Number 127

CARL WILLARD OF RALEIGH HIT BY A FIRE TRUCK; DEAD

Lad Was Crushed When Truck Crashed Into Crowd on Side Walk

RALEIGH, Nov. 8.—Caught under the wheels of a heavy fire truck driven by Capt. Earl Smith when it crashed into a throng watching a fire from a sidewalk on West Martin street, Carl Willard, 10, son of Mr. and Mrs. C. J. Willard, 424 Fayetteville street, was crushed to death at 2:45 yesterday afternoon. Walter Reid, negro, was badly hurt but is expected to live. A dozen people were knocked down. Smith was immediately placed under arrest by Plainclothesman Jesse Wyatt and he under bond of \$2,000 on a charge of manslaughter. He gave bond early last night and was released. He was too badly unnerved to give any account of the tragedy, saying only that he knew nothing about it until it had happened. He appeared dazed when he left police headquarters after spending three hours in a cell.

Hundreds Saw Tragedy.
Hundreds of people, gathered to watch the fire which partially destroyed an old war house and a small garage on South West street opposite the west end of the Union Station, saw the lad crushed under the wheels of the truck as it sped across the railroad tracks and swung up to the left into Martin street, and charged across the sidewalk, densely crowded with spectators.

Three lines of hose were playing on the burning buildings and the fire was practically under control when orders were given by Chief Hicks to lay another line over the railroad. Smith shot the truck across the tracks at a speed of 25 miles an hour. An instant later the mangled body of the lad, who had a moment before been watching the spectacle with childish eagerness, was lifted from under the wheels.

Crowd Threatens Driver.
—Stunned for a moment by the death that had been done under their eyes the crowd stood still. Somebody picked up the child and hurried him into an automobile. Others picked up the unconscious negro and carried him away. The anger of the throng was turned upon the truck driver but before threats that were made against him were consummated, he had been taken away to be locked up in the police station.

Relative of Local People.
Carl Willard was a nephew of Messrs. C. W., E. L. and G. S. Willard, of this city. They left yesterday afternoon to attend the funeral.

Method of Quake Prediction Is Hope of Weather Officials

WASHINGTON, Nov. 8.—Earthquake records cannot be used directly in predicting earthquakes, the Weather Bureau announces, but study of a collection of these records throws a great deal of light on the nature of earthquakes generally, and it is hoped that at some future time this information may lead to successful methods of prediction.

The Hawaiian volcanic observatory of the Weather Bureau utilizes these records and has been instrumental in the saving of life and property. When a violent earthquake that appears to have occurred in the Pacific Ocean was recorded the observatory officials send out warnings by cable and otherwise to the regions likely to be affected. Such earthquakes frequently are attended by so-called tidal waves and there usually is an interval of many hours between the occurrence of the quake and the arrival of the destructive oceanic wave at a given point.

Have Traveled Faster Than Other Men

Alford J. Williams, Harold J. Williams, U. S. N., have traveled faster than any other mortal men.

Lieutenant Alford J. Williams, U. S. N., and Lieutenant Harold J. Williams, U. S. N., have traveled faster than any other mortal men. In official speed tests over a three-kilometer course at Mitchell Field, Long Island, Lieutenant Williams a former New York Giant pitcher, averaged 263.3 miles an hour. Then Brown went up and came down with a new world's record of 364.6 miles an hour. Peved-like, Williams nose dived down from 5,000 feet at a speed of approximately 350 miles an hour, flattened his machine out so as to fly on a level plane across the course and averaged 266.6 miles an hour—the fastest a man has ever moved. At one time Brown was clocked at 272.2 miles an hour but his average was lower. If Williams' speed of 4.4 miles per minute could have been maintained he could have flown from New York to San Francisco in 11 hours and 58 minutes.

"Just Married" Was Greeted By Capacity House Last Night

"Just Married," a honeymoon farce comedy was presented in White's theatre last night to a capacity house. It was one of the best shows seen on the local stage recently and kept the audience in an uproar of laughter.

Dorothea Howard as Mrs. Jack Stanley and Fred James as Jack Stanley were the newly weds. She being a very young bride played the part in a most natural way and by her talking caused quite a bit of excitement aboard the boat.

Every person in the cast was splendid in their respective parts and each deserves a large part of praise.

Taking "Just Married" as a sea going comedy it was certainly delightful and fully measured up to the expectation of all attending.

The play was divided into three acts, all taking place on an ocean liner. The old fashioned bed room scene was cleverly brought out by Miss Sylvia De Frankie, as Roberta Adams who by the similarity of the names found themselves in the wrong state room. Their astonishment and confusion were expressed in such a clever way that the audience was fairly carried away with their acting.

Mr. J. J. Laughinghouse, of Oriental, is spending a few days in Greenville.

Engineers, Firemen Virginia Railway Walk Out Today

NORFOLK, Va., Nov. 8.—Between 400 and 500 railroad engineers and firemen approximating two thirds of the engine crews of the Virginia railway walked out at 6 o'clock this morning despite orders from the United States Labor Board to withhold action until the hearing on November 14 between the officials of the road and the engine men over the discharge of several employees.

Vice President V. C. Hix, of this city, telegraphed the labor board asking authority to employ men to fill the places of the strikers in order that the entire schedules of trains might be kept in operation pending the settlement of the dispute. The rain schedules, according to Hix are not seriously handicapped.

ROANOKE, VA., Nov. 8.—Engineers and firemen of the Virginia railway walked out at 6 o'clock this morning in protest of the discharge of several of their number about a month ago. General Manager E. H. Birchfield declared today that he had sufficient men to move all trains from this city. The strike is general all along the line, Birchfield announced, despite the instructions to the men from the United States Labor Board that they must delay their action until Nov. 14.

Boxing Commission To Allow Stribling To Go Over 6 Rounds

NEW YORK, Nov. 8.—The regulations of the New York Boxing Commission have been broken to allow "Young" Stribling, the Georgia high school boxer, to engage in a bout in the jurisdiction of the commission scheduled to go over six rounds. The regulations of the commission prohibit those under 21 years of age from going over six rounds, but because of the pugilistic career of Stribling an exception has been made. He is 18 years of age.

Council Not Willing For Ex-Crown Prince To Return Germany

PARIS, Nov. 8.—The Allied Council of Ambassadors has decided to request the Dutch government not to allow Ex-Crown Prince Frederick William to leave Holland where he has been living in exile. The council has also asked the German government not to allow him to return to Germany as he is listed among those who are charged with war crimes and subject to arrest by the Allied Council.

Thirsty Germans Won't Be Denied

BOCHUM, Germany, Nov. 8.—Boycotts on beer to bring down the price do not work in Germany because the public is not sufficiently self-sacrificing.

Four hundred saloon keepers of Bochum recently agreed to sell no beer because the brewers fixed too high a price. Thirty customers begged for the lager at any price, and within 24 hours the strike was over and the Wurtzberger flowing again, but at prices so high as to materially reduce sales.

Defense in Moorhouse Parish Trial Will Appeal High Court

BASTROP, La., Nov. 8.—Judge Fred M. Odum today overruled the motion of the defense in the Moorhouse Parish misdemeanor trial that he refuse or disqualify himself. The defense immediately gave notice that they would take an appeal to Supreme Court for a writ of prohibition. The defense had charged that the court under Odum was biased and prejudicial.

7,554,587 Bales Of Cotton Gined Up to November 1

WASHINGTON, Nov. 8.—Cotton of this year's crop ginned up to November 1 aggregated 7,554,587 running bales compared with 8,139,215 running bales ginned to that date last year and 6,646,354 bales ginned to the same date in 1921, the Census Bureau announced today.

Ginnings included 194,677 round bales counted as half bales; 41,521 bales of American-Egyptian and 437 Sea Island compared to 142,369 round bales; 1,335 American-Egyptian and 1,326 Sea Island to November 1 last year.

Revised statements for cotton gined to October 18 this year place the number at 6,415,145 bales instead of 6,409,579 as announced on October 25.

Ginning by states have been:
North Carolina 729,611 bales
South Carolina 626,694 "
Virginia 21,836 "
Alabama 495,702; Arizona 33,249; Arkansas 392,188; California 19,491; Florida 11,422; Georgia 490,142; Louisiana 299,086; Mississippi 455,856; Missouri 53,621; Oklahoma 295,606; Tennessee 122,301; Texas 3,496,479; all other states 12,393.

Farmer Kills Wife, Wounds Young Man And Commits Suicide

SMITHFIELD, Nov. 8.—A. E. Flowers, a tenant farmer near here, shot and instantly killed his wife, slightly wounded Earl Stephenson, a youth, and ended his own life, according to reports made to the sheriff's office here.

Stephenson was struck by a stray bullet while sitting on a log in the front yard of the Flowers home and is not seriously wounded. Flowers and his wife have been separated for several years, and the shooting occurred yesterday after she had refused to return to her husband when he called upon her.

Flowers, according to authorities, has served a term in the federal prison in Atlanta for the illicit manufacture of liquor.

Disciples of Christ To Hold Their Next Convention, Dunn

RALEIGH, Nov. 8.—With the election of officers, the 79th annual convention of the Disciples of Christ, which opened here Tuesday, came to a close last night. Dunn was selected as the 1924 meeting place.

At the concluding session, Monday Edwards, missionary to Mexico, and Rev. A. F. Cory, of Kingston, were the principal speakers. Mr. Moody developed much of his address to personal experiences in mission fields, while Dr. Cory spoke on the "Possibilities of Christian Service."

At the morning sessions, C. C. Ware, of Wilson, state secretary, made a report of the year's activities of the state board and the missionaries in its employ. The reports showed that these missionaries had received into their churches 151 persons during the year, and raised nearly \$50,000.

A session in the interest of the United Christian Missionary Society was held during the afternoon by Dr. F. W. Burnham, president of the society. Officers were re-elected as follows: President, W. C. Manning, Wilmington; vice president, C. W. Howard, Kingston; recording secretary, P. A. Hodges, Kingston; treasurer, L. J. Chapman.

Colony Training Center Plan of Blind Veterans

ST. LOUIS, Nov. 8.—Establishment of a colony as a training center for blind former service men will be discussed at the second annual convention of the United States Blind Veterans of the World War to be held here November 12-17. The purpose of the colony would be to help Americans, blinded in service realize their ambitions, according to the local arrangements committee.

CARPENTIER TO FIGHT GIBBONS SOON

Tom Gibbons and Georges Carpentier.

Georges Carpentier, French heavyweight, will sail for New York on November 11 on the liner Rochembeau. He has been matched to fight Tommy Gibbons, the St. P. and heavyweight, who stayed 15 rounds with Jack Dempsey at Sho Day, Mont. The bout will be staged in Madison Square Garden, New York, in December or January.

J. P. Harris Shows Why the Red Cross Should be Supported

Mr. K. T. FUTRELL, Greenville, N. C., Dear Sir:

Owing to the fact that Miss Louisa Hubbard, of Forest Depot, is still unable to write and comply with your request of a letter for publication in the interest of the coming Red Cross roll call, for Pitt county, Mr. Aubrey E. Strode, of Lynchburg, Va., transmitted her request that I write you the letter for her giving Five Reasons for Red Cross in Rural Communities. Because of my deep appreciation of Miss Hubbard and the faithful service she rendered our people in the county, I hasten to comply with her request, trusting that it may be of some service to you in the coming Roll Call.

The first reason for Red Cross in Rural Communities, is for personal service. In this dreary world of many disappointments, who can we make happy? How can we best do this splendid work of personal service to those who need it so much? Red Cross answers these questions.

The second reason, is for School Service. We only have to look once into our schools to see the many things the Senior and Junior Red Cross can do. These speak louder than my words from your community.

The third reason, is for Community service. There are some things in every community that ought to be done that never will be done until we get some organization that looks at the community in its entirety, to do these things.

The fourth reason, is for National Service. Just such as called to the American Mother at New Bern when that city was paralyzed by the disastrous fire or the call that came and was heroically answered at Wendell when that community was swept by a fierce tornado.

The fifth reason, is for World Service. In the great universal family of man there will arise from time to time those conditions of famine, pestilence, war or some other menace to the human family that calls for our best and instant co-operation. The Red Cross as every man's representative is the best response to such condition as was visited on Japan in her recent catastrophe of an earth quake that caused the loss of hundreds of thousands of lives.

May your Annual Roll surpass any other put on by the forces in this county, is my wish to you and all the organization.

Very truly yours,
J. P. HARRIS.

Mr. and Mrs. C. C. Dawson and Mrs. Walter Willard of Conetoe, passed through Greenville, yesterday enroute to Conetoe to attend the funeral of Carl Willard who was killed yesterday afternoon in Raleigh.

Past Year Proves Flourishing One for Banks of This State

RALEIGH, Nov. 8.—An analysis of the statement of condition of North Carolina banks which was issued yesterday by the Banking Department of the State Corporation Commission, shows that the past year has been a flourishing one for North Carolina fiduciary institutions. Not only have the national banks shown an increase in resources but the same is true of the state banks. The statement covers the period September 15, 1922 to September 14, 1923.

The statement shows that there are in operation in the state 528 banks. Fifty two of these are branch institutions. Savings deposits have increased during the year covered \$7,923,311.02 with a total in these accounts on September 14 of \$78,725,972.85. Deposits subject to check also have increased the total being \$98,859,189.18 an increase of \$2,852,028.36. The banks show a large volume of actual cash in hand the amount being \$5,903,936.70 an increase overlast year of \$899,175.18.

The increase in resources of state and national banks is given as \$22,583,037.35 with total resources of both kinds of banks of \$447,856,854.42.

Some idea of the growth of banking in the state during the past ten years may be gained from a comparison of figures shown in the report. In Sept. 12, 1914 the aggregate resources of state banks and trust companies was \$89,302,068.73. In 1923 they are \$274,723,854.42 or nearly three times the 1914 figures. Each year since 1914 has shown an increase.

The resources of state banks in North Carolina are approximately one hundred million dollars, greater than those of national banks according to the statement, the national bank figures being \$175,133,000 while the state banks have \$274,723,854.42.

Bavarian Regulars Will March Upon Berlin, Friday

LONDON, Nov. 8.—A Berlin correspondent of the Exchange Telegraph forwarded a telegram from Munich today which stated that the Bavarian regulars will march upon Berlin tomorrow.

England Lacks Dentists.
LONDON.—There are 3,000,000 children in England and Wales who need dental treatment, and it has said recently by an insurance concern that had teeth are the direct cause of most of the general debility and minor illnesses which exist today. England has only 117 dentists to every million of population which is far from enough.

LARGE CROWDS AGAIN ATTEND THE PITT COUNTY FAIR

Races Was Outstanding Feature Of Second Day of the Fair

The Pitt County Fair had another splendid day yesterday and was largely attended. The races which started at 2 o'clock were witnessed by hundreds of lovers of the sport.

Greenville has never been visited by a larger midway than Sheesley Greater Shows. It consists of the usual amusements of a midway such as shows, candy wheels, doll wheels, merry-go-rounds. There are also several added attractions such as the Buttery and Caterpillar which have never been seen here before.

In the main building the merchants, manufacturers and agricultural exhibits are attracting attention. The exhibits are varied and beautiful. Every exhibit is worthy of mentioning.

The free attractions, which are being given both afternoon and evening, are receiving their part of attention. The evening performance is followed by the fireworks display which, as usual, is beautiful.

Every one attending the fair comments on the manner in which traffic is being handled. Traffic cops are on the job and so far no accidents have been reported.

The races again featured this afternoon's program, and were largely attended.

Figures Show Germany Leads World in The Potato Production

WASHINGTON, Nov. 8.—Nobody knows just how many potatoes are grown in the world yearly, but the department of agriculture estimates more than 5,000,000,000 bushels were harvested last year, exclusive of Russia and the many small patches grown in gardens for home use the world over.

Northwestern Europe is the world's greatest potato producing region because of favorable soil and climatic conditions and its people utilize the potato to a greater extent in their diet in the manufacture of alcohol, and as feed for livestock than in other sections of the world. Germany is the world's largest producer of potatoes, producing 1,494,181,000 bushels last year. The United States produced 451,185,000 bushels last year.

Mrs. W. B. Carpenter Killed in Her Home By High Tension Wire

ASHEVILLE, Nov. 8.—Mrs. W. B. Carpenter, 30, of Norwood Park, was instantly killed at her home yesterday when a high tension wire fell across other wires leading into her home, overcharging water pipes and a washing machine with which she came into contact. Her father and another physician were immediately summoned but all means of artificial respiration failed to revive her.

New Winter Wheat Resistant Of Bunt, Smut Announced

WASHINGTON.—Development of a new variety of winter wheat which is resistant to bunt or smut is announced by the department of agriculture. It has been named "Ridit" because it is expected to rid the wheat fields of smut. The variety was developed by Dr. E. F. Gaines of the Washington agricultural experiment station at Pullman, Wash., in co-operation with the department of agriculture. It was bred through crossing Turkey and Florence varieties, the latter a smut resisting spring wheat from Australia.

THE COUNTRY SCHOOL

To an older generation of Americans, the "little red schoolhouse" is a sacred tradition not readily understood by young persons of today. The education which the fathers and grandfathers of that generation received in the isolated rural schools previous to 1880 was of a practical, rough and ready sort well suited to the conditions of life in the pioneer stage of America's development.

But times change, and unless schools change with them, the usefulness of the schools become impaired. In many states, the condition of rural schools is such as to cause genuine alarm among educators and public spirited citizens who have the good of the state at heart. One of the chief troubles with which small country schools have to contend in this

state is the lack of training and the instability of teaching forces. Investigations have shown that the great majority of teachers in rural schools of the old type are inexperienced young persons intent on going elsewhere as soon as possible. In a year or two they drift to some other position, leaving the school district to a new teacher equally inexperienced. Scarcity of Normal School graduates among rural teaching forces is especially marked and the lack of a suitable Normal School course for the training of rural school teachers is also commented on severely.

Another difficulty encountered in rural districts of this state is the steadily diminishing population of the farming counties, except in certain favored localities, where suburban conditions are being established thru the movement of town population into the country. In school districts which once sent twenty to thirty children to the four-corners schoolhouse, there are now often no more than two or three children, seldom more than a dozen. A solution of the problem is being found in some counties where good roads are plentiful, by sending all the children of several districts by automobile to a central school, where a staff of instructors and graded work can be provided. But in counties where good roads are few and where ordinary roads become impassable after the first fall rains, the difficulties seem almost hopeless.

That the rural schools of America must be brought up to the standards of modern life if they are to fulfill their part in the work of the world is obvious. Good roads and motor cars already are doing wonders to remedy the difficulties, but a higher standard for rural teachers is sadly needed, and to attain the end, better training and the assurance of better pay will be needed. The problem is no less economic than educational.

MRS. W. B. WILSON ENTERTAINS Complimentary to Miss Price and Myers, of Greensboro, and Miss Warren, Bride-Elect.

On Wednesday afternoon, Mrs. W. B. Wilson was hostess at a pretty bridge party, in honor of Miss Kathleen Price and Jessie Myers, of Greensboro, house guests of Mrs. James Ficklen and Miss Lydia Warren, bride-elect. The three rooms, where the nine tables were played for the game, were effectively decorated with profusions of ferns and chrysanthemums and attractive waltz score cards were used. The prize was a bridge set, was awarded Miss Novella Moye. The table prizes were bridge numbers, bridge slates and six to please my patrons same flower bowls and fell to Mesdames L. G. Cooper, N. S. Fultford, Alex Blaw and H. L. Hodges, and Misses Iva Shelburn, Ada James, Nancy King, Jessie Myers and Ernestine Forbes. The hostess presented Miss Price a pair of wall sconces, Miss Myers a powder pad and Miss Warren, a silver butter knife. At the conclusion of the games an elegant salad course was served and this was followed by a delicious sweet course.

Bridge Club.
Mrs. L. H. Bowling was hostess to her bridge club yesterday afternoon. The home was attractively decorated with chrysanthemums. Mrs. Harry White, of Montreal, Canada, house guest of the hostess, was presented two hand made handkerchiefs.

Mrs. A. J. Moor, making the top score was presented a serving tray. After several progressions a salad course was served.

ARTIC EXPLORER SAYS INDIANS AND ESKIMOS ARE SAME RACE
COPENHAGEN.—The Norwegian arctic explorer, Christian Leden, has returned from Greenland, bringing back a remarkable ethnographic and zoological collection for the Peabody Museum in Brooklyn, New York.

Leden believes that he has conclusively proved that Eskimos and Indians are an identical race. He arrived at this conclusion through the similarity of music.

SHE—DECLINING? NOT AT ALL!

Allentown Woman Takes Paw Paw and Becomes Well and Strong Again, Surprising Her Friends

"I was generally run-down, tired out, thin and anemic," says Miss Mamie E. Brown, R. F. D. No. 2, Allentown, Pa. "Everybody said I was going into a decline. I had no strength or ambition."

"But I have been greatly benefited by Munyon's Paw Paw Tonic and I have shown my friends that I am far from going into a decline. I am now feeling fine, have a good appetite and have gained in weight. I sleep better and have more energy. It certainly is a fine tonic and I recommend it to everyone who is weak or run-down."

You, too, can surprise your friends and show them how easy it is to "come back" to health, just as did Miss Brown. Munyon's Paw Paw Tonic has put thousands of men and women on their feet after illnesses or when they became tired out, nervous, run-down or generally sickly.

Paw Paw is famous the country over as a corrector of stomach troubles, too. It helps the internal organs to function as they were meant to. Munyon's wonderful Paw Paw Tonic costs only \$1 a bottle. Try it. Get your bottle today. It's sold at all first-class drug stores.

Don't Lose Sight of the Food Value of Your Bakings

Plain flour has a large amount of food value but it must be combined with good baking powder in order to retain this value.

Most self rising flours are not successful because they do not and cannot raise the bakings to the proper lightness. This means a certain loss of nutrition because they are heavy and hard to digest.

Every time you eat food that does not properly digest you do not get the full nutritional value—you are over-taxing your stomach. Nourishing and perfect bakings are what good health demands. The one sure way is—use pure flour and good baking powder.

If you want to find what thousands of housewives have learned—make some biscuits with self-rising flour—then make some with good plain flour and Calumet Baking Powder—notice the great difference. One trial will satisfy you. Your health demands that you make the experiment.

Those who know—millions of housewives, domestic science teachers, big hotels, restaurants, bakeries and railroads will not use anything but Calumet, the Economy Baking Powder.

Play safe—use Calumet and plain flour. It is the most economical and satisfactory, where light, wholesome and pure foods are desired.

ARENT-TEACHERS ASSO. MODEL SCHOOL HOLDS INTERESTING MEET

The Parent-Teachers Association of the Model School, held its regular monthly meeting Wednesday afternoon, Nov. 7, at 3:15 o'clock. On arrival a parent was welcomed by the principal, Miss McClelland. The attendance prize being kept every one was anxious to give the result of this showing very large attendance.

The meeting was called to order by the President, Mrs. Winslow. A number of things were brought up for discussion, one of the most important being the purchase of a refrigerator for the Model School. A milk campaign has been on in this school for some time and the refrigerator is the successful method for keeping reliable milk supply would be repaired its existence. At the conclusion of the business part of the program, the third grade entertained us with an Indian play which they had worked out from their very day language course. This was very entertaining and showed the high class of work being done in this school.

After the play the result of the re-creation was read with the third grade winning first prize and first grade winning second prize.

GORMAN'S MARKET REPORT

Sales some lighter this week. Have finished by or before four o'clock each day. Gorman's sales are picking up in size each day. Our Wednesday's sale of 96000 pounds was highly satisfactory as to prices and our farmers highly pleased. At times the horse had to buy. We had many who had no tobacco with us tell us ours was the best sale they had seen in town and that we would get their next load. You are "insured" as to getting satisfied and the top of the market when you sell at Gorman's.

We are selling much tobacco each day from sixty to ninety cents per pound.

Drive to Gorman's and you will be satisfied.

First sale Friday, Second sale Monday, First sale Tuesday, Second sale Wednesday, First sale Thursday.

Presbyterians to Discuss Explanation of Work

CLEVELAND.—Expansion of the work of the Presbyterian churches of America will be undertaken at the national conference of the denomination here beginning December 3 and continuing through the week. Speakers internationally known as educators and church executives will discuss missionary education, benevolences, stewardships and other denominational matters.

Dr. Charles F. Washart, moderator, is scheduled for the principal address at the opening session.

Morning worship on December 4

will be conducted by Dr. Silas Evans, president of Ripon college.

Foreign missions will be the topic at an evening meeting December 5, with Dr. Robert E. Speer making the principal address.

Missionary education, ministerial relief and sustentation will occupy the program December 6, the closing day. General Secretary Henry B. Master will preside at an evening session which will be devoted to consideration of the work of the board of ministerial relief and sustentation.

16 Vital Foods

12 minerals—3 vitamins—bran

Quaker Puffed Wheat in milk is the greatest dish that you can serve. It is whole wheat steam exploded. The grains are puffed to 8 times normal size—to airy, flavory morsels. And the food cells are broken for easy digestion.

Whole wheat supplies 12 minerals which growing children must have. Also their need of bran. And milk is rich in all three vitamins.

People need these elements in plenty. Millions suffer for their lack. Make sure they get them daily by serving them in this delightful way.

Quaker Puffed Rice is rice grains puffed in like way. Each flavory grain is a food confection. Breakfast never brings a cereal dainty that compares with this. Let no day pass this summer without these supreme foods.
