Penalty Of Death Again Demanded By State Attorney

Defense Completes Plea for Mercy for Leopold and Loeb and Attorney for State Begins His Final Argument

Chicago, Aug. 26.—Demanding a death penalty for "these two poor sons of multi-millionaires," State Attorney Robert E. Crowe in his final argument for the state today launched a vigorous attack upon the mercy plea of the counsel of Nathan Leopold, Jr., and Richard Loeb. He spoke ironically of his tour through the nursery with defense alienists, his education in bedtime stories and the bad signs which surrounded the defendants.

Chicago, Aug. 26.—Benjamin Bachrach, who with his brother, Walter, was the first selected by the families of Nathan Leopold, Jr., and Richard Loeb as defense counsel in the killing of Robert Franks, was in the spotlight before Judge John Caverly today. To him fell the duty of closing in behalf of the defense's plea in mitigation based upon a degree of mental sickness short of legal insanity.

Municipal Swimming Pool Is Fostered By Rotary Club

The children of this city will be able to enjoy a municipal swimming pool within another season if plans launched by the local Rotary Club at its meeting last night materialize. The public affairs committee of the club has had need of a swimming pool for the city under consideration for some time and report to the club last night is the first step in the real action to accomplish the goal.

Last night was egg night with the local club in carrying out the program of National Egg Week, August 25 to 30. When the club sat down to its evening meal there were eggs galore prepared in every way possible. J. B. Kittrell, chairman of the program committee read the proclamation regarding National Egg Week in connection with a report of the value of the egg as a food to the human body and the commercial value of the egg to the producers.

Following the supper K. W. Cobb, recently elected, was inducted into the club by Dr. G. J. Ellen and D. M. Clark. Following the ceremonies Mr. Cobb made a short address which was greatly enjoyed by all.

RED OAK NEWS

Red Oak Christian Sunday School.
The Sunday school at Red Oak has indeed seemed to take on new life during the summer months. Last quarter the attendance averaged about sixty-eight which this quarter has reached the seventy-three mark up to date. Sunday, August 24th there were eighty-one present at Sunday school with one dollar fifty-four cents collection. The officers of the Sunday school are Hazard May, Supt.; Mrs. Leon Tyson, assistant, Supt.; Miss Willard Allen, Sec. and Treasurer. Mrs. W. S. May teaches the infant class, Miss Ella May the intermediate, Miss Irma Polard the Junior, R. S. Allen the adult.

We extend a cordial invitation to anyone that wishes to join us and we are especially glad to have visitors.

Red Oak Christian Church.

The series of revival meetings which have been in progress at the Red Oak Church for the past two weeks was brought to a close with two inspiring services Sunday. Mr. Toppins preached at those services as Mr. Fox couldn't be with us any longer than Saturday night. The series has been most successful, definite results having been achieved, and the spirit of Christianity renewed is expected to be of real benefit, not alone to the church members, but to the entire community.

The services were started on August 10th. Rev. Toppins, the pastor assisted Rev. Fox of Grimesland. Each message was heard by a large congregation and the thoughts presented received with close attention. Mr. Fox delivered plain, straight from the shoulder sermons and preached in a manner that made a deep impression upon his congregation. From the beginning of the revival he received the heartiest co-operation and it was with sincere regret that the revival was brought to a close Sunday night. This was the greatest revival meeting possibly ever held at Red Oak. There were fourteen additions to the church as a result of this great meeting.

Bro. Fox is an able speaker, well loved by all those who heard him, and he greatly inspired his listeners by his splendid preaching. His sermons, based wholly upon the Bible, showed his audiences that he was a man who loved his God and his people, and his sermons had a great effect upon those that heard him.

Russian Women Wear Socks. Moscow.—In the interest of economy Russian women and girls have taken to wearing masculine socks. Full length silk stockings which usually are smuggled in through the Polish border, are an absolute luxury and far beyond the means of the average woman. At first only girls under sixteen wore short stockings, but now women generally have adopted them.

Guano Found in Philippines. Manila.—The discovery of guano deposits in the province of Cebu which are easily accessible by land and sea is expected to increase the use of fertilizer not only on sugar cane plantations but in other lines of agriculture. It is estimated that 250,000 tons of guano are available in one locality of Cebu.

BLACK GOLD HELD IN HIGH ESTEEM BY FOND RACING PUBLIC

Louisville, Ky., Aug. 25.—Too much popularity may affect the turf career of Black Gold, as it finally ruined famous Old Rosebud, ten years ago, in the opinion of Kentucky turf experts who see in the public clamor for the Hoots cold many of the possibilities which brought destiny to Old Rosebud.

Not since 1924, when Old Rosebud won the Kentucky Derby and set the record for the race at 2:03 2-5, has there been a racer held so high in public esteem. Lovers of horseflesh are showering their affections on this black son of Black Tony and the little Indian pony, Useit.

Old Rosebud, after winning the Derby in 1914, was sent East and broke down during a race at Belmont. His owners sent him to Texas and three years later he came back and beat Roamer and other leaders. He was so popular he was "raced to death" and was destroyed two years ago.

For several years no horse received the admiration that was Old Rosebud's. Black Gold made a bid for it last winter when he won the Louisiana Derby at New Orleans. He was the favorite in the Kentucky Derby and came from behind to win the fiftieth renewal of that classic.

He went on to Cleveland and announced his third derby, the Ohio event. His first reversal came in the Latonia Derby a short time later, when Chilhowee and Gibbon romped home ahead of him. Like the only race Man O'War ever lost, turf enthusiasts still are trying to explain how it happened.

Black Gold obtained revenge by beating Gibbon by six lengths in Chicago Derby. He thus equalled the record made in 1913 by Claude, the only other horse that ever won four derbies in a year.

A chance to win five derbies in a single season slipped by at Ashland, Ky., when Bob Tall and Altawood beat Black Gold, the favorite by a nose. Turf experts began to wonder if Black Gold was not being raced too often to satisfy the demands of the public.

Unlike famous thoroughbreds of old, Black Gold was not bred in the purple. There is some doubt as to his mother's blue blood. Useit belonged to an Indian, Hoots. When Hoots died his wife carried out her husband's wish and mated Useit with Black Tony, E. R. Bradley's colt. Black Gold has won for Mrs. R. M. Hoots in two seasons more than \$100,000.

There is a little brother of Black Gold now at Useit's side at the Idle Hour farm.

FURTHER MEMORIALS TO MEN AND EVENTS WILL GRACE CAPITAL

Washington, Aug. 26.—Plans for erecting nearly a dozen new memorials in the nation's capital, already noted for its statuary, are now under way.

The statue of General San Martin, termed the "George Washington of Argentina," soon to be officially presented by the government of his country to America, has arrived in Washington.

Methodists are making preparations for a memorial to Francis Asbury, one of the country's earliest ministers, which will be unveiled in October. The ruins of the battle fields of the Civil War will have a monument to their memory here, thanks to the efforts of the Ladies' Auxiliary of the Ancient Order of Hibernians.

"Heroes that sacrificed their lives, that women and children might be saved, in the tragic catastrophe of the sinking of the steamship Titanic" will be honored in a memorial which will overlook the Potomac River. Mrs. Harry Payne Whitney, who recently executed the Buffalo Bill monument, will design this monument. A figure with outstretched arms will symbolize the memory of the deed which the Women's Titanic Memorial Association seeks to perpetuate.

The first division memorial, commemorating men of the American Expeditionary Force of the fighting organization, has already been erected south of the State and War Department building and will be unveiled in October. A memorial to President Buchanan is to be erected in Meridian Hill Park. Serenely, a gift of Charles Deering of Chicago, is among Washington's future pieces of statuary. A Navy and Marine memorial is in process of preparation.

A memorial to John Ericsson, inventor and constructor of the Monitor of Civil War fame, is to be raised south of the Lincoln Memorial. The state of Pennsylvania is pushing plans to erect a memorial to the memory of Major General George Gordon Meade, Commander of the army of the Potomac.

Prominent among proposals for monuments pending in Congress is one for commemorating the late President Theodore Roosevelt.

SALE OF REAL PROPERTY.

By virtue of a decree of the Superior court of Pitt county, the undersigned will on Saturday the 13th day of September 1924 at 12 o'clock noon expose to public sale before the court house door in Greenville to the highest bidder for cash the following described real property to-wit:

First Parcel: Lying and being situated in Greenville Township, Pitt county on the North side of Tar river, bounded on the north by the lands of Thomas Whitchard, on the east by the Enoch Moore lands, on the south by the lands of Samuel Dudley and on the west by the Shivers land, containing 91 acres more or less, being woods land.

Second Parcel: Situated in the town of Greenville, N. C., on the west side of Cotanch street and being lots Nos. 11 and 12 in the subdivision of that part of the Alfred Forbes estate as shown by map made by H. L. Rivers, C. E. in October 1919, of record in Book of Maps No. 2, page 58 in the Register's office of Pitt county said lots having a frontage of 25 feet each on Cotanch street and running back a depth of 150 feet to an alley way. Said property will be sold for the purpose of making assets to be applied to the payment of the indebtedness of the estate of G. E. Harris.

This sale will be made by reason of the fact that the bid at a former sale of said lands made on Monday the 11th day of August 1924, was raised by D. B. Carter and this sale will be made by reason thereof.

This the 21st day of August 1924. BELLE HARRIS, Executrix Estate of G. E. Harris, 23 1tw2wks

FRENCH DESERTERS BEGIN TO RETURN UNDER AMNESTY ACT

Paris, Aug. 26.—The amnesty bill just passed by the Chamber of Deputies is expected in some quarters to result in a general resurrection of French soldiers who had passed into history as "killed on the field of battle."

Already, though the senate has still to pass the measure, deserters are crossing the frontiers and breathing the air of France for the first time in six years or more. One of them, a soldier named Robin, given up for dead after the battle of the Chemin des Dames in April, 1917, startled his brother, who keeps a wine shop in Paris, by suddenly appearing before him the other day.

"You don't know me," remarked the deserter, who had grown a beard during his exile.

"No, I don't know you," was the reply.

"I am your brother," replied the deserter.

"My brother was killed at the Chemin des Dames," was the rejoinder.

"No," insisted the deserter, "there were not so many butchered as was supposed. A lot of the indeserted to the enemy and I was among them. Now that the Chamber has passed the amnesty law I have come back and I need money to start me on."

The brother agreed to give him funds on condition that he never show his face in the neighborhood again.

The deserter walked off with the money to celebrate his return at a public ball in the Boulevard de Grenelle. There he picked a quarrel and within half an hour was carried out with a fatal stab in the abdomen.

Another deserter who was also among the "missing" of the Chemin des Dames battle turned up at his father's farm in the Morbihan department. A neighbor who happened to be present remarked that he was not yet safe as the senate had not yet adopted the amnesty law. The deserter answered by this interference cried "You'd be capable of denouncing me," drew a knife and plunged it into the neighbor's breast. The deserter is now a safe prisoner from justice.

More than 1,200 French deserters living in Geneva, where they have formed a "Friendly Association of Deserters" are preparing to come back in a body. Other Swiss towns shelter as many if not more and there are supposed to be a great many still in Germany.

At least one deserter with a train, Koenigsberg, Germany — Thurgau, he is in Germany in a train as shown in a photograph taken in a train when he was on his way to Berlin by airplane in 80 marks, while by rail it is 64 marks.

SHORTWEIGHT GERMAN BAKERS SEEK RELEASE FROM SENTENCE

Berlin.—There are a lot of master bakers of German in jail for decreasing the size of their loaves of bread last year and increasing the selling price. This fact came to light here during the annual convention of the German Association of Master Bakers, when a movement was launched to bring about the release of the imprisoned members.

It was decided to ask the government to grant an amnesty for all the bakers who got into trouble during the inflation period when the "bakers them selves had great difficulties in making both ends meet and often did not know from where their next meal was coming."

New Way of Planning Trees.

Munich, Germany.—A method of tree planting which is claimed to save six years' growth has been developed by the department of forestry. The roots of the baby trees are spread in the way nature intended instead of up and down as is usually done. German foresters also say that packing the earth about young trees is wrong as it robs the roots of breathing space.

Worth racing for

See, Mister, if you've ever tasted the real Orange-Crush, you'd race your legs off just to get one!

Here are six reasons why it's so delicious: (1) The natural fruit oil of oranges—which gives that delicate and distinctive flavor; (2) The natural acid of citrus fruits (oranges, lemons and limes)—which gives the tang; (3) Orange juice; (4) Carbonated water—which gives "zip," sparkle, purity; (5) U. S. Certified food color—which makes it as appealing to the eye as to the taste; (6) Pure cane sugar.

That's all. My, what a drink!

Now Is the Time to build with Sheetrock

YOU can have solid walls and ceilings at low cost by using Sheetrock, the fireproof wallboard.

Sheetrock is pure gypsum plaster cast in sheets. Low in first cost, easily handled, and easy to erect. Comes all ready for use, and you just nail it to the joists or studding.

Won't warp, buckle or shrink. Won't burn, ignite or transmit fire. A perfect insulator against both heat and cold.

Sheetrock takes any decoration—especially beautiful effects with Textone, The Sheetrock Decorator.

Made only by the United States Gypsum Company.

Ask your lumber or building material dealer for a sample and prices.

GOOD WILL TO AVERT HORRORS

One shrinks from contemplation of even the possibility of another war on reading the synopsis of the world's greatest chemical experts' report drawn up for the League of Nations. Never before have so many horrendous possibilities been outlined in a single document. The 30 poison gases that were used in the world war have multiplied until now the chemists tell that there are 1,000 ready to be turned from the uses of peace and construction to war and destruction.

The investigators paint a picture of whole populations being put to death without their having opportunity either to resist or run. The enemy, secretly prepared, would send forth a swarm of airplanes at night and pepper the earth of the victim nation with poison gases of various sorts. The people attacked would die instantly or shortly and the aggressor would step in and take all that they possessed. I is mentioned, quite incidentally, that "parallel with the progress of destructions has been progress in means of protection," but no counter-offensive weapon is of much use to the man attacked from behind.

It will be necessary, of course, for every nation to be constantly on the alert and prepared to combat an attack that might be secretly planned and as secretly executed. But that will not make for universal peace and safety. Nothing short of the development of a universal spirit of justice and good will can avail to prevent resort to the terrible means of revenge and plundering which the chemists have provided. The United States will be most potent in giving the world the needed example of moral rectitude and helpfulness that may eventually turn people's thoughts away from war.

BUGS

According to the chief entomologist of the United States department of Agriculture bugs do damage to the extent of \$2,000,000,000 a year. They are the enemies of agriculture, horticulture, floriculture and of about everything else in the line of plant life. There are several hundred thousand different kinds and most of them are destructive to what man does not want them to be. However, some are the deadly enemies of other bugs and therefore serve a useful purpose, but the

chief trouble is that there are not enough of the latter and man has to take up the job of filling out what these lack. That he does not succeed completely is evidenced by the fact that there is such heavy annual loss due to the industry of the bugs.

It happens, too, that the most destructive of the bugs are immigrants, or descendants of alien bugs. These are bolshevist by nature for as soon as they arrive they start in to destroy what they find here. The gypsy moth, the Japanese beetle and the boll weevil, worst of all, are mere examples of importations to our great injury. If there were no bug enemies to fight, the farmer would have much greater crops, fruit would never be stung, if not sprayed. We'd have more to eat than we do, if frost, drought or flood did not come along to do the work of destruction. Even without bugs there would be risk in plant growing and the bugs add greatly to hazard. When the earth's population becomes more dense it may be that necessity will require that bugs be entirely eliminated in order that there may be enough to eat.

Members of the Reichstag are faced with the alternative of ratifying the pact or making a fight for reelection. That may mean that they'll raifty.

While they frighten us with portrayals of what might be done with poison gas we are reassured that there is not much danger of offensive war being prosecuted with microbes.

Five Russian soviet judges sentenced to prison for "bribery and conduct unbecoming soviet judges" appear rather to have acted as one would suspect of soviet judges.

Eleven carriages formerly the possession of the Hapsburgs are to be sold in New York. If they only were second-hand cars in good condition there might be more interest.

Irrigation Will Enrich Farmers of Nebraska

Scotts Bluff, Neb.—Picking up a river to drive its waters 6,500 feet in a tunnel through a range of hills that would be called mountains were it not for their location close to higher peaks, is what the government reclamation service is doing here in western Nebraska in order to bring irrigation to the Roubadeau and upper Gering valleys. Arid regions are to be transformed into fertile farming lands.

A point eight miles west of Scotts Bluff mountain is the scene of action. Here the waters of the Fort Laramie canal are to be diverted from the North Platte river and thus bring to realization the dream and labor of settlers for many years past.

The tunnel, known as "Number Three," already has been bored through, but approximately 9,200 cubic yards of concrete, reinforced by structural steel, will be required before it is ready for the flow of water, which is expected to start next spring. Digging proceeded from each side of the hill and the two ends of the tunnel were joined at the center with a variation laterally of only one-eighth of an inch. In grade, the ends were off less than one-half an inch.

There were five tables of bridge. The color scheme was yellow. On arrival the guests were served Coca Cola, iced nuts and sandwiches. After

the games an ice course was served by the hostess. The high score prize Coty perfume was won by Miss Rosamond Flanagan. Miss Cobb was also remembered with perfume. The low score prize, a potted plant, went to Miss Mary Moye Savage.

MR. MEADOWS CONDUCTS SERVICES AT THE COLLEGE

L. R. Meadows, director of the Summer School at the Y. W. C. A. services at East Carolina Teachers College on Sunday evening made an excellent talk. He thanked the association for the excellent service they had rendered during the term, and paid a high tribute to the organization.

He read the sermon on the mount, the greatest of all sermons ever preached, and took as the special topic of his talk the verse, "Ye are the salt of the earth." He called attention to the fact that Christ was talking to the masses, and he used as a symbol a utility that had preservative qualities, a purifier and a necessity, that adds flavor.

He brought out values in life, things that make life worth while, discussing beauty, necessities, and useful things. Christ in life is the chief thing that makes it count foremost in the world, the salt that preserves all else, both in the individual and in the community.

The students have been attending the union services in the town on Sunday evenings, but have held prayer meetings on Friday evenings.

The last prayer meeting last Friday evening was a wonderful meeting conducted by the Men's Federation. Mr. K. W. Cobb had charge of the meeting. A number of the leading men and women in the Federation made excellent short talks. Among these were Messrs. F. C. Harding, J. L. Little, R. C. Flanagan, John Clarke, N. O. Warren, Mrs. Hall, Graves, Mrs. McKithan. There was a beautiful trio sung by Misses Taylor, Blodgett, and Daugherty.

At the close of the service a number of young women indicated their desire for prayer. It was a splendid service. A number of town people worshipped with the young women.

Theatre Completes Installation of Organ

Those who visited White's Theatre last night heard for the first time the new organ which has just been installed by Manager H. H. Jackson and

were well pleased with this improvement in the music furnished by the play house.

Miss Bertolet, of the Teachers College faculty, played the organ for score prize, a potted plant, went to Miss Mary Moye Savage.

The organ, which was installed at a cost of \$10,000 is indeed a great addition and Manager Jackson is to be congratulated upon his progressiveness in his efforts to give the theatre-going population of Greenville the best that can be had in the way of amusement at all times.

"DOMESTIC RELATIONS" IS MISNOMER IN THIS CASE

"I see Miss Macdonald is producing a picture called 'Domestic Relations,'" remarked one of the stage carpenters to a property man at the Preferred Pictures studio in Los Angeles, where Katharine Macdonald productions are made for Associated First National release.

"Domestic relations; there ain't no such animal," returned the prop juggler.

"All of my relations and particularly my wife's, don't know what the word means. Domestic! Why, they come and eat their meals at my house, ask me to run 'em around in the driver, and then don't even help the wife with the dishes."

"Maybe, after they see this picture I'll show 'em up and they'll be a little more handy," he concluded.

"Domestic Relations" is coming to White's theatre tonight. It is a tense drama revolving about married life after the glamor fades.

ELIZABETH CITY CAMPERS SPEND FEW DAYS HERE

Rev. and Mrs. Frank H. Scattergood, of Elizabeth City, accompanied by three Elizabeth City boys, John Kramer, Ralph Wilcox, and Francis Jacobs are spending a few days in this city enroute home after a tour of North Carolina.

During last year while Mr. Scattergood was chairman of the Boys Work Committee of the Elizabeth City Rotary Club he offered a summer trip to the mountains of North Carolina to the boy who would make the best record during the year in the city school.

John Kramer not only made the highest mark in the school for the year but his record including every

phase of school work surpassed any ever made in the school.

Rev. Mr. Scattergood arranged to take young Kramer on the promised trip and invited the other two boys to accompany him. The party left Elizabeth City sometime ago taking the northern route to the western part of the state. They visited practically every point of interest in the Land of the Sky and it was their intention to go from that section to Gettysburg, Va., but the youths expressed desire to see more of their native state rather than to go out of it so the party chose the southern route for their return trip. They arrived here about seven o'clock Saturday night and have been camping next to the Rotary Club. The final lap of the return trip home was begun this morning when the party left here for Elizabeth City.

Rev. Mr. Scattergood stated last night that the trip so far had covered approximately two thousand miles and that it had been an education to the youths as well as the most pleasant of outings. During the entire trip the party has camped wherever they happened to be and that feature has added much to their enjoyment.

In speaking of the travel over the state by automobile Rev. Mr. Scattergood stated that it was appalling how little attention was paid to state traffic laws by drivers from other states especially from South Carolina. He said that he witnessed one case after another of reckless driving over our highways and that in most every case the car bore the license of another state.

FAMOUS PACER IMPROVES WITH PASSING YEARS

Cambridge City, Ind. — "Single G," 14-year-old veteran of the harness racing circuits, is improving with age, despite the general belief that a horse's best days are past when it reaches its tenth year. This remarkable animal, which eleven years ago made her maiden start over a mile course at Peoria, Illinois, and finished third in a race on the same day in which the world's record was shattered by "William" in another race, still is the talk of the harness racing fraternity. "William," in making his debut, established a record of 2:05. He and all other racing mates of "Single G" in that day have gone, but the great pacer is more active than ever.

"Single G" established a record of 1:58 1-2 in negotiating the mile in her tenth year of racing last season, and today, in her eleventh year in

harness, she promises to do as well or better, according to followers of the circuit races.

According to racing authorities "Single G" has surpassed the record of all harness race horses of the two minute class or better, and they declare her now to be one of the greatest pacers in harness.

"Little Gyp," mare of no recogniz-

ed breeding, was the dam of "Single G," while "Anderson Wilkes, rated as a good horse in his day and a leading son of "Onward," was her sire. E. Allen, veteran driver, who has been the trainer of "Single G," is always in the seat when she steps around the circuit. She is the property of W. B. Barefoot of Cambridge City, Indiana.

COTTON LETTER

New Orleans, Aug. 26.—The market recovered somewhat today due to better sales than expected numerous reports from nearly all sections of the belt to the effect that the crop has deteriorated considerably during the past 10 days or since returns were made to Government on August 16 at which date the indicated yield was placed at 12,956,000 bales exclusive of linters.

The reports deterioration is attributed to excessive heat forcing premature opening and to damage by weevil and worms. While deterioration is natural at this period of the season, it is possible that the continuance of the drought in parts of Texas, in sections of the Mississippi Valley and in districts of the south Atlantic may be causing deterioration greater than normal for this time of the year. At any rate traders are expecting the weekly weather and crop government report to be rather bullish, or at least bullish as a whole. There were some good showers reported in Northwest Texas overnight and this morning also at points in central Texas, where moisture is badly needed and some heavy rains occurred in North Carolina and on the Georgia coast, the result of the tropical storm, which has moved northward, now centered off the Jersey coast, removing all danger of it hitting the eastern cotton region. While the recent government crop forecast indicated an adequate supply for this season, the prediction was based on conditions of August 16 and the trade realizes that the crop is not made yet and remains subject to possible damage in which case another downward revision in crop ideas may develop. So far as present conditions are concerned new crop cotton is at value and trade will probably be more disposed to buy at least a part of its future requirements pending further developments in progress of the growing plant. An encouraging development expected to have a favorable effect on European and international trade is a press report from Berlin to effect that Germany will sign the Dawes reparations plan next Saturday.

Export buying of wheat was large and will have to be to keep prices advancing or even hold them at the present level as close observers see it. There is too much wheat moving for a big bull market, especially when the visible supply increased 1,300,000 bushels in two weeks. It will take export business of 1,000,000 to 2,000,000 bushels daily to absorb the hedges put into the market daily. Later stronger markets are looked for. Local operators were the best buyers of corn on breaks, turning the market, as the element were mainly short. Liverpool opening wheat 5-8 higher, closed 3-4 higher.

MANY CASES HEARD IN CRIMINAL COURT HERE YESTERDAY

(Continued from page 1) with larceny but there was a plea of Nolo Contendere which was accepted by the court and judgment was continued upon payment of costs. P. R. Hines faced the court upon the charge of speeding, the case having been appealed from the lower court. The defendant withdrew his appeal and paid the costs of the court. Tom Boyd plead guilty to the charge of carrying concealed weapon and was fined \$50 and taxed with the costs. Lester Atkinson plead guilty to the charge of assault with a deadly weapon. Judgment was suspended upon payment of costs and payment of \$22.50 to the prosecuting witness.

Alonzo Brown plead guilty to damage to property but judgment was suspended upon payment of costs. John Moye drew a sentence of four months in jail for driving a car while in an intoxicated condition.

Amos Brown faced the court with a plea of guilty to four charges, assault with deadly weapon, driving a car while drunk, transporting and damage to personal property. Brown was made to pay the costs in all actions, and judgment was suspended for one year pending good behavior the defendant being required to appear at each session of court to show good behavior.

The following bills were returned by the grand jury: Louis H. Roberson, receiving stolen goods, a true bill; B. F. Jones, robbery and larceny, a true bill; L. E. Allen, Robert Rawls, James Morrill, robbery and burning a store, true bill on each charge; Jim Hardy, assault with a deadly weapon, true bill; Theodore Williams, assault with intent to kill, a true bill; John White, John Dunbar and Cornelius Williams, larceny, not a true bill.

Alex Boyd, Matthias Boyd, Tom Boyd John Ebron, Robert Battle, Heck Teel, Dempsey Green and John Westington faced the jury on the charge of disturbing a funeral service. The jury found all not guilty except Alex Boyd who was made to pay the costs and also pay \$15 for services to Dr. Joe Smith.

PARDONS FOR FOOD RIOTERS

Berlin, Aug. 25.—Echoes of the food riots of 1923 were heard in the Prussian diet recently, when a movement was launched to grant amnesty to persons convicted for fighting and creating disturbances on an empty stomach. The bill applies to all food rioters except in cases where murder was committed.

BOLSHEVIK GROWTH IN FRANCE CHARGED TO SCHOOL TEACHERS

Paris, Aug. 26.—The spread of Bolshevism in France is beginning to attract the attention of political leaders and governmental authorities.

The eventuality of a dangerous growth of communism in this country always has been regarded as very remote because of the natural conservative tendency of the farming element, which outnumbers the laboring class. Lately, however, evidences have been discovered that the Bolshevism virus has penetrated the peasantry, thought until now to be proof against all subversive doctrine. This outcome is attributed to the influence of school teachers, who are drifting more and more toward extreme radicalism.

An example was furnished the other day when a monument to the school teachers killed on the battlefield was to be inaugurated in the Department of Morbihan. The school teachers association of the department decided by a large majority that the inauguration should not be allowed to take place unless the inscription, "To the School Teachers Who Fell on the Field of Battle," was changed to "To the Victims of the War." They also demanded that there be no mention of France or the "fatherland" in any speeches, and that the Marseillaise be neither played nor sung.

The unsuspectedly large proportion of the teachers of that department won to Bolshevism has started an inquiry into the state of mind of teachers generally, and one functionary of the department of education said the communists were certainly in the majority by a considerable margin.

In some departments teachers have prepared their own texts for dictation to pupils in which they have carefully cut out everything that in the regular text books smacks of patriotism or history. Even the word "international" is becoming unpopular with these extremists because of the last three syllables.

The fight between classes is the prevailing sentiment in the examples of these improvised text books that have come to the notice of the authorities. How to deal with the situation is a hard problem. The present government is inclined to the greatest leniency in such matters, and the school teachers' influence in rural districts is such that there are no means of combating him on his own ground.

The Communists took 800,000 votes from the Socialists in the recent elections, and the coalition of the latter with the Radicals is expected to drive a great many more toward Bolshevism before another election is held. In this the school teachers' influence is not felt, but it is thought that the present generation of country school children will, if there is not a reaction in the meantime, swell the communist ranks immensely when it becomes of voting age.

CHINESE EDUCATED IN U. S. SUCCESSFULLY DIRECT RAILWAY

Tsingtao, China, Aug. 25.—The new directorate of the Kiaochow-Tsinau railway, the central transportation artery of Chantung, has been using the pruning knife with such telling results that the payroll for the coming fiscal year will be \$500,000 less than for the current year.

Almost every department is being administered by returned students from American technical universities, all specialists in their lines. A vice managing director, a Harvard graduate, said in a speech recently: "The Kiaochow railway offers the best possible demonstration of what educated and enlightened Chinese can accomplish when unhindered and untrammelled by politics."

INTERNATIONAL LAW PROBLEMS TO BE DISCUSSED IN SWEDEN

Stockholm.—Territorial limits at sea, the safeguarding of the rights

of minorities in the League of Nations, aviation law, and international commercial arbitration are some of the important international questions which will be discussed by about 200 of the world's most prominent lawyers at the thirty-third congress of the International Law Association in Stockholm, Sept. 8-13. England will send about 100 delegates to Stockholm, the American section of the International Law Association will be represented by at least a dozen delegates, and the proceedings promise to be of great significance.

NOTICE OF SALE OF PERSONAL PROPERTY.

By virtue of a decree of the Superior Court of Pitt county, the undersigned will on Monday the 11th day of August, 1924, at 12 o'clock noon expose to public sale before the court house door in Greenville to the highest bidder for cash the following described real property to-wit: First Parcel—Lying and being situated in Greenville Township, Pitt county on the north side of Tar river, bounded on the north by the lands of Thomas Whichard, on the east by the Enoch Moore lands, on the south by the lands of Samuel Dudley and on the west by the Shivers land, containing 91 acres more or less, being woods land.

Second Parcel—Situated in the Town of Greenville, N. C., on the west side of Cotanch street and being lots Nos. 11 and 12 in the subdivision of that part of the Alfred Forbes estate as shown by map made by H. L. Rivers, C. E. in October 1919, of record in Book of Maps No. 2, page 58, in the Register's office of Pitt county, said lots having a frontage of 25 feet, each on Cotanch street, and running back a depth of 150 feet, to an alleyway. Said property will be sold for the purpose of making assets to be applied to the payment of the indebtedness of the estate of G. E. Harris.

This the 7th day of July, 1924.
