake like Gardner's Famous Cakes.

"Goodness Knows They're Good!"

Eight choice varieties—Sold almost everywhere

SELL YOUR TOBACCO WITH

Foxhall, McGowan, and Cannon

"Leaders In Pounds And Prices"

Greenville, N. C.

WE HAVE SOLD TO DATE, 2,000,000 POUNDS

Sales this week have been some lighter and prices on all good to fine tobacco the highest of the season. Our customers who sold with us this week told us they got much more than they expected as everybody had told them prices were off, but were convinced that they were much higher at our house. There is strong competition between all our buyers on fine tobaccos and they want it at outside prices. Bring us a good lot next week and we will surprise you how high we will sell it for you. READ A FEW SALES WE HAVE MADE THE LAST FEW DAYS:

SALES NEXT WEEK — MONDAY, 1ST; TUESDAY, 2ND; WEDNESDAY, 1ST; THURSDAY, 2ND; FRIDAY, 1ST.

HERE ARE A FEW AVERAGES OF OUR SALES:

Name	Pounds-Price	Amt.	Avg.

MOSELEY BROTHERS

General Agents National Life Insurance Co. of Va. GREENVILLE, N. C.

Society

Mr. Marvin Horton, of Farmville, spent today in Greenville.

Messrs. S. T. Hooker, Henry Renfrew and J. C. Lanier have returned from a trip to Washington, D. C.

Mrs. Lillian Waldrop Smith, of Hendersonville, is visiting her sister, Mrs. Frank Wilson.

Mr. H. T. Smith, of Roanoke Rapids, spent today here on business.

Mrs. M. A. Whichard, of Stokes, who has been visiting friends and relatives here, left yesterday afternoon for Bethel.

Mr. Ed. Matthews, of Washington, was in the city today.

Mr. J. C. McCotter, of Grifton, was in the city today.

Mexico Starts Airlines.
MEXICO CITY.—The government has signed a contract with a German engineer, Werner Kaemmerer, manager of the Mexican Aerial Navigation company, for the establishment of passenger and freight airlines in various parts of the republic.
German machines will be used, and the first line, established between Vera Cruz and Progreso and Guardalajara and Mazatlan.

GOVERNOR GENERAL WOOD

MANILA.—Experience in military tactics gained on the field of battle is sometimes useful in civil administration, and the armies backed by bayonets, aeroplanes and heavy artillery are not the only dangerous enemy to a country, Governor General Leonard Wood demonstrated to the members of the Manila Rotary Club recently.
The governor general referred to the campaign against the locusts in the terms of a military adventure, telling how staff and field officers reported daily the spread and movements of the hoppers, where the larvae hatched, what regions were most infested with the hoppers in the pre-flying stage, and the direction taken by the large flyers.

VOLCANIC ASH BRINGS

ANCHORAGE, Alaska.—The government reindeer herd at Port Heiden, on Bristol Bay, has suffered recently because of volcanic ash from a peak to the westward which covered the feed range to a depth of

about an inch and a half according to advices received here. The ash stirred by the hooves of the reindeer caused acute throat and lung trouble, and wore away the hair and skin from the lips, causing suffering and often death. All the herders suffered, and Fred R. Tait, government teacher, had a narrow escape from death. An attempt to move the herd across the Alaskan Peninsula finally was abandoned.

Shrimp Industry Booms.

WILMINGTON.—The shrimp industry at Southport is thriving unusually well, according to advices received here. A fleet of about 40 boats put out from Southport daily and never fail to return with less than 25 bushels of shrimp each, it was learned here.

All Scouts who have not passed their tenderfoot test will report at the high school on Saturday afternoon at 2 o'clock.

RECEPTION AT EVANS STREET SCHOOL.

This evening at 8 o'clock, at the Evans Street School the Parent-Teachers association will give a reception for all teachers. Patrons of the school, and members of the school board are cordially invited.

NOTICE—I HAVE MY GIN IN first class condition now and can give prompt service. Will appreciate your patronage. L. L. McLawhorn. 28 4t

What?.....SUBURBAN WEEK
Where?.....ROCKY MOUNT
When?.....OCTOBER 1ST TO 6TH

What is Suburban Week in Rocky Mount?

The first Suburban Week in Rocky Mount inaugurated by the Rocky Mount Merchants, collectively; is an invitation to the people of the outlying districts to come here. Special price reductions will prevail all during this week as an inducement to you to visit our prosperous city.

The Rocky Mount Fair

is also an added advantage to come to Rocky Mount during this week, starting TUESDAY, OCTOBER 2ND and lasting through FRIDAY, OCTOBER 5TH. Horse racing every day,—free acts day and night and numerous other attractions await you at the FAIR.

Every Store has a Greeting for You

The glad hand of Welcome is extended to everyone, and every store in our city will keep open house for you, we want you to feel perfectly at home.

The Rocky Mount Merchants Association

SELL AT GORMAN'S Greenville N. C.

Our Thursday's sale, which was about the largest sale in town, was very satisfactory. The good and fine tobacco sold much better than it did the first of the week and the common tobacco was some stronger also. The wrappers are selling up to sixty-eight cents with right much competition on them. We advise close grading of common and medium tobacco. The dead black and green should be thrown out and separate grades made of these. We look for a continued strong market on all fine and good bodied tobacco and advise grading as dry as you can. Right much damaged tobacco is showing up now, which affects the sales.

DRIVE TO GORMAN'S AND YOU WILL GET THE TOP OF THE MARKET.

2ND SALE MONDAY — 1ST SALE TUESDAY.

J. N. Gorman and Sons

Banker Urges Repeal of Federal Dry Law

ATLANTIC CITY, Sept. 27.—The repeal of the federal prohibition was advocated today before the American Bankers' association in annual session here by Waldo Newcomer, president of the national bank division. He declared that the constitution of the United States was never framed to become code of commercial law, but to lay down the principles governing the rights of states and the American people.

British and French Relations Cordial Now

NORTHAMPTON, ENG., Sept. 27.—Prime Minister Stanley Baldwin declared today after his conference with Premier Poincaré, in Paris last week, that the former cordial relations between England and France had been completely re-established. From an atmosphere of almost distrust the attitude had been changed to one of mutual confidence, he said.

WASHINGTON.—The United States navy has just completed another of a ten year job of great interest and importance to mariners and hydrographers. It is the Cuba Survey, the mapping of the almost unknown waters around that island, undertaken in the interests of American shipping as well as of national defense.

Ever since its inception, it has been the hope of the navy hydrographic office to gather and make charts and records of the waters of the entire world, with special stress laid on charting nearby areas. The Caribbean and the Gulf of Mexico are so full of unknown islands and large and small coral reefs and cays, that in 1906 the Cuban government asked this government to undertake a close survey of nearby waters. The hydrographic office undertook the job.

From 1907 to 1917 the waters along the Cuban coast from Cape Maysi, the easternmost extremity, to Cienfuegos, were sounded and mapped. The world war brought this activity to a close and it was not

continued until early this year, when the personnel was reorganized and set to charting the section along the southwestern coast of the land from Cienfuegos to Cape San Antonio. In this area is the Gulf of Batabano, bordered by the Isle of Pines.

In making the survey small boats have run lines of soundings across local sectors, taking bearings from time to time upon triangulation signals, erected on land and on shoals. A straight stretch of railway track along the Cuban coast was measured for a base line, and with these aids the naval officers have reported completion of the largest season's task of the entire survey. An area of 760 square miles was covered, 130 miles of shore line were plotted, and 6,500 miles of soundings were taken.

Because of weather conditions, the survey season was limited to the period from the end of January to about Aug. 1.

Calls World's Defense 'Smoke Screen' Excuse

WHITE PLAINS, N. Y., Sept. 27.—Attorney General Sherman in summing up for the state today in the trial of W. S. Ward, for the murder of Clarence Peters, declared that the defense offered by I. N. Mills, counsel for Ward was a pitiful argument against conclusive and damaging evidence. He described it as "smoke screen to combat the indisputable evidence introduced by the state." It was expected that the case would be given to the jury some time during the late afternoon.

OVER 5 MILLION PAID FOR INSURANCE IN 6 MONTHS

RALEIGH, Sept. 28.—Over \$5,000,000 was paid out in North Carolina for fire insurance during the first six months of this year, according to an announcement by Paul B. Hulfish, manager of the North Carolina Inspection and Rating Bureau, which has oversight of fire insurance business in this state. Figuring that every \$1.20 paid in fire insurance premium is equivalent to \$100 property covered, Hulfish said that considerably more than \$400,000,000 in property values had been insured in North Carolina up to July 1.

DETROIT.—A locomotive engineer must spend years as an engine wiper and fireman before he is permitted to drive an engine over a private right of way, but any person may drive an automobile down a public street used by millions of people with no experience whatever. This comparison was used by William P. Rutledge, chief of Detroit police and president of the International Association of Chiefs of Police, as the explanation of his edict calling for rigid examinations of all applicants for motor car drivers' license, which are required under a state law. Enforcement of this law was urged in a resolution adopted at the recent convention of the international association in Buffalo.

JENKINS and GORMAN MILLBROOK FARM

ON GREENVILLE-AYDEN HIGHWAY, ADJOINING THE COUNTRY CLUB Bungalow, Villa, Truck, Chicken, Dairy Sites and Small Farms

AT AUCTION SAT., OCT. 6TH, 10:30 A. M.

LOCATION: The Jenkins & Gorman Millbrook Farm is located on the Greenville-Ayden hard surface road, adjoining the new Country Club, about a mile and a half from the business section of Greenville.

DESCRIPTION: This splendid property is being subdivided into a number of beautiful suburban home sites, many of which front the hard surface highway, the others face the beautiful golf links and the Country Club, and as you know, only a few minutes ride or walk from the business center of Greenville. Electric lines pass the property and connections can be made. All of the lots lie beautifully and are some of the prettiest locations for homes in this section.

Just beyond the lot subdivision is a tract on which there is one five-room house, five tobacco barns, stables, pack houses and other buildings, all of which are in splendid condition. This is a very desirable farm. The soil is fertile and will produce any crops grown in this section; a property that will most assuredly advance steadily in value, at the same time, will produce a steady revenue while you own it.

TERMS: This property will be sold on especially easy terms of 1-4 cash, the balance in 1, 2, and 3 years.

ADVANTAGES: At this auction, you may buy any one or more of these lots or small tracts on the especially easy terms mentioned above, at your own price. This sale in our mind, is one of the best opportunities for investment which has been offered the good people of Greenville and vicinity. Remember what has happened in Richmond, Roanoke, Greenville, Danville, Raleigh and Durham. Surrounding and adjoining the Country Club is one of the best residential sections which these cities have developed. The people of these towns have realized and appreciated the advantages offered for suburban homes near the Clubs, and you good people in Greenville will no doubt do likewise. In a few years this section will be to Greenville what the Country Club colonies are to Greensboro, Durham, Raleigh and Danville. Those who realize the great possibilities this property offers and invest a few dollars here, will reap the reward for their foresightedness by making a handsome profit on all the property they buy. Drive out to the Greenville Country Club today, and as you pass along the highway near the Club, view in your own mind the great possibilities offered for homes here. Plan your permanent home near this pretty and very attractive place. Picture in your mind this drive five years from now instead of just simply a beautiful scene, place in your mind the picture of a number of attractive homes, which will in our opinion be built here in a short time. Place a value on this property as it stands today, then with all these homes on it, what will it be worth? This building activity has taken place in other towns around the Country Clubs, and this same thing will not doubt happen in Greenville.

Attend the auction sale Saturday, Oct. 6th, at 10:30 A. M. Make the day one of profit by buying.

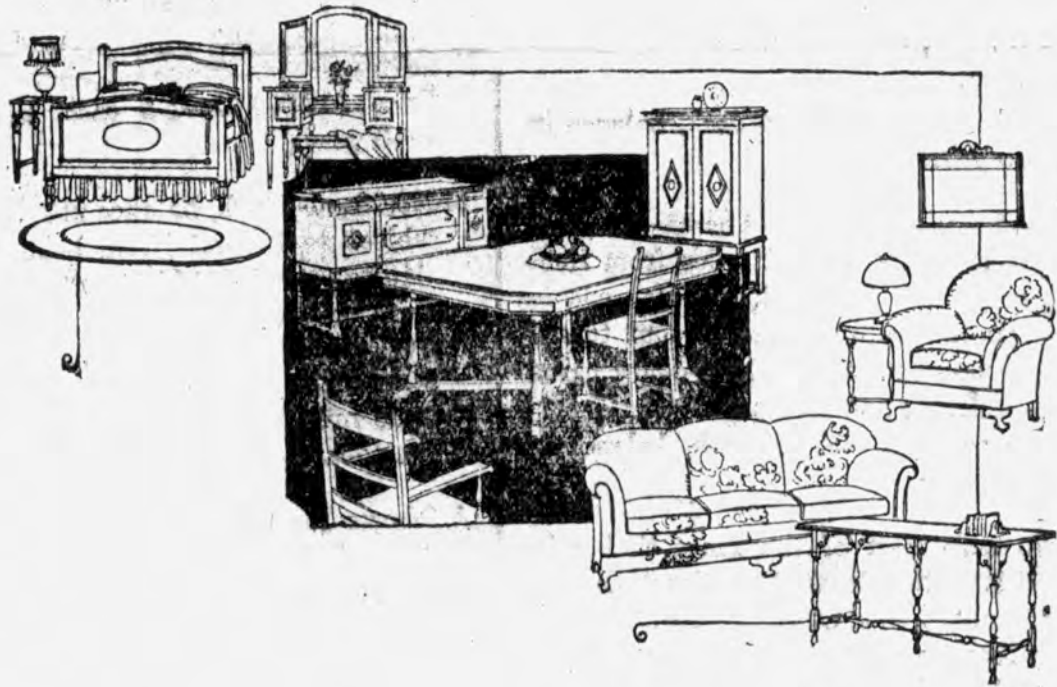

SPECIAL NOTICE: Sale will be held regardless of weather conditions. If it is rainy, we will conduct the sale in some building on or near the property.

At 2:30 P. M., on October 6th, we will sell Business Property on West 3rd in Ayden, N. C.

For further information about the sale, see our representative, Mr. K. W. COBB, at Greenville.

SALE CONDUCTED BY

Atlantic Coast Realty Co., Agts.

We have a full and complete line of BED ROOM SUITS, DINING ROOM SUITS, LIVING ROOM SUITS, in which we are offering at very low prices. **League Nations to Get
Case of Cayuga Indians**

LONDON.—Deskaheh, chief of the Cayuga North American Indians who is now in London, carries with him in a much-used tin cover in his hip pocket a very precious document. It is the original Treaty of Alliance of 1784 between King George III and the Six Nations of the Iroquois, by which the latter were promised independence with British protection.

The chief has besides several trunks full of documents which he is taking to Geneva, when he goes to put before the League of Nations the case of the Six Nations.

Deskaheh was elected five years ago, and he is still chief. Two years ago his people sent him to England to bring before the Imperial Government grievances against the Dominion of Canada, which he says was seeking to impose Dominion rule on them.

**NOTED JEW DENOUNCES RUSSIA
FOR CHRISTIAN PERSECUTION**

VIENNA.—The treatment of orthodox Jews in Russia drew forth a strong denunciation from Dr. Nathan Birnbaum of Hamburg at the recent congress here of Ajudas Jisroel.

"In Russia," the speaker said, "it has become a principle to suppress anything breathing a religious spirit. All believing men are persecuted. The synagogues are being closed and converted into workmen's clubs. We do not desire to apportion political blame to anyone, nor to examine into how far the Soviet government is responsible for all these things. But Russia will not succeed in suppressing the living faith in God's presence, not even if they lock up all Christians, all the Mohammedans and all the Jews."

**GREECE ORDERS RETURN OF
LANDS SEIZED FROM BULGARS**

ATHENS.—As an assurance of its desire to cultivate friendly relations with Bulgaria under the new regime, the Greek government has notified the provincial authorities that all Bulgarians interned on Aegean islands from Western Thrace during the operations of the war with Turkey must be returned to their original homes.

The restoration of all seized properties of these interned inhabitants, on no more direct proof than the testimony of their neighbors, has also been ordered.

Campaign for Equal Rights.
COLORADO SPRINGS, Colo.—The Garden of the Gods, Colorado Springs, has been chosen for the first reproduction of the equal rights

ceremonial pageant. This is to be presented in every state in the union tomorrow in connection with the celebration of the seventy-fifth anniversary of the holding of the first equal rights convention in America, according to an announcement made by the Colorado committee of the National Woman's Party here. The first equal rights party met at Seneca Falls, N. Y., in 1848.

THE FINE ART OF FITTING SHOES

The pride we take in our profession prompts us to call it a fine art and indeed the thought we put into this phase of our work warrants the word. To insure foot comfort for our customers and avoid foot troubles we make every effort to determine the particular requirements of each foot before prescribing a size. Not only is each foot carefully measured, but its individual characteristics are noted and this plus the scientific knowledge our salesmen have on the proper fitting of shoes enables them to suggest precisely the size and last that is most flattering and most comfortable.
