BALTIMORE NEWSPAPER INDICTED FOR PRINTING INCOME TAX RETURNS

First of Government's Cases to Test Provisions of Revenue Act Brought Against Baltimore Post

Washington, Nov. 20.—The Baltimore Daily Post was indicted by a federal grand jury today for publishing income tax returns lists.

The indictment, the first test case to be instituted by the Department of Justice to obtain judicial construction of conflicting provisions of the income tax law, charges the Post printed returns on income taxes in violation of Section 3167 of the revised statutes despite warnings given by the Treasury Department when public inspection was ordered.

Five counts are contained in the indictment returned by the Baltimore grand jury, based on the publication of five separate returns of Maryland citizens published on October 24.

Indictment followed appearances before the grand jury today of Harold Allen and Sewell Key, special assistant to Attorney General Stone. Galan L. Tait, Internal Revenue Collector for this district was named as prosecuting witness and so far as is known is the only witness.

Washington, Nov. 20.—In the government's proceedings against the Baltimore Post Attorney General Stone has sought to present various phases of the question of publication of income tax returns so that court rulings may be obtained under conditions existing in Baltimore. He has instructed United States attorneys in six or seven other instances to make presentations to grand juries in as many cities asking for indictments there in order to obtain court expressions in the various communities.

The Attorney General said today he would press for early action in the Baltimore case and would pursue the same policy with respect to the other cases. He desires to get the question before the Supreme Court as soon as possible.

Since the indictment in Baltimore is against the Baltimore Post Company, it is indicated by the Department of Justice that it wished to handle the case on the alleged culpability of a corporation instead of an individual. In some other cases the indictment may be brought against individuals in order to develop another phase of the apparent conflict in the law which says in one instance that income tax returns shall be open to inspection and in another re-enacts sections of the revised statutes making it an offense to repeat information gained from the returns.

British Schooner Is Left Helpless After Raid Liquor Pirates

New York, Nov. 20.—The liner President Harding reported to officials of the United States line here today that last night she rendered assistance to the British schooner Veronica which had been left in a helpless condition 100 miles off Cape Sable after a raid by liquor pirates.

The President Harding which will reach quarantine late tonight from Hamburg, reported that she found the crew of the schooner without the knowledge of the vessel's position. The life boats had been smashed by the seas, the compass was missing and the chronometer had been broken and only two days' provisions were on board.

The Veronica had been at sea six weeks and asked the liner to request her owner M. K. Warren, Halifax, to send her a tug. Before proceeding the President Harding gave the schooner a compass.

Rumors Say Coolidge to Call Arms Conference

Geneva, Nov. 20.—Rumors being circulated in Geneva on the disarmament question are that President Coolidge is preparing to call an arms conference to meet in Europe perhaps at the Hague. Those circulating the reports insist that the Washington government has already sound the new British government on the subject.

LOS ANGELES WATER SUPPLY AGAIN FLOWS THROUGH AQUEDUCT

Owen Valley Ranchers Close Waste Gates on Promise of Early Settlement of Water Rights Feud

Los Angeles, Nov. 20.—Waters of the Los Angeles aqueduct, diverted into Owens Lake last Sunday by a raiding party of Owen Valley ranchers who seized and opened the Alabama waste gates north of Lone Pine, were turned back into their course by the raiding party early today says a dispatch to the Los Angeles Times.

The raiders' decision to abandon their announced determination to hold the gates open, until state troops arrived or until Los Angeles came to terms, was reached at a conference of leaders held at Keeler during the night. The decision was reached, the dispatch said, as a direct result of a resolution by a Los Angeles clearing house promising to aid in every way in procuring an early settlement of the water rights feud provided the raiders would close the gates.

The gates were opened when the ranchers had decided to bring to an immediate decision the long standing water rights controversy over the diversion of water to Los Angeles for use by that city, the ranchers claiming that the water was needed in the valley for irrigation purposes.

COUNTRY IS BEHIND IN AIR COMMERCE DECLARES PATRICK

Commander of Army Air Service Says America Trailing in the Commercial Application of Aviation

Washington, Nov. 20.—America has established world leadership in air navigation, research and development and holds nearly every important record of the air yet trails far behind in commercial application of this new medium of transportation, Major General M. M. Patrick, Chief of Army Air Service, points out in his annual report, expressing give concern at the unhealthy state of the aeronautical industry.

"If this deplorable situation is to be corrected," General Patrick said, "it must be in the first place through increased appropriations for aeronautic agencies of the war, navy and post office departments coupled with authority for those in charge to allocate orders for their craft without having to resort to competitive bids, and in the second place through enactment of legislation designed to develop the growth of commercial aviation."

General Patrick said the United States lacked any commercial aviation deserving of the name and that the industry was utterly unprepared to meet the demand of quantity production.

HOT SPRINGS, ARK., NEXT CONVENTION CITY OF THE U. D. C.

All of Present Officers With One Exception Re-elected at Today's Session

Savannah, Ga., Nov. 20.—All present officers with one exception were re-elected and Hot Springs, Ark. was selected at the 1925 convention city by the United Daughters of the Confederacy in session here today. Mrs. W. C. N. Merchant, of Chatham, Va., was elected second vice president general without opposition.

Savannah, Ga., Nov. 20.—The election of officers, selection of next year's convention city and consideration of the Educational Committee's report in which the establishment of a Woodrow Wilson Scholarship at the University of Virginia was recommended, were before the convention of the United Daughters of the Confederacy today.

Under the long established custom is the organization all the officers elected at the Washington convention last year for the first term were slated for re-election without opposition. Mrs. Frankie Ross, of San Diego, Cal., second vice president (Continued on page 2)

FIVE PERISH IN FIRE EARLY TODAY

Five Boarding House Inmates Lose Lives in Blaze That Destroyed Seven Buildings

Plymouth, Pa., Nov. 20.—Five persons were killed in a fire here today which destroyed seven frame buildings in the business section. The dead are Mrs. Martin Sherako, her niece Emily Petrovski, 11 years old; and three unidentified boarders of the Sherako home. Another boarder, Edward Alexton, was taken to a hospital in a serious condition.

The fire which was of undetermined origin started in the basement of the boarding house. The flames fed by the wood construction of the building spread rapidly to a grocery store, a tailor shop, a furniture store, a cigar store and a pool room.

The bodies of the dead were found on the first floor of the boarding house where they were evidently attempting to escape when they met their death.

Eighth Annual Red Cross Roll Call Begins Friday

A prosperous, happy community one day was a scene of desolation and ruin the next. This was the fate of Robersonville, when on April 30th, the section was visited by a tornado which came without warning. Three people were killed, 65 injured, 45 homes demolished, 35 badly damaged, and 300 people left homeless. With a substantial contribution from the National Red Cross supplemented by local donations, a relief fund amounting to approximately \$10,000 administered under the supervision of trained Red Cross workers, the needed relief was given each sufferer.

When death and destruction ride abroad on the wings of disaster the Red Cross follows close in its wake. The injured are cared for, the homeless sheltered clothed and fed. This is one of the things you are doing when you help the Red Cross.

You are helping these people, bereft of home, discouraged and in despair, to get back on their feet, and set out again with renewed courage.

The eighth annual Roll Call will begin tomorrow and come to a close on Thanksgiving Day. Mr. Claude Gaskins, chairman, will conduct the canvass of the business section tomorrow while Mrs. H. S. Ragsdale will conduct the canvass of the residential sections on Tuesday of next week.

There have been fifteen disasters this year, affecting twenty-four communities in the south in which by the help of the people, the Red Cross was enabled to administer a relief fund of \$157,717.00 to rehabilitate the thousands of people left homeless.

The eighth Roll Call is receiving the best response of any Roll Call since the war.

INVESTIGATION REVENUE BUREAU GETS UNDER WAY

Chairman Couzens Says Vigorous and Uninterrupted Inquiry Will Be Carried On

Washington, Nov. 20.—The investigation of the Internal Revenue Bureau by a special Senate committee got under way today with indications that it would continue until the closing days of this Congress.

After an executive session and a conference with President Coolidge, by Chairman Couzens, who outlined the plans of the committee, it was announced that a vigorous and uninterrupted inquiry would be conducted into the operations of the bureau.

Jesse Smith will be given hearing on whiskey charge. Jesse Smith white man residing about one mile from Greenville on the north side of the river, will be given a hearing in Monday's session of county court charged with having whiskey for the purpose of sale.

TREADWAY URGES ELIMINATION OF THE INSURGENTS

Massachusetts Representative Declares Insurgents in Congress Should Not Receive Committee Appointments

Washington, Nov. 20.—Republican in Congress who have been privately talking about leaving out of the party members of insurgent groups found an open advocate today when Representative Treadway, of Massachusetts, urged that insurgents be eliminated in the Republican committee assignments in the newly elected Congress.

He called upon the president this morning and after the call said he would advocate the grouping of these men as a part of the minority of the House and give them committee assignments accordingly.

"We have suffered long enough from their committee influence and they should no longer have controlling influence," he said.

Quiet Ceremony To Mark Funeral of Thos. H. Ince

Los Angeles, Nov. 20.—Thomas H. Ince, whose motion picture productions have brought him world wide fame as a creator of scenic spectacles, will be quietly buried in a Hollywood cemetery tomorrow.

Last rites for the producer-director will be held in the chapel of an undertaking establishment here and will be private.

He died at his home here yesterday of heart failure superinduced by an attack of acute indigestion. He was 42 years old.

DR. T. H. PLEMMONS RESIGNS AS PASTOR IMMANUEL CHURCH

After Serving Church Efficiently for 21-2 Years, Dr. Plemons Accepts Call to Brinkley, Ark.

After over two and a half years of faithful service as pastor of Immanuel Baptist Church, Dr. Thomas H. Plemons severed his connection with that church last night, when he tendered his resignation as pastor. The resignation of Dr. Plemons, which is to take effect December 15, came as a distinct surprise to his many friends who were not aware that he was considering another call at this time.

Dr. Plemons goes from Immanuel Baptist to the pastorate of the Baptist Church at Brinkley, Arkansas, where an even wider field of service is to be his. For many years Dr. Plemons has held pastorates in the West and in going back to Arkansas, he is but yielding to the wishes of his friends that he return to that state.

Dr. Plemons accepted the pastorate of Immanuel Baptist Church in March, 1922. At the time he accepted the call he was pastor of the Baptist church at Camden, Arkansas. Dr. Plemons came to the local church when it was just recovering from the shock of Professor Wilson's death. In spite of this handicap, he rallied the church and was instrumental in leading its activities in a wide field of service. Dr. Plemons has been greatly aided in his work by Mrs. Plemons who has taken an active part in the women's work of the church, not only in the Women's Missionary Union and the Fidelia clubs of which she was teacher, but in the B. Y. P. U. work as well.

EDUCATION WEEK BEING OBSERVED IN CITY SCHOOLS

Four Hundred Visitors Have Registered During Week; Two Assembly Programs Have Been Held

American Education Week is being observed this week in the Greenville City Schools. The parents of the town are observing it also, judging by the great number of parents who are visiting the schools daily. So far this week, the schools have had over four hundred visitors, and it is expected that this number will be swelled to eight hundred by the end of the week. The parents are beginning to find out, by these visits to the schools just what is going on in the classrooms, and they are also finding out that the teaching force of the schools are glad indeed to have them come. The schools would have arranged many general assembly programs if each school had an assembly hall. As it is, only the High School has an assembly room. However, the various rooms are putting on special programs, taking up matters which are of vital interest to the schools now and in the future.

Two assembly programs have been held in the High School this week. On Wednesday the students had as their speaker, Mr. W. M. Marr, formerly City Superintendent at High Point, and now Deputy Regional Scout Executive for the states of North Carolina, South Carolina, and Georgia. His message to the student body was timely and listened to attentively by every one. A number of parents who were present, pronounced it the best chapel talk heard by them in a long time. He developed his talk by asking three questions, namely: What Do You Know? What Can You Do? What Are You? The speaker spent most of his time on the last one of the above questions which he says the world is asking of every school and college product.

This morning at the assembly period, County Supt. R. G. Fitzgerald talked, and had the closest attention of the boys and girls while he told them of the lack of opportunity for so many boys and girls in Pitt county; that there are still 22 one-teacher schools in this county; that there are a number of boys and girls who live fifteen or more miles from a standard high school; that because of enforced attendance upon one-teacher school year after year hundreds of Pitt county boys and girls have to remain in the first grade for two, sometimes three or four years; that nearly half the negro school children of the county numbering seven thousand, are still in the first grade.

In the Model School this afternoon, the sixth grade gave a most excellent program, telling very vividly some of the interesting facts in connection with the present school system. This program was thoroughly enjoyed by the large number of parents present.

Tomorrow afternoon at the Evans Street School, at 1:30 the Third Grades will give an interesting program, and then in the same building at 3 o'clock the sixth and seventh grades will be the hosts to their friends, and parents in an interesting exercises.

On Sunday the various pastors and superintendents of Sunday schools are being asked to help carry out the idea of "For God and Country Day." This will close a most successful American Education Week in Greenville.

Mrs. Harding Is In Semi-conscious State

Marion, Ohio, Nov. 20.—Mrs. Warren G. Harding was in a semi-conscious state today according to a bulletin issued by her physician Dr. Carl W. Sawyer. He said, however, that her heart action was fair.

Mrs. Harding received a telegram from President and Mrs. Coolidge saying she was constantly in their thoughts and they anxiously awaited word of her improvement.

RICHMOND DRY RAIDS LAST NIGHT RESULT IN THIRTY ARRESTS

Prohibition Agents Refuse to Discuss Raids Except to Say That They Are Only the Beginning

Richmond, Va., Nov. 20.—29 persons were arrested here early today by federal prohibition agents on charges of violating the dry law and the Harrison Anti-Narcotic Act.

The agents would give out no information regarding the raids, which were conducted in widely separated areas declaring that they had only started to work and had no time to talk. The raids were carried out simultaneously by 15 squads of four policemen each led by a prohibition enforcement agent under the general direction of R. A. Fulwiler, federal prohibition director for Virginia, and Chief of Police Jordan. Each squad had an allotted place and sharply at six o'clock they swooped down and arrested the occupants of various places against whom evidence had previously been gathered by "Lone Wolf" Asher, noted dry sleuth.

Dr. T. H. Plemmons Resigns As Pastor Immanuel Church

(Continued from page 1) was held in Greenville, Dr. Plemmons gave his undivided support to the religious campaign started at that time and his loyalty to the leaders of the movement played no small part in its success.

The esteem in which Dr. Plemmons is held was recently attested by the concern of the whole town manifested during his recent illness when he was confined in the local hospital. Another striking testimony of the regard for Dr. Plemmons came when last night the church refused on first consideration to accept his resignation and only consented to let him go after he had made a personal appeal for his release.

WOMAN SUGGESTS METHOD OF HAIR DRESSERS FOR DRYING WET CROPS

Oxford — The idea recently announced, of drying hay and farm crops by means of hot air, and experiments now progressing through the medium of the Agricultural Engineering Institute, came from the brain of Mrs. Owen, wife of Captain B. J. Owen, director of the institute.

Mrs. Owen suggested the hair dressers' use of hot air for hair drying as a guide to solving the problem of drying wet crops, and her husband immediately developed the idea with satisfactory results.

Night Coughing—How to Stop It

Night coughing which, through loss of valuable sleep, often makes you feel utterly worn-out and useless during the day, and by quickly weakening the system lays you open to the most dangerous infections, can now be promptly checked by a very simple treatment.

The treatment is based on a remarkable prescription known as Dr. King's New Discovery. You simply take a teaspoonful at night before retiring and hold it in your throat for 15 or 20 seconds before swallowing it.

The prescription contains no opiates or harmful drugs. Excellent for children as well as grown-ups. For coughs, chest colds, bronchitis, sore throat, spasmodic croup, hoarseness, laryngitis and bronchial asthma. At all good druggists. Ask for

NEW OILING SYSTEM SHOWN AT THE PARIS MOTOR CAR SALON

Paris.—High speed motors have brought with them the problem of proper oiling, once though solved. Engines that turn at 4,000 and 5,000 revolutions a minute must be well lubricated. At first the oil film is adequate, but the friction of high speed soon heats the oil, thinning it so that the lubrication is insufficient and also allowing the passage of gasoline into the crankcase, causing further deterioration.

To counteract this one car at this year's exhibition in Paris has a radiator to cool the oil and a purifying system, so that oil of the same temperature and quality is fed continuously to the engine.

NATIONAL EDUCATION WEEK

This week has been set aside as National Education Week and throughout the nation public schools are devoting themselves to programs of true Americanism in order that the citizens of tomorrow may be equipped to carry on the great task before them. Realizing that true Americanism is the foundation upon which our government is built and must stand the movement for National Education Week was suggested by the American Legion and the President of the United States has issued a proclamation setting this week aside as such.

Plans for the week include a request that all parents visit their public schools during the week that they may better acquaint themselves with the work that is being carried on there. It is to be hoped that the parents of Greenville will avail themselves of the opportunity to visit the schools especially during this week that the boys and girls may realize that in preparing themselves for future re-

sponsibilities they are receiving the hearty support of the citizens of this city.

CHOOSING OCCUPATIONS

Years ago fond parents devoted winter evenings to deciding the futures of their numerous offsprings. Johnny was to be a teacher. Mary would be a trained nurse. Willie would be tutored in the ministry, and perhaps a fourth progeny would be placed in business or kept on the farm. And in the day time the school instructors of Johnny, Mary, Willie and so on believed they had fulfilled their duty if they prepared them for graduation. Few teachers realized that their life's work on the basis of their individual qualifications and peculiar abilities.

All is different in the educational system of today. Vocational guidance is an established science. The public schools and the institutions of higher learning now strive to fit the curriculum to the student, not the student to the course of study. The student at the same time is directed into a life's work for which he is especially suited.

This does not mean that students are allowed to elect that course of study which they find easiest to assimilate, but that the boy or girl with a scientific mind is steered into the sciences while another boy or girl with a talent for the cultural subjects or perhaps for the dead languages is persuaded into following such course of study.

Many men and women now failures in life might have been preeminent in their professions or trades had an ounce of direction been exerted in their youth to the selection of a career. A boy with an aptitude for mechanics and the engineering branches should not be forced into a legal or literary career because a parent or an instructor is partial to those latter occupations, yet countless have been and many will be in the future.

There is a "destiny which shapes our ends" if it is the power which attracts the individual to that thing in life for which it is most fitted by nature.

WHY COW TESTING PAYS THE FARMER

The Money Maker

Yearly Production 15000 lbs. Milk

for each 100 lbs. of Milk Produced such cows eat

Silage 43 lbs.
 HAY 14.5 lbs.
 GRAIN 32.5 lbs.

The Money Waster

Yearly Production 2500 lbs. Milk

for each 100 lbs. of Milk Produced such cows eat

Silage 223 lbs.
 HAY 68.4 lbs.
 GRAIN 55.8 lbs.

It is estimated that of the 24,000,000 dairy cows in the United States only one in three earns its owner a profit, one "breaks even" and one loses money. Surplus milk, produced at no profit to dairymen, is one cause of low milk prices. The way to cut the surplus is to get rid of the wasters in dairy herds, which are a dead loss any way you figure. The price of milk never was and never will be high enough to make scrub cows pay. Weigh your milk and weigh your feed. If there is a Cow Testing Association in your neighborhood, join it. If there is none, get together with your neighbors and organize one. Find out about your cows. Keep the money makers and turn the wasters over to the butcher.

Their Amazing New Value

The Coach is now priced below all comparison. It is the greatest value in Hudson-Essex history. Not merely because it exclusively provides "Closed Car Comforts at Open Car Cost."

Largest production of 6-cylinder closed cars in the world makes possible these price reductions. Hudson-Essex alone have resources to create this car and this price. Even more important is the outstanding value in the Hudson and Essex chassis, famous for performance distinction and reliability not equalled by many costlier cars. No car at or near the price rivals the Coach in actual proof of value—which is sales.

Everyone knows the Coach represents highest closed car value.

MRS. NANNIE WHITE ENTERTAINS.

Hostess at Reception in Honor of Miss Elizabeth White, Mr. Curtis Perkins and Their Bridal Party.

On Wednesday evening at her attractive home on Greene street, Mrs. Nannie White was hostess at a delightful reception in honor of her daughter, Miss Elizabeth White and Mr. Curtis Perkins, who will be married this evening, having as guests members of the bridal party. A few friends and the out-of-town guests.

The home was decorated with pink chrysanthemums, lights shaded with pink crepe paper shades, and large silver baskets of pink roses, carrying out the pink color scheme. The dining room carried out the pink and white color scheme, while the table was beautiful with its center piece, a large silver basket filled with Kilmer roses, candle sticks, with pink candles, and real lace cover. Suspended from the pink lights was a lovely shower of wedding bells and tulle streamers entwined with smilax and orange blossoms.

Upon arrival the guests were welcomed by the hostess, Miss Elizabeth White and Mr. Curtis Perkins and invited to the punch room where they were served punch by Mr. and Mrs. S. T. White. In the dining room the guests were served an ice course in pink and white, by Mrs. M. I. Fleming, of Rocky Mount, and Mrs. George Matthis, of Clinton, who were seated at either end of the table, while Misses Clara Pugh White, of Clinton; Mary Lou White and Helen White served almonds and pink and white mints.

The cutting of the bride's cake brought forth much merriment. Miss Mildred Barnes, of Wilson, cut the ring while the dime predicted a fortune for Miss Mary Lou White. Miss Mary Annis Perkins received the announcement from the thimble that she was to be the "old maid," and Miss Anna Long found herself the owner of the "old shoe."

The guests made several visits to the gift room to admire the large and beautiful array of bridal presents.

The reception was one of the most delightful of the pre-nuptial events.

END OF THE CENTURY CLUB MEETING

On Wednesday afternoon, Nov.

13 members present in the absence of the President and Secretary, Mrs. E. B. Ficklen presided and Mrs. J. L. Hassell read the minutes of last meeting.

All standing committees reported and committees were appointed to arrange for the banquet to be given on Dec. 9th the 25 anniversary of the organization of the club.

Mrs. W. A. Bowen gave interesting readings from "Afoot in England" by William Henry Hudson, after which Miss Thomas of the Graded School Faculty gave an instrumental solo, and Miss Grantham, a student of East Carolina Teachers College sang with Miss Bertolet accompanying her—this delightful program was very much enjoyed.

The next meeting will be with Mrs. Harry Skinner on Dec. 2.

GROUP FIVE GOES TO ITS WEEKLY APPOINTMENT AT MACEDONIA TONIGHT AT 8

What's the matter? was asked when Group Five visited Macedonia for the first time week before last, when only three members of the group were in attendance at the meeting. That is the question the leader of Group Five would like to know.

Tonight at 7:15 we are going again to Macedonia, and it is the duty of every member of Group Five to be in front of the Woodmen Hall and go to the meeting.

Fellows, let's back Group Five up, and increase the membership instead of decrease it.

Young's New Store On Dickerson Ave., Opened Today

The formal opening of Young's New Store on the corner of Greene street and Dickinson Avenue, which took place today, was largely attended and proved a most enjoyable event.

Upon arrival the large number of

visitors were given a welcome and served refreshments, after which they were shown around the large and beautiful finished store room.

Young's Merchantile Company has been conducting a business on Evans street but due to their increasing business they had outgrown their quarters and in order to show their goods to a better advantage and to have room in which to enlarge they had this large and beautiful store erected.

It not only adds to their convenience but is also an addition to the business enterprises of the city.

A local orchestra furnished music throughout the day which added much to the event. Each guest was remembered with an attractive souvenir. Over two thousand visitors called during the day.

Mr. H. C. Corpening, assistant Supervisor Vocational Rehabilitation State Department Education, was in the city yesterday conferring with Supt. Public Welfare and visited a number of applicants for assistance under this bureau. More than a score of men were conferred with, some of whom had received assistance while others were making application for the benefits of this department. The State Rehabilitation Department, it is pointed out, renders assistance to civilian disabled persons over 16 years of age who can qualify under the laws of eligibility for assistance. From Greenville Mr. Corpening went to Tarboro where a large group of disabled civilian applicants will be met today.

Little Miss Lucy James who has been taking treatment in St. Luke's hospital, Richmond, Va., has returned home greatly improved, although she will have to remain in her room for several days. Lucy has been quite ill and it is with pleasure that her little friends learn of her return home.

We wish to express our appreciation to our many friends for their kindnesses and many expressions of sympathy at the time of the death of our beloved husband and father, Mr. J. Marshal Cox. May God bless each of you.

Substitutes are generally more expensive in the end than genuine articles. Housewives have learned—they KNOW this is true where bakings are concerned.

Self rising flours are classed as substitutes for plain flour and good baking powder. The use of these special mixtures is very liable to result in false economy, failures and waste on bake day.

Remember there is a big difference, in many ways, between biscuits and other bakings made from these so-called self-rising flours and those made from good plain flour and a dependable leavener. Try the experiment—make a baking from each—convince yourself.

You will find the baking made from flour and baking powder far more attractive in appearance. It will raise higher—retain its full food value and taste better. For best results, do not fail to use Calumet, the Economy Baking Powder, and a reliable brand of plain flour.

Just think of it—the sale of Calumet is 2½ times those of any other brand. It contains only such ingredients as have been officially approved by the United States Food Authorities. It is pure and sure.

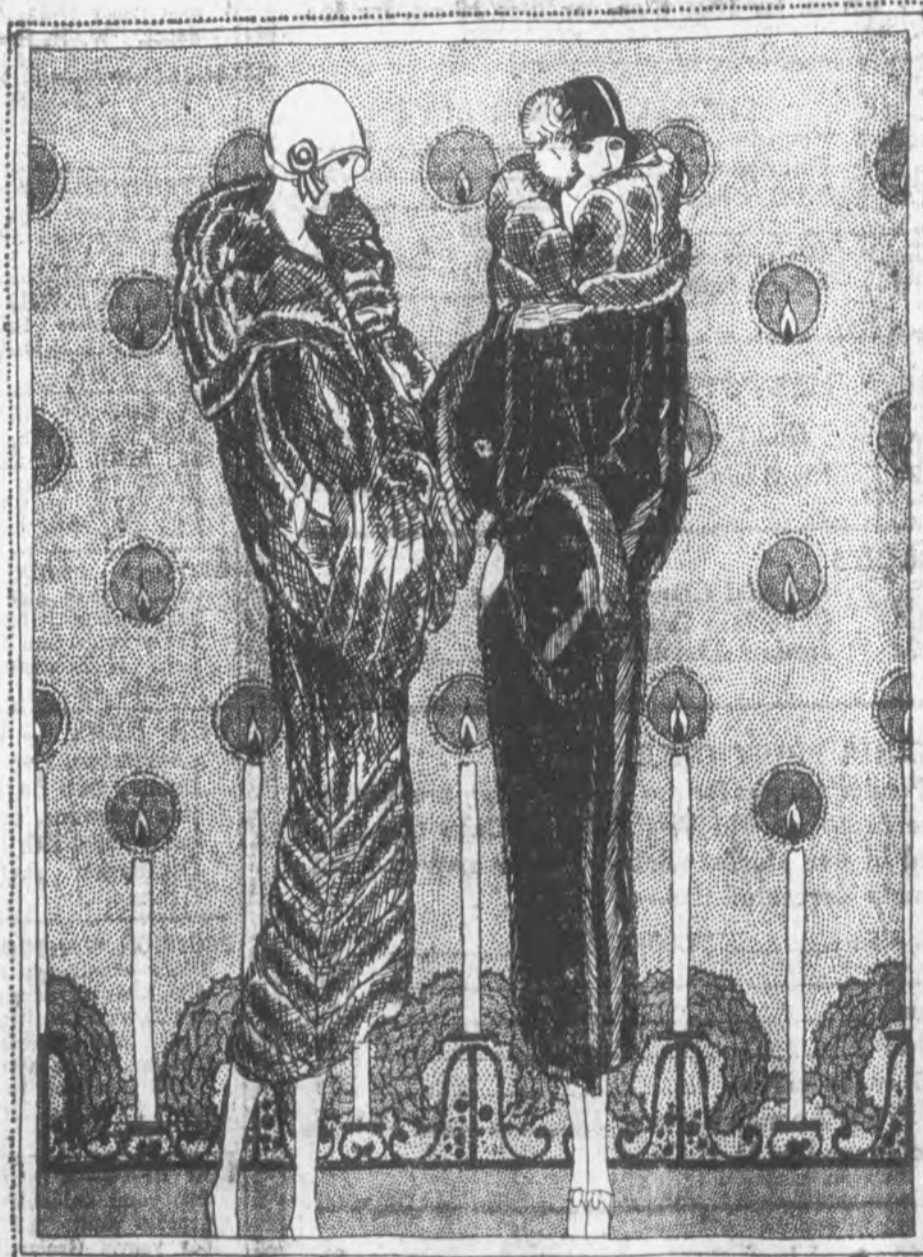

You save when you buy it—you save when you use it.

What to Take for SICK HEADACHE

Take a good dose of Carter's Little Liver Pills—then take 2 or 3 for a few nights after. A few doses restore your organs to their proper functions and the Headache and the causes of it pass away. In the same manner they regulate the Bowels and prevent Constipation.

Two Convict Miners Killed in Explosion

Moundsville, W. Va., Nov. 20.—Two convict miners were killed and several injured seriously today when they were caught by an explosion caused by gas or dust in the West Virginia State penitentiary mine here. Rex Rader, superintendent of the mine, was being lowered into the pit when the explosion occurred. He was hauled to the surface overcome by the gas but was soon revived.

STURDY MOUNTAIN CLIMBER FINDS AGE NO BARRIER

Los Angeles, — Celebrating his sixty-fifth birthday by climbing the Grand Teton in the range forming the west side of Jackson's Hole, near Yellowstone National park, William O. Owen, president of the Wyoming state society of Los Angeles, found on the summit the records he left there 20 years ago when, he says, he was the first climber to scale the peak.
