### Party Leader Says Executive Should Resign Or Be Forced Out

"If the legislature is convened," said the state chairman "for impeachment purposes, I have been advised by one member of the body that many of the legislators feel it their duty to remove from office Governor McCray.

The only hope, Wald said, he could see for the Governor in view of the distressful situation was for him to resign.

## ASSIGNMENT ON COMMITTEES IS NEW PARTY ROW

WASHINGTON, Dec. 8.—While Congress marked time today, its leaders went ahead with the reorganization of committees, which is necessary before either the House or the Senate can proceed with the serious business of the session. Republican and Democratic leaders alike were striving to complete committee assignments by Monday, when both houses will reconvene after a week-end recess. Senate Democrats are prepared to launch at that time their fight for reorganization of the Senate, but their motion to proceed to the election of a President may be deferred until the committee assignments have been finally determined by that body.

The attitude of the Republican insurgents in the prospective contest over reorganization still is undefined and may not be determined until after the make-up of the various committees is announced. Senator LaFollette, of Wisconsin, their recognized leader, still is confined to his home and it was said today at his office that if he followed the advice of his physician he would not attend the session next Monday.

## Any Aid Given To Germany Not Charity, Coolidge Asserts

WASHINGTON, Dec. 8.—Any aid given Germany by the United States should, in the opinion of President Coolidge, be furnished on a business basis rather than as a matter of charity.

This statement of the President's views, made at the White House today—after a conference between the executive and Ambassador Wildfeldt, of Germany, was taken as an indication that Mr. Coolidge would not at this juncture favor an appropriation for German relief such as that proposed in a bill introduced yesterday by Senator Lenroot, republican, Wisconsin.

Mr. Coolidge felt that the time has not yet arrived when it is necessary to extend charity from the government treasury to Germany.

## INSURANCE COMPANIES LOANED HUGE AMOUNTS TO AGRICULTURE, HE SAYS

NEW YORK, Dec. 8.—"The increasing amount being loaned to American agriculture by the life insurance companies shows the changing economic conditions in this country," said Vice-President Lee A. Phillips of the Pacific Mutual Life Insurance Company, Los Angeles, Cal., at the seventh annual convention of the Association of Life Insurance Presidents here today.

"These conditions are tending steadily to increase the amount of capital required for the average farm and the proportion of that capital which must be found by borrowing on mortgage. It is a matter of cold, hard fact that a farm mortgage is, in these days, a necessity for the young farmer and a support, without which he can hardly succeed. "A net increase of more than \$182,000,000 during the first ten months of 1923 in the life insurance companies' holdings of farm mort-

## ENGLAND SEEKS TO FIND SOLUTION OF NATION'S POLICY

### With Defeat Baldwin's Party New Leader Is Now Sought

LONDON, Dec. 8.—What Premier Baldwin will do since his party's defeat at the polls Thursday and the combined labor and liberal opposition against him and how the administration of the country will be carried on are questions which concern the press and the public. The King's ministers are trying to find a satisfactory answer to the problem.

Since the Premiers return to London from the scene of his recent personal triumph at Bewdley, he has maintained a strict silence. The newspapers and the people are speculating at will on what will be the solution.

One of the favorite guesses is that Mr. Baldwin will resign not only as prime minister but leadership of the conservative party. However, it was pointed out that such action would not solve the problem of how to carry on the government, as it is obvious no one has been mentioned who could command sufficient strength in the house of commons to enable him to conduct the administration.

Prospect of a coalition for the moment appears hopeless.

## COOLIDGE TURNS TURTLE ON BONUS

President Coolidge, delivering his first annual message before a joint session of Congress, dismissed the subject of adjusted compensation for former service men with this sentence:

"I do not favor the granting of a bonus."

That single line Mr. Coolidge completely surprises himself since he was Governor of Massachusetts and since, while governor he looked upon as one of the strongest supporters of the soldiers' bonus proposal. He only pledged members of the American Legion his warmest interest in recognizing the claims of veterans, but promised every aid possible to bring the matter to realization.

At this time and political bed-fellows bring about strange changes in office holders and seekers. The President whom thousands of veterans depended upon to aid the adjusted compensation plan dashes their hopes to the winds without any further explanation than "I am against the proposal."

It is evident that Coolidge is running true form in passing the buck wherever possible. In this case, it appears, that he is perfectly willing to let Secretary of the Treasury Mellon carry the responsibility. The latter has elective political aspirations. He holds office by appointment and he has nothing to lose by playing the role of "goat" for the chief executive.

Mr. Mellon has gone before the country with the plea that taxes cannot be reduced if soldiers' bonus is to be considered. There is a number of senators and representatives who doubt that declaration. The proposed reduction plan is already scheduled for an amended fight before it reaches the floor of the house. There is no premise upon which it can be predicated. But the bonus must be settled.

Well informed politicians see in the move to create wide dissension among the several camps in congress both as to the bonus measure which will be certainly introduced and any reduction program which has to do with shifting of the burden on one class to another.

However, if Mr. Coolidge believes that he can curtly pass the bonus agitation by merely informing the congress he is against it, it is a fair prediction that it will react with the electorate. His action in this instance, entirely compatible with his disposition and temperament, but he is a long distance from nomination and possible election to the presidency, which is his ambition.

He should remember that he must go before the people for, after all, the best political manipulators cannot be compared to the will of the voters. Coolidge faces on of the hardest

political roads ever attempted to be negotiated by a presidential candidate. He has a hopeless divided congress on his hands. With the democrats voting with progressive bloc most anything can happen in the national legislature. And the prophesy is made with out reservation of any sort that Coolidge and his coterie of New England advisers are due for a series of shocks before next spring that will jolt them from their rock-ribbed vanity.

## REMEMBER THE SALES PEOPLE AND BUY NOW

Now comes renewed insistence on the trite and ancient slogan admonishing us to do our Christmas shopping NOW. Simply because the advice is old, we are likely to pass it by with a smile, but shrewd sense and HUMAN KINDNESS never joined hands more heartily than in that old time-tested slogan.

It is the worst of judgment for one's self and the height of inconsideration for others to delay Christmas buying until the eleventh hour. The stocks of Greenville stores are all low fresh and varied, but naturally will become well picked over as the season fags to a close. Sales folks who are now alert and buoyant and ready to assist the thoughtful buyer needs must feel the stress of extraordinary and long-continued demands upon their strength from now until Christmas eve.

Every consideration makes the admonition "Do Your Christmas Shopping Early" sage advice, which if followed will result in great benefit to all concerned.

Of course, the incurable sluggard will find it altogether natural to defer Yuletide buying. Fortunately, that type is in the vast minority in Pitt County. But the normal-minded, warm-hearted folk should not take the hazard and rarely will.

Time was, long, long ago, when it was supposed needful to wait until just before the stores closed Christmas eve to conclude preparations for the outstanding festival day; but only the cave-dweller now does that. Observation of Christmas good will makes the preparation of early buying conducive to the happiness and rest and contentment of both shopper and seller.

To this end, the public of Greenville and all Pitt county can contribute to the rest and contentment of store employes by following the suggestion indicated. Let your real consideration be reflected for these workers who are the only class denied the privilege of a few hours on Christmas eve to put the final touches to their plans for the great festival. After a hard, grinding period of pre-Christmas service it is less than human for buyers to lack that consideration which would give the employes the same happiness as the great majority of people are looking forward to with fond anticipation.

If buyers will only bear this suggestion in mind, and there is NO reason why they cannot, the spirit of season good will find gratitude among a large group of employes of Greenville Stores. Again, shop today, tomorrow and every day. Complete the final odds and ends early Christmas eve, so that merchants may see their way clear to close at a reasonable hour.

Shop early and BE KIND. Shop early and BE SENSIBLE. Shop early and give the sales people the same chance to enjoy Christmas eve that you anticipate.

News that Henry Ford is not purchasing a luxurious private car will be a severe blow to the anti-Ford propagandists.

If Canada really shuts down on supplies for bootleggers, they will be put to the annoyance of changing all those labels.

In the advertisement of Foxhall, McGowan and Cannon, appearing in this paper yesterday it was stated that J. A. Smith received \$151.20 for a load of tobacco, averaging \$67.35 per hundred pounds. The correct figures should have been \$1,518.20, averaging \$67.35 per hundred pounds. We gladly make this correction.

## FRANCES MABE SWALLOWS PENNY; LEAVES FOR WILSON TO UNDERGO OPERATION

Mr. and Mrs. H. D. Mabe, left today for Wilson, taking with them their little daughter, Frances, who will undergo an operation to have a penny removed from her throat.

The little girl, aged about 3 years, swallowed the penny several days ago. Her mother missed the money at the time and asked her if she had lost it. At this time the little child explained that she put it in her mouth. Yesterday the anxious parents noticed that it required some effort for her to swallow and had an x-ray picture made. The picture showed the penny in the little girl's throat.

The many friends of Mr. and Mrs. Mabe will regret to learn of Frances' sickness and wish for her a successful operation and speedy recovery.

## MARIE PREVOST REVEALS HER MARRIAGE DONT'S

From the lips of irresistible Marie Prevost, who plays the part of Marjorie Jones in the Warner Brothers' classic of the screen, "Brass," the novel of marriage and divorce written by Charles G. Norris, which will be shown at the Strand Theatre Monday and Tuesday, there trickle a number of marriage don't's which, if she ever decides to marry, must be fulfilled by her future hubby. Here is what she says:

I won't marry a man I don't know well.

I won't marry a man I expect to reform.

I won't marry a man who doesn't respect womanhood.

I won't marry a man who is unpopular with children and other men.

I won't marry a man who hasn't a sense of humor.

I won't marry a man who has been wild.

I won't marry a man who isn't about my age and who hasn't my

same interests at heart.

I won't marry a man unless I love him deeply.

"I feel certain that if these suggestions are followed by other young girls," says Marie, "the chances for marriage failure will be diminished. Divorces are due to men and women just trotting off to the license clerk and getting married, without giving the matter the serious consideration which such a step deserves."

Berlin, Dec.—Counterfeiters are adding their complaints to the general chorus about exchange. # HELL-TORN VERDUN BUILDING MODERN STADIUM FOR SPORT

VERDUN—A standard athletic stadium, with regulation rugby and association football fields, running tracks, velodrome, grandstands and club house, being erected on the edge of this battered city, simultaneously with the work of reconstructing homes to provide shelter for the war victims, is evidence of the place which indoor sport and athletics now occupy in French life.

"London Park" as the new grounds will be known, in grateful appreciation of the fact that 350,000 francs—the amount necessary for the expense involved—were subscribed in London, is to be officially inaugurated by Premier Poincaré next summer. Visitation will be held to celebrate the reign athletes and their participation is expected greatly to enhance the ceremony from an athletic point of view.

A straightway cinder path chute of 30 metres is now completed and the plans call for a circular cinder track of 500 metres. Seating accommodations will be provided for 10,000 spectators with additional room for 2,000 standees.

The work commenced last summer has been somewhat delayed by the fact that the site of the stadium is between the Tour des Champs and the Porte Chausse in the center of the worst shell torn area surrounding the town, and workmen had to proceed very carefully as their picks on many occasions turned up studs which exploded with belated fury.

# Soft Coal-Mining Towns Set Good Example In Promoting Health Efforts To Check Minor School Ailments

Welch, West Virginia, is famous for other reasons than the fact that it is the center of one of America's richest coal fields. The school children of that city are attracting the attention of the dental profession nationally for the unique reason that the pupils of Welch school boast 100 per cent clean teeth from first graders up.

Notice the class of seven-year-olds shown above. For the benefit of a doubting camera man they are adding the finishing touch to their morning teeth wash.

Tooth brushes are part of the every-day equipment at the school, the same as a pencil box and pencils, a speller or a primary arithmetic. A dentist with a nurse assistant conducts daily drills. Needless to state, sore throat and other minor illnesses as a rule make little headway in Welch.

The healthy mouth crusade is sponsored by mining companies with large interests in that particular section of the coal state. It is a small feature of welfare work carried on in behalf of the youngsters of that community. The curriculum of the average modern school has been extended to include many more activities than a close application to the study of the three R's, but few have advanced to the stage where a tooth brush drill is a part of the day's schedule. The example at Welch might readily be followed by schools in larger cities, some dentists believe.

In a recent investigation of the educational advantages in the coal fields, made by the Bituminous Operators' Special Committee, working in co-operation with the United States Coal Commission, it was found that 93 per cent of company-owned mining communities have an eight or nine months' school term, and county superintendents are authority for the statement that teachers in these communities are superior to the majority of teachers in non-mining rural districts.

In 148 towns visited by trained investigators for the committee, the enrollment was 26,676 pupils, or an average of 180 to a community. Free libraries were found in 18 per cent of the company owned towns.

# Labor Banks' Resources Amount to \$40,000,000

CLEVELAND—Twenty-three cooperative labor banks will be in operation in this country with the completion of the three now under organization, it is indicated from information collected by the All-American co-operative commission here.

In a short time the Brotherhood of Railway Clerks' National Bank will open in Cincinnati with capital and surplus of \$250,000. The new bank of the International Ladies' Garment Workers' Union will open its doors in New York about December 1, with a capital and surplus of \$500,000. President John L. Lewis, of the United Mine Workers of America, is head of the United Labor Bank & Trust Co., of Indianapolis, which is capitalized at \$1,000,000. Its backers announce January 2 as the date of commencing business.

# KING JOHN REMEMBERED AS DANTE PHILALETES

Berlin, Dec.—That the pen is mightier than the sword was proved recently by celebration by literary groups throughout Germany. King John of Saxony has been dead 50 years, but as king he is forgotten. However, the 50th anniversary of the death of "Philaletes," the pen name under which he wrote, was widely celebrated.

# Wood Workers Get Autonomy

London, Dec.—In view of the difficulties of preserving continuity between the parent organization and branches in the United States and Canada, the Amalgamated Society of Woodworkers of Great Britain has decided to give their American membership complete local autonomy and control over their own affairs. It is stated that management at expenses in the United States and Canada have grown on an average annual charge of more than 25 shillings per member.

# Project To Surpass Arizona's Great Dam Started in Kentucky

HIGH BRIDGE, KY.—Construction has been commenced of the Dix River dam, near here, which when completed will surpass the Roosevelt dam in Arizona, according to engineers. It will be larger and will be capable of developing 30,000 horsepower as compared with 23,000 horsepower of the Roosevelt dam.

For the last 14 years engineers of international reputation have acclaimed the location an ideal place to build a high dam.

The project, when completed about February 1, 1925, will tower 270 feet between the rugged cliffs of Dix river gorge and will be the highest dam east of the Rocky Mountains, it is announced. The cost will be \$7,000,000. More than 1,600,000 cubic yards of material will be used in its construction. It will be 700 feet thick at the base, tapering to 24 feet and 760 feet wide at the top. Its backwater will form a lake 36 miles long, storing approximately 6,000,000,000 cubic feet of water.

John Golden's Great Stage Success by Austin Strong

# "3 WISE FOOLS"

## Three Solid Seasons on Broadway!

Congratulations are due King Vidor for the perfect screen adaptation of the wonderful drama "THREE WISE FOOLS."  
For three solid seasons this famous stage success played to crowded Broadway houses. It is one of the most successful theatrical enterprises on record. At the present moment it is still being roadshowed.  
"THREE WISE FOOLS" is a truly magnificent motion picture achievement. It has the touch of humanity that surges through the heart of an audience and captures it forever.

Claude Gillingwater, William H. Crane and Alec Francis, the three fine actors who play the title roles in "Three Wise Fools", King Vidor's great screen adaptation of John Golden's stage success, have a collective acting experience of more than 100 years. Eleanor Boardman plays the feminine lead in the picture.

It has thrills in abundance: the break from jail of hundreds of convicts, the mad dash for freedom in a minute armored riot car, the pursuit by airplane dropping bombs from the sky, the attempt at vengeance by an escaped convict, the reunion of a father and daughter, the boy who stayed true to the end.

The cast, the production, the story are Big in every respect. Their combination has resulted in an attraction that goes out to the public to take the place among the few great motion pictures of all time.
