## COOLIDGE MESSAGE DORMANCY COUNSEL DECLARES MCADOO

### President's Position On Bonus Scored Unfair To Veterans

LOS ANGELES, Dec. 12.—President Coolidge's message to congress was called a "counsel of dormancy" and his opposition to the soldiers' bonus characterized as a summary dismissal of "just claims," in an address by William G. McAdoo, former secretary of treasury and director-general of railroads before members of the democratic club and women's league here today.

### Kid Dropper, Gangster Says He Killed Man To Save His Own Life

NEW YORK, Dec. 12.—The fear with which "Kid Dropper" ruled his subject gangsters of the Upper East Side—a fear inspired by the general underworld knowledge of the rudeness of his trigger finger—finally turned upon him and brought him the tragic end with which he had so often threatened others.

### Four Children Lose Their Lives In Fire

LOGOCTEE, Ind., Dec. 12.—Four children of the family of William F. Ham, farmer, residing 10 miles from here, were burned to death when their home was destroyed.

## A QUEEN'S CROWN IS WAITING FOR SOME PITT COUNTY GIRL; IT'S UP TO EVERYBODY HELP LOCATE HER

Somewhere in Pitt county there is a young lady who is an uncrowned queen. But a systematic plan to ascertain this identity of this particular person of irresistible charm and grace is to be undertaken, and when she is found she will reign with all the majestic splendor and court honor that can be bestowed upon such a dignitary.

That she will be found, there is no question, for the pledge of American Legionnaires stand behind the search and that is sufficient guarantee. No real worth while project can be successful unless it has a recognized, ruler and that act obtains in connection with the Industrial Exposition which will be held here Dec. 24 to 31 in Forbes and Morton's warehouse.

## NEGRO HELD ON FORGERY COUNT IN CITY COURT

Charged with forging the name of Miss Frances Moore to a check, Wesley Williams, colored, was held for the action of the superior court by Mayor Clark today. Jim Jones it was alleged needed a few dimes so he picked up the pocket of William Phelps and took \$14. He was bound over to county court.

E. R. Harrell, Bertie county, was accused of giving Joshua Tripp a worthless check for \$108.36 in exchange for cotton. Counsel for Harrell entered a plea in abatement. The evidence developed that the alleged worthless check was passed in Bertie county, the court dismissing the case without judgment. James Killebrew and James Lovv, both colored, drunk and disorderly, will spend the next 30 days helping to keep the city streets in order. B. Price, colored, assault, also drew a six-month sentence. Leaving motor unattended, J. D. Morris, paid cost. Ed. Davis and Harry Whitely, colored, were charged with assaulting Reed Gorham. Davis dismissed. Gorham was taxed cost.

## Baldwin's Cabinet Will Remain Until Parliament Meets

LONDON, Dec. 12.—Stanley Baldwin's cabinet today considered its position resulting from the loss of the Conservative parliamentary majority through last week's elections, and of the course open to it decided upon that of the postponement of its end. A brief official statement says:

## Doctor In Suitcase Murder Case Given Term In Penitentiary

CAMBRIDGE, Mass., Dec. 12.—The story of how a woman's body was dismembered and scattered in various parts of the state to conceal evidence of a crime was told today when Dr. Wm. M. Robb, of Boston, who had confessed to performing an illegal operation on Mrs. Alice M. Wolschenborn, of East Bridgewater, was sentenced to state prison for a term of from five to seven years.

## One Dead; 2 Hurt In Auto Accident

Mrs. John Allen was instantly killed, Mr. Allen seriously injured, and a four-year-old daughter suffered minor injuries late this afternoon when their automobile overturned in a ditch on the Farmville road about two miles from this city.

According to information received immediately after the accident, Mr. Allen's car was crowded off the road by an auto driven by Richard Vines, a negro.

It is understood that as soon as Vines could stop his car he went back to

the scene of the accident and helped lift the car from Mrs. Allen. After this he returned to his car and drove off. Officers were immediately sent in search of Vines.

Mr. and Mrs. Allen, with a three-months-old baby, the little four-year-old girl and another child were going in the direction of Farmville at the time of the accident. The baby and the oldest child escaped uninjured.

Mr. Allen is in a local hospital in an unconscious condition.

## General Butler May Lead Quaker City Cops.

Brigadier-General Smedley D. Butler, "the fighting Quaker," idol of the U. S. Marine Corps, has been asked to assume command of the Philadelphia police force and will do so if the Marine Corps will grant him a leave of absence, which Secretary Denby opposes because of the value of General Butler to the Corps. Smedley Butler, whose idea of a post of command is that it should be somewhere ahead of the firing line, instead of in a zone of safety, fairly worships his marines—a real love that is heartily reciprocated. He recently acted as cheer leader for the Corps when the Marines' football team defeated the team of the Third Army Corps

## ALLEGED SLAYER KLAN ATTORNEY GOES ON TRIAL

ATLANTA, Ga., Dec. 12.—Preliminary to placing P. E. Fox on trial here today the jury panels were separated and every effort made to expedite matters when it came time to select a jury.

Fox, former publicity agent of the Ku Klux Klan, is charged with the murder of W. S. Coburn, attorney for the Simmons faction of the Klan. The court room was crowded with spectators. Judge G. H. Howard, presiding, ordered all the aisles cleared.

It was announced today that sufficient evidence had been obtained by the state to justify several more indictments in connection with the killing.

Hundreds of witnesses have been summoned by the prosecution and defense, many coming from Dallas, the former home of the defendant, and other parts of Texas. The indictment on which Fox will be tried charges that the Klan publicity chief and editor of the Night Hawk, the official organ of the Klan, shot and killed Coburn while the latter was seated at a desk in his office here on Nov. 5. Coburn was almost instantly killed.

## Picture Frock To Be More Than Just Name, Spring Style Forecast

NEW YORK, Dec. 12.—Color schemes and ideas will run riot in the new silk dress materials for the feminine spring wardrobe. Tencaps and brickbats, skyscrapers and ships, cubist dancers and Cuban bananas, seen in of barnyards and ballrooms. A design to suit every nature and match any mood will be available in the print goods offered by Parisian designers, according to Henri Greange, a silk designer, who returned yesterday on the liner Paris.

## University Ready To Aid Community To Solve Problems

Chester D. Snell, director of the University of North Carolina, extension division was in Greenville today with officials of local organizations and arranging for certain services to be rendered them by the University this year. Snell stated that he was deeply impressed with the progressive way in which community problems are being handled locally.

"In its effort to render some educational service to every citizen of the state," Snell said, "the extension division is constantly enlarging and widening its field of work. Regular classes in college subjects are now held in over two score cities of the state from Wayneville to Washington. These classes which are taught by the faculty of Chapel Hill meet once or twice a week and college credits may be secured by those who meet all the university requirements.

## Rum Running Boats Meet Resistance In Selling Xmas Liquor

WATERWITCH, N. J., Dec. 12.—The Jersey coast rum-runner, trying desperately to break through the big cities with holiday liquor from the ships on Rum Row, is being forced into daylight and into the arms of the authorities by the highway hi-jacker.

Both fishermen continued to ply between the 13 mother ships of the rum fleet and the shore landing places under cover of darkness. But prohibition forces assert there has been a noticeable let-up in the amount of liquor in trucks and automobiles going out of these coast towns at night bound for New York, Philadelphia, Trenton, Newark and other nearby large consuming centers.

## PITT LEGIONNAIRES START XMAS FUND FOR ILL COMRADES

### Public Invited To Add Holiday Cheer To Patients of Oteen

At a called meeting of Pitt county Legion Post last night a fund was started to remember at Christmas disabled former service men patients in the ward assigned to the local Post at Oteen hospital. A substantial amount was collected which will be more than tripled next week when the organizations holds its regular monthly meeting Tuesday evening in the Rotary Club building.

Boxes will be placed in public places and the people of Greenville and the county are invited to contribute either cash or make individual gifts. It was pointed out that it was desirable to bring as much happiness to disabled veterans as possible and it is believed there will be a generous response on the part of the public to assist in this laudable movement.

## Hickory Man New Potentate Of Shrine Others Are Advanced

CHARLOTTE, Dec. 12.—J. D. Elliott of Hickory was elected illustrious potentate of Oasis Temple, Ancient Arabic Order of Nobles of the Mystic Shrine, at the business session of the fall ceremonial here.

Other members of the imperial division elected include: L. D. Sutherland, Charlotte, chief rabban; Charles P. Ambler, Asheville, high priest; and prophet; J. E. McIlwain, Charlotte, appointed treasurer to succeed W. L. McDonald, Charlotte, resigned; Thomas Griffith, Charlotte, recorder; J. LeGrand Everett, Rockingham, assistant rabban; C. M. Vanstory, Greensboro, oriental guide; P. T. Wilson, Winston-Salem, first ceremonial master; Eugene B. Graham, Charlotte, second ceremonial master; Charles F. Long, High Point, marshal; R. E. Simpson, Charlotte, captain of the guard; W. Y. Warren, Gastonia, outer guard. Mr. Warren is the only new member added, others being advanced.

## Ford's Name Will Go On Michigan Ballot

ADRIAN, Mich., Dec. 12.—Henry Ford's name will be placed upon the Michigan-Democratic Presidential preference ballots in April. James W. Helme, an opponent of Ford in the 1918 Senatorial primary campaign, announced today.

The required number of signatures have been obtained to petitions circulated here, he said. Another petition is in circulation in Hudson, the home of Edward Frensdorff, who has taken the initiative to place Ford's name before the voters at the spring primary.

## Say Engineer To Blame For Wreck

ERIE, Pa., Dec. 12.—Testimony at the New York Central Railroad's investigation of the wreck of the Twentieth Century Limited at Forsyth, N. Y., early Sunday, with a loss of nine lives, developed that Charles Patterson of Buffalo, engineer of the last section of the limited which ran into the preceding section, had failed to comply with danger signals, according to an official statement.

## AMERICAN WORKER ENJOYED GREAT YEAR PROSPERITY; COMMON INTEREST MAKING INDUSTRY HUM, DAVIS SAYS

WASHINGTON, Dec. 12.—Legislation touching the interests of laboring men and women at many points was recommended today by Secretary Davis of the labor department in his annual report.

Among other things, he asked Congress to provide a less complicated method of handling railway labor disputes than that now administered under the Railroad Labor Board; to give the Labor Department greater authority and facilities for enforcing better working conditions generally; to make appropriations for improvement of the immigration stations at New York, Boston, Seattle and San Francisco; and to enact a complete new "alien code" providing for selection of immigrants abroad, for exclusion of all non-naturalizable aliens, for the penalization of unlawful entry of immigrants, and for enlargement of the work of naturalization and Americanization. He also renewed his recommendation for a constitutional amendment empowering Congress to pass child labor legislation.

Looking back over the twelve-month period covered by the report, Mr. Davis declared American labor had much to be thankful for, but that the federal government must continue its efforts toward "cooperation" and recognition of the mutual interest of employers and employees.

Great Year for Workers

"This has been a great year," he said, "for the American worker. During this year starving workers have thronged the streets of a great European capital crying bread! bread! The rifles of the police have been called into noisy action as men and women clamored for food with which to feed

their dying children. The United States is enjoying greater peace and equality in any nation in the world. The American workman everywhere is steadily employed.

His earning wages as high as he was ever paid before. He is working under conditions vastly improved. During the last year we took one great step forward through the elimination of the 12-hour day and the seven-day week in our great basic industry, the steel industry.

"It may now be said that we are within sight of the time when no workman in the United States will be forced to labor from sunrise to sunset, and that we are within a few years of the day when we shall have realized the hope that each man shall have eight hours for work, eight hours for play, and eight hours for sleep. Truly, American labor has much to be thankful for.

Foster Common Interest

"We must see to it that conditions in American industry continue to advance. We must encourage that spirit of cooperation, that recognition of mutual interest, which is already making great progress among our employers and our workers. We are learning that cooperation in industry is the surest and most profitable road to industrial peace, without which we can have no real prosperity. Today there are four parties involved in any industrial dispute—labor, ownership, management, and the public.

All of these are mutually dependent, and the success of any given industry depends upon its operation along lines which will insure satisfactory returns to all of them."

WASHINGTON, Dec. 12.—Definitive assurance that tax reduction legislation will be considered promptly by the House Ways and Means committee was given by Representative Green, of Iowa, prospective chairman, after a conference with Republican members of the committee.

Green, in a formal statement, said he expected to call the committee together Monday to take up the draft of the bill submitted by the Treasury and after proceed with the work of revision as rapidly as is consistent with accuracy and thorough consideration.

## COTTON ESTIMATE PLACED AT OVER 10 MILLION BALES

WASHINGTON, Dec. 12.—This year's cotton estimate, according to government figures issued today is placed at 10,108,600 bales.

The estimated production by states in 500 pound bales, follows: North Carolina, 1,220,000; Texas, 4,290,000; Virginia, 500,000; South Carolina, 795,000; Georgia, 590,000; Florida, 102,000; Alabama, 600,000; Mississippi, 617,000.

## Textile Mills Of South And North Combine

BOCTON, Dec. 12.—A merger of cotton mills situated in the South, New England and Canada was affected today when stockholders of the International Cotton Mills voted to ratify a recently announced combination plan. The new organization is to be known as the New England Southern Mills, and will have a combined operation of 362,000 spindles.

## TAX REDUCTION TO COME FIRST SAYS PARTY HEAD

WASHINGTON, Dec. 12.—Definitive assurance that tax reduction legislation will be considered promptly by the House Ways and Means committee was given by Representative Green, of Iowa, prospective chairman, after a conference with Republican members of the committee.

Green, in a formal statement, said he expected to call the committee together Monday to take up the draft of the bill submitted by the Treasury and after proceed with the work of revision as rapidly as is consistent with accuracy and thorough consideration.

"It is obvious," the statement continued, "that so great a task as is now presented to the committee cannot be disposed of summarily, but it should also be borne in mind that the income taxes affected by the proposed measures, who has taken the initiative to

## Cleveland Certain Of G.O.P. Convention

WASHINGTON, Dec. 12.—Cleveland was formally selected as the next convention city of the republican national convention and June 10 was fixed as the meeting date, by the republican national committee today.

WASHINGTON, Dec. 12.—Selection of Cleveland for the 1924 republican convention, as favored by administration leaders, was foreshadowed at the opening of the republican national committee. With the Cleveland movement in open evidence, representatives of Des Moines and San

Francisco went through the formalities of presenting invitations, but another indication of the expected result was their added invitation for the 1928 republican gathering.

### THE HARDING MEMORIAL

North Carolina has been invited to take part in the movement to raise funds for the erection of a suitable memorial to President Warren G. Harding, at Marion, Ohio. This state was the first to plant memorial trees in memory of the late President. The campaign will undoubtedly succeed for the reason the cause itself should enlist the support of Americans because of the fine idealism which it expresses.

President Harding was obviously sincere and conscientious in his public life and undertakings. He was of that type of American statesmen somewhat too rare in this age, who believes in their fellow citizens and endeavor to give themselves to public service. It was unquestionably his effort to live up to that ideal that broke down his health to an untimely grave.

It is confidently believed that North Carolina will do its share toward raising the fund needed for the Harding memorial, not only as means of honoring the memory of President Harding but as an expression of appreciation of the high ideal of public service for which he gave his life.

### WHY THEY GROW

Fram the Atlantic to the Pacific, the three outstanding states showing industrial development and rapid growth in population are New York, Illinois and California.

A recent survey of Illinois shows that it has more users of electric light and power than any state in the union and these users comprise 10 per cent of all electricity users in the country, according to figures published in the Elevated News of Chicago.

California ranks second and New York third. Illinois has more residential electricity users than any other state, is second in number of industrial power users and third in the number of commercial lighting customers, according to the report.

Of the 10,800,000 electric light and power customers in this country, 78 per cent were home users, 18 percent commercial users and 4 per cent industrial consumers.

There are 858,000 residential lighting customers in Illinois.

When you consider that light and power are two of the greatest forces for the extension of modern civilization it can readily be seen why Illinois, California and New York show such a record of growth, for they are leaders in electric power development.

It is early enough to shop early, but soon won't be.

As there are only 17,000,00 automobiles in the world, it can be readily seen that there must be a few pedestrians left.

Moscow communists are organizing propaganda against the Christmas spirit, which is one explanation why communism is fizzling in moscow.

Coolidge's dismissal of the bonus question does not mean that it has been dismissed by congress.

When Hiram Johnson gets through tearing the President's political platform (referred to as a message to congress) to pieces "Silent Cal" will probably realize that for once he talked too much.

Don't forget that store clerks will be compelled to work late Christmas Eve unless you do your buying now. Be human and considerate of the other fellow.

When you hear a Pitt county business man complaining of hard times now, just put it down that he is at fault.

**Canada's Pulp Output Shows Steady Growth**

OTTAWA, Ont., Dec. — Newsprint production in Canada amounted to 244,830 tons in the nine months ended Oct. 1, according to a report issued by the Dominion Bureau of Statistics. This was an increase of 145,447 tons or 18 percent compared with the same period last year.

The Dominion, the report points out, is rapidly reducing the lead of the United States in newsprint production. The output of the United States was only 184,397 tons more than Canada in the first nine months of 1923, as against 270,246 tons greater output for the same period of 1922. In September Canada produced 102,846 tons while the United States mills produced 110,209 tons.

**American Museum Get Rare Animal Specimens**

LONDON, Dec.—The American Museum of Natural History will shortly become the possessor of an excellent collection of stuffed animals and zoological specimens, from India, the fruits of the recent Vernay-Faunthorpe expedition. The expedition was undertaken by A. S. Vernay, an Englishman, but for many years a resident of New York, and Colonel J. C. Faunthorpe with the object of forming a complete collection of animals from the plains of India. Later it was decided to present these to the American institution.

**Sailing Ships Immolated Provide Movie Thrills**

SAN PEDRO, Cal., Dec.—Clipper ships and merchant schooners of the old days—symbols of a past era of adventure—are being assembled here from the nooks and crannies of many parts. The romance of their careers will close in a burst of thrills. What if the thrills be unseled? They will be none the less real to the movie audiences of a nation.

Some of the ancient windjammers are destined to reach Davy Jones' locker in a way their builders never dreamed of. While the cameras stand by, they will be wrecked by "terrific storms" or scuttled by pirates. Hand-to-hand fights will be waged on their decks. From some of them high flames may shoot at the signal of a director.

**Newspaper Opposes Rebuilding Japan On Extravagant Scale**

TOKIO, Dec.—In an article discussing the many "ideal reconstruction plans" of Tokio, Nichi Nichi, one of the leading newspapers of Japan, says it is opposed to the idea of undertaking reconstruction on a scale that is manifestly beyond the economic powers of the country.

"We are opposed to the foreign loan proposition," says the newspaper, "before all attempts have been made to procure the funds by loans on the home market."

"Everybody desires perfection, but that presupposes the command of ample means or the ability to muster sufficient means to defray the enormous expenditures which the carrying out of the reconstruction program should necessarily involve. If a huge program not in due proportion with the economic resources of the country is undertaken, not only will it be bound to end in failure, while yet on the road to the final result, but will be calculated to shake the foundation of the national economy by endangering the basis of the gold reserve on which the currency system of this country rests."

**McGraw Keeps Fans Anxious Relative To Giants Of Next Year**

NEW YORK, Dec. — One of the questions uppermost in baseball fan's mind this winter is the course John McGraw intends to pursue in shaping his New York Giants for the 1924 campaign.

A year ago McGraw stood pat on his line-up after trouncing the Yankees in the 1922 world series, but today experts concede hardly an even chance for victory in 1924 to the aggregation which was routed by the Huggins' clan last October. McGraw's deal with Boston generally was thought the fore-runner of a wholesale shakeup, but now the "Little Napoleon" indicates he may make no more drastic changes.

The Boston deal sent Davey Bancroft to the Braves as shortstop-manager, along with Stengel and Cunningham, in exchange for Southworth, centerfielder, and Oeschger, veteran pitcher. McGraw declared at the time that Travis Jackson, a 1923 find, would fill the gap at short. Of this youngster he said:

"He is a great player right now. A wonder boy, clean cut, with steady habits and good sense. I am counting on him. He is a second Frisch."

McGraw has not lost faith in Jimmy O'Connell, expensive Pacific Coast recruit, regarded generally as a failure in his first big league year.

**Indians Growing IN Numbers And Riches Says Commissioner**

WASHINGTON, Dec. — The government's Indian policy during the coming year will again emphasize the educational phase. Charles H. Burke declared today in his annual report as Commissioner of Indian Affairs. As a result of the intensive campaign in 1922, he said, attendance at government boarding and day schools totalled 24,145, or nearly 2,000 more than the normal capacity, and the number of eligible children not in school was reduced by 5,000. The commissioner's recommendations included additional sanatoria schools to help in overcoming disease, and a hospital for crippled children.

The Indian population in the United States, the report said, is now 344,303, an increase in ten years of 13,664 and total property is estimated at \$1,010,870,519, an increase in ten years of \$343,939,256. Allotments of land were made in the last twelve months to nearly 4,000 Indians, comprising 1,904,000 acres.

**Quake Experts Seek Breaks On Crust Of American Continent**

WASHINGTON, Dec.—An exhaustive study of earthquakes in and near the American continent is being made by the weather bureau in cooperation with the Coast and Geodetic Survey, the Canadian meteorological officials, a number of universities and about 5,000 volunteer observers. Among the university records which are proving of great value are those kept by Father Tondorf, in charge of the seismological laboratory at Georgetown University, whose announcement that a violent earthquake had been registered by his instruments was the first news given the world of the Japanese disaster.

William J. Humphreys, professor of meteorological physics, has charge of the weather bureau's work. The purpose of the study, he said, primarily is to determine the exact locations of breaks and cracks in the earth's crust and to gain knowledge of the substructure of the land, although it is hoped eventually to develop a method by which earthquakes may be forecast and their danger minimized.

Only a persistent study, in the opinion of Father Tondorf, can lead to a scientific basis of forecasting earthquakes.

**Investigator Finds In Germany Ruins Of Old Slav Sanctuary**

FELDBERG, Mecklenburg, Dec.—Ruins of an ancient Slav sanctuary have been unearthed near this town by Dr. Karl Schuchhard, director of the Berlin Museum of Anthropology, which he believes to have been Rethra, the chief temple of the Slavs between the Rivers Elbe and Oder. Such

arasaci was the name of the god who was worshipped here, and the temple was relatively more important than the Delphi of the Greeks.

Rethra stood for several centuries and was destroyed in 1063 and 1069 under the reign of Henry IV. The Bishop of Halberstadt, under orders from the emperor, destroyed the sanctuary. Burchard was the name of this bishop, and it is still preserved in the folklore of Northern Germany. He is supposed to have become immensely rich through plundering the temple, and there is a nursery rhyme which makes an appeal to this ancient bishop to make gifts to children.

tenance in a government hospital or home. The duration of the disability, or the time and manner in which it has been inflicted, will make no difference, according to this announcement. Such permanent disabilities as old age will entitle a woman to care for the rest of her life, but entry into a government institution will entail no obligation to remain a patient being as welcome to enter for an operation or a brief illness. The government will pay the cost of transportation to eligible applicants.

MRS. R. L. CARR ENTERTAINS

On Tuesday morning at 11 o'clock, Mrs. R. L. Carr charmingly entertained at the Country Club, having as her guests of honor, Mrs. Russell Wiggins, of Winchester, Mass., and Mrs. Douglas Wesson, of Springfield, Mass., who are guests of their parents, Col. and Mrs. R. R. Cotton, at Cottendale, and Mrs. McConnell and Mrs. Wilson, of Ohio, house guests of Mrs. E. F. Ficklen. The club house was attractively decorated with sweet myrtle and holly suggestive of the holiday season, and four tables were placed for bridge. Sprited games were enjoyed until one o'clock, when the players were joined by a number of other guests. After all the guests had arrived, an elegant barbecue luncheon was served in true southern style.

**COMMITTEE OF FLIGHT-TO-POLE CONFERS**

The naval board appointed by Secretary of the Navy Denby to make plans for a flight of exploration to the North Pole, either by the dirigible Shenandoah or by heavier-than-air machines, has held its first conference in Washington. Left to right are shown Commander E. G. Allen, Lieutenant-Commander Robert A. Bartlett, U. S. N. R., who has been called into active service because he was with Admiral Peary on his successful journey to the Pole; Commander W. R. Furlong, Lieutenant-Commander H. T. Bartlett, Gilbert Grosvenor, president of the National Geographic Society; Admiral Moffatt, chief of Naval Air Service, and Secretary Denby.

L. Shipman, commissioner of labor and printing, for North Carolina today asserted in a letter addressed to the editor of the New York Evening Journal answering an inquiry as to the situation with regard to negro migration from North Carolina. "We know of no special effort to induce the return of colored laborers who went north during the year."

In making the letter public Shipman expressed the opinion that the migration from North Carolina of negroes attracted by higher wages and reputed better conditions in other sections had been more than offset by the influx of the same class of labor from other states.

**American Bankers Seeking Business In Renascent Austria**

NEW YORK, Dec.—Surplus American capital, which has been seeking foreign fields for employment since the war converted the United States from a debtor to a creditor nation, recently has been attracted by the rapid economic recovery of Austria, which formerly did all its external financing, both government and private, either through London or Continental brokers.

Last June the bankers of this country made a public offering of \$25,000,000 worth of the \$126,000,000 guaranteed loan of the Austrian government and the issue was heavily oversubscribed. Prior to that the firm of J. P. Morgan & Company had privately purchased a minority interest in an Austrian bank, largely on sentimental grounds, but the investment proved a profitable one as well. Recently another banking syndicate

urchased and successfully disposed of 100,000 shares of the Mercubank of Vienna at \$15 a share. Other large American banks and business firms have representatives in Austria negotiating for business in competition with British, German, French, Swiss, and Scandinavian interests.

**Finds Jobs For 500**

Raleigh, Dec. 12.—More than 1000 persons were placed in persons of re-education by the United States and State Department of Labor during the week ended December 8, according to the weekly report of the Bureau issued here today by M. L. Shipman. Wilmington continued to account for the largest number of persons employed, that branch reporting that 158 had been placed in jobs. Charlotte placements were 101.

WASHINGTON, Dec.—Despite the rapidly decreasing area of the public domain, homesteaders obtained patents to 6,309,929 acres in the last fiscal year, according to the annual report of the General Land office. Cash receipts from sales, leases and other disposition of public lands aggregated \$10,700,000 of which five percent was turned over to the states in which the land was situated.

Withdrawals of public lands for monuments, national forests and similar reservations totalled 1,692,548 acres, while 1,900,000 acres were "restored to entry."

WASHINGTON, Dec. 11.—North Carolina's death rate as a result of automobile accidents has increased steadily since 1917 according to figures compiled by the Bureau of the Census. In 1917, the number of fatalities was 66 and in 1922 it had increased to 169. The greatest in-

crease for any one year was from 1919 to 1920 when it was 29. The 1922 rate, represents a 6.4 death rate on the basis of every 100,000 population against 2.7 in 1917.

ST. LOUIS, Dec. 11.—It may be necessary to search under the Dead Sea to locate the sites of Sodom and Gomorrah, according to the Rev. M. G. Kyle, president of the Xenia Theological Seminary here, who will head a scientific expedition to Palestine, sailing December 29. The party will search for the exact locations of the "cities of the plain," which also include Zoar, Admah and Zeboim.

According to the Bible account, Sodom and Gomorrah were destroyed by fire and brimstone because of the wickedness of their inhabitants, and Arabian traditions says the pillar of salt into which Lot's wife was turned still stands.

Dr. Kyle, who is also professor of Biblical archaeology at the local in-

stitution, expressed the opinion that the date of 1892 B. C., for the destruction of the two cities is approximately correct. He said he believes the sites of the two cities are under the shallow part of the Dead Sea, which has no outlet, and in which no pre-terrestrial life can exist.

**Gorman's Market Report**

The sales blocked Mon. and Tues. The Today's sales are small and will finish by or around the dinner hour. Gorman's sold 215,000 pounds and averaged 24c. Prices were some easier on the nondescript, common and medium tobacco. The good bodied tobacco and fine tobacco was fully as high as at any time this season. We sold quite a number of lots ranging from sixty to 85 cents per pound. Our customers with very few exceptions were highly pleased. We look for smaller sales from now out. Handle your tobacco as dry as possible. Right much wet tobacco is showing up and this does not bring its full value. We believe the prices will be good after Xmas.
