SINCLAIR SLATED TO APPEAR FRIDAY BEFORE COMMITTEE

Work of Committee Is Slowed Up By Failure to Locate G. D. Wahlberg, Former Secretary to Sinclair

Washington, D. C., March 20.—The Senate oil committee suffered a temporary setback today when it undertook inquiry into the story that Harry F. Sinclair had turned over a large batch of securities to Attorney General Daugherty and Will H. Hayes to help wipe out a heavy deficit that occurred in the party's treasury in the campaign of 1920.

Hayes has been subpoenaed to appear before the committee later and Sinclair will probably be questioned tomorrow.

When he was before the committee some weeks ago Wahlberg testified that Sinclair had turned over \$25,000 in liberty bonds to a "Mr. Hayes" but he did not identify the man named and the committee did not follow up his statement.

While the search for Wahlberg continued the committee turned to other ramifications in the inquiry. Former Representative Thomas W. Ryan, of New York, voluntarily took the stand and denied that he was the man referred to in the records of the oil transactions and Louis Bond, the investigator, followed Ryan on the stand to explain how the identity had been reached and to further explain the reports as submitted by him.

Questioned again about Attorney General Daugherty's stock accounts, Bond said that the first transaction was the sale of 500 shares of Sinclair Consolidated and the next was the outright purchase of the same number of shares.

Detailed oil stock transactions of Jesse W. Smith, confidant of the Attorney General, as given out by Bond show that the net profits in 1922 were over \$1,000. Smith's account was listed as W. W. Spaid number 3, while Daugherty's account was listed as W. W. Spaid number 4 the records showed. Spaid is a member of the Hibbs firm here.

Al Jennings, once famous train robber, of Oklahoma, will be summoned to Washington by the committee.

WITNESS REFUSES KISS BIBLE UNTIL IT IS OPENED

Chapel Hill, March 20.—Miss Iona Cates, proprietress of the University Cafeteria, was called recently, to testify in a case that was being tried in Durham before Judge Graham.

As she took the witness stand, she was handed a Bible and told to take the oath.

Miss Cates glanced at the Bible and then at the Judge and frowned. Then she returned the book to the jurist without pressing it her lips, saying, "Judge, that book is dirty. I hope you do not think that I am going to kiss it."

A scowl came over the face of Judge Graham and he was plainly irritated. However Miss Cates persisted in her refusal to kiss the Bible.

All was silent for a moment, then, as the good nature of his Honor apparently returned, he said, "Suppose you open it. You are sure to find every leaf of it clean."

Miss Cates acquiesced in his suggestion and the trial proceeded.

525 Persons Placed In Employment During Last Week

Raleigh, March 20.—Five hundred and twenty-five men and women were placed in employment throughout the state during the past week by the State Federal Employment Service, according to the report of M. L. Shipman, director of the Service in North Carolina. Of this number 405 were men and 120 were women.

City placements were as follows: Wilmington, 128; Asheville, 102; Charlotte 87; Raleigh, 75; Winston-Salem, 72 and Greensboro, 61.

LIBERAL RESPONSE ASSURES CITY OF COMMERCE BODY

Soliciting Committee at Work Today With Goal in Sight

The Greenville Chamber of Commerce, in behalf of which a campaign has been carried on for the past several weeks, has for its purpose, among other things, more honest-to-goodness publicity at home and abroad; a carefully-planned advertising program; an expanded tobacco market; retail trade enlargement; industrial development; agricultural expansion, etc.

The Greenville citizenship has responded in a magnanimous manner since the inception of this drive, many of the very best citizens stating that it was unquestionably the thing needed. One of the leading professional men of the city stated: "Sure I will join and every other person in Greenville who can should do the same thing. This is just the thing Greenville needs."

Ten of the prominent men of the city met in the Chamber of Commerce rooms this morning to again go out on this drive.

All the active workers on The Daily Reflector's circulation and prize campaign list are just beginning to settle down to some real hard work. The first week of the contest was pretty dull, in fact there was not much of anything accomplished by the many candidates on the list during the first five days.

Several more candidates on the list have taken their campaign in hand and have started to push it in earnest. Those doing good work for the first time include Mrs. Maggie Jackson of Ayden and Miss Ethel Godley of Grimesland.

TEX RICKARD TAKES THE STAND TODAY IN DAUGHERTY INQUIRY

Witness Declares That He Was "Bunked" In Deal to Show Dempsey-Carpentier Fight Pictures

Washington, D. C., March 20.—Tex Rickard, New York fight promoter, called as the first witness before the Senate Daugherty investigating committee, testified regarding his interests in exhibiting the pictures of the Dempsey-Carpentier fight. He told the committee that he knows Jap Muma, New York representative of Edward B. McLean, Washington publisher, and Fred C. Quinby, film producer, who are connected by testimony with the picture deal.

Rickard told that he got "bunked" when he arranged with Jap Muma, Will A. Orr and the mysterious "He" Martin to exhibit motion pictures of the Carpenter-Dempsey fight with immunity from prosecution.

"They never did anything at all for their money," Rickard said adding that Muma told him he would get a law passed legalizing the showing but that he failed to do so.

Rickard emphasized that none had claimed any influence with Attorney General Daugherty but added that expecting passage of the law legalizing the showing he went ahead with the exhibitions and got fined instead.

When I found that they were not delivering the goods I changed the contract, he said. Through Orr's influence he finally got it fixed with the New York state board of censors and we got some results there, Rickard said. When the contracts were finally revised Orr received over \$5,000 for his part and Martin and Muma over \$3,000 each, Rickard said.

After hearing Tex Rickard the committee turned its attention to verify the testimony of G. O. Holdridge, former Department of Justice agent. In previous testimony before the committee Holdridge quoted Muma as saying that Attorney General Daugherty had told him if he put the fight films deal across he ought to get a big cut out of it at least 50 per cent.

Holdridge presented his statement to the committee with an attest by Thomas Spellacy, another former Department of Justice agent, as being absolutely true.

When the committee got Spellacy on the stand he confirmed some of Holdridge's testimony but made some changes in Holdridge's account of the alleged conversation regarding the Attorney General. As I remember it, Spellacy testified, Muma said it wasn't that Daugherty suggested the 50 per cent cut but that he thought he (Muma) was interceding for Tex Rickard and he thought that he (Muma) ought to get an interest for that. Muma said that he told Daugherty that he was going to get an interest, the witness said.

Spellacy admitted that he had never checked up on Muma's statement with Holdridge.

FIGHT FIRE ON FARMS

The National Board of Fire Underwriters is compiling a record of fire losses on farm property in various states covering the period of 1918-21. The total will run well toward \$100,000,000.

The average farm house is not subjected to danger caused by fire in adjoining buildings as is the case with city buildings. On the other hand there is little or no fire protection provided for farm dwelling or outbuilding.

Too many farmers fail to recognize the ever-present danger from fire. Farm buildings should be the most carefully safeguarded against loss from various fires.

Chiefly responsible among the known causes of fires on farm property are lightning, defective chimneys and flues, stoves, furnaces, boilers and their pipes, spontaneous combustion, matches, smoking and petroleum and its products.

Every farmer knows that he can remove the lightning hazard by a very simple and inexpensive method of lightning rod equipment. Defective chimneys and flues are wholly within the control of the owner of the property. Proper repairing of stoves, furnaces, boilers, and pipes is a matter of good housekeeping which it is almost criminal to neglect. Sparks on roofs cannot be entirely eliminated but if the chimneys are tight and run to a proper height danger from this cause is reduced to a minimum. Fires caused by petroleum and its products can be wholly eliminated if proper care is maintained in using these articles and if they are kept in receptacles intended for the purpose. Spontaneous combustion us-

ually results either from oily rags, paint or similar material left carelessly where last used or from explosions in barns due to improper ventilation. It is simple to avoid these hazards by the use of ordinary intelligence.

For every bit of farm property that is destroyed, the profits of some farmer are wiped out and the "problems of agriculture" are increased by just that much, for the farmer must secure new capital with which to replace property destroyed. This must all be charged up against the high cost of production on farms.

As to fatalities and mutilations due to fire on the farm, there are no available statistics but conservative opinion holds that of the 30,000 deaths and injuries by fire in the United States in 1923, a regrettable number occurred in rural districts.

To avoid the larger part of America's fire loss, whether it be in town or country, does not require any specialized knowledge but only the quality of ordinary carefulness and the exercise of common sense.

TEACHING KINDNESS TO CHILDREN

The enactment of a state law in Oregon requiring that kindness to animals be taught in all public schools from 15 minutes to half an hour each week is attracting nation-wide attention.

F. Rivers Barnwell, Field Worker of the American Education Society, enclosed a statement from S. M. N. Marrs, State Superintendent of Education, Austin, Texas, to the school children of Texas as follows:

"I take pleasure in directing your attention to the fact that education in its broadest sense includes the training of the individuals in order that good character may be the main result. We cannot have good character unless we observe the 'Golden Rule' and the observance of the 'Golden Rule' should be made broad enough in its application to include animals as well as people.

"To this end I wish to endorse teaching of humane treatment of animals as a means of instilling into minds of children proper regard for feeling of others. If we can have the conception that the word 'OTHERS' includes all animal life we will have taken a long step toward world peace, for the individual who has this feeling and will apply the 'Golden Rule' will not be found advocating harsh treatment of individuals. It is the function of schools to make this contribution to education, and the organization of local societies which have for their purpose the protection of animals and children will contribute very largely to the uplift of social conditions."

Haven't You Heard of the New Way to Grow Better Crops?

Cured Fertilizer—The Result of Years of Research

For a lifetime Mr. Royster and his large organization of farm experts have searched, tested and toiled to improve fertilizer and thus increase the earnings of farmers.

A Startling Development

One of the most startling discoveries has been the curing of fertilizer. Mr. Royster and his helpers found that after aging in bins for four to six months, fertilizer grew better crops! The various chemical elements combine with one another and the close association of these elements brings about a chemical action which makes every food element in the fertilizer available to the plant, just exactly as it is needed—from seed time to harvest.

Double Milled

After this aging, Royster's Fertilizer is re-milled (to prevent lumping) and then bagged. All this additional work and care certifies the quality of Royster's Fertilizer—and assures you of proper feeding for plants.

TROPIC SEAPORT WASHED AWAY

Typhoon and Tidal Wave Destroy Coast Towns With Big Loss of Life.

It is an idle boast to defy God when the elements are storming. This, a small seaport on the tropical Japanese coast learned to its dismay after a tidal wave, accompanying a terrific typhoon, had washed away most of the inhabitants and destroyed all visible property.

Yet the boast was not made by one inclined to idle boasting, for the "Professor," proprietor of the local "Honky Tonk," had feared no man, whether he were white, black, brown or yellow, all with which his resort had swarmed.

When the typhoon swept down, clouds dropped their contents in bursts; and mighty electrical bolts, as though the mythological gods were at war with each other, fell thickly destroying houses and century old trees. And all this, realistic to the point where modern science duplicated heavenly wrath, thanks to the wizard Steinmetz, makes the latest Universal Super-Jewel, "Thundering Dawn," which will be shown at White's Theatre, today, live a long time in the memory of screen lovers.

The Professor depicted by Richard Kean, Shakespearean star, had been through many storms during his half-century of life. He had been in shipwrecks, earthquakes, shooting frays and travels amid obscure savage tribes. Never had he felt fear. Very seldom had he resorted to bravado. But the habits of the resort, covered by the ominous flashes and thunderous ear-splitting heavens, crowded about him, in fear.

The great sea wave rolled in while everything it encountered crumbled under its furious power. How many might have perished, will never be known. These terrible tropical storms come out of the sea and wind, mysteriously, and destroy everything they encounter. The good die with the bad, and few are every lucky enough to escape.

DAINTY FRENCHMAN REFUSES SERVICES FROM DIRTY HANDS

Hayre.—Jean Durand went into court recently in support of the gospel of clean hands. He was arrested because he refused to give his railroad ticket to the conductor on the train from Paris.

"He wore no gloves," Durand explained to the desk sergeant, "and who knows how many microbes had gathered on his hands from the tickets of others?"

The police let Durand off with the admonition hereafter to obey the law that requires ticket to be presented, even to unglorified trainmen.

MAKES FAT PEOPLE SLIM M

New York Physician Perfects Hardee's Method of Reducing Weight. The loss of as much as a pound of excess fat a day with no harmful results is the record made by many patients of Dr. R. Newman, a licensed practicing physician of 286 Fifth

Avenue, New York, who announces that he has perfected a treatment which has quickly rid fat people of excess weight. What is more remarkable is the Doctor's treatment that he has successfully treated thousands of patients for fat reduction without change of diet or unnecessary exercise. It is also said that fat people who suffer from chronic rheumatism, gout, asthma and high blood pressure obtain great relief from the reduction of their superfluous flesh. Realizing that this sounds almost too good to be true, the Doctor has offered to send without charge to anyone who will write him, a free trial treatment to prove his claims, as well as his "Pay-when-reduced" plan. If you want to rid yourself of superfluous fat, write him today, addressing Dr. R. Newman, 286 Fifth Avenue, New York City, Dept. R.

"Style, Quality, Satisfaction, Service"

To The Democratic Voters Of The First Congressional District

Notice is given that I am a candidate for the Democratic Nomination for Congress from this District and I respectfully ask a fair and candid consideration for my fitness to represent the people of the District.

Having absolute confidence in the Democratic National Convention I believe it will select a Committee that will write a platform in the interest of all right thinking people and upon this platform I will stand.

There are however certain principles and methods of administration and good business sense suggest which as a member of Congress I would favor and advocate.

The government should belong to the people and a man who is honored with office or in any way serves the people is the servant and not the master.

I believe in the sanctity of a business obligation. In treating the other fellow as you would be treated. In living up to the lofty ideal of "live and let live."

"No man can serve two masters" and I do not believe men who have been honored with high office should be allowed to sell their influence under the cloak of their profession. I am under no obligation, political or otherwise to anyone. Most of my business dealings have been with the man of small means and I fully appreciate the difficulties the average man has in making a living and while I know he does not want any advantage he does want an equal chance. To help him secure this opportunity will be my pleasure.

I fully realize there has been a letting down of the high ideals held by Woodrow Wilson as is evidenced by the rottenness being aired in our National Capital today and I know there must be a revival of common honesty and moral integrity or our Country is in real danger. We have too many laws and too little enforcement. I favor less laws and a drastic enforcement of what we do have.

I want to see less burdensome taxes on the people and to accomplish this I will advocate a complete overhauling of every department in Washington and the discharging of thousands of useless employees who render no real service. Abolishing of all duplication of work and thereby decreasing expenses. As it is now conducted, work of exactly the same character is carried on in several different departments. I favor the cutting of all governmental expenses to the bone where it can be done not to interfere with efficient service.

I lay no claim to being an astute politician nor to having a mind filled with legal lore. I am a plain ordinary business man but I do claim to have a mind and heart not biased in judgment and which will serve the best interest of my people.

I invite the most searching scrutiny of all my dealings with my fellow man and should the voters of the District deem me worthy the honor of their support I pledge myself to their service.

Respectfully,

JOHN D. BIGGS

Every Child Must Have a Fair Chance

Our School Board tells us that in another year present facilities will be inadequate to enroll the children entitled to attend the Greenville Public Schools.

A glance at the list of members of Our School Board is sufficient to convince all fair-minded citizens that our interests are in safe hands.

OUR CITY OFFICIALS STAND SOLIDLY FOR INCREASED SCHOOL FACILITIES.

We Must Provide For The Children

All forward looking citizens should register, work and vote for the BOND ISSUE that is to be submitted to the people on APRIL 1ST:

Therefore, we the undersigned citizens enlist our selves in the cause, and urge all the people to do likewise, so that the door of learning may be open to every child.

"The Covered Wagon"

The new Paramount picture, "The Covered Wagon," which has already won the greatest success of many seasons in New York, Boston and Los Angeles, is coming to White's Theatre March 26, matinee and night, as in the other cities mentioned it is drawing capacity houses at the daily matinee and night performances. Beside the stirring dramatic incidents of the Emerson Hough narrative, the thrilling beauty of the prairie fire, the Indian attack and the perilous fording of the treacherous Platte River by the wagon train, the picture carries a message of high patriotism that reaches the heart of every beholder.

No one can see "The Covered Wagon" without gaining a new understanding of the courage and idealism of those brave souls who created the civilization of the west, nor can anyone escape a feeling of pride that these men and women were the forebears of the true American of today. The chief characters in this stupendous photoplay are impersonated on the screen by J. Warren Kerrigan,

Lois Wilson, Alan Hale, Charles Ogle, Ethel Wales, Ernest Torrence, Tully Marshall, Guy Oliver and John Fox. The musical accompaniment to the picture, arranged by Hugo Reinsefeld, is played by an orchestra of twenty pieces.

Process of Roasting Gives Kick to Coffee And Cocoa, Report

Hamburg. — German and Swiss scientists who have been investigating the effect of coffee, tea and cocoa on the human system have reached the conclusion that coffee and cocoa are stimulating chiefly because of the chemical changes brought about by roasting. Experiments were made upon both men and dogs to discover the effects of the three drinks which are commonly used throughout the civilized world. These showed that tea was less exhilarating than coffee and cocoa.

Coffee from which the caffeine had been extracted also was tested, and men who had used this beverage without knowing the change made in it underwent the same stimulation

enjoyed by those drinking ordinary coffee. They did not, however, have the increase in blood pressure which came to those who drank coffee from which the caffeine had not been extracted.

It was the conclusion of the investigators that the roasting of coffee and cocoa change them in such a manner that when used in drinks
