ROBERT DIXON INSTANTLY KILLED THIS AFTERNOON IN CROSSING ACCIDENT

Driver of Car Leaps From Wreckage Be- neath Moving Train and Escapes With Only Minor Injuries

Robert Dixon, aged 17 years, son of Mr. and Mrs. Ed Dixon, of this city, was instantly killed and C. M. H. Krouse, a young man, also of this city, suffered injuries today about 2 o'clock when the automobile in which they were riding was hit by a shifting engine No. 89, Norfolk-Southern train at the cotton mill crossing, just about a mile from Greenville.

At the time of the terrible accident, the train which consisted of an engine and two box cars, was headed west while the automobile with its two occupants was coming east. According to statements made by people who saw the car and train before the accident, the way was clear with nothing to obstruct the view of the driver of the car.

After striking the auto the train kept on its way for several feet before the engineer was aware that he had struck the car, being informed by the fireman that a car was under the train.

Krouse seeing that the train was carrying the car on, leaped from under the steering wheel of the auto and cleared the tracks to safety. Young Dixon was not so fortunate and for fifty yards his body was dragged with the auto, before it fell from the wreckage. When he was reached it was found that he was dead. His head was crushed and his body badly mangled.

People living near the scene of the accident state that the engineer gave all the necessary signals for a crossing.

Robert Dixon is the second son of Mr. and Mrs. Ed Dixon who reside on Evans street. He was in the first year high school and was a dutiful son and possessed many fine traits of character. He had a host of friends among his classmates.

Mr. Krouse was rushed to the local hospital where it was ascertained that he had suffered only minor injuries. He has only been in Greenville for a short while and was an employe of the Pitt Motor Company.

The crossing at which the accident occurred seems to be rather fateful, as several serious accidents have taken place there in which many people lost their lives.

The sympathy of the entire community is extended Mr. and Mrs. Dixon in their great sorrow.

Richard H. Wright Makes Gift \$30,000 Louisburg College

A gift of \$30,000 from Richard H. Wright of Durham to Louisburg College has been announced by A. W. Mohr, President of the College. This makes a total of \$50,000 for a gift of \$20,000 was given two years ago to the College by Mr. Wright and the total has been designated to establish the Pattie Julia Wright Memorial Scholarship Fund at Louisburg College for the purpose of aiding worthy girls through their college course. The interest from the investment which will amount to about \$4,000 a year will be used for giving full or partial scholarships to girls who need help in getting higher education.

The fund established by Mr. Wright is in memory of his deceased sister, Miss Pattie Julia Wright who was a talented and popular member of the class of 1868 at Louisburg.

Franklin county, of which Louisburg is the county seat is proud of Mr. Wright, as one of its most successful sons. He was born near Louisburg in a little cabin still standing, which residents of Louisburg proudly point out to visitors as the boyhood home of a man who later achieved business success to a degree which very few Carolinians have equaled.

Mr. Wright's gift to Louisburg College of which he is a trustee, comes in the midst of a campaign for \$500,000 for new buildings and equipment and endowment. Franklin county has already subscribed \$150,000 to this fund and the trustees are planning to ask the Methodists of the North Carolina Conference for the balance, during the next few months.

SPANISH WAR VET ADDRESSES LEGION CONVENTION TODAY

Retiring Commander in Chief of Spanish War Veterans Recounts Deeds of Valor and Hardships of Wars

St. Paul, Sept. 16.—Veterans of the Spanish-American and World wars heard the fortunes of battle, deeds of valor and the hardship and suffering of campaigns compared over more than two decades when Albert D. Alcorn, retiring commander-in-chief of the United Spanish War Veterans today addressed the convention of the American Legion.

"When you boys went to the World War, you remember that you were heroes in the eyes of those you were leaving behind," said Mr. Alcorn. "If you were fortunate to be among the first to return from foreign fields, you were still heroes, but if among the last, you saw very few celebrations in your honor. You were brought into the country, mustered out, and sent to your respective homes with barely mention of your service. The novelty of receiving returning troops had worn off. The people soon forgot. Many of you were lucky indeed to find your old jobs awaiting you."

"The same thing applied to the Spanish-American war period. They call it a little war, but they forget the days of 1898, when the people of the Eastern coast and the Gulf coast were terrified and unnerved with fear of a bombardment by the Spanish fleet that had disappeared from the Azores and which was thought to be somewhere in the vicinity of our shore prepared to strike our most vulnerable spot.

"They forget that the bankers of the coast cities were so frightened and panic-stricken that they were shipping their money to interior points or safety."

"They forget that there were many anxious moments in homes from which the 312,000 volunteers came at that time."

"They forget that the terrible ravages of fever in camps in our own country caused a greater percentage of fatalities than in any other war period."

"They forget that when we came home they were proud of us because the war was short; that we never lost a battle, never lost a flag, and never retreated from a single foot of ground."

"They forget that the display of fighting qualities of the men of that period first opened the eyes of the world that this nation was amply able to back, with force, if necessary, its ideas of freedom and justice and humanity."

"We can see no reason therefore for discrimination against us in favor of the veterans of any other war in which this nation has been engaged. The same debt of gratitude and the same duty of service is due us."

"So, my comrades of World War I if you hear a comrade of the Spanish War boast of his service in a war that was 100 percent volunteer, the veterans of which are grossly discriminated against, put yourselves in his place. Remember, twenty years have elapsed between his war and your war. Do not think that because we are proud of our service and ask for equal consideration, that we are attempting to place obstructions in the way of your obtaining what is rightly due you."

"Numerically, we are only a small unit as compared with you. Your power is in proportion to your numerical strength. We recognize that fact. As older veterans we need your continued help and support in order that we may receive something like equal consideration with the veterans of all wars."

Mr. Frank Taylor has returned to Lakeland, Florida, after a visit to his parents, Mr. and Mrs. J. G. Taylor, on 8th street.

TRIAL OF VICTOROVITCH SAVINKOV IN MOSCOW.

Formerly a member of the Socialist Revolutionary party in Russia, Victorovitch Savinkov organized a plot against the Communist party and particularly against Lenin and Trotsky. He joined the Kolchak forces and took an active part in that campaign. Captured recently while disguised and living under the name of Victor Stepanoff, he was tried by a military court, found guilty and sentenced to death. He pleaded passionately for his life and was given a sentence of ten years because of great repentance. Photograph shows him at the extreme left, standing.

WEATHER DELAYS THE WORLD FLIERS IN CHICAGO TODAY

Lieut. Smith Expresses Disappointment at the Postponement of Sched- ule Hop Today From Chicago to Omaha

Maywood, Ill., Sept. 16.—The 440 mile hop to Omaha, the next stage of the flight of the around the world fliers was postponed until 8 a. m. Central Standard Time tomorrow when at 7:51 today Lieutenant Lowell H. Smith, commander of the flight, decided that weather conditions were too bad to continue today. Lieutenant Smith awaited the final word of an air mail plane pilot who flew over the surrounding country for half an hour before postponement was announced. The pilot said visibility was exceptionally poor and it was nasty flying.

"We all are mightily disappointed," Lieutenant Smith said, "but we had rather be disappointed than sorry. Despite reports of fair weather in the west the area immediately surrounding Chicago is too foggy to fly through it. We desire to make a forced landing even in good weather and we do not want it in weather like this."

RED CROSS AIDING EX-SERVICE MEN

National Chairman Urges American Legion to Assume This Duty as Its Own

St. Paul, Sept. 16.—The American Red Cross in the last year has spent \$4,300,000 for the benefit of disabled veterans and men now in service, John Parton Payne, its national chairman, told members of the American Legion in convention here today, and the Red Cross "now looks forward with interest to the Legion assuming this primary service as really its own."

"I am advised by your representatives that assistance given by the Red Cross to the American Legion for its rehabilitation service has now enabled the Legion to plan for a self supported service," said Mr. Payne. "The Red Cross has had pleasure in standing by in this way during the formative period until this service to the disabled can be made really your own."

"We have a common bond of interest in serving disabled service men and their families. The Red Cross considers it its first responsibility. This has first call. Our work for the disabled continues in undiminished volume. During the past fiscal year, approximately \$4,300,000 was expended by the national organization and by the Red Cross Chapters for the benefit of the disabled and men now in service."

"I trust we shall always have understanding and common interest in the finer, better and healthier American."

Fines Feature Monday's Session Of County Court

Yesterday's session of county court, while in an intoxicated condition and is fined \$50 and costs. Nelson Hopkins pleads not guilty, of the charge assault with deadly weapon but is found guilty and fined \$25 and costs.

Jarvis Tyson was adjudged guilty of the charge assault with deadly weapon and is fined \$10 and costs. Robert Norris was sentenced to jail for six months work on the county roads for larceny.

Johnnie White, Robert Edwards were charged with larceny. Robert Edwards through his counsel pleads jurisdiction of this court because of age being 15 years. Each defendant pleads not guilty. Upon inquiry it is adjudged that defendant Robert Edwards is over 16 years of age, and each defendant is found guilty. Judgment that defendants be confined in jail six months to be assigned to work on roads. Defendant Robert Edwards appeals to Superior Court under bond of \$300.

Henry Barrow was adjudged not guilty of obtaining money with promise to work. Richard Reyn was found guilty of the charge of larceny and judgment was suspended upon payment of costs an good behavior for two years.

Charlie Hines and Maggie Hines charged with assault. Charlie Hines was adjudged not guilty while Maggie Hines, was adjudged guilty. Judgment was continued two years upon good behavior and payment of costs. Gus Ellis and Patty Ellis charged with cohabiting together. Defendant Patty Ellis pleads nolo contendere. Judgment suspended upon payment of half cost. Nol proseed with leave as to Gus Ellis. The same defendants were charged with having liquor in possession. Patty Ellis again pleads nolo contendere. Judgment suspended upon payment of one half cost. Nol proseed with leave as to Gus Ellis.

Earnest Barrett charged with having liquor in possession was found guilty of receiving, and was fined \$25 and costs. Docket another case and charge possession. Prayer for judgment continued 2 years upon good behavior and payment of costs.

Richmond Club Sends
Two Pitchers to The
Major League Clubs

Richmond, Sept. 16.—The sale of two pitchers, one to each of the New York major league clubs was announced today by managers of the Richmond, Virginia League Club.

Joe Maley, just out of his teens, who has won 17 and lost 10 of this season, will report to John J. McGraw next year at the Giant's training camp. Frank Johns, "Iron Man" will report next season to the Yankees. He has won 22 and lost 14 this year. His sale to Miller Huggins' outfit is John's second tryout in the big show. He was released by Detroit to Rochester and then to the locals two years ago because of lack of control.

Richmond Club Sends
Two Pitchers to The
Major League Clubs

Upon invitation of the Modern Woodmen of America it has been decided to change the morning prayer services from its present meeting place in the Pythian Hall to the home of the Woodmen. A rising vote of thanks was made to the Pythians for the use of their hall which place has been used by the Federation as its headquarters since organization. Beginning with Thursday morning the services will be held in the new place which is located just opposite the former hall over the jewelry store of A. G. Walters.

The Federation will continue to serve at the different places in the rural districts and also in the towns where meetings have been in progress each week, and from time to time new appointments will be advised.

TOBACCO MARKET SHOWS
MORE STRENGTH TODAY

There were two hundred and fifty thousand pounds of tobacco sold on the local tobacco market today. Sales finished shortly after dinner. The better grades showed more strength than any day since the opening of the market.

JIMMY MURPHY GOES TO HIS DEATH YESTERDAY IN EFFORT TO WIN RACE

FEDERATION HOLDS BUSINESS SESSION, ELECTS OFFICERS

Morning Services Be Held in Future in W. O. W. Hall on Evans Street; Plans Made for a Greater Work

The Laymen's Christian Federation met last night in the business session at the Christian church with a large majority of its membership in attendance. Yesterday a committee was appointed to meet during the day and formulate plans leading to a permanent organization, and the recommendations of this committee was submitted to the entire body immediately following a brief devotional service.

Near the close of the Ham-Ramsey evangelistic campaign in this city several weeks ago, a temporary organization was formed, and under this plan with the executive ability and spiritual leadership of its officers the Federation has functioned in absolute harmony in its local operation together with its appointments into the rural districts of Pitt and adjoining counties, and much good has been accomplished in bringing the people into a closer realization of the love and mercy of Jesus Christ. Believing that even greater things could be done through a permanent organization with its temporary president, Hon. F. C. Harding in the chair the federation last night entered into the election of officers and appointment of various committees.

A nominating committee consisting of four was named by the chairman to submit to the Federation the names of three members for president, vice president and secretary and treasurer. Those selected by the committee for the respective offices were Mr. J. L. Little for president, Dr. C. J. Ellen as vice-president and Mr. K. W. Cobb as secretary and treasurer. These men were duly elected without any other nominations being offered. After this the representatives of the various churches met into groups and elected one member from their body to serve on the board of governors, giving each congregation of the city interested in the work being done by the organization a representative on the executive board, which body will direct the operations of the Federation.

A rising vote of thanks of the entire membership was extended to the retiring temporary president for the valuable service and leadership he has rendered to the organization in its work. Immediately following adjournment of this meeting the officers met for the purpose of the appointment of different committees to complete the necessary official personnel of the Federation.

Upon invitation of the Modern Woodmen of America it has been decided to change the morning prayer services from its present meeting place in the Pythian Hall to the home of the Woodmen. A rising vote of thanks was made to the Pythians for the use of their hall which place has been used by the Federation as its headquarters since organization. Beginning with Thursday morning the services will be held in the new place which is located just opposite the former hall over the jewelry store of A. G. Walters.

The Federation will continue to serve at the different places in the rural districts and also in the towns where meetings have been in progress each week, and from time to time new appointments will be advised.

Automobile Race Driver of International Fame Crashes Thru Fence in Race at Em- pire State Fair

Syracuse, N. Y., Sept. 16.—The roar of racing motors and the hum of dizzy speedways had died down to day for Jimmy Murphy. The body of the champion racing driver who met his death in a 150 mile contest on the New York state fair grounds track yesterday was being borne back across the continent to the home in Vernon, California, which he had known since early boyhood. With Murphy on his ride were drivers with whom he pitted his skill in his last race and to whom he lost.

Before the race these drivers and Murphy had arranged to take the train on which they finally did leave. When the time of the departure came at twelve twenty-five this morning it was a sad little group that gathered under the shed of the New York Central and with bowed heads watched the copper casket of their friend placed in the baggage car on the Lake Shore limited, while they entered a car further back.

The exact cause of the accident which brought Murphy's death will probably never be known. It was established however, that he had been hugging the inside fence of the dirt grand circuit track which is used for automobile racing here.

Syracuse, Sept. 16.—Jimmy Murphy, of Vernon, Cal., favored to win the national racing championship of the American Automobile Association for 1924, and veteran of many automobile speed classes, met in this country and abroad, met his death on the State Fair Grounds track here this afternoon when his car crashed through a wooden fence on a curve during the 38th lap of the 150 mile race.

Murphy survived the accident only a few minutes, long enough to be taken to a hospital in this city, six miles away, but he never regained consciousness. He was the only victim of the accident, which happened on the inside of the track.

Splinters of wood from the wreck fence and debris from Murphy's car, were cleared away by State troopers just in time for the leaders in the race to thunder by.

The race was won by Phil Shafer, 1 hour, 54 minutes and 25.20 seconds. Bennett Hill, teammate of Murphy, flashed over the line second in 1 hour 57 minutes and 20.81 seconds. Harry Hartz, substituting for his teammate, Fred Comer, came in third in 2 hours and 9 seconds.

It was in an attempt to lap his teammate and pass Shafer, that Murphy pushed his car into a final burst of speed. He roared down the straight-away past the grandstands at approximately 80 miles an hour. At the turn which would have brought him into the back stretch, he seemed unable to straighten the car out, and the 2,000 bleacher occupants, were horrified to see him clip the inside fence once, then rapidly skid around and strike it again, and finally, on a complete third swing, crash into the railing, and carry it before him for nearly a hundred feet.

The car did not overturn but in its progress sideways, it picked up the fence rails so that they penetrated the hood and the body of the vehicle. The end of one of these wooden splinters, struck Murphy in the chest.

Tommy Milton, companion racing driver, and Murphy's mechanic, accompanied him to the hospital.

Emperor Tunes in on Radio.

Tokio, Sept. 16.—Radio is supplying the emperor and empress of Japan, spending the summer at the imperial villa at Nikko, with the news of the world. Daily reports are sent to their summer residence by apparatus installed in the imperial palace grounds in Tokio.

Radio communication has been established also between the palace in Tokio and Okinajima in Fukushima prefecture, where the prince regent and crown princess are spending the hot season.

FACTORY WORKERS SHOW HIGH RATE OF ACCIDENTS TO EYES

New York, Sept. 16.—The sight of at least 4,456 men, women and children in the United States has been destroyed or seriously impaired by accidents during the past 12 months, according to a report issued by the National Committee for the Prevention of Blindness, of this city.

A year ago the committee began an investigation to discover the nature, causes and relative importance of the accidents which each year add several thousands to the blind population of the country, and the report made public today is an analysis of the first year's findings in this investigation.

The outstanding facts of the report are that 85 per cent of the victims of eye accidents are men and boys, only 604 out of the 4,456 victims being women and girls; that industrial accidents constitute the most serious eye injuries; that almost 25 per cent of the victims of eye accidents are children, 1,933 boys and girls having been so injured during the last twelve months; that next to children's play accidents, automobile accidents are the most serious non-industrial sources of eye injuries, the eyes of 351 persons having been injured in motor vehicle accidents, principally through the breaking of windshields, during the past year, and that explosives and firearms were responsible for injuries to the eyes of 202 persons.

The committee received reports of 100 persons whose eyes were pierced by metal shots from air rifles; 99 eye accidents were due to the use of chemicals outside of industry; 96 occurred during the chopping of fire wood; 89 were hunting accidents, and 84 persons may lose their sight or have already been blinded as the result of bruisings during the past year.

Baseball accidents brought serious injuries to 65 persons; the drinking of wood alcohol destroyed or impaired the sight of 35 persons; 31 women burned their eyes with hot curling irons while standing before mirrors because of their failure to recognize that in the reflection of the mirror the movements of the hand are reversed.

Boys with sling shots injured the eyes of 27 persons. Bow and arrow accidents may lead to the blindness of 24 persons. Golf ball accidents destroyed or endangered the sight of 17 persons.

New York State reported 608 cases; Pennsylvania 478 cases, and Illinois 379 cases. The committee points out however, that this is not unusual because these states rank first, second and third respectively in point of population. Indiana, though ranking eleventh in population, is fourth among the states in number of serious eye injuries reported; Iowa, which is sixteenth in point of population, ranked tenth; and Washington, thirteenth in point of population, ranked fifteenth. On the other hand, Texas, though fifth in population, stood fourteenth in number of serious eye injuries; Massachusetts, sixth in population, was thirteenth in the severity of its eye accidents; and Michigan, seventh in population, was sixteenth in the list of eye injuries.

In most other states the number of eye accidents followed closely the population of the state.

Foreign Capital Is Welcome Rumania

Bucharest, Sept. 9. — Despite the mining legislation which has elicited the protests of the American, British, French, Dutch and Belgian ministers on the ground that it is "confiscatory," V. Bratianu, minister of finance, has made the following statement on the attitude of his government toward foreign capital.

"I have never offered obstacles to the entrance of foreign capital into Rumania, but I have insisted that it must operate on conditions compatible with the economic independence of the country.

"Foreign capital is welcome in Rumania. But we do not wish to see our own capital shut out by foreign investment. Foreign enterprises that have no regard for our forces of co-operation and which desire to utilize our natural resources as those of Turkey were utilized before the war, cannot find a favorable field for their activities in Rumania.

"Experience has shown that only by reasonable participation of Rumanian capital can our natural resources be soundly developed. Such participation is the object of the mining legislation which the government is putting through parliament."

PERSONS PROMINENT IN NEWS OF THE DAY.

Above: ALFRED E. SMITH & PETER J. BRADY
Below: LORD BEAVERBROOK & MALCOLM MAC DONALD.

Alfred E. Smith, Governor of New York, definitely has told his friends he will not again run for the office. Personal finances, he said, are too low. Lord Beaverbrook, through his newspaper, Daily Standard, in London, has kicked up considerable of a furor over the acceptance of 30,000 pounds' worth of stock in a biscuit company by Ramsay MacDonald, Premier of Great Britain. Peter J. Brady, president of the Federation Bank of New York and a delegate from the American Federation of Labor to the British Trade Union convention, said on his return from England that labor unions in that country are quite efficient and do not lag behind Americans. Malcolm MacDonald, son of Ramsay MacDonald, British Premier, is in the United States to take a course at the University of Pittsburgh.

THE ENSEMBLE EXPRESSES ITSELF IN TERMS OF RICHNESS

THE ensemble is undoubtedly the leading feature of the new mode. It expresses itself in a number of ways, achieving its unity of effect either by a clever repetition of colors, of fabrics, or even of trimming motives in the dress and coat which are, as a general rule, the component parts of the new ensembles. But one theme runs through all of these combinations, and that is richness of material.

The ensemble pictured, was sketched in Paris by the Cheney Style Service, and consists of a dress and coat. The latter is in "ragondin," one of the novelty furs sponsored by Paris, lined with brown cut velvet, in this way repeating the fabric of the dress which is also made of cut velvet. The coat would be just as successful developed in brown velvet, and in fact, this combination of plain and cut velvet is a feature of the new creations.

The dress, which is bordered with brown crepe, is made on simple lines, but has the new note of balance effect. Its simple boyishness is enhanced by the plain little turn down white silk collar, contrasting piquantly with the richness of the dress fabric.

The coppery brown colors were the most favored at the Paris openings, according to Henri Creange, style authority. In this group are included rust, wood tones, tortoise, cocoa, golden brown, mocha, and bois de rose.

MOSCOW CABARETS DULL WITH PROFITS IN EXILE

Moscow, Sept. 16.—The wholesale importation to Siberia and the north of profiteers and others, has had a bad effect on the Russian restaurants and night-life resorts. Whereas a year ago Moscow was as gay with smart restaurants cabarets and cafes as the liveliest American city, it is today as dull and depressing as a New England village on a Blue Sunday.

It is not an uncommon sight nowadays to find more waiters in a Moscow restaurant than actual patrons. This is due partly to the disappearance of the profiteers, who were the most regular and liberal frequenters of the restaurants, and partly to a fear on the part of those left behind that they may share a like fate if they give evidence of having sufficient money to patronize the more expensive eating places.

After partaking of expensive repasts at Moscow's best restaurants, Russian business and professional men have undergone the experience of being cross-examined by police officers as to how they came into possession of sufficient money to patronize such extravagant caravanseries.

LLOYDS GIVES OUT MARINE DISASTERS OF YEAR 1923

London, Sept. 16. — A statistical return of world shipping losses during the year 1923, issued by Lloyd's Register of Shipping, shows that the casualties during the year numbered 466, of which 324, representing a total of 494,364 gross tons, were steamers and motorships and 142 sailers, representing 82,208 tons.

In the steamer and motorship section 175 are recorded as wrecked, 38 foundered, 26 collisioned, 31 missing, 29 burnt, ten abandoned and five lost.

Put Real Walls and ceilings Into Your Home

LET us show you how to put real walls and ceilings into any old house that has never been finished inside.

Sheetrock is the means of making this big improvement at little cost.

Sheetrock is gypsum, cast in sheets. It makes solid, tight-jointed, permanent walls and ceilings—non-warping and fireproof.

Easily done—just nail the Sheetrock to the joists or studding. And you can decorate as you please, with wall paper, paint, panels, or Textone, The Sheetrock Decorator.

Made only by the United States Gypsum Company.

Ask your lumber or building material dealer for a sample and prices.

SHEETROCK
THE Fireproof WALLBOARD

ENFORCED DENTISTRY NEW YORK SCHOOLS SHOWS FINE RESULTS

New York, Sept. 16.—Because of its deep interest in the subject, the best method to care for the teeth school children is being sought by the New York Association for Improving the Condition of the Poor. The association began with 3,000 youngsters in the public schools four years ago. At this time 90 per cent of the children examined needed dental work. Today this percentage is only 49. The number of cases requiring extraction has been reduced 63 per cent, and the need for filling has gone down 77 per cent. During the first year 14 children out of every hundred got diplomas for clean mouths; during the last year the diplomas ran 59 to the hundred.

"Communities are only beginning to awaken to their responsibility of providing a complete preventive dental program for school children," Bailey B. Birret, general director of the association, said today in making public the report on the four years of study. The responsibility for organizing and interpreting this service in oral hygiene has fallen on John C. Gebhart, director of the A. I. C. P.'s department of social welfare, who has prepared an appraisal of four years' experience with the demonstration.

Mr. Gebhart's report, in part, follows: "When this intensive plan was first undertaken, a very limited dental service was already in operation. The city authorities cooperated in the larger idea, and the School of Oral Hygiene of Columbia University also helped. Each year a corps of undergraduate students, under careful supervision, has given prophylactic cleanings to the school children of the area concerned. To say that in four years these students have given 10,088 cleanings tells only part of the story. They have been crusaders for oral hygiene in this district. By completing an entire class of children each day, they rapidly run through an entire school, and that with a minimum amount of confusion or interruption of school work.

"The increase in those needing no corrective dental work and in those awarded diplomas for having kept their mouth clean has been steady. There has also been a marked reduction (from 85.4 per cent to 46.4 per cent) in children requiring fillings, for the most part in first permanent molars. While the proportion needing fillings is slightly greater than last year, the proportion needing extractions has been reduced from 40.3 per cent to 32 per cent. This is again a most encouraging sign, for it means that more children have savable teeth than last year, and for such, fillings rather than extractions are indicated. There is also direct evidence that the fillings required are of a far less extensive nature than when that work first began, for in 1920, 60 per cent of the fillings were urgent, while in 1923 only 37 per cent were urgent.

"Everywhere one sees a marked awakening of all elements in the community to the importance of this work accompanied by a willingness to cooperate in every way to make it a success. The principals and teachers in the schools of the district have made real sacrifices in providing the necessary space. Practical instruction in oral hygiene is made a part of the classroom work by the grade teachers.

"Principals and teachers also cooperated in the sale of tooth brushes to the children at the nominal price of seven cents. As a result of these efforts practically all of the children now purchase tooth brushes in school. "The demonstration has proved that a dental service which is administered as an integral part of the daily school

program produces the most widespread and lasting results. Our experience has shown that, when the dental clinic is in the school building, children can be sent directly from the classroom to the dental clinic with a minimum of waste time, both for pupil and operator, and with a minimum amount of confusion and disruption of classroom work."

NOTICE TO BRIDGE CONTRACTORS.

September 9, 1924.
Sealed proposals will be received by the Pitt County Highway Commission at its office in Greenville, N. C., until noon September 20, 1924 for the furnishing of all material, labor and equipment necessary to construct a wooden bridge over Big Swift Creek at the point known as Clarke's Ford and being on the line between Craven and Pitt counties.

Anyone desiring further information concerning this bridge may get same by applying to the office of the Pitt County Highway Commission, where the plans and specifications are on file.

The right is reserved to accept or reject any bids that the commissioners might desire.

In Superior Court.
Yancey Allen,
vs.
Maggie Allen.

The defendant, Maggie Allen, will take notice that an action as above entitled has been commenced in the Superior court of Pitt county to obtain an absolute divorce from the bonds of matrimony.

And the said defendant will further take notice that she is required to appear in the office of the clerk of the superior court of Pitt county, on the 18th day of September, 1924, or within twenty days thereafter and answer or demur to the complaint of the plaintiff or the plaintiff will apply to the court for the relief demanded in the complaint.

This the 18th day of August, 1924.
J. F. HARRINGTON,
Clerk of the Superior Court, Pitt County.

By E. F. TUCKER, D. C.
Julius Brown, Atty. for Plaintiff.

Fete For Variety Artists Brings Out Old Timers, Said

Sutton, Surrey, Eng., Sept. 15.—"Sweet" Jenny Russell, aged 79, was the soubrette at a recent benefit given here in the garden of Harry Tate's summer home for the benefit of the Variety Artists' Benevolent Fund. Miss Russell sang a song of love and sweethearts which made her famous in English music halls half a century ago and danced the Highland fling with great vigor, wearing the tartan which has been identified with her appearances for many decades.

Fourteen old time music hall artists, whose aggregate age lacked only a few years of one thousand, were on the program. Pat Langan, aged 86, was the patriarch, and the youngest artist was forty-eight.

J. W. Rowley, of "Over Rowley" fame, demonstrated that his 77 years have not incapacitated him, and turned ed a somersault to the old cry of "Over Rowley" just as he has done for half a century. He also sang "Starry Night" and "Down in a Coal Mine," which have always been identified with his name.

Frank Foley, 69, sang "Stop Your Tickling Jock," which he wrote for Sir Harry Lauder long before the Scotchman's name was known outside of the British Isles.

ADMINISTRATRIX NOTICE.

Having qualified as administratrix on the estate of the late J. H. Whitehurst late of Pitt county, this is to notify all persons who hold claims against said estate to present them within twelve months from this date, or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment. This August 21st, 1924.

ANNIE E. WHITEHURST,
21 Itwk 4wkap Administratrix.

NOTICE.

North Carolina, Pitt County.
Notice is hereby given by the Board of Commissioners of Pitt county, in regular session assembled on Monday, September 1st, 1924, ordered that an election be held in the following described territory or district:

Beginning in Grifton Special

School line at Snow Hill road in the upper line of Sam Rasher's line thence north with said line to Gum Swamp, thence with said swamp to Swift Creek, thence down Swift Creek to Gardner's Bridge in Craven county, thence with said Craven county line to Neuse River, then up said river to Contentnea Creek up Contentnea Creek to Grifton School District line, then with said line to the beginning.

Said election to be held on Friday, October 10th, 1924, at Quinerly school building in the above described territory or district, as to whether there shall or shall not be levied and collected a tax of same rate as levied in Swift Creek District No. 1, on property and on poll in the above described territory, or district, and at said election those favoring said tax shall vote a written or printed

ballot, containing the words, "FOR SAME LOCAL TAX RATE," and those opposed shall vote a written or printed ballot, containing the words, "AGAINST SAME LOCAL TAX RATE."

IT IS THEREFORE ORDERED that J. F. Smith be and he is hereby appointed registrar for election, and Leon Moore and A. V. Wooten be and they are hereby appointed poll holders or judges of election:

And it is therefore ordered that a new registration is and shall be required, and the registration books of said territory or district shall be opened on Sept. 6th, 1924, and closed September 2th, 1924, for the purpose of registering the qualified voters of said district or territory.

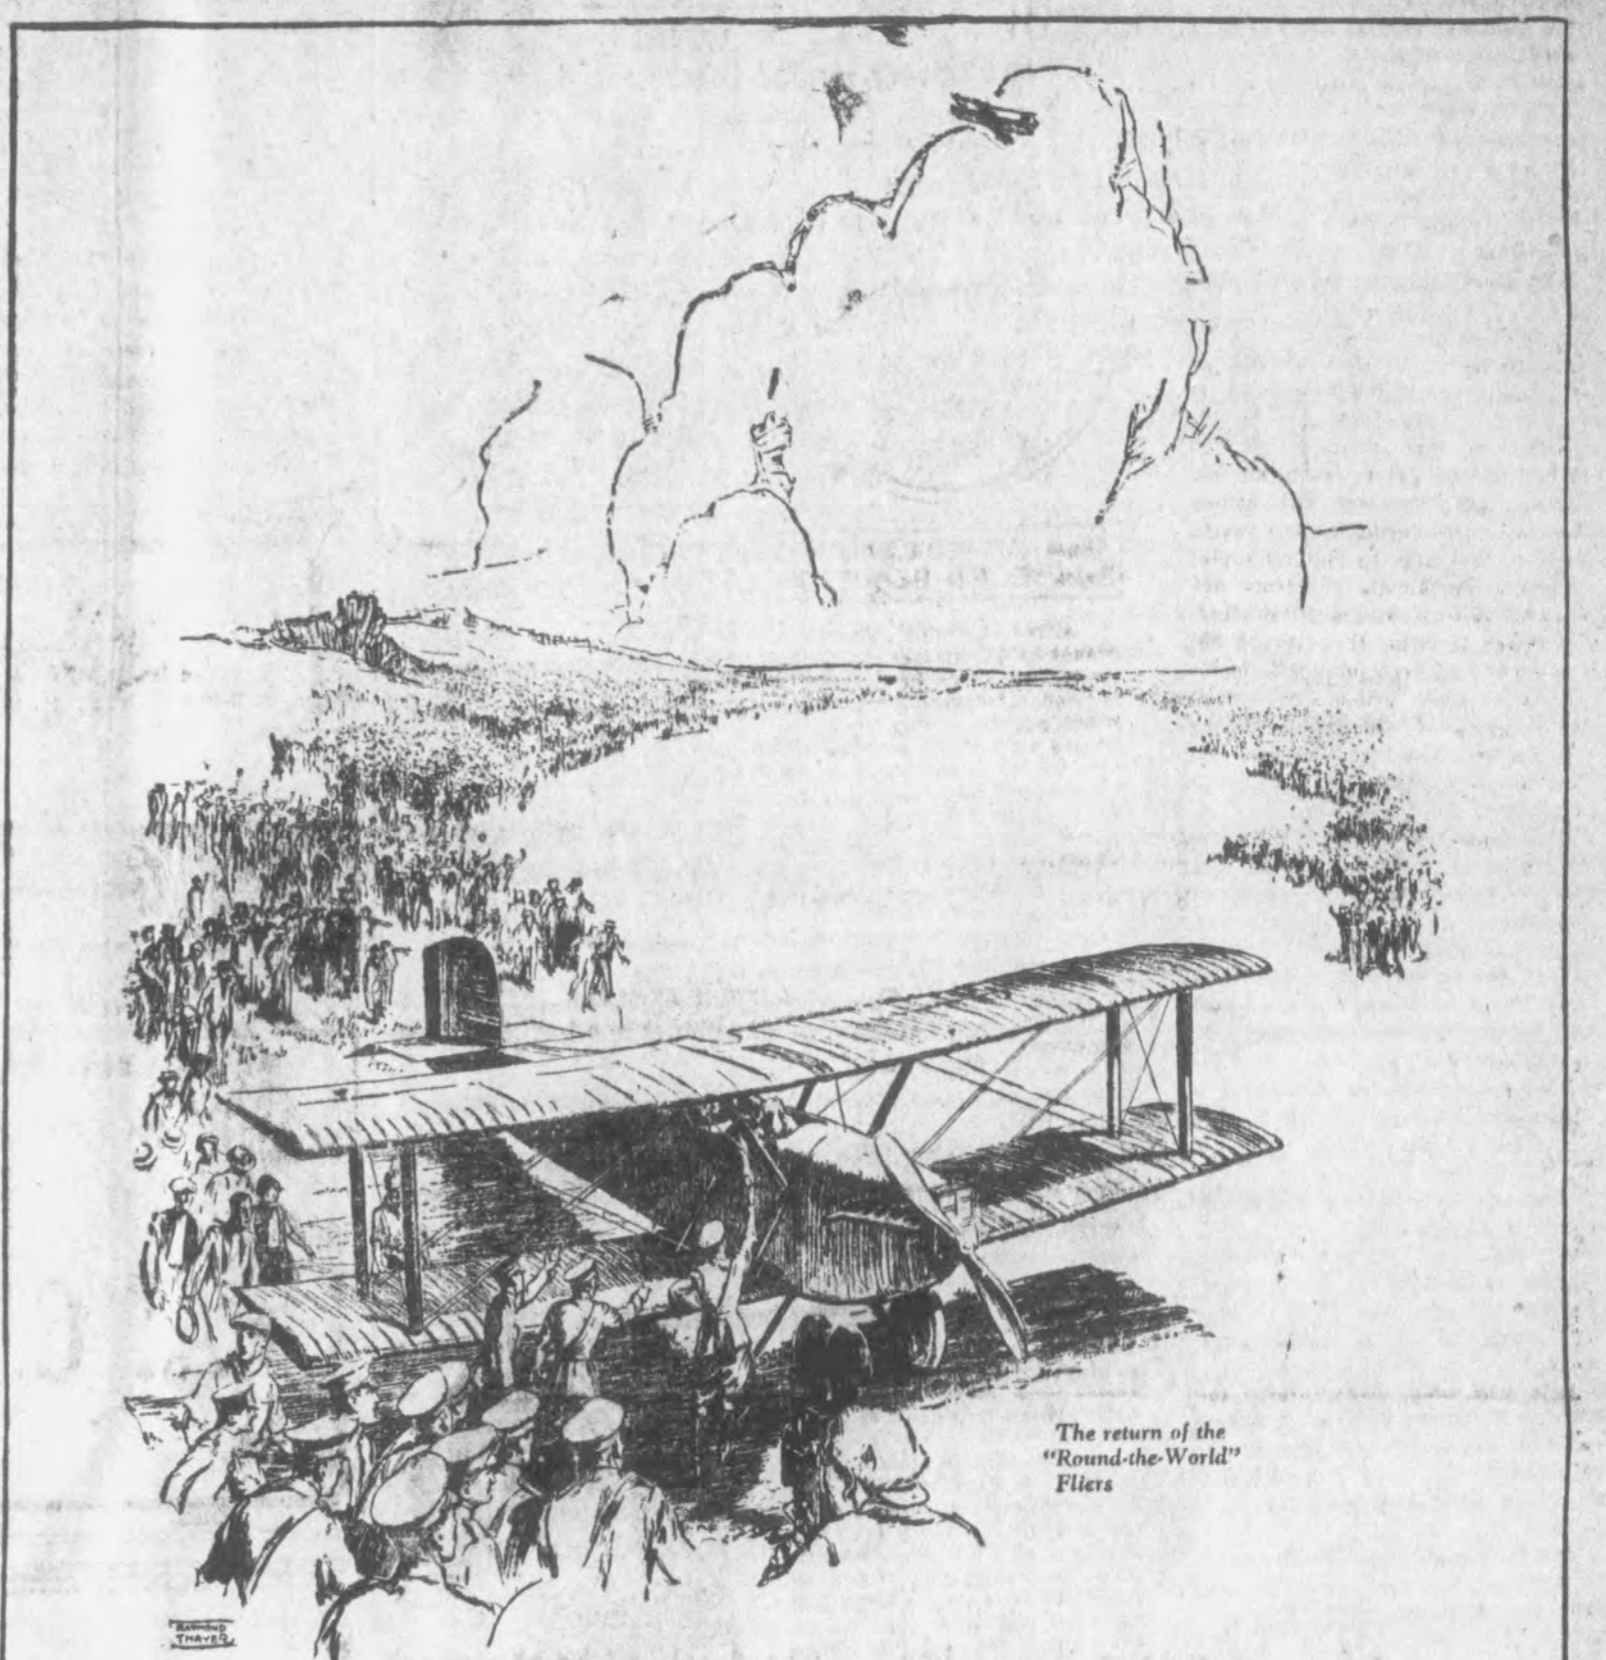

J. C. GASKINS,
Clerk of Board of County Commissioners of Pitt County. 4 Itw 4wks

NOTICE OF LAND SALE.

By virtue of power vested in me by that mortgage which was executed to me on May 2nd, 1924, by C. L. Perkins and wife, Lennie B. Perkins and duly recorded in the Register's office for Pitt county in Book W-14, at page 268, default having been made in the payment of the note therein secured, I shall offer for sale to the highest bidder for cash, at the Court House door in the Town of Greenville, at 12 o'clock noon, on Saturday, the 4th day of October, 1924, the following described parcel of real estate, being, and situated in the Town of Ayden, county of Pitt, and State of North Carolina, to-wit:

Street in the Town of Ayden, N. C., Betty Cox corner, and running westwardly course with Second Street to the center of an alley way, Hyman Buck's corner, thence a Southerly course with the center of said alley way and a straight line to A. W. Hardee's line; thence an easterly course with Hardee's line to Hardee's corner; thence a southerly course with Hardee's line to a stake on Third street, Hardee's and Buck's corner; thence an easterly course with Third Street to J. W. Moore's and Buck's corner; thence a north-erly course with said Moore's and Betty Cox's line to the beginning, containing one acre, more or less. This July 10, 1924.

APPIE O. SMITH,
Mortgagee.

The return of the "Round-the-World" Fliers

Hats off to 'em—they deserve it!

THE first men in all history to circle the earth by air! Trackless, treacherous seas, savage jungles, blazing deserts, nor desolate fields of ice could bar them from their goal. "Such popularity earned greatly, and won—and the millions who watched their perilous flight rejoice to welcome them home, to honors richly earned.

Hats off to 'em! To quote our own slogan, "Such popularity must be deserved!"

Such popularity must be deserved

Chesterfield

BUSINESS IS CIVILIZATION

Certain types of politicians and college professors speak of business both large and small in a sort of apologetic manner.

Napoleon Bonaparte was a sort of progressive and advocated many advanced ideas but spoke contemptuously of the English people as "a nation of shop-keepers."

Socialists, communists, European doctrinaires and Carl Marx theorists scattered all over our country and big cities express contempt for Big Business and business men.

Tillers of the soil, skilled mechanics and common laborers are all-important elements in a great nation of 110,000,000 people, but business men, organizers, managers, distributors, financiers, manufacturers are just as indispensable.

Without the business man the hand worker would supply his own needs only and would live from hand to mouth in a very primitive form of civilization—one man bartering his work for another's.

Without security and stability there would be no big business or little business no banking or transportation systems no progress and no civilization.

In a leading editorial, "Liberty" calls all business one gigantic system of co-operation, national and international exchange and untiring of the world's energy and wealth to serve humanity.

The contempt of the radicals and doctrinaires for the business man is born of ignorance, no matter of what school of thought or political party.

WORLD WIDE COMMUNICATION

The connecting link between London and Boston for radio communication has been established and messages of good will with Europe have been exchanged.

Instant transmittal of messages to our neighbors across the Atlantic is one of the achievements of the Radio Corporation of America, said General Harbord, president of the corporation, in announcing the Boston service.

Establishing physical circuits, connecting

continent with continent and nation with nation, will have a tremendous civilizing influence in the direction of goodwill and co-operation. The long arm of the radio connects American commercial and social life with that of England, France, Germany, Italy, Norway, Poland and Japan.

In a demonstration at the opening of the Boston station, six minutes and thirty-two seconds passed from the time messages were sent until the answer was received. Further, as a test of the wonderful world-searching power of radio, the operator at Boston picked up the captain of the S. S. Benengaria, 1045 miles east.

Millions of people all over the world are beginning to understand the wonderful benefits and blessings of the miracle achievement of the twentieth century.

WIVES

Every married man has had this experience: Husband meets a man with an impressive front, swallows him hook, line and sinker.

He is so impressed that he insists on wife meeting him. Friend wife, meeting the stranger, isn't impressed.

Why? Well, she doesn't know exactly—the stranger has a peculiar look about his eyes, he wears the wrong color necktie, or looks as if he were mean to his wife.

Time proves the wife was right in her size-up. Instinct, the sixth sense, told her.

The only accurate clairvoyant is a woman's intuition.

When the modern girl says she hasn't anything fit to wear to church, she doesn't mean what the old-fashioned girl did.

The world won't be perfect so long as people think they can change human nature by passing a law about it.

If you have a family skeleton, don't let her expose her shoulder blades in a backless evening gown.

Our idea of a diplomat is a man who can persuade his wife that she looks just as well in cotton stockings.

Environment has much to do with the formation of character, but that doesn't explain why the world went wrong.

The more we study a jack rabbit's jumping equipment, the greater our conviction that he is the progenitor of the modern pedestrian.

Now is the time for all good men to try and figure out what in thunder their party stands for.

The theory of evolution is sound enough, but you can't elevate a pedestrian by crossing him with an eight-cylinder car.

RADIO PROGRAM FOR TOMORROW

(Courtesy of Radio Digest)

Program for Sept. 17.

- WSB Atlanta Journal (429) 10:45 Radiowl.

- WBZ Springfield (317) 5:10 talk 5:30 bedtime; 5:40 trio; 6:30 orchestra; 7 Rotary club; 9:30 orchestra, songs.

POLITICAL POLO

Suggestion to Mothers: If you're saving Orange-Crush for unexpected guests, put the bottles in a safe place. Better yet, remove temptation. Keep a supply always on ice—just for family treat.

Here are six reasons why it's so delicious: (1) The natural fruit oil of oranges—which gives that delicate and distinctive flavor; (2) The natural acid of citrus fruits; (3) The natural acid of citrus fruits; (4) Carbonated water—which gives "zip," sparkle, purity; (5) U. S. Certified food color—which makes it as appealing to the eye as to the taste; (6) Pure cane sugar.

That's all. My, what a drink!

Lubrication in one lesson

"YOU can learn all you need to know about car lubrication in one lesson," says the Fleet Boss. "There are just four rules. Standardize on 'Standard' Polarine. Get the right consistency. Use enough. Change it often."

The correct consistency of oil or grease for crank-case, transmission and rear axle has been charted for every make of car and truck. If you are not sure whether you are using the right one ask your dealer to show you his "Standard" Polarine Chart. Then, wherever you go, ask for that consistency by name.

If you expect your engine to be on the job whenever you need it, it is up to you to make sure of it. Buy your oil on a quality basis. Change it at least every 500 miles. Years of experience have shown that to be about the limit of safety. Under average conditions the very best of crank-case oil collects enough road grit and unburnt fuel in 500 miles to impair seriously the lubrication of pistons and main bearings. So when you change, change! To leave any dirty and diluted oil where it must be used over and over again is to ruin the fresh oil you put in, even a high quality oil like "Standard" Polarine. Play safe—new oil on a regular schedule is cheaper than repairs.

STANDARD OIL COMPANY
(New Jersey)

"STANDARD" Polarine

Three consistencies—
one correct for your motor. Consult your dealer's Polarine chart—always name the oil it recommends.

Oils you can Trust!

Welshmen Turn to Digging Gold.
 Llandoverly, Wales, Sept. 16.—In a marshy field at Caio, near here, gold mining has been recommenced on a site said to have been worked nearly 1,700 years ago by the Romans.

Samples taken by the firm which has secured the mining lease are stated to yield free gold valued at from 5 to 9 shillings a cubic yard, and in some instances 70 shillings a cubic yard, with an assay result of 84.1 percent of fine gold.

SALE OF REAL PROPERTY.

By virtue of a decree of the Superior court of Pitt county made by J. F. Harrington, clerk in that certain Special Proceeding entitled L. F. Mills et al Ex-Parte, the undersigned commissioner will on Monday the 22 day of September 1924 at 12 o'clock noon expose to public sale before the court house door in Greenville to the highest bidder for cash the following described real property to wit: Lying and being situated in Chicod township, Pitt county, North Carolina and described as follows:

First Tract—Situated on both sides of the Greenville and Black Jack road, adjoining the lands of Johnnie Mills, L. C. Mills, the Calvin Mills heirs land and the land of Edward Mills and being known as the Anne Elizabeth Mills homestead containing 35 acres more or less.

Second Tract—Situated on both sides of the Greenville and Black Jack road adjoining the lands of Jodie Dixon, Calvin Mills heirs, the lands of Johnnie Mills, the lands of Anne Elizabeth Mills and known as the E. S. Mills tract of land and containing 35 acres more or less.

Third Tract—Situated on the west side of the public road leading from Black Jack to Shetmerdine adjoining the lands of W. H. Arnold, Moseley Bros, and R. M. Williams and containing 35 acres more or less.

This sale will be made for the pur

pose of making partition of the proceeds thereof among the tenants in common.
 This the 22 day of August, 1924.
 F. C. HARDING,
 25 Itwk 4wksp Commissioner.

SALE OF REAL PROPERTY.

By virtue of a power of sale contained in that certain deed of trust executed by J. T. Bundy to F. C. Harding, trustee, dated Nov. 21, 1919 and duly recorded in the office of the Register of Deeds of Pitt County, in Book 1-13, page 395, the undersigned trustee will on Saturday, the 11th day of October, 1924, expose to public sale before the court house door, in Greenville, county of Pitt, North Carolina at 12 o'clock noon to the highest bidder for cash the following describe real property, to-wit:

1st Tract: Beginning at an iron stake on the county road, Jason Joyner corner, and runs with the center of said road, westerly 1442 feet to a stake in Joe Barrett's line; thence S. 20 degrees 10' W. 6556 feet to the center of Little Contentment Creek; thence with the center of said creek the various courses easterly 1336 feet to a stake in Clayton Joyner's corner; thence N 19 degrees 30' E. 7826 feet to the beginning containing 202 acres and being lots Nos. 1, 2, 3, 4, 5, and 6 of the James A. Lang subdivision, sections surveyed and mapped by N. A. Trexler, C. E., which map is to be recorded in the office of the Register of Deeds of Pitt county.

2nd Tract: That certain tract or parcel of land known as the James A. Lang Pocosin land, adjoining the lands of R. L. Davis, Luther Freeman, the Barrett heirs, and others, containing 200 acres, more or less. Excepting from the lands above described that portion of the above described tracts which was conveyed by J. T. Bundy and wife to H. L. Humphrey, E. F. Huffines, and J. Lloyd Hunter, trading as the North America Land Company.

This sale will be made subject to the liens of a former mortgage executed by J. L. Harris and wife, Nora Harris to J. A. Lang, which said mortgage is of record in the Register's office of Pitt county in Book 1-13, page 350 to 351.

This sale will be made for the pur

pose of satisfying the terms of the deed of trust herein first above referred to.
 This the 8th day of Sept., 1924.
 F. C. HARDING,
 11 Itw4wksp Trustee.

NOTICE.

Notice is hereby given that the Board of County Commissioners of Pitt county, North Carolina, will receive bids until 9 o'clock a. m., on October 4th, 1924, in the court house at Greenville, North Carolina, for the purchase of \$100,000 school bonds of said county, denominations \$1,000 each, dated October 1st, 1924, and maturing \$2,000 on October 1st, 1925 to 1934 inclusive, \$3,000 on October 1st, 1935 to 1944 inclusive and \$5000, on October 1st, 1945 to 1954 inclusive, bearing interest at the rate of five (5 per cent) per annum, payable semi-annually, both principal and interest payable at the National Bank of Commerce in the city and state of New York.

Said bonds are issued under the laws of the state of North Carolina, including, among others, sections 266 to 270 inclusive, Chapter 136, public laws, session 1923, and in compliance with a resolution of the Board of Education of said county certifying that the outstanding indebtedness created for necessary expenses of conducting the six months' school term in Pitt county, prior to 1923, as determined by the Board of Education and certified by it to the Board of county commissioners amounts to \$100,000.

All bids must be accompanied by a certified check upon an incorporated bank or trust company, payable to the order of the treasurer of Pitt county, or to the chairman of the Board of county commissioners of Pitt county, North Carolina, for two per centum of the par value of bonds bid for, to secure the county against loss resulting from a failure of the bidder to comply with the terms of his bid.

The right is reserved to reject any or all bids, or to accept the bid deemed most advantageous to the county.

J. C. GASKINS,
 Clerk Board of County Commissioners, Pitt County, Greenville, N. C.

Local News

AIRPLANES MAY CONNECT PORTS ISLAND OF CUBA

New Orleans, Sept. 16.—Airplane passenger and mail service between New Orleans and Cuba and Mexican Gulf ports as a private enterprise is a subject of discussion here with many predictions that it is likely to become an accomplished fact in the not distant future.

Suggested terminals would be Tampico, Mexico City via Vera Cruz, Merida, Yucatan via Progreso, and Havana. The type of seaplane believed suitable for the lines—air-cruisers such as are used between Florida and Cuba and the Bahamas but equipped with at least two motors—could make the hop from New Orleans to Tampico, 719 miles, in about nine hours. The 900 mile jump to Mexico City via Vera Cruz would require about 14 hours. The Yucatan run of 540 miles would consume about eight hours while the 350 miles to Havana could be covered in approximately the same length of time. One of the suggestions in connection with the Tampico and Vera Cruz service involves a relay at Brownsville, Texas, with planes operating between New Orleans and Brownsville and Brownsville and the South.

Postal officials are authority for the statement that approximately 1,500 pounds of first class mail dispatched from New Orleans to Mexican ports each week for which the government pays \$2 cents a pound. Incoming mail from much of the territory is transported free of charge by the steamship companies but it is believed the United States and Mexican Governments would agree to pay \$1.50 a pound for all first class mail handled by the planes should such a service be established. The revenue derived therefrom, it is estimated, virtually would support a tri-weekly service.

Establishment of regular air service to Mexico recently was the subject of a conference between A. V. Dye, American commercial attaché at Mexico City, and George E. McLeod, District Manager of the Bureau of Foreign and Domestic Commerce. Subsequently Mr. McLeod conferred with A. E. Pradillo, Foreign Trade Secretary of the New Orleans Association of Commerce. While it is understood nothing tangible resulted, it is declared the subject is in abeyance for only a short time and that the plans will be discussed more fully in the near future.

Work to Begin at Once On the Dirt Roads of County

Work on the dirt roads in the county will begin immediately. The first road receiving attention will be the road from Bruce to Fountain.

The Pitt County Highway Commission held a meeting last night at which time a ten ton tractor and a road machine were purchased to be used in grading and improving the roads.

The road machine was purchased from J. C. Benjamin, of Raleigh, while the tractor was purchased from E. F. Green, of Durham.

Pitt county has a splendid system of hard surfaced roads and when work on the dirt roads is completed it will be able to boast of one of the best if not the best systems in the state.

GROUPS FIVE WILL CONDUCT SERVICES KING'S CROSS ROADS

Prayer services will be conducted by Groups Five of the Laymen's Christian Federation and Women's Federation at King's Cross Roads this evening at 8 o'clock. Mr. C. C. Coppege will be leader. Every member of each group is urged to be at the Pythian Hall at 7:15 o'clock.

RED CROSS AIDING EX-SERVICE MEN

(Continued from page 1)

rican citizenship our two organizations are formed to foster. Through out the country fine co-operation exists to that end. In disaster, in health and community activities, in citizenship training for the children in our schools, we have opportunity to supplement each other. Your Americanism work has accomplished much. Your fight on illiteracy has brought light to many. Your efforts for a finer citizenship have been commendable.

"The Red Cross in its citizenship work is beginning with the children, believing that there is found the most fertile soil for planting the seeds of service to others and the attainment of a great citizenship. Approximately five and one-half million children are members of the American Junior Red Cross and their motto is 'I serve.'"

"Then through Red Cross public health nurses in one thousand counties, through Red Cross health education work, through First Aid and Life Saving, healthier and stronger bodies are being made possible for the tasks of peace."

Sparks Circus Is Coming Saturday

A thrilling exhibition of horsemanship, Florence Harris on her Kentucky thoroughbred "Extra Dry," taking a jump six feet high and thirty feet long. This is but one of the many sensational displays which will be presented at each performance of the Sparks Circus on the lot near Teachers College in Greenville on Saturday, Sept. 20.

The performance of the Sparks Circus includes bareback riding, aerial, acrobatic and trained wild animal acts. Comedy is interested throughout the entire production by a troupe of famous clowns. The opening number on the program, called "An Egyptian Fantasy," is symphony of color as well as of music. It is presented by a gorgeously costumed chorus of pretty girls. A touch of Oriental mysticism is given to it by the brilliantly accoutred horses, camels and elephants that take part in it.

BELLS SUMMON KLEANERS. TO CULL WAITING FIELDS

London, Sept. 16.—Although Ruth's ancient industry went out of fashion in the United States long ago for which modern agricultural reaping machinery may be praised or blamed, there are many places throughout England, where the "cleanser's bell" may still be heard in these early harvest days.

The bell notifies the village folk and they may begin to glean the fields, and a casual passer through the English countryside these days may witness scenes closely akin to the one which Millet's canvas immortalizes in the Louvre.

The "cleanser's bell" can be heard very near London, in the neighboring village of Farnham, in Essex. It sounds from the church tower at 9 a. m., and at 5 p. m., as soon as harvesting is sufficiently advanced for gleaning to be permissible.

FLAPPERS SOMETIME SHRINK FROM TRAVELING ALONE

London, Sept. 16.—Although it is the boast of "modern Eve" that she is quite able to look after herself, the days have yet to come when she will be able to do without aid and care when traveling about the country.

The latest report of the Travellers Aid Society which exists to help girls and women, shows that their work has grown greater than ever. Statistics for the past years state that 3,307 women and girls have been met at London stations and docks, 234 have been assisted abroad and 577 "stray cases" have been put on the right road.

A long journey alone, especially for the first time, still causes misgivings to English girls, and the idea of crossing London without escort appals some of them.

Mexico Minus Many Millions.

Mexico City, Sept. 16.—The sum of 23,000,000 pesos appears in red ink on the government's books, says a statement by the treasury department, and is composed of uncollected sums due for customs and other federal duties. The department announces that a program of reforms is being studied, both with the object of collecting what is now overdue and preventing future bad accounts.

PROMINENT FIGURES IN DAY'S NEWS.

Above: LORD NORTCLIFFE and GEN. JOHN L. HINES. Below: VISCOUNT WIMBOURNE and NICHOLAS NICOLAIEVICH.

To battle the attempt of the Soviet Government to seize Russian church property valued at half a million dollars, Rev. Nicholas Nicolaievich, of the Russian Orthodox Church, has come to the United States and will open his fight in San Francisco. According to reports from England, Lord Northcliffe has entered the ranks of those who talk, although dead. Louise Owen, former confidential secretary to the famous publisher, says she has received messages from him. Quite a surprise was given American polo circles when Viscount Wimbourne, who has furnished heavy backing for the English polo team, called for England before the first of the international matches was played. General John L. Hines has succeeded General John J. Pershing as commander of the United States Army.

SPIRITS RESPONSIBLE FOR MACLAREN'S ILL LUCK, SAY ISLANDER

Tokio, Sept. 16.—If fortune, which attended the attempt of A. Stuart MacLaren, British around-the-world aviator, and his companions to fly across the remainder of the globe after leaving Japan, is attributed by the natives of Urup Island, one of the bleak Kuriles to the airman's own indifference to evil spirits.

When Major MacLaren's big Fokker amphibian hopped off from Tokhomoye, Yatorofu Island, one day in July, with Paramushiro Island, at the north of the Kurile chain, as his goal, fog and wind decompelled him to land at Totokan Bay, on the southwest coast of Urup Island. The bay is exposed, and when the wind rose Major MacLaren flew his plane a short distance inland, alighting on a body of brackish water known as Totokan Bog. In so doing, according to the sparse population of Urup island, he courted the malevolence of evil spirits.

14-Year-Old Boy Slays Grandmother

Under arrest on a charge of having murdered his grandmother, who also was his foster mother by adoption, William Cavalier, fourteen, is said by Pottsville, Pa., police to have confessed. The boy is said to have declared he shot the aged woman to obtain the paltry sum of \$103.

A flaming forest encircled them, beyond an angry mob waited to take his life if he still lived! A love story that strips the cloak of falseness from men and women and shows their elemental hearts. Also OUR GANG COMEDY—DOGS OF WAR. Adm. 10 and 25c

Markets

(Furnished by James William Cobb)

COTTIN LETTER

New Orleans, Sept. 16.—Better cables than dua and heavy rains in the eastern half of the belt, torrential South Carolina influenced considerably in southern Georgia and southern able short covering and a higher market the same. Subsequently values declined sharply on report that the Lancashire Federation of Master Spinners at a meeting today decided to continue short time in mills using American cotton until Dec. 1st. Another depressing feature was the correction by Washington making the par for Arizona for Sept. 16, 333, instead of 236, but this of minor importance considering the belt as a whole as the average par for the belt would be about 269 instead of 268.3 compared with about 255.2 for Sept. 1st.

However a rumor afloat to effect that a large New York house is to issue another bearish crop report shortly. Numerous private mid month crop reports are due this week in advance of the next Government crop forecast for period ending Sept. 16th. Hamburg, Germany cables Continental ginners, at least in Germany, are wanting cotton of every description and it is only the uncertain temper of the market which induces the respective mill owner to wait as long as possible for his purchases.

We believe that ultimately we will have much higher prices, however, at the moment the market lacks support and will be sold on bulges.

Middling 1323, good middling 1388. Sales 6,000 American, none. Receipts 13,000 of which 9700 were American. Liverpool closed firm, Jan. 1233, March 1241, May 1249, July 1245, Oct. 1239, Dec. 1228.

WEATHER.

Temperatures warmer over belt light to moderate rains scattered over east belt. Forecast—Eastern belt partly cloudy thunder showers. Central and western belts generally fair.

GRAIN MARKET

GRAIN.

With foreigners buying wheat freely on all breaks to an extent nearly equal to primary arrivals and with foreign news bullish, there are many things to encourage speculative buying of futures. At the same time short selling is held in check. This creates a belief that wheat is a purchase on breaks. Crop news on corn does not change for the better and with a few experts going over the fields in Illinois and Indiana making bullish reports there is an element in the trade that is disposed to buy on all sharp declines and take profit on the bulges.

Acid Pumps of Porcelain.

Berlin, Sept. 16.—Suction pumps of porcelain for handling powerful acids have been built by the State porcelain manufacturing here, and are declared to be superior to metal pumps affected by acid erosion. The new pumps will be used by chemical works and laboratories where acids are handled.

A Talk With a Greenville Man

Mr. Brinkley Tells Something of Interest to Greenville Folks.

There's nothing more convincing than the statement of someone you know and have confidence in. That's why this talk with Mr. Brinkley of Chestnut street, should be mighty helpful here in Greenville.

J. Frank Brinkley, prop., warehouse, 1100 Chestnut St., Greenville, says: "Bending over had a tendency to weaken my kidneys and put my back in bad shape. I could hardly straighten after bending and my kidneys acted irregularly. Doan's Pills relieved the backache and regulated my kidneys, making me feel better."

Over three years later, Mr. Brinkley added: "For the past several years I have been feeling fine. I gladly confirm my former statement praising Doan's"

at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Teachers Decide Mold Children Communism

Paris, Sept. 1.—The United Federation of school teachers of France, in session in this city, has resolved that school children be taught revolutionary principles. In the discussion that preceded the vote different orators declared that teachers should take matters in their own hands and begin their class strife propaganda with the little ones, discarding old text books, and "bringing the children to understand that modern society is filled with the germs of injustice."

The federation comprises about 8,000 teachers who previously belonged to the federation which affiliated with the French Federation of Labor, and which separated from that body when the Communists split with the Socialist party.

The ranks of the Communist teachers will be considerably swelled if the amnesty bill passed by the Chamber is adopted by the Senate. This bill reinstates teachers who have been dismissed for subversive action, or for any other reason, and provides for their promotion to posts they would in the ordinary course have reached had they not been dismissed.

Postmasters to Propose Better Mail Facilities

Indianapolis, Sept. 16.—Establishment of parcel post and third class mail terminals in every state, to facilitate quicker handling of these classes of mail, will be among the recommendations to the U. S. Post-office Department proposed by the National Association of Postmasters of the United States which meets here Sept. 23 to 25.

Only a few large cities have such terminals at present, and the concentration of this type of mail in these cities is resulting in congestion which the postmasters believe can be relieved by establishing similar terminals in each state.

Other recommendations expected to be made is that the government bond its employees, adoption of legislation abolishing the compensatory time feature for employees who work on Sunday or holiday, new regulation which will permit return of mail posted with insufficient stamps to senders, and more stringent rules governing containers in which eggs may be shipped to reduce breakage in the mails. The speakers before the meeting include Postmaster General Harry S. New.

FLORA BEDENIA

International horsewoman and Bonita, the pride of lovers of horse flesh, coming to Greenville with Sparks Circus, Sept. 20.

Trout to Be Kept From Preying on Salmon Fry

Achorage, Alaska, Sept. 16.—Under a plan adopted by the United States bureau of fisheries, it is hoped to increase the salmon pack of the Cook Inlet section of Alaska from 200,000 cases in recent seasons to 500,000 within the next few years.

According to William Studedert, in charge of salmon protection, the depletion of salmon in southwestern Alaska has been due as much to failure to conserve the spawning grounds as to overfishing. Mr. Studedert declared the greatest enemy to the salmon were Dolly Varden trout, which preyed on the eggs in the spawning grounds up streams and caught the salmon minnows before they could swim to safety.

"One trout," he said, "captured in a stream while the salmon fry were traveling to the ocean revealed 70 odd fry in its intestines. To stop these inroads we have decided to destroy the trout."

Surveys are being made of every stream used by salmon to reach spawning grounds in the lakes. The streams are being cleared of obstructions and made navigable for the salmon. The lakes will be seined and the trout transferred to lakes not used by salmon.

Top Hats Worn In Ireland

Dublin, Sept. 12.—The Tailteann games and their accompanying social events have been remarkable for the revival in Ireland of the tall hat. Twenty years ago a black morning coat, striped trousers and a tall hat were the almost essential uniform of professional men, and no doctor or lawyer omitted to wear them. An easier style of dress gradually crept in, and for more than ten years tweeds and soft hats replaced the old dignities, and the tall hat was rarely seen except at funerals. The more formal clothes have now

Russians Still Living In "Stone Age" Said

Riga, Sept. 8.—There are people in Russia today living in a "stone age" all their own, according to reports of Professor Leon Tann, a Russian ethnologist, which have been received here by Latvian authorities.

Professor Tann recently completed a tour of the wilds of Russia and it was in the Jaroslav district that he found the peasantry utilizing stone for implements of numerous kinds for every day usage where ordinarily metal is now used. Lack of iron and steel was attributed as the reason for this backward step, but Prof. Tann was of the opinion that this stone work of today was far superior to the stone implements turned out by man thousands of years ago. The hatchets and axes of stone made by the Jaroslav natives were particularly well done and serviceable.

In the district of Orlov, Prof. Tann found several communities where the natives virtually live with out clothing of any kind all summer, and in winter hibernate within their huts and dens, and exist on potatoes, dried fish and dried waterlorn rinds.
