

If the farmer is not prosperous there can be no permanent prosperity in other industries—because the farmer's purchasing power is one of the most potent influences upon which we depend for our business existence.

A condition that affects the farmer, cutting off his purchasing power, destroying his belief in himself, in the banker and in everybody else, can only bring about a chaotic condition, which affects every branch of business, regardless of its nature.

Clearly there was something lacking to enable him to go on the even tenor of his way. The answer is plain. It is that some means need to be provided to permit him after his labor has been expended, when the crops have been harvested to liquidate his indebtedness.

WEATHER

Mostly cloudy tonight and Tuesday, probably showers.

SIX PERSONS LOSE LIVES IN BROOKLYN FIRE; ONE INJURED

Firemen Find Charred Bodies of Victims In Smoldering Ruins

NEW YORK, Oct. 15.—Six persons were burned to death in a fire that destroyed a two-story frame building in the Bensonhurst section of Brooklyn early today.

Neighbors seeing smoke from the top of the dwelling saw him fall from the window of an apartment. Later firemen found the charred bodies of the six victims who had apparently been overcome and escape shut off by the blaze.

SOUTHERN COTTON MILLS OPERATE 90 PCT. CAPACITY

NEW YORK, Oct. 15.—Considerable encouragement was found in business circles during the past week in the continued firmness in the grain markets.

Corn remained the center of interest, new high prices for the last three years being realized despite the fact that the department of Agriculture predicted a crop of 3,021,000,000 bushels.

Wheat prices also held close to the season's highs while the Department of Agriculture announced that the prices which farmers now are receiving for their principal crops were 27 per cent above those of a year ago.

Cotton prices also continued to hold up well although additional curtailments were reported in certain of the New England textile mills. Mills in the south were stated, however, to be operating at about 90 per cent of capacity.

Methodist Conference To Meet This Week

WINSTON-SALEM, Oct. 15.—The 34th annual session of the Western North Carolina Methodist Conference, South, will be held here this week with Bishop Collins Denny, of Richmond, Va., presiding. He is expected to arrive here Tuesday, accompanied by Mrs. Denny.

While the conference session will not be formally opened until Wednesday morning, the conference historical society will hold its annual session Tuesday night, when the principal address will be delivered by Dr. Gilbert T. Rowe, of Nashville, Tenn. In "Reminiscences of an Itinerant."

All sessions of the conference will be held in Centenary church, which recently completed a large Sunday school building and remodeled the main auditorium of the church, Rev. Z. E. Barnhardt, who is serving the charge his third year, will be conference host.

Jews Lose Hope of Restoring Palestine, Says Noted Leader

NEW YORK, Oct. 15.—The forces of Israel must mobilize against another war and rather than "throw a match into such a powder factory as the globe has become" forego their political hopes in Palestine it was declared by Israel Zangwill, Jewish author and publicist, who spoke before the American Jewish congress here.

"There was a moment when Jewish state might have risen in Palestine," he said, "but the hour of destiny has passed."

MYSTERY IN SHOOTING IS UNSOLVED

Mrs. Ida M. Leslie

Great mystery surrounds the possibly fatal shooting of Milton A. Maas, wealthy New York chemical manufacturer, in the Sound Beach (Conn.) home of wealthy Mrs. Ida M. Leslie. Maas had just gone to see Mrs. Leslie, who had started out of her house to give her dogs an airing.

CHILDREN SHOULD BE INSTRUCTED IN "DANGEROUS" PRE-SCHOOL AGE MENTAL HEALTH HABITS, SHE SAYS

DETROIT, Oct. 15.—Instructions of children of the "dangerous" or pre-school age in mental health-habits was urged today by Dr. Mary Diggs Noble, chief of the Division of Child Health of the Pennsylvania State Department of Health, in an address before the first annual meeting of the American Child Health Association, in session here.

Dr. Noble was speaking on the general topic "Problems of State and City Child Health Officials" and she selected "The Pre-School Child—Practical Methods of Securing Medical Examination and Supervision" as the subject of her address. This classification includes of the run-about ages, between two and six years old.

"Mental health habits," she said, "center around self-control, self-expression, obedience, courage, clean mental content, right storing of the unconscious, right emotional steering."

"The reasons why so much must be done in these four years form the crux of many of the problems of prevention."

"It is the time to establish firmly physical health habits."

"It is the time to catch the early defect and do away with it before

lasting harm comes. This can be done by a periodic regularly recurring and complete physical examination by a doctor and the compilation of a complete record of all findings at each examination. These should be available for reference and should be passed on with the child to the school.

Aid to School Teachers.

"The age from two to six is we grant the home period, but the mother even the most intelligent and best intentioned, does not know all that is needed, let alone how to bring to pass the best for her child. She must have the opportunity for finding all this out. Child health centers and conferences are still widely recognized as one of the best methods of educating mothers, and a second valuable method is by study clubs.

"Superintendents, principals and teachers should welcome the chance to procure a better stock of first-grade material and should be concerned over the pre-school child to the end that he may arrive at the school room door 100 percent fit, with brains unhampered by some remediable defect and a beginning of personality and behavior building that will simplify the teacher's job."

GREENVILLE TIGERS PUT UPPINE GAME, BUT LOSE TO ROCKY MOUNT

The Greenville Tigers played a good game against Rocky Mount high school eleven at that place Saturday, despite the score 10 to 0 against them.

Sensational plays made by the local squad included Mayo, West, Forbes and Ricks, while the work of Browning, Neal and Munn was outstanding for Rocky Mt. Coach Duncan is well pleased with showing his team made against worthy opponents and hopes in the next contest to reserve the score. A large number of local fans attended the game.

The Tigers are scheduled to meet Smithfield high school next Friday at 3:30 at the Fair Grounds. The team a member of the Eastern for Carolina High School League is regarded as a fast bunch. Coach Duncan predicts a lively scrimmage. He urges everybody interested in the suc-

cess of the Tigers to come out and encourage them to victory. The line of Saturday's game follows:

- Greenville: Winslow, Capt. R. E. Wilson R. T. Satterthwaite R. G. Ricks C. G. Sugg L. T. Smith L. E. Humber Q. B. Munn, Capt. R. H. B. Vause L. H. B. Browning F. B. Neal Rocky Mount: Savage James Slate Cherry Daughtridge Pat Dunn Munn, Capt. Vause Browning Neal Substitutes, Greenville: Carr for Smith, Dail for Satterthwaite, Brown for Hardie. Substitutes, Rocky Mount: Hearne for Vause, Christmas for Slate, Slater for Christmas, McIntyre for Daughtridge.

WEALTHY CLASS WHO VIOLATE DRY LAWS GROUPED WITH "REDS" BY SEN. BORAH IN SCATHING SPEECH

WASHINGTON, Oct. 15.—Wealthy Americans who violate the Eighteenth Amendment and "reds" who denounce constitutional provisions designed to protect property, Senator Borah, of Idaho, declared in an address here today, "are both traveling the road of lawlessness, sowing the seeds of destruction and undermining the whole fabric of law and order."

The man of property, of course, is deeply concerned in preserving respect for law, for that is his protection to property. Do not they assume a sinister hazard in defying or disregarding any part of this Constitution? So long as this amendment remains a part of the great Charter, you not only strike at this amendment but at the whole structure of a government of law when you disobey its mandates. This provision of the Constitution is in the Constitution by the same authority, carries the same force and sanctity as the Fifth Amendment which throws the protecting shelter of the whole government around life and property. The spirit of lawlessness which undermines the one will in time destroy the other.

NO BACK SLIDING FOR LEGION FROM ORIGINAL PURPOSE, SAYS OWSLEY IN FAREWELL ADDRESS TO BODY

SAN FRANCISCO, Oct. 15.—Alvin M. Owsley, retiring national commander of the American Legion, in his farewell address today before the organization's national convention, called upon the men of the Legion "with patriot hearts, pure as gold, to respond in this hour fraught with many possibilities and laden with whispers of impending danger."

"There is no back sliding for the Legion away from the original purpose of its founding," he said, and the constitution of the United States, which is the supreme law of the land, must be upheld and defended by you.

"Law and order will be kept and preserved; right proclaimed and proudly asserted the Master of Might," Mr. Owsley declared. "The memories of our sacrifices as comrades must be carefully conserved and the well being, happiness and prosperity of all sacrificed by our devotion to mutual helpfulness."

LEGION HOST IN SAN FRANCISCO FOR CONVENTION

SAN FRANCISCO, Oct. 15.—The fifth annual convention of the American Legion convened today with 900 delegates representing every state and territory of the union present. Final plans for submitting reports and the transaction of other business to come before the body were completed by the national executive committee yesterday.

CORONER FINDS MRS. WEBB DIED NATURAL CAUSE

WHITE PLAINS, N. Y., Oct. 15.—Coroner Fitzgerald today filed a certificate stating that Mrs. Gertrude Webb, wealthy Philadelphia and New York society woman whose death three weeks ago caused comment, died from natural causes.

The inquest scheduled for today has been called off, although the grand jury investigation will be resumed today. It was announced.

"Mary Magdalen" Now Studies in America

Miss Marie Mayer

A young woman, with a delicate face of much calmness of expression and serenity is a familiar figure in the New York City Public Library, when she is studying literary research work. She is Miss Marie Mayer, who played Mary Magdalen three times in the world famous Oberammergau Passion Play. She was born in Oberammergau, and both of her parents before he were in the past of the Passion Play.

2 KILLED, MANY HURT IN GERMAN RIOTING, REPORT

BERLIN, Oct. 15.—Two civilians were reported killed and several injured at Meiningen Sunday night. The Reichwehr was called upon to clear the streets of rioters. Three were also hurt in Frankfurt, it was reported.

DUESSELDORF, Oct. 15.—Stores were closed today, but looting which started Saturday was not resumed. The authorities called on the population to organize self protective bodies to help the police in putting down further trouble.

Police today searched a number of houses and recovered considerable stolen merchandise. Sixteen alleged leaders of looting bands were arrested by the occupation authorities.

Several prisoners will be court martialed and others surrendered to German police. It is believed that the widespread looting is the result of political maneuvers arranged by the nationalists and communists, rather than suffering among the unemployed.

2 MEN QUARREL OVER \$4.50 DEBT, ONE SHOT DEAD

MARSHALL, N. C., Oct. 15.—W. Henderson, 60, country merchant, was shot and killed by K. I. Baker, 45, near here yesterday. The latter is held in jail charged with murder. The shooting is said to have followed a quarrel over \$4.50 which Baker claimed Henderson owed him. According to statements Baker went to Henderson's home and confronted him. The former was seated on a bag of beans. A quarrel ensued. Baker is alleged to have fired four shots point blank at Henderson. One took effect in his head and three others in his body. Henderson was unarmed, it was declared.

PRESIDENT MAY ATTEND HARDING MEMORIAL SERVICE

WASHINGTON, Oct. 15.—President Coolidge may attend the memorial services for the late President Harding in Marion, O., Nov. 2, the anniversary of Mr. Harding's birth, it was said today. The president, it is understood, feels the occasion of such a nature as to deviate from his announced intention of not leaving the capital until the convening of congress.

SCHOOL CHILDREN TO HAVE LARGER SPACE FOR PLAYGROUNDS

S. T. White, Gives Evans Street Pupils Use Of Acre of Ground

Pupils of Evans Street school get this! You are to have better playground facilities—more space in which to enjoy your recess periods and after school fun.

For this consideration, you will offer to thank S. T. White, who has wanted the school board the use of an acre of ground free of charge.

This news will make the hearts of 600 youngsters palpitate with joy. For some time it has been recognized that playground space was entirely inadequate, but with the generous tender of Mr. White, the problem has been solved. This space will permit the children to play volley and basket ball and numerous other games, essential to physical and mental development.

The fence between the school property and the new playground is being removed. Work of leveling will be rushed and the grounds will be put into service as rapidly as possible. Volley and basket ball courts will be part of the improvement.

The school children, parents and the school board unite in extending to Mr. White appreciation of his thoughtful consideration.

POLITICS BLAMED FOR FAILURE DRY LAWS BY PINCHOT

WASHINGTON, Oct. 15.—The prohibition law, measured by the respect accorded it, has failed, Governor Pinchot, of Pennsylvania, told the Citizenship Conference because "no sincere, intelligent and concerted nation-wide effort had been made to enforce it; because the federal agents have collected bribes and because politics is at the root of the evil."

No one less than the President of the United States himself, Governor Pinchot declared, could meet the present emergency because the President alone can bring all government forces into a concerted attack on violators.

WASHINGTON, Oct. 15.—President Coolidge will present his views on the enforcement of prohibition laws at the governors conference which meets here next Saturday, it was learned today. In the meantime, he will make no comment on Governor Pinchot's suggestion that it is in the president's own hands to enforce the laws, because of his ability to muster all federal agencies.

Baptist B. Y. P. U. Gave Interesting Program At the Church Last Night

The intermediate B. Y. P. U. of the Baptist Memorial church gave an interesting program of musical numbers and recitations last night which proved instructive and enjoyable. In addition, the purposes of the organization were recounted by several members, who also stressed its value as an important factor in extending Christian activities. More than 25 members attended the meeting. A substantial collection was taken for the benefit of boys.

Miss Edna Davenport is president and Miss Ward Moore, is leader of the B. Y. P. U. The fine singing was greatly enhanced by the excellence of the playing of F. R. Elmore, accompanist, at the piano.

Baker Preparing for Paris.

LOUISVILLE.—Ray Baker, international distance runner, announced his intention here of preparing to compete in the coming Olympic games when he signed a non-compensable contract to coach the University of Louisville cross country team.

AARON GETS ANOTHER CALL?

In an attempt to alleviate the condition of wheat growers of the grain belts of the northwest, President Coolidge has named a group of experts to study the situation with a view of giving immediate relief to farmers whose cost of production has far exceeded the price offered for wheat.

It was suggested at a meeting in Chicago the other day, attended by the President's representatives, that the government back a co-operative distribution plan. Advisors say that Aaron Sapiro, Judge Bingham and others who were actively identified with the organization of the Tobacco Growers Cooperative association in Kentucky, the Carolinas and Virginia also attended the gathering to give their "wise counsel" concerning the success of the tobacco poll, with a view, it was hinted, to applying some of the principles to "aid" the wheat growers.

Farmers of the northwest have had experience with co-operative grain selling. It was a sad and costly experience. The movement was promoted by the organization of the United States Grain Growers' Inc., which not only failed to function after several million of dollars had been invested in stock by over-confident farmers, but resulted in a quarrel among the officers and final disruption.

Report has it that Aaron and Bingham are to explain to the government agents all about the "success" of the pooling of burley and bright leaf tobacco, and how well "satisfied" growers are over the results. This pair, it is

understood, are prating about stabilizing the tobacco industry and Aaron will probably repeat that he has a large group of contented farmers in the states indicated who are ready to swear allegiance to his pooling system.

It is not questioned there are some farmers who will say they are satisfied with the manner in which they have been paid for their tobacco. However, if sentiment of hundreds of Pitt county and other eastern Carolina counties growers is to be construed as well "satisfied" Aaron should put his ear to the ground and listen in.

Just how the government proposes to go about financing a system of co-operative distribution has not been disclosed. So far the marketing and economic experts named by the President to investigate the situation have confined themselves to conferences with promoters of privately formed co-operative system. It would be unwarranted assumption to conclude that a marketing plan backed by the government would not succeed. However, something more will have to be produced to prove its worth than has been shown to Pitt county tobacco growers before proper appraisal can be placed upon its merits.

Secretary of Agriculture Wallace, has more than once declared that he believes in co-operative marketing. It is evident that his conclusions are based on results that do not obtain in Pitt county in no uncertain measure of dissatisfaction in connection with pooling tobacco.

As The Reflector has repeatedly emphasized there is a wide difference between distribution of finished products as between the grower and consumer and commodities and staples that pass through many processes before reaching the consumer. Aaron Sapiro and his stalwarts in their preachments about the co-operative plan fail to mention this wide discrepancy.

Aaron has sold his fantastic and visionary ideas to several thousand southern planters and business men. If asinine impudence counts, he is likely to sell himself to the government. But it is a benediction that his activities in this section of the nation are over, in which we are joined by a large number of farmers and other in saying: Amen.

Paris is not sure that England's diplomatists are as great as her warriors.

Governor Pinchot is courageous in assuming prominent responsibilities. His friends are now wondering whether what they regarded as the political spotlight may not prove to be the hot end of the poker.

NEW DISABILITY CLAUSE

Two years ago this Company devised a Disability provision which was far in advance of any that had been previously contained in a life insurance policy. We now announce a new Disability provision. Its features are:

Immediate beginning of a lifelong monthly income.

When total and permanent disability has lasted five years, the monthly payment will thereafter be increased 50 per cent.

When total and permanent disability has lasted ten years, the original monthly payment will be increased 100 per cent.

Total disability that has lasted three months will be assumed to be permanent.

Waiver of premium, of course, together with full annual dividends and a full annual increase in cash surrender value.

As age increases, and the family income dwindles through diminishing resources, the disability income increases to meet the increased need of income.

LOCALS

Rev. Leland Smith Speaks to Students of Teachers College

Mr. Leland Smith, pastor of the Memorial Baptist church, talked at the College Sunday evening on the subject, "Going to School to Jesus." Preceding the talk, Miss Lois Gorrel, music teacher at the College, played a violin solo, which was greatly enjoyed.

As a preface to his remarks, Mr. Smith said that at the present time, ignorance is a shame, and lack of knowledge a disgrace. The mind must be trained and developed. And not only must we train the mind, but the soul as well. The soul in a young body is little, but as the body grows the soul grows. Christianity is the school for the growth and development of the soul. Jesus said, "Take My Yoke Upon You, and Learn of Me." That admonition was only a figurative way of saying, "Be a Pupil of Mine."

These are three outstanding characteristics of the school of Jesus. The first of these is the teacher, or the one who does the inviting. The most important quality a teacher must possess is a knowledge of what he is going to teach. Jesus is the authorized instructor in the knowledge of God. "No man knows the Father save through the Son," Jesus took the form of man in order that He might teach us about God.

The next quality of a teacher is the desire to impart knowledge. Jesus fulfills that requirement. Jesus has a longing that you and I should know about the Father. Jesus teaches us things that we could not learn from other sources.

A teacher should make his teaching plain, attractive, and impressive. The Bible, which is the embodiment of the teachings of Jesus is all of these. We obtain beauty and charm from one who brings beautiful things from heaven and puts them within our reach. Present day instructors teach what other people say or have said, but Jesus teaches first hand, and as one who has authority as one who knows.

The second characteristic of the school is its entrance requirements. All earthly schools have requirements for entrance, and so has the school of Jesus. But its requirements are simply consciousness of sin and consciousness of love. There are no rare limitations. Every person on earth can enter the school of Christ if he so desires, and He can save all people everywhere.

After entering the school of Jesus, however, each pupil must submit to the rules, and abide by the regulations laid down in His word. These rules are simple, yet all inclusive. They are: repentance of sin, and faith in the Lord.

Lastly, there is the rest-giving knowledge which is obtained in the school of Christ. To us, a yoke means bondage, toil, pain and suffering. But not so the yoke of Jesus. It means rest, freedom, relief.

Mr. Smith closed with an injunction to the audience to take the yoke of Jesus. Learn of Him, he urged, and be enrolled as a pupil in His school.

"Smudge," With Chas. Ray, Bill at Strand Today and Tuesday

Charles Ray, that inimitable screen star will be seen in his production "Smudge" at the Strand theater Monday and Tuesday. This picture gives Ray, his producer declares, the best opportunity that he has ever enjoyed to display to the best advantage his original and unique abilities as an actor. Ray is cast as an editor in "Smudge" which opens the way to one continuous round of humorous situations. The sparkling love theme that dominates through eight reels is clever and well worked out to a happy climax.

School children will be admitted at matinees today and tomorrow for 10 cents, it was announced. Martin's orchestra will give a number of new and popular selections.

JUDGE WILLIAM HARRISON TO SPEAK IN SYCAMORE HILL CHURCH TUESDAY

Judge William Harrison, of Chicago will speak in Greenville, at the Sycamore Hill Baptist church 7:30 p. m. on Oct. 16. This promises to be the most inspiring occasion in the coming of Judge Harrison to Greenville, music of a high character will be furnished by the jubilee singers of the community.

The white friends are especially requested to be present to enjoy the occasion, special provision will be made for their presence.

"Human Wreckage" Big Film Sensation, At White's Today

All humanity should give thanks to Mrs. Wallace Reid for giving to civilization her much discussed anti-narcotic photoplay, "Human Wreckage," showing for the first time today at White's theater. It will be repeated tomorrow.

By all odds the most predominant feature of "Human Wreckage" is the sincerity of Mrs. Reid. This courageous little woman who has just come through an ordeal of nerve-shattering terror has begun an unremitting campaign to check the swiftly spreading tide of dope addiction which is gradually encompassing the entire world. "Human Wreckage" is merely her first step. And it is a step well taken.

The photoplay is not one of those tendencies. It is entertainment—powerful entertainment, perhaps—but how, one asks, would it have been otherwise possible to drive home to humanity the real story of drug addiction?

"Human Wreckage" is in no sense biographical. It does not depict the troubles of Mrs. Reid or the sufferings of her lamented husband. It does not portray any side of the all-too-well-known story of the tragedy of Wallace Reid.

The story has to do with the brave struggle of a famous attorney to fight off the dread habit of addiction, an attorney who succumbs to the affliction and then, after falling as low as human mortal can fall, succeeds by almost super-human efforts in ridding himself of the disease. As the attorney, Alan MacFarland, James Kirkwood achieves the unquestioned triumph of his brilliant career. It is

safe to say that even his great characterization of the leading role, in Channing Pollick's "The Fool," the reigning New York stage hit of the season, hardly matches in point of downright artistry and power his delineation of the role of MacFarland, the attorney, in "Human Wreckage."

ATTENTION SCOUTS

All members of Troop 2 who wish to go to the fair can spend the night at the Rotary Club, Thursday night. The building will be heated. All those going, but who do not wish to spend the night at the club, will take the early morning train Friday.

Says Snapping Minds Make Us Subnormal

NEW YORK. — Detailed photographic study of the motions of human beings, made possible through the invention of an apparatus called the scale cage, have led to the conclusion that absent minded persons temporarily indulge in motions similar to the motion behavior of imbeciles, according to the Engineering Foundation says also that great waste results, in some manual occupations, from ill-directed motion.

Many persons occasionally are absent minded and, while their wits are wool gathering, the motions of their bodies, as recorded by photography, are strikingly similar to those of the weak-minded and subnormal.

WILHELM, IN NEED OF CASH SELLS FIRSE WIFE'S JEWELS

AMSTEDAM—Wilhelm Hohenzollern is raising money by the sale of some of the jewels belonging to his first wife and by the sale of several pictures. Pictures by French masters, and certain Hohenzollern portraits have been disposed of through a Dutch firm and a number of old Dutch and German paintings will be brought into the market shortly.

Seek Religious Training For American Children

WESTERVILLE, O.—One of the great efforts of the year of the International Sunday School Association to arouse the continent "to the spiritual need of children" will be put forth the seven days starting tomorrow.

The organization has designated that period as Children's Week in the Sunday Schools of the United States, the ninth annual observance.

Dr. Walter G. Clippinger, chairman of the children's division of the International association, said today that at least 13,000,000 of the 25,000,000 children under 12 years of age in the country are not receiving any religious education.

FEMININE STAFF OPERATES SAVINGS AND LOAN COMPANY

CLEVELAND.—What is believed to be the first savings and loan company to be operated by a personnel entirely feminine, the Woman's Savings & Loan Company, has just opened new offices in the Women's City Club building, the first building to be planned and financed here by a women's organization. The company was organized in January, 1922, by 15 women, and now claims assets of more than \$150,000. It has 500 stockholders.

3 BILLION POUNDS OF ICE NEEDED FOR SHIPMENTS

LOS ANGELES.—When the 120,000 refrigerated car of produce now in process of being moved eastward from Southern California will have reached their destination, their consumption of ice to keep their perishable contents fresh will total 3,000,000,000 pounds, according to a semi-official survey completed here.

For every car of fruits and vegetables that leaves this section, eight tons of ice are required for the initial icing. Between Los Angeles and Chicago another seven tons are used. If a car goes farther, to New York or some other Atlantic seaboard point four more tons must be added.

Child Health Advocates Will Hear Discussion of All Their Problems At Association's Annual Meeting

DR. E. C. HARTLEY PHOTO BY SWEET DR. HELEN T. WOOLEY PHOTO BY BACHARACH DR. FRANK J. O'BRIEN PHOTO BY SUTTON

There will be no question of the ability of speakers at the first annual meeting of the American Child Health Association—scheduled for Detroit, from October 15 to 17, inclusive—to discuss the subjects assigned to them. Each is a specialist in his or her particular field and each will have the experience of years of activity and close study as authority for what is said.

Three of these eminent experts are shown above. They are Dr. E. C. Hartley, director of child hygiene of the Minnesota State Board of Health; Dr. Helen T. Wooley, psychologist of the Merrill-Palmer School, Detroit (in center); and Dr. Frank J. O'Brien, of the Psychological Clinic, Louisville, Kentucky. Each has a place in the program and each will be heard with marked attention by the more than six hundred delegates who will attend the convention from every section of the United States and from some foreign countries.

Dr. Hartley has chosen as his subject one with which the convention is vitally concerned. It will be "The Rural Mother; Effective Methods of Increasing Her Interest and Cooperation in Improving the Health of Her Family." This Minnesota official has given much time to this phase of his department's work and is conceded to be one of the country's foremost authorities on it.

"Habit Formation; Health Formation for School Life" will be Dr. Wooley's subject. Through her contact with the Merrill-Palmer School she has specialized in this branch of child health work.

In speaking on "The Psychological Background of Health Teaching," Dr. O'Brien will urge upon the delegates the necessity for a thorough treatment of subjects. Not only the physical and mental ailments must be carefully rectified, he will contend, but broader questions, such as environment and the health of other members of the family, must be considered.

This will be the first national convention of the American Child Health Association, which was organized last winter by the merging of the American Child Hygiene Association and the Child Health Organization of America. Herbert Hoover is the president of the Association, which has as its purpose the betterment of the health of America's childhood. It deals with every phase of this question, from the pre-natal period through the pre-school and school ages.

Administrative offices of the Association are at 376 Seventh Avenue, New York City, while national headquarters is maintained at 532 Seventeenth Street, Washington, D. C.

Wingate Gum Swamp Farm

On Gum Swamp Road and Ayden to Johnson Mill Road, Subdivided Into Small Farms,

AT AUCTION FRI. OCT. 19th, 10:30 A.M.

The Wingate Gum Swamp Farm is located on the Gum Swamp Road and Ayden to Johnson Mill Road, 4 miles from Ayden, 2 miles from Hanrahan, N. C., in one of the best farming sections of Pitt county.

This splendid farm, consisting of 750 acres, about 400 acres cleared, has been subdivided into fourteen tracts, each of which front a good road, and the tracts vary in size from 31.6 acres in Tract No. 4 up to 90.4 acres in Tract No. 10 is the home tract and has approximately 50 acres cleared and about 40 acres in woods.

The soil on this place is especially adapted to the growing of cotton, tobacco and all crops cultivated in this section. The land lies well, is level, yet well drained.

The buildings on the place consist of 15 settlements, each having all necessary outbuildings. Practically all the buildings are in splendid state of repair, well painted and with metal roofs. In addition there are 19 tobacco barns, several pack houses, stables, and other buildings. At the present time there are 19 families living on this property.

In the woods land there are several million feet of timber with sufficient cord wood for the curing of all tobacco raised and all farm purposes.

This property is especially well located, only a few minutes ride from Greenville or Ayden, Railroad Station within 2 miles of the property, schools and churches both on the property, and in one of the best farming sections of North Carolina.

The very easy terms under which this property will be sold, will be definitely announced at the sale.

This unusual auction offers you the opportunity of buying just the part of this property that you want, a small farm of from 30 to 75 acres, each with some cleared and some wood land, a good home, tobacco barns and other necessary outbuildings. Well located, in a good section, with very productive soil. Your price will do the buying on easy terms at this sale. Look this fine farm over today, select the tracts you wish and attend the sale Friday, Oct. 19th, beginning at 10:30 a. m. Enjoy the barbecue dinner and make the day one of profit by buying.

This sale will be held regardless of weather conditions. If it is raining the sale will be conducted in some building on the property.

SIDE SHOWS WILL RIVAL BIG TENT AT LEGION CIRCUS

SAN FRANCISCO.—Although the American Legion national convention in San Francisco Oct. 15-19 is the main circus in the big tent, there will be scores of conventions of special bodies of the veterans' organization and of many regimental, divisional and war societies.

Among the largest gathering will be that of the American Legion Auxiliary, composed of the mothers, wives, sisters and daughters of Legion members and of men who died in service. Fifteen hundred delegates and 10,000 women visitors are expected to attend. Social functions of this convention include a "statu dinner," Hawaiian "aloha" breakfast and numerous teas, receptions and dances.

Ten thousand members of the Forty and Eight, the Legion organization based on the tradition of the French box cars, labelled "Forty Men or Eight Horses," in which dough boys traveled to the front, will attend the group's "Promenade Nationale," during the Legion gathering. They will hold a special parade and will initiate hundreds of candidates with accompanying fun-making and high carnival.

The reunion of the Ninety-first Division is expected to draw 5,000 veterans. The organization was composed of California boys, trained at Camp Lewis, Wash. The First division, which participated in more engagements than any other unit in the

MODART CORSETS

One of those beautifully fitted Modart corsets for the women of average figure, where freedom and trimness combine with fineness of design.

Of Course, We Can't All Be Slender

BUT we can at least look slender. The difference may be in just finessing a wayward little curve from where it is to where it should be. Obviously, that means proper corseting.

Can it be done comfortably? More than a million women who wear the Modart Corset know that it can.

Lightly boned, and almost as dainty as your sheerest lingerie, the Modart follows the natural curves, gently restraining and coaxing into perfect proportion the lines that may have fallen into bad habits.

We will be pleased to give you a trial fitting. Then you will get the Modart that is intended for you.

For every figure you will find a suitable Modart. Priced from \$3.50 up.

C. HEBER FORBES

American army, will hold a reunion. Organizations of engineers, cavalrymen, signal corps members, medical unit, and numerous companies, and special detachments have scheduled meetings during the week.

1,200 Youthful Farmers To Assemble in Chicago

CHICAGO.—The second National Boys' and Girls' Club congress to be held here in connection with the International Livestock Exposition, December 1-3, will bring more than 1,200 winners of club work projects held in the various states during the last year.

The champion boys and girls who will be entitled to the trip are being chosen by state agricultural colleges and will come largely from the rural districts where they were graded on excellence in work done in the activities of the Dairy Calf Clubs, Poultry Clubs, Home-Making, Garden, Poultry, Sewing and other clubs. The Library of Louvain, the Belgian national anthem, and a poem, "In Flanders New," by Edna Jacques, have been sent to over 10,000 groups of these children in the states through which

LEGIION POSTS KEEP SUN GOING FOR PLACE TO SET INDIANAPOLIS.—The sun never

sets on the American Legion, it was learned after a check had been made on the membership by national headquarters here. The report, showed that the Legion

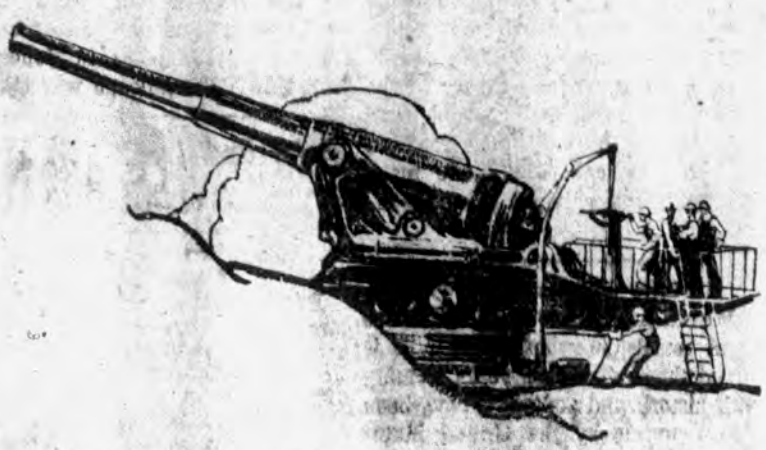

has chartered posts in 17 foreign countries and five territorial possessions of the United States, in addition to the 48 states and the District of Columbia.

HER MAJESTY THE QUEEN DANCES WITH HER SERVANTS

ABERDEEN, Scotland.—Queen Mary danced with six of her servants recently at the annual ball given by their majesties to the employees of the Royal Estate at Balmoral. The program, arranged by the Queen did not contain a single fox-trot or one-step, and only two waltzes. The dances were Highland reels, eight-some reels, the reel of Tulloch, the flirtation polka, the Spanish gavotte and other dances of the pre-jazz era. For the opening reel the Queen's partner was Arthur Grant, the veteran head-keeper at Balmoral. Her later partners were gillies on the royal estates.

SLEEPING SICKNESS RESPONDS TO SCIENTIFIC TREATMENT

HAMBURG.—Cures which strike the Congo natives as being more miraculous than those of biblical days are being performed on victims of sleeping sickness in Central Africa, according to Dr. Martin Mayer, of the Hamburg Tropical Institute, who was the first scientist to test a German remedy on sleeping sickness.

You need Balance for Full Power and ALL the other gasoline qualities

A GASOLINE has to be balanced to give you the full, rounded performance that you're entitled to.

"Standard," the balanced gasoline, gives you full, ample power because it had just the correct proportion of high-boiling constituents ("fractions", as the refinery men call them). Too much of them would make your motor hard to start and slow to accelerate. Too little would lower your power and mileage and you'd have to use a rich, wasteful mixture to get satisfactory results.

"Standard" has the right percentage of these high-boiling fractions. And it has the correct percentage of low and intermediate fractions for instant starting and snappy pick-ups. Over fifty years of experience are built into every gallon you buy. Try it out this Fall—see for yourself.

STANDARD OIL COMPANY (New Jersey)

"STANDARD" The Balanced Gasoline

Made in the Carolinas

This Young Lady, who saunters toward you so composedly ushers in the New Mode. A fashion unfamiliar to us for several seasons—of fitted frocks and suits which reveal the figure, contours, a mode of slim hips and graceful long lines. And the secret behind the success of such a fashion is CORRECT CORSETING. So let us urge you today to see the new styles in WARNER'S Rust-Proof CORSETS. Famous for half a century for their faithfulness to the last word in fashion, as well as for their sturdy wear and thorough comfort—Warner's Corsets lead today in correct satisfaction. There are styles for all figures, and we can help you select yours.

"The Ladies' Store"

SCIENTISTS START ON LONG VOYAGE TO THE ANTARCTIC

NEW LONDON. — While Capt. George Finlay Simmons has been scouring the country for a staff and crew to take the schooner "Blossom" into South Atlantic and Indian Oceans, the ship itself has been prepared for one of the longest cruises ever undertaken by vessel her size.

The expedition to the Antarctic island which starts from New London this week for the Cleveland Museum of Natural History is said to be one of the largest ever undertaken for purely scientific purposes. Every one of the 16 men aboard ship except the three ship's officers, is trained in some line that will aid in the collecting of animal and bird specimens and in taking notes on the geology, plant life, sometimes human life, and climatic conditions in the regions that will be visited.

The Blossom will visit the least known portions of the world on her two year cruise. Explorers have gone over the Pacific islands and other tropic regions with fair thoroughness. Even the polar regions have been visited in recent years by men who have taken accurate observations of the lands through which they traveled. The South Atlantic islands, however, have been visited only by seal and sea elephant hunters, who brought back romantic stories, but little accurate information of scientific value.

CONTRABAND GOODS SEIZURES IN PHILIPPINES BREAK RECORD

Chiefs of Rock Island Started in Low Places

CHICAGO.—Each of the executives of the Chicago, Rock Island and Pacific Railroad has "come up from the ranks."

President J. E. Gorman began as a car checker in the switch yards. Others began their railroad careers as stenographers in the law department; chairmen in a surveying outfit; stenographer in the freight department; yard clerk; storekeeper's helper; clerk in the treasurer's office and station helper. Four of them are now members of the board of directors.

"The chances are that the men who picked those men sized them up for 'the job farther on,'" said a bulletin to the employe: he looking merely for an strates that there is still opportunity for those who are willing to work as most of them have come into their present positions within the last few years.

DECREASE SHOWN IN GERMAN BIRTH AND MORTALITY RATES

BERLIN. — Germany's birth rate for the second quarter of 1923 shows a decided decline, according to official figures for 46 German cities. In the corresponding quarter of 1922 there were 75,726 children born, as against 65,924 this year. For the first quarter of 1923 the number of children born was 69,630. The birth rate is now down almost to the lowest level of the war period.

pecially of illicit opium shipments, smuggled into the Philippine Islands during the second quarter of 1923 increased enormously over previous records, according to a report just issued by the customs secret service.

During the quarter the secret service seized 193 kilos and 669 grams of opium in the port of Manila alone. The value of the goods was placed at \$67,500. During the same period last year only one gram of opium was seized.

POLISH SENATORS REFUSE TO CART SALARIES FROM BANK

WARSAW.—When members of the Polish senate called on the Polish state loan bank recently for their salaries, the bank had no large notes and could only pay in 5,000 mark bills, which were worth two cents. Most of the senators objected to carrying great packages through the streets, and said they would call again, when the bank had received its next shipment of 250,000 mark bills from the national printing office.

U. S. to Sell Spanish Ships.

MANILA. — Two United States naval vessels, in whose lark hulls is buried the accounts of years teeming with history and romances, have been placed on sale by the United States navy at Cavite Naval Yard. They are the Callao and the Barcelo, both of which were captured from the Spanish at Cavite in 1898 when the Cavite naval yard surrendered.

CHINESE DISCARDING NATIVE FOOTWEAR FOR LEATHER SHOE

PEKING.—Chinese are gradually taking to the use of leather shoes, according to J. C. Huston, American consul. Chinese who have not adopted the foreign style of footwear are beginning to use scheme leather soles with their native cloth uppers. Native shoes with chrome soles sell for \$1.60, while locally made foreign style shoes sell for \$5 a pair. The leather soles can outlast three cloth tops, it is stated.

CORRECT SIGNPOSTS SOUGHT BY A. A. A.

WASHINGTON. — At official "milestone" for every city and town in the United States is suggested by the American Automobile association, to avoid the confusion arising from the present habit of taking measurements from any one of several points

in a city, which themselves may be a mile or even several miles apart. "Every motorist will recall, at some time in his travels, having seen a sign reading 'eight miles to Jonesville,' and then, a couple of miles further on passing another sign saying again that Jonesville is still eight miles away. Both signs may be correct, depending on the point in Jonesville from which the mileage was taken.
