

SEVERAL CASES ARE DISPOSED OF THIS WEEK'S COURT

Several Judgments Rendered and Divorces Granted During Session

This week's term of Pitt county Superior Court for the trial of civil cases, has been most successful and several judgments have been rendered and a few divorces granted.

The following cases disposed of were the following:

Louise Bell Lautarette was granted divorce absolute from William McKinley Lautarette.

Virginia Harrison and John Harrison were granted divorce absolute.

The case of Edwards Letchworth, adm., vs. G. C. Moore was compromised by defendant paying to plaintiff before Nov. 15, \$450 with interest from Sept. 8, 1924.

Walter Johnston was rendered a judgment of \$150 against Hughes Thomas Company, for salary which he claimed was due him from 1921.

The defendant was also required to pay interest from July 1st, 1921 until time money is paid.

Cary Harris and Mary Harris were granted divorce absolute.

In the case of Parker Motor Truck Co. vs. L. A. Randolph, F. E. Randolph and J. H. Randolph trading as L. A. Randolph Co., judgment was rendered in favor of the defendant for \$2817.09 with interest from 1920.

Shelly Sales and Book Co. was given a judgment of \$24 with interest from Sept. 1, 1920 until the date of payment, against J. C. Savage.

In the case of A. Savage & Son vs. Richard Munford, the plaintiffs were given \$100 with interest from Sept. 8, 1924 until paid.

H. J. Feltus was rendered a judgment of \$120 against Brinkley and Spain.

Eastern Chamber Making Plans for Membership Drive

The Eastern Carolina Chamber of Commerce, with headquarters at Kinston, has announced the week of October 6th for an intensive section wide membership campaign for this organization.

A local committee in each of the forty six counties covered by this organization, will call on the business men and others with a view of enlisting their support in this campaign.

The Eastern Carolina Chamber of Commerce is nearing its third birthday and its record during the past two and half years, warrants the continued support of the people of Eastern Carolina.

During this time it has made a place for itself in the development of this section, and should have the united support of all the counties affected by its activities.

There are many sectional problems that need just such an organization as this, and where there are so many counties in this territory that have no commercial organizations to help them locally, it makes it the more essential that there be an organization of this kind.

The publicity that is being given Eastern North Carolina through this organization is worth many times the cost of the operation, aside from the fact that scores of projects have been put over and are now being put over by this sectional Chamber.

We believe the people of Eastern Carolina should continue their support of this worthy organization.

DANES EAGER TO ADMIRE AMERICAN BOY SCOUTS

Copenhagen, Sept. 13.—American Boy Scouts still hold first place in the hearts of the Danish public.

Newspapers have all lauded their fine bearing, excellent equipment and their tremendous power for cheering and uttering weird and penetrating noises.

The American scouts are delighted with their visit and particularly pleased by the proximity of the place where they take their morning swim and play water polo.

They are appreciative also of the attitude of the Danish scouts in refusing to take part in contests where knowledge of the local geography is a help.

War Romance to End in Paris.

MRS. HORACE ALLEN

The romance which started in 1919 in France with the meeting of Horace R. B. Allen, New York, and the former "Kiki" Gwynne, will come to an end if Mrs. Allen can convince Paris courts she is entitled to a divorce, she admitted as she sailed to Paris from New York.

The couple came to an understanding, she said, that they were not temperamentally mated. Mrs. Allen is a daughter of the late Edward Gersham Gwynne, nephew of the dowager, Mrs. Cornelius Vanderbilt.

17 Warehouses In S. C. Belt Operated During August

Raleigh, Sept. 13.—During the month of August there were 17 warehouses operating in North Carolina on eight markets in the counties of Bladen, Columbus and Robeson, all of which are in the southeastern section of the state and are considered as belonging to the South Carolina Belt, according to a report issued here by the Cooperative Crop Reporting Service of the North Carolina and the United States Department of Agriculture.

The Producers' tobacco sold on these markets was given as amounting to 8,551,576 pounds as compared with 11,408,916 pounds sold during August 1923 at which time there were 58 warehouses open.

It was explained that a number of the warehouses that were operating in August 1923 were in the New Bright belt and did not open this year until after the first of September.

Average prices the sales to Sept. 1 were placed at 17.44 per hundred pounds as compared with \$22.52 per hundred pounds for the same period of time during last year.

The highest average for the month was \$18.03 per hundred pounds shown at the Fairmont market.

According to the report the August sales amounted to less than one per cent of the full amount to be marketed this year.

This condition of the crop in this state at the time of harvest was reported as being 72 per cent of a full crop.

This was said to indicate an average yield of 50 pounds to the acre while last year the yield was 700 pounds to the acre.

This year's total production was placed at about 24 per cent below that of last year. Part of this was attributed to the decrease of ten per cent in acreage.

The warehousemen report the quality of the sales as only fair with a lot of chaffy tobacco.

Property Owners To Hold Asheville Responsible for Dam

Asheville, 13.—Property owners living adjacent to the new Recreation Park Lake on Swannanoa river, this week notified the city authorities, that in case of a repetition of the 1916 flood they would hold the city responsible for damage to their property.

They were assured that engineers had constructed the dam which forms the lake with that contingency in view and that there was not believed to be any danger of flooding property even if the river rose.

The property owners based their complaint on the fact, as they stated, that inundating of the water behind the dam left their property open to flood if the dam burst or if there was a serious flood.

WORLD FLIERS MAKE TOBACCO PRICES CAPITAL TO DAYTON SHOW STRENGTH FLIGHT DURING DAY SECOND WEEK

After Remaining in 1,973,186 Pounds Sold for \$381,496.04, Averaging \$19.33.

Washington, Sept. 13.—The army around the world fliers began the last stage of their journey today hopping off from Bolling Field here for Dayton, Ohio, at 10:50 a. m.

Clearing atmosphere and reports from weather observers indicating better conditions between here and Dayton prompted those in charge of the flight to order the planes into the air.

Earlier in the day postponement of the flight had been considered. Brigadier General Mitchell, Assistant Chief of the Army Air Service, accompanied the world fliers for a short distance in an escort machine. A photographer's plane also went along.

Pershing Retires to Private Life

Commanding General of American Army Ends 42 Years Active Service at Noon

Washington, Sept. 13.—John J. Pershing ends his 42 years of active service in the army at noon today with a last signal honor paid him in the issuing of an executive announcement by President Coolidge expressing the nation's indebtedness for the service which won him the leadership of the American forces in the world war.

Only in rare instances of history in which a retiring officer had reached the highest rank are the precedents for the honor conferred upon General Pershing in the executive order in which the president today extended anew "the thanks of the nation for your eminent services."

Actual retirement at noon found General Pershing busy in his office as general of the armies and chief of staff. The single decoration on his tunic, of the scores that are his was the ribbon showing that he had with hundreds of his comrades been awarded the distinguished service medal.

Officers of the regular establishment passed through the room today to greet their retiring chief. They found him in a jovial mood.

Wilmington Bankers Withdraw Guilty Pleas

Wilmington, Sept. 13.—Thomas E. Cooper, president and Joseph C. Hourk, cashier, of the defunct Liberty Savings Bank here, though their counsel today withdrew their pleas of guilty to demerol charges and forcible trespass to felony charges, made in court Thursday.

The charges were made in indictments returned by the grand jury after investigation into the bank failure.

The case will go on trial at some future term of court, it was stated. No reason was given for the withdrawal of the pleas beyond a statement that unforeseen developments had caused the change.

Forsyth Tax Rate Fixed at 55 Cents

Winston-Salem, Sept. 13.—The Forsyth county tax rate has been fixed at 55 cents on the \$100 valuation. Property in the county is valued for taxation at \$165,000,000.

FALL FROM TREE TAKES LIFE OF LITTLE GIRL

Raleigh, Sept. 13.—Ruth Horton, 8 old daughter of Mr. and Mrs. William Horton, of this city, was instantly killed today when she fell from a tree onto an iron spiked fence one of the spikes piercing her heart.

The little girl and several companions were climbing a grape vine, running up into the tree when she lost her footing and fell.

SCOTCH FARMERS START GROWING BEETS FOR SUGAR

Glasgow, Sept. 12.—The first of a chain of factories to extract sugar from Scotch grown sugar beets has been opened a few miles north of Nottingham. The chain will extend from Kent through Nottingham and into Perthshire, the district in which sugar beet growing has been widely developed since the war.

Other factories will be erected as soon as the beet production can be guaranteed.

WHEN BOY MURDERERS WERE GIVEN LIFE TERMS

(Above) NATHAN F. LEOPOLD and FOREMAN LEOPOLD. (Below) JOLIET PRISON.

Nathan Leopold, father of Nathan Leopold, Jr., bowed his head and kept his eyes half closed when he heard Judge John Caverly sentence his son and Richard Loeb to the Joliet prison for life for the murder of fourteen-year-old Bobby Franks.

Foreman Leopold, elder brother of Nathan, sat by his side as the court read the decision. The Joliet prison, where the two boys will spend the rest of their lives, is shown in the other photograph.

(Above) NATHAN F. LEOPOLD and FOREMAN LEOPOLD. (Below) JOLIET PRISON.

ROWAN VETERAN IS FIRST ARRIVAL FOR RE-UNION

Charlotte, Sept. 13.—J. T. Wyatt, 73 years old "The Venus of Faith," of Rowan county was the first to arrive for the annual reunion of the United Confederate Veterans, which convenes here next Tuesday.

He arrived this morning. Mr. Wyatt gained his nom de plume of "The Venus of Faith" through articles contributed to state newspapers under that name during many years.

School Teacher Strangles Infant

Waynesville, Sept. 13.—Mollie Teague, school teacher at Little Catawochee, 25 miles from this place, is held in custody on the charge of having strangled to death an infant child, of which she was the mother, on last Tuesday.

According to officers the young woman confessed to the crime stating that the child was born early Tuesday morning and that after strangling it to death she taught school that day.

The baby was found late Tuesday in a corn field with a cord drawn tightly about its neck. The woman was arrested after a neighbor stated that he had seen her in the cornfield shortly before the body of the baby was found.

NATIVE BORN IN AUSTRALIA SHOW HIGH PERCENTAGE

Melbourne, Sept. 12.—Some interesting figures are disclosed in the latest Australian census. They show that the Commonwealth has a total population of 5,436,734, and that more than 98 percent are of British extraction.

Of the total population 81 1-2 percent were born in Australia. The remarkable homogeneity of the Australian population is shown by the fact that the foreign population consists of only a few thousand Japanese, 15,000 Chinese, 6,000 Italians, 22,000 Germans, 6,000 Americans and 3,000 Swedes.

NEW LAWS BRING SAHALIEN CLOSER TO JAPANESE EMPIRE

Tokio, Sept. 13.—With the purpose of linking the southern half of Sahalien, gained from Russia at the close of the Russo-Japanese War, more closely to the rest of the empire, the Japanese government has declared several national statutes in force in the island territory.

These laws include the conscription law, the nationality law, as revised by the Diet last month, and a law providing for the naturalization of foreigners through adoption into Japanese families or marriage to Japanese.

Move to Improve Piston Engines

Manheim, Sept. 10.—Steam boilers raising pressures of 50 and even 100 atmospheres are to be tested soon by a local boiler plant. The tests are to be made with a view of greatly increasing the efficiency of engines of the piston type.

CHINESE CIVIL WAR CONTINUES DESPITE HEAVY RAIN STORM

Disregarding Tradition That Fighting Should Be Done in Fair Weather, the Chinese Forces Continue Fight

Shanghai, Sept. 13.—Rival forces of the warring Chinese military governors for possession of Shanghai disregarded their traditional rule against fighting in the rain today when firing was resumed at Hwangtu while that area was being besought by a new storm.

The Kiangsu military governor was reported to be rushing reinforcements toward Changchow, 110 miles from Shanghai, to defend that town against the advancing Chekiang troops who took Hwangtu yesterday according to a Chinese observer who arrived today.

The observer was one of three Chinese passengers sent from here to view the operations of the armies. He succeeded in reaching Shanghai by steamer after getting behind the lines of the invading army.

The observer stated that the assertion of the Chekiang forces, that they were victorious in the vicinity of Hwangtu during the past three days, was untrue.

Canton, Sept. 13.—Dr. Sun Yat Sen, head of the South China government, accompanied by a regiment of troops has departed for Shichow in the northern part of Kwangtung province, the greater part of which is under his control.

Annual Meeting of N. C. Orphan Asso. Be Held in Raleigh Oct. 2

Raleigh, Sept. 13.—The annual meeting of the North Carolina Orphan Association will be held at the Methodist Orphanage in Raleigh on Thursday, October 2 next. It has been announced by Charles D. Johnston, president of the Association.

The program has been arranged and includes speakers, who are leaders in orphanage work and discussions of subjects pertaining to the operation of orphanages.

Among the leaders who will be speakers will be: Joseph Johnston, superintendent of the Presbyterian Orphanage at Barium Springs, on "Our Training School;" Charles Warren, superintendent of the Independent Order of Odd Fellows Home at Goldsboro, on "New Methods in Institutional Book-keeping;" Miss Alice Pirie, superintendent of Wright Refuge at Durham, on "The Intake of an Institution;" and W. H. Wheeler, superintendent of the Thompson Orphanage at Charlotte, who will lead the discussion on the "Institutional Bulletin."

The meeting will be called to order by the president and the invocation will be by Rev. W. A. Stanbury of Raleigh, pastor of Edenton Street Methodist Church. The address of welcome will be delivered by Rev. A. S. Barnes, superintendent of the Methodist Orphanage at Raleigh.

There will reports from standing committees, secretary's and treasurer's reports and appointment of new committees.

Indian Exonerated For Killing Father

Lumberton, Sept. 13.—Jodie Sweet, an Indian, was exonerated by a coroner's jury yesterday on the charge of slaying his father Blaney Sweet.

The young Indian killed his father Thursday night when, according to testimony, the elder man threatened to "kill him or his mother." Blaney Sweet and his wife were separated and Sweet had been put under bond for his appearance Saturday on the charges of threatening to kill his wife and another Indian. The dead man had a pistol clenched in his hand according to police officials.

Move to Improve Piston Engines

Manheim, Sept. 10.—Steam boilers raising pressures of 50 and even 100 atmospheres are to be tested soon by a local boiler plant. The tests are to be made with a view of greatly increasing the efficiency of engines of the piston type.

AT THE LOCAL CHURCHES

Free Will Baptist Church.
L. Everett Ballard, pastor.
Junior Congregation in charge.
Sunday school at 9:45 a. m. Mr. A. G. Walters, Supt. Morning worship, 11 o'clock. Sermon by the pastor. Subject: "The Highway of Holiness."
Junior and Senior F. W. L. at 7 p. m. Mrs. S. B. Harde, Junior Supt., Miss Jeanette Smith, Senior president.
Evening worship 8 o'clock. Special sermon to school children by the pastor. Subject: "Lessons from Little Things." Parents invited to bring the entire family to this service. We are all school children.
Week day services as follows: Monday evening, 7:30 o'clock. Girl's Circle, Marie Baker, leader.
Wednesday evening 8 o'clock, mid week prayer meeting, Mr. R. V. Fleming, leader.

Immanuel Baptist Church.
T. H. Plemons, pastor.
Sunday school 9:45 a. m. Victor M. Davis, Supt.
Preaching 11 a. m. Subject: "Some Prerequisites of a Good Witness."
B. Y. P. U. 6:45 p. m. Mrs. W. E. Smith, leader.
Preaching 7:45 p. m. Subject: "The Unconverted Church Member."
Prayer and Praise Service Wednesday 7:45 p. m. The key word for this meeting will be "Prayer." Meeting led by the pastor, but short talks will be made by representatives of various organizations of the church.
The public is cordially invited to attend all of our services.

Presbyterian Church.
Sabbath school and Bible classes 9:45 a. m.
Preaching services, 11 a. m. and 8 p. m. by Rev. L. Cook Campbell, pastor of Fountain Presbyterian church. Mr. Campbell will preach also at Hollywood at 4 p. m.
Young people will meet at 7 p. m.
The pastor is away conducting a meeting at Fountain, and asks the prayers of his people for the blessing of God upon these services.
We welcome the teachers of our public schools, and invite them to make this their church home during the school term.

Christian Church.
Lee Sadler, minister.
9:45 Bible school. W. E. Hooker, Supt.
11 Preaching by the pastor.
All Endeavor societies at regular

places and hours.
8 p. m. Sermon by M. E. Sadler of Richmond, Va., the pastor's brother. Everybody welcome.
St. Paul's Episcopal Church.
The Rev. James E. W. Cook, rector. Thirtieth Sunday after Trinity. 7:30 a. m. Holy Communion. 9:45 a. m. Sunday school. E. G. Joyner, Supt.
9:45 a. m. Adult Bible class in the Rectory. Senator F. C. Harding will deliver a lecture on "St. Paul's Explanation of the Teaching of Jesus."
11 a. m. Morning prayer and sermon by the Rector. Subject: "This Same Jesus."

The Deacons will meet Tuesday evening at 7:30 o'clock at the pastor's home.

Jarvis Memorial Methodist.
V. P. Scoville, pastor.
Sunday school at 9:45; J. H. Rose, Supt.
Communion service at 11 a. m. Sermon by the pastor at 8 p. m. Subject: "Watching and Praying against the Unexpected."
All Leagues will meet at the usual time and place.
We cordially invite visitors and strangers to worship with us.

Catholic Church.
Mass Sunday morning at 10 o'clock

25,000 FARMERS UNITE TO PRAY GODS FOR RAIN

Kioto, Japan, Sept. 13—More than 25,000 farmers participated in a prayer ceremony held recently in Funai county, Kioto prefecture, to pray to the ancient Shinto deities to send rain. Drought has been threatening the western and southern part of Japan with serious rice crop shortages this year.

The drought is causing quarrels among farming communities in various parts of southern Japan where the water supply is inadequate. The governor of Kumamoto prefecture has been asked to act as referee between two villages which are quarreling over the right of one higher up the stream that runs through both to dam the stream to get water for its parched crops.

Nominees Put Worry Aside

JOHN W. DAVIS & CHAS. W. BRYAN

When John W. Davis, Democratic Presidential candidate, and his running mate, Governor Charles W. Bryan of Nebraska, were in Omaha, Neb., together, they forgot politics long enough to journey to the baseball park and watch a game. Their expressions plainly show their interest.

Green's Secretary Shows Movies by Radio

W. H. MARSHALL

Walter H. Marshall, secretary to Colonel E. H. R. Green, son of the late Hettie Green and one of the world's richest men, as well as one of the greatest amateur radio bugs, demonstrated in a New York theatre motion pictures sent 60 feet by radio on a machine invented by Colonel Green, who expects to perfect the scheme within a year so that movies may be broadcast all over the country.

Murder Charge Fails To Move Her

Mrs. Thomas Boyce declared she knew all about her husband's attentions to another woman before their marriage and declared a charge of murder against him following death of another admirer of "the other woman" was false when Boyce was arrested in Detroit. She said her husband fought to save his own life when Clyde Kellar resented previous attentions to Mrs. Arline Ballinger, and that Kellar was slain in the struggle which followed.

COOLIDGE AND WEEKS GREET FLIERS IN RAIN

PRESIDENT COOLIDGE and SECRETARY WEEKS

When the American globe girdling fliers swooped down in Washington during a storm they found President Coolidge and Secretary of War Weeks on hand to welcome them to the national capital. Lieutenant Lowell Smith, flight commander, is shown shaking hands with the President, while Secretary of War Weeks looks on.

REPUBLICANS SWEEP MAINE OFFICES IN ELECTION

RALPH O. BREWSTER & BERT FERNALD

The Republicans drew first blood in annual elections when the State of Maine, long regarded as a barometer of national trend, returned United States Senator Bert Fernald to the Senate and elected Ralph O. Brewster as Governor. The Republican majority was comfortable. Brewster had been endorsed by the Ku Klux Klan.

Fashion's Latest Mandate Decries Printed Velvet and the Ensemble

THE ensemble is the keynote of the fall season. It is sponsored by leading Paris and American designers. A distinguished example is shown in this photograph—an ensemble coat and dress of silk duvetyne and printed velvet. The printed velvet, one of the newest and richest materials of the season, forms the dress, and is repeated in bands trimming the inside of the coat—a very new note. The coat of duvetyne is fur collared and is of the exact length to meet the fur band on the dress, so that when worn with it, it gives the effect of a fur-bordered coat. This ensemble was designed by David Zimet. The printed velvet is a Cheney creation.

PROMINENTLY MENTIONED IN DAY'S NEWS

Above: MRS. COADEN and JAMES LUCEY. Below: MOUBIL KEMAL BEY and CLARENCE DARROW.

For the first time in sixty centuries there is to be in Turkey a statue glorifying the human figure. Moubil Kemal Bey, representative of Kemal Pasha, is in the United States to negotiate with Gustaf Borglum, noted sculptor, for its erection. Kemal Pasha, mounted, will surmount the figure. Mrs. Joshua S. Coaden, of Sands Point, on Long Island, N. Y., was entertaining the Prince of Wales when burglars ransacked her home and made away with several hundred thousands of dollars in jewels. Clarence Darrow, defender of internationally known criminals, says he will retire, now that he has won his biggest fight—that for the imprisonment of Nathan F. Leopold, Jr., and Richard Loeb at Chicago for the murder of Bobby Franks. President Coolidge's cobbler, purveyor of much political knowledge, will have a try at it himself, since he has won the Republican nomination for the Legislature from his district in Northampton, Mass.

Soap Blimp Floats To First Place In Health Cleanliness Parade

99.44-100% Exhibit Gets 100% Vote

LITTLE June Elaine Bundy of Santa Monica, California, originating the idea in presenting the lesson of cleanliness to health. The dirigible was covered entirely with soap wrappers, the dirigible basket was an enamel bathtub, and the steering apparatus was glistening cakes of soap of the 99.44-100% pure variety.

HOMELESS U. S. EMBASSY IN JAPAN IN MOUNTAIN RESORT

Tokio, Sept. 10.—The "summer embassy" of the United States has been established in Karuzawa, the best known mountain resort of Japan, 90 miles north of Tokio.

The embassy, without a permanent home since its old building was destroyed by fire the night of last Sept. 1, leads a somewhat roving existence, and is confronted by the problem of finding new quarters when the staff returns from Karuzawa to Tokio at the end of the summer.

Offices are still maintained in the Imperial Hotel in Tokio, which has housed the embassy since the earthquake.

Woman Jumps to Death From the 17th Floor

New York, Sept. 12.—Mrs. Maud Rigby, 42 years old, wife of the Mayor of Irmond Beach, Fla., jumped to her death from her room on the seventeenth floor of the hotel Belmont this morning. The woman, according to her husband, George N. Rigby, has been suffering from nervous illness for which she had come to New York to be treated.

Riga Studies Many Tongues

Riga, Sept. 12.—Opportunities to study foreign languages are many in this city. In pointing out the cultural progress of the new Latvian republic, Riga educational institutes announced recently that English, French, German, Italian and Russian as well as the Latvian language are now being taught in the local schools.

HELEN BULLIS IN OVERALLS REPAIRS AIRPLANES AT ELKO

Salt Lake City, Sept. 13.—The only girl in the field division of the United States Aerial Mail Service is Miss Helen Bullis, formerly of Omaha, Neb., stationed at Elko, Nevada.

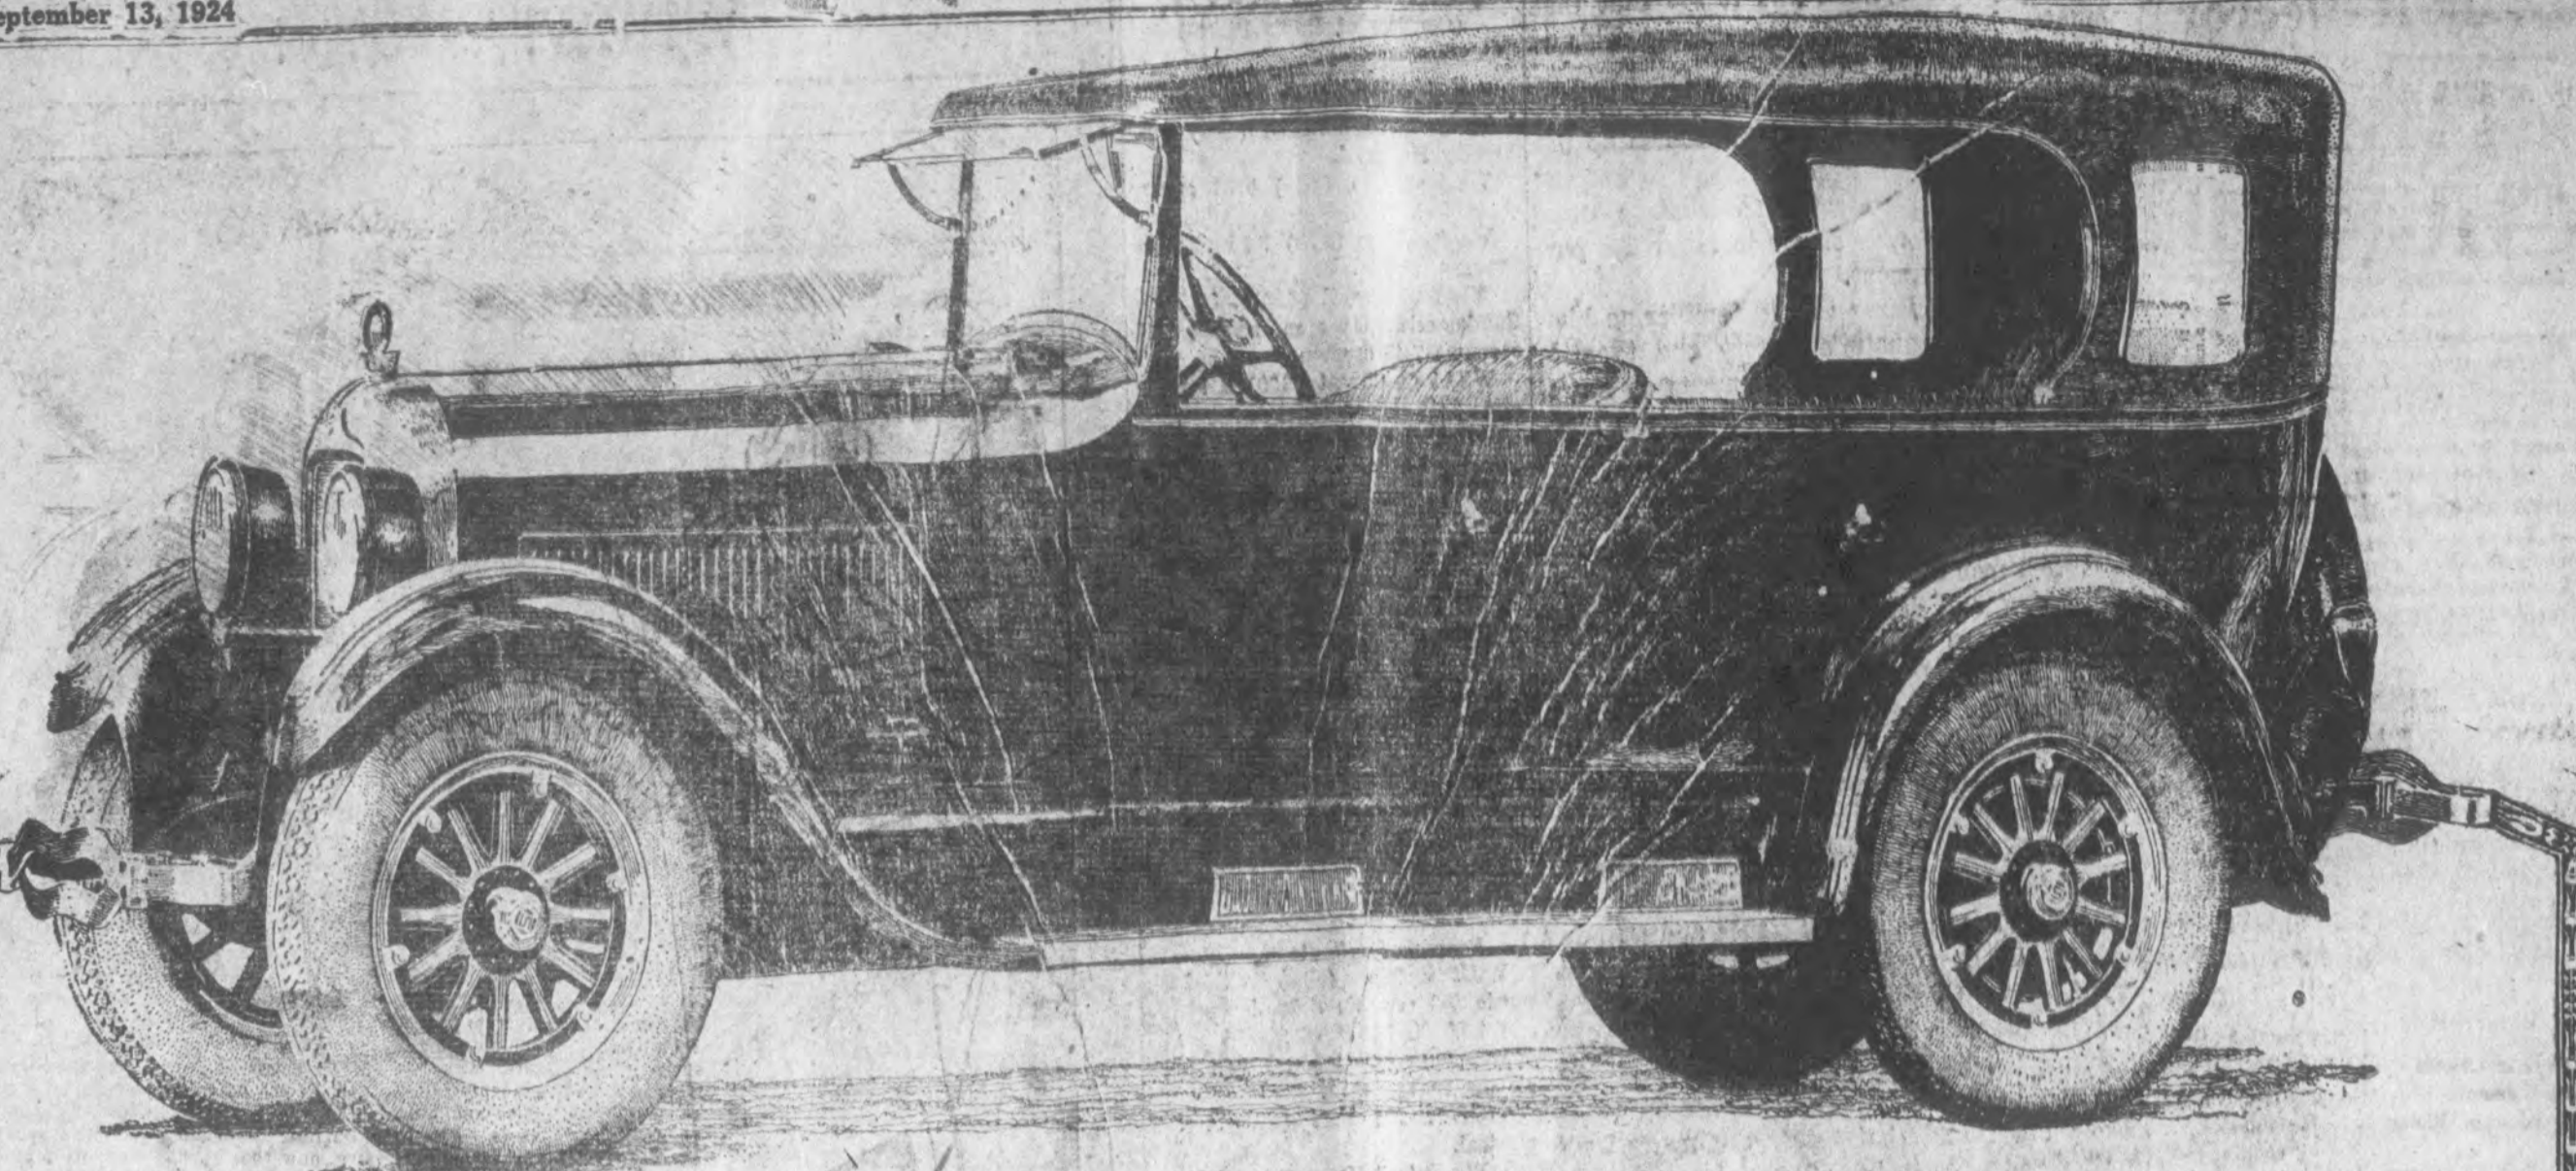

Miss Bullis, bobbed hair, young and pretty, decided three years ago that teaching at a Chicago institute for the deaf and dumb was not

Mexicans Declare Her Most Beautiful

SENIORITA EVA PLATT

A million and a half votes were cast at Mexico City for Senorita Eva Platt in a contest to determine the most beautiful young woman in Mexico. She comes from the State of Saguera.

15 New Studebakers

Including an entirely new type of car—the **DUPLEX-PHAETON**

Today Studebaker has made Automobile History and established standards of value and quality more fully and obviously than ever before.

TODAY Studebaker proves that beautiful, distinctive, stylish body lines can be originated by American body designers without following precedent or imitating or adapting what has been done before.

Today Studebaker proves that a practical and beautiful type of car can be made to combine the pleasure and performance of the open car and the comfort and protection of the closed car—and this without excessive price or compromised quality—a car "duplex" in open-car smartness and convenience and closed-car elegance and comfort—and at a price no higher than that of an open car!

Today Studebaker proves, in its new Standard Six Duplex model, that a six-cylinder car of fine quality, great power, plenty of room and impressive appearance can be made and marketed at a price of \$1495.

Today Studebaker proves in its new Special Six and its Big Six Duplex models that the ultimate in all the essential features of quality in five- and seven-passenger cars can be made and marketed at a price of \$1495 and \$1875 respectively.

And this is possible only because Studebaker cars are made in one of the most comprehensive industrial plants in this country, 70 per cent of which is new within the last six years.

Every modern method of manufacture and long experienced management are available for the production of Studebaker automobiles.

Today Studebaker proves that the highest grade closed car bodies—framed in selected hard woods, cushioned with the best cushion work, upholstered in fine mohair fabrics and fitted with expensive appointments—can be made and marketed on superlatively good chassis at moderate prices.

This is made possible by the new \$10,000,000 Studebaker closed body plants. Studebaker designs and builds all of its closed bodies in one of the best equipped and most modern body plants in the industry.

The Three New Chassis

THE STUDEBAKER STANDARD SIX—113 in. wheelbase, 5-passenger. Engine, 3 3/8 x 4 1/2, 50 h.p.—with 6 different bodies, including Duplex-Phaeton, Duplex-Roadster, Coupe-Roadster, Coupe, Sedan, and Berline.

THE STUDEBAKER SPECIAL SIX—120 in. wheelbase, 5-passenger. Engine, 3 1/2 x 5, 65 h.p.—with 5 different bodies, including Duplex-Phaeton, Duplex-Roadster, Victoria, Sedan, and Berline.

THE STUDEBAKER BIG SIX—127 in. wheelbase, 7-passenger. Engine, 3 7/8 x 5, 75 h.p.—with 4 different bodies, including Duplex-Phaeton, Coupe, Sedan, and Berline.

The Ten New Closed Bodies

COMPLETELY NEW BODIES—each car a masterly expression of modern style, yet distinctly

Three completely new chassis!.. 15 completely new bodies!
Completely new lines!... Marvelous new performance
Completely new open-closed car!

Completely new radiators, new fenders, new lamps, new seating comfort, new finish, new colors in lacquer finish, three improved engines
Real balloon tires, not low-pressure cords. Sizes—21" x 5.25" to 20" x 7.30".
New Studebaker automatic hydraulic 4-wheel brakes—optional.
New values, never before equaled—even by Studebaker!

original in beautiful lines—individual, conservative, impressively elegant, but crisp enough in its departure from imitation to be entirely distinctive.

The Five New Duplex Bodies

(A new type of car originated by Studebaker to take the place of the open car)

SO ENTIRELY NEW and so different from any other body ever made before that a new name had to be created—the DUPLEX.

The upper structure is shaped in pressed steel and covered with the finest water-proof fabric. The steel construction permits the use of another radical Studebaker creation, the new roller enclosing curtains. There is the permanent beauty and durability of the steel top plus the instant convenience of the roller curtains.

Thus Studebaker engineers have solved the open-closed car problem.

The buyer who wants the airiness and practical convenience of the open car, and who also wants the comfort, protection and beauty of the closed car can now get both in one car and at the price of an open car.

One moment the new Studebaker Duplex is a beautiful open car—a touch of the hand to the overlapping roller curtains and it is a snug weather-tight closed car.

Balloon Tires

Genuine and full size balloon tires on all models. Every part that functions with the tires has been specially designed for balloon tire equipment—steering gear, steering knuckles, spindles and springs, even the fenders.

New Lacquer Finish

The Standard Six closed bodies are beautifully finished in semi-gloss, satin lacquer. The hood and lower panels are in light gray, the upper panels in darker gray. Hairline parallel striping in oriental red. Burnished nickel radiators, jet black fenders, light golden finished, natural wood wheels and big balloon tires are contrasting touches.

The Standard Duplex Models are finished in glossy jet enamel—lasting, lustrous and wear-resisting.

The Special Six and the Big Six Duplex models are in soft satin lacquer with dark blue hoods and bodies striped in light blue and ivory. Here, too, the sparkle is added with burnished nickel radiators and light, natural wood wheels in contrast with jet black fenders and big, black balloon tires.

More Power

The universally famous Studebaker engine is more than ever a peer among power plants. The crankshaft is heavier. ALL surfaces are perfectly machined to exact dimensions and balance. The bearings are larger.

The engine is in unit with the clutch and transmission. There is a force feed lubrication system with clean, strained oil always in reserve. There are many changes and improvements which result in MORE POWER, MORE QUIETNESS and SMOOTHNESS and STILL BETTER PERFORMANCE in every way.

New Brakes

Larger, more powerful, simpler and much easier operated two-wheel brakes. An entirely new emergency brake is operated from the instrument board, instantly convenient to the driver's hand where it simplifies the control and frees the floor board from

the old style lever. It acts on the propeller shaft. There is uniform pressure at each wheel—equalized through the rear axle.

The regular two-wheel Studebaker brakes with their simplicity, safety and great braking power are entirely adequate.

But Studebaker 4-Wheel Hydraulic Brakes (with disc wheels) can be furnished as optional equipment on all models at extra charge if desired.

Studebaker 4-Wheel Brakes have three exclusive features not found on any other system in this country.

1. Braking pressure is furnished by hydraulic power automatically developed. A light touch to the braking pedal controls its great force like a touch to the throttle controls the power of the engine. This feature will appeal instantly to women.

2. The front wheels cannot lock.

3. There are only two adjustments required—ones at each rear wheel. The front brakes are permanently adjusted at the factory. The oil in the transmission is used to generate the hydraulic power; the action of the gears and the pump keep it in circulation; it cannot congeal or freeze. Braking power is always instantly ready—in winter as well as in summer!

New Ease of Operation

New Ease of Gear Shifting—New power in braking, a touch to the pedal exerts a giant's strength at the rear wheels—New clutch action, soft as velvet—A new steering gear and steering knuckles designed for balloon tires—A new grouping on the dash, including ALL the usual instruments plus a gasoline gauge that always works accurately.

Lighting Control Switches—all on the steering wheel— instantly handy.

Automatic Spark Control—No manual attention required, so the lever is eliminated. Automatically governed to all speeds with the precision of machinery.

And the Details

The new cars are longer and lower to the ground. The line from the radiator to the rear is nearly straight. The wheelbase of all models is increased.

The fenders are much wider and deeper crowned to cover the width of the tires. They fit more closely over the wheels. The rear fenders are long and gracefully curved into the running boards.

The radiators are high and set low in the frames and convex curved just below the filler cap. The design is strikingly original and beautifully distinctive.

Entirely new head lamps and cowl parking lamps designed by Studebaker—artistically appropriate and in perfect keeping with the originality of the body and fender design.

Deeper, stiffer frames, more cross members; shorter, flatter springs for balloon tires. All bodies lower, all roomier, better and more comfortably cushioned. Seats are lower, backs and sides are higher.

Look Forward Into Next Year

The new Studebaker is here today! And no matter how sweeping your ideas of what a new model should be this car will satisfy you. It will thrill you with the very newness and originality of its beautiful lines!

You may not be in the market now, or even this year. But to see the new Studebaker is to look forward into next year—and the year after! SEE IT TODAY!

STOCKING BANKS

A group of middle western bankers conducted an investigation to ascertain to what extent farmers and small business men keep in hiding sums of money. It was found that a large number, amounting to an appreciable percentage of the whole, kept sums ranging from \$100 to \$10,000 hidden about the premises. It is not hard to understand how one might need to keep temporarily as much as \$100 about the house but to have \$10,000 or any amount approaching that sum certainly would be extrahazardous.

Those who live at a distance from a bank naturally might need to keep much more currency on hand than others who could step into a bank whenever necessary, but to have about the person or on the premises any considerable amount is to invite someone to come and take it. Frequently robberies are reported where by violence directed against the possessor information as to the hiding place of the money is extorted. It is hard enough to keep money under any circumstances. To invite robbery by hiding it about the house should be unnecessary in these days of many banks.

The currency that is hidden away does nothing for the owner while if it were deposited in a bank it would work for the possessor and for others also. No doubt the sums hoarded and not working total vast figures. Were all of this secreted capital where it would be available for use it would assist greatly in the restoration of industry.

"DEFENDING" CONSTITUTION

Induced by an appeal to defend the constitution of the United States and uphold the majesty of the law, many American citizens are said to be joining a secret order and contributing funds for its support. It is evident that these people are well intentioned and therein lies the hope that their zeal for American institutions may be directed properly.

The framers of the constitution provided every necessary safeguard for its defense in the government which it established. That government was founded upon the principles of liberty and of toleration of free option. It conceded to every man the right to think and to believe and to speak freely.

Good American citizenship makes the most of these safeguards of liberty. The best

citizenship exerts itself always to promote healthy public opinion and to see that that opinion has the freest expression. This is the legitimate and authorized check upon American institutions. If the properly elected officials fail to function; if the courts do not dispense justice; if executives fail to enforce the laws, the electorate can displace these servants and choose others to fulfill the purposes of government.

Every good citizen should familiarize himself with his country's history and identify himself only with such movements as harmonize fully with the spirit of American institutions.

THE ETERNAL QUEST

When men and women pass their eightieth milestone, and especially when they become nonagenarians or centenarians, they are invariably interviewed by the local press on their secret of longevity of life. It is a custom which reveals man's desire to live long and his unceasing search for the spring of eternal youth.

Florida was discovered by a Spaniard while in search of the waters which he was told would restore his lost youth and guarantee to him everlasting life. All medical science has for its sole purpose the lengthening of human life.

Since the beginning of recorded time man has sought the secret of eternal life on earth. None has found that secret but many have prescribed rules to be followed by those who wish "to live to be a hundred."

Nietzsche's recipe for a full and happy old age was to "live dangerously; build your house on the side of a volcano."

Another advises those who have passed the brow of the hill that "youthfulness consists in backward looking."

A third philosopher on life has faith in the "work cure" for premature death.

In each theory there is much of wisdom. To live long man must live actively. A man is as old as he makes himself. Those who refuse to grow old never lose the child heart of Meniclus. Those who do not keep their minds and bodies at work can not hope to attain a ripe old age. Without work there can be no ambition, without ambition life grows heavy on one's hands, without the desire to live long the spark of life can not linger long.

He covets cars who never paid a gasoline bill.

A grave situation never discourages the live ones.

The female after specie knows how to work the male.

Among other things gradually getting back to par is idealism.

Safety first pays well. The inventor of safety pins made \$2,000,000.

Frequently the only funny thing about a comic strip is the cartoonist's spelling.

If the man thinks his wife beautiful in last winter's hat, he is blinded by love or thrift.

 WIP Philadelphia (509) 4:05 dance; 5 talk.
 WPI Philadelphia (395) 4 talk; 4:30 orchestra.

REPORTS OF MEXICAN RENO SAID TO BE EXAGGERATED

Houston, Texas, Sept. 12.—A report that Progresso, Mexico, has become a Mexican El Reno and that divorces are easy to obtain on almost any grounds after 30 days' residence, has become so widespread that the agents of a Galveston steamship line, whose ships touch at Progresso, have been besieged with requests for passage to that port.

Hermenegildo Valdes, Mexican con-words, the machinery for obtaining divorces in Mexico is much like it is in the United States.

More than 100 inquiries for passage to Progresso, one of them from Call-sul at Houston, however, is not sure that the information is accurate. Generally speaking, Mr. Valdes said, divorces are governed by a federal statute passed in 1917 which requires a residence of approximately one year for the divorce petitioner.

"He must," Valdes added, "have good grounds for his action and must be prepared to submit proof of the allegations in his petition. In other tories, have been received at the Gal-veston steamship offices.

WHEW! WHEW!

Facts About Figures

MODART CORSETS

Styles change but style does not change. A good figure is always in style. With the new fashions a good figure is an absolute necessity. This means that to be smart you must be corseted; and perfectly corseted. There is only one way to be perfectly corseted and that is to get a

garment which meets every requirement of your individual figure.

Modart Corsets are made in lacing and non-lacing styles to meet the needs of every figure. Only such a corset and such a service as the Modart system of "Figure-Grooming," can give you the garment made necessary by fashion.

Come in and let us explain "Figure - Grooming" and select the one Modart especially created for you. There is no obligation on your part. Prices range from \$3.50 upward—values which cannot be duplicated, we believe, in any other make of corset.

Madames C. H. Forbes and J. J. Gilbert have returned from New York where they went to purchase the latest styles in millinery and ladies' ready to wear for C. Heber Forbes.

Mr. D. L. Mangum has returned to Greenville after being on the auction market in Georgia.

FIRST COTTON OF SEASON SELLS FOR 22 CENTS

The first two bales of Cotton of the season were brought to Greenville this morning by Fred Hall and Henry Boyd of the Grimesland section. It was bought by Blount-Harvey Company for 22 cents per pound.

LADIES AID SOCIETY CHRISTIAN CHURCH TO MEET MONDAY

The Ladies Aid Society of the Christian church will meet Monday afternoon at the church.

FORD RUNS INTO FORD FORD CARS DAMAGED

A Ford automobile driven by Earnest Meeks, ran into a Ford driven by Mr. Barker of this city, last night near House Station and both cars were badly damaged. Mr. Barker and Mr. Meeks, both escaped injury.

Meeks charged with driving auto while in an intoxicated condition was arrested brought to Greenville and placed in jail to await bond. He will be given a hearing before Judge Cooper next Monday morning.

LOCAL WORK DEPT. MISSIONARY SOCIETY MEETS MONDAY

The Local Work Department of the Women's Missionary Society of Jarvis Memorial Methodist church will meet Monday afternoon in the Philathes Room at 4 o'clock. A full attendance is urged.

GROUP NO. FIVE, LAYMEN'S CHRISTIAN FEDERATION TO CONDUCT SERVICES SUNDAY

Tomorrow afternoon at 2:15, every member of Group No. 5, of the Laymen's Christian Federation, are expected and urged to be in front of the Pythian Hall. We are going to Elm Grove.

Elm Grove is a place where the Federation has started work, and great results are expected from these meetings, and it is very important that every member of Group Five be present. The meeting starts at three o'clock. W. E. Smith, leader of No. 5, will lead this meeting.

"YOU HAVEN'T A CHANCE, MISS LOGAN," SAID HE

Six years ago a newspaper man told Jacqueline Logan she was a silly child to even think about trying to get into the movies. And imagine that man's chagrin when he interviewed her at the Paramount West Coast Studios for an eastern magazine, while Miss Logan was appearing in George Medford's "The Dawn of a Tomorrow" as a featured player.

At the time mentioned, the pretty Paramount actress was dipping into journalism at Scotts Bluff, Neb. Movies, in their ascendancy, then intrigued her.

Then one of the paper's staff returned from a long vacation spent in Los Angeles and Hollywood. He knew conditions. With great trepidation Miss Logan consulted with him about what chance she might have. He was brutal.

"Don't be silly. You haven't a hope," he responded.

Well, of course, neither of them mentioned the episode during the interview on "The Dawn of a Tomorrow" set. But Miss Logan assured Raymond Griffith and David Torrence, fellow featured players in the production, that the bromide about timid hearts never winning fair battles or success, is still true in this magical, romantic world we live in.

"The Dawn of a Tomorrow" will be the feature at White's Theatre next Monday.

For Sudden Service be sure and call at the Blue Bird Filling Station.

TWO BUILDINGS DESTROYED BY FIRE IN AYDEN TODAY

Two wooden buildings to the rear of the Hayway Filling Station, Ayden, were destroyed by fire of an unknown origin early this morning.

It is estimated that the damage will amount to about \$1000.

MRS. R. C. STOKES ENTERTAINS BRIDGE CLUBS

Mrs. R. C. Stokes, Jr., was hostess to the members of her bridge clubs yesterday. The rooms in which five tables were arranged were decorated with cut flowers.

Mrs. Louis Gaylord making the top score was presented the prize a bunch of cut flowers.

After several progressions a salad course was served.

Mrs. R. M. Garrett, Mrs. Dall Laughinghouse, Misses Ruth Andrews and Jessie Moye were guests of the clubs.

DR. AND MRS. M. F. FRIZZELLE ENTERTAIN

Dr. and Mrs. M. F. Frizzelle of Ayden entertained at their attractive home on Lee street at a six o'clock dinner Friday evening, in honor of their niece, Miss Marie Hardee of Greenville, N. C., who is leaving this week to enter Randolph-Macon college. The guests were welcomed by the host and hostess and invited into the spacious dining room which was beautifully decorated with cut flowers, potted plants and burning tapers, contributing a bright color note to the color scheme of yellow and green.

A five course dinner was served, after which the guests retired to the drawing room where each one was required to take a "state examination" test. Miss Charlotte Starkey meeting the necessary requirements, was awarded a box of beautiful stationery while the honoree was presented with a most attractive, hand made laundry list.

Those enjoying the hospitality of Dr. and Mrs. Frizzelle were Misses Frances Smith, Inez Van Dyke, Jane Hadley, Mary Moye Carper, Charlotte Starkey, Bruce Tucker and Louise Dickinson, all of Greenville, N. C.

Sparks Circus To Visit Greenville Next Saturday, Sept. 20

"The Sparks Circus is so clean it even smells good," declared the Portsmouth, Ohio, Motoring Sun. And this is the big three-ring circus that is coming to Greenville to exhibit on Fifth street, near Teachers College on Saturday, September 20th.

"It may be safely said," averred the Herald, of Halifax, Nova Scotia, that the Sparks Circus is the best that has ever appeared in the city." And the New Mirror, Toronto, Canada, said in part: "Before capacity crowds, Sparks Circus offered to hold its own with any such similar offerings. From beginning to end the interest never lags. An excellent show."

"The opening spectacle, entitled 'An Egyptian Fantasy,' proved to be a most impressive and wonderful sight. Gorgeous trappings, silken robes, beautiful costumes, with the full ensemble of the circus combined to waft the spectator to the orient with its enthralling and colorful settings. Then there are clowns, without which no circus is complete, and when such names as Pete Mardo and Paul Wenzel are mentioned as the leading clowns, the success of this part of the entertainment is assured.

"Among the many acts that are deserving of mention are the performing seals: Three Walters aerial troupe; Japanese troupe; Prince Sakato who slides with his toes from a rope reaching the top of the tent; Taro Mikia, Japanese boy who walks upstairs on his head; Ernest Kloske, with his sixteen beautifully trained horses.

"Maida Miller, a dainty wire-walker, very graceful and clever; Florence Harris, the wonderful horsewoman who makes such a splendid broad jump on 'Extra Dry,' her lovely thoroughbred horse.

"Yes, the circus has gone, but memories remain, and many a youngster, young and old, will go over and over again the splendid entertainment offered by Sparks Circus."

Japanese Show Thrift

Tokio, Sept. 12. - Nearly 20,000,000 persons, approximately half the population of Japan, possidibe, which encourages thrift by means of an extensive deposit and transfer system. The total of these deposits at the end of July was 1,133,848,177 yen.

JACK DEMPSEY WILL MARRY FILM STAR.

JACK DEMPSEY & ESTELLE TAYLOR

Jack Dempsey, world's champion heavyweight, visiting in Philadelphia, admitted the fact that he is engaged to marry Estelle Taylor, Hollywood, Cal., screen star. He was then with his intended bride and her grandmother, who chaperones her. Dempsey said the wedding would take place within a year—after Miss Taylor had made a few more pictures and he had engaged in two more fights. Then both will retire and settle down somewhere in the country, near New York. He declared he would not fight again after his marriage.

Philippine Trade Gains

Manila, Sept. 13.—The foreign trade of the Philippine Islands for the first half of 1924 amounted to \$125,265,000, against \$108,596,000 for the same period of 1923, according to figures made public by the bureau of customs. The exports during the first six months of this year were \$75,912,000 and the imports \$49,349,000 leaving a balance in favor of the islands of approximately \$26,562,000.

Japan Counts 953 Titles

Tokio, Sept. 13.—The number of titled persons in Japan is now 953, according to figures just published by the Imperial Household department. The lowest rank of the peerage, that of baron, leads with 411; then come viscounts with 382; counts, 293; marquises, 38; princes, 19. This list does not include princes of the imperial blood.

\$10.00 Reward For Persons Guilty Of Injuring Auto Tires

Greensboro, Sept. 13.—A reward of \$10.00 will be paid by the Carolina Motor Club for information leading to the arrest and conviction of

persons guilty of throwing rocks, glass, nails or any other device designed to injure tires of automobiles on the highways of North Carolina. It is announced in a bulletin issued to the branch offices of that organization today, C. W. Roberts, vice-president and general manager of the club has announced that every instance reported will be prosecuted vigorously by the organization he represents.

"Within the past week, no less than three reports have been filed in our offices indicating that some one, maliciously or for profit is throwing on the roads materials designed to puncture tires. Between Curry and Goldsboro, N. C., a specially prepared contrivance is being placed on the highways. One of our members picked up eleven of these things in two miles of travel and had all four tires punctured. The contrivance is clearly manufactured. A six-penny nail is placed in a piece of rolled iron or tin, the edges of which are doubled back over the head. This permits the nail to remain position.

"On route 60, mischievous boys

are sticking tourists and puncturing tires with nails-studded boards. This is between Mooney's School house and Hyman stores according to our report. Another instance which we are investigating was reported by a Fayetteville man. He states that near Salisbury, on Route 10 to Statesville, tacks are being thrown on the road. This practice on the part of boys is, no doubt, mischievous, but is nevertheless destructive of property and should be stopped. We are going to make an example of some of the instances where this is reported properly. It must be stopped.

"Motorists are requested and urged to stop and get the facts when they run into anything of this sort reporting something tangible to the nearest office of the Club. Presentation will be the fullest."

HOSPITAL NOTES.

Miss Julia Wingate has recovered and returned to her home in Ayden. Mrs. G. W. Shackelford has im-

proved. She returned home a few days ago. Mr. E. N. Nichols has improved a little in the last few days. Miss Lannie House is improving satisfactorily. Miss Anna Cator is much improved this week. Mr. M. H. White is making a smooth recovery. Mr. Frank Wilson, Jr., is making satisfactorily improvement.

Mrs. E. Brock is improving after a tonsil operation. Mrs. C. T. Everett is much improved today. Mr. Ed. Little is improving after an acute attack of appendicitis. Master Dawson Jefferson is recovering from an operation. Miss Emma Joyna is improving after a few days of rest cure. Mrs. R. D. Gibson and baby are improving.

DON'T BUY YOUR COAL UNTIL YOU SEE F. R. ELMORE, OR PHONE 200 FOR HIS PRICES

Gorman's Market Report

All sales have finished each day this week. Prices on the tobaccos with a show of body have advanced. The plant-bed leaves and the very common and mixed colors have been about the same. It will pay you well to grade tobaccos closely, keeping the colors together, making a complete throw-out of the dead and black leaves.

GORMAN'S has sold for the week 325,000 pounds. We have had many to sell with us for the first time, this week, and these were highly pleased as they told us they would advise their neighbors and friends to sell with GORMAN'S. If you are not selling with us, come and look our sales over or talk with someone who is selling with us. This is the way that we are doing our "drumming." If you are not protected by the warehouseman, you can lose more on one load than you can earn in a month.

GORMAN'S HAS FIRST 2ND SALE MONDAY; 1ST SALE TUESDAY; SECOND 2ND SALE WEDNESDAY; 1ST SALE THURSDAY; 2ND SALE FRIDAY.

Ward's Orange-CRUSH

Lime-CRUSH and Lemon-CRUSH

"I'm here, too, Dad —Don't forget me!"

Little Junior is all excitement, all impatience. And no wonder! For the Big Man is handing him a deliciously cooling Crush—just the pleasant thing that ever went down his little throat!

WARD'S Crushes—Orange, Lemon and Lime—are widely imitated, but the genuine—made by Ward's secret process—is deliciously different from any and all imitations.

Pull up at a roadside stand today—call for Ward's Crush by name—look for the Krinkly Bottle—and be sure you get it.

Ward's Crushes are more than merely delicious; they are wholesome and have a real food value. Read our formula. Here it is: To the natural fruit oils of oranges, lemons and limes are added citrus fruit juices, carbonated water, fruit acid, U. S. Certified food color and pure cane sugar.

COTTON LETTER

Government par allowance as to yield per acre for United States Sept. 16 averages about 263 points pounds vs. 255 for Sept. 1. If crop deteriorated 3 points between Sept. 1 and 16, indicated crop would still be about as large as it was for Sept. 1 (12,787,000 bales.) Average 10 year deterioration from August 25 to Sept. 25 was 6 points or about 3 points for half month. Doubt if deterioration this period is any larger than 3 points.

Looking to Sept. 16 likely be heavy, but comparative for same date last year not likely to be available.

Looks like market on way to 29 cents and if works into the "teens" enormous trade buying likely develop. Census consumption report for United States for August, likely due Monday next, will probably be bearish. Returns will run against 492,000 for August of last year, and only 345,000 for July of this year.

Cables about five lower than etc. American market opened unchanged, but more rain interior which may have to sustain values, although likely be further liquidation in advance in Monday's consumption report, which is expected bearish.

Week-end figures were about a stand off, it looked moderately bearish 12 1/2 per cent increase in acreage. Russia will have over 1,000,000 acres in cotton. All South American countries have big increase in acreage. While China has had serious damage to cotton crop, on the whole a bumper crop of cotton is likely this year. Hedge selling too heavy to be absorbed. Sell cotton on bulges.

The announcement from Washington of the increase in par to be issued is next government report added much to bearish feeling and was believed to preclude the probability of any substantial decrease in the indicated yield. Indications at the close were all in favor of still lower prices. There seems to be no faith in the permanency of higher prices for cotton. But the market is heavily short and mills are buying more cotton. It would be the part of wisdom to begin to accumulate cotton on breaks.

Rumored National Ginners consumption figures 316,000.

LIVERPOOL COTTON

Liverpool closed quiet, but steady. Jan. 127; Mar. 127; May 127; Oct. 127; Dec. 127. Sales 5,000 of which American were 1,000; Receipts 1,000 of which American were none. Middling 1382; Good middling 1542.

THE WEATHER

Continued general rains over Texas during the day. Moderate rainfall over Arkansas. Very threatening in Mississippi valley, at night temperatures much cooler.

Forecast: Saturday entire belt generally part cloudy unsettled except west Texas fair.

STUDEBAKER STIRS SENSATION IN HINT OF NEW-TYPE CAR

South Bend, Ind., Sept. 13.—(Special.)—One of the most sensational automotive developments in many years is contained in the Studebaker announcement today, a car of entirely new principle and design.

Studebaker—after two years of research, study and scientific experiment—announces a car that combines at open-car price, the advantages that have heretofore been exclusively open-car in character, with the protection and snug comfort of closed cars.

This, it is claimed by motor car engineers and motorists in general, will enable a car-owner to enjoy the alert performance, the freedom and airiness of the open car—and yet to be sure of instant comfort and protection during the stormiest weather.

The secret of this new-type car has been most jealously guarded behind closed doors. No hint of its construction has been secured, although Studebaker officials vehemently declare that it will be absolutely unlike anything hitherto offered the motoring public by any American or foreign maker.

One Studebaker official today said that they had been besieged by wires and letters from automobile dealers and car owners from every part of the country, begging for advance information. "This," he added, "we shall not give until it is publicly announced to the entire country September 14."

Hint at Extraordinary Beauty A favored few who have seen the new line Studebaker state that the public announcements will disclose 15 body-styles of the most unusual and compelling beauty ever offered the American public.

"Longer, lower cars," said one noted engineer who had been granted an advance view of the new models, "and they have lines that are as clean cut as a cameo. They suggest very subtly the best in both American and foreign design, yet they are distinctly Studebaker. I do not feel at liberty to say more than this: that the lines are straighter, longer and blend most pleasingly into the most graceful curves I've seen."

An Entirely new Six?

In certain quarters it is stated emphatically that Studebaker is also bringing out a new Six, which will have unusual features of value. This new Six, it is said, will have several body styles of the sensational, new open-closed type.

All who have advance information declare that, numerous refinements and improvements in engines, transmission and chassis will keep pace with the advancement in appearance of the new Studebakers.

No secret is made of the fact that huge, genuine balloon tires will be standard equipment, or that steering control has been specially designed and tested for remarkable ease of handling with this equipment.

New and unusually smart colors and finish for various models, it is rumored, will contribute to making them the most outstandingly beautiful cars of the year. Nipholstering and appointments will be more luxurious than in any cars of comparable price, it is freely predicted.

Guard 4-Wheel Brake Details

The new Studebaker will have as optional equipment a 4-wheel brake that is entirely unlike anything now in use on any American car. No secret is made of that fact but details are refused.

It is pointed out however that Studebaker in the past has taken the standard 4-wheel brakes would not be used on a Studebaker car until a kind had been perfected free from the faults it is admitted may be found in many now used.

From what may be gathered, it is safe to predict that the 4-wheel brakes Studebaker will offer as optional equipment have been subjected to the most rigorous tests known to modern automotive science. And that they will offer ease and safety of operation absolutely unparalleled hitherto, as well as a simplicity of adjustments.

Such a move, prominent automobile dealers and engineers declare, will be in itself sensational, sufficient alone to arouse unusual interest in the forth-

J. J. Stauffer, white, trespass, \$10 and cost.

CINCINNATI WOMAN FINDS JOY IN OWNING FINE RACE HORSES

Cincinnati, Sept. 11.—To the increasing list of women race horse owners, has been added the name of Mrs. Caroline Cox, widow of George B. Cox, nationally known Republican leader. Mrs. Cox, whose love for horses, goes back to her childhood, has purchased a dozen animals from the stock farm of Edward F. Simms at Saratoga, and expects to race them next year.

"I am a lover of horses and I am going into the racing game for the pleasure I can get out of it," Mrs. Cox said.

Freddie Good, who was associated with Mrs. Cox's husband in politics, has been appointed manager of the horses, three of which probably will be raced at Churchill Downs next spring. The remaining nine are yearlings.

One of the horses bought by Mrs. Cox is the daughter of Simms' \$250,000 stallion, Prince Palatine, sire of Prince Pal.
