

MRS. DOAK DELIGHTS
WOMAN'S CLUB WITH
SEVERAL READINGS

Gives Sketches of Lives
Some Modern Poets;
Charms Hearers

(By MRS. W. L. HALL.)

The Woman's Club enjoyed a rare treat, Thursday afternoon, when Mrs. Doak, a well known reader of Raleigh, entertained the members for an hour or more, with sketches of the lives of a number of our modern poets and readings, from their best works.

Mrs. H. E. Austin, who had charge of the program for the afternoon, introduced Mrs. Doak, who after a few happy remarks took up her subject: "Our Modern Poets," and charmed her hearers with every word.

She spoke of poetic conditions in America in the early days, of the dearth of talent, and how the few poets of whom we boasted, took their style of writing from England, and wrote in the stiff, stilted language of the Puritan.

We had no great poets before the civil war said Mrs. Doak, and the English and French made fun of us and our poetry, thinking that we could not produce writers. Thus quenching any flame of talent that may have burned in the soul of many aspiring American.

Between the years 1830 and 1900, America gave to the world Edgar Allen Poe and Walt Whitman, two poets whose names will live forever. However, they were unappreciated in their day. Edgar Allen Poe is of course our very own, being southern born, and we are proud to claim him.

In 1900 a new school of poetry came into being, and gave to the world, Robert Frost, Carl Sandburg, Philip Untermyer, Vachel Lindsay, Amy Lowell, and a number of others, who are read and loved the world around.

Mrs. Doak read from Amy Lowells "Tendencies in Modern American Poetry" regarding the poetry of today and then gave a brief sketch of the life of Edwin Robinson, who was born in Maine and struggled there for a time without recognition. He then went to New York where he later achieved success, after years of work and penury. During this time Roosevelt heard of him and becoming interested in his work he secured a government position for him, thus relieving his financial distress.

Mrs. Doak's reading of his poems displayed his great charm, especially the "Children in the Dark."

Robert Frost the son of poor parents was born in San Francisco but reared in New Hampshire. He would not go to school and was considered shiftless. He wrote about every day things, farm life, and the beauty he saw about him, but America would have none of him. He went to England and there published his first volume of poems "North of Boston." He was immediately received and declared a success in the poetic circles of England. All of which goes to prove that "a prophet is not without honor save in his own country." From his works, Mrs. Doak read "Sketches" and several of his best loved poems.

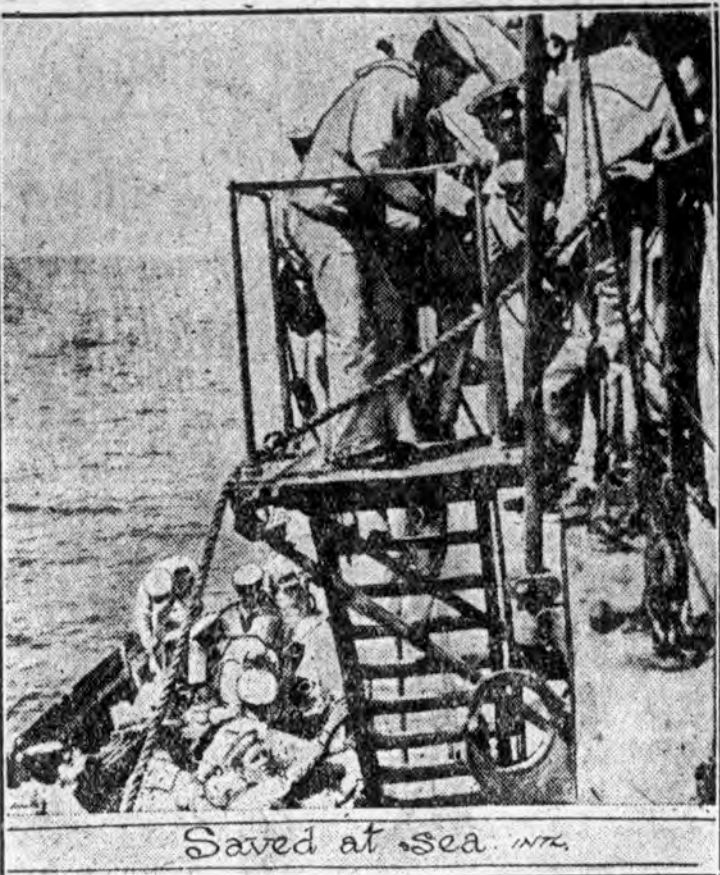

Carl Sandburg, our middle west poet, living in Chicago, has written some of the finest poetry of our time, not light, pretty, rhymes, but strong, vital red blooded. He writes of life and places as he sees them, and gives us vivid word pictures. His "Chicago" and Washington's Monument by Night," as read by Mrs. Doak were lovely and impressive.

Robert Service, soldier poet, loved and revered by our soldier boys during the war, came in for his share of praise, and every heart was touched by the story of Jean DuPre," read by Mrs. Doak with fire and feeling.

Then last but not least came North Carolina's very own John Charles McNeill, dear to every tar heel heart.

McNeill will never be considered a great poet but no man can play upon the heart strings with more effect than he. His dialect poems evoke laughter and what can make any mortal see beauty more clearly or feel holiness deeper than his "Sunset." Mrs. Doak read a dialect poem very effectively and closed the

STEAMER'S S. O. S. CALL FOR DOCTOR IN
MID-OCEAN.

Saved at sea.

When the steamer Ambridge, outbound from New York, was about 500 miles south of St. Helena she cut a wireless call for help. The steamer Lowestoft, which was nearby, answered that she had a doctor on board. Boatswain Nevins had been stricken with appendicitis. He is shown being transferred to the Lowestoft, on which he will operate upon. Later transferred to the hospital at St. Helena.

Will Investigate
Propaganda Now
Swamping Country

WASHINGTON, Jan. 18.—A sweeping investigation of "General Propaganda" in the United States will start next Monday under a special Senate commission with the Bok Peace Plan the first subject of study. Propaganda on the Mellon tax program, soldiers' bonus and other important questions are expected to be considered by the commission with authority to investigate and report to the Senate whether there was any organized effort to control public opinion or bring pressure to bear upon congress regarding the enactment of certain legislation through propaganda or by use of money, advertising or by control of public opinion.

Decision to take up the Bok plan first was made at the suggestion of Senator Reed, Democrat of Missouri, who introduced the resolution under which the inquiry is to be conducted.

Edward Bok, of Philadelphia who offered \$100,000 for the best peace proposal and Miss Esther Everett Lape, of Philadelphia, one of the committee in charge of the contest, will be the first witnesses heard.

Basket Ball Team of
New Bern Play Local
Quint Here Tonight

The New Bern basket ball team will arrive in Greenville this afternoon and tonight at 7:30 o'clock, at the Star warehouse, will stage a game with the local highs. The contest promises to prove interesting throughout.

New Bern during last week, administered unto the Greenville team a defeat for which the locals are determined to turn the tables. They have been through strenuous practice for the past several days.

The line up for tonight's game will be:
Greenville Position New Bern
West or Mayo Whitford
Right Forward
Gaskins, Capt. Ferebee
Left Forward
Satterthwaite Duval
Center
Harvey Mortant
Right Guard
Forbes Simpson
Left Guard
Admission 25 and 35 cents.

program with "Sunset."

In all of her readings she displayed real talent. She read with feeling and understanding and gave to her audience an afternoon of genuine pleasure.

Mrs. Griffin, a club member, sang two delightful solos by Carrie Jacobs Bond, and gave a sketch of the composers life, which added greatly to the happiness of the program.

At the conclusion of the meeting, punch and cakes were served and a pleasant half hour spent in meeting and chatting with the guest of the afternoon.

ALBERT B. FALL
THROUGH WITH
POLITICS, SAYS

NEW ORLEANS, Jan. 18.—Alberty B. Fall, former Secretary Interior, who is spending a few days in New Orleans having arrived Wednesday from Florida stated today that he was through with politics.

"I am through with politics," the former secretary declared. "I will spend the rest of my life traveling around" and with a twinkle, "hiding out just as I have been." I hope to make that expected ocean voyage soon.

Mr. Fall yesterday replied in brief to the attack upon him in the senate Wednesday by Senator Carroway and denied the statement of the senator that he had received compensation from the Sinclair Oil interests in connection with the Teapot Dome Oil leases or that he had registered under an assumed name at a Palm Beach hotel during the congressional investigations there of the oil lease. "The investigating committee has been on the job for many months and has not produced a shred of evidence," said Mr. Fall.

208 Out of 6000
Children Mecklenburg
County Are Working

CHARLOTTE, Jan. 18.—With an aggregate of 6,000 children in Mecklenburg county between the ages of fourteen and sixteen, only 208 are working, according to figures made public here by the North Carolina State Welfare Commission, after an intensive survey of the county.

Part Tacoma Crew
Landed Yesterday

WASHINGTON, Jan. 18.—Part of the crew of the stranded cruiser Tacoma, which is aground on a reef off Vera Cruz, were put ashore yesterday afternoon according to a message received by the Navy Department. The remainder of the crew and the commander of the vessel remained on board last night the message stated.

The cruiser Richmond which was sent in relief of the Tacoma is expected to arrive some time during today. The Richmond will remain in Vera Cruz to perform the duties originally intended for the Tacoma, that of maintaining wireless communication between the port and the United States.

BUTLER LAUNCHES
SECOND OFFENSIVE
AGAINST VICE, CRIME

PHILADELPHIA, Jan. 18.—Gamblers, bootleggers and other lawbreakers, if there are any left in Philadelphia after Brigadier General Smedley Butler's intensive drive last week, are due another hasty retreat today if they hope to keep out of the clutches of the police for a second offensive to rid the city of vice and crime is scheduled to start.

MEXICAN TROOPS
ON AMERICAN SOIL

Permission to Transport
Mexican Troops Thru
Texas is Denied

NOGALES, Ariz., Jan. 18.—Movement of Mexican Federal troops over American soil started today when more than 3000 Mayo Indians under command of General Reis left Nogales for Mexico. The Indian soldiers arrived here from Mayo ranch in Sonora. They were well equipped and were transported in special cars over the Southern Pacific De Mexico railway. Movement of troops through Arizona was ordered by Mexican officials yesterday following announcement by Governor Hunt that the transportation of troops through this state was permissible. The final destination of the troops is unknown but it was the expressed opinion that they were being sent to Tampico to make a final effort to remove the rebels from that front.

AUSTIN, TEXAS, Jan. 18.—Permission for the transportation of Mexican Federal troops through the state of Texas was refused today by Acting Governor T. W. Davidson in a telegram to Secretary of State Hughes. Possibility of trouble with Mexican residents on the Texas side of the border prompted the refusal the acting governor said.

Cabinet Discusses
Mexican Situation

WASHINGTON, Jan. 18.—The situation in Mexico complicated by the recent revolutionary declaration of a blockade of Tampico was considered by President Coolidge and his advisors today in the longest session of the cabinet that has been held for months. Indications of the need for more active steps for protection of American interests in the blockaded port were considered at the meeting but cabinet officials said afterward that any announcement regarding same would have to come from the president. No word has yet come forth from the White House.

New Concerns Recently
Chartered By Everett

RALEIGH, Jan. 18.—The following concerns have been chartered by the secretary of state: Mutual Oil Company, Concord with a capital stock of \$100,000, M. B. Fuller, G. P. Cline and F. C. Niclelock all of Concord being the incorporators; Fletcher-Brothers Company of Winston-Salem to do a general merchandise business on an authorized capital stock of \$300,000, the incorporators being J. R. and N. G. Fletcher, L. P. Tyree and H. A. Sauls all of Winston-Salem; American Realty Company of Charlotte with capital stock of \$100,000 subscribed by Odom, Charles L. and Bennetta H. Alexander and Albert Ascott, all of Charlotte; J. M. Brantley and Company of Greensboro to do a general merchandise business with capital stock of \$70,000 subscribed by J. N. Brantley, D. M. Balsam, and Joseph H. Merton of Greensboro; Self Leading Truck Attachment Company of West End with authorized capital stock of \$100,000, subscribed being J. B. Von Canon, Fred Von Canon and W. L. Sutphin, all of West End, N. C.; Roanoke Hardware Company of Roanoke Rapids with authorized capital stock of \$50,000, subscribed by Mattie P. McPherson, T. O. and F. D. Wilson and J. V. Womble, all of Roanoke Rapids, N. C.

Bedside Court Will
Not Be Held Says
Head of Hospital

LOS ANGELES, Jan. 18.—If the story of the shooting of Courtland S. Dines, Denver oil operator and club man is retold by witnesses in court here today, it will not be in a court held at the bedside of Dines, according to a declaration by Bishop Johnson, president of the hospital. Bishop Johnson's statement was the result of a discussion with Justice J. W. Hemby, who stated that he would hold the preliminary hearing of Horace Greer on the charge of assault with a deadly weapon regardless of whether or not Dines was able to attend court.

In continuing the case last week Justice Hemby said that he would have no more continuances and that the case would be heard today whether or not Dines was able to attend and that in case of the latter the session would be held in the hospital at Dines' bedside. In discussing the matter, Bishop Johnson exclaimed that such a proceeding was impossible and would certainly not be allowed. To hold court in Dines' room would disturb the peace and quiet of the hospital and may have serious effects upon some of the patients, declared Bishop Johnson.

ABANDON SCHOONER
OFF CAPE LOOKOUT

BEAUFORT, Jan. 18.—The four-masted schooner Anna M. Records reported early this afternoon as stranded on Cape Lookout Shoals was not stranded but had been abandoned by her crew because of her waterlogged condition, it was learned here tonight from the crew of the wrecked tug I. J. Merritt.

The Merritt returned to Cape Lookout Cove early tonight with the Records in tow. It was stated that the vessel had been abandoned after a deck load of cross ties had been lost.

UTAH MAN FACES
FIRING SQUAD FOR
MURDER OF WIFE

SALT LAKE CITY, UTAH, Jan. 18.—Omar R. Woods, former judge convicted of wife murder was executed by a firing squad in the state prison here at 8:17 o'clock this morning. He met death calmly protesting his innocence to the end.

Losing a two years fight in which every known means of staying execution was used he calmly faced death before the firing squad today protesting his innocence to the end. The killing of Mrs. Woods took place in an apartment house here on January 9, 1922. The slaying of his invalid wife and attempting to fire the bed upon which her body lay was one of the most gruesome crimes ever known in the west.

Woods was calm last night, maintained his innocence and gladly forgave his enemies. "Fear is nothing to me," he said. "I am at peace with the world and I will walk to my death with a firm step. My only regret is that I have to meet death in this way. I have nothing else to fear. My wife knows that I am innocent and when I meet her in the hereafter, if there is a hereafter, she will tell me so."

Newton D. Baker
Not Candidate For
Political Office

SAIN PETERSBURG, FLA., Jan. 18.—Milton Young, former secretary of Newton D. Baker, Secretary of War under the Wilson Administration, stated today that Mr. Baker would be a candidate for the Democratic nomination for president.

CLEVELAND, O., Jan. 18.—Newton D. Baker, former Secretary of War, laughed today when he read the dispatch from Saint Petersburg, Fla., to the effect that he would be a candidate for nomination for president. "Nothing is further from my mind," said Mr. Baker, "than the candidacy for any political office."

The Saint Petersburg dispatch gave Milton Young, Baker's former secretary credit for the statement.

In making his statement regarding the announcement Mr. Baker said: "Young was my secretary when I was mayor of Cleveland but not while I was in Washington or at the present time. We are personal friends but I have been in no communication with him for some time. Nothing is further from my thoughts than candidacy for the presidency or any other political office."

Mr. Baker's chief interest in the next campaign, he says is a sound foreign policy for the government and he is a strong advocate for entrance of the United States into the League of Nations.

Aged Lady Burned
To Death When Fire
Destroys Her Home

Expect Big Shake-up in
New York Police.

The action of Police Commissioner Richard E. Enright, of the New York Police Department, in preferring charges against 13 police inspectors—all of whom command districts—and a number of subordinate officers for failure to enforce the prohibition laws is believed to presage a sensational shake up in the force.

Another Occupant Of
House is Probably
Fatally Burned

Mrs. Sallie Hudson was burned to death and Miss Annie Mills, probably fatally burned, when their home was destroyed by fire, of an unknown origin, at an early hour this morning.

The two aged women, one blind and one deaf, lived together about three and one half miles from Cox's Mill and about ten miles from Greenville. It is not known just how the fire originated but it is believed that it was caused by a lamp either turning over or exploding.

Mrs. Hudson's body was burned completely up, each limb being burned from the body, which was burned beyond recognition. Miss Mills' lower limbs were badly burned and physicians entertain no hope for her recovery.

The horrible tragedy has cast a gloom over the entire community as both women were beloved by all who knew them. Being deprived of their sight and hearing they received the sympathy of the entire community.

Filling Station Will
Not Be Erected On
Dickerson Avenue

The petition for the erection of a filling station on the Tyson property on Dickinson Avenue which was presented to the board of aldermen at their last regular meeting, was killed by unanimous vote, at an adjourned meeting of the board last night. Action was deferred on the petition for the erection of a filling station on the Dail property on Fifth street, owing to the absence of Mr. Dail. This will be taken up at the regular meeting of the board which will be held on Thursday night, Feb. 7.

Morrison Refuses
To Parole Granville
County Prisoner

RALEIGH, Jan. 18.—Governor Morrison has declined to pardon T. B. Culley, who was convicted in the Greenville County Superior Court at the spring term of 1922 on charges of assault with deadly weapon and violation of the prohibition law. Culley was sentenced to serve twelve months for each offense, on the county roads.

The application for pardon on parole was made upon the grounds that Culley was physically unable to work on the roads. In the hearing upon the application it was established to the satisfaction of the governor that the applicant was physically unable to work on the roads. Two highly reputable physicians were said to have testified to the necessity of Culley being relieved of such and given a diet of food. The governor upon their advice directed the county commissioners to look into the case and to see that Culley receive the proper attention.

"Men sentenced to prison to be worked upon the roads are not, in my judgment, to be required to perform such duties unless they are physically able to do so," said Governor Morrison. "If they are sick, they are entitled to such diet and attention as medical skill may direct. Officers failing to comply with medical advice as to treatment of and care of sick prisoners, are, in my judgment, subject to indictment, and ought to be indicted."

In commenting upon his declining to pardon or parole the applicant the governor said, "I can not pardon or parole this man and upset the judgment of the courts, but I earnestly hope that the Commissioners of Granville county will see to it that his health is looked after and respected in humane ways. Anything short of this would be a clear dereliction of duty."

Governor Morrison pardoned Herbert Humphrey, of Greene County, who was convicted in the Superior Court of that County at the Spring term and sentenced to serve 18 months. He was convicted of selling whiskey. His parole was recommended by Judge Henry A. Gray and Solicitor J. H. Davis.

Plan Grouping Of
Schools Adopted In
Lexington Section

LEXINGTON, Jan. 18.—Coming into line with a number of North Carolina counties, the board of education has tentatively adopted the plan of the State department of public instruction for the grouping of the schools of the county. The state school law provides for the grouping of the county schools into large units where the work may be more effectively carried out and the Department has been working toward this end for a number of months.

Forest Fires Burn
Over 2150 Acres
In Buncombe County

ASHEVILLE, Jan. 18.—Only 450 acres of land were burned over by forest fires during the last six months of 1923 in Buncombe county, according to a report made here by den. Mr. Peterson stated that in the 12 counties of his district during the fall months of 1923, 19,500 acres were burned over, which he stated was a good record. He added that proper measures for fire protection of the forests was doing much in the way of conservation and that 1923 had been a good year.

Reports Issued At
Teachers College

Students' reports for the fall term have just been issued at East Carolina Teachers College. The college adopts the plan of sending a copy home and giving each student a copy of her own report. The office says that the reports for the term just closed are better than they have been for years. President Wright used these reports as a text for his chapel talk Thursday morning, urging the students not to be satisfied with what they had done but to make a determined effort to make the coming term's work even better than that of last term. To those few who failed he said that this would be a spur to renewed effort rather than a fact for discouragement. He said that very often out of our seeming failures in life come our greatest successes.

President Wright who has just returned from a meeting of the Grand Lodge of Masons in Raleigh told the students he wished they might know how interested this great body of men is in public education, and in everything that makes for its advancement. The Masons are particularly interested in the training of teachers, and have established a number of loan fund scholarships at this institution.

WHO GETS THE MELLON?

A person with \$1,000,000 income saves under the Mellon plan \$251,784.00.

Fifty heads of families, each having an income of \$20,000—total \$1,000,000—save under the Mellon plan \$35,350.

One hundred heads of families, each having an income of \$100,000—total \$1,000,000—save under the Mellon plan \$22,200.

Two hundred heads of families, each having an income of \$5,000—total \$1,000,000—save under the Mellon plan \$5,950.

Four hundred heads of families, each having an income of \$2,500—total \$1,000,000—save under the Mellon plan, nothing.

The propagandists of the Mellon tax plan continually refer to percentages of reduction taxpayers will receive. It is not a question of percentages, but a question of dollars and cents.

ROCKETS TO THE MOON

The editor of the New York World in discussing the projected attempt to send a rocket to the moon and inquiring as to what would be the benefit of the accomplishment, says:

"Prof. Robert H. Goddard of Clark University, long known as the originator of a project for shooting a rocket at the moon, announces that he will make his experiment next summer. 'Whatever we do,' he states, 'must be done this year. The time is ripe for it. The other nations of the world are hard at it, and if the United States is to make the great step we must prepare to make it soon.'"

"A certain natural scepticism rises in the breast of the average man as he contemplates the plan. It is Prof. Goddard's intention, it will be remembered, to construct a rocket which will impel itself by means of a series of explosions as far as the surface of the earth's satellite, there to explode for the last time, supposedly, on the mountains of the moon. Doubt of Prof. Goddard's seriousness is impossible. He has returned too often to the idea to leave that explanation plausible. Doubt of the power of a series of explosions to carry a rocket so great a distance recurs to the mind and will not be allayed."

"But supposing the scheme to be successful, it still seems a rather unnecessary affront to the quiet and dignity of our nearest neighbor in space. A line of light, let us say, leaves Clark University, travels by leaps and bounds, falters, finally reaches the moon and starts a long reverberation among its airless peaks. The thing is done. But there is nobody on the moon to notice it. There is not even a small boy to find the rocket-stick."

Bordeaux Wine Fifty Years Old Served to Reparation Experts—Headline. With such publicity as this no doubt there will be a grand rush for jobs on the next commission.

ARTIFICIAL AND REAL PROPAGANDA

Demands for agricultural relief and requests for tax reductions are the burden of thousands of letters received by Senators and Congressmen from practically every state in the Union. A large part of the letters on the subject of tax reduction are the artificial product of the propaganda that has been conducted by the corporations and individuals of great wealth that are the chief prospective beneficiaries of the Mellon plan. The letters urging Congress to enact legislation for the improvement of agricultural conditions are regarded as the spontaneous expressions of thousands of farmers who have been suffering from a combination of low prices of what they have to buy from others.

Decreases in the tariff on many products and the inclusion of calcium arsenate and other chemicals destructive of the boll weevil are also being urged in hundreds of letters from farmers and cotton growers. Practically all the letters from the West mention the freight rates on agricultural products and ask that they be lowered.

The bit dog always lets up a yell and so it was with certain members of the audience of the Pennsylvania Bankers' association who on last Thursday night hissed Senator Mangus Johnson, who thought a republican did not hesitate to make the statement that Mr. Mellon's tax reduction plan was more favorable to the rich man than to the masses. Evidently the senator was getting on somebody's toes.

"KING CLOTHIER"

Whole Typewriter Thefts.

BERLIN—An average of 30 typewriter a day have been stolen in Greater Berlin during the last few months, according to police statistics. By the arrest of the master "fence" recently detectives said the practice of the thieves who robbed offices at night had been broken up for the present, at least.

The man who bought the stolen machines, and then resold them, the police say, had perfected a method of renumbering typewriters so that identification was virtually impossible, excepting by experts.

Bring the family to auction lots and farms at Winterville Tuesday. TRUSTEE'S SALE OF TOWN

PROPERTY.
By virtue of the power of sale contained in that certain deed of trust executed on the 15th day of January, 1920, by L. J. Flowers and Ed. Flowers to L. G. Cooper, trustee, of record in book M-13, at page 520, of the register of deeds office of Pitt county default having been made in the payment of the indebtedness therein secured, and application having been made to the undersigned trustee pursuant to the terms of said deed of trust the undersigned trustee will offer for sale before the court house door in Greenville, N. C., at public auction to the highest bidder for CASH, at 12:00 o'clock noon on

Saturday, the 16th day of February, 1924,

EPWORTH LEAGUE TO ENJOY SOCIAL TONIGHT

The Epworth League of the Methodist church will enjoy a social at the church tonight at 8 o'clock. All members are urged to be present. A special program has been arranged. Bring a guest with you.

LITERARY SOCIETY OF GREENVILLE HIGH SCHOOL INTERESTING DEBATE

The Literary Society of the Greenville High School met yesterday and enjoyed a most interesting meeting which was featured by a talk by Miss Marie Hardee and a debate, the query being Resolved that a "Constitutional Amendment should be made, providing that United States Senators be elected by the direct vote of the people."

The affirmative was represented by Norman Winslow and Clara Moye. While the negative was upheld by John Sauced and Jesse Moye. The affirmative won. The judges were Marie Hardee, Emily Mason, and Clifton Duke.

Miss Marie Hardee made a short but interesting talk which was enjoyed by all present.

FRANK WILSON CONDUCTING JANUARY SALE FOR MEN

Frank Wilson, the "king clothier," is conducting a great stock reducing January sale for men, giving 25 per cent off on suits, overcoats and other merchandise.

The policy of this firm is not to carry over merchandise. They have a large stock and in order to make room for the spring goods this sale is now being conducted.

The Kuppenheimer, Michaels, Stern and Styleplus clothing are including in this splendid stock and at regular prices these clothes are considered wonderful values.

A sale on Manhattan Shirts and Pajamas is also being conducted and this will come to a close on Saturday.

On hard surface road at Winterville lots and farms at auction Tuesday 2 p. m.

day night.

Mr. Wilson is especially anxious for his patrons and friends to attend the sale and take advantage of its wonderful bargains.

Mr. Tom Dixon Ill.

His friends throughout the county will be sorry to learn of the extreme illness of Mr. Tom Dixon at his home in Farmville. Mr. Dixon is the father of Mrs. J. Knott Procter of this city, who has been at his bedside since he was stricken on Wednesday.

ORGAN RECITAL LAST NIGHT MUCH ENJOYED

The organ recital as rendered in the Christian church last night by Prof. Paul Sannier, of Petersburg, was well attended and proved one of the most enjoyable entertainments of a musical nature that it has been the pleasure and privilege of the local people hearing. Mr. Sannier is a master musician which fact was recognized by those who were in attendance last night. Other churches have already expressed a desire to have Prof. Sannier to return here at some later date in a similar recital.

Jackie's Parents Are Authors of Photoplay

"Daddy," Jackie Coogan's latest production, a First National picture, which is coming to the Strand theatre for two days, Monday and Tuesday, is unique in that it is probably the first photodrama to be written by the parents of a famous star, and for that star. But who better than

Study Your Fertilizer Needs

It will soon be time for our farmers to give serious thought to the grade of Fertilizers they will use during the spring. It will pay each farmer to spend a few minutes in discussing this subject with his dealer or manufacturer.

There is much money wasted, and many times the results desired are not obtained, due to the failure to use the proper grade of Fertilizers for the different crops. We have made a careful study of this subject, and we are always glad to give the farmers our views on this subject, at either our

Greenville or Farmville Office

We want to emphasize the fact that it is risky to expect to grow the best quality of Tobacco with a Fertilizer which is most suitable for growing Cotton under boll weevil conditions.

MR. J. H. ROSE ENTERTAINS MEMBERS FOOT BALL TEAM

Mr. J. H. Rose was host last night at the Rotary Club having as his guests members of the 1923 Greenville High School foot ball team. A most delightful supper was enjoyed.

Coach Duncan delivered a short address after which Norman Winslow, captain of the team made a talk and opened a discussion for a captain for this year's team. Wesley Harvey was given the honor, being elected by the letter men.

Harvey has played end and back field for the last two years and is one of the best and most popular members of the local team.

The boys are planning for great foot ball next fall and will no doubt put in a winning team.

CHARLOTTE CITIZEN

DIED EARLY TODAY

Charlotte, Jan. 18.—Harry Lewis Zeigler, president of T. C. Thompson Company, died at his home here today. He had been ill for four weeks. Blood poisoning with other complications was the cause of his death. He was born in Birmingham, Ala., August 18, 1878.

Manila Licenses Fewer Autos.

MANILA.—The number of automobiles in Manila is decreasing, according to statistics gathered by a large local concern interested in the automobile industry. New registrations in this city since the first of January and up to and including September 30 of this year numbered 666, according to this authority. This would be at the rate of 888 a year. During the year 1922 cars to the number of 1,936 were registered.

LEIPZIG FUR MARKET UPSET BY ILLICIT STREET TRADING

Leipzig, Jan. — Fur dealing in reliable shops has been succeeded almost entirely by trading in the streets, the latter involving a large amount of stolen furs. Street traders are said to have enlisted the aid of employees of many of the shops to steal the furs and pass them along to the traders.

Fur pieces are said to change hands as many as 20 times a day and the local market, one of the greatest fur markets in the world, is in a state of confusion. Street dealers are not particular where or from whom they get their furs and some are reported to be making as high as \$1,000 a day in commissions.

Fiction Popular in England

London, Jan. — The writing of books in England shows no signs of lessening, according to the statistical tables compiled by the Bookseller. During the past year 6,981 new books were produced and in addition 3,250 second and subsequent editions were issued. Fiction takes the first place. Novelist provided 1,219 new books. Religion and theology were the subjects of 575 new books, while only 17 new works of humor were issued.

America Will Send Exhibits to Barcelona Poultry Show, Said

WASHINGTON. — The poultry breeders of the United States intend to be well represented at the second World's Poultry Congress to be held at Barcelona, Spain, May 10-16, 1924. It is realized that America has made notable contributions to this industry, and that there should be this year no repetition of the condition which obtained at the first congress held at The Hague in 1921, when the American exhibits were far from adequate or representative.

Reports from Barcelona indicate that almost every country where the poultry business has attained significance is interested. In many cases official delegates have been named. Latin America will be well represented. In these southern lands the industry is being developed rapidly, and there is a keen demand for breeding stock.

Rockefeller Aid for Edinburgh

EDINBURGH. — A gift of \$250,000 has been made by the Rockefeller Foundation to Edinburgh University for the erection of a laboratory and the completion of the endowment of the professorship of surgery. In their letter announcing the gift the trustees evinced their personal interest in the medical enterprise of the University of Edinburgh.

TOWN OF GRIMESLAND.

Minutes of meeting of the Board of Commissioners of the Town of Grimesland, held on Wednesday, Jan. 16th, 1924.

At a meeting of the Board of Commissioners of the Town of Grimesland, held at the Bank of Grimesland, on Thursday, January 17, 1924, at seven-thirty P. M., which meeting was a recess meeting of the regular meeting held on January 14, 1924 for the purpose of considering the installation of a proper lighting system for said town, and at which recess meeting the Mayor and all of the Commissioners of said Town were present in person; the following resolutions and ordinances, after due discussion were duly passed and adopted:

WHEREAS, the Town of Grimesland has no adequate lighting and power system for the needs of the said Town in lighting its streets and other public ways, nor any adequate means for furnishing to the citizens of said Town sufficient facilities for lighting their homes and business places.

AND WHEREAS, in the judgment of this Board, it is necessary that said Town provide and establish an adequate lighting and power system for the use of said Town in lighting its streets and other public ways and the needs and use of its citizens in their homes and places of business.

AND WHEREAS, in the judgment of its Board an electric lighting and power system is unquestionably best adapted to the needs of said Town and its citizens for the purpose of furnishing light and power.

AND WHEREAS, this Board has made diligent inquiry to ascertain the cost of providing and establishing for said purpose an adequate electric light and power system and has found that the sum of \$17,500 is necessary to secure and establish the same.

AND WHEREAS, the said Town has not the necessary funds with which to provide and establish such electric light and power system, and found by this board to be necessary for the above mentioned purpose.

AND WHEREAS, this Board finds

that it is necessary that bonds of the Town of Grimesland be executed and sold, placing its full and credit in the sum of \$17,500 to provide the necessary funds to secure and provide and establish an adequate electric lighting and power system for said Town.

NOW THEREFORE, be it resolved and ordained that the Town of Grimesland, execute its bonds in a sum not exceeding in the aggregate the sum of \$17,500, to bear interest at a rate not exceeding 6 per cent per annum, payable semi-annually, to run for a period not to exceed twenty-five years, and sell the same at not less than par to secure the necessary funds with which to provide and establish an adequate electric lighting and power system for the use and benefit of said Town and its citizens and to pay all necessary expenses incident thereto, and the expenses of preparing and selling said bonds and expenses incident thereto.

Be it further ordained and established that the Town of Grimesland does hereby order and direct that a tax sufficient to pay the principal and interest on such said bonds, as are issued, shall be annually levied and collected on the taxable property within said Town, to be applied to the payment of the principal interest of said bonds.

That the municipality of the Town of Grimesland owes no debts, and a statement to that effect has been filed with the Clerk of said Town and is open to public inspection.

This ordinance shall take effect thirty days after its first publication, unless in the mean time a petition for its submission to the voters is filed under Chapter 8, Public Laws of 1921, and that in an event it shall take effect when approved by the voters of the municipality of the Town of Grimesland at an election as provided in said Chapter 8, Public Laws of 1921.

That this Board determines that the probable period of usefulness of the said improvement to be provided by the issue of said bond issue, is thirty years; that since the introduction of this ordinance and before its final passage, W. S. Elks, Mayor, the officer designated by the Board of Commissioners for that purpose, has filed J. H. Brooks, City Clerk, a statement under oath, showing the following:

(a) The gross debt of said Town, which shall be as follows:

1. Outstanding debt incurred before January 15th 1921 and evidenced by bonds, which is nothing.

2. Outstanding bonded debts, which is nothing.

3. Bonded debt to be incurred in ordinance, passed or introduced, nothing. Therefore, said gross debt is nothing.

(b) The deductions to be made from the gross debt in computing the net debt, which deductions shall be as follows:

1. Amount of un-issued funding or re-funding bonds included in gross debt; which is nothing.

2. Amount of sinking fund, or other funds held for the payment of any part of the gross debt, other than debt incurred for water, gas, electric light or power purposes, or two or more of such purposes; which amount is nothing.

3. The amount of un-collected special assessments, heretofore levied on account of local improvements, for which any part of the gross debt was, or is to be incurred, which will be applied when collected to the payment of any part of the gross debt; which is nothing.

4. The amount, as estimated by this Board, of special assessments, to be levied on account of local improvements, for which any part of the gross debt was, or is to be incurred, and which when collected will be applied to the payment of any part of the gross debt; which amount is nothing.

5. The amount of bonded debt, included in the gross debt and incurred or to be incurred for water, gas, electric light or power purposes, or

two or more of such purposes; which amount is \$17,500.00, said amount representing the bond issue provided in this ordinance.

(c) The net debt, being the difference between the gross debt and the deductions; which amount is nothing.

(d) The assessed valuation of property as last fixed for municipal taxation \$215,807.04.

(e) The percentage that the net debt bears to said assessed valuation 0.011.

That this ordinance shall be published once in each of two successive weeks, after its final passage, in the Daily Reflector, a newspaper published in 1901 County, which County embraces the Town of Grimesland, and circulated in the municipality of the Town of Grimesland (there being no newspaper published in the town of Grimesland.)

The foregoing ordinance was passed on the 15th day of January, 1924, and was first published on the 15th day of January 1924. Any action, or proceeding, questioning the validity of said ordinance must be commenced within thirty days after its final publication.

J. H. BROOKS, Clerk of the Board of Commissioners of the Town of Grimesland.

NORTH CAROLINA

PITT COUNTY

TOWN OF GRIMESLAND

J. H. Brooks, being duly sworn, deposes and says:

That he is the duly qualified and acting Clerk of the Town of Grimesland, Pitt County, North Carolina, and as such, he keeps the records of its governing body; that the foregoing ordinance was duly and regularly introduced by the Board of Commissioners of the Town of Grimesland at the beginning of its annual meeting, held in the Bank of Grimesland on January 17, 1924, that after its introduction W. S. Elks, Mayor, was directed to file with said Board, the financial statements set out in said ordinance, which financial statements were made under oath and filed on said date after the introduction of said ordinance and before the final passage of said ordinance; said ordinance was finally passed and adopted by said Board by unanimous vote with all members of said Board present and voting at 9:30 o'clock P. M., Thursday, January 17th 1924, and was first published on the 15th day of January, 1924, in the Daily Reflector, a newspaper published in Pitt County, North Carolina, which County embraces the Town of Grimesland, and of general circulation in said Town of Grimesland; and notice is hereby given that any action or proceeding, questioning the validity of said ordinance, must be commenced within thirty days after January 18, 1924.

J. H. BROOKS, Clerk of the Town of Grimesland, Pitt County, North Carolina.

Your children's food

The foods your children eat today, determine their strength and health in later years.

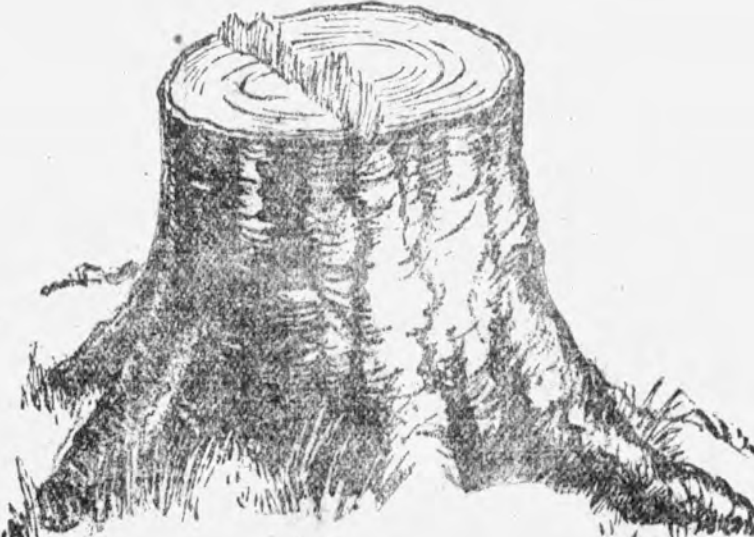

Remember this; they must have well balanced meals. Their food should contain the right amount of mineral salts. These salts act as bone building material.

Bakings that are made of good plain white flour and baking powder contain the necessary amount of mineral salts. Allow your children to eat heartily of these bakings together with fruits and dairy products. This forms an ideal food balance.

When making quick rising breads and pastries such as: biscuits, muffins, cakes, waffles, etc., don't fail to use Calumet—the economy Baking Powder. It contains more than the ordinary leavening strength—it's the purest and surest leavener made. That's why it helps make your flour foods light and easily digested.

Millions of mothers use Calumet daily because they are interested in their children's welfare—their present and future health.

How much of your land is producing stumps?

BEFORE explosives were used on the farm, clearing land was heavy, costly work. Today, stumping can be done at a surprisingly low cost—less labor and trouble—quicker and better results.

Many farmers in this section are using Dumorite, the du Pont explosive, for clearing their stump land—making their farms "bigger" for profitable crops. Dumorite does the job at lower expense and does it right. Dumorite gives you one-third more sticks per dollar—about the same strength, stick for stick, as 40% dynamite, and the slow, heaving action of 20%. It is non-freezing and won't give you a headache from handling.

We carry complete stocks of Dumorite and other du Pont dynamites—recognized as standard wherever explosives are used. Let us estimate on the cost of clearing some of your stump land.

How to Get Better Milk Prices

Now is the time to feed a real milk producing ration.

By raising the average of your winter milk deliveries with Cow Chow during the winter months you can expect better prices, and more milk accepted in the spring and summer.

The dairy farmer who brings in twenty gallons a day in the winter and then tries to deliver 40 gallons in the summer, gets the regular price for only 20 gallons, and the surplus price for the other twenty.

The dairy farmer who has a big fall and winter production establishes a high average for himself and gets a good price in the spring and summer on grass for as much milk as he made last fall.

Cow Chow now means more winter milk and more summer income.

TOXIN SCIENTISTS AFTER WOULD MEAN WEARINESS DEATH

LONDON.—Scientists having failed to find the elixir of life or the fountain of youth are now seeking the next best thing—a vaccine that will do away with weariness and enable a person to go through all forms of exertion without fatigue. The search, according to Sir Robert Armstrong-Jones, is going on in the United States, Italy and the United Kingdom.

Crile and Cannon are leading the movement in America and Mosso in Italy, he said. They are experimenting with tired animals. They are basing their experiments on the medical fact that the human body invariably creates its own anti-toxins when poison enters the blood. Even if the fatigue-fighting vaccine is found it still will be necessary for man to sleep, said Sir Robert. Indeed, the alleviation would be conducive to slumber.

Pending the discovery of the toxin various methods to avoid that tired feeling are being advocated. One is the use of a salt in a solution as a beverage. Experiments upon miners have shown that their efficiency is increased 20 percent by the daily use of salt, a recent convention in London was informed by Professor K. Neville-Moss.

Laborious work in a hot, dry temperature, Professor Moss explained, causes the worker to perspire freely and leads him to drinking large quantities of water. This, said Professor Moss, produces cramps, fatigue and clogging of the kidneys.

To prevent water poisoning, miners undergoing the tests in this country were given a solution of salt in water to balance the loss of salt by perspiration. As a result the miners dug more coal, their vigor was maintained throughout the day, they were no longer bothered with cramps and they slept more soundly.

Professor Moss said the best solution of salt to use is one containing 160 per cent sodium chloride and 40 percent potassium chloride.

NAVAL LEAGUE SEEKS UNIVERSITY USE OF FLAG

NEW YORK.—The United States Junior Naval League has started a campaign for the general display of the American flag throughout the country. This project embraces also a campaign of liberal education in loyalty in the mills and factories of the land, and the placing of the flag on every industrial building.

Everything possible should be done the League declares, to stimulate the latent patriotism of the men and women employed in these mills; the flag should be visible to them at all times, so that they may receive inspiration from it.

California Law Drives Japanese Farmers Eastward

SAN FRANCISCO.—Japanese farmers, forbidden by a California law to own or lease agricultural lands or to work them on a crop-sharing basis, are turning toward eastern and middlewestern centers of population, local Japanese say.

California, in turn, is looking to the east and middle west for thousands of white farmers to purchase, lease or work lands forced away from Japanese tillers. Throughout the state ways of attracting farmers are being discussed. The land offered includes some of the richest soil in the state.

The United States supreme court in several recent decisions has upheld the California alien land law. The latest decision upholds the provision forbidding aliens ineligible to citizenship from being employed on crop-sharing contracts. This ruling is said to have affected more than 30,000 Japanese, who until this fall were employed on California lands under crop-sharing contracts. Tens of thousands of highly productive acres were involved.

The immediate effect of the decision, it was said at the Japanese consulate and the Japanese Chamber of Commerce here, was for representatives of the Japanese to be sent into eastern states to survey the agricultural situation. The survey was reported to have indicated that many Japanese could find profitable

Come to Winterville Tuesday 2 p. m.

employment as truck gardeners in districts surrounding the large cities. It also was learned that in most of these districts Japanese could lease or buy land without restriction.

For years California has been waging a fight for a "white state." The political fight has ended the Japanese have given assurance that they will make no further effort to combat the law, but behind it all has been left a vast and acute economic problem of replacing Orientals on California farms.

The big land owners of California have been hit the hardest. The huge estates have been the largest employers of Japanese under leasehold and crop-sharing contracts. These estates still can employ Japanese as farm laborers for cash wages but the Japanese is declared to be not nearly so efficient as a laborer as on a crop-sharing basis. Furthermore, the Japanese themselves much prefer a proprietary interest in their undertakings, now forbidden in California, but possible in other states.

In many quarters the breaking up and sale of big estates is forecast. If necessary, they must be sold or leased in small parcels to farmers who can till the acreage by their own resources. Often the larger farms cannot afford to hire enough day laborers.

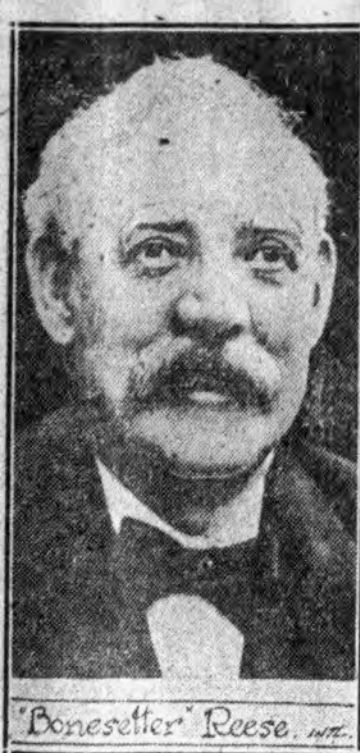

Summer Lingered in Greece

Athens, Jan. — Summer has lasted in Athens this year to the middle of December, a condition without precedent in the last 60 years. Up to within a few days before Christmas the people of the city were wearing their summer clothes.

A serious aspect of the warm weather, however, is the drought. The water level in the municipal reservoir is very low, and the question of a sufficiency of drinking water is becoming acute.

"Dr. Lorenz of America" Is "Bonesetter" Reese.

"Bonesetter" Reese.

Above is the latest photograph of "Bonesetter" Reese, of Youngstown, O., sometimes called the "Dr. Lorenz of America." A Welshman, he came to America a poor immigrant, having learned something of bloodless surgery in England. He went to work in the Youngstown steel mills and attended all the injured workmen. His fame now crosses both continents, and he has treated such men as Theodore Roosevelt, David Lloyd George, Fred Stone, Pat Kearney, Hans Wagner, "Home Run" Baker, Ty Cobb and Charles Evans Hughes. He is immensely rich, but, remembering his own lean days, makes no charge to poor patients.

of the liner Armagh, sang "Yes we are leaving the Armagh," just before that 12,000-ton boat broke in halves.

The Armagh left Liverpool for New Zealand with a full cargo, three passengers and 100 crew, but struck on a sand bank at the mouth of the Mersey. The crew formed a ladder down the side of the vessel and handed the passengers into a tug. Then they assembled on the forecastle and sang their song just before being taken off in the lifeboat.

REO

The Gold Standard of Values

What Makes the Reo the Ideal Car for Women?

SALES statistics show that more women are buying and driving cars each year, and that women, in a majority of all car sales, influence the final selection.

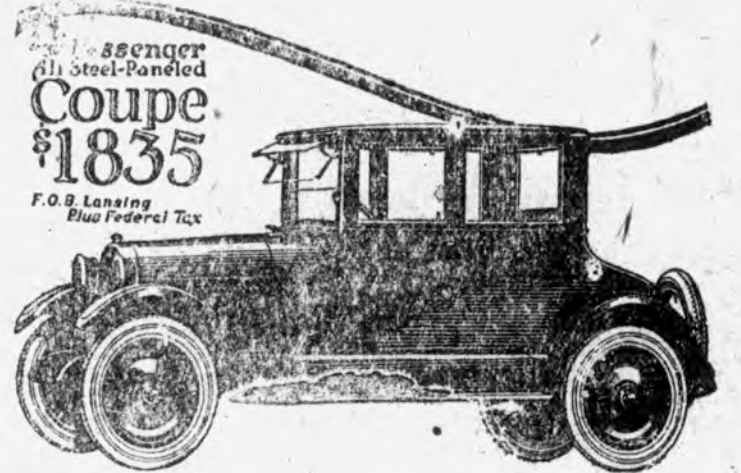

Reo has been one of the first to feel this influence because women have always preferred the Reo dual control system, the Reo easy steering qualities, Reo dependability and comfort, and Reo beauty of line and finish.

The elimination of the hand brake, and the Reo method of controlling the car without the necessity of removing a hand from the wheel give women drivers greater confidence. Reo's easy steering and comfortable riding qualities prevent fatigue, and Reo's beauty always appeals to the woman's inborn sense of appreciation of fine things.

Set yourself straight on these Bran facts!

If you eat bran it is because you seek relief from constipation and toxic poisoning!

To get the relief your physician will tell you that bran will give—you must be certain to get Kellogg's Bran, BECAUSE it is ALL BRAN! That is the kind your physician intends you to eat.

You only delay positive relief when you eat foods with a partial bran content, because they can only help you in proportion to the amount of bran they contain! You haven't time to waste on 25 per cent or 50 per cent relief when you know that Kellogg's Bran will give you 100 per cent relief BECAUSE IT IS ALL BRAN!

Every day's delay lets your condition become worse! Pills and cathartics can only aggravate distressing conditions. Part bran foods cannot permanently help you! They do not have the necessary bulk or roughage that makes ALL BRAN positive in its mechanical action! That is why Kellogg's Bran is a necessity!

Kellogg's Bran—because it is ALL BRAN—is GUARANTEED to give you permanent relief if you will eat two tablespoonfuls each day, or as much with each meal in chronic cases!

If you would realize how delicious Kellogg's Bran is—cooked, krumbled and ready to eat—and what it means to your health—you would not lose a minute starting to eat it! All grocers sell Kellogg's Bran in the Red and Green package.

Kellogg's
the original BRAN—ready to eat.
