STATE'S COUNSEL FREIGHT RATE CASE BEEN EMPLOYED

Morrison Take Active Part in Preparation of The Case

RALEIGH, Jan. 4.—Governor Cameron Morrison yesterday announced the employment of the firm of Bynum, Alderman and Hobgood of Greensboro, and Percy W. Mc Mullan, of Elizabeth City, as attorneys for the State in the freight rate fight precipitated by the effort of the Virginia Corporation Commission to have the North Carolina intra state rates increased.

Judge Bynum, senior member of the Greensboro firm, was one of the attorneys employed by the Governor in the suits recently won by the State involving railroad taxes. His work in that case brought the highest commendation from Governor Morrison. In Mr. McMullan, Governor Morrison believes the State has found a fine working partner for the Greensboro attorney.

When he announced at the recent meeting of the shippers of Eastern North Carolina at Goldsboro that the State would undertake profits own initiative to fight the battle of the shippers, Governor Morrison made it clear that he himself would take an active part at the council table in the preparation of the case.

Before he came to the governorship, and during the administration of Governor Locke Craig, Governor Morrison as an attorney, represented the State successfully in three cases involving freight rates before the Interstate Commerce Commission.

Although the terms of the employment of the attorneys announced yesterday were not made public, Governor Morrison stated that he had a satisfactory understanding in the matter. Their employment, strictly speaking, is for the one case involving intra-State rates brought by the Virginia Corporation Commission.

But Governor Morrison will ask these attorneys, with the Attorney General and the Corporation Commission, to consider with him the whole freight rate situation, including other cases now pending, as it affects North Carolina. Apparently, the fight that will probably feature the closing months of the Morrison administration will involve freight rates all along the line.

Governor Morrison announced yesterday that traffic associations, shippers' organizations, Chambers of Commerce and other like organizations employing freight rate experts would be asked to tender the services of their experts to the State for the purpose of working up evidence in the case.

Japanese Freighter, American Steamer Drifting in Storm

JAPANESE FREIGHTER SEATTLE, WASH., Jan. 4.—A message reporting the sending vessel to be sinking but giving no clue as to the identity of the vessel was picked up by the Seattle harbor radio station today. The message is believed to have come from either the Japanese or American freighter reported to be in distress earlier in the day.

SAN FRANCISCO, Jan. 4.—Each with broken steering equipment the Japanese freighter, Kyosei, and the American steamer Harold Jolla are drifting in a storm raging in the mid-Pacific, according to a radiogram to the Federal Telegraph Company early today from the President Cleveland. Neither of the vessels is carrying passengers. The Empress of Russia is reported to be rushing to the aid of the Japanese freighter.

Curates Scarce in England. LOUGHBOROUGH.—Canon Briggs of this town is much concerned at the lack of curates, which he thinks will make the filling of high offices in the church 20 years hence very difficult. The canon says he has advertised for a curate in the most likely church papers for several weeks in succession, and has not yet received a single inquiry.

MOVIE ACTRESSES QUIZZED IN OIL MAN'S SHOOTING

Mabel Normand & Edna Purviance.

Mabel Normand, screen star, central figure in the unsolved murder of William Desmond Taylor, screen director, with whom she was last seen in his Los Angeles home, and Edna Purviance, equally noted screen actress, were grilled by the Los Angeles police after C. S. Dines, Denver oil millionaire, was shot down in his own apartment by R. C. Greer, Miss Normand's chauffeur. Greer used Miss Normand's revolver. He told the police Dines and the two actresses were celebrating New Year's and that the oil operator was "keeping Miss Normand intoxicated." Both the women were said to be highly exhilarated when the police arrived.

Mexican Oil Fields Now In Hands of Rebels

GALVESTON, Texas, Jan. 4.—All of the Mexican oil fields are in the hands of the rebels, according to an official dispatch received here today by Adolfo Jimenez from the De La Huerta headquarters at Vera Cruz.

The X-Ray Tube Promises to be Boon To Cancer Victims

NEW YORK, Jan. 4.—The X-ray tube for the treatment of cancer invented by Dr. C. T. Ulrey, will be a boon to cancer victims not only because of its effectiveness but it will also cut down the expense of treatment. This conclusion was reached today by experts after the tube had been used successfully for the past three months.

The Pitt County Alumnae of E. C. T. C. To Meet Saturday

The January meeting of the Pitt County Alumnae Association of the Eastern Carolina Teachers College will be held at the Teachers Dormitory Saturday afternoon, January 4, at 4 o'clock.

The Alumnae are planning great things for this year and the co-operation of every member is necessary in order to accomplish those things which make for the success of the association.

Every member is urged to attend the Saturday meeting as matters of importance are to be discussed.

The North Carolina Traffic Association Dissolved Yesterday

RALEIGH, Jan. 4.—Formal dissolution of the North Carolina Traffic Association took place here yesterday when the North Carolina Shippers Association was organized to take its place. After deciding that the traffic association was not receiving the necessary amount of support to continue and was therefore not functioning properly, the members decided to form the new corporation to represent shippers of the entire state. Headquarters for the new corporation were established in Raleigh.

At the meeting the following officers were elected: President D. U. Sandlin, Fayetteville; first vice president, W. S. Creighton, Charlotte; second vice president, T. G. Horner, Henderson; treasurer, Howard White, Raleigh; R. A. Pool was named temporary secretary of the new organization.

ASHEVILLE YOUTH IS KILLED BY AUTOMOBILE

ASHEVILLE, Jan. 4.—Jack Tomlin, 5 year old son of A. L. Tomlin, was killed yesterday afternoon when struck by an automobile said to have been driven by O. M. Brantham. The latter was released by the police under \$2,000 bond, charged with manslaughter.

KANSAS MAY BAR MABEL'S PICTURES

Dines Resting Comfortably in Los Angeles Hospital Today

TOPEKA, Kan., Jan. 4.—The Kansas Motion Picture Census Board has been requested by Attorney-General C. B. Griffith to bar all films in which Mabel Normand appears from the state.

LOS ANGELES, Jan. 4.—Courtland S. Dines, of Denver, who was shot on New Year's evening by Mabel Normand's chauffeur when the latter interrupted a visit of the movie star and Edna Purviance, another movie actress, at the Dines bungalow, is "resting very comfortably" at a hospital here where Miss Normand is also a patient, having undergone an operation for appendicitis yesterday.

How, why and when a 25 caliber pistol belonging to Miss Normand and used in the shooting, found its way into the hands of Horace Greer, the chauffeur, continues to occupy the attention of detectives.

Eight Fayetteville Officers Suspended For Neglect of Duty

FAYETTEVILLE, Jan. 4.—Assistant Chief of Police Kelly and seven other officers are today under suspension from duty voted last Friday night by the Fayetteville Police Commission as a result of the New Year's celebration here. All the officers were charged with failure to arrest law violators.

NEARLY FOUR MILLIONS CONTRIBUTED BY N. C.

NASHVILLE, TENN., Jan. 4.—Cash collections on the Baptist \$75,000,000 campaign to date aggregate \$48,032,806.72. Dr. L. R. Scarborough, chairman of the campaign commission reported today at the mid-winter meeting of that body. The cash was contributed by the various states of the Southern Baptist convention includes North Carolina, \$3,949,732.45; South Carolina, \$4,002,527.60; Tennessee \$377,153.25; Virginia \$5,184,003.76.

CUTS OFF NOSE AND HAS IT SEWED BACK

JOHNSON CITY, TENN., Jan. 4.—C. C. Cartwright, a plasterer working on a new building here, yesterday afternoon, cut off his own nose with a trowel which he accidentally passed too close to his face while transferring mortar to scaffolding above. The severed member hanging by only a small fragment of skin, was sewed back in place at once and the surgeon said it would heal and become normal.

PRESIDENT WRIGHT DELIVERS NEW YEAR MESSAGE COLLEGE

Appealed to Students to Lay Out Life's Plan And Live Up to It

East Carolina Teachers College opened Thursday morning for the spring term. Work began promptly at 8:30 with full classes, and proceeded as if there had been no holiday interruption.

President Wright delivered a New Year message at the assembly hour. He began by saying they had broken more New Year's resolutions than he ever had because he never made any. He believes that New Year's resolution should be made all the year round, when the need for them arises, then they will be kept. But New Year is a time to take stock of oneself to see what one has and is. Fear is one of the worst poisons that can get possession of a person, but every fear has its antidote. The left hind foot of a rabbit will kill one's fear so he can pass a graveyard at midnight.

He commented on the miserable weather, but asked if they didn't think it was better than none. Nothing in life is so bad one cannot go through it, enjoy life and give the glad handshake "no matter how hard a proposition, it is testing the mettle in you." Don't waste time regretting the past yesterday is gone forever, tomorrow is not in your grasp, and only the now is yours, but you can shape your life today so that tomorrow will bring its rewards. Lay out your life plan and go to it.

He read a passage of scripture that showed faith. He told the students there was some one who had faith in them. He urged them to make the most of their opportunities so as to prove the faith was well founded. New Year is a time to review the past to see the mistakes so as to avoid them in the future. On New Year's day, we should do as a merchant does—shut the door, take stock, clear out the junk, get the goods in order, then open the doors to customers giving them the glad hand.

Light Earth Shocks Terrify Population of Ancona, Italy

ANCONA, Italy, Jan. 4.—Light earth shocks continued to terrify the population of this district today. One report said that a small crater was sending forth lava on the slope of Mount Sassa.

Five White Convicts Escape Prison Camp

HIGH POINT, Jan. 4.—Five white men, sentenced in Wilkes county courts, several of whom were serving long terms, escaped last night from guards in Davidson county. The prison camp is located at Silver Hill several miles from Lexington. The men drilled their way to freedom through the steel cage in which they slept. The name of the escaped convicts were not available here early today. Three of the men were shackled.

Officers are pursuing the escaped men with hounds.

Details of Government Selling War Material Is Difficult Problem

WASHINGTON, Jan. 4.—Although nothing has developed to affect the American government's decision to sell war materials to the Oregon Mexican government in so far as the general policies are concerned, it is known that certain details of the transaction are presenting a difficult problem.

Consideration of the method of payment for the arms by Mexico has apparently raised the question as to whether credit agreement might be constructed as a loan to Mexico in which event the president would need congressional authority before approving the agreement. Secretary Weeks, who has charge of all details of the sale has made no comment on the negotiations.

PRINCE GEORGE MAY WED CURZON'S DAUGHTER.

Lady Alexandra Curzon's Prince George.

It is reported in London that the engagement will soon be announced of Prince George, youngest son of the British rulers, to Lady Alexandra Curzon, daughter of Marquis Curzon, Foreign Secretary of England. Lady Alexandra's mother, who is dead, was Miss Mary Letter, of Washington, D. C.

EXPLOSION DEATH TOLL REACHES 40

Women Wait in Zero Weather for Bodies of Loved Ones

PEKIN, Ill., Jan. 4.—More than a score of bodies are still buried in the ruins of part of the plant of the Corn Products Company here, which was wrecked by an explosion early yesterday morning causing the death of upward of 40 persons and serious injury of 28 more. Rescuers working among the ice covered debris of the wrecked building are in constant danger from the tottering walls. Owing to the handicaps it is thought that it may take several days to recover all the bodies.

One building of the \$20,000,000 plant collapsed and two adjoining buildings were partially wrecked and swept by fire which was still being fought at an early hour today. Throughout the night as searchers dug into the wreckage, knots of watchful women waited in zero weather outside the steel fence that surrounds the plant.

THAW'S FAMILY WILL OPPOSE ATTEMPT TO OBTAIN HIS FREEDOM

PHILADELPHIA, Jan. 4.—Bartholomew E. Coyne, New York lawyer, who has announced that he would seek Harry K. Thaw's freedom from the Pennsylvania Hospital for Mental and Nervous Diseases, was refused admission to the hospital late yesterday without credentials.

Asked what his next step would be, he said there were several things he wanted to do before he would make a statement. It was admitted at the hospital that orders had been given to the guards to admit no one to see Thaw without an order from Mrs. Mary Copley Thaw, the patients mother.

GOVERNOR REQUESTS NEW BALANCE SHEET

RALEIGH, Jan. 4.—A balance sheet showing the financial condition of the State as of December 31, 1923, will be made public on January 15, according to the announcement of Governor Morrison yesterday.

Governor Morrison has requested the State Auditor and the State Treasurer to prepare a statement and has been assured that it will be ready on the 15th of the month. This according to the Governor will show a much smaller total of borrowed money and overdrafts than the balance sheet of last year. To it will be credited, from time to time, during the year, Governor Morrison stated, the revenue due on December 31 and collected later.

Board of Trustees To Take Action On Removal McBrayer

RALEIGH, Jan. 4.—Action on Governor Morrison's letter, requesting the board of trustees of State Sanatorium to remove Dr. L. B. McBrayer, will be taken at a meeting of the board which is to be held at Sanatorium, N. C., on January 9, according to a statement last night by Hugh L. Spence, of Carthage, member of the board.

Following Dr. McBrayer's plea of guilty in superior court to the charge of trading with himself, Governor Morrison addressed the chairman of the board of trustees expressing the hope that McBrayer would be removed at once as he felt that the physician was no longer qualified to hold the office. Attorney General Manning advised the board that the sentence of Judge Sinclair was automatically stayed pending the outcome of the appeal which Dr. McBrayer took to the Supreme Court.

U. S. Scout Fleet Leaves to Engage In Winter Manouvers

NEWPORT NEWS, VA., Jan. 4.—The U. S. Scout fleet under command of Vice-Admiral Newton A. McCully, aboard the flagship Wyoming, sailed from Hampton Roads today to engage in winter manouvers in Panama and West Indian waters. There were 40 or more vessels in the great armada including four battleships, two squadrons of destroyers, the anti-air carrier Langley, two transports and training ships of the scout fleet.

Ohio River Is On Rampage Again

PITTSBURGH, PA., Jan. 4.—Flood waters of the Alleghany and Mononghela rivers pouring into the Ohio river reached their crest this morning at a stage of 37.3 feet according to a report of the weather bureau. It is expected that the Ohio will remain stationary until noon when the stream will begin to fall. Reports from a number of towns along the Ohio told that the river was creeping into the streets forcing the dwellers to move into the second story of their homes. At Wheeling a stage of 30 feet had been reached today and a maximum of 40 is expected by Saturday.

The timely arrival of the cold snap last night prevented what the weather bureau had forecasted as the most disastrous flood in the upper Ohio valley for years. With a temperature of 15 degrees in Pittsburgh and still lower at points along the river the flow of water was checked from the smaller streams into the Ohio leaving nothing but that already in the river to run out. This is the first disastrous flood in this section since 1913. So far, according to police reports, no loss of life has been reported.

KITCHEN MEMORIAL SERVICE IN HOUSE NEXT WEDNESDAY

Ways and Means Committee Continue Study Tax Reduction Bill

WASHINGTON, Jan. 4.—Republican leaders of the House decided today to devote next Wednesday's session as a memorial session to the late Claude Kitchin, of North Carolina, for several years the minority floor leader on the floor of the House. On that day Republicans and Democrats alike will eulogize the late statesman.

WASHINGTON, Jan. 4.—With Congress recessed until Monday the Senate and House committee members today set about preparing those measures which will occupy the two chambers from now until adjournment.

The House Ways and Means committee continued to study administrative figures and the Mellon tax reduction bill and the Rules committee discussed the amendments of the rules as advocated by the insurgent republican group.

The Senate Foreign Relations committee took up the resolution of Senator Borah, Republican of Idaho, calling for the recognition of the Russian Soviet government.

The resolution adopted yesterday providing for a investigation into the election of Senator Mayfield, of Texas, will also receive early consideration.

The House Ways and Means committee decided yesterday to postpone certain provisions of the tax reduction bill involving changes in policy until a decision is reached regarding a soldiers bonus bill.

Progress of State Lauded By Editors At Press Meeting

PINEHURST, Jan. 4.—Called to become not merely press agents, but real leaders in the greater North Carolina that is to be, Tar Heel editors attending the mid-winter meeting of the State Press Association yesterday were given much to think about in a series of excellent addresses and were showered with entertainment and hospitality that made them feel that after all this winter resort is a part of Tar Heeldom instead of one of the provinces dedicated to Yankeeedom.

It was a busy day for the editors that wound up last night with a stirring recital of the things the Old State is doing for education by Dr. E. C. Brooks, president of State College, who followed a Yankee editor who was glad to proclaim the glory that is North Carolina's.

Wallace Odell, who edits a paper at Tarrytown, N. Y., and is president of the National Editorial Association, surprised the Tar Heels with a strong appeal for prohibition enforcement and decrying the methods of wet New York newspapers, who contend that the Eighteenth Amendment was forced upon the country by a minority of voters.

Joseph Daniels stirred the seventy-five editors in attendance with an appeal to begin thinking about ways and means of removing the danger of rich men or those who have the backing of rich men who get a monopoly of holding office in the state. The heavy expense of running for office almost makes it impossible for a poor man to run for office, he asserted, and if this condition of affairs should come about, it would result in putting public offices on the block to be sold to the highest bidder.

He urged the consideration of the Oregon plan of printing a candidate's platform and a brief biography at the expense of the State and sending a copy to every voter. He thought the office should seek the man rather than the man the office, but under the present expensive system, he declared that this is rapidly becoming impossible. It is time for the editors to give serious consideration to this matter, he said.

Miss Willie Skinner returned to Raleigh yesterday afternoon after spending the holidays with her parents, Mr. and Mrs. W. I. Skinner.

FARMS AND PRESIDENTS

I do not know how many men who afterward became presidents were born on farms. I am proud of this knowledge. So many people, who don't know anything worthwhile, know all these things. The pinhead that contains the Lord's Prayer is a huge blank expanse compared other smaller pinheads that contain a lot of unrelated facts whose significance they do not know.

I believe McKinley, Harding, Coolidge, Lincoln and a few other were born on farms. But that didn't get them the presidency. There are some men who would have got to be president even if they had been born in good society.

Being the sort of chaps who plug ahead and work at something all the time is what puts men in a position from which the pickers of presidents can see them with the naked eye. No loafer was ever elected to the presidency. Nobody ever searches the ranks of the drug store cowboys and cakeaters to find a president.

No child is born with the presidential label on him. That is something he pastes on himself, often not knowing when he does it. He gets so busy being the biggest human he can that he forgets all about being labeled anything. If he can acquire a lot of useful knowledge and apply it to the improvement of the universe, he is happy. And it is usually the fellow who is doing all he can and half crying because it isn't more, who finds the presidential lightning running down his lightning rod.

Just think how many boys born on farms never become President! There have been boys born in log cabins who never even had a long-distance smell of the presidency. A boy can be just as rotten a nuisance and as generally worthless on a farm as he can anywhere else. He can be selfish and discourteous and lazy there as easily as he can in town. The road to hell is as short from one place as the other.

The quality of the boy is what counts—not his surroundings. No situation in the world is immune from the bacillus of folly and worthlessness. It isn't in the air—it's in the heir.

That's what I know about farms and presidents.

I thank you.—Strickland Gillian in Farm Life.

The man who ordered a steak in a restaurant a few days ago is still wondering why the leather dealers don't get out infringement papers against the proprietor.

THE KIND WE WANT

A great deal of caustic comment is printed regarding the proposed restrictions of immigration, restriction of aliens and the attempt to secure quality rather than quantity of incomers from the old world. Their arguments, boiled down, usually read "America should hold out a welcome to all; the country is big enough for all; we are all sons and daughters of immigrants; immigrants made this country; we need immigrants for labor; to restrict or register is Czaristic, not American."

It is true we all are "sons and daughters" of immigrants; it is true that the immigrants we have had have done much to develop this country. But as times change, so must methods. When we needed pioneers, farmers, laborers, tillers of the soil, we received the best Europe had to offer. Not often does such an opportunity come; a new country, a new freedom, land for the asking. Of course the yeomanry of Europe seized the chance and the land; came, went west, grew up with the country, helped make America, America.

But today good land cannot be had for the asking. The pioneer days are over. American civilization has grown complicated. It takes more than willing hands and a stout heart to succeed here now. There must be a measure of education as well. Meanwhile, Europe is an impossible place for the diseased, the ignorant, the uneducated, the vicious, to live. The best equipped have none too easy a time; the worst equipped want to get out—out anywhere—but especially "out to America."

We still need, want, and welcome, good men and women, who can and do become good Americans. But the time has passed when we can get them only by opening wide the door. The door must be shut, to keep out those who hurt, not help, the nation, and only put a little ajar for that thinning stream of the best kind of men and women, who are able to take advantage of the modern opportunities of modern America, as their forebears were able to take advantage of the opportunities of American pioneer days.

It has well been said that a lot of people who keep up with the fashions have a hard time keeping up with their debts.

A lot of the time that members of Congress spend talking could be devoted better to trying to do things for which the voters sent them to Washington.

The real road hog is the one who thinks that the locomotive should turn out to let him pass.

Mr. Coolidge struck a popular chord when he said that taxes should be reduced but we hope that Congress will remember when it starts to work on the tax reduction problem that what the country needs most is a program that will ease the burden of the masses and hurt the government revenue less rather than one that will help a few and cut a big slice off the revenue.

When voters in this state go to the polls in the next primary it is to be hoped that they will remember the number of accidents on our highways due to the fact that all vehicles are not required to carry lights at night.

Remember, if you hunt trouble you never have to borrow any.

Even if it was his first speech in Congress, Petro Guevara was not bashful about letting this country know what he wanted.

Japan Orders Cut In Lavish Entertainment

TOKIO, Japan, Jan.—There will be less entertaining by Japanese diplomats at home and abroad in the future.

The finance department has insisted on a reduction of the expenditure of the foreign office as well as other departments of the government and to do this the foreign minister has ordered that dinners and banquets in Tokio and in foreign capitals be aban-

doned and that a reduction be made in grants to officials on their retirement, traveling expenses, secret service, in international conference expenses, commercial attaches, investigations and the enforcement of The Hague and Versailles peace conference treaties.

This will save, it is estimated, over a million yen yearly.

Mrs. Earle Carter Entertains.
On Wednesday afternoon at the home of her mother, Mrs. R. J. Cobb, Mrs. Earle Carter delightfully entertained the members of her bridge club and a number of guests.

Eight tables for the games, were arranged in the drawing room, reception hall and library and several interesting progressions were enjoyed.

The home was beautifully decorated in keeping with the holiday season. Mrs. W. H. Dail, Jr., making the top score was presented an iridescent candy jar while the table prizes, baskets of fruit representing tape lines, were won by Mrs. N. O. Warren, Mrs. W. T. Lipscomb, Mrs. L. G. Cooper, Mrs. W. A. Darden, Mrs. J. B. James, Mrs. A. M. Moseley, Mrs. W. T. Bryant and Mrs. E. B. Ficklen. Mrs. Dail Laughinghouse, a recent bride and Miss Lucille Stroud, of Monroe, La., house guest of Mrs. C. O. H. Laughinghouse were remembered with attractive hand painted powder pads.

After the games Mrs. Carter assisted by Mrs. Cobb served a tempting salad course.

AN INVITATION
The following invitation has been received by friends in this city:
Mr. and Mrs. Francis William Hill request the pleasure of your company at the wedding reception of their daughter,
Henrietta Clagett
and
Captain Louis Chesterfield Arthur, Junior.
Field Artillery, United States Army on Saturday afternoon, January the nineteenth
at half after four o'clock
Twenty hundred and twenty-nine Hillier Place,
Washington, District of Columbia.

KITCHEN SHOWER.
STOKES, Jan. 4.—On Monday evening, December 31, from 7:30 to 11 o'clock, Mesdames W. G. Stokes and J. B. Congleton gave a kitchen shower at their beautiful home on Second street, in honor of Mr. and Mrs. John I. Gray, who were married on Christmas day. The guests were received at the door by Mesdames W. F. Stokes and J. B. Congleton. They were shown into the large living room and parlor. After all the guests had arrived everybody drew a number. The numbers were cut into two pieces. After much difficulty all the numbers were matched.

Each couple was then given a pencil and folder. At the top of the page were these words: How to Manage My Husband. Below this, on separate lines, were the letters

B-L-A-N-C-H-E, the bride's name. Each couple was asked to begin a sentence with each of these letters, telling how to manage a husband. These were then read, and the prizes, a rolling pin and box of candy, were awarded to Mr. Erwin Cherry and Mrs. J. S. Fleming and to Mr. Kermit Leggett and Mrs. Sarah Whitehurst. They presented these in a charming way to Mr. and Mrs. Gray. The guests were then invited into the dining room. Mr. and Mrs. Gray were presented with the many useful gifts which their friends had brought. Mr. Gordon Roebuck and Miss Mary Annis Perkins then served punch. At a late hour the guests departed. All declared that they had spent an evening never to be forgotten.

Marriage Licenses.
Following marriage licenses have been issued since last report:
J. M. Wooten, Pinetops, to Miss Audie Louise Corbett, Falkland.
Richard C. Wilson to Miss Myrtle House, both of Greenville.

Deeds of Transfer.
The following deeds of transfer have been filed since Thursday's report:
L. G. Cooper to Bertha P. Staton, consideration \$75.00.
S. S. Smith and wife to Delphia Gardner, consideration \$2877.52.

Berlin Libraries Closing As Cold Weather Sets In
BERLIN, Jan.—Nine of the people's libraries in Berlin have been closed because their books were too much worn for further use, and the funds were lacking for replacement. Six libraries maintained for children alone are also threatened with closing because of lack of funds. The custodians say each of these libraries is visited by an average of 400 children daily, and that the number has increased greatly since cold weather set in. Appeals are being made for funds to keep all these branch libraries open, as they are the only heated rooms in many of the neighborhoods where students can carry on their work.

LOTS AND SMALL FARMS

AT AUCTION

Wednesday, Jan. 9th,

10:30 A. M.

DESCRIPTION OF PROPERTY TO BE OFFERED:—At 10:30 A. M., Wednesday, January 9th, we will offer part of the property formerly owned by Proctor Bros., in and adjoining Grimesland, consisting of about 125 splendid residential lots, located on Pitt, Chicod, Boyd, First, Second, Third Streets, in Grimesland, comprising some of the most desirable residential property in the progressive town of Grimesland. Immediately after the sale of the lots, we will offer 174.55 acres of farm land adjoining Grimesland which has been subdivided into seven small farms ranging in size from 8 3/4 acres in Tract No. 8 up to 54.06 acres in Tract No. 11-A. Each of these tracts is convenient to all advantages offered by Grimesland, only a few minutes walk from the center of the city, near schools, churches and stores.

Each of these lots or small farms will be offered to you at your own price on the reasonable terms which will be definitely announced at the sale. Our representative, Mr. K. W. Cobb will be glad to give you any further information about these properties that you may desire.

SPECIAL NOTICE:—The sale will be held regardless of weather conditions. If the weather is inclement, we will conduct the sale in some building on or near these properties.

Look this subdivision over today, pick out the lot or tract that you wish and buy at the sale Wednesday, January 9th, beginning at 10:30 A. M.

SUCCESSFUL ERA OF LAND DEVELOPMENT PROMISED FOR HAITI

PORT-AU-PRINCE, Haiti.—The Haitian agricultural bill, now pending before the council of state, is regarded by its proponents as a most important step in the proposal to develop Haiti for the Haitians. Its passage, it is declared, will mark the beginning of a new era in the history of this republic.

The main purposes of the measure are the education of the people in the field of agriculture, and the safeguarding of the natural resources of the island. This instruction will begin in the rural districts and prepare students for admission to the Polytechnic Institute in Port-au-Prince. Graduates will be well versed in modern agricultural methods, and capable of going back to the country districts to instruct the people in improved ways of caring for stock and crops. Also they will be able to serve private enterprises as agricultural experts.

In addition to educational work, the new bill provides for agricultural research, the installation of a quarantine system, and a forestry department. Research will be along the lines of climatic and geological conditions and the diseases of plants and animals. The quarantine service will control the importation of plants and animals, from the standpoint of the introduction of disease, and the forestry branch will seek to control wastage in lumbering and forest fires, and probably embark on reforestation.

There is to be a director general of the new agricultural bureau, who probably will be Dr. George F. Freeman, an American expert on tropical agriculture.

The expenses of the new bureau will be met by a budgetary allotment, voted for this purpose by the Haitian government. This will be augmented by communal funds, special credits, the sale of surplus stock from the government farms, and contributions from private concerns for the conducting of specified work.

Second Mail Bardif Escapes Prison.

George Anderson

George Anderson, sentenced to the Federal Prison in Atlanta, Ga., for participation in a \$1,000,000 mail-truck holdup in New York City, has escaped, with three other prisoners, by tunneling 50 feet under the walls. Anderson is thought to have been aided in his escape by Gerald Chapman, who himself escaped from Atlanta last April and later escaped from an Athens (Ga.) hospital while recovering from serious wounds received in his second arrest. Both were serving 25-year terms.

during the construction of the Alaska railroad to have put a thousand farmers on the way to independence. It is too late to consider this expenditure, but if the agricultural resources of the territory can be developed, Alaska need fear nothing for the future.

Senator Snodgrass said that beef, pork, mutton and poultry all were produced, but on a small scale because of the scarcity of stock animals. He reported that Secretary

Work of the Interior department had Secretary of Agriculture Wallace endorsed a plan for doing out herds, would offer congress a plan covering farmers on long-time payments, the entire agricultural question in it also expressed confidence that Alaska.

Study Your Fertilizer Needs

It will soon be time for our farmers to give serious thought to the grade of Fertilizers they will use during the spring. It will pay each farmer to spend a few minutes in discussing this subject with his dealer or manufacturer.

There is much money wasted, and many times the results desired are not obtained, due to the failure to use the proper grade of Fertilizers for the different crops. We have made a careful study of this subject, and we are always glad to give the farmers our views on this subject, at either our

Greenville or Farmville Office

We want to emphasize the fact that it is risky to expect to grow the best quality of Tobacco with a Fertilizer which is most suitable for growing Cotton under boll weevil conditions.

Farmville Oil And Fertilizer Co.

London Wars on Narcotics

London, Jan.—The efforts of Scotland Yard officials to stamp out illicit traffic in narcotics are proving successful. It was announced during the course of a case at Marlborough Police Court that, thanks to the strenuous police campaign, the traffic in London is being suppressed.

Many captures of “traffickers” have recently been made and scores of prosecutions in police courts have been the means of checking the sale of the drugs.

Territorial Senator Ask Aid Alaskan Farmers

ANCHORAGE, Alaska.—Territorial Senator M. D. Snodgrass has promised to try to talk a supposed leak of \$500,000 annually in Alaska's treasure chest. The item is said to be represented in foodstuffs, hay, grain and mill feed now shipped into the Alaska railroad belt from the United States.

Senator Snodgrass said recently that he would press on congress the necessity for aid that would enable Alaskan farmers to get on their feet and begin taking from the ground some of the substances imported.

He added: “When the late President Harding advised the development of local industries in Alaska, he doubtless had in view the question of agriculture. There was enough money expended in foodstuffs

LAND SALE.

By virtue of the authority given me in a decree of the superior court of Pitt county, in Special Proceedings No. 2513, entitled, “Preston Harrington, Admr., of S. E. Pollard vs Joe Harrington, et al.” the undersigned commissioner will sell at public auction, before the court house door in Greenville, on

Monday, January 14th, 1924,

the following describe tract of land:

That tract of land in Greenville township, about two miles east of the town of Greenville, known as lot No 4 in the division of the John Forbes lands, and same allotted to S. E. Harrington: Beginning at a point on the Greenville and Grimesland road, the northeast corner of Lot 3, and running S. 20 W. 2831 feet with the eas line of lot No. 3, to an iron pin in Bert McLawhorn's line, thence north 85-5 E. to a stake, the southwest corner of Lot No. 3; thence north 23-44 E. 2612 feet, to an iron pin on the said Greenville and Grimesland road; thence north 64-50 E. 570 feet with said road to the beginning. Containing 30 acres more or less.

Said land will be sold upon the following terms: One-third cash, balance in one and two years.

This is a re-sale the land having been sold Dec. 24th, 1923, and the bid raised.

This January 3rd, 1924.

Secure Against Burglary

The modern bank burglar is highly skilled in his profession. He has solved the problem of vault and safe burglary with remarkable success where there is no other locking mechanism aside from the ordinary combination.

The Anakin Locking System relocks the vault, door when the combination is blown, punched, or burned, or when the combination is cut away from the boltwork by burning the arbor, or master connection.

This protection is installed on over one-fifth of the banks in the United States, and has prevented 98 bank burglaries. It is also in use by thousands of mercantile houses for whom it has saved many thousands of dollars.

This company enjoys a high financial rating. The system has been tested and approved by the Burglary Insurance Underwriters' Association and the Underwriters' Laboratories. Its users receive a substantial reduction in burglary insurance.

THE GREENVILLE BANKING AND TRUST COMPANY AND THE HOME BUILDING AND LOAN ASSOCIATION

have installed the Anakin Relocking System. In so doing they have recognized the fact that as leaders in their community they should, in justice to themselves and to their customers, have their vaults protected against all forms of burglarious attack.

Other banks and mercantile houses should investigate this proposition. Write us at once. The yeggs have already begun their winter campaign.

Anakin Lock and Alarm Company

JOHN H. TAFT, President.

FRANK SILVER'S ORCHESTRA
HEARD BY LARGE AND
APPRECIATIVE AUDIENCE

"Yes, We Have No Bananas," was presented in White's theatre last evening to a large and appreciative audience. The Frank Silver orchestra was perhaps the best ever heard in the local stage and presented an attractive and varied program. Each member of the orchestra was splendid in his respective part, receiving encore after encore.

Miss Bobbie Arnet who appeared in several song specialties was quite polite and graceful and delighted the audience in each number.

Perhaps the most disappointing member of the entire cast was Mile. Kovak who appeared in several dance specialties. She was sadly lacking in those points which makes an attractive and entertaining dancer.

The evening's entertainment was however, from a musical standpoint, a great success and Mr. Silver, the composer of "Yes, We Have No Bananas," and his orchestra cannot be praised too highly for their splendid music.

All-Star Cast Enacts

"Isles of Lost Ships"

With an all-star cast, which includes Milton Sills, Anna Q. Nilsson, Frank Campeau and Walter Long, "The Isle of Lost Ships," a First National attraction directed by Maurice Tourneur and produced by F. C. Levee, is coming to the Strand theatre Monday and Tuesday. Crittenden Marriott wrote the story, which is declared to be one of the most unusual ever seen on the screen.

With the poetic touch which characterizes all Maurice Tourneur pro-

U. S. OLYMPIC HOCKEY TEAM IS SELECTED.

1. A. LaCroix. 2. J. J. McCarthy. 3. W. Rice. 4. G. E. Geran. 5. J. W. Small.

Members of the hockey team to represent America in the Olympic games will January 9 for the Winter sports to be contested from January 25 to February 5 at Chamonix, in the French Alps, the points there made to count in the Olympic games to be held in Paris next Summer. The team is made up of McCarthy, LaCroix, Story, Small, Geran and Enright, of Boston; Anderson, of Duluth; Abel, of St. Paul; Goheen, of St. Paul; Holeman, of Cleveland; Olson, of Duluth, and Des Jardins, of Cleveland. The team will be under the management of William S. Haddock, of Pittsburgh.

NEW LAMP BURNS
94 PER CENT AIR

BEATS ELECTRIC OR GAS

A new oil lamp gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 25 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, S. G. Johnson, 642 N. Broad Street, Philadelphia, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Canadian Products in
1923 Show Increases

OTTAWA, Ont., Jan.—The farm and fishery products of Canada, during 1923, showed material increases over the 1922 figures. The value of the Dominion's mineral, forest, agricultural and fishing industries is placed at \$2,420,000,000 in unofficial government estimates for 1923. This rep-
