Mellon and Sixsmith To Take Stand In Means Trial

Treasury Sec'y Will Appear In Means Hearing

Subpoenas Today Issued for Secretary Mellon and His Secretary to Appear in New York; Mellon's Name Mentioned in Testimony

New York, June 20.—Subpoenas were issued today for the appearance of Secretary of Treasury, Mellon, and his secretary, Arthur Sixsmith at the trial of Gaston B. Means and Elmer W. Jarnecke in federal court here next Tuesday.

Means, a former agent of the department of justice, and Jarnecke, his secretary, are being tried by Federal Judge Wolverton on charges of conspiracy and violation of the prohibition laws by withdrawal of liquor.

The names of Secretary Mellon and Sixsmith were brought into the testimony Wednesday by John W. Hubbard, of Trenton, N. J. He testified that he had had opportunity to buy whiskey obtained through special government concession from the Thompson Distilleries Warehouse at Brownsville.

Seed Breeders' Asso. To Be Held Rocky Mount on July 10

Rocky Mount, June 20.—The Edgecombe County Seed Breeders' Association will hold its annual meeting on July 10 next, it was announced here by V. R. Herman, manager of the Association. The business meeting of the Association will follow a barbecue that will be held on the farm of W. W. Bullock, near this city.

Dr. R. Y. Winters plant breeding agronomist of the State College of Agriculture, will be the principal speaker. Manager Herman will review the work and progress of the Association since the last meeting.

It was stated that as a result of the improved breeding and the cooperative sales as fostered by the Association, the members last year sold 18,800 bushels of bred cotton seed. The association is also taking up the breeding of other seeds.

Jenkins to Begin His Long Prison Sentence

Lexington, June 20.—L. C. Jenkins, former chief of police of Thomasville, today goes to Raleigh to begin serving his sentence of 25 to 30 years in state prison. He was convicted recently in Superior Court here of second degree murder for the slaying of Mrs. Elizabeth V. Jones, Apalachia, Va., with whom he had been living.

After conviction Jenkins filed a notice of appeal. It was stated here today that he had abandoned the appeal and would enter prison tomorrow.

FATE OF YOUTH IN HANDS OF JURY

Clearwater, Fla., June 20.—The fate of Frank McDowell, self-confessed slayer of his two sisters at Decatur, Ga., and his mother and father at St. Petersburg, Fla., was placed in the hands of the jury exactly at noon today.

DEMOCRATIC PARTY WILL OPEN CONFAB NEW YORK JUNE 24

2,600 Delegates and Alternates to Attend; Ten Days' Session May Be Required

New York, June 20.—The tentative program of the Democratic National Convention follows closely the schedule of procedure which has prevailed in previous national sessions of the party. Many leaders believe the convention will last ten or 11 days.

The first formal assembly of the 2,600 delegates and alternates at the main auditorium, Madison Square Garden, will be at noon of Tuesday, June 24.

Cordell Hull of Tennessee, chairman of the Democratic National committee, will call the convention to order, and a member of the New York City clergy will pronounce an invocation. Mr. Hull's introduction of the temporary chairman, Senator Pat Harrison of Mississippi, will be followed by the Senator's keynote speech.

Mayor John F. Hylan of New York will deliver an address formally welcoming the convention to this city, and adjournment will be taken, probably at about 3:30 p. m., until noon Wednesday.

The report of the committee on Permanent Organization will start the second day of the convention, after which the committee on rules will report. Meanwhile, the committee on resolutions will commence its work and start drafting the platform. The report of the credentials committee will conclude the regular business of the Wednesday session.

With the permanent chairman presiding, the convention will open its third day at noon, Thursday with reports of the committees.

The platform probably will be presented to the convention on Friday. The nomination of candidates for the presidency, of whom a score already are in sight, will begin late Friday or early Saturday accompanied by the traditional band-playing, singing and noisy demonstrations as each candidate's name is put forward.

Thursday the convention will adhere to a prescribed formula for only the first five days. If nominations are not made immediately, there will be continuous day and night sessions, except on Sundays and continuous balloting until a nominee for president and a running-mate for the vice-presidency shall emerge from the fray victorious.

The 1920 convention at San Francisco lasted nine days. Some local party counsellors predict the impending convalescence, confronted by so many candidates to choose from, will be kept busy for 11 days. Should their prognostications prove correct, the Democratic candidates would be named on the Fourth of July.

High Peaks to be Sealed.
Edmonton, Alberta.—An attempt to scale Mount Robson will be made this summer by the Alpine Club of Canada. Arrangements also are being made for an expedition to scale Mount Logan, Canada's highest peak, in 1925.

PROMINENT FIGURES IN DEMOCRATIC CONVENTION.

THOMAS J. WALSH & HOMER S. CUMMINGS

United States Senator Thomas J. Walsh, of Montana, was nominated by the Democratic National Committee to be permanent chairman of the Democratic National Convention in New York City, and Homer S. Cummings, of Connecticut, was selected to be head of the committee on resolutions, in which capacity he would frame the tentative party platform.

Coca-Cola King Sues For Divorce

Atlanta, Ga., June 20.—Asa G. Candler, Sr., Atlanta capitalist, has brought suit for divorce from his wife Mrs. May Little Candler. The papers allege cruel treatment. The divorce petition was filed in Fulton county Superior Court late yesterday and became public today.

Candler, the millionaire founder of Coca Cola, married Miss May Little Ragin, public stenographer in the Candler building, a year ago. After a honeymoon to northern cities he installed his bride in his palatial residence in the Druid Hill residential section of Atlanta.

Some months ago Atlanta society and business circles were startled when police reported that Mrs. Candler and two prominent business men, W. J. Stoddard and W. Koeling, had been arrested in a raid in a fashionable apartment house in the northside residential section, sitting around a table upon which reposed a bottle partly filled with liquor. They were released upon bond and when the cases were heard before a recorder the charges against them were dismissed. A charge of violation of the prohibition laws was placed against Stoddard.

NEGRO HANGED MURDER STUDENT

Florence, Ariz., June 20.—William B. Ward, negro, was hanged at dawn at the state prison for the murder of Ted Grosh, Arizona University student.

Ward was convicted for one of the most brutal murders ever committed in the state.

Grosh was slain on December 26 while he was riding in an automobile with a young woman. Ward stopped the car, stepped up on the running board and fired a bullet through Grosh's head killing him instantly. He then forced the young woman to get out of the car and accompany him to an abandoned mining tunnel where he attacked her and fired two shots into her body. She eventually recovered and appeared as a witness against the negro.

After his conviction and confinement here Ward tried to gain his freedom by attempting to kidnap and hold in his cell, two women missionaries who were calling on him. One of the women sustained severe injuries. Fellow convicts rescued the women and were prevented from killing Ward only by the intervention of the prison superintendent.

Rhode Island Solons Leave State Rather Than Attend Meeting

Providence, R. I., June 20.—As the result of flooding with poisonous gas the Senate chamber yesterday and the collapse of five Senators, Republican Senators announced today through the state central committee that they were leaving the state and would not sit in the Senate chamber again unless they were given means of protection.

Baptist Seaside Assembly Be Held Morehead June 23

Morehead City, June 20.—The Baptist Seaside Assembly will open its ninth annual conference here on Monday evening, June 23 and will continue in session until Tuesday evening, July 1, it has been announced by those in charge of the arrangement of the conference. The Assembly is a summer training school for Christian workers operated under the auspices of the State Baptist convention.

This is the second year that the Assembly has been held in Morehead City, previously Wrightsville Beach was the meeting place.

Fully 500 workers are expected to attend. Perry Morgan, Raleigh, has completed one of the most variable of programs for the assembly, it was said. There will be class room lectures and addresses in the morning and evening, while the afternoons will be devoted to recreation such as fishing, boating, swimming and the like.

Negro Electrocutted South Carolina Today

Columbia, S. C., June 20.—Charlie Semuels, young Spartanburg negro, was electrocuted in the state penitentiary at 8:40 this morning for the murder of another negro several months ago. Before going to the chair he confessed the killing saying that robbery was the motive.

DAWN TO DUSK OCEAN TO OCEAN FLIGHT IS POSTPONED FOR DAY

Mitchell Field, N. Y., June 20.—The cross the continent flight between dawn and dusk by Lieutenant Russell Maughan was called off at 2:36 Eastern Standard time this morning because of weather conditions.

A dense fog was hanging over the metropolitan area and extended about 100 miles westward leading Lt. Maughan to postpone his flight between dawn and dusk from coast to coast. The flight may be attempted tomorrow he announced.

DAVIS MENTIONED AS COMPROMISE IN CASE DEADLOCK

Possibilities of West Virginian Increase As Delegates Arrive For National Convention

New York, June 20.—With the increasing influx of delegates to the national Democratic convention, political mathematicians are busily engaged in figuring the actual and potential strength of the leading candidates, complicated as their task is, by the arrival of favorite sons and dark horses in candidate row.

Two separate movements grooming John W. Davis, West Virginia, former Ambassador to Great Britain, which developed in Washington and Chicago, were growing stronger every minute when the movement arrived here and after Mr. Davis let it be known that he was in a receptive mood. The Smith leaders who are opposed to McAdoo immediately began sounding out the state leaders as to Davis' possibilities as a compromise candidate if the Smith McAdoo contest should develop into a deadlock.

Managers for George S. Silzer, governor of New Jersey; Carter Glass, of Virginia; Oscar W. Underwood, Alabama and James M. Cox, Ohio have opened headquarters here.

Work has already been started by Homer S. Cummins on the party platform. It is generally conceded that the main test of the strength of the McAdoo and Smith forces will be on the question of the Ku Klux Klan, League of Nations and Prohibition. George E. Brennan, Illinois leader and known supporter of Smith, is bitter in his attitude toward the hooded organization and insists that the Democratic platform must denounce the Klan. Managers of the McAdoo camp reiterated the attitude of their candidate in his southern speech as to Americanism and Religious tolerance.

T. E. Lippard Paroled For Remainder Term

Raleigh, June 20.—Governor Morrison has paroled for the remainder of his term, T. E. Lippard, who was sentenced at the July 1923 term of the Catawaba county superior court to 18 months in the county jail Lippard, has served a portion of his sentence but has from time to time received paroles from the Executive in order that he could receive treatment in a hospital. The prisoner, it was said, is still in poor health and in need of attention at a hospital. For these reasons, the Governor stated that he paroled the man.

EDSEL FORD, MRS.

MRS. ALLSBROOK DIED TODAY AFTER A LONG ILLNESS

Services From Late Home Tomorrow Afternoon; Interment in Cherry Hill Cemetery

Mrs. E. B. Allsbrook, 50, died this morning at 4:30 o'clock at her home on Eighth street after an illness of two months. Services will be conducted from her late home tomorrow afternoon at 6:30 o'clock by the Rev. V. P. Scoville assisted by Dr. T. H. Plemmons. Interment will follow in the Cherry Hill cemetery.

Mrs. Allsbrook, nee Miss Mollie Dickens, was born on June 9, 1874, being a daughter of the late Mr. and Mrs. Henry B. Dickens, of Halifax county. She has made her home in Greenville for fifteen years during which time she has endeared herself to a host of admiring friends.

Mrs. Allsbrook possessed a lovely christian character, was a devoted wife and mother and a splendid neighbor. She was a member of the Jarvis Memorial Methodist church and was one of its most loyal workers.

She is survived by her husband, one daughter, Miss Mary Ruth Allsbrook and one son, H. Worth Allsbrook, of Lynn, Mass. Four sisters also survive, Mesdames Lena Boyett, Wesley Gallaspy, Daniel Hoffman and R. A. McDaniel, all of Norfolk, Va. The active pallbearers will be: S. B. Curran, E. L. Baker, J. L. Leggett, M. L. Turnage, Jim Applewhite, E. G. Joyner, E. W. Griffin and Gordon Congleton.

Honorary pallbearers: W. A. Darden, W. H. Woolard, S. T. Hicks, J. S. Willard, S. B. Underwood, B. S. Warren, Dr. Joe Smith, Dr. J. E. Nobles, S. T. White, H. A. White, Paul Scott, N. W. Jackson, S. J. Everett, P. T. Anthony, H. E. Austin, Leon Rieves, S. R. Meadows, W. H. Ward and J. H. Rose.

Document Prepared By Late Woodrow Wilson Setting Forth American Principles Will Be Presented to Committee When Work is Begun on Democratic Platform

Baltimore, Md., June 20.—A copyrighted dispatch by a staff correspondent in Baltimore Sun said that Woodrow Wilson's last political will and testament, a document of party principles and policies, is to be laid by a group of his followers before the members of the resolutions committee when the time comes to write the Democratic platform.

The "Memorandum" as it is called takes this position of foreign relations: "Straight out straight forward membership of the United States in the League of Nations; abandonment of the 'falsical policy' of 'unofficial observation.' Adherence of this nation to a permanent covenant of peace and order, the auspices of the League of Nations and with no nullifying reservations.

On domestic matters the former president and his political associates agreed upon these policies: "Liberal attitude toward prohibition but with law enforcement whatever the law may be; revision downward of federal taxation as radically and rapidly as the state of the treasury will permit; careful scientific downward revision of the tariff to promote foreign trade and prevent exploitation of the many for the aggrandizement of the few; relief for the farmer by granting him additional credit when needed; re-examination of the whole transportation problem by Congress looking toward lower rates as quick as possible and creation of a new department of transportation having representation in the Cabinet; direct declaration for religious freedom, separation of church and state and condemnation of any sect or order which openly or covertly impairs any religious rights.

The document, the correspondent says, was drafted by Mr. Wilson a few months before his death in collaboration with eight or nine of his closest friends.

BOOSTER PARTY BEING ORGANIZED

Gastonia, June 20.—Efforts are being made to complete the party of 125 members of the Gastonia Chamber of Commerce to go on a booster tour through the cities of western North Carolina and Eastern Tennessee, it has been announced at the Chamber of Commerce here by Ben Douglas, chairman of the committee on conventions. The trip will last three days beginning on July 8 and continuing through July 10. The main cities to be visited are Knoxville, and John City, Tennessee. The publishing plants in Kingsport will also be visited.

Johnson City sent a delegation to this city last year on a similar trip and it was said that they were favorably impressed with the outlook for the development of large business through a closer relations with this section of the state. The resources of Eastern Tennessee and Western North Carolina, it was said, are such that would be most profitable for the closest of commercial relations.

Gundaker Appeals To Rotarians "Don't Forget Your Boy"

Toronto, June 18. — Spare the caddies on the golf links the profanity following missed strokes, the double meaning stories told on the greens and while making the round of the links, plead International President Guy Gundaker of Rotary International during the course of his annual address to Rotarians from all parts of the world assembled here for the 15th annual convention of the organization.

Rotary is pleaded to choose as its members the most able men in a community who enlist themselves for community service, President Gundaker said. And one of the most important of community services performed by Rotary lies in its boys work. Too many people regard what they do as members of an organization—in the mass—as finishing their obligation to their fellow men.

"Boys," said President Gundaker, "get their habits of mind and conduct from the men with whom they are thrown in contact. The Rotarian should extend his boys work to the newsboy, the office boy, the delivery boys, the messenger boys and to the golf links where the players have great opportunity to mould the lives of the caddies. Every caddy should find in the mature business man-golfer a personality worthy of emulation.

"Boys everywhere need good men to help them," said President Gundaker, "but whether your boys work activity is in the mass or whether you are active in friendliness and helpfulness to individual boys, don't forget your own boy. The most valuable Christmas gift a banker friend of mind made his boy was one hour of his time every day and two hours on Sundays and holidays. This time was given without reference to business, social or other engagements by my friend. And it is the greatest investment that man of much money and many investments every made."

NORTH CAROLINA WOMAN CONVENTION DELEGATE

Elizabeth City, June 18. — Mrs. James Greene Fearing of this city has left for New York where she will attend the Democratic National convention as one of the four delegates at large from North Carolina and as one of the two first women ever chosen to such a position from the state of North Carolina.

Mrs. Fearing director of Safety Education in Eastern North Carolina and in this capacity works under the direction of the Insurance Commissioner's office. She has just accepted an invitation to address the annual convention of the National Fire Marshal's Association in Detroit on September 11. Besides organizing Safety Leagues all over the state, Mrs. Fearing has been a great exponent of citizenship and has spoken on this subject throughout the state. One this latter subject her work comes under the auspices of the State Department of Education.

MEN AND WOMEN IN NEWS OF THE DAY.

Above: MISS MARY MALONE & BOBBY JONES. Below: EDWIN GOULD & CARDINAL HAYES.

Bobby Jones, of Atlanta, Ga., former open golf champion of the United States, has been married in his home city to Miss Mary Malone, his childhood sweetheart. Patrick Cardinal Hayes, of New York, was selected to open the Democratic National Convention in New York with prayer. Frank J. Gould, son of the late Jay Gould, has opened a court fight in New York to have his older brother, Edwin, removed as trustee of their father's estate, alleging he is derelict in his duties.

Mr. Jeffrey added that the chief cause of myopia was not near work, as is generally supposed, but mental strain. If all lessons could be made interesting and teachers and parents were paragons of love and

patience, then myopia would be wiped out of the nation's defects.

Baltic Bathers to Get Radio. Warnemunde, Germany. — The whole North Sea and Baltic coast is to be supplied with radio service

from Berlin during the bathing season, according to plans perfected recently. For this purpose the radio station at Swinemunde, which thus far maintained merely a service for ocean vessels, will be reconstructed so as to make possible the broadcast of the Berlin programs to the guests of the Baltic seaside resorts, while the Hamburg station can without difficulty serve the North Sea watering places.

HUNGARY HAIR SEALS THREATEN HEAVY LOSS SALMON FISHERS

Vancouver, B. C.—Destruction of one-sixth to one-third of the average spring salmon pack in the Fraser river by hair seals, has caused local fishermen to fear the fish will become extinct and a large revenue be lost.

So clever are the seals that it is a race between them and the fishermen every time a bobbing cork on the net shows that a salmon has struck it. The seals generally win. Wolf-like, a seal goes for the throat of a fish, and usually a head is all that is left in the net. Fishermen have tried spreading a "blind" net to protect the actual fishing net, but the seals, evidently learning the trick, drive salmon into the net to make capture easier.

Not only do seals live on salmon, but when their hunger is appeased, they kill for sport, tossing the fish out of the water as a cat plays with a mouse. A seal can throw a 30-pound salmon clear of the water, the fishermen declare.

EARTHQUAKE DRIVE SHARKS TO SWARM IN MANILA BAY

Manila.—Fishermen have reported an unusual number of sharks in Manila Bay in recent weeks, and some scientists believe that the many earthquakes experienced in the Philippines and adjacent islands have driv-

en the sharks into less disturbed waters.

It is said that in the days when Dewey's ships were lying in the bay near Cavite, "swimming call" for the crew was sounded each day, but now crews of the American fleet are forbidden to swim in the deep water unless they remain within the wire screening at Canacao Bay,

where the Cavite naval station is located.

ENGLISH VICAR'S DAUGHTER HELD SIX OF HIS PARISH OFFICES
Peterborough, England.—Rev. Jno H. Trott, 76 years old, really cannot continue to manage his vicarage and village of Newborough now that his

Dr. Trott's daughter was organist, choir-master, district visitor, Sunday school superintendent, deputy sexton and churchwarden, and the prospect of all these duties falling on his own shoulders is too much for the aged vicar.

RADIO TO CARRY CONVENTION TO WHOLE COUNTRY

Nine Broadcasting Stations Will Send Out Proceedings of National Democratic Convention Next Week.

New York, June 19.—Two microphones, directly connected with nine central broadcasting stations throughout the United States, will send out the proceedings of the National Democratic convention.

The Radio Corporation of America will control one of the phones; the American Telephone and Telegraph Company the other. In addition to broadcasting all speeches of the convention, the nominations and the accompanying musical or vocal demonstrations, each instrument will send forth a running commentary of Madison Square Garden side-light.

Stations which will be linked directly with the Garden, and from which proceedings will be relayed to radio listeners, will include WJZ at New York City and WGY at Schenectady for the Radio Corporation, and for the A. T. & T. WEAF, New York; WCAP, Washington; WGR, Buffalo; KDKA, Pittsburgh; WMAQ, Chicago; KSD, St. Louis; and WDAF, Kansas City.

All the other waves will not leave the Garden, however, for there will be several radio sets scattered about for those who are of the convention, although not directly in the midst of it. Newspaper men in the news rooms below the main auditorium will hear the proceedings continuously by radio, and several sets will be installed in adjoining committee and officers' chambers.

DANZIG WAR VETERANS DEMAND FREE LAND AND MEDICAL AID

Danzig.—The problem of a soldier's bonus is occupying the senate of this ancient free city. The 16,000 veterans of the world war living in Danzig declare that they are unable to get along with the dole that they are now receiving under a German law of 1906.

Among the veterans' demands are preference in the allotment of land for homesteads, free medical treatment, a 300 percent increase of the weekly allowance, and an extra allowance to blind ex-soldiers to defray the expenses of their trained guide dogs.

Business Day Is Observed By Rotés.

Toronto, Ont., June 19.—This is Rotary business day at the international convention of Rotarians in session here and discussion of the administrative affairs of the organization occupied most of the day's program. Reports were made by International President Guy Gundaker of Philadelphia, Frank Eastman of Perth, Scotland, president of the British Association, William Cairns of Ottawa, chairman of Canadian Rotary, Secretary Chesley R. Perry of Chicago, Treasurer Rufus P. Chapin of Chicago, First Vice President Everett W. Hill of Oklahoma City, Third Vice President Frank H. Lamb of Hoquiam, Washington, International Director Anthony W. Smith, Jr., Pittsburgh, Pennsylvania, Samuel B. Botsford of Buffalo, chairman of the international constitution and by-laws committee and Dwight Marvin of Troy, New York, chairman of the International Committee on Publications. Dr. Harry Fish of Sayre, Pennsylvania, chairman of the committee on Resolutions presented the report of that committee and resolutions affecting certain changes in the governing body of Rotary were read, widely discussed and adopted.

MIGRATING DUCKS CARRY EGGS OF FISH TO INLAND RESERVES

Pittsburgh.—A popular belief that fish are placed in reservoirs for purification purposes, is discredited by E. E. Lanpher, superintendent of the distribution division of the Pittsburgh water bureau.

"It is an old notion that fish serve to keep down bacteria in water," Lanpher said, "but our bacteriologist says this idea cannot be substantiated. On the other hand, fish do no harm."

"Although many persons think the fish are put in the reservoirs to purify the water, they generally get into the water in the form of eggs that have lodged in the hills and feet of ducks. The ducks pause on the surface of the water in their flights in the spring and fall and the eggs which are washed off while the ducks are swimming, soon hatch out."

The Art Of Beauty

By B. M. DOUGLAS

The Older Woman

To look younger than one's age is not necessarily to look more attractive. Each day has its own fascination, and to jettison the charm of maturity for the Fawn Morosana of a scurvy youthfulness is to sell one's own birthright. But, to make the most of this rare charm, a certain amount of wisdom must be acquired in the use of adjuncts to beauty.

Often the woman approaching middle age becomes panicky—either believes that art and artifice are no longer for her, and declines into a pallid and nondescript obscurity, or goes to the other extreme and plunges into a cosmetic orgy in the effort to retain the outward appearance of youth. Both extremes are wrong. There is no reason why the older woman should not use cosmetics in moderation to improve her appearance, but she will only defeat her purpose and add years to her age if she makes up in a glaring imitation of youth.

The reason for this is obvious. Cosmetics, apart, it is not natural for an older woman to have as high a color in her cheeks or lips as a young girl. Therefore, since the principal artistic make-up is to adhere as closely to nature as possible, it is unesthetic for a mature woman to display cherry lips and bright pink cheeks, unless these attributes have withstood the years and belong to her naturally.

What rules of make-up then shall the mature woman follow? Obviously, she is of all types, blonde, medium, or brunette, so that no more than for the younger woman can any one type of make-up be laid down. Let her select the rouge and powder suited to her type, as discussed previously in these columns—for the blonde, rouge Mandarine, Naturelle, or Peaches powder. For the Brunette, Ashes of Roses rouge, Rachel or Peaches and Cream powders. It is for her a question of reducing the emphasis. From say, forty or forty-five on, good taste demands the subdued use of color on the cheeks and lips.

It is extremely important for the older woman to apply rouge where her own natural color is. As a general rule, the color recedes as one grows older, and is found lower on the cheeks than

Queen Marie of Roumania. A distinguished example of the beauty and dignity of the mature woman.

in early youth. The rouge should be very carefully applied and shaded at the edges so as to leave no hard line. By all means go to the window when doing this, so that the uncompromising light of day will guide you as to the amount of rouge to apply.

There are some women who find as they approach middle age that, far from losing their color, they have a tendency to become more florid in complexion. This somethings is accentuated to an embarrassing degree after eating, dancing, excitement, or exercise. To tone down this unbecoming flush to a more delicate color, a new powder has been originated, which bears the romantic name of Vert Ophella. While this powder has a green tone, it is of the utmost delicate water green, or the palest Nile, such as you might get in very filmy gauze, and in fact the effect of its use is to pass a very becoming veil over the too-flushed face.

four have frequently won important rifle-shooting competitions. The British riflemen feel that they will be handicapped at the Olympics by the wide range of arms and ammunition open to use by competi-

tors, since all rifle shooting in this country has been regarded from the standpoint of military efficiency, and there are many target weapons more accurate in obtaining good "grouping" than are service rifles.

ANOTHER VENERABLE MONSTER COMES FROM JENSEN, UTAH

Salt Lake City.—The perfect skeleton of a brontosaurus, said to be the first every found which was not minus the skull, has been unearthed by University of Utah excavators in the region near Jensen, Utah, long famed for its fossil remains.

Professor F. J. Pack and Dr. Earl Douglas of the institution declare the brontosaurus was probably the largest animal which ever existed and they estimate the remains to be about 5,000,000 years old.

The brontosaurus was lizard-like in appearance with a long tail, back and neck. The weight of the creature is thought to have been about 20 tons, and it was about 100 feet long. The top of its back stood about 20 feet and the belly about 12 feet from the ground. It is believed to have fed upon vegetable matter and to have lived partly in the water and partly on land.

CHINESE COOLIES LEAVE FARMS TO PULL THE 'RIKISHAS' IN PEKING

Peking.—The police estimate that there are 70,000 'rikishas' on the streets of Peking. All but 7,000 belong to companies which lease them out to coolies at the equivalent of seven cents a day. More than 200,000 persons are dependent upon the livelihood gained by these coolies, it is said.

The average daily earning of a coolie is 25 cents a day, out of which he must pay his 'rikisha' hire. In spite of the meagre profits, say the police, country people flock to the capital and engage in the business to an extent that is causing a shortage of farm labor.

Ex-Sheriff Anderson Gives Tanlac Credit

Man Who Held Public Office Over 27 Years Says Medicine Restored His Health And Strength 5 Years Ago And Has Helped Him Keep Well

"I said a lot in praise of Tanlac some six years ago, but not half enough. In view of what it did for me," is the high tribute paid the famous medicine, a few days ago, by Hon. Archie R. Anderson, ex-sheriff of Harris county, Texas, who resides at 1505 Austin St., Houston.

Mr. Anderson is unquestionably one of the best known and most popular men that ever held public office in the "Lone Star" state. After serving as deputy sheriff of Harris county for 12 years, Mr. Anderson was elected chief of police of the city of Houston. He had occupied this office but a short while when the sheriff of Harris county died and Mr. Anderson was then appointed by the Commissioner's Court to serve out the unexpired term of sheriff. He was honored with re-election as sheriff seven different times and served the people in this important office 15 consecutive years.

In 1912 Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of this city. Speaking further of his experience with Tanlac, Mr. Anderson said:

"Before taking Tanlac I was all run-down and had no appetite. I had the worst form of indigestion and could not eat fried foods or pastries at all. I suffered all the worst sort of neuralgic pains and nothing seemed to help me in a (temporary) way, until I took Tanlac.

"Then I read the statement of a Georgia sheriff, who had been relieved of troubles like mine, I just felt like I couldn't go wrong by taking Tanlac, and it has done even more for me than I expected. I felt better after the first bottle and the complete treatment of six bottles made a new and different man of me. I never felt better in my life than I did after taking Tanlac. And although five years have passed since Tanlac straightened me up, my health has continued good and my stomach as sound as a dollar to this good day. I am glad to endorse Tanlac because it does the work and does it well."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

FAMILY REUNIONS.

A family reunion at Lille, France, which was attended by 377 persons, was regarded as so extraordinary an event that news has been cabled to U. S. newspapers. It is stated that if all the relatives had been present they would have numbered 951. But the impressiveness of it is diminished for us when we learn the number includes all the descendants of a man who was married in 1685. Almost anybody could claim a family connection equally large if he numbered among his kinsmen all the descendants of an ancestor seven or eight generations back.

However, this French reunion was notable in that it was held at the home of a couple with 19 children. France is much interested in this big family because small families are the rule there and apprehension is felt over the declining birthrate and the fact that the population is almost standing still.

Family reunions in the United States will attendance of 300 are by no means uncommon. Moreover, our reunions are generally of the descendants of an ancestor not more than three or four generations removed; for most Americans know little or nothing of their family trees beyond their grandparents.

It may be that a hundred years hence we shall be as much excited as the French over a gathering of 300 blood relatives. For among the native American stock the birthrate has shown a remarkable decline in recent years. Benjamin Franklin said in the Eighteenth century that the average number of children in an American family was eight. An investigation that has been made of the number of children in the families of college-bred Americans shows an average of less than two children. And more and more our youths are going to college. In England too families have become small, the average number of children in the families of the upper and middle classes now being 1.9 in the families of skilled workmen 1.53 and in the families of

unskilled workmen 2.13. What ever may be the case 50 or 100 years hence, probably a majority of the older Americans of today have a few brothers and sisters a few uncles and aunts, a dozen or more first cousins, and scores of second cousins. This is the season when they should get together, and if it is available the ideal place for the reunion if it is available the ideal place for reunion ering should be held in the open.

IS MUSSOLINI SLIPPING?

The report that Premier Mussolini of Italy has offered his resignation to King Victor Emmanuel as the result of a political scandal arising over the kidnapping and slaying of a Socialist deputy may be an exaggeration, but it nevertheless raises the question as to whether this latest so-called "iron man of destiny" has reached the place in his career where the slipping begins.

Statesmen of the old school never doubted that the amazing power of dictatorship that came to Mussolini so swiftly was "too good to be true or last." They gave only a short period of rule, with his fall to come about as swiftly as his rise. They pointed out that despotism was not for his day. He might check the forces of democracy for a time, but could not hold them back for long. Now there is included in the rumors that a number of the older statesmen of Italy are to be called back as advisors.

Mussolini lifted the country out of a chaotic condition. But was he of the type who "could stand prosperity?" Did he overestimate his strength and go too far? Certain it is he found world sentiment against him when he started to deal high-handedly with Greece. He had to tone down. This also may have contributed to the breaking of the spell of his power at home.

The answer, however, will have to be left to the coming weeks or months. If Mussolini again triumphs over opposition his hold may be assured for some time. But stories of resignation will not contribute to his reputation as an "iron man."

Summer's here. Snake stories are being reported.

No man is boss in his own home unless the family is away.

Two heads are better than one, so maybe this is why they dance cheek to cheek.

If business men talked as they spell nobody would understand what they said.

It is nice for colleges to teach everything, but graduates shouldn't think they know everything.

Some of the "dark horses" in the Democratic convention are likely to turn out to be hobby-horses.

WALTER P. CHRYSLER'S TRAFFIC TALKS

TEACH CHILD CARE

Strict enforcement of highway and traffic laws is most important in preventing accidents. Uniformity of traffic regulations is highly desirable. Only one of 65 child accidents in Connecticut last year could be laid entirely on the automobile driver. The child must be taught to be careful. Safety education is needed in the small towns as well as in the cities. Elimination of grade crossings which is being advocated today is a step in the right direction. Many cities which are struggling with traffic problems today simply haven't a large enough police force to cope with their problems. Whether one lives in the country or the city it always pays to be careful.

Worth racing for

Geo. Mister, if you've ever tasted the real Orange-Crush, you'd race your legs off just to get one!

Here are six reasons why it's so delicious: (1) The natural fruit oil of oranges—which gives that delicate and distinctive flavor; (2) The natural acid of citrus fruits (oranges, lemons and limes)—which gives the tang; (3) Orange juice; (4) Carbonated water—which gives "zip," sparkle, purity; (5) U. S. Certified food color—which makes it as appealing to the eye as to the taste; (6) Pure cane sugar.

That's all. My, what a drink!

GRIMESLAND NEWS

The Grimesland School has installed its first playground equipment. The children are thoroughly enjoying sliding, for some forget to go home for dinner. It is the plans of the school authorities to place other playground equipment on the ground as fast as money can be secured for that purpose. So far no equipment has been secured except a steel slide.

The Sunday school pupils of the churches of Grimesland went on their annual picnic on last Thursday.

Miss Della Mae Jackson, of this town, is spending a few days in Greenville, with her friends, Misses Olive and Blanche Clarks.

Misses Alice Moore of Atlanta, Ga., and Pensay Ward Moore of Raleigh are here visiting Miss Virginia Jones.

Dr. C. M. Jones has arrived home after spending two or three weeks at Hot Springs, Arkansas. Dr. Jones has been suffering with rheumatism for several years but his condition did not become alarming until this spring. Finding no relief for his suffering, Dr. Jones decided to go to Hot Springs. While there he took the treatment for rheumatism and his many friends are glad to see that his health is must better.

On his way to Hot Springs, Dr. Jones, stopped at Memphis, Tenn., with the old Soldiers. In returning he stopped in Atlanta, Ga., and spent a few days with friends and relatives there.

Miss Annie Ruth Jones has gone to the University of N. C. to take a six week course in Primary method before beginning to teach in the fall.

Pompeii and U. S. Both Sign Their Bread

SILIGO GRANII
E . CICER

THE ancient Roman bakers, which it did. Hence the expression "breaking bread." had brought their products up to a high point of perfection 2000 years ago as is proven by the loaves discovered in the ruins of Pompeii and on exhibition in the Museo di Napoli. Each Pompeian loaf, as shown above, was circular and about the diameter of the American standard pie. It was from 50 to 100 millimeters thick. As a pie is cut, dough was laid in eight equal sections. Fashion and custom required that it should "break even" leaves as a guarantee of perfection.

Was skeptical of Kellogg's Bran until it gave him back his health

Naturally Mr. Carter—whose letter follows—was skeptical. He had tried practically everything for the relief of constipation. All had failed. But Kellogg's Bran brought him permanent relief, just as it has done for thousands of others. Read his letter:

Gentlemen:
I am 43 years old, and have been for years a great sufferer from constipation. I had to resign a clerical position because of rushes of blood to my head, some of which caused me to fall to the ground. I took an outdoor laboring job and tried for the first time, skeptically I admit, your Krumbled Bran. The result has been wonderful. I began to be normal after I had been on the Bran about three days. No more enemies, no more Old Dr. S. and So's Pills, Epsom salts by the

ton, etc., and infinitum! You have the most wonderful product for constipation I have ever seen or tried. Yours very gratefully,
L. T. Carter, 294 Nineteenth St., Brooklyn, N. Y.

Kellogg's Bran, cooked and krumbled, does not irritate the intestines like drugs and pills. It acts exactly as nature acts. Eaten regularly, it is guaranteed to relieve permanently the most chronic case of constipation, or your grocer will return your money.

You will like the exclusive, nut-like flavor of Kellogg's Bran, cooked and krumbled. Eat two tablespoons daily—in chronic cases with every meal. Eat it with milk or cream and in the recipes on every package. Sold by all grocers. Made in Battle Creek.

THE NATIONAL BANK OF GREENVILLE

TO THE VOTERS OF GREENVILLE TOWNSHIP

I wish to express to the voters of Greenville Township my thanks and appreciation for the support given me in Saturday's primary. To those who supported my opponents I have only the kindest feeling.

In Saturday's primary I was the leading candidate for Constable and as the voters thereby expressed their preference for me over the other candidates, I feel that my opponent should be willing to abide by the result of the first primary. However, Mr. Williams has asked for the second primary and I wish to ask my friends who supported me in the first primary and to my friends who supported my opponents I solicit and ask your support in the second primary.

I feel that having been Constable for only two years after December of this year that I am entitled to the office of Constable for the usual two terms.

If elected I pledge myself to the earnest enforcement of the law and the faithful discharge of the duties incident to the office of Constable.

Thanking you for your support of me in the second primary to be held on the first Saturday in July, I am,

Respectfully yours,

New Outlook Tower Will Be Erected On Mount Mitchell

Asheville, June 20.—A new outlook tower will be erected on Mount Mitchell for the use of forest rangers and the patrols, it has been announced by the North Carolina Geological and Economic Survey. The tower will be of steel structure, 30 feet high, and will be fully equipped for observation and signalling, with maps, telescopes, and telephones. It will be situated on a high peak of the mountain, and will be used for observation and signalling.

There has been an observation tower on Mount Mitchell for some time but it is now considered obsolete by the forest reservation authorities. The new tower will have a commanding view of vast extent of the forests and detection of forest fires will be made much easier by its establishment, it was said. One of the towers with which it will operate is located on the French Broad river at Pilot Mountain, 50 miles away, in Henderson county.

The United States Forestry Service will co-operate with the state in the operation and the maintenance of the tower. Besides using the tower for protection purposes of the forest, it will be used to allow tourist to get a full idea of what the forest mean to the state and the country and how the work of protecting forests is carried on.

To Write Shoemakers' Lexicon.
London.—Ernfrid Jaffvert a Stockholm shoemaker, is now in London to complete a dictionary of technical terms in the leather and footwear industry. He has been awarded a cash prize for the purpose by a Swedish foundation as a contribution to the cost of a trip abroad for the purpose, and will shortly go to the United States.

Jaffvert is especially interested in orthopedic shoemaking and already has enriched the Swedish section of his dictionary with 2,400 words.

"BLOW YOUR OWN HORN"

Warner Baxter, Ralph Lewis, Derelys Perdue and Johnny Fox, Jr., are some of the names in the brilliant cast of "Blow Your Own Horn," now at White's theatre.

"Blow Your Own Horn" contains elements to please everyone. There are many moments of tense drama in it, but these are relieved by interludes of howling comedy.

For the scientific mind, the mysteries of the radio are delved into. For the student of psychology, the reactions of personality are pictorially discussed. For an admirer of athletic prowess, there are feats of gymnastics that will take the breath away.

Consensus of opinion is that "Blow Your Own Horn" is one of the most amusing pictures of the year. It concerns the efforts of a penniless war veteran to make a living for himself and his nine-year old motherless son. Despite native ability in various pursuits, he fails, first because of his sensitiveness to extol his qualities, but when, upon the advice of a successful friend, he begins to blow his own horn, he begins to ride the crest of popularity. The various sidelights on the interesting theme of self-advertising afford ample opportunity for rare comedy.

IRELAND'S ANCIENT JUDICIARY GIVES WAY TO NEW SYSTEM

Dublin.—At the completion of the Easter Law Sittings, the entire Irish judicial system, based on the model of the British which has prevailed in Ireland for many centuries, disappeared. There will be no more lord chancellors or lord chief justice, and the place of lord chief justice will fall to the occupant of the office of chairman of the supreme court. There will be no more judges of assize throughout the country. They will be replaced by district judges holding permanent courts with a jurisdiction more extensive than any formerly exercised by the judges of the county courts.

PERFECT ELECTRIC COOKING WITHIN EVERYONE'S REACH

HIGH IN QUALITY LOW IN PRICE ECONOMICAL TO USE

Cooking has always demanded more time than any other domestic duty. Every woman that has stood over a hot stove can testify that it is the most unpleasant of her daily tasks.

Today, Electric Cooking has come to set women free from this great drudgery. For the first time it offers a fuel which is clean and odorless, SAFE, obedient and economical.

No longer need the kitchen walls be soiled with soot and greasy vapors. No longer need the kettles and pots be black after they have been used. No longer need the heat of cooking, nor the dirt of ashes be a nuisance in the kitchen.

Let us bring this great blessing into your home.

Mr. Phillips, Electric Range Expert, will be with us during our free demonstrations on next Tuesday, Wednesday and Thursday afternoons at 3:00 p. m.

A delicious pound cake will be given away at each demonstration.
