UPSHAW URGES SOBRIETY AMONG GOVT. OFFICIALS

Presents Resolution In House and Speaks In Support of Same

WASHINGTON, D. C., Jan. 3.—Drastic action to put a stop to alleged liquor drinking by members of congress and other high government officials and to prevent the leakage of diplomatic liquors into bootleg channels was demanded by Congressman Upshaw, of Georgia, in a resolution presented in the house this morning and in a speech in support of same.

Mr. Upshaw said that Congress should clean around its own door by passing resolutions that declared persona non grata to the floor of the house any member found under the influence of liquor in the capitol or house office building or known to have liquor illegally acquired in his office. He also suggested that all federal appointees including cabinet officers, army and naval officers and diplomatic and consular representatives be required to take a pledge of total abstinence. The executive guillotine should be used on all government officials known to drink liquor, he said.

The flagrant abuses of diplomatic immunity on the part of many attaches of the foreign legations and embassies, asserted Mr. Upshaw, shoulders put into italics the necessity for revoking a privilege that should never have been allowed under our national prohibition laws. Recent investigations have convinced me that some of those in diplomatic circles would be hardly glad to be relieved of the expenses and all other troubles and responsibility in connection with the liquor immunity.

If I were president, said Mr. Upshaw, I would declare without delay or equivocation the White House dry, the president dry and all government appointees dry and here and now I call for the immediate resignation of every executive appointee including cabinet officials who drink liquor that has been outlawed by our constitution.

Agricultural Teachers Rendering Helpful Service Farmers

RALEIGH, Jan. 3.—The teachers of agriculture in the vocational agricultural high school of the state render a helpful and needed service to the farmers of their communities as well as preparing the boys for the business of farming, according to a statement issued here tonight by Roy H. Thomas State Supervisor of Agricultural Education, reviewing the past twelve month period.

"In a period of twelve months," declared Thomas in his statement, "seventy eight teachers of agriculture held 679 meetings with 63,308 people in attendance to discuss the problems of these farmers and develop plans for improving farming practices. Sixty four of the schools held community fairs and a majority of the seventy eight schools made exhibits at the county fairs and at the state fair at Raleigh.

"In addition to this group service the teachers visited 2,522 individual farmers on their farms to help them with their problems. This individual service covered hundreds of problems connected with the growing of crops, raising livestock, caring for orchards and managing farms. "While rendering this service to the people of their communities the teachers travelled a total of 138,025 miles. Each teacher of agriculture is required to have an automobile which enables him to render quick service."

CYCLONE CAUSES DEATH SEVERAL PERSONS AND INJURY TO MANY

MADRID, Jan. 3.—A cyclone which swept Causeyville, 4 miles south of here shortly after midnight, is reported to have caused the death of several persons and injury to many. Numbers of families in the city were rendered homeless.

Wood's Father-in-Law His American Agent.

Henry B. Thompson

Henry B. Thompson, president of the United States Finishing Company, of New York City, father-in-law of Lieutenant Osborne C. Wood, is said to have acted as the New York agent for the Governor-General of the Philippines "cleaned up" nearly \$1,000,000 by Wall Street speculations. Mr. Thompson is said to have received word from the War Department to put an end to Lieutenant Wood's plunges in the Street.

Valuable Property In Grimesland Will Be Sold at Auction

The Atlantic Coast Realty Company will on Wednesday, Jan. 9, at 10:30 a. m., sell at auction in and adjoining Grimesland, property formerly owned by Proctor Bros. consisting of lots and small farms.

This property which consists of about 125 splendid residential lots is located on Pitt, Chicod, Boyd, First, Second, Third and Chicora streets and comprises some of the most desirable residential property in this progressive town. Immediately after the sale of the lots, 174.55 acres of farm land adjoining the town, which has been subdivided into seven small farms ranging in size from 8 3/4 acres up to 54.06 acres, will be offered to the highest bidder.

Grimesland is located in one of the best sections of Pitt county. It has splendid educational advantages and is located on the Tar river. Hard surfaced roads lead to and from the city in direction of Belhaven and Raleigh. The people are progressive and interested in the growth of the city and community. Each tract is convenient to all advantages offered by Grimesland, and is only a few minutes walk from the center of the city, near schools, churches and stores.

The sale will be held regardless of weather conditions. If the weather is inclement, the sale will be conducted in some building on or near the property.

Press Association Opens in Pinehurst

PINEHURST, Jan. 3.—With publishers and editors from all sections of the state of the North Carolina Press Association opened its mid-winter session here today with Chas. S. Webb, of the Asheville Citizen, presiding.

During the morning session members of the craft heard addresses by Leonard Tufts, of Pinehurst, who spoke on North Carolina's Natural Resources, and Bion H. Butler, of Southern Pines, who used as his subject The Sandhills.

The "Evils of Free Publicity" was to be discussed at this afternoon's meeting and also "Increased Circulation for North Carolina Papers." Golfing and other forms of entertainment came in for a part of the afternoon program.

To Count a Trillion No Idle Job.

HEDELBERG.—Since the terms billions and trillions came into daily usage in Germany in connection with the paper mark, some one has figured out that if Old Adam had started counting in the Garden of Eden, and kept on counting ever since to this day, he would reach the total of a trillion some time within the next year.

COLLECTIONS OF DEPT. OF REVENUE EQUAL ESTIMATE

Doughton Says When All Items in Total May Exceed Estimate

RALEIGH, Jan. 3.—The prediction that the Budget Commission's estimate of \$6,000,000 in revenue would be collected by the Revenue Department during 1923 will be proved correct when the final figures of all collections are in, was voiced here yesterday by Commissioner of Revenue R. A. Doughton in making public the cash receipts of his department for 1923. Mr. Doughton stated that the total of \$5,760,267.93, while somewhat short of the budget figure of \$6,000,000, would be increased by the collection of several items due which have not yet been collected and that the total amount may possibly pass the budget estimate.

The collections for 1923 exceeded those of 1922 by more than \$2,500,000 which is due, said Mr. Doughton to the fact that the 1923 legislature turned over to the department for collection several classifications which heretofore had been collected by other departments.

The report showed that the cost of making the 1923 collections was 2 1-2 per cent exclusive of printing and stationery.

Inquest Today Into Death Five Negroes

CHARLOTTE, Jan. 3.—Inquest into the death of the five negroes, who were killed in the collision of a work train with a string of freight cars on the Seaboard Air Line railroad at Hoskins, is set for today. Officials of the railroad company completed their investigations yesterday but gave out nothing of their findings. The report of the officials was forwarded to Hamlet.

Dan Cupid Has Busy Year In Cumberland

FAYETTEVILLE, Jan. 3.—Dan Cupid took the toll of 442 couples in Cumberland county during 1923, according to the records of the register of deeds made public here on January first. It was a close race between Caucasians and Ethiopians, the records indicated, 223 of the licenses going to white couples while the dusky race got the remaining 219.

Seine Rises 15 Inches In 24 Hours; Disaster to Paris

PARIS, Jan. 3.—The flood of the Seine has already reached such proportions as to mean great disaster to the city of Paris and destruction to certain of the suburbs. The river rose 15 inches in the 24 hours ending at noon today and is continually rising. This afternoon the rising tide was steadily gaining on the pumps which are being used in an effort to keep the flood from the subways and the public buildings along the river banks.

Shark Loses in Battle In Fiji Island Waters

SUVA, Fiji Islands, Jan. 2.—An attack on a launch by a giant shark is described by Arthur Robinson. He said he was en route from Lautoka to Yasawas, in Fiji waters, when his small launch struck heavily against something.

"I first thought we had hit a reef," he related, "but could not understand it, as we were in deep water. A minute afterwards came another bang and a great thudding under the stern. I looked over the side and saw a big shark with his head and mouth in ribbons. He must have gone for a feed off the propeller. It killed him. He simply rolled round and round like a corkscrew and went straight down till out of sight."

Explosion Kills Over 20 More Than 100 Injured Loss Exceeds \$100,000

PEORIA, Ill., Jan. 3.—Between twenty and thirty men trapped in the basement of the starch works of the Corn Products Company plant at Pekin, Ill., are believed to have been killed by an explosion which wrecked the building early this morning and more than 100 other workmen are injured, more than twenty of whom physicians say will probably die from burns.

Rescue workers have reported seeing many bodies in the basement but that they were unable to reach them until the flames could be controlled.

The cause of the blast has not been determined, but it is believed that it was caused by a dust explosion.

The plant employed 800 men about 250 of whom were at work at the time the explosion occurred.

Several box cars along side the plant were shattered to pieces and the force of the explosion wrecked nearby buildings causing damage in excess of \$100,000.

When the blast occurred relatives and friends

of the workmen rushed to the plant from their homes in Pekin, two miles away. SINGS TO DYING COMRADES

Trapped on the third floor of the burning building Frank Leichtweiss, of Peoria, sang to his fellow-workmen for nearly an hour to calm them. When the last retreat had been cut off he jumped from the flaming building. Leichtweiss has a voice of unusual quality and some of his comrades went to their death with the strains of his songs in their memories. He did not jump from the building until the last of the men who had a chance to leave the floor had departed. He was badly burned and is in a critical condition in a hospital here.

Fire companies from Peking responded to the call to aid, but the severe cold and the distance badly handicapped the fire-fighters in their rescue work. Water froze on the ruins and gave an icy mantle to the blackened walls of the starch plant and debris of the powder house.

Plights Troth with Pistol in Hand.

His pathological books called it "Atavism" and the police call it something else again, but it was the call of his ancestral blood that made "Prince" Mohammed Khan, Tuft's medical student, force Miss Jeanette Gilman, pretty Boston typist, to sign a marriage application while he menaced her with a pistol. The police are hunting for him.

New Unit National Guard Probably Be Organized Asheville

ASHEVILLE, Jan. 3.—Another unit of national guard probably will be organized in North Carolina according to advices received here from Adjutant General J. Van B. Metts. The city of Asheville has been invited by General Metts to organize a headquarters and service company for the Engineers Regiment. Asheville already is the location of cavalry and veterinary troops.

Durham County Breaks Marriage Record in December

DURHAM, Jan. 3.—Durham county established a new marriage license record during December, according to the report of M. G. Markham, registrar of deeds. One hundred and twenty licenses to wed were issued during the 311 day period. The previous record was made last December when 112 of the documents were issued while the monthly average is around 60. The record for the year, also a new high record, was 772 licenses.

Tennessee Town Is Famed for War Hero

NASHVILLE, Jan. 3.—Pall Mall postoffice in Fenwick county, the home of Alvin York, hero of the world war, has been named "Alvin York" by the post office department at Washington in honor of the soldier, said to be one of the greatest of the war.

Danish Prince to Wed Canadian Girl.

Prince Erik

Formal announcement has been made in Ottawa, Can., of the engagement of Miss Lois Frances Booth, granddaughter of J. R. Booth, multi-millionaire Canadian lumberman, to Prince Erik Fredrick Christian Alexander, third son of Prince and Princess Waldemar, of Denmark. The Prince, who is 30, is a new ew of the Dowry Queen Alexandra of England and a cousin of King George. He owns a large ranch at Calgary, where he spends much of his time. It is said, the Prince of Wales, during his recent trip to Canada, had much to do with making the match.

Charlotte Officers Search For Missing Woman Auto Driver

CHARLOTTE, Jan. 3.—Efforts are being made today to locate the woman who was driving the automobile, which on last Monday night ran down and injured Mrs. Charles May, of this city. The investigation today showed that the woman had given a fictitious address at the time of the accident.

WASHINGTON, Jan. 3.—The Comptroller of Currency today issued a call for the condition of all national banks at the close of business on Monday, December 31.

Morrison Offers Reward Capture of L. Gatling

RALEIGH, Jan. 3.—When Raleigh police reported at noon today that Lawrence Gatling, alleged slayer of his wife and Owen Stevens here on last Saturday night, had not been apprehended, Governor Cameron Morrison offered a reward for the capture of the party who committed the double killing. He named the amount of the reward as \$400 which is the largest that under the law the state can offer.

German Druggist Sent to Jail When He Scored Paper Mark

BERLIN.—Six months in jail and a fine of ten trillion marks was the sentence imposed on a Frankfurt druggist for refusal to take paper marks in exchange for petroleum. He told the court he had to pay for the oil in some sort of stable money and consequently did not know how he could replenish his stock if he sold for paper marks.

Under the laws of the republic paper marks are legal tender and the judge had the druggist hustled off to jail immediately, explaining that such treatment of the dealer would have good effect on other merchants and afford the public protection.

Mystery of Lost Pets Solved.

HAMBURG.—Residents of Hamburg and the adjoining city of Altona have found the skins of so many of their pet cats and dogs for sale in fur-shops that the police have begun a general prosecution of fur-dealers who buy skins from the general public. The charge made against them is receiving stolen goods.

CONGRESS CONVENES WITH EXPECTATION FIVE BUSY MONTHS

Session Featured by Addresses by Treadway, Upshaw, Guevara

WASHINGTON, Jan. 3.—With the two weeks holiday recess over Congress went back to work today to what according to indications will prove to be five busy months before adjournment for the National Conventions in the late spring. After the regular routine in the Senate the morning was taken up in balloting on chairman of committees. Despite the holiday conferences there appeared little prospect for a break in the deadlock which developed soon after Congress convened a month ago. The House program called for a day of oratory and three members had prepared speeches for the occasion. Representative Treadway, Republican of Massachusetts; Representative Upshaw, Democrat of Georgia, on Majesty of Law and Sobriety; and Petro Guevara, the new resident commissioner from the Philippines, on Philippine Independence.

Abuse May Lead Uprising. Continued abuses of the public on the part of those responsible for the high prices of anthracite, Representative Treadway, declared, will eventually lead to a public uprising that will demand government interference. "I am confident," he said, "that a way can be found out of this situation. I hope that it will be short of government ownership." The main sources of relief, however, must come from the federal government, he asserted. No other deductions are possible when all phases of the problem are considered.

Urges Philippine Independence.

Making his first speech in the house today Petro Guevara, the new resident commissioner from the Philippines, today advocated the independence of the Philippine Islands. "An independent Philippines," said Mr. Guevara, "will be stronger for the principles of Americanism than a subjected Philippines can ever possibly be." No matter how altruistic your designs," he said, "a dependent Philippines must behold Americanism less affectionately." "You have won the sincere friendship and admiration of China though you have done less for her than for the Philippines. I am certain you will realize that the people of the Philippine Islands are fighting a battle of American principles and our victory is an American victory and our defeat an American defeat. Our dream is to be useful to your nation and to show to the world our gratitude for your unselfish leadership during our association. Our fortunes and our lives will ever be at your disposal should destiny call you again to the field of battle in defense of the safety of the world, justice and liberty.

Commissioner Guevara said that the Philippines aspired to be placed on the same plane as all these who have enjoyed the benevolence and humanitarian influence of the American flag.

To Seek International Agreement on Rights

GENEVA.—Unscrupulous business methods and competition will be the subject of an international gathering called by the League of Nations to meet at Geneva May 5, 1924, when an effort will be made to draft an agreement for the respect of trade marks and patent rights.

The League of Nations has taken the initiative on the question by virtue of the league covenant whereby members mutually undertake to guarantee the maintenance of an equitable treatment of commerce.

Invitations have been sent to various governments to send experts to the meeting.

ly engrossed in dollar making, the political demagogue is in my opinion, literally taking the shirts off our backs," says Stephen S. Tut-hill in the January issue of The Nation's Business. "The only difference between the operations of these gentlemen and their Russian brothers is that in Russia the business man was denuded instantly, while here the job is being done thread by thread.

Until we business men are able to sell our economic ideas to our employes and our fellow-citizens, we shall not have done all that can be done and must be done if the fundamentals underlying American business are to be maintained and perpetuated.

The first lesson to be learned by us business men is that in our representative democracy the vote of our humblest employe is just as valuable as our own on election day.

The next lesson that we business men must learn is that, if our property is not eventually to be confiscated, we must individually take a direct and vital interest in the politics of our municipality, of our state and of our nation. We must understand that it is we personally and not our money alone that can and must do this thing.

The present-day oppressions of us business men are due solely to our failure to exercise our prerogatives as American citizens.

The ballot box is more and more affecting the balance sheet of American business, and the place for us to begin to curb and control legislation inimical to our national prosperity is at the primary and at the polls and not in our halls of legislation or in our courts.

When will we American business men awaken to the fact that the handicaps which are steadily being imposed upon us are simply the results of a political and industrial revolution already under way because of our failure to recognize that the governing of our country is just as much our business as is dollar making?

Even now, it is not too late for us to stem a tide that, if left unchecked, will more and more, handicap us economically and submerge those who are to come after us.

Yes, we business men will have it within our power to organize not only the big, but also the little business men of the nation; to gain the confidence not only of our employes, but also of the public at large; to formulate and circulate through the press a constructive rather than a destructive public opinion; to use our personal influence before and at the primaries and on election day in the selection of proper representatives and then to see to it that those representatives support only measures designed to maintain and perpetuate the traditions and institutions which the founders of this nation, and those who came after them, worked for, fought for, and even died for.

If we business men would only spend as much time and money in upholding the principles of our Government as is being spent by those who are insidiously trying to overthrow those principles, there would be little standing room left for the radical now so actively at work."

SAFETY DEPENDS ON RADIO
 The salvage tug Widgeon is preparing to skirt the Pacific coast, seeking new locations for additional naval radio stations, following orders to this effect received from Washington. The additional stations, authorized as a result of the Point Honda destroyer disaster, will enable ships to get positions by simultaneous cross bearings from two points without depending on a series of bearings from one station. Thus does radio constantly increase the safeguards for ocean shipping.

According to a headline, Congress has several investigations ahead of it. It is to be hoped that they will learn from their investigations that they are there to serve the American people as a whole and make an effort to do so.

STRODE-HUBBARD.

A wedding of interest throughout Virginia took place Monday evening at 6:30 o'clock at "Cloverfield," Bedford county, the home of Mr. and Mrs. S. H. Hubbard, when their daughter Louisa Dexter became the bride of Mr. Aubrey Ellis Strode of Amhest. The Rev. Joseph Ellis performed the ceremony.

Miss Phyllis Carey, cousin of the bride, played Mendelssohn's wedding march as the bridal party entered the living room, which was decorated with southern smilax and potted plants.

Miss June Hubbard as maid of honor descended the stairs first. She wore a dress of Nile green canton crepe and carried an arm bouquet of Columbia roses.

The flower girl, little Miss Edith Wilson, of Lynchburg, followed next, dressed in a dainty frock of orchid crepe de chene and carrying a basket of sweet heart roses. The bride wore a cream taffeta dress that had first been worn by the great aunt, Mrs. Richard Hubbard at her wedding in Charlestown, New Hampshire in 1852. The veil of exquisite old hand made lace was caught back with orange blossoms and pearls. She carried a colonial shower bouquet of brides roses and valley lilies. She entered with her father who gave her in marriage.

The groom entering the living room through a side door was attended by his best man Aubrey E. Strode, Jr. After the ceremony a buffet supper was served with Mrs. E. D. Shevingham, of Vancouver Island, presiding at the punch bowl.

Immediately after the reception Mr. and Mrs. Strode left for a trip to Florida after which they will make their home in Lynchburg.

Mrs. Strode made her home in Greenville for several months and had charge of the Pitt County Red Cross work. While here she won a host of friends who will be interested to learn of her marriage.

ROUND TABLE CLUB HOLDS FIRST MEETING OF YEAR WITH MRS. MUNFORD

The Round Table held its first meeting of the New Year with Mrs. C. T. Munford.

The meeting was called to order by the President, Mrs. Claude Grant. After a short business session, a most delightful program was rendered. The topic for the afternoon being: "The Great Prince Shan." The first number was a most splendid paper on the "League of Nations," by Mrs. Claude Grant. She handled her subject in an able manner, and gave us some of her personal impressions of the City Geneva, the Peace Capital.

We were then introduced to some of the notable women of the world, who have played an important part in world politics in a paper on "Women's Possibilities in Politics" by Mrs. R. L. Smith, which in Mrs. Smith's absence, was delightfully read by Mrs. S. J. Everett.

We enjoyed with Mrs. J. W. Higgs a resume of the Book "The Great Prince Shan," giving us an account of some international marriages. A charming violin solo was rendered by Miss Wedmore, accompanied by Miss Edwards. Our hostess served a bounteous and delicious luncheon, thus bringing to a close one of our best meetings.

"The Isle of Lost Ships" Is Outstanding Success, Coming Strand Theatre

"The Isle of Lost Ships," next week's feature at the Strand theater, is one of the outstanding success in the history of motion pictures. It is a First National attraction, produced by M. C. Levee and personally directed by Maurice Tourneur. The reasons for its popularity with the lovers of motion pictures are many. Tourneur was given a splendid theme for a big, spectacular picture by the famous novel Crittenden Marriot wrote, and the locale of the tale had never before been used in a photoplay. The weird story also gave the director many opportunities for achieving remarkable scenic effects.

The cast is one of unusual strength, including as it does Milton Sills, Frank Campeau, Walter Long and Anna Q. Nilsson.

ATTENTION SCOUTS!

A Feeling of Security

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder medicine.

The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetables herbs.

It is not a stimulant and is taken in teaspoonful doses.

It is not recommended for everything.

It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root.

If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

Cancelled Telephones Reveal Victims of the German Depression

BERLIN, Jan.—Statistics of the surrender of telephones in Berlin give some idea of the type of persons who have been hardest hit by the financial crash.

Writing people, editors, poets, dramatists and others engaged in literary and journalistic work make up 3.86 per cent of the surrenders, and head the list. Doctors and midwives had 1.5 per cent of the telephones which were given up. Newspapers had 1.31 per cent of the instruments. Banks and big commercial houses held only 39 per cent of the cancelled phones.

BERLIN, Jan. 1.—Ninety-one criminals were arrested by the police in a recent early morning raid on a night refuge for homeless persons in this city. Many men with falsified papers, and wrongdoers wanted in every part of the republic were found and apprehended.

This refuge attracts many criminals, and to raid it occasionally is a most effective means of locating law-breakers who have exhausted their funds. Consequently the police encourage its maintenance.

NOTICE OF SALE.

DANGER AMERICAN AGRICULTURE SEEN IMMIGRATION POLICY

CHICAGO.—Restricted immigration is causing the development of new agricultural regions, which in a few years will compete sharply with American agriculture.

Expressing this opinion at the recent convention of the American Farm Bureau Federation, Mr. Howard said: "Development of new agricultural regions to feed the world is resulting from our policy of restricted immigration."

"These settlements mean the establishment of industrial trade routes, and these routes, unless the ship are under our flag, cannot be expected to be other than favorable to the new settlements and will have a most vital influence upon the American agriculture of the next decade."

"If America is to stay in the world market and produce a surplus of agricultural products, ships are as much a part of the farm equipment as plows or wagons. Too few farmers realize this."

Drug Makers Oppose Swiss Stand on Opium

GENEVA, Jan. 2.—A campaign is under way in the German speaking cantons of Switzerland to influence the Swiss government not to subscribe to the Hague opium convention, as is earnestly desired by the United States and other countries who are taking the lead in the world war against opium.

There is much manufacturing of narcotic drugs in Switzerland, and the government never has adhered to the Hague convention, chiefly for the reason that the cessation of drug manufacture would prove a serious economic loss to the Swiss people.

GERMAN KILLS SELF RATHER SHARE HOME AS LAW

TREPTOW, Germany, Jan. 2.—Paul Nickel, formerly chief of the local board of Treptow, killed himself rather than surrender two rooms of his dwelling at a family with many children, in accordance with an order of the housing committee.

Nickel, who was 70 years old, had resisted the commandeering of his rooms, but when it became evident that he would lose the case and be forced to share his home with strangers, he shot himself.

Rum Row Turns To Other Lines of Illegal Traffic, Says Report

ATLANTIC HIGHLANDS, N. J.—State authorities claiming to have reduced to a thin trickle the flow of holiday liquor which has been pouring ashore from Rum Row, have set about checking the smuggling of diamonds, narcotics and aliens, in which the rum fleet and bottle fishermen are reported by residents to be actively engaged.

Colonel R. Norman Schwartzkopf, head of the New Jersey state police, and Major Kimberling of the Trenton headquarters, declared that these complaints have become so numerous that they have planned to station state troopers here permanently.

Several Chinese are known to have been smuggled in at Perth Amboy recently. The authorities asserted also that many shore rum-runners were transporting narcotics to New York, Philadelphia, Jersey City, Trenton Newark and other centers.

"We know diamonds are being smuggled into Highlands, Waterwitch and Atlantic Highlands," said Sergeant Tighe, assigned to this phase of the troopers' activities. "They are too cheap there. Persons suspected of being in the rum business are offering diamonds at ridiculous prices, and one of the biggest men in the trade is reported to have boasted—even to the police—that he can get diamonds duty free."

FOREIGN CLOVER SEED DECLARED VALUELESS NOW

URBANA, Ill.—Warning that foreign clover seed that is pouring into this country in unusually large quantities, is worthless and that the American farmer will be made to suffer enormous and unnecessary losses, and the clover crop of the nation be greatly injured if steps are not taken to protect him, is contained in a letter written to Henry C. Wallace, Secretary of Agriculture, by J. C. Hackleman of the University of Illinois, secretary of the International Crop Improvement association.

According to Mr. Hackleman, the red clover seed crop in the United States does not exceed 45 percent of normal this year and for this reason there is a threatened importation of 30,000,000 pounds of red clover seed, enough to plant 3,000,000 acres, from France, Italy, Argentina and Africa. This seed, Mr. Hackleman said, has been tested in all portions of the United States.

Comparative tests of clover seed from various sources, native and foreign, conducted by experiment stations in the majority of clover growing states, his letter says, "show conclusively the worthlessness of imported European seed, particularly that of Italian and French origin, which represents the bulk of the importations."

The letter is the result of the fourth annual meeting of the International Crop Improvement association, at which the situation was discussed and a resolution adopted placing the association on record against such importation. Mr. Hackleman's letter was approved and signed by the "clover seed situation" committee of the association which consists of H. D. Hughes, Iowa State College, S. C. Salmon, Kansas Agricultural College and J. F. Cox of the Michigan Agricultural College.

German Deer Attack Auto

FALKENBERG, Silesia, Jan.—Frau Martha Ahrens was seriously injured when her automobile surprised four stags in a forest near this city. The animals became so excited that they ran into the car. One of the deer jumped into the seat where Frau Ahrens was sitting and its hoof cut her face seriously and injured one of her eyes.

"Stellar Steppers" Liked in Spite Of Themselves Now

PALO ALTO, Cal., Jan.—Only 60 co-eds at Leland Stanford University are "stellar steppers," while the remaining 440 have to be content with but scatterin gattention from the 2,200 men in the institution, according to the Daily Palo Alto, a student publication.

A "stellar stepper" is, in college parlance, a very popular girl. A recent letter to the paper signed "Patty Gray" offered an explanation of the position of the 440, and expressed to the men students curiosity as to the cause of the situation.

"I wanted to know why Stanford men rushed 60 out of 500 women," said the communication. "You said that if I signed a promise never to break dates or substitute other girls or neglect my old friends, why, you'd give me a rush like some of the 'stellar steppers' receive."

"It's too funny. All of these 'stellar steppers' break dates at the eleventh hour and fifty-ninth second. It is they alone who can afford to substitute one from the 440 when a more delectable date is preferred. And only the star performers forget old friends. And it's queer as it's true that these same snubbed friends grow more persistent. They want what one can't have, you know. The qualifications you hold up as desirable are the very ones the non-steppers possess. You men like to be abused."

Pay Own Expenses To Play Hockey

PHILADELPHIA—Fifteen American girls will sail from New York January 12 to seek field hockey honors in England. They are members of the All-United States team selected at the recent intercity tournament in this city to represent America at the international competition in London in March. Prior to the international tournament they will tour England, Scotland, Ireland and Wales, playing a series of matches with the leading elevens.

These young women have booked passage on the steamship Majestic. Because of the scarcity of

funds in the treasury of the National Girls' Field Hockey Association, each member of the team will pay her own expenses to and from England. While abroad they will be entertained by the British teams. They plan to return to America shortly after the close of the international tournament March 8.

The schedule of matches follows: January 26, All-England Touring team at London; 30th, West at Cheltenham; February 2, Midlands at Nottingham; 6th, North at Southampton; 9th, match at Glasgow; 10th, match at Dundee; 16th, Ulster at Belfast; 20th, match at Cork; 23rd, South Wales at Cardiff; 29th, Cambridge University at Cambridge; March 3, Oxford University at Oxford; 6th, 7th and 8th, International tournament at London.

Berlin Journalists' Children Nourished By Other Nations

BERLIN.—One hundred boys and girls, all children of Berlin journalists, left here recently for Denmark where they were taken into various families and given milk and eggs and other nourishing food.

The children were selected by physicians who reported that they had not been properly fed for many months, chiefly on account of the low wages received by their fathers who were unable to purchase wholesome food on their allowances.

Holland, Latvia and Sweden have also been taking Berlin children for feeding treats for months.

Interest In Boxing Sweeps Over Brazil

RIO DE JANEIRO, Jan.—The Brazilian has taken up boxing. Not only has he enjoyed all the great fights of recent times by motion picture and cable report, but now he is learning the game himself. He has donned the four ounce gloves with an enthusiasm never displayed toward any other new sport, and it is all because Luiz Angelo-Firpo almost—an impressive "almost"—took the world championship from Jack Dempsey.

Every section of this city has its athletic club, which is actively promoting the game among its constantly growing membership. Every city, town and village is producing its own "champions." Boxing has become the "back lots game" of Brazil. Inter-city and inter-state tournaments are being carried on with increasing frequency, accompanied by eager public interest.

The youthful imitation of the glazied hair movie hero no longer occupies the center of the stage. It is he with the prominent chest and bulgingiceps who attracts the soft glance of the senhorita on the avenida. It is the day of the "rough neck." Let it not be understood, however, that the local ring hero assumes "tough" pose. He favors Carpentier in that respect. He believes that elegance is not out of keeping with strength and agility, which, of course, is not disapproved by the senhorita.

A curious feature of the growing popularity of boxing in Brazil is that while the Brazilian boxers follow the American school in the science and practice of the game, the French are furnishing the language. This is due to the fact that the sporting vocabulary of the American "fans" is a language apart. It cannot be translated, while French is easily understood by the Brazilians. The French sport magazines, therefore, furnish the boxing vocabulary in this country.

BOYS IN WALL STREET DEMONSTRATE U. S. IN LAND OPPORTUNITY

NEW YORK — That the United States remains a land of opportunity is evinced by the fact that during the last five years 30 former page boys and telephone clerks have purchased seats on the New York Stock Exchange at \$80,000 or more each. Benjamin Jacobson, former page boy who paid \$80,000 for a seat, is the most recent example.

Among the members who worked from a humble position to a seat in the exchange is Celestin A. Durand whose phenomenal rise from an obscure clerk to his present position occurred in a period of eight years. He has the record of being a trade genius and has purchased seats in the exchange for two assistants.

Another striking example is Arthur G. Somers, now a member of Charles M. Schott, Jr., & Co., of which he became a senior partner January 1. He began his business career as runner for a Wall Street brokerage house. For twelve years he worked as clerk and six years ago bought exchange membership with \$96,000 borrowed money. He now has 100 clerks in his employ.

"There are now more than 1,000 stocks listed on exchange instead of about 250 as there were years ago. These are increasing steadily," said Somers. "Now something like 1,000,000 shares change hands daily. I predict that before 1924 has run we will see 3,000,000 shares a day."

"This means that experienced men will be in greater demand. It means that men who have served their apprenticeship as page and clerk must buy seats."

Mr. Somers declared the first requisite for the young man who would succeed in Wall Street, is honesty.

Reducing the cost of farm improvement—

land-clearing, ditching and tree-planting

THE use of explosives on the farm is increasing rapidly because dynamite does lots of heavy work cheaper and better than anything else. Many farmers around here have found this out.

DUMORITE, the new du Pont explosive, for land-clearing and tree-planting, gives uniformly effective results at very low cost.

RED CROSS EXTRA is an old standby—used by farmers everywhere for all-round use, except for ditching in wet soil.

DU PONT STRAIGHT DYNAMITE, 50% to 60% strength, is the explosive to use for ditching work.

Du Pont Dynamites are low in cost and do the work better and quicker. We keep complete stocks on hand. Let us figure on your requirements.
