INDUSTRIAL EXHIBIT WILL BE HELD HERE DEC. 24 UNTIL JAN. 1

Novel Event With Unique Feature For Benefit of Legion Post

Another step in civic progress will mark the Industrial Exposition which will be held in Greenville in Forbes & Morton's warehouse beginning Dec. 24, extending over Christmas week and closing on New Year's day. The event is for the benefit of the Pitt County American Legion Post and promises an array of exhibits, attractions and amusement features that will undoubtedly prove instructive and enjoyable throughout Christmas week to Greenville and all Pitt county folks.

In addition to varied exhibits by merchants and manufacturers the exposition will include an automobile show, high class vaudeville attractions, a style revue. Dancing will form another pleasing feature of the affair.

It was stated today that a prize of \$5 in gold will be given away each night of the exhibition to the person holding the lucky number of the coupon attached to an admission ticket.

The warehouse is to be attractively and elaborately decorated and as soon as possible the installation of display booths and other accessories will be started. It is promised that when decorators and electricians will have completed their work that the warehouse will be converted into a bower of radiant beauty.

This is the first event of the kind that has ever been attempted in Greenville, and, according to reports is meeting with splendid response from merchants and other business and professional interest not only in Greenville but various points throughout the county.

Further details of the exposition will be announced from time to time as the program is worked out.

Birth Control Clinic Meets Secretly N. Y.

NEW YORK, Dec. 6.—Nine hundred cases have been accepted at a birth control clinic on Fifth Avenue, which has been in semi-secret operation for nearly a year. Margaret Sanger, oft-arrested president of the American Birth Control League, disclosed today at a public luncheon of 400 prominent men and women advocates.

When Chief Inspector Lahey learned of the institution on Fifth Avenue he ordered detection of the district to begin an immediate investigation of its methods and clientele.

Youth In Jail For Shooting Parent

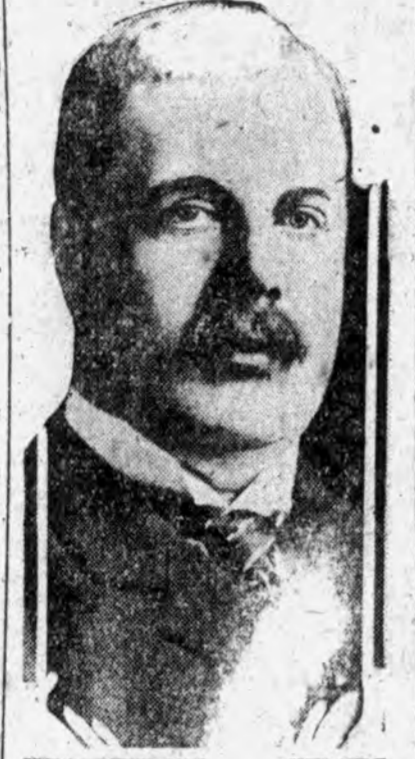

GREENSBORO, N. C., Dec. 6.—Hilton Sears 18 year old orphan, wanted since last March for a murderous attack upon his foster mother, Mrs. D. E. Purcell, wife of a Rockingham county farmer, was taken to jail at Wentworth by Guilford deputies.

He was arrested here at the White Oak Mill village, at the home of a sister, Mrs. Whitt. The youth made no resistance whatever to arrest.

Urges Change By U. S. In the Cotton Reports

WASHINGTON, Dec. 6.—Elimination of the publication by the government of estimates on the intentions of cotton farmers to plant and more frequent reports on ginning and crop conditions is proposed in legislation drawn up by Representative Ranken, Democrat, Mississippi, which he will submit to a special committee to find many peasants for losses sustained or to aid them in establishing their farms and business.

Earl of Derby Is Poor, Though Big Winner

Earl of Derby

The Earl of Derby, British Minister of War, won \$200,000 with his stable during last racing season, but he still feels poor. In presenting \$10,000 to the British Legion for the benefit of Lancashire ex-service men, he wrote that he is not living on his income, but on his capital, and that taxation is so high he may be forced to sell his ancestral estates.

BIG INCUBATOR GIVES POULTRY INDUSTRY BOOST

An order for a 3,000 capacity incubator has been placed by Dr. J. Morrill, Falkland. It will be ready for operation the latter part of January and will be used not only for private purposes but will be available for custom hatching of eggs.

Dr. Morrill has had more than 15 years experience in the poultry business. He believes that it has tremendous possibilities in Pitt county and predicts extensive expansion of the industry as farmers farm boys and girls and farm women begin to realize that it is the most profitable and growing business representing the smallest relative investment.

It is understood that a number of other persons are considering the acquisition of incubators and the early winter, if predictions are realized, promise to see impetus given to the development of poultry in this county.

rites for Bishop ATKINS WILL BE HELD SATURDAY

ASHEVILLE, Dec. 6.—The body of Bishop James Atkins, who died last night in Little Rock, Arkansas, will be taken to Wayneville, N. C., for burial according to announcement of James Atkins, Jr., son of the deceased.

The body will reach Waynesville Friday afternoon and funeral services will be held in the Waynesville Baptist church at 11 o'clock Saturday morning followed by interment in Green Hill cemetery.

Rev. J. T. Mangum, pastor of the Methodist church will conduct the service which will be held in the Baptist church because at present the Methodist are without a structure during the construction of their new church.

Death Toll 500 In Big Italian Flood

ROME, Dec. 6.—Minister of Public Works (Quaranta) informed the Cabinet today that the fatalities in the flood of Saturday in the Bergamo Valley aggregated about five hundred and that the material damage was estimated at between 130,000,000 and 150,000,000 lire.

He urged that measures be taken to indemnify peasants for losses sustained or to aid them in establishing their farms and business.

REP. ASWELL TO TALK AT COLLEGE ON NEXT MONDAY

Congressman J. B. Aswell of Louisiana who will address the students of East Carolina Teachers College and the citizens of Greenville in the college auditorium next Monday evening at 8 o'clock, has just returned from an extensive tour of Europe, where he and Secretary of Labor Davis were much impressed with the menace to America which the immigration question has come to be in America.

According to Mr. Aswell high government officials in Europe admit that they are attempting to dump their undesirable on American shores. He says that barbering and bathing and dressing establishments are operated in the sea coast cities in order that these hordes may be groomed to pass the Ellis Island tests and come into the United States by the thousands while America sleeps and dreams of the melting pot myth.

Mr. Aswell is interested in selective immigration, and proposes to sponsor such a bill at the present session of congress. His subject Monday evening will be "Selective Immigration or Aliens Rule—Which?"

MERCURY ON FROLIC

ASHEVILLE, Dec. 6.—Unusual weather conditions obtained at Asheville during the month of November. One day the temperature was as high as 64 degrees while two weeks later it registered but 22 degrees. On November 14 the day commenced with a thermometer of 63 degrees. By nightfall the temperature had fallen to 23 degrees.

Hungry Seals Decimate Salmon

Anchorage, Alaska, AEM.—Immense herds of fur seals have been recommended as a measure of protection for salmon in Cook Inlet. The seals are said to be making great inroads on schools of fish headed for the spawning ground.

VITAL PART IN DEVELOPMENT OF AMERICAN SPIRIT IN THE PUBLIC SCHOOLS TOLD BY DR. WRIGHT

Resuming his series of talks at East Carolina Teachers College, Dr. Wright at the assembly period Wednesday discussed the part the public schools in the shaping of the American spirit. Mr. Wright made it very clear in the beginning that he had no sympathy with the idea there should be any sort of selection or rejection of those who ought not to go to college. He feels it the duty of the college to provide for all who wish this sort of training.

With particular reference to the public school, in the development of the American spirit Mr. Wright made the point that in a republic where government is made up of people selected by the voting population, the government cannot be intelligently conducted unless its citizenship is trained. The great majority of children in America from six to ten months each year are in school. This is their most impressionable age. They are more responsive to the reception of ideas and to the development of ideals. There is a greater opportunity here to shape their thinking than any where else except in the home.

"If I could control," said Mr. Wright, every teacher in America for one generation of boys and girls I could make this country just what I might want it to be. Even the feeble mind of William of Germany saw this, and by shaping the schools to his own ideas he made Germany just what he wanted it to be."

Therefore, in the making of American spirit the work of the public schools is most important, and the spirit of those who teach in these schools is the most vital factor. The public school is the place where citizens are to be made, he said.

PENSION INCREASE FOR VETERANS OF CIVIL WAR, IS URGED BY SECY. WORK

WASHINGTON, Dec. 6.—An increase in civil war pensions was advocated by Secretary Work of the Interior Department in his annual report submitted today to the President.

"The ravages of time," said the Secretary, "have now overcome these survivors of the civil war, and in their old age it is my belief that the pensioning of them should no longer be based upon a showing of disability due to wounds and disease. On the contrary both the veterans and widows should receive a pension from the government after having reached a certain age, and the pension paid to them should be adequate to fully support them."

FIGHT OVER TAX REVISION LOOMS

All Party Men Ready To Find Fault With Plans of Mellon

WASHINGTON, Dec. 6.—A draft of a bill along the lines of tax revision has been prepared by treasury department officials, and sent to Secretary Mellon for suggestions which will serve as the basis of committee consideration of the House. A fight over the treasury proposal is already brewing at the capitol. The first round will take place in the Ways and Means committee to which the measure will be referred as soon as introduced.

Several weeks will be taken up by hearings before the committee before any tax revision bill reaches the floor of the House for consideration. Friends and opponents of the Mellon plan, including Republicans, insurgents and democrats are expected to find opportunity to appeal to the country in various ways for support of substitutes of the plan submitted by the treasury department.

In any event, it is a certain prediction, that months will lapse before any definite action is taken in the matter tax revision.

Close Big Realty Deal

CHARLOTTE, Dec. 6.—What is described as another step in the business expansion of Charlotte took place this week with the transfer to a business concern of the Wilkes property near the Southern Railroad, the deal being closed for approximately \$300,000. The property, which is located in the McKlerkin Iron Works, is along the railroad track and is considered very valuable.

Coolidge Against Bonus; Better Care Service Men Urged; Tax Reduction Is Favored, Congress Told

Gov. McCray Indicted On 192 Charges

Governor Warren T. McCray

Eight indictments, containing 192 charges, have been returned by the Marion County Grand Jury, Indianapolis, Ind., against Governor Warren T. McCray, as a result of his financial dealings.

Sunday School of Memorial Baptist To Have Xmas Pageant

The Normal Baptist Sunday school under the leadership of Miss Jeanie Forbes, is planning for an unusually interesting program on Christmas night. "White Christmas for the King" is the name of the pageant to be presented.

With Miss Ernestine Arries as leader and supported by a large number of the Sunday school, the membership of the Memorial Baptist church and the public at large can confidently expect a program that will please and edify.

All of the churches of the city and the public are cordially invited to attend this Christmas pageant.

Pythians Will Meet Tonight; Officers To Be Elected for Year

Members of the local lodge Knights of Pythias will meet tonight at 7:30 in the Club room of the body to elect officers for the coming year. Work to the first degree is also on the program. Other matters of importance are expected to come up for consideration before the lodge. Every member of the lodge is urged to be on hand promptly at the hour indicated by lodge officers.

Prison Warden Held For Beating Prisoner

PHILADELPHIA, Dec. 6.—Charles Santee, a deputy warden of the Eastern State penitentiary, was today held in jail for court by Judge McLaughlin for aggravated assault and battery in beating James J. Fraily, a convict serving a long term for killing a girl friend.

The beating followed, Fraily testified in court, when Santee and Herbert A. Smith, first deputy warden, learned that he had given eighteen dollars to another convict named Flynn to help him escape. Flynn was later captured at Reading, Pa.

WASHINGTON, Dec. 6.—A legislative program touching almost every aspect of national life was presented by President Coolidge today in his first message to Congress.

He endorsed President Harding's proposal for American membership with reservations in the world court; unqualifiedly approved Secretary Mellon's tax reduction plan, and announced his opposition to enactment of soldier bonus legislation.

He also went on record as favoring stimulated consolidation of railroads, reorganizing of the railroad freight structure as applied to farm products; and government assistance in the disposition of exportable wheat. He declared against price-fixing for farm products; against repeal of the section of the Transportation Act; and against revision of the tariff law.

Discussing World Court. Making his first pronouncement on many public questions, the President presented a series of succinct recommendations without attempt at argument. He used exactly nine words in disposing of the bonus question. After urging adequate care for disabled former service men and generosity in providing such care, he said: "I do not favor the granting of a bonus."

The treatment of the world court and the Mellon tax plan was almost as brief. In approaching the court problem he noted that American foreign policy always had been guided by the principle of avoidance of permanent political alliances; sacrifice of independence and peaceful relations; and international controversies. He called attention that the United States acting on these principles had for nearly 25 years been a member of The Hague Tribunal and added that the proposed world court was "a new and somewhat different plan."

"This is not a partisan question," he stated. "It should not assume an artificial importance. As I wish to see a court established, and as the proposal presents the only practical plan on which many nations have ever agreed, though it may not meet every desire, I therefore commend it to the favorable consideration of the Senate with the proposed reservations clearly indicating our refusal to adhere to the League of Nations."

Favors Cut in Taxes. The endorsement of the Mellon plan was presented in the course of a discussion of the fiscal condition of the nation, during which the President called attention that through the budget system and economy in expenditures, the necessities of the government, exclusively of the Postoffice Department, has been brought down to \$2,000,000,000.

"It is possible, in consequence, to make a large reduction in the taxes of the people," he continued. "A proposed plan has been presented in detail in a statement by the Secretary of the Treasury which has my unqualified approval. . . . A very great service could be rendered through immediate enactment of legislation relieving the people of some of the burden of taxation. . . . Of all services which the congress can render to the country, I have no hesitation in declaring this one to be paramount."

The President prefaced his message with a tribute to President Harding declaring "the world knew his kindness and his humanity, his greatness and his character," and that "he has made justice more certain and peace more secure."

Pays Tribute to Harding. "His is gone," Mr. Coolidge said, "We remain. It is our duty under the inspiration of his example to take up the burdens which he was permitted to lay down, and to develop and support the wise principles of government which he represented."

From this basis the President then launched upon his recommendations which in addition to those relative to taxation, world court, transportation and soldier legislation included: Government operation of the war-built merchant marine until shipping conditions are such as to allow it to be disposed of advantageously. Strengthening of the Coast Guard to combat rum smuggling; rigid regulation of the major sources of liquor production; suppression of interstate traffic in liquor and promotion of respect for law.

To Register All Aliens. Continuation of the policy of restrictive immigration, with immigrants to be registered abroad, and the immediate registration of all aliens. Strengthening rather than weakening of the army and navy with additional airplanes for the army; more submarines for the navy, and increased defenses for the Panama Canal. Action under private ownership of coal mines that will obtain greater contribution of production and greater public protection against "unbearably high" prices along the lines of the recommendation laid down by the Federal Coal Commission.

Relief for the farmer through lower taxes and freight rates; cheaper fertilizers; greater organization which would permit reduction of the wheat acreage; diversification of farming; encouragement in the formation of co-operative marketing organizations. Continuation of government loans, and assistance in exportation through the War Finance Corporation.

Muscle Shoals Operation. Sale of Muscle Shoals, together with a location for an auxiliary steam plant and rights of way for a power line so that the agriculture of the nation may get greater supply and lower cost of fertilizer, with the sale price of the properties net a major consideration. Anti-lynching legislation; additional appropriations for vocational training in agriculture for negroes, and creation of a commission of white, and negroes "to formulate a better policy for mutual understanding and confidence."

Extension of the Civil Service to the prohibition enforcement field forces exclusive of the members of the present force and placing in the classified civil service of postmasters of the first, second and third classes. Limiting Child Labor. Opening of intra-coastal waterways, control of the flood waters of the Mississippi and Colorado Rivers; construction of the Great Lakes, St. Lawrence waterway and power project, and promotion of the super-power development of the North eastern states. Creation of a commission of judges and lawyers to simplify federal court procedure. Limitation on child labor through constitutional amendment. Regulation of radio interference and aviation. Promotion of highway construction and recreation.

GIVE STORE EMPLOYEES AN EQUAL BRAKE

Christmas eve—the last opportunity to purchase holiday gifts comes this season on Monday. For several days preceding that date, following the usual custom, Greenville stores will remain open later than usual closing hour to afford every opportunity and facility for buyers to do their pre-Christmas shopping.

Virtually every wage earner in Greenville receives his pay on Saturday. A majority of them will do their buying either in the afternoon or evening of Saturday before Christmas.

Christmas eve will be observed at least from noon as a holiday in all factories, mills and other industry. Folks from the country will be here possibly in numbers, but they will make their purchases before nightfall.

Therefore, in the circumstances, it appears that since most of the shopping will be pretty well completed around the supper hour Christmas eve that employees of stores who have gone through long hours during the busy times should be entitled to a few hours to spend with their families and prepare for the glorious holiday.

Of all the workers engaged in commercial life practically every class enjoys Christmas eve free from duty, except store employees. But happily during the last few years merchants in numbers of places have abolished the late closing hour on Christmas eve. This was made possible by a human public that not only expressed sympathy, but a willingness to help store employees by buying early. In this way, the work of the employees has been distributed over a period of several days, which is rapidly doing away with the old last minute rush. It might be argued, there is a reason for the wild scramble just before stores close in some places but it does not obtain here in any degree.

Store employees after a period of late closing hours are pretty well fagged out when the day before Christmas comes. It is only natural and just that they should have the benefit of a few hours on that day to join the great happy throng consumed with the great festival spirit.

It is physically impossible for men or women to work until near midnight on Christmas eve and take the interest in the holiday that the occasion instills in most of us.

The question of closing their places of business at a reasonable hour Dec. 24, is not one entirely for Greenville merchants to decide. It depends largely on the consideration of buyers and the attitude they manifest in seeing that store clerks are relieved from duty

by early shopping, so they can absorb with family and friends the feeling of happiness and good cheer which Yuletide always brings. With tired and worn bodies, no matter how strong the desire, the **DAY OF ALL DAYS** can not be properly appreciated or enjoyed.

CENTENNIAL OF THE MONROE DOCTRINE

Observance of the one-hundredth anniversary of the promulgation by President James Monroe of the doctrine that bears his name at Richmond this week aroused a new interest in the effect which that historic document has had on the political developments of the Western Hemisphere.

At the time of President Monroe's administration Europe had just emerged from the nightmare of the Napoleonic war and was under the equally paralyzed spell of the leagued monarchists of Central Empires and Russia, with Britain and France as minor partners.

Popular uprisings and democratic movements were crushed ruthlessly. All the world, except the Americas, seemed to have reverted to absolutism. The latin republics south of the United States just freed of foreign control, were regarded as fair prey by the monarchist vultures of Europe. It was believed that not only the Spanish republics, but the United States as well, might be involved in a scheme to extend European control from Canada to Cape Horn.

It was in such a situation that President Monroe issued his famous proclamation to the world, declaring America's purpose, not to interfere in the affairs of Europe, but insisting on European noninterference in the affairs of the Western Hemisphere. Europe received the proclamation with amazement; there was much talk, but nothing was done to discipline the young American republic. It was not until the period of the civil war that an attempt was made by a European government to override the principle laid down by President Monroe. But the French imperial plan of a Mexican conquest quickly evaporated when the United States following the war, demanded the withdrawal of French troops from Mexico.

Again, when President Cleveland warned Great Britain against trespassing on Venezuelan soil, the right of America to control the destinies of the Western Hemisphere was promptly recognized.

President Wilson with clear visioned judgment as to the ultimate good that must come to the world, would extend the Monroe Doctrine of noninterference and self determination to all peoples. That ideal may yet come to pass in some form which will prove acceptable to the world and possibly establish universal and lasting peace.

Congressmen arriving with their families in Washington probably will discover that the most serious problem facing the country today is the housing question and the extortionate prices exacted by landlords of the Capital.

Representative Burton, Ohio, quit his seat in the Senate for a place in the lower house of congress. There is a strong inclination on the part of many folks to wish that a number of others would either follow his example or retire altogether.

One of the great disadvantages which Henry Ford's rivals encounter is that no matter how many times they beat him in the primaries, he has an omnipresent advertisement at work among the voters, preparing the way for almost anything.

C., Monday, January 7, 1923, at 12 o'clock, noon the following described tract or parcel of land: "Beginning at a stake on the road and running north 64 E. 211 paces to the run of Conoco, Creek; then back to the beginning on the road run with said road north 15 w 118 poles to James' corner, a pine; thence with James' line north 76 1-4 east 86 poles to Edwards' ditch; thence with said ditch to the run of Conoco Creek, thence with the run of said creek to Williams' line, containing 132 acres more or less, and being the identical tract of land which was conveyed by H. G. Powell and wife to H. E. Hathaway by deed dated Dec. 28, 1917, and recorded in book J-12, page 227; and the same land conveyed by J. R. Williamson and wife to H. G. Powell by deed dated Oct. 27, 1917, by deed recorded in book J-12, page 11; and being a portion of the land conveyed by W. S. Clark & Son to J. R. Williamson by deed dated Feb. 12, 1916, and recorded in book S-11, page 26. All of said deeds, of record in the regis-

ter of deeds office, Pitt county. Also a portion of the tract of land conveyed by Clark & wife to W. S. Clark & Sons, by deed dated May 6 1914, recorded in book D-11, page 488, and also a portion of the land conveyed by Lucy Hyman, nee Gardiner, and husband, C. A. Hyman to W. S. Clark & Sons, by deed dated Dec. 27, 1920, and recorded in book T9, page 83, and 84, r register of deeds office, Pitt county and also being a portion of the land which was bequeathed by Joel Gardiner, dec'd., to his daughter, Lucy Hyman, nee Gardiner, by item four of the will of the said Joel Gardiner, of record in the clerk of the superior court office, Pitt county. Reference is made to all of said deeds for a more accurate description of said land." This the 5th day of Dec. 1923. ALBION DUNN, Trustee. 6 1tw 4wks M. K. Blount, Atty.

LAND SALE. By virtue of the power of sale contained in a certain deed of trust executed and delivered by J. O. Buck and wife, Fannie Buck, to J. B. James, trustee, on the 19th day of June, 1923, which deed of trust was duly recorded in the office of the register of deeds of Pitt county, in book B-15, page 5, the undersigned, will sell for cash, before the court house in Greenville, on Saturday, January 5th, 1924, the undivided interest of the said Fannie Buck in and to the following described tract of land: That tract of land in Greenville township, on the North side of Tar-

river, lying between the Creek road river, lying between the Creek road and the Rams Horn road, bounded by the lands of J. E. Barnhill, the Dudley land, the Stanly Moore land, now occupied by J. E. Winslow, and others. Containing one hundred (100) acres more or less, and known as the Wright Colville place. This the 4th day of Dec. 1923. J. B. JAMES, Trustee. 5 1twk 4wks

MORTGAGE SALE. By virtue of a mortgage executed to the undersigned on the 1st day of November 1919, and registered in book C-13, page 66 in the register of deeds office of Pitt county by E. B. Garriss and wife, Mollie Garriss, securing a certain note, the terms of which have not been complied with. I will sell to the highest bidder for cash on Monday, January 7th, 1924, at the court house door in Greenville, N. C. at 12 o'clock noon the following described land, which is lying and being in Pitt county state of North Carolina: All those certain pieces or parcels of land this day deeded to E. B. Garriss by Denmark Seymour and wife, containing 114.20 acres, more or less. Reference being made to said deed for a more accurate description. Being a part of the possession and ownership of J. T. Biddard being seven miles from Griffon and near St. John's church. This Dec. 5th, 1923. DEMARK M. SEYMOUR, Mortgagee. S. J. Everett, Atty. 6 1tw 4wks

GREENVILLE, N. C.

Society

Mrs. W. N. Brown, of Danville, Va., is the guest of her brother, B. W. Mosley on 5th street.

Mrs. Travis Hooker is spending this week in Belhaven the guest of Mrs. C. D. Tunstall.

Mr. Hoke Smith has returned from a business trip to Greensboro.

Messrs. Dick Rogers and Herman McLawhorn left this morning for New Bern.

Miss Julia Harris left this morning for Richmond to attend the Kelly-Harris wedding which takes place on next Monday.

Mr. and Mrs. John C. Wooten and John, Jr., of Hendersonville are visiting Mr. and Mrs. J. L. Wooten.

Mr. and Mrs. E. B. Wooten, of Hendersonville, are visiting Mr. and Mrs. F. M. Wooten.

Miss Ada James left this morning for several days' visit in Washington.

Mrs. R. W. King and Miss Nancy King spent today, in Goldsboro.

KING'S DAUGHTERS HOLD INTERESTING MEETING

A very interesting meeting of the Kings Daughters was held at the home of Mrs. J. L. Wooten on the evening of Dec. 4th. The meeting was well attended, considering the inclement weather. In absence of the retiring treasurer, the newly elected treasurer, Miss Blanche Cromartie, received the dues, and also the amount turned in by Mrs. R. J. Cobb, chairman of finance committee No. 1.

At this meeting a linen show was given for the Old Ladies' Home in Raleigh. The junior circle donated all the towels. Mrs. N. S. Fulford made a most encouraging report of the Branch circle, recently organized at the Cotton Mill.

A committee of five, Mrs. Richard Williams, Mrs. N. S. Fulford, Mrs. Claude Grant, Mrs. Frank Wilson and Miss Lill Wilson, was appointed to take charge of the Christmas work.

After the close of the business session, the hostess served refreshments, joyed. The first meeting on the new year will be held with Mrs. R. J. Cobb.

ROUND TABLE CLUB HOLDS AN INTERESTING MEETING

The Round Table was entertained by Mrs. N. S. Fulford at her home on Pitt street on Tuesday afternoon. There was a short but interesting business session during which the club voted to send their annual Christmas gift of twenty filled socks to the sick soldiers at Oteen. The club was glad to have as a guest Mrs. G. V. Smith.

Hollywood offered an interesting topic for discussion.

Mrs. Person's enlightening paper on "Life in Hollywood" gave a twist to our preconceived notions of this "City of Stardom." Long before it became the movie center of the country, it was a beautiful little city with a charm all its own. Contrary to the general opinion we learned that life goes on in Hollywood much the same as it does elsewhere. It has fine churches, beautiful children, efficient schools. The movies represent only one of the industries of Hollywood.

Mrs. Fulford's bright and vivacious treatment of her subject "Screen Favorites" was enhanced by the use of pictorial illustrations of certain film favorites.

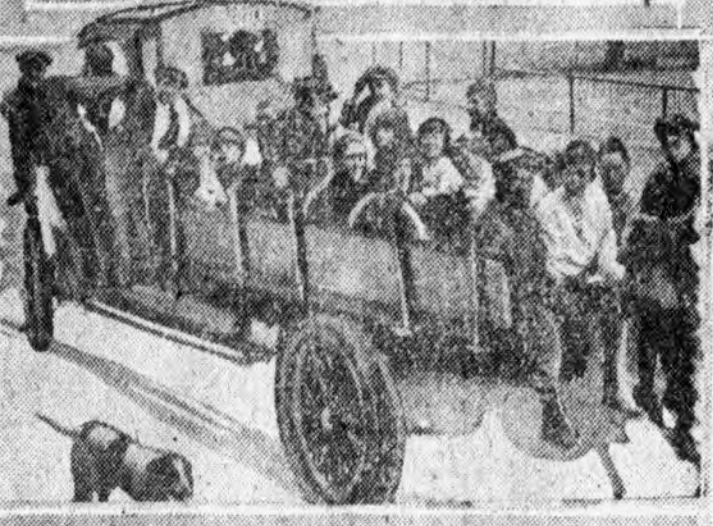

The program was closed by an authoritative paper on "Present Tendencies and Possibilities of the Movies" by Mrs. Ellen. Educationally the movies are a tremendous factor, and encouragingly standard of pictures is improving now almost as rapidly as the photographing. At the close of the meeting, the hostess assisted by Miss Margaret Blow served delicious refreshments, after this adieu were said, all declaring this a most interesting meeting.

DECLARES SCIENCE ON VERGE OF IMPORTANT DISCOVERIES

Cincinnati—Important discoveries which will go beyond the present scope of science will be announced at the seventy-seventh convention here of the American Association for the Advancement of Science, according to Prof. Harris Hancock of the convention committee.

Leading scientists of America and Canada will be represented in the 15 sessions meetings representing all phases and branches of science. The sessions will be held at the University of Cincinnati, Dec. 27, Jan. 2.

Miners' Families Given Good Care And Opportunities in Towns Built By Bituminous Coal Operators

Boy Scouts everywhere have common objectives, but the scout movement has particular significance in coal mining communities, for their "first aid" courses may be brought into play at any time and their general training in safety measures helps them to keep their "dads" more keenly interested. The top picture, taken at Eckman, West Virginia, in the heart of one of the most important bituminous fields, shows a typical phase of community life for boys of a mining town, a scout patrol learning "first aid." The lower view, however, shows another activity among the boys of the mining towns, a picnic party for the youngsters in one of the "company" trucks at Widen, West Virginia.

But whether for boys or girls, young or old, the mining towns compare favorably in their opportunities for health, education or recreation, with those of many rural and urban communities, although they may seem to lead an isolated life. In a vast majority of communities

EGYPTIAN COTTON CROP SHOWS DECREASE FROM LAST SEASON

Manchester, Eng.—According to a cable received from Egypt, the Alexandria General Produce Association estimates the Egyptian cotton crop for the current season at 5,960,000 cantars.

This compares with a yield for the past season of 6,684,000 cantars and 5,488,000 cantars in 1921-22. The forecast of the association is generally conservative and Manchester authorities are of opinion that the production this year will not be less than 6,500,000 cantars. (A cantar is about 100 pounds.)

SOCIALISTS MAKE GAINS IN AUSTRIAN ELECTIONS

VIENNA.—The Socialists made a decided gain in the recent election of members of the National Assembly. They lost but one seat, while the Conservative parties lost 17. This assembly has 18 fewer members than the last one. It is held in some quarters that the Socialist success was largely due to organization; they got out their vote, while the Conservatives did not.

Swedish Prince Writes Play

Stockholm.—Prince William of Sweden, second son of King Gustaf V, who has made a reputation as a big game hunter, a poet, and a dramatic critic, is now also a full-fledged dramatist, his first play having been accepted for production by the Swedish Theatre in Stockholm.

CHURCH URGES MORE PERSONAL CARE FOR FOREIGN COLLEGIANS

CHICAGO.—Presidents of colleges and preparatory schools in the United States would assume personal responsibility for the well-being of foreign students, on the ground that their training is an international trust, if recommendations of the council of church boards of education, co-operating with the friendly relations committee of the Y. M. C. A. are adopted.

Declaring that 12,000 students from nearly 100 foreign countries are now in preparatory schools and colleges in the country, the council has recommended:

That the presidents of institutions assume personal responsibility for the well-being of foreign students, on the ground that their training is an international trust.

That when the number is too great to exercise this responsibility the presidents delegate it to a faculty advisor to foreign student.

That the president, or his representatives, keep in close touch with the Christian Associations in respect to their work among these students, and assure the latter the same attention that is given to the American student body.

Locomotive Union Will Pay Pension to Widows

CLEVELAND.—The board of governors of the Pension Association of the Brotherhood of Locomotive Engineers has arranged to put the Widows' Pension into effect December 1. On that date, 281 widows will be placed on the pension list and commencing to draw a fixed amount each month. In addition there will be paid to them an aggregate sum of \$80,650 in back pay for pensions from the date of their husbands' death.

Warren S. Stone, president of the Brotherhood, referring to the widows' pension, said:

"Perhaps one of the most historical events that ever happened in the annals of organized labor occurred when the board of governors of the Pension association decided upon putting into effect this widows' pension."

HONOLULU MAY BROADCAST THE ENTIRE PACIFIC OCEAN

HONOLULU.—All the countries bordering the Pacific Ocean, from the Aleutian Islands on the north to the southernmost coral reef, and from California to China, will be regarded as the broadcasting territory of a new radio system if the present plan of the Pan-Pacific Union materializes.

Honolulu would be the center, and a powerful station would be used for sending daily messages of good will and programs instructive, entertaining and enlightening to the peoples of the Pacific.

WILLIAM THOMAS

OWNER-TENANT SUIT INVOLVES RANCH OF LATE BUFFALO BILL

NORTH PLATTE—Scout's Rest Ranch, for many years a show place of the west, owned by William F. ("Buffalo Bill") Cody, now is a rundown and ordinary piece of property where a few cattle still graze, but buffalo are no more and where social gatherings are of another day.

The ranch, located about two miles west of North Platte, now is known as "Cody's Ranch." It passed from the ownership of the famous scout and buffalo hunter several years before his death in 1917.

Its 200,000 or more acres of land has dwindled to 1,200.

The land that remains as a part of the famous ranch and rendezvous for visiting nobility, celebrated statesmen and army officers, now is owned by a company and leased to a tenant. Trouble has arisen over the lease and the property now is the subject of litigation.

Cody came to this part of the country following the civil war. His job was to furnish laborers engaged in constructing the Union Pacific lines west, with meat. The meat provided was that from the buffalo, which were more numerous than jack-rabbits are at present. During an 18-month period, in 1867 and 1868, Cody personally killed about 4,300 buffalo for the Union Pacific laborers. It was at this time that he was given the name Buffalo Bill.

Philippines Seek in Vain Tester of Electric Chair

MANILA.—Ordnance there are five applicants for every government job in the Philippine Islands, but one position that of necessity has been created is going begging. No one seems to want it. The duties of the position are to test the electric chair, which has arrived from the United States and which will be used to carry out death sentences. This form of capital punishment succeeds hanging, which has been prohibited by a law which went into effect recently.

THOUSANDS OF EX-SERVICE MEN SOON READY FOR JOBS

Washington.—A call for aid in finding suitable employment for the rehabilitated ex-service men of the country has been sent out to the American Legion by Frank T. Hines, Director of the Veterans' Bureau.

There are approximately 71,000 men in vocational training, Director Hines declared in his call, and within the next three months about 10,000 of these will complete their courses. During the first three months of 1924 at least 12,000 will be granted.

LACK OF APPRENTICES MENACES LABOR UNIONS GREAT BRITAIN

London.—Trade Unionism is recognizing the fact that the decline of the apprenticeship system is threatening the existence of the craft unions in this country. Industrial recruits are so scarce that a national campaign is to be undertaken by the Federation of Building Trades Operatives to revive the system.

Floating Mines Still at Large

CHRISTINA.—Mines scattered over the North Sea during the war continue to be washed up along the Norwegian coast, and although they have been drifting for four or five years, most of them are active.

On a mine exploded recently near the Torbjornskjaer lighthouse and threw a column of water 140 feet into the air, the explosion being heard for many miles.

Poland Improves Its Railroads

WARSAW.—Poland today has a railroad organization of its own, created since the war, and made up of three old systems, the Russian, the Austrian and the German. Colonel A. V. Barber, an American, has been the technical adviser of the government in this work, which has presented many difficulties.

Americanism Fostered In Soft Coal Mining Towns By Healthful and Happy Home Conditions

This sturdy and completely-equipped football team, posing in approved fashion around the coach, is not the product of any high-priced private school, as might well appear at first sight. On the contrary, they are the pride of the local high school in a town that few Americans probably ever heard of. It is Holden, West Virginia, whose inhabitants total just two thousand, and every one of whom draws his living from the mine that created the community.

Because Holden's sole reason for existence is the fact the adjacent earth holds soft coal; because no one ever thought of settling there until a company was formed to mine it, it was up to the company, in order to attract employees, to provide some place for them to live. But they were not satisfied with just supplying shelter. They went fur-

ther and furnished schools for the children, hospital facilities for the families and all the other conveniences that make for happy, healthy life. The high school which is a model one, boasts a faculty of ten teachers, including O. P. Westfall, the coach, seen posing here with his team. That the teachers are themselves well-provided for may be seen from the smile on the face of Miss Fay G. Castleman, a college woman who takes care of the children's mathematical studies.

Holden, however, is not the only town built by coal operators for their employees, that can put ordinary rural communities to shame. Miss Bonnie Williams, R.N., the active nurse on the right, is the surgical supervisor and anesthetist at the Guyon Valley Hospital, Logan, West Virginia. Miss Williams, who

comes from Wichita, Kans., graduated from the Kessler-Hathfield Hospital of Huntington, W. Va., for no nurse is allowed in these mining communities who does not measure up to the highest standards of the profession. The charge, however, for her services to the patient is exactly \$1.00 a month—provided he is a miner.

The fact that neither the Logan nor Holden coal operators are exceptional in this matter of providing for the well-being of its employees, is proved by a survey recently made by six independent women investigators of fourteen coal fields scattered over eleven states. They reported that every community visited had educational facilities for both white and colored children, and in every community also provision had been made for medical care.

Chief of Alaska Road Sell Scenic Grandeur

SEATTLE, Wash.—The Alaska Railroad built by the government at a cost of \$56,000,000 and thus far operated at a deficit, will attract patronage by luring tourists who are potential settlers and investors. Lee H. Landis, the new manager of the line, said when he was here recently on his way north to assume his duties.

Mr. Landis formerly was industrial commissioner of the Western Pacific Railroad, and in that position his work was to establish colonies and industries along the right-of-way, as the other transcontinental lines have done. He hopes to do the same thing in Alaska.

Germany Overcoming Disease

Berlin.—Typhus and typhoid diseases of 1918 and 1919, gradually are being brought under control in Germany. Diphtheria and scarlet fever also show decrease. Practically all contagious diseases are disappearing in proportion to the time elapsed since the war.

Austria Increases Rates

Vienna.—The government has put into effect an increase of 100 per cent in telephone rates, an increase of 40 per cent in domestic first class postal rates, and 70 per cent in second class mail rates.

GERMAN URGES LESS LOOSER CLOTHES AND WOMAN HEALTH

Berlin.—German women do not devote enough time to physical exercise, in the opinion of Dr. Hermann A. Trock, of the Berlin High School for Gymnastics. He advocates German women engaging more generally in rhythmic gymnastics and urges them to swim and row as much as possible.

Movies Lure German Children

BERLIN.—German parents complain bitterly that their children flock evenings to the movie houses and stay up late to watch blood-curdling dramas. The laws against young children being abroad at night alone apparently are not enforced.

Crowded housing conditions and lack of heat and light in the home are given as reasons for the disposition of the youngsters to take to the cinema.

TRUSTEE'S SALE OF REAL ESTATE

By virtue of power vested in me by that deed of trust executed to me on the 23rd day of September, 1919, by R. L. Dudley, and recorded in the office of the register of deeds for Pitt county, I shall offer for sale at the court house door in the Town of Greenville, at public auction to the highest bidder for cash, on Saturday, the 15th day of December, 1923, at 12 o'clock noon, the following described parcel of real estate, lying, being and situated in the county of Pitt and State of North Carolina, to-wit:

All that tract or parcel of land lying and situated and being in the county of Pitt, and State of North Carolina, and being farms Nos. 4 and 5 on plat of land formerly owned by T. M. Moore, plat of which is on record in Pitt county register of deeds office in Map Book 2, page 39, to which said plat for a more accurate description reference is had, being farms Nos. 4 and 5, containing 58.10 acres, more or less.

This November 13th, 1923. J. B. JAMES, Trustee. Albion Dunn, Atty.

ADMINISTRATRIX NOTICE

Having qualified as administratrix on the estate of the late J. H. Keel of Pitt county, North Carolina, this is to notify all persons having claims against said estate to present them 12 months from this date or their notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment. This Nov 15, 1923. MRS. ALICE I. KEEL, Administratrix. 15 1tw4w

SALE OF REAL PROPERTY

By virtue of a power of sale contained in that certain mortgage executed by Ivey Bibb and wife Maggie Bibb, to T. S. Tyson dated March 15 1921, and recorded in Book U-13 Pitt county registry, the undersigned owner of the debt secured by said mortgage, will on Monday, the 17th day of December, 1923, at 12 o'clock noon, expose to public sale, before the court house door in Greenville, to the highest bidder for cash, the following described real property, to-wit: A certain tract of land in Greenville town ship, Pitt county, N. C., adjoining the lands of B. C. Evans and wife the Cherry lands, the Levy McCowan lands, the Lewis Branch lands, the W. M. Page lands and others, and being the tract of land upon which the said Ivey Bibb and wife reside. Also one other tract in said township, adjoining the County Home lands, Lewis Branch lands, the Sermons or Harrington lands, and others containing 23 acres more or less.

This sale will be made for the purpose of satisfying the terms of the aforesaid mortgage. This the 14th day of Nov. 1923.

BELLE HARRIS

Executrix Estate G. E. Harris, Owner of Debt. F. C. Harding, Atty. -17 1tw 4w

LAND SALE

By virtue of the power of sale contained in a certain mortgage executed and delivered by Manuel E. Whitfield to W. C. Stokes, on the 11th day of January, 1915, to secure certain indebtedness fully set out in said mortgage, which mortgage was duly recorded in the office of the register of deeds of Pitt county in book F-11, page 62, the undersigned will sell at public auction before the court house in Greenville, on Monday, the 17th day of December, 1923.

All of the interest of the said Manuel E. Whitfield in the following described lands:

A one-half interest as follows: FIRST TRACT: Being lot No. 7, in the division of the land of Craven Peel, deceased, of record in Division of Land Book, No. 1, page 204, in the office of the clerk of the Superior Court of Pitt county, containing 40 acres, more or less.

SECOND TRACT: Beginning at W. T. Keel's corner on the southeast at the county road, and running with said county road north to the run of the branch at the corner of Gideon Teel land; thence south with the run or said branch to the big canal; thence down said canal to the W. T. Keel land; thence with W. T. Keel's line to the beginning containing 57 acres, more or less, and known as the home place of J. S. Ross.

A one-sixth undivided interest in the following tract: THIRD TRACT: Adjoining the lands of W. H. Perkins, John Pierre-lauds, the Theophilus Keel land, Samuel Keel land and Asa B. Congleton in Carolina township, containing 110 acres, more or less.

Reference is hereby made to said mortgage for accurate description of the first said tracts of land. Said land is sold to satisfy said mortgage.

This the 16th of November, 1923. W. C. STOGES, Mortgagee. 17 1tw 4w F. G. James & Son, Attys.

It's no easy task to find gifts for dad or brother; they're about the two hardest on the list. Here's a thought; they like useful things.

The easiest way of putting a pleased smile on their faces when they open their packages Christmas morning is to buy their gifts here.

Hart Schaffner & Marx clothes; fine shirts; gloves, hats, hosiery, neckwear—nothing better anywhere. They'll endorse that too on Christmas morning.

Very special, Linen Handkerchiefs—75c. Silver Buckle and Beltogram and Leather Belt in box, special at—\$3.00.

Batchelor Brothers SUPERIOR CLOTHES

Gorman's Market Report

Gorman's sold Wednesday 80,000 pounds. Our customers were highly pleased. Several new customers received over a hundred dollars each more for their loads than they had expected. We sold a number of piles from sixty to ninety dollars a hundred. Some grades are easier than before Thanksgiving but other grades have picked up which on an average gives as good or better average for the barn through. Drive to Gorman's where each and every lot is protected and you will go home with the top of the market.

We Have 1ST SALE FRIDAY, 2ND SALE MONDAY, 1ST SALE TUESDAY, 2ND SALE WEDNESDAY, 1ST SALE THURSDAY, 2ND SALE FRIDAY.

GERMAN INDUSTRY VASTLY HELPED BY STANDARDIZATION

NEW YORK.—Standardization of her industrial production has been one of the principal factors in preventing the collapse of German industry, in the face of the multitude of obstacles now confronting Germany, according to Dr. P. G. Agnew, secretary of the American Engineering Standards committee, who recently returned from Europe where for two months he made a study of the standardization movement and the manner in which European developments in this direction are likely to affect American industry.

Dr. Agnew's report, made public today, says in part:

Germany has so far succeeded in keeping her industrial machine intact, largely because of the elaborate

scale on which her standardization work is carried on. German industrialists are already counting upon standardization as one of the chief essentials in the revival, on a greatly increased scale, of their industrial production and of their foreign trade, as soon as political and financial stability is reached in Central Europe.

Practically every important manufacturing concern in Germany is officially participating in the industrial standardization program of that country. More than 1,000 German companies, having some kind of standardization organization within their own work.

WASHINGTON.—Twenty-foot waves, 80-foot boulders and 60-foot lava pinnacles rising sheer out of the channel, radio troubles and a labor strike, were some of the trials and tribulations besetting the Geological Survey party which recently mapped the last stretch of the Canyon of the Colorado. In his report on the trip, C. H. Birdseye, who headed the expedition, recorded that in the 450-mile journey encounters with cataracts which had struck fear into the hearts of other hardy adventurers and sight-seers became daily incidents.

BAPTISTS TO MEET.
GASTONIA, Dec. 6.—When the Baptist State convention meets here next week two important meetings of interest to Wake Forest College also will take place. The trustees will meet on Wednesday afternoon, Dec. 12, to consider extensions of the college plant and facilities and need in connection with proposed expansion work. The annual banquet of the alumni association will take place that night.

LIVELY ADVENTURES ATTEND TRAVELS OF CANYON SURVEYORS

The stretch of the Colorado River, from Lees Ferry, Arizona, to Needles, California, was the last that had not been accurately surveyed for mapping, and the purpose of the hazardous expedition was to locate possible dam sites for flood prevention, power development and irrigation. It was this party that was reported lost early last October, when a half wrecked boat was discovered that was thought to have belonged to them. However, the ten men accomplished the feat with one broken rib the only casualty, and with the loss of only a small canoe.

The first task encountered by the engineers was that of trucking a 16-foot boat down a narrow trail blasted in the side wall of the Canyon, near Lees Ferry. This boat was taken by auto 140 miles, from Flagstaff, Arizona, the nearest railroad station. The four boats used were eighteen footers, decked over at both ends with water tight hatches and metal compartments for buoyancy and for keeping instruments and supplies dry. The lost canoe was a light collapsible canvas craft, which was so completely demolished in its mishap that only the oars, oarlocks and skin were recovered.

One of the interesting features of the trip was the comparative ease with which radio messages were picked up, in the bottom of the canyon, even sometimes 1,000 feet below the rim. The death of President Harding was heard of within an hour after the event.

As the cockpits in the boats were large enough only to accommodate the oarsmen, the two passengers each was forced to carry had to lie down on the decking, holding on for life to the lines, and being continually drenched by spray and waves.

AGED WORKER ESCAPED INJURY JAPANESE 'QUAKE
TOKIO.—One of those who escaped bodily harm in the Japanese earthquake and fire was Madame Kajiko Yajima, the 90-year old suffrage advocate and president of the Japanese Christian Women's Temperance Society.

After her home had been damaged by the earthquake she was removed by 0 girls to the residence of Marquis Kuroda, when she was obliged to flee, because of fire, to the First Regiment barracks. Later she was assisted to the Women's Refuge Home.

Trap Shooters Make Records.
NEW YORK.—Trap shooting averages established in the 1923 season rank among the best performances in the history of the sport, figures compiled here reveal.

John R. Taylor, Newark, Ohio, professional, is credited with the highest average ever made. Taylor shot at 2,000 targets and broke 1,969 for an average of .9845. The best previous average was .9838, made in 1922 by Frank Troch.

JUGOSLAVIA MAKE DEMANDS RUMANIA, SAYS NEWSPAPER
BUCHAREST.—A lively sensation has been created in the Roumanian capital by the publication in Belgrade Tribune of an article outlining new territorial demands to be made on Roumania.

The Tribune, which is regarded as the personal organ of Premier Pashitch, points out that the war efforts of Yugoslavia have been inadequately rewarded in the distribution of territory as between Yugoslavia and Roumania.

Vaccination of Fleas.
CHARLOTTE, Dec. 6.—Determined that Charlotte shall not be exposed to a smallpox epidemic because of a smallpox epidemic benighted, as required by the law, Dr. W. A. McPhaul, city health officer has announced that he will make a comprehensive survey of the city and that an old ordinance on the subject will be enforced. A fine of \$50 for each day vaccination is not taken is provided for in the ordinance.

New Oldsmobile Great Achievement

As proof that the New Model 30 Oldsmobile is a great General Motors achievement the following letters, written voluntarily and unsolicited by pleased and satisfied owners of Model 30 are quoted:

Oklahoma City, Okla. November 20, 1923
Oldsmobile Motors, Oklahoma City, Okla.
Dear Mr. Simpson,

Without solicitation I am taking this opportunity of expressing my admiration for the Oldsmobile 30 Coupe I recently purchased from you. To be merely satisfied with the performance of this car does not express my feelings. Following the recent heavy rains, I had occasion to make a country trip and experienced very heavy going. I met with several very bad mud-beds and following in my tracks three other cars trailed me. I hit one hole where my car dug in the mud down to the crank case and the front axle was completely submerged and before me or not my car pushed clean through it, while the cars that followed me had to be pulled out. To sit behind the wheel of a car that was new and had not limbered up and feel the satisfaction of having power enough to take you through a hole like I experienced, cannot help but make a man feel like expressing his appreciation.

I am averaging about 20 miles to the gallon of gas at the present time and feel that I will do better when the working parts of my engine get worn in. This coming week I am going to drive to Colorado Springs and will give the car a thorough test on the mountains while in that territory.

Allow me to express also my appreciation for the courteous service I have received from your organization and I assure you it is a pleasure to have dealings with a company like yours. If you have occasion to require any reference please feel at liberty in calling upon me. With kindest regards, I remain,

(Signed) H. H. PRATT,
Grosse Ile, Mich.
November 19, 1923.

Oldsmobile Works, Lansing, Michigan.
Gentlemen:

About three weeks ago, I had the pleasure in selecting an Oldsmobile Six, Model 30, Serial 361—and needless to say, I am greatly pleased in learning the wonderful qualities incorporated in this new model. After driving over sixteen hundred miles, an average of twenty five miles per gallon of gasoline (with additional oil a negligible factor)—do you wonder why, I write you these few lines of comment.

The United States organization of Wyandotte, Michigan, who were instrumental in making this car, displayed so much confidence in the quality, workmanship and general performance in your Model 30, combined with your careful selection in design and materials. Their confidence was well placed and I am extremely pleased with my purchase. Your production for 1924 should surpass all previous records, making a phenomenal growth for the Olds Motor Works.

(Signed) R. R. HAYWARD

NOTICE OF SALE.
Under and by virtue of the authority contained in a certain mortgage made by Lewis Peyton and wife to F. A. Elks, of record in book Z-12, at page 35 in the office of the register of deeds of Pitt county, North Carolina, the undersigned will offer for sale and sell to the highest bidder, for cash, at the court house door in Greenville, at noon, on Thursday, January 3rd, 1924, the following described property:

Lying and being in Chicod township, shown as lot No. 39 on map part only of Grimes Farm," dated October 7, 1918 made by Jarvis B. Harding, and recorded in register of deeds office of Pitt county, which lot contains thirteen and twenty-one hundredths (13.20) acres.

This D. x. 3, 1923.

F. A. ELKS,
Mortgagee.
A. B. Corey, Atty.
