Fourth Annual Fair Opens Here Today With Large Crowd

Today Known as School Children Day, Many Schools Represented

The Fourth Annual Pitt County Fair opened in this city today with a large crowd, considering the inclement weather. Today being school children's day children from every section of the county were present and enjoyed the many amusements offered by the fair.

The city is gaily decorated with flags and everything suggests the event to which the people of this section always look forward. A large number of strangers are present and in spite of bad weather are enjoying the fair.

The main building was taken up entirely with exhibits, which consisted of agricultural, merchants and manufacturers exhibits. These exhibits are the best ever put on at a Pitt county fair and people visiting them today, spoke of them in the highest praise.

The midway, composed of Sheesley's Greater Shows is the largest and by far the best that has ever visited Greenville. The shows are clean and afford a high class of amusement. The management of the fair is taking every precaution regarding the personal safety of those attending. Road officers are on the grounds and traffic will be managed in such a way as to insure safety to those in attendance.

An outstanding feature of the fair will be the free attractions both in the afternoon and evening. These will be followed in the evening by the fireworks display which will be given at 8 o'clock. The display will be the most beautiful ever presented here and as usual it is expected that it will attract considerable interest.

The afternoons will be devoted to the races and free attractions. A large number of grand circuit horses have been entered for the races which promise to be most enjoyable.

On account of the rain and the condition of the race track the races could not take place this afternoon but will take place tomorrow if weather conditions permit.

Miss Estelle Meekins Resigns Position With Local Banking Firm

Miss Estelle Meekins who for the past two years has been stenographer for the Greenville Banking and Trust Company has resigned to accept a position with Keel, Richardson Hardware Company, Washington, N. C. Miss Meekins is the daughter of Mr. J. R. Meekins, City clerk of Washington, and her resignation is the result of her desire to be at home with her parents.

During her stay in the local bank her services have been most efficient and highly satisfactory and it is with great reluctance that the officials of the bank accept her resignation.

Miss Meekins has not only been popular in the business world but also in social and religious circles. She possesses an attractive personality which has won for her a host of admiring friends. Greenville gives her back to Washington with a deep sense of regret.

She will be succeeded in the bank by Mrs. Alex Blow.

President Coolidge is said to be seriously considering appointing Secretary of the Treasury Andrew W. Mellon as the American representative on the Allied Board that is to determine Germany's ability to pay reparations, providing French restrictions do not make American participation impossible. Secretary Mellon, a Pittsburgh millionaire, is one of the leading financial experts of the world.

WINSTON-SALEM, Nov. 6.—Louis Melchior, stock and bond broker of this city who was arrested at Fairfax Court House, Va., and brought here Saturday to answer to five embezzlement charges and that of passing a worthless check for over \$3,000, waived examination at preliminary hearing in city court this morning. BASTROP, LA., Nov. 6 — Motions for a new trial for Captain J. K. Skips with, Benton Crump, Marvin Pickett and W. J. McIntosh, all klansmen convicted yesterday on the charge of carrying firearms on the premises of another were presented to the court by counsel for the defense when court convened this morning to hear several cases of misdemeanor growing out of mob activities in Moorehouse parish last year. COOLIDGE ISSUES THANKSGIVING PROCLAMATION

WASHINGTON, Nov. 6.—President Coolidge's Thanksgiving proclamation made public today calls to the mind of the American people two tragedies which the past year has brought forth. These were the death of Warren G. Harding and the Japanese earthquake and, said the president, are tests of men and nations. The proclamation stated that the nation had been blessed with much of material prosperity and asks that the American people gather in their homes and places of worship on Thursday Nov. 29 to express their gratitude to Almighty God and ask a continuance of his favor.

Bad Roads Are Cause Small Vote Today In Virginia Election

RICHMOND, VA., Nov. 6.—Bad roads seemed likely today to keep down the vote of the Virginia state-wide election the paramount issue of which is whether the state will issue \$50,000,000 in bonds for road improvement or finance its roads program on the "pay as you go plan." There has been more or less constant rain since Sunday afternoon and the dirt roads are now virtually impassable and almost impassable. It is thought that the condition of some of the roads in the outlying districts in which lay much of the strength of the pay as you go advocates, that many of the voters will be unable to reach the polls. Though a slow drizzle continues the local bureau declared at noon that the rain was over though it would remain cloudy throughout the remainder of the day.

Corrective Health Work By Red Cross In This County

The following will give the reader an idea as to actual corrective health work that is now being done in Pitt county. In fact initial steps were taken in this case just recently.

Infantile Paralysis.
This dread disease left its mark on one of our own girls at an early age, the effects of which have lingered with her until the present. She came from a tenant home, where the father is dead and where there is a band to mouth existence. This cripple and her mother live at present with her married sister, but without any opportunities whatsoever.

Helped by Charity.
She has gotten her clothes from charity since her existence was known something like a year ago. This is but one case of its kind in the county. Another comes to mind at this time which has also received aid from charity.

Never Attended School.
This bright child has never had the opportunity of attending school, being stricken at an early age. While other boys and girls have been enrolled in the educational institutions of this county, this fine little girl has been denied the privilege.

Now in Hospital.
Because of Red Cross fund, this child is now in one of our hospitals and getting treatment that is believed will bring restoration and thus enable work, play, laughter and training to be a part of this girl's program.

Could a work be more appealing to Pitt countians than to help polish these diamonds in Pitt county? It is believed that our people will share in a liberal manner in the way of contributions to the Red Cross Roll Call next week.

DR. WATSON S. RANKIN TO DELIVER ADDRESS AT MEDICAL ASSOCIATION

RALEIGH, Nov. 6.—Dr. Watson S. Rankin, secretary of the North Carolina State Board of Health, will deliver the principal address before the Southern Medical Association which will convene at Washington, D. C., on November 12.

THRILLING RESCUE OFF SCOTTISH COAST

The above photograph was snapped just at the instant the British Coast Guardsmen fired a rocket lifeline to the steam trawler Imperial Prince, stranded off the Scottish coast near Aberdeen. Two of the trawler's crew perished in the heavy seas, but the remainder were rescued in a daring manner by the Coast Guards, who cut out to them in a life boat, after many unsuccessful attempts.

Faction Attorney Is Shot To Death By Klan Publicity Man

ATLANTA, Nov. 6.—Still maintaining silence as to the motives for the shooting of W. S. Coburn, attorney for a Klan faction, late yesterday, Phillip E. Fox, publicity representative of the K. K. K. and publisher of the Knight Hawk, faced the grand jury this morning on the charge of murder. Fox has refused so far to make any statement whatever to the police who made the arrest. The grand jury completed its investigation this morning and will make a report to the court this afternoon.

The shooting occurred late yesterday in the offices of Coburn and there were two eye witnesses to the tragedy. Mrs. W. A. Holbrook, stenographer for Coburn, and Mrs. Oscar Weyman, of Cleveland, Ohio, a client present in Coburn's offices at the time that Fox entered the office and fired four shots at Coburn who tumbled from his chair dead. Fox then, according to the women, threw his revolver to the floor and left the room. The only statement made by him was "I am sorry to have had to do it, but I am glad he is dead. He was planning to ruin me and I had just as soon be hung as hurt. What I did has no connection with the Ku Klux Klan. Coburn had threatened to ruin me and to publish affidavits affecting my character that were untrue."

Coburn was a native of Savannah and his remains will be carried to that place for burial.

Mrs. Fox, wife of the man who did the shooting, is hospitalized at her home on Wesley Avenue according to announcement of the man at the house who answered the door today and refused to admit newspaper men.

Rotarians to Attend Intercity Meeting In Goldsboro Nov. 15th

At the regular business meeting last night the Greenville Rotary Club discussed with enthusiasm the intercity meet which is to be held in Goldsboro on Thursday, Nov. 15 and unless sickness prevent the club is expected to attend the conference with one hundred per cent membership. Guy Gundaker, National Rotary vice president is listed among the officials to be present and no doubt the affair will prove of great interest to all those attending.

Following the routine business at last night's session B. S. Warren and Dr. M. Clark made short talks to the club. Mr. Warren used as his subject "The Object, Benefits and Obligations of Rotary." He dwelt briefly on each of the three topics ending with an appeal to all Rotarians not to overlook the last and most important, their obligations as Rotarians to the club, community and the world.

Mr. Clark's talk on Greenville's assets and liabilities embodied much useful and interesting information and was greatly enjoyed.

Pillage And Robbery Continues In Berlin

BERLIN, Nov. 6.—Looting of food and clothing shops continued throughout the night in the northern sections of the city while, in the fashionable sections of the city automobiles were held up and the occupants robbed of their personal belongings. Most of the pillaging was done by gangs of men and youths whose numerical strength in some cases was as high as 300. The women freely participated in tearing the food shops. The price of bread this morning is 80 billion marks per loaf as compared to 140 billion marks on yesterday.

Believing that bread is more important than politics, the German public opinion is solidifying itself in favor of a national dictatorship of a single man or a limited directorate power to punish the food profiteers and force the farmers to bring their product into the city.

It was stated authoritatively that the government was taking steps to protect the republic against those who are trying to take the government to their own hands. Three regiments have been sent to the Thuringian frontier where it is said that the Barbarian irregulars are making threatening gestures, the real purpose of which is to overthrow the republic and establish a national military dictatorship. In some quarters Ludendorff is claimed to be supporting the movement.

Bandits Isolate Town, Rob 2 Banks

SPENCER, IND., Nov. 6.—A band of robbers varying in the estimated number from 14 to 20 robbed two banks here early today of approximately \$15,000 and wounded two citizens. Traveling in four automobiles the bandits first isolated the town by cutting all telephone and telegraph wires and placed guards to prevent any possible interference while they blew the bank vaults. The robber, remained in the town for more than an hour and gained access to two bank vaults by the use of high explosives. There were several explosions one of which almost wrecked the building. The two banks robbed were the National Bank of Spencer and the Exchange State Bank. The bandits made their escape.

DIPLOMA MILLS

Federal law authorities at St. Louis are investigating charges that so called medical colleges are selling diplomas that unworthy men may represent themselves as physicians.

One can remember when there was great "liberality" or negligence in permitting men to practice professions. A man might read a volume of laws of this state and be admitted to practice "on motion" of a member of the bar known to the court, or he might take a very slipshod form of examination...

There has been a gradual tightening up of requirements for practicing medicine in the United States and some believe that the requirements are not yet adequate. Progress in medicine and its related sciences has been remarkable in the past quarter century and a higher mentality is required now than formerly in physicians who would give patients the best that science has taught.

gressive. Old theories and modes of treatment go to the scrap heap and new ways come in, perhaps to be discarded later, but it seems clear that progress is making in the cure and alleviation of the ills we suffer.

A "fake" medical college or an institution selling medical diplomas is as low a fraud as can be conceived. Men who sell diplomas and men who buy them are scarcely worthy of charitable consideration, and it is hoped that if the law officers at St. Louis find conditions as charged they will show no lenience to the wrongdoers.

CENSORS ENDORSED

That famous tale of the serpent that disappeared by swallowing himself tail first is finding its modern counterpart in the censorship which is beginning to censor itself out of existence. The end, it is to be hoped, is not far off, for the world is weary of censorship and becoming impatient of dictators.

It so happened that when the police of a Boston precinct recently descended on a bookshop in quest of whatever they might discover, they lighted on a book that to their unliterary eyes was offensive, inasmuch as it made uncomplimentary mention of policemen and their peculiar ways.

Greatly to their astonishment, however, instead of songs of praise, a torrent of abuse was hurled their way. From two directions, language highly uncomplimentary and frankly impolite was directed at the luckless guardians of the law. A committee of Boston booksellers, acting as a board of censorship on literature sold in the city, let it be known that the book in question was entirely proper, for the reason that the committee previously had examined and approved it.

Meanwhile, signs are not wanting that censorship elsewhere is disposing of itself thru its own excesses. The more or less regular recurrence of attempts to impose a gag on the free press of America is symptomatic of the grand climax that will inevitably lead to the complete downfall of the censor system.

F. S. Royster Guano Company Has Fine Booth at County Fair

The F. S. Royster Guano Company, of Norfolk, Va., has a most attractive booth in the main building at the Pitt County Fair. The booth is in charge of Dr. J. O. Taylor, boll weevil specialist, Dr. E. W. Magruder, chief chemist and agronomist, and other representatives of the Royster Guano Company.

Dr. Taylor has had fifteen years experience with the United States department of agriculture and actual farming under weevil conditions. He has made a careful study of the boll weevil and has a valuable store of information for the farmers of this section.

Dr. Magruder has made a special study of fertilizers for use under boll weevil conditions. He is not only well versed as regards the fertilization of land under weevil conditions but also other crops raised in this immediate section. He will remain at the booth throughout the four days of the fair and give all necessary information asked of him. The farmers are extended an invitation to consult him.

Royster's fertilizers have become a household word throughout every section of this county and its merits and qualities are well known by farmers.

Mr. F. S. Royster, president and founder of the F. S. Royster Guano company, and a native North Carolinian will arrive in Greenville tomorrow to attend the fair. He will be at the booth Wednesday and Thursday and will be glad to meet everyone especially those interested in the making of Royster's fertilizers for various crops.

Annoying Kidney Ills

Make Life Miserable For Many Greenville People

There is nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, the attendant headache, dizziness, life is indeed a burden. Doan's Kidney Pills have given peace and comfort to many Greenville people. Profit by this Greenville resident's experience.

Mrs. J. J. Jenkins, 315 Cotanch St., says: "Some years ago my kidneys bothered me. I had severe pains in my back just over my kidneys which almost drove me wild. I couldn't get any rest at all. I had headaches all the time. Dizziness was common and often I had to grasp something

for support. Many a time I thought everything was floating around me. My kidneys were not normal in action. I bought two boxes of Doan's Kidney Pills at Horne's Drug Store and the relief they gave me was indeed a blessing."

NEW SOUTH WALES STRIKERS LOSE \$2,800,000 IN 90 DAYS

SYDNEY, N. S. W.—Strikes cost the workers of New South Wales \$2,813,100 in wages during the three months ended June 30, according to state officials.

The strike fever seemed to have affected the mother state mainly, for of the 48 industrial disputes in Australia, involving more than 20,000 workers directly and indirectly, there were only three serious strikes in Victoria, five in Queensland, and one in South Australia. Western Australia and Tasmania appear to have enjoyed perfect peace industrially, as not one dispute was reported from either of these districts.

At a recent function here delegates to the conference of the Employers' Federation of Australia issued a direct invitation to the employees to discuss their differences, not behind the barricades of the Arbitration court, but over a friendly table.

BULGARIANS RAISES MONEY SCHOOLS BY SUBSCRIPTION

AITOS, Bulgaria.—Because of the lack of funds on account of its heavy expenditures for reparations and other post-war purposes, this city is building the necessary additional school accommodations by public subscription.

The subscriptions are being paid in the form of money and building materials of various kinds. Thus far more than 500,000 levas have been contributed in cash and material, and the subscription campaign is being actively pushed by citizens' committees.

Recently the local board of education laid with an elaborate civic ceremony the foundation stone of a primary school in the "Strandja" quarter.

Both in the collection of funds and

in the actual labor of school building, the school children of both sexes are taking an active part.

Advertisers Look to London.

A national reception committee is in existence, together with a national sight-seeing committee. The delegates will, when the business of the convention is over, visit several centers of historic interest in Great Britain.

Every section of advertising, publishing printing and selling is supporting the convention and is represented on the general committee.

The most interesting place in Richmond

Every sort of floor covering is found in our carpet and rug department—from practical linoleums and grass rugs to the finest, softest and most exquisitely-colored Oriental rugs. These latter were purchased for us in the Orient and, because they were bought in large quantities, are very reasonable in price.

AFTER you have seen the Capitol, Monument Avenue, the battlefields, and other places of historic interest, you will find a welcome and well-earned rest at Miller & Rhoads Store.

After all, it is the most interesting place in Richmond. Floor after floor of beautiful things, gathered together from almost every corner of the world, and conveniently arranged for your inspection. There is something to rest and delight the eye on every side, a refreshing spectacle for the sight-weary tourist, and prices that please the shopper.

Miller & Rhoads is a splendid place to buy what you need for yourself or home. Almost from the moment you step into the store you find yourself surrounded with irresistible values. In addition to regular stocks sold at unusually moderate prices, daily sales events offer opportunities for substantial savings.

Gorman's Market Report

The sales were light Monday and are smaller today. Gorman's Monday's sale of close to a hundred thousand pounds was highly satisfactory to our customers. We had several tell us it was the best sale they had seen since 1919 and several told us we would be sure to get their next load of good and fine tobacco. We sold many piles from sixty to ninety cents per pound. All grades except the very common with us were higher than they have been any time this season. COME SEE OUR SALES AND WE BELIEVE WE WILL GET YOUR NEXT LOAD OF GOOD TOBACCO. Drive to Gorman's and you will get the top of market.

Preliminary To Big Fight on Prohibition Started In England

LONDON. — Almost everyone in England feels that some day in the future the country will be the scene of a big fight over the prohibition question. Both sides are already busy bellowing from soap boxes and lecture platforms, and spreading printed propaganda here and there.

To the side of the wets has just come Professor Ernest H. Starling, University College, London, with a book on "The Action of Alcohol on Man."

"The work of the Community," he contends, "is carried out almost entirely by men with whom the moderate use of alcohol is habitual."

"We have only to look at the leaders in every walk of life. In each group we find a small handful who are total abstainers, but a census would probably give over 90 percent who habitually partake of small doses of alcohol. Health is in most people a necessary condition of success, and most of the members of the leading groups of society enumerated are distinguished not only by their good general health, but also by the fact that they live to a ripe old age."

Dry dinners are an awful bore to everyone, the Professor seems to think, and the merriment is obviously forced. But an ordinary feast at which alcoholic drinks form a part is ever "distinguished by a natural flow of spirits and good fellowship."

"A man may go to such a dinner full of the cares and work of the day, with little or no interest in those he has to meet, whose occupations may be very diverse from his own, nervous

of making any remarks to his neighbors for fear of making himself ridiculous or saying something in which they are not interested. After the first glass of champagne we notice conversation, instead of being impudic and forced, becomes general and free; the self-consciousness and preoccupation of each man with his own affairs, becomes lessened."

Ranks of London Street Hawkers Growing Thin

LONDON. — Street hawkers who reap their richest harvest when the American tourists descend upon London, will soon become a tradition, and the children's "walk of delight" up and down Ludgate Hill the week before Christmas will be a path of sad memories.

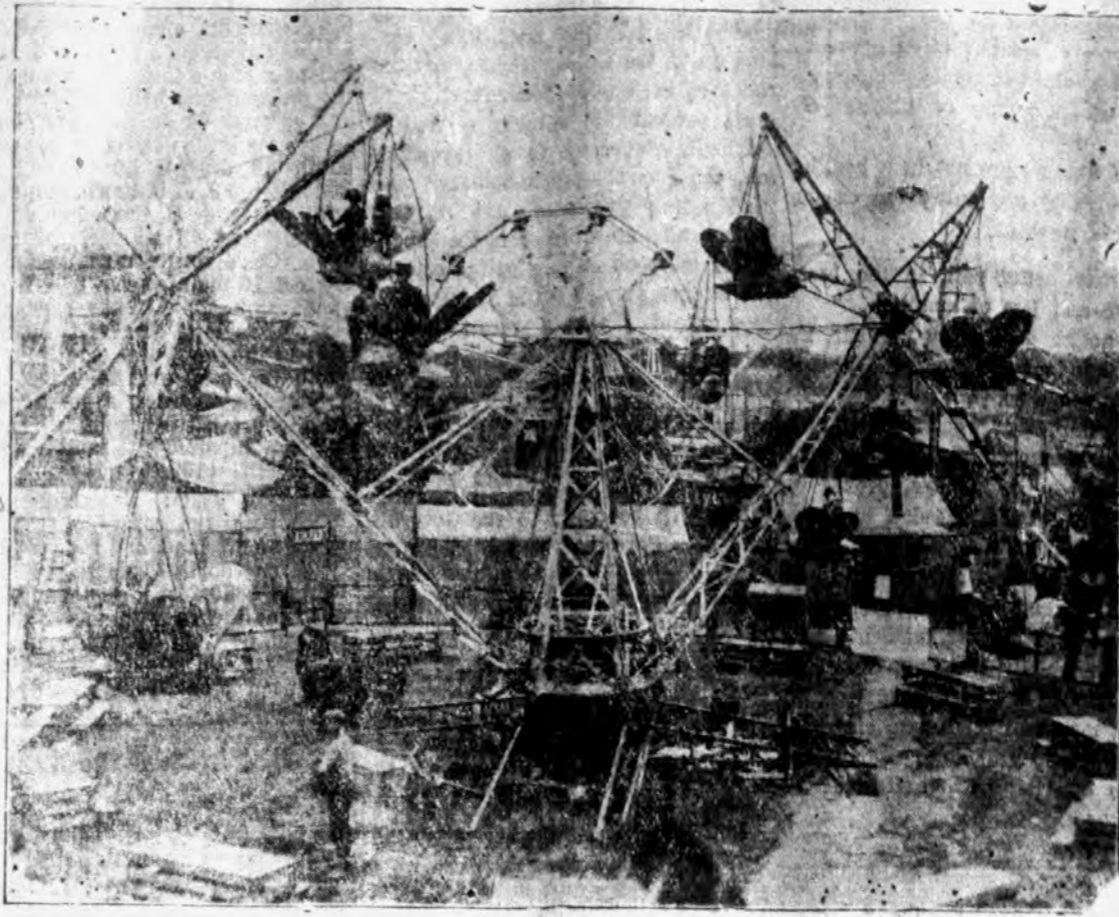

Unless there is a reprieve the city hawker will become extinct because since 1911 no fresh licenses have been issued to hawkers and many of the hawkers of that date are dead or too infirm to carry on their trade. At death, a hawker's badge is reclaimed by the police and not retained to anyone else.

The reason for the withdrawal of the badges is stated to be the advent of the wide-beamed motor buses and taxicabs, which are considered to have made the hawker's trade a danger to himself and others.

SHEELEY SHOWS AT FAIR GROUNDS

Greenville's temporary Coney Island, provided by Greater Sheeley Shows for the 1923 Pitt County Fair, arose as if by magic yesterday on the fair ground, and this morning all performers, animals, freaks, "hot dog" vendors and all the "barkers" were in

readiness and awaiting their cues for the vanguard of visitors, which is expected to make this year's event a record-breaker in the annals of the annual Greenville show.

The Sheeley Shows appear by far to be the largest and most modern

tented exposition which ever appeared here, the canvas is spick and span, showfronts attractive, riding devices well kept up and the personnel clever and courteous, bearing out advanced reports of the merit and cleanliness of the organization of Capt. John

Sheeley, America's foremost showman, and a leader in the clean-up crusade which has ousted from outdoor showdom the undesirable, which in years past cast dark reflection upon the outdoor show world.

Capt. Sheeley travels with his company, in his private car, Alabama and has assumed personal charge of the midway, working under the slogan, of the Showman's Legislative committee of America, to present only clean, moral, wholesome amusement. The joy-making apparatus, as set up here, is the same lane of laughter which was so well received at the State fair at Raleigh.

Featured among the nine rides is the caterpillar. A new companion ride is the butterfly, shown herewith, containing 25 tons of iron and steel and being a combination of the carousel and the Ferris wheel. The other rides are merry-go-round, Ferris wheel, the whirling whip, kiddie airplanes and Over-the-Falls, the great fun-maker, ever popular with belles and beaux. There are more than a dozen tented attractions: Teenie Weenie Midgets theater; two big circus side-shows; Sheeley's Famous Georgia Minstrels, with their own band and orchestra; the thrilling autodrom, with daredevil riders changing from motorcycles to auto while going at top speed in the curlike enclosure; Jaunteel Musical comedy; Land of Wonders, with 50 freak animals; Oris, the wonder girl; Ralph, the Elephant boy; Tiny Mitepays to have his shoes shined. ALASKA WILL ENGAGE IN PAPER INDUSTRY

WASHINGTON.—Development of an important pulp and paper industry in southeastern Alaska is inevitable because of the water power, timber and transportation conditions there, in the opinion of Secretary of Agriculture Wallace.

"The rate of development of the pulp and paper industry of the territory," says Mr. Wallace, "will be controlled by the economic factor of distance: from present consumption centers, and by the necessity, inherent in the industry itself, for large capital investments, rather than by physical disadvantages. The physical conditions in southeastern Alaska—presence of cheaply developed power, an enormous supply of inexpensive wood and the availability of water transportation—are the very factors which make inevitable the expansion of pulp and paper manufacturing in the territory."

BERLIN.—Police officials here have fixed the price of a ride on a Berlin street car as equal to the amount one would pay for a shoe shine. On Oct. 1 this was 4,500,000 marks.

TEXAN SPENDS FOUR YEARS TO RUN DOWN GANG OF SWINDLERS

FORTH WORTH, Tex. — Texas' most famous man hunter, J. Frank Norfleet, is back on his Hale county ranch, satisfied with his years of criminal tracking.

They had "lifted" \$45,000 from him, so he claimed, and they were going to be punished. One by one they succumbed to his relentless pursuit.

It was while Fort Worth and Dallas—in fact all of west Texas—were in the grip of the oil boom that a clever squad of stock swindlers appeared in these parts and proceeded to lay traps for the unwary.

The ranchman began his man hunt in 1919—or just as soon as he became convinced that he had been swindled. The net result was: Joe Furney, leader of the squad, died in prison at Huntsville, Texas, after having been convicted by a Tarrant county court.

E. J. Ward killed himself in a Washington, D. C., jail after having been convicted of the Norfleet swindle and while he was awaiting trial in Washington on a similar charge.

Charlie Gerber is serving a term in the Texas state prison for swindling Norfleet.

W. B. Spencer is now under arrest in Salt Lake City, and wanted in Fort Worth for the Norfleet swindle.

Norfleet followed Furey through the United States, Canada, Mexico and into Europe. Finally, he overtook him at Jacksonville, Florida, and overcame him only after a struggle and fight.

The pursuit of Spencer continued four years. In one phase of it, Norfleet unearthed another gang of swindlers in Denver, a number of whom were sent to prison after sensational trials.

Norfleet was assisted in the long chase by his son. When they would lose the trail, they would return to the ranch for rest and recuperation. Then, striking another clue, they would start out into the world again.

Norfleet cannot estimate the amount of money he has spent in the pursuit but feels that he has been well repaid with results.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions. Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine will do for them.

FINDS FILIPINO LEPER IN NEED BETTER FOOD

MANILA — A better organized kitchen service, with an executive familiar with the science of dietetics at its head, is considered urgent in connection with the work being carried on in the Gulion Colony for the relief of the 5,000 lepers there.

At present the kitchen service is deficient, according to an investigator, the food being unbalanced and inadequately prepared and served. With hardly an increase in the expenses of the food supply of the colony, the kitchen service could be improved if a capable dietitian were placed at its head, it is said.
