GERMAN REICHSTAG VOTES ACCEPTANCE OF LONDON AGREEMENT DAWES PLAN

Eleventh Hour Agreement on Dawes Plan Between Government and Nationalists Make Acceptance of Dawes Plan Possible

Berlin, Aug. 29.—The German Reichstag today accepted the Dawes reparations agreement concluded at the London conference by adopting by a vote of 314 to 127, the necessary two-thirds majority, the railway bill to put into effect the provisions of the London agreement.

The German Nationalists, whose open opposition to the agreement and whose attacks on it in debates yesterday and today had made the result of the voting problematical, voted in favor of the railway bill but voted against the banking bill and other Dawes measures which were adopted by a vote of 195 to 172 the two-thirds majority not being necessary in these measures.

The industrial debenture bill the third of those provided by the Dawes plan was also adopted by the necessary majority.

Up to 10 minutes before the vote was taken upon the all important railway bill today voting on the London agreement was wholly a conjecture although persons of well informed circles learned that a peace pact had been agreed upon between Foreign Minister Stresemann and the Nationalists. It was this eleventh hour agreement between the government and the Nationalists resulting in the defection of 57 votes from the ranks of this opposition party that enabled the government to obtain the constitutional majority in spite of their work in London.

The price the government paid for the support of the Nationalists, which up until midnight last night was still doubtful, is reported to be a promise that the present cabinet will be re-constructed in the near future so as to include several Nationalists.

The government approved the tariff on grain also, it was reported, as a part of the bargain made by Minister Stresemann acting as the go-between in behalf of the government.

Berlin, Aug. 29.—The final vote on the government's bill necessary to carry out Germany's part in the Dawes program will be taken at 4 o'clock this afternoon and it appears certain that the Reichstag will endorse the London agreement.

The Reichstag this morning continued the debate which had gone on in a lengthy fashion for several hours yesterday. It is not believed, however, that it will be necessary to use the dissolution decree which has been signed for use in event that the house withdraws its approval of the pact elaborated at the international conference.

Chancellor Marx in his final appeal this morning for the acceptance of the pact suggested that the resolution of the Nationalists submitted yesterday be amended to enable the government to support it. Meanwhile negotiations were continuing behind the scenes and there was activity in party circles with well informed persons generally conceding that there was an even chance for adoption of the London agreement.

Carter Glass Unable to Take Part Campaign

Lynchburg, Va., Aug. 29.—Carter Glass, of Virginia, will not be able to take an active part in the national campaign until he recovers his normal good health after the source of infection responsible for erysipelas from which he is now suffering has been definitely ascertained and removed, it was stated by physicians today.

Misses Lida May and Irene Dail, Mr. Lonnie Dail, of the Thomasville Orphanage, Thomasville, who have been visiting Mr. and Mrs. R. W. Dail, have returned home.

Gilbert May Pilot the Dawes Plan.

S. P. GILBERT, JR.

Seymour Parker Gilbert, Jr., former U. S. Under-Secretary of the Treasury, is mentioned for the permanent post as agent under the Dawes reparations plan. Owen D. Young having refused to accept the post for more than a brief time.

PRINCE OF WALES ARRIVES TODAY

Heir to British Throne Pays Second Visit to United States Enroute Ranch Canada

New York, Aug. 29.—The Prince of Wales, arrived aboard the liner Berengaria at the quarantine station in lower New York harbor at 2:17 this afternoon.

The Prince plans to leave the liner, as soon as the customary medical inspection of the vessel has been completed, for Glen Cove, on the north shore of Long Island aboard the fast yacht Black Watch.

Aboard the S. S. Berengaria, Aug. 29.—Due to arrive in New York this afternoon on his second visit to the United States enroute to his ranch in Canada, the Prince of Wales spent the morning in final preparations for his debarkation.

Last night he took a little time off to dance by music from a phonograph in a quiet corner just outside the royal suite, with members of his party.

There were several distant spectators but none ventured near.

French Court of Honor Be Rid of Big Statues

Paris, Aug. 29.—Nearly a million francs of the million dollars given by John D. Rockefeller, Jr., for the restoration of the Cathedral of Rheims and the Palaces of Versailles and Fontainebleau will be required to remove the gigantic statues that line the Court of Honor leading to the main entrance to the Chateau de Versailles.

Every visitor to the place has remarked these figures which represent men noted in the history of France, Conde, Turenne, Richelieu, Du Guesclin and Bayard among them, and most have wondered why they should be there as they evidently do not fall in with the scheme of things. They were originally made for the Concorde bridge in Paris but their exaggerated dimensions dwarfed the bridge to such an extent that King Louis Philippe had them moved to Versailles, thinking no doubt that nothing could dwarf that mighty work, but they were huge enough even for that.

Only the expense has prevented their removal years ago so that advantage has been quickly taken of Mr. Rockefeller's generosity to carry out the long wished for improvement even at a cost of 980,000 francs.

WHITE MAN AND 2 NEGROES BEING TRIED FOR ROBBERY

L. E. Allen, Robert Rawls and James Merritt Charged With Robbing Cotten's Store, On Trial Today

The case against L. E. Allen, Robert Rawls and James Merritt, charged with robbery and arson, consumed yesterday afternoon's session and today's session of Superior Court. It is expected that it will be concluded today.

Allen, the only white man in the "gang," was called to the witness stand early this morning and at noon was still under fire. Several other witnesses are yet to be examined and it is expected that the case will consume the entire today's session.

The case is the outgrowth of the robbery of R. R. Cotten's store, which occurred several weeks ago. Three negroes entered the store, cut the telephone wires, held up the clerk and robbed the store. Two of the negroes charged with the robbery accompanied by Allen were arrested by officers and placed in the Pitt County jail.

Allen claims that he knew nothing of the robbery of the store and that he was only carrying the negroes in his car and that they were paying him for his services. The negroes declare that they were in the employ of Allen and that he carried them to the store for the purpose of robbery.

The case has attracted wide attention. The court room has been crowded since the beginning of the trial and splendid legal talent has been displayed.

German Steamship Lines Seek Greater Efficiency Now

Hamburg, Aug. 29.—The shipping companies of Germany have effected a pooling of interests that will be of far-reaching importance to shippers everywhere. The new arrangement practically eliminates competition between German concerns, and substitutes therefor a close coordination of the entire German shipping industry.

The most far-reaching arrangement is that covering the lines doing business with the Orient. The German Levant line and the German Orient line have merged. The Levant line turns represents a merger of the German Levant line, the Bremen Aro line and the Bremen Atlas line. All of the shares of the Levant line were in the hands of the Hamburg America line.

Before the German Orient line, which is a Stettin and Hamburg concern, was ready also to merge, it insisted upon receiving 50 per cent of shares of the Levant line. This was conceded, whereupon the entire oriental service was combined in one concern.

This means that freight rates can be offered that will successfully underbid, it is claimed, those of other countries.

This combination of shipping companies doing business in the near East is regarded as but a first step in the direction of actually putting all German shipping under one hat.

By pooling interests the German lines hope to make it possible to throw their tonnage in whatever direction business is best, without having to keep up established schedules merely for the sake of prestige.

WOMEN OUT TO DEMAND RECOGNITION AS BARBERS

Indianapolis.—The outstanding question to confront delegates to the convention of the Journeymen Barbers' International Union when they assembled here Sept. 9 is—Shall women be admitted to the ranks?

For 15 years women have sought to become members, according to Jacob Fischer, secretary, but the vote has always been against them. But with women customers flocking into the shops for bobs, union officials, admit that a decision will be more difficult at this convention.

JAPAN SUFFERS HEAVY LOSS FROM MENINGITIS EPIDEMIC

Tokio, Aug. 29.—The total deaths from the epidemic of meningitis now sweeping Japan reached 1,776 today when 23 fatalities were listed at Kobe and one at Yokohama. During the past 24 hours 876 deaths from the disease have been reported.

DAVIS PREPARES FOR WESTERN TRIP

Nominee Will Make Chicago Base From Which to Make Speaking Tour of West

New York, Aug. 29.—With his speech practically completed, John W. Davis, Democratic presidential candidate, today turned his attention to matters of campaign organization and the financing of the campaign before starting on his western trip Sunday. Making what is his first real invasion of the west he does not propose to, what is generally referred to as, swing around the circle. He will make Chicago his base and will make successive trips to speak in those cities which have been or will be included in his itinerary.

Woman Escapes From Jail Surrenders To Asheville Police

Asheville, Aug. 29.—Mary Myers, one of the seven women who escaped from the local jail last week, has surrendered to the police. Lucile Hart surrendered last week. The Myers woman when she surrendered stated, according to the police, that she had wanted her freedom to get some good things to eat and was ready to return after accomplishing her purpose.

Buncombe County to Conduct Pure Bred Dairy Sire Campaign

Asheville, Aug. 9.—With the naming of special committees to look after the affair, all is in readiness here for the launching September first of the Buncombe county pure bred dairy sire campaign.

The object of the campaign is the improvement of dairy cattle in the county. Among the interests behind the movement are the agricultural extension forces of the state and county, the local banks, the local Chamber of commerce, local creameries, the Farmers Federation and the leading farmers.

The forces behind the campaign believe that the campaign will be a start toward eliminating the scrub bull and putting in its place the purebred animal. While it is said that it would be expensive to ask farmers to dispose of their scrub stock of all kind, and buy purebred animals, still it is felt that with the introduction of the purebred bull that in a few years the stock will be much improved in quality and that eventually the strain will approach close to the purebred animal.

During the week of the campaign purebred animals will be placed on sale locally and a hope is expressed that the farmers and dairymen will purchase these animals and contribute to the success of the movement.

HUNDREDS KILLED AND INJURED IN COLLISION

London, Aug. 29.—More than 100 persons were killed and injured in the collision of two passenger trains near Lahore, British India, according to an agency dispatch quoting incomplete reports received at Lahore.

SUMMER TERM OF TEACHERS COLLEGE CLOSES TODAY

President Wright Delivers Address and Presents A. B. Degree to Five Young Ladies

At the graduation exercises of East Carolina Teachers College, which were held at 10:30 this morning, President Robert H. Wright conferred the A. B. degree upon five young women who have completed the four year college course, and presented diplomas to 31 who have completed the two-year normal school course. The number of Aug. graduates for 1924 is the same as the total number in 1914. The total for 1923-24 is 141.

This closed the summer term, the first continuous twelve weeks term given in the summer schools of the state, and the most successful of the fifteen summer schools held in this institution. Director Meadows in his report to the board of trustees recommended that the twelve week summer term be continued hereafter.

The board of trustees held an important meeting immediately before the graduation exercises. The building committee met on Thursday evening. The members of the board present were state Superintendent A. T. Allen, Dr. J. Y. Joyner, Messrs. J. B. Leigh, Gray R. King and A. B. Andrews.

message to the graduates Director Leon R. Meadows presided over the exercises and presented the young women for graduation.

President Wright delivered the institution. Director Meadows in his An attractive musical program in charge of W. A. Potter, director of public school music, was an enjoyable feature of the occasion.

The program was as follows: Song—School. Scripture Reading—Director Leon R. Meadows. Prayer—The Lord's Prayer. Song—School. Chorus—Graduating Class—"Happy Birds" by Holst.

Instrumental Solo—Mrs. Culbreth Vocal Solo—Miss Nora Williams. Address—President Wright. Presentation of Diplomas and degrees.

Announcements — President Wright.

Song—"Carolina"—School. Taxation as an investment was the theme of President Wright's address. He made a striking contrast of the two purposes for which taxes are expended, one for the building up of the right type of citizenship, through investment in public schools, and the other for the protection of citizens by the money spent for helping people working on the chain gang and in jail.

He drove home the point that if taxation for the former is sufficient and wisely handled there will be less and less need for the latter. His gave an analysis of the purposes and message was pointed and definite, clear and concise.

He did not enter into a discussion of what taxation is, but confined himself to developing the one point of wise investment. In doing this he the function of the public schools. Their sole purpose is to make better citizens in the truest sense, law-abiding citizens, right minded in their concept of public duties and responsibilities, and in their ideals of human relationships. The public schools are teaching people how to live, and how to be healthy, and is teaching the child the things he will put into operation when he becomes a citizen.

If there is justification for the investment of taxes in the public schools they should be made a paying investment. For this the greatest necessity is teachers in the public schools who know how to teach. The teachers are the major workers in the business of the public school system.

He pointed to the 36 young women on the rostrum going forth as leaders in the schools and communities as trained teachers. He spoke to them of the teachers part in making

COOLIDGE RETURNS FROM HIS VACATION

President Picks Up the Reins of Government Immediately Upon Arrival in Washington Today

Washington, Aug. 29.—President Coolidge returned at 7 o'clock this morning after a two weeks vacation at his father's farm near Plymouth, Vermont.

The president with Mrs. Coolidge and their son, John, left the train immediately for breakfast at the White House after which he took up once again the chain of his official duties.

Beginning his days work with a cabinet meeting to be followed later in the day by an address to the delegates in attendance at the National Fraternal Congress his first vacation since taking over the presidency was definitely ended.

the investment worth while. He urged them to teach citizenship in every lesson and in their own ideals and conduct.

He spoke of the spirit of fair play. If a child is allowed to do any thing, to make short cuts in order to win, he is being trained toward the jail, not away from it. The kind of teachers that holds children to the right, even when the sacrifice hurts, teaches them to be good losers, is the right kind. The citizens who are trained to such standards are the kind needed by the homes, in the churches and communities, and in the world. He directed the young women to the Great Teacher who will teach them more than all other teachers. He referred to the fact that the state of North Carolina gives to its graduates, with the diploma a copy of the Bible. One of the great lessons they can get from it, it is better to give than to receive. He made them realize the great privilege it is to teach in a state that holds up before them high ideals.

He enumerated the many privileges that the one going forth to teach in North Carolina has. He referred to the great things North Carolina is doing for Education, but kept strongly impressed upon the minds of his audience the most vital

Durham, Wake, Nash and Edgecombe Counties Are Heaviest Sufferers; Only Slight Damage Here

Greenville was visited last night by one of the worst electrical and rain storms of the summer but fortunately the storm was of short duration having passed over within less than an hour. The rain was accompanied by high wind and hail but no reports of much damage here or in the immediate vicinity have been received.

The storm, according to reports from various sections swept a narrow area of the state from west to east, the heaviest damage being reported from Durham, Wake, Nash and Edgecombe counties.

In Raleigh windows were shadowed by the wind and hail and many trees were uprooted or broken off.

Rocky Mount reports considerable damage to trees and many shattered windows, as well as demoralized wire service as a result of the storm.

Reports from Nash county state that crops were ruined by the hail and fields leveled by the pouring rain. Severe washouts along the Rocky-Mount-Nashville highways were reported.

According to reports from Tarboro much damage was caused by the lightning which set fire to a negro church causing the loss of that and two other buildings.

Rocky Mount, Aug. 29.—Trees were uprooted, windows smashed and telegraph, telephone and electric wires were put out of communication early last night by a severe electric storm which struck this city. The rain was accompanied by hail and a terrific wind. A number of plate glass windows in the downtown section were shattered by the wind and hail and several chimneys were blown down. The hail in some instances was as large as marbles.

Body of Artilleryman Returned to Georgia With Military Honors

Fort Bragg, Aug. 29.—The body of Private Carl C. King, Battery B, 118th Field Artillery, Georgia National Guard, who died yesterday afternoon at the post of the hospital as the result of injuries received from a premature explosion of a shell while his regiment was firing on the range, was sent to his home in Savannah, Ga., early today.

Remains were accorded full military honors here and were accompanied by a guard of honor composed of one lieutenant, three non-commissioned officers and six privates all of the organization of which young King was a member.

FOR THE COMMUNITY'S ADVANCEMENT

Ever keeping for its goal the upbuilding and betterment of Greenville and Pitt County The Reflector is now at work upon a GREATER PITT INDUSTRIAL DEVELOPMENT EDITION of the paper which will appear in the near future. In order to sell Pitt county to the world we must first be sold on the proposition ourselves and it is for this reason that we are undertaking this industrial edition.

The chief objects of the edition are: To advertise to the world the industrial and other advantages of Greenville setting forth the possibilities enjoyed or held forth to prospective manufacturing plants. To advertise first, Greenville and Pitt County to Greenvillians and Pitt Countians. To further advertise Greenville's excellent tobacco market.

To exploit the Pitt County Fair and other community events.

To tell why Greenville is the logical trading and shopping center of Pitt and surrounding counties;

In brief to further advertise and consequently further expand every resource that Greenville and Pitt County enjoys, to make this a bigger, more prosperous and better community in which to live.

To make this publication the success that it should be will require the moral and material support of every forward looking citizen in the community.

This paper has secured the services of experienced newspaper and publicity men to assist in the proper compilation of such an edition. These experts are now in the field collaborating with the business and professional men and interests and we commend them to you for your approval of the proposition which they will present.

A CAMPAIGN OF EDUCATION

It appears that Wall Street has reached the conclusion that a campaign of education on behalf of that citadel of wealth conducted in the Northwest might remove some prejudices and misinformation and be of mutual benefit.

The American Economic Institute has undertaken to instruct folks in Wisconsin, Minnesota and North and South Dakota where the Wall Street banker renders a service to agriculture in financing crop-raising, transportation and sale. Speakers are going about explaining the relationship between agriculture and banking and showing that instead of being in conflict, one is necessary to the prosperity of the other. It is stated that aid given prevented the closing of 200 banks in the territory being covered. This was done through the Agricultural Credit Corporation. Had this relief not been given conditions would have been vastly worse.

This is "carrying the war into the enemy's country." In that region Wall Street has been portrayed as being everything that is unlovely and of ill-report. It is quite a job which is undertaken, if it is hoped to wear away entirely the people from the doctrines expounded by every self-seeking candidate who too often needed only to be "agin' Wall Street" to gain support. Wall street may have sins for which to answer, probably has many, but it will be a revelation to many folks in the Northwest to be told that Wall Street does some good, some needful things in a business way for those in distress.

The effort to instruct in the actual function of Wall Street may have broad results at once. It may succeed in removing some prejudice and in opening minds to reason and pave the way for a fuller understanding of the relations of agriculture to capital, which is the real Wall Street.

Defeated candidate for governor in Texas who lays it to failure to get enough votes has a perfect alibi.

BEALL SOLD TO YANKEES

Rochester, N. Y., Aug. 29.—Walter E. Beall, a 24-year-old right handed pitcher, one of the leading hurlers of the International League, has been sold to the New York Yankees for \$50,000 and will be delivered Sunday, officials of the Rochester club announced.

Beal is well known in Norfolk. He performed with the Tars four years ago. Becoming dissatisfied with the club, he returned to his home in Washington. The local management had him placed on the ineligible list.

He pitched independent ball and made such a fine record that he attracted the attention of George Stallings, manager of Rochester. Norfolk owner, succeeded in having the player reinstated and then sold him to Rochester for \$3,500.—Ledger-Dispatch.

Irish Prohibitionists Told That Drink Ravages Land Now

Dublin—Ten thousand persons from all parts of Ireland participated in the recent celebration of the fiftieth anniversary of the founding of the Pioneer Total Abstinence Association. A dozen bands and 500 clergymen marched in the procession which took 45 minutes to pass a given point.

A monster mass meeting was presided over by the Rev. — Flynn, S. J., and addressed by the Rev. P. J. Cannon, S. J., who deplored the general return of drunkenness in Ireland within the last six years and urged the support of a bill introduced in the Dail to check abuses of liquor. He said the bill is encountering the opposition of the "vast vested interests which depend for their profits on our most notorious national weakness." He urged the 250,000 members of the organization, most of whom are voters, to support the effort to bring the membership up to 1,000,000 voters and said 40 new centers of the total abstinence organization have been added since Christmas.

The Most Reverend Dr. Gaughran, Bishop of Meath, also addressed the meeting. He rejected in the fact that Ireland's political clouds are fast disappearing. "Irishmen are today rulers in their own country," he declared. "Out of what permanent advantage is that if the demon of drink continues its ravages?" A resolution was passed demanding the enactment of temperance reform measures by the Dail and the meeting concluded with the Papal blessing.

COTTON LETTER

New Orleans, Aug. 29.—After ruling easier in early morning, due to lower cables than expected the interior reporting a further decline in the spot basis but values recovered later in the session owing to bullish spinners takings for the week, less favorable crop accounts from nearly all sections of the belt and because of the fear entertained as regards to the uncertainty of the movement of the tropical storm. It is possible for the storm to enter the gulf by the way of Florida straits, which would be dangerous for the cotton region, or make its way northward via the Atlantic in the path of the recent hurricane. While crop accounts are generally less favorable, general deterioration is usual at this time of the year and it is doubtful if the deterioration reported is greater than the normal for this season of the year.

SUMMER TERM TEACHERS COLLEGE CLOSING TODAY

(Continued from page 1)
need for making the money expended a paying investment.

Money is being put into buildings, equipment and transportation, but most important of all is the teacher. There must be ample facilities for training the boys and girls for teaching. That means more normal schools and more put into just such institutions as East Carolina Teachers College.

After delivering the diplomas he called on all old folks as well as young, to show their state pride by showing they could sing together well, "Carolina."

Just before the final song he called the president of the Lanier Society to the rostrum and presented to her a rare copy of one of the works of Sidney Lanier "Florida," a gift from Mr. A. B. Andrews, a member of the board of trustees, who, President Wright says is interested in all activities of the college.

The young women receiving diplomas for the two-year course are as follows:

Miriam Bridger, Margaret Lucille Credle, Nona Inez Gerald, Kate Emelyn Griffin, Bertha Susan Hart, Rose Louise Hooks, Emma Lou Jackson, Lyleen Dorice Jackson, Inez
