MINE EXPLOSION AT KEMMERER, WYO TAKES HEAVY TOLL

Thirty-Five Miners Believed to Have Perished as Result of Blast; Cause of Disaster Is Unknown

Kemmerer, Wyo., Sept. 17.—The bodies of thirteen miners, who on yesterday were trapped in Sublet Mine No. 5, of the Kemmerer Coal Company at Sublet as the result of an explosion, were taken from the mine early today according to announcement by Sheriff Oakley, of Kemmerer. The bodies of the men taken from the mine were burned almost beyond recognition. A check-up showed that sixty men were in the mine at the time of the explosion, the sheriff said, which leaves thirty-five unaccounted for.

The twelve miners who escaped alive were unharmed. They were caught just above the seventh level and a cave-in of the retaining walls saved them from death by gas, and fire, according to meagre reports.

Another group of 12 miners probably were killed instantly when the explosion occurred, according to conjecture by officials.

The men were on their way to the top for the noon meal when the blast wrecked the mine. It is believed they were thrown to the bottom of the shaft and killed before gasses accumulated.

The force of rescue workers was augmented this morning by the arrival of a mine rescue car with additional apparatus, and men from Rock Springs, Wyoming. Excitement was at fever heat around the mouth of the mine as hundreds waited to identify the corpses taken from the mine.

As fast as the bodies are recovered from the mine they are being brought to Kemmerer where two improvised morgues have been set up. Identification of the bodies is slow as many of them are badly mutilated.

Scores of men who worked all night to rescue their comrades, continued their labor today in a drizzling rain.

Officials of the coal company refused to give out any news regarding the accident declaring that all details would have to be carefully verified before any information could be made public. Many reports as to the cause of the explosion have been circulated. One is that it was caused by a spark which flashed from a tool which struck the side of a coal car.

OMAHA SELECTED NEXT CONVENTION AMERICAN LEGION

Nebraskan City Victorious in Contest With Fort Worth, Texas, for Next Annual Convention

Saint Paul, Minn., Sept. 17.—Omaha, Nebraska, was selected as the 1925 convention city of the American Legion at today's session of the 6th Annual Convention of the organization being held here. The unofficial vote was Omaha 504 and Fort Worth, Texas, 453.

The selection of Omaha came after a hot contest between the Nebraskan and Texas cities, the only two eligible according to the report of the time and place committee. The convention also accepted the report of the committee recommending the acceptance of Philadelphia's invitation for the 1926 convention.

St. Paul, Minn., Sept. 17.—With the annual parade out of the way, organization politics came into consideration as the delegates entered into the third day of the American Legion National Convention. Little attention was given our organization politics previous to the parade as preparation for the review of the twenty-five thousand legionnaires occupied the delegates spare moments.

Talk of general John J. Pershing to succeed John R. Quinn as National Commander continued today although there appears a deeper current in which others are mentioned. Among those familiar with convention politics the name of James J. Drains of Washington, D. C., is prominently mentioned. Many believe a dark horse will be chosen.

RENEWED EFFORTS BY CHINESE ARMIES REPORTED TODAY

Hostilities Break Out On Manchurian-Chihli Front; Battle Line Draws Closer Shanghai

Shanghai, Sept. 17.—Renewed evidence of the spread of the Chinese sectional civil war to the Manchurian-Chihli front were contained in Peking reports received here yesterday telling of a battle at Chaoyang where the forces of General Chang Tso Lin, Manchurian war lord, are said to have clashed with those of General Wu Pei Fu, military head of the Peking government. With the Manchurian hostilities and the taking of sides in the fighting between the rival military governors for possession of Shanghai, military observers here expressed belief that the open hostilities would have a direct bearing on battling near here. For the past 36 hours rival Kiangsue and Chekiang armies have been in a deadlock of fierce fighting in a battle waged along a 100 miles front west of Shanghai. Fighting continued throughout the night and the Shanghai volunteer corps were called out when it was believed the firing lines might be drawn closer to the city.

The Chinese government was informed that the British and American representatives were willing to keep national's out of the area where actual fighting is in progress only.

Fragments of Letter Found Near Body Indicate Suicide Pact Between Girl and Her Lover

New Brunswick, N. J., Sept. 17.—That a suicide pact was planned by 15 year old Elizabeth Johnson, whose body was found in Carnegie Lake near Princeton Sunday, and Harvey Selhavaver, farmhand discharged by the girl's father and now sought by police, was indicated by fragments of a letter which police found scattered over the floor of an abandoned cellar 75 feet from the spot where the girl's body lay.

"Dear Precious Darling" was the salutation of the letter which ended with "Your broken hearted lover, H. S."

These fragments which were pieced together read, "I am very sad. Just to think two days more I will have to put you from me my love. I cannot do it. It seems that the only way out is that which you suggested on the porch last night. If we cannot live together in life let us depart together in death. Tell me where and when you will meet me and give me the key back. Destroy this letter."

A portion of a theatrical magazine cover bearing the name of the girl, a Pennsylvania time table and a cartridge box which had contained twenty-two calibre shells were also found in the cellar.

"Drums of Jeopardy" in which Elaine Hammerstein, dainty girl of the screen, plays the leading role, now showing at White's Theatre, is the second of a series of independent pictures made by this star at her own studios. Miss Hammerstein will continue producing independently and her pictures will be released through the Truart Film Corporation. Her third picture is now in the making and like "Drums of Jeopardy," which was adapted from Harold MacGrath's famous novel, is also based upon a recent "best-seller." She will appear in only four pictures during each of the next three, so that enough time may be devoted to each photoplay to keep it to the high standard she has set for herself in these offerings, under her own venture.

IF CONGRESS ELECTS

Political correspondents continue to speculate on what may happen should both Coolidge and Davis fail to get a majority of the electoral votes, in which event election of a president would automatically go to the house of representatives.

Such a possibility should be viewed from a standpoint of what has happened in the past if it is to mean anything. It is just 100 years since congress was called upon, in the only instance of its kind in history, to name a chief executive, following a deadlock in the electoral college. In that year there were four candidates and each had a formidable following.

Andrew Jackson, although leading in both popular and electoral votes, was defeated in congress by John Quincy Adams. William H. Crawford and Henry Clay were the other candidates.

The popular vote is unreliable. All four candidates ran in but five states; three ran in six states; in seven states the contest was between two. In six states the legislature, not the people, chose the electors. But the popular vote, as nearly as it can be counted, was: Jackson 152,901; Adams, 114,023; Crawford, 46,979; Clay 47,217.

In the electoral college, the vote stood: Jackson, 99; Adams 84; Crawford 31; Clay 37. No one having a majority, the election went to the house; and as the constitution

provides that only the three highest candidates can be voted for, Clay was eliminated. He threw his support to Adams.

In the ensuing ballot in the house, Adams received 87 votes, Jackson 71, Crawford 54, according to the preference of the members. But the decisive vote was by states and of these Adams had 13, Jackson seven and Crawford four. A change of three votes in the house might have taken three states from Adams and added them to Jackson's total, making the election of any candidate impossible as long as the representatives stood to their guns. In that case, John C. Calhoun would have become president, and the whole course of American history from that date onward might have been changed.

Two of these states had but a single representative—Illinois and Missouri. In the Louisiana delegation, Adams had two votes to Jackson's one, the vote of the state being therefore cast for Adams. In the electoral college, both Louisiana's and Illinois' majority had been for Jackson, Missouri had been for Clay. Small wonder that the Jackson adherents cried that the election had been stolen. Nevertheless, there is not the slightest evidence of corruption in the house.

There is even less danger of a purchased election if the vote is thrown into the house this year, for the preference of the various congressmen are well-known, and the whole country will be on the lookout for any evidence of bargain and sale. The method provided by the constitution is adequate, and there is no doubt that the people would abide by the result.

GET OUT AND VOTE

The state of Washington has inaugurated a "Get-Out-and-Vote" movement which will undoubtedly spread to the other states. Any movement which has for its object the marshalling of what is known as the stay-at-home vote should have the hearty support of both Republicans and Democrats. As a rule, the man or woman who neglects to register and vote can give no valid excuse for failure to perform that important civic duty. Both our country and the political parties will be better off at all times with a full registration and a full vote.

An auto is a necessity when the neighbors have one.

OLD TEACHERS GIVE RECEPTION IN HONOR OF NEW TEACHERS

Mrs. W. W. Gasey and the teachers of former years in the Greenville schools held open house last Friday night at the Vines House in order that the parents and friends of the schools might become acquainted. The house was attractively decorated with ferns, garden flowers and colored lights carrying out the color scheme of gold and purple. The crowds of visitors were received by some of the old teachers and presented to the new teachers. After meeting the new teachers the guests were directed to the hall where punch was served. From the hall the visitors were taken to the dining room where orange ice and wafers were served. Mrs. Harvey and Mrs. Roberson presided at the refreshment table.

The Methodist orchestra did much to further the pleasure of the evening. The teachers who are returning to Greenville from previous years were untiring in making both the new teachers and the guests feel at home, and, together with Mrs. Gasey were responsible for a highly satisfactory evening. The new teachers are:

Chiropractic ADJUSTMENTS
WILL GET YOU WELL AND KEEP YOU WELL
As some of YOU well know you have been taking drugs and etc., for years, with practically no results. Don't give up; try CHIROPRACTIC, THE MASTER KEY TO HEALTH, and you will say, "HOW FOOLISH I WAS NOT TO HAVE TRIED CHIROPRACTIC LONG AGO."

I want every man, woman and child to know that CHIROPRACTIC is effective in caring for at least 95 per cent of all human ailments. Spinal curvature, weak eyes, all sorts of defects in vision, skin eruptions, paralyzes, defects of hearing, digestive disorders, kidney trouble, lumbago, headaches, constipation, defects of the heart, high blood pressure, sleeplessness, inflammatory conditions of all kinds whether in the air passages, in the appendix, or in some remote organ; diabetes, Bright's disease, tumors—these and hundreds of other diseases are conditions where the public may not realize the value of CHIROPRACTIC.

Everyone should know that this science is founded on principles which operate the same in one disease as in another. The location of the disorder may be different, the character of the trouble may vary, but the principle of CHIROPRACTIC does not change.

No matter from what condition you may be suffering, permit me to see you, and I will tell you frankly whether or not my services will be effective in getting at the real cause of your disorder, and eliminating it. Remember that there is a cause for every sickness, and that the CHIROPRACTOR is especially trained to locate that cause and correct it. Disease is caused by nerve pressure, get your CHIROPRACTOR to get the pressure off of the nerve.

Weak Nervous

"I was weak and nervous and run-down," writes Mrs. Edith Sellers, of 466 N. 21st St., East St. Louis, Ill. "I couldn't sleep nights, I was so restless. I felt tired and not in condition to do my work. I would have such pains in my stomach that I was afraid I would get down in bed. My mother came to see me and suggested that I use

CARDUI The Woman's Tonic

I felt better after my first bottle. I had a better appetite. It seemed to strengthen and build me up. I am so glad to recommend Cardui for what it did for me. I haven't needed any medicine since I took Cardui, and I am feeling fine. Nervousness, restlessness, sleeplessness—these symptoms so often are the result of a weak, run-down condition, and may develop more seriously if not treated in time. Take Cardui. Sold everywhere. The New Oakland More than One Year Ahead

The New Oakland Six Fifty Four has been more than one year ahead of other cars for some time, and now other cars are just able to offer a few of the many improvements that Oakland has offered for more than one year. Oakland offers as regular equipment Four Wheel Brakes, Disk Wheels, Permanent Top, that can be made into a closed car with real plate glass sides within thirty minutes, a fifteen thousand mile motor, Fisher Bodies on all models, Automatic Spark Control, All Instruments on Steering Wheel, a Clean Dash.

The Oakland offered you one year ago many more improvements than are found on many of the new models of other cars on the market today.

The Carter-Cobb Motor Co. has handled the New Oakland in Greenville for the last eight months and have sold quite a number of them. So far they have not had the least bit of motor trouble and their owners are the best salesmen they have.

WE HANDLE WHAT PEOPLE WANT
If we knew that there was a better buy on the market to day than the OAKLAND TRUE BLUE SIX we would take on that line of cars, because we want to be able to offer to our customers the most automobile for the dollar.

SELL COMFORTABLE TRANSPORTATION

A man buys an automobile for transportation only, and as we are able to offer a car that is more simple to operate, less working parts with more conveniences and comfort with less cost, we know that we have a car one year or more ahead.

FULLY EQUIPPED SHOP

We operate the most completely equipped shop in Eastern Carolina, with Machine Shop, Wash Pitts, Grease Racks, Ample Storage Room and what we and our customers think the best Mechanics.

FAST ROAD SERVICE

Regardless of the make of car you drive we are able to give you service any place in the county as we operate a Wrecking Truck and we are as near you as a telephone.

BETTER LUBRICATION

If every automobile was properly lubricated it would last twice the life of the average. We grease chassis and change oil in the way the factory intended as this is done by a lubricating chart.

YES, WE KNOW THE AUTOMOBILE BUSINESS

Our organization is made up of people that have been in the business for a number of years and we try to look ahead and be able to offer for sale that which is better for the trade. We work ten men, with a foreman that will see that they give you honest work.

Markets

(Furnished by James William Cobb)

COTTON-LETTER.

New Orleans, Sept. 17.—The market has declined to such a comparatively low level middling here yesterday 20.95 against 29.25 this date last year, as to make it more of a two sided affair in the future.

Private crop estimates for a yield about 13,000,000 bales and less confirmed by the government on 23rd seem to have been discounted, in such reports having been issued today, ranging from 13, 019,000 13-172,000. The same character of private reports were issued two weeks ago but the government forecast, as of Sept. first was for a production of 12,787,000 and we doubt if the Government will show much change in its next crop forecast from its previous prediction for 12,787,000.

Perhaps the most important development of the times is the preliminary approval by the league of nations to outlaw war in the future which would assure universal perpetual peace. Second in importance to this development is the Dawes plan and also it does not become operative until Oct. 12 its importance is reflected already in larger exports of grain, cotton.

The market may have its ups and downs for a while but eventually a ravenous demand for cotton is likely to spring up from all quarters of the globe as the supply, which the world needs and the comparatively low prices will be the incentives to buy, as there is no assurance that a good crop will be made next year.

Conservative opinions have changed from the bear to the bullish side.

Temperature slightly warmer over belt, light to moderate rains scattered over east belt, very heavy rains along Carolina coasts.

SUMMARY OF WEEKLY WEATHER AND CROP GOVERNMENT REPORT PERIOD ENDING TUESDAY, SEPT. 16.

Washington, D. C., Sept. 17.—Rainfall was heavy in the east belt at the close of the week and was moderate to generous in the west portion but only light, local showers occurred in the central districts. It was abnormally cold over much of the belt, though temperatures were near normal in the extreme southern portion. The influence of the weather on the crop during the week resulted in but little change in the general outlook. Increased moisture in the east belt was beneficial in checking in some localities and the plants that still are green in some western districts will be helped but the rain was too late to improve much cotton in the southwest.

FORECAST.
East belt part cloudy, central belt generally fair, west belt mostly part cloudy.

Star Breaks Season's Record

AVERAGE \$24.03

On Tuesday (rained all day) our sale of 45,000 POUNDS, SOLD FOR \$10,815.09, AVERAGING \$24.03, FOR ENTIRE SALE, INCLUDING one row of damaged tobacco. We had lots of common tips and primings in this sale. THIS IS THE HIGHEST SALE WE HAVE SEEN ON RECORD ANYWHERE IN EASTERN CAROLINA THIS SEASON.

We are unquestionably higher than other markets in Eastern Carolina. We have on our floor every day farmers who have been selling tobacco of same grade on the other markets, and they say they are getting from 4c to 15c per pound more with us. You cannot afford to take chances when you can get more money for the same tobacco. NO DROPPING BACK WHEN WE BID ON YOUR TOBACCO. You are bound to see this is profitable for you.
