McADOO WILL TAKE PART IN CAMPAIGN

Statewide Search Made For Missing Army Officer

McAdoo Issues Statement Will Support Ticket

Former Treasury Secretary Says That There Is No Promise in Republican Party and That it is Up to Democrats to Use Their Power in Solution of Problems Which Face American People

New York, July 12.—William G. McAdoo in a statement issued here said he would give John W. Davis his cordial support and take part in the campaign. "I am satisfied that Mr. Davis is in full accord with the progressive program outlined in the Democratic platform," said Mr. McAdoo. "I am confident, as president he would safely execute the party mandates."

Referring to the criticism from some quarters against Mr. Davis because of his connection with certain interests as a lawyer, Mr. McAdoo said: "Mr. Davis's high character and integrity and services should satisfy every apprehension of this sort."

"If I did not believe this," continued McAdoo, "I could not render aid because I have always believed that the interests of the people should never be subordinated to a merely slavish partisanship and the influence and power of these progressive forces must not be throttled for various political movements. They must be consolidated and used as an irresistible battering ram that the party offers the best instrumentality for service to the people."

Mr. McAdoo's full statement follows:

"Mr. Davis and I have been friends for the past twelve years and I had the pleasure of discussing the political situation with him yesterday. The great body of Democrats who supported me so strongly in the convention have been anxious to know my attitude toward Mr. Davis's candidacy. My visit was for the purpose of learning from Mr. Davis his views on the important issues before the country. I am satisfied he is in accord with the progressive program outlined in the Democratic platform. Mr. Davis's professional connection and association with great banking houses and corporate interests, although considered ethical in every way, have raised a doubt in the minds of many as to his progressive nature and complete sympathy with the great reforms the Democratic party must execute if it is to serve the genuine interest of the people. These doubts are not justified because a lawyer's views on economic, social and political questions should no more be judged from professional association that a physician's should be judged by the character of his patients. Mr. Davis should be on his opinion and not those of his clients and by the impressions of sincerity and ability he creates in public discussion of the issues. His high character, integrity and service should satisfy any apprehension of this sort.

"I am confident that as president he would faithfully execute the party's progressive mandates. If I did not believe this I could not render aid because I have always believed that the interest of the people should not be subordinated to a merely slavish partisanship.

"There is a deep seated determination on the part of the progressive forces in the Democratic party and those outside of it, desiring to cooperate to force prompt and decisive action on the part of the next administration for some solution of the pressing problems of agriculture, transportation, tariff, taxes and foreign relations, which have been horribly manhandled during the Repub-

lican administration. The influence and power of this progressive force must not be dissipated into division over various political movements. It must rather be consolidated and used like an irresistible battering ram of that party which offers the best instrumentality of service to the people.

Clearly there is no promise in the Republican party. Clearly there is promise in the Democratic party if that progressive influence is wisely and vigorously used within that political organization. Hope for general reform and progress is more likely to real time through the Democratic party than through any of its opponents.

I shall therefore give the Davis-Bryan ticket my support and will take part in the campaign upon my return in September."

McAdoo gave out the statement as he sailed this morning on the Homeric with his wife and two daughters for a six weeks trip in Europe.

Conference of County Superintendents to Be Held U. N. C. July 15

Chapel Hill, July 12.—A four days conference of the county superintendents of schools will be held at the Peabody School of Education of the University of North Carolina during Tuesday, July 15 through Friday, July 18, according to a statement issued here today by N. W. Walker, acting dean of the school.

The purpose of the meeting, the statement says, will be the discussion of the problems which now confronts the schools as the outstanding fundamental needs. The statement names six subjects in this class. They are the planning of Centers, Transportation, Buildings, High Schools, Finance, and Educational Campaigns.

State Superintendent of Public Instructions A. T. Allen will take a leading part in the discussions and has expressed the opinion that this will be one of the most important meetings that will concern the county schools of this state. He urges that will concern the county schools of this state. He urges that all superintendents and others interested in the development of the state's school system be present. He asserted that the meeting would not be complete without every county superintendent in the state present.

Referring to problems to be discussed, Dean Walker said, "The School of Education believes the most important educational problems confronting the state at present are involved in the intelligent planning of the county school systems. This group of problems is so fundamental and far reaching in its consequences that we believe it would be beneficial to hold a conference of county school superintendents to discuss its various phases. We are therefore asking every superintendent of a county school system in the state to make every effort to attend this meeting."

CITY FATHERS IN ADJOURNED MEET THURSDAY NIGHT

Several Matters Vital Importance Discussed; Gas Tank to be Erected on 5th Street

At an adjourned meeting of the Board of Aldermen held on Thursday night, July 10, the following matters were considered:

Request by Rev. Mr. Harden and Dr. Plemons that the Board take under consideration the prospect of an ordinance requiring Sunday closing. No request was made for immediate action but motion was adopted that this matter be definitely disposed of at the next regular meeting of the Board, which is to be held on Thursday night at 8 o'clock on August 7, and that in the meantime due notice will be given through the papers, so that proponents and opponents of the proposition might be heard from. It is most probable that all lines of business now allowed to remain open on Sunday for certain hours, will be taken under consideration with the view of further imposing restrictions, or complete Sunday closing. From this action it is evident that the Board will be glad to hear from the citizenship of the Town concerning this matter.

Mr. B. W. Moseley was granted a permit to install a Gas Tank on West 5th street.

P. O. Forbes was granted permission to install a Gasoline Filling Station on the vacant lot on the North West corner of the intersection of 4th and Washington streets. This lot is not within the fire district or the school zone, and there was no ordinance expressly prohibiting the establishment of a Filling Station, although the ordinances do require that no Filling Station may be established in Greenville without permission from the Board of Aldermen. If there was opposition to establishing a Filling Station at this point it was not voiced at the meeting by petition or personal representation, so the motion to grant the privilege was carried without opposition.

J. E. Hill appeared before the Board in his ruling chair, with the request that he be allowed to sell fruit, etc., from a screened vehicle parked on 5th street at Five Points. On this question there was considerable discussion, some members of the Board feeling that while they sympathized with Mr. Hill in his afflicted condition, they do not feel that they have a right to allow any one to take up space in the public streets for the purpose of conducting a mercantile establishment, and that if Mr. Hill is allowed this privilege, others in the same condition will make similar demands, and if there was no discrimination shown, the streets, created primarily for public traffic would soon be so congested that great inconvenience would be suffered. While some members of the Board thought that on account of Mr. Hill's condition special considerations and privileges should be shown him, in order to help him sustain himself and family. Other members however, felt that charity and sympathy should not be allowed to influence questions of general public interest. The vote on the proposition stood four for granting Mr. Hill the privilege, to three

Governor Orders Search Made For Major McLeary

Artillery Officer Mysteriously Disappears Has Not Been Seen Since July 16; Money Wired to Him at Columbia Returned Unclaimed

Raleigh, July 12.—A telegram was received at the office of Governor Morrison today asking that the North Carolina executive constitute a statewide search for Major Samuel H. McLeary, U. S. Coast Artillery officer who has not been heard from since he was seen in Raleigh on July 2, en route from Norfolk to Fort Moultrie, South Carolina by automobile. It was stated at the governor's office today that county officers throughout the states would be asked to search for the missing officer.

Major McLeary is understood to be a native of Texas. While in Raleigh he telegraphed a bank in Hampton, Va., instructing that funds be wired him care of Columbia, South Carolina, hotel. The money was returned to the bank several days later when Major McLeary failed to put in his appearance in Columbia.

Major McLeary was driving a small touring car bearing a Kansas license tag.

The local post of the American Legion today offered a reward for information to the finding of the officer. The organization also appealed to legionnaires in all parts of the state to make a search tomorrow.

Police received a telegram today from Louisville, 22 miles north east of Raleigh, stating that a car of the same description and bearing a Kansas license tag, was seen there on Tuesday or Wednesday. The car at that time was driven by an army officer.

J. E. Wilson, of Newport News, Va. friend of the McLeary family, arrived in Raleigh today to aid in the search for the missing officer. The family believes that McLeary had met with accident or foul play.

A number of theories regarding the mysterious disappearance of the officer have been advanced but the one most commonly heard is that Major McLeary is an amnesia victim.

Father of President and Mr. and Mrs. Frank W. Stearns Accompany Family on Cruise

Washington, July 12.—President and Mrs. Coolidge today boarded the presidential yacht, Mayflower for a week-end cruise down the Patomac River, with the president's father, John Coolidge, who returned with the family from the funeral services at Plymouth, Vermont; John, their son, and Mr. and Mrs. Frank W. Stearns, of Boston. All the family were reported well rested today from the trip to North Hampton, Mass., and Plymouth, Vt., with the body of Calvin Coolidge, Jr.

Trips on the yacht have proved very beneficial to both President and Mrs. Coolidge, and friends urged that they go down the river for the week-end.

N. C. Newbold Gives Interesting Talk At Teachers College

N. C. Newbold, from the State Department of Education, who has charge of Negro Education in the state and is a director of the Rosenwald fund, gave a most interesting and illuminating talk on his work yesterday morning at East Carolina Teachers College.

Mr. Newbold is a native of Eastern North Carolina and thus knows the negro problems from the southern point of view and has added to this the most profound study of the problems from many angles until he has become an authority on the question.

He approached the subject by getting his listeners to consider who the negro is, whence he came, and why he is here. He was brought to this country by the white man's invitation, insistence, and, at times, even by compulsion. He then gave statistics on negro population in North Carolina and on property values of negro owned property. While the ratio of negro population to white has decreased nearly eight per cent since his freedom, the number of negroes is constantly increasing.

Mr. Newbold reviewed the history of negro education in the state, called attention to the fact that the statute laws give equal educational opportunity to both races, and asked the pertinent question if they are actually given equal opportunity.

The same requirements are made of negro teachers as of white teachers, as the certification plan is the same. He explained the Rosenwald Fund, and gave the amounts that are being spent for buildings, for teachers salaries, and for supervision. There are now forty well trained supervisors in the State under the direction of a woman who is spending each summer at Columbia University, studying her problems.

He spoke of the fact that white people are realizing that the negro is an asset worthy of development and are determined to do their duty by them, and to study the question intelligently and carefully.

John Park Elected Member Wake Co. Board of Education

Raleigh, July 12.—John A. Park, of Raleigh and publisher of the Raleigh Times, has just been elected by the Wake County Board of Education to succeed the late Dr. W. A. Withers, as member of that board. Mr. Park will serve the unexpired term of Dr. Withers which will run until April 1925.

Mr. Park has been active in educational work for a number of years in the county, it was said by board members, and it was due to this fact that he was chosen to fill the place of such a prominent educator as was Dr. Withers.

Dr. N. Y. Gully, M. B. Chambless and County Superintendent of Schools John C. Lockhart are the other members of the board.

FRANCE'S DAY

Monday, July 14, is France's national holiday. Although the event which it commemorates took place 134 years ago, nothing has dimmed the ardor with which the French undertake its celebration.

The storming of the Bastille more than a century and a quarter ago is the occasion for this holiday. To one who knows little of French history the simple designation given the Bastille as a celebrated state prison in France is perhaps sufficient. But in the long period of its existence the Bastille acquired a name and fame much more sufficient than the words state prison indicate.

The story of the Bastille is a long account of terrors and tortures, many of which have no doubt been exaggerated in the course of centuries of repetition. Such was the nature of the methods by which men of all stations in life were put and kept in this prison that the institution came to be regarded by the people as the symbol of oppression.

In song and story and even in painting, the overthrow of the Bastille has been a famous subject. Even to this day wherever people are sore oppressed, by those who urge them to rise against their oppressors the story of the fall of the Bastille is always a thrilling one.

Significant for Americans, however, is the fact that the key to the great doors of the torn-down building was sent by Thomas Paine to George Washington. The great American rebel, Thomas Paine, made a pretty shrewd guess as to where the symbol of oppression could best be tucked away.

SILLS ONCE A PROFESSOR

Milton Sils plays Cary Scott, in leading male role in First National's picturization of Warner Fabian's masterpiece of contemporary life, "Flaming Youth," which is to be seen at White's Theatre beginning Monday.

In this daring picture, which centers about the lives and loves of a modern mother and her three ultra-modern daughters, Sils plays opposite Colleen Moore, who portrays the youngest daughter, an innocent yet curious hoyden, whose ambitions to learn the secrets of life form the principal theme of the absorbing play.

Sils, who is one of the leading men who has been in great demand during the last two years, has appeared in several First National pictures. Two of his most recent successes in pictures released by this organization were "The Isle of Lost Ships," a Maurice Tourneur-First National production, and "What a Wife Learned," a First National picture, produced by Thomas H. Ince.

Sils was a professor of psychology before he abandoned an academic career to go on the stage. He played for eight years in Belasco, Shubert, Brady and Frohman productions. He deserted the legitimate stage for the films in 1917.

Attempts provoking a general reaction brought only extreme dullness and met with no success. This was all the more remarkable in view of the uninterrupted advance the market has enjoyed and the fact that some heavy important liquidation has been quietly going in many leading stocks...

COTTON LETTER New Orleans, July 12.—Our market opened higher this morning on continued covering which was caused by early weather reports which indicated scattered showers over the belt with heavy rainfall in some eastern belt localities. The market eased off somewhat in the early session on some selling, evidently profit taking over Sunday, but regained most of its loss immediately afterward.

In the morning papers the Government warns against a new brand of husky mountain bull which it is now practicing destruction in Arizona and threatening to invade the west Texas crop.

Methodist Missionary Society. Circle No. 10, of the Methodist Missionary Society, will have a social meeting, Monday afternoon at 4:30 o'clock. At the home of Mrs. J. E. Nobles.

The July situation in New York is likely to become very acute, it was reported a big firm who has a strong hold on that option in New York purchased 20,000 bales from the Carolina Co-operatives and others, also 1,500 here yesterday, to keep it from being sent to New York for delivery. Dry goods market staidier with increased business in gray cloth.

The continued bad weather in the Atlantic, with predictions of thunder-showers tonight and Sunday caused a fresh buying power and market made a further advance of 37 points over the opening prices.

GRAIN LETTER This morning's weather map fails to show any general rains in Canadian provinces nor indications of such. That the declining wheat prospect in Canada is causing worry to the foreign importer is shown by the further advance in Liverpool. Conditions are favorable for the U. S. wheat crop but the world wheat situation is growing stronger. The growing crop will probably have favorable weather over most of the belt today and tomorrow, according to this morning's weather report although too much rain in some portions.

Mr. Jeter, formerly president of the Association, was elected at this meeting to be secretary-treasurer for the coming year. Other officers elected were: president, Reuben Brigham, of Washington, D. C., specialist in visual instructions of the United States Department of Agriculture; vice-president, W. P. Kirkwood, St. Paul, Minnesota and J. C. McClintock, Columbus, Ohio; J. C. Kingshorn, Fort Collins, Colorado, members of the executive committee.

Free Will Baptist Church Launches Building Program

At a well attended business meeting of the membership of the Free Will Baptist Church of Greenville Wednesday evening, the proposition for remodeling the church, submitted by the pastor, Rev. L. E. Ballar, was discussed and unanimously endorsed by the congregation; and steps taken towards an early start on the work.

The plan now being considered calls for remodeling the auditorium of the church, and the addition of modern Sunday school department costing several thousand dollars, and the installation of a new heating system. The rapid growth of the Sunday school during the last few months makes the addition of a Sunday school department a pressing need, as the church is crowded for room for classes.

The Sunday school department is to be built on a plan that will allow it to be used also as an extension of the auditorium, in case of an overflow. Members of the congregation are entering most heartily into the movement, and quite a bit of money has already been pledged to the building fund. Mr. S. M. Walters has been appointed as treasurer for this special fund, which is being raised by donations, and weekly and monthly ledgers.

The building committee hopes to be in position to start work within a few weeks.

Cows Will Not Be Allowed in Elizabeth City After Dec. 13

Elizabeth City, July 12.—Under an ordinance just passed by the City Council, cows will be no longer be allowed in this city after December 31 next. The ban was put on hogs some time ago. In taking this action the council with the mayor announced that the growth of the city made it difficult for cows to be kept on residential or other nearby premises in a complete sanitary condition and that in order to protect the health of the inhabitants they deemed it best to put the cows outside the city limits.

Dairies which once were numerous in the city were put out side the corporate limits during the World War and only one cow permitted to each family in the each. Later the laws was amended to permit two cows to be kept on the premises of a resident. As a result numerous two cow dairies sprung up all over the city. Their rapid growth along with the health demands of the city, it was said, caused the council to make the latest restrictions.

Charged With Stabbing Man, Woman Released Under Bond of \$1,000

High Point, July 12.—Minnie Bass, charged with the murder of Robert Parker, was ordered held for the Superior court by Judge J. M. Hedecock in police court here on the grounds of probable cause. She was released on bond of \$1,000. Minnie Bass was charged with the stabbing to death of Robert Parker on last Sunday. The chief witness was Russell Dunlap, who testified that he was on the porch of the house when Parker called the defendant who at first refused to answer but later did go into the room. He stated that after Parker had been stabbed that he (Parker) walked out of the room and said, "We were not fighting, she did not go to it." Cross examined by attorney Dunlap admitted that Parker followed the defendant into the kitchen and that he heard noises in the room. He denied, however, that he had heard any quarrel between the stabbed man and the woman.
