NEW BERN QUIET TODAY FOLLOWING THREATS OF LYNCHING LAST NIGHT

Troops Still Guard Jail Where John Goddette, Negro, is Held for Killing of 12 Years Old School Girl

New Bern, Nov. 26.—Troops today continued to guard the Craven county jail where John Goddette, negro who fatally injured Edna Williams, 12 years old school girl when his automobile ran over her on a public highway about 11 miles from here late yesterday afternoon, is being held.

The troops were ordered out by Governor Morrison last night at the request of Sheriff J. D. Williams following reports received by him from the section near the girl's home that an attempt might be made to lynch Goddette. Several hundred persons gathered about the jail during the evening but there were no disorders.

Sheriff Williams stated today that he did not anticipate any trouble.

Goddette is said to have been traveling at a rapid speed when his car struck the girl who was on her way from school with several companions. The girl's neck, back and one of her lower limbs were broken. She was rushed to a New Bern hospital where she died shortly afterward.

A warrant for the negro was sworn out by the girl's grandfather. Sheriff Williams said today that information had reached him to the effect that Goddette stopped his car after the accident and offered to bring the child to the hospital. A coroner's jury will meet during today to investigate the killing.

Goddette has been arrested several times on charges of violation of the prohibition laws. He was tried and convicted of aiding and abetting in liquor transportation a year ago and was sentenced to serve 18 months on the roads. He appealed to the State Supreme Court and the conviction was affirmed. The case is now pending before the United States Supreme Court.

Employment Takes Another Boom Last Week, Report Says

Raleigh, Nov. 26.—Employment throughout the state took another boom during the week ended Saturday, November 22 and placements reached 752 of which 622 were men and 130 were women, with the demand for common labor still general throughout the state, according to the weekly report of the Federal-State Employment Service issued here today.

Every branch office reported an increased demand for common labor if not a shortage of that class of workers while Charlotte reported a shortage of bricklayers and Greensboro and Winston-Salem are in need of domestic help.

All vocations are well balanced in Asheville, says the report, and Wilmington has a demand for skilled workers. Greensboro did the unusual and reported an increased demand for clerical workers.

According to the report registrations during the past week numbered 846 of which 683 were men and 163 were women while there 810 persons (656 men and 154 women) referred to the requests for the help of 700 men and 153 women or a total of 853.

Placements were classified as follows: skilled, 108; unskilled, 499; clerical and professional, 31; domestic, 111; and industrial, 3.

City placements were given to be: Asheville 117; Charlotte, 159; Greensboro, 117; Raleigh, 65; Wilmington, 139; and Winston-Salem, 155.

A number of cities, especially Greensboro, reported that "drifters" from other states were still flooding the employment offices but offered very little material worthy of hire.

Miss Ada Wooten, of Omaha, Nebraska, is the guest of Mr. and Mrs. John L. Wooten.

Mrs. Jack Hillery, Mrs. Frank Kohler and son Frank, Jr., are the guests of their sister, Mrs. J. H. Boyd, Jr.

NEW TRIAL IS ORDERED IN DURHAM TOBACCO CASE

Raleigh, Nov. 26.—The tobacco case of Maxham against Liggett and Myers and the American Tobacco Companies and the City and County of Durham was today sent back for a new trial by the Supreme Court Justice Clark on writing the opinion. The error found was that no notice was given the defendants of the increase of approximately 13,000,000 in the valuation of tobacco on hand in Durham.

EGYPTIANS APPEAL LEAGUE OF NATIONS TO SETTLE DISPUTE

Parliament Sends Document to League Setting Forth Egyptian Viewpoint as to Action of British

Geneva, Nov. 26.—A telegram of protest against British action in Egypt following the assassination of the sirdar Sir Lee Stack was received today by the secretary of the League of Nations from the Egyptian Parliament under signature of president of that body.

The text indicates that similar communications have been forwarded to all the world parliaments. The protest is confined to an exposition of the differences with England from the standpoint of the Egyptian parliamentarians.

League of Nations officials seemed in doubt as to what to do with the communication coming as it does from the parliament and not the Egyptian government. Whether to distribute it to the officials and members of the league council which is to meet shortly in Rome has not yet been determined. Officials this morning expressed opinion that the most likely course of the document would be the transmission to all members of the League of Nations for information.

Khartoum, Sudan, Nov. 26.—Units of the Egyptian army have received orders to evacuate the Sudan forthwith. The Fourth Battalion has already left and the Third Battalion with the artillery will leave shortly.

Cairo, Nov. 26.—The entire brigade of British troops again paraded the streets of the European and native quarters with fixed bayonet today but there was no other sign of public demonstration.

So far no news has been received regarding the two blue jackets from H. M. S. Valiant, missing from the vessel at Alexandria for two days.

Testimony of Family Help Solve Furnace Mystery Says King

Columbus, Ohio, Nov. 26.—Aid of Rev. C. V. Sheatsley and his four children in an effort to solve the mysterious death of the pastor's wife whose body practically incinerated was found by him in the furnace of the parsonage of Christ Lutheran church of Bexley, on November 17 is expected today by County Prosecutor John R. King, with the return of the family from Paris Ohio where they have been for the past week. The Reverend Mr. Sheatsley said yesterday that they would return to Columbus by automobile today. The victim of the tragedy, Mrs. Addie Sheatsley, was buried in Paris last Thursday.

While all members of the Sheatsley family voluntarily testified a week ago as to their movements on the day of the tragedy a number of points have come to light since that time that may be cleared up by additional testimony from members of the family, County Prosecutor King said today.

Giant Dirigible Has Returned to Lakehurst

Lakehurst, N. J., Nov. 26.—The German-built dirigible Los Angeles, formerly ZR-3 is in her hangar here today beside her sister ship the Shenandoah after her trip to Washington yesterday where she was christened by Mrs. Calvin Coolidge in the presence of a notable gathering.

Reflector Will Furnish Detailed Football Scores Of Thanksgiving Games

Through arrangement with the Associated Press the Reflector on tomorrow afternoon will furnish detailed reports of the Carolina - Virginia game to be played in Charlottesville, Va., and the Washington and Lee State College game to be played in Raleigh. Following our usual custom there will be no issue of the Reflector tomorrow but all those interested in the football games are invited to be our guests for the afternoon.

WASHINGTON NOW ON OCEAN BOTTOM

After Withstanding a Depth Charge Attack the Superdreadnaught Is Sent to Bottom by Guns of Texas.

Washington, Nov. 26.—The hull of the uncompleted battleship Washington, proud promise of a great fighting craft whose career was checked by the naval armaments agreement rests on the bed of the Atlantic ocean off the Virginia capes today of the battleship Texas.

The objects of the tests of the past week were to determine the resistance of the new structure of the craft to external explosions.

Word of the sinking virtually completing the ship scrapping by the United States under the treaty regulating naval armaments, was received by the Navy Department in a brief official report from Rear Admiral Hughes, president of the navy board which conducted the tests. The report gave no details but it is presumed that a plunging fire on the deck of the Washington from the guns of the Texas sent the ship to the bottom.

Home Talent Minstrel To be Given White's Theatre Friday Eve.

On Friday evening of this week the people of Greenville will have the pleasure of witnessing a big home talent minstrel under the direction of Mr. Charles Joseph Adams and which is being given in White's Theatre for the benefit of local charities. Some of Greenville's very best talent will take part and the minstrel promises to be a "scream" from the rise to the final fall of the curtain.

The cast includes the following, Messrs. Chas. Adams, Dail Laughinghouse, Will Lipscomb, Penn Watson, Manly Sellars, Ned Laughinghouse, Ed Williams, Pat Foley, Tom Foley, Ola Forbes, Joe Norman, Bill Bradshaw, Bill Lee, C. B. Rowlett, Tige Gardner.

Miss Christine Evans will be first while two quartettes, the pianist, composed of tenor, Ned Laughinghouse, second tenor, Penn Watson, Baritone, Ed Williams, Bass, Manly Sellars and the second, composed of Bill Lee, Bill Lipscomb, Pat Foley, and C. B. Rowlett, will furnish delightful "music." Messrs. Charlie Adams, Dail Laughinghouse, C. B. Rowlett and Penn Watson will be the end men.

Everybody enjoys a home talent minstrel and with the above named "comedians" on a program something really interesting is assured.

TAR HEEL RADIO FANS HEAR EUROPE

Liverpool, London, Edinburgh and Berlin Among Points Heard in this State Last Night.

Raleigh, Nov. 26.—London, England was picked up here at 11:30 last night by Robert Upchurch, local business man at his home on the outskirts of the city. Mr. Upchurch used a five tube receiving set. He said the call letters of the English station were TWO-LO. He received distinctly a piano concert. A radio broadcasting concern here also heard London, Berlin and other points across the sea.

Reports from Henderson states that fans in that city picked up Edinburgh, Scotland, Liverpool, England Monday night and received clearly concerts from those points.

John D. Gold, of Wilson, last night heard London and other points in England and received the concerts distinctly.

Baby Clinic Will Be Conducted in City Next Wednesday

A baby clinic will be conducted under the auspices of the Maternity and Infancy department of the Pitt County Board of Health, assisted by the Health Department of the Woman's Club, Mrs. W. H. Woolard, chairman, next Wednesday afternoon from 2 to 5 o'clock in the court house.

Two baby specialists will be present and every child from infancy to the age of 6 years, whether sick or well, is urged to be present.

A canvass of the town will be made between this date and the date of the clinic for the purpose of interting the mothers in the work of the clinic and explaining to them the real value of such a clinic to the future welfare of their children, in whom they are vitally interested. If in the canvass, any home is overlooked, the family is cordially invited to attend the clinic on Wednesday. A tree bent while young will remain bent throughout its life unless straightened, just so with a child whose health is neglected. Many weak children have grown into strong young men and women because they were given the proper medical attention when it was needed. On the other hand many children die because they fail to receive some badly needed treatment.

The Health Department of the Woman's Club is interested in the health of the community and especially the welfare of the children. The clinic is for the public and the mothers, are urged to attend bringing their children with them.

LOCAL COMMANDERY WILL TAKE PART IN GRAND CEREMONIES

Will Confer Degree Work Before Grand Bodies of State At Annual Meeting in Spring

Bethlehem Commandery Knights Templar at its meeting last night accepted an invitation to confer the degree of the Illustrious Order of the Red Cross before the grand bodies of North Carolina at the annual grand Commandery meeting to be held during May, 1925, at Gastonia. The invitation was extended by the Gastonia committee on arrangements through Grand Commander Ricardo S. Gorham, of Rocky Mount.

Since its organization here a few years ago the local commandery has on two occasions taken part in the ceremonies at the meetings of the Grand Commandery having conducted the opening ceremony of the grand body in Winston-Salem in 1922 and conferred the Order of the Temple before the Grand Commandery in Raleigh during the past spring. On each of these occasions the local body has received much praise for the manner in which the work was conducted and it is this record that prompted the invitation to take part in the Gastonia meet.

Last night the body also accepted the invitation of Rev. James E. W. Cook to hold its Christmas services this year in St. Paul's Episcopal Church. The Commandery, following its usual custom of Christmas observance, will gather at the asylum in full uniform and march to the church for the services which will begin at 10:30 Christmas morning.

Another event to be enjoyed in the near future by the local commandery is the annual banquet which is to be held during January. Committees to arrange for the banquet were appointed last night and no doubt the affair will prove an enjoyable one for the Templars and their ladies.

October Fire Losses Amounted \$381,981

Raleigh, Nov. 26.—Fire losses for the month of October in North Carolina amounted to \$381,981 as compared with \$323,953 for October 1923, according to the monthly fire report made public here today by Insurance Commissioner Stacey W. Wade.

Value of property at risk was placed at \$3,493,483, which was covered by insurance to the extent of \$1,903,468. There were 208 fires reported and of these 21 constituted the cause of the greatest loss, \$293,257, says the report, leaving for the other 187 fires a total loss of \$88,728. No fire in the latter group exceeded a loss of more than \$5,000.

Heaviest losses among the 21 leading fires were given as follows: gunnery plant near Wilmington, \$75,000; business building at Wilmington, \$19,000; service station at Wilmington, \$17,000; tannery at Asheville, \$12,500; lumber plant at Newton, \$12,000; store and contents at Burlington \$11,000; dwelling in Richmond county \$15,000; wood-working plant at Siler City, \$14,000; and factory at Albemarle, \$12,500.

According to the Commissioner, October ran true to form, being one of the months in which fires start readily and showed fires of more or less damage in 107 dwellings with a loss of \$56,127 in towns and \$41,645 in rural districts aggregating \$97,772.

Principal causes of fires are given to be: Defective flues and shingle roofs, 61; unknown, 48; gasoline ignition, 10; overhot stoves or furnaces, 7; and oil stoves and short circuits, 6. Chief among classes of property reported damaged are: Dwellings, 107; unstored autos, 12; stores, 11; industrial plants, 8; barns, 8; pressing clubs and service stations six each.

Fire losses by cities are given as follows: 16 fires, loss \$2,495; Winston-Salem, 13 fires loss, \$2,555; Raleigh, 7 fires loss \$2,865; Rocky Mount, 6 fires loss \$63; New Bern, 3 fires loss \$825; Durham, 2 fires, \$1215; Greensboro one fire \$1280; Goldsboro, two fires loss \$255; Elizabeth City, two fires loss \$630; and Gastonia, two fires loss \$3,425.

Rev. V. P. Scoville and Mr. John Clark have returned from New York. Mr. Walter G. Sheppard, of Farmville, was here today.

LARGE CROWDS WILL WITNESS FOOT BALL GAME ON THURSDAY

U. N. C. to Enter Their Twenty-Ninth Battle With Gridiron Rivals, U. of Virginia.

Raleigh, Nov. 26.—Thousands of "down homers" coming from every nook and corner of North Carolina will be on hand tomorrow afternoon at Charlottesville, Virginia, to give cheer and encouragement to their fellow citizens, members of the University of North Carolina football squad, when they go into their 29 battle with their ancient gridiron rivals, the team representing the University of Virginia.

The thousands from North Carolina who will travel by special trains will be augmented by hundreds who will make the journey to the Virginia battlegrounds by motor. Already hundreds of automobiles laden with Carolina supporters have left for Charlottesville. Special trains begin leaving tonight. One train will carry about 700 students from the University of North Carolina, including the cheer leaders and Carolina's mascot, Ramases, a ram. In addition to the boys from the University, there will be students from other Tar Heel colleges at the game who, forgetting state athletic rivalry for the nonce, will be on the firing line rah-rahing for the Carolina warriors.

Although several dopesmiths figured that Virginia had a slight edge on Carolina several weeks ago, the improvement shown by the Tar Heels in recent games has caused some of them to change their opinions and now declare that the teams are about evenly matched. However, Carolina's most ardent supporters express the belief that the game will result in a close contest and predict that Carolina will win by a very small margin.

The Carolina team left yesterday for Lynchburg where they will have a workout this afternoon, going on to Charlottesville tomorrow morning. Members of the team were confident of victory when they left the hill and were given a rousing send-off by the student body.

The football war between the Universities of North Carolina and Virginia dates back to 1892 during which year the two teams played two games. The Virginians defeated UUVill CwchicCaromfcvcmfuypp Carolina early in the season of 1892 by a score of 30 to 0, but in an exhibition game, after the Sor Backs had won the championship of the South from Trinity in a game played at Atlanta, the University of North Carolina won by a score of 26 to 0.

During the thirty two years of football relations between the two universities, they have played 28 games. In 1899 there was not a game between them and in 1917 and 1918 the games were cancelled on account of the world war. Of the 28 games, North Carolina has won only seven and tied two. However, North Carolina has lost but one game to Virginia since 1916, that of 1920, when the Virginians, won by a score of 14 to 0. The game last year resulted in a nothing to nothing tie.

The game tomorrow is scheduled to start at 2:30 p. m.

Two Americans May Die As Result Of Attack By A "Dope"

El Paso, Nov. 26.—L. Rogers, newspaper man of Washington, D. C., was beaten into unconsciousness and his skull fractured with an iron bar while in the cell of a Quarts jail late yesterday. It is doubtful if he will live. Another American, unconscious and unidentified and who was in the cell with Rogers, was badly beaten but will recover. A third American who gave his name as John Doble, is accused of wielding the iron bar while in a rage.

Juarez police say Doble was a narcotic addict.

Rogers came here night before last to attend the inauguration of his friend De Valles as president. Rogers was arrested by officials and held in jail until morning when with a warning from the judge about getting intoxicated he was released. A few hours later he was rearrested by police and replaced in the cell.

RUSSIA HAS FREED HELPLESS ARMENIA FROM FEAR TURK

Erivan Armenia, Nov.—Armenia, which three years ago was starving and destitute, is now on its feet. If the Bolshevik regime, under which the country at present exists, has not given Armenia all the political advantages and freedom its people have sought, it has at least brought peace and security to the desolate little state in the northern reaches of Asia. The Armenian no longer fears the Turkish invaders, who for hundreds of years made him a prey to his racial hatred and religious fanaticism. Where the European armies failed to keep Turkey at bay, the Red army of the Bolsheviks has held it in depression and has given the Armenian people a chance to live their own lives unmolested by warlike neighbors.

From the standpoint of their material welfare and health, the people are better off today than they have been for many years. Officials of the government estimate that within three years the country will be self-supporting, and that within ten years it will be a prosperous community. Steps this year have been good and there is an abundant supply of food. Clothing, however, is scarce and expensive, and a good part of the rural population is still clad in threadbare garments. The tens of thousands of orphan children which successive wars and massacres left in their wakes are especially well off. They are being cared for by workers of the American Near East Relief organization in the huge Russian army barracks on the Alevandropol Plain.

Financially Armenia, like most other Soviet states, is not in a flourishing condition. Its deficits are met by subsidies from the Moscow exchequer. With its limited funds, however, the government is doing notable work in the way of reconstruction, irrigation, hydraulic and electrification projects, the removal of marshy malarial lands, the establishment of agricultural and industrial schools, and the cultivation of cotton, silk, tobacco and vineyards. There is considerable unemployment in the larger towns, but most of this was absorbed during the summer and fall by the need of labor for the harvests.

The Armenian government has established a splendid university at Erivan, employing 75 professors and accommodating 1900 students. An equally fine library has been opened in the capital with 300,000 books, the gifts of the Armenian people themselves. Another unique institution is the Erivan Tropical Institute, which is a model pathological laboratory for the study and treatment of parasitical and epidemiological diseases, which are very prevalent in the caucasus. This is in charge of Professor Popoff, an eminent Russian pathologist.

The government has inaugurated sanitary and hygienic stations throughout the country, where the poor are instructed in conserving their health and given free soap and disinfectants. The government is carrying on an intensive cultivation of cotton which has given remarkable results. In 1922 Armenia had only 1,250 acres of cotton under cultivation. In 1923 it had 12,500, and in 1924 this number increased to 40,000 acres.

The desire for independence and freedom from foreign domination still persists in the Armenian people, and their hope is that in the course of time a way will be found of detaching them from the tutelage of Moscow. So far as can be judged by outward appearances, Communism has taken no deep hold on the people. While all those in power in the government are Armenians of Bolshevik persuasion, who have the approval of Moscow, the total number of registered Communists in the country is extremely small. Out of a population of 1,100,000, only 1,914 are active members of the Communist party.

But it must be said again that the Bolsheviks have given Armenia a new lease on life by protecting the country and people from the inroads of their ancient enemy, the Turks. They have helped the country financially and economically, if not politically. With continued peace and security Armenia should, before many years, retrieve its old place in the family of nations and replace the grievous losses it has suffered through continued massacres and evictions.

Finds Man's Heart By Roadside, Student Explains Mystery

(By HENRY BELK).
Wake Forest, Nov. 25.—On a curb by the side of the capital highway as it skirts the Wake Forest College campus, Janitor Bobbitt of the Wake Forest church the other morning found a man's heart. You know how they look—something like your double fists folded together. Mr. Bobbitt admits that he had something of a spooky feeling when he made the discovery. He says, however, that the feeling would have been more

pronounced had not the heart been incased in a hermetically sealed jar and preserved in alcohol. The building which houses the Wake Forest Medical school is located not far from the spot where the find was made, and it is thought that some student, wishing to play a prank, removed the jar from this building and placed it by the side of the road.

MAN WHO COULD HAVE SAVED HIM GETS THE MONEY OF O'CONNOR

Dublin, Nov. 13.—When Rory O'Connor was condemned to death and

later shot in December 1922, for complicity in the Four Courts coup in Dublin, Free State Minister of Justice O'Higgins, who ordered his execution, had to choose between friendship and duty, it was learned recently.

O'Connor was a close friend of Mr. O'Higgins and had acted as his best man at the latter's wedding only six months before the sentence of death was passed. Mr. O'Higgins, although every effort was made to have him agree to save his friend, refused to grant reprieve.

The agonizing struggle between duty and friendship completely overcame Mr. O'Higgins, but perhaps the most dramatic feature of all was when the dead man's will was opened and it was discovered that he had left all his money to the minister of justice.

ARE WE UNGRATEFUL?

On the eve of Thanksgiving Day it is proper that we should pause to take account of the many blessings which we have received and compare them with our efforts to bring joy and comfort to others in keeping with the teachings of our Lord and Saviour.

Greenville and Pitt County, as for many years past, has this year escaped any serious disasters though surrounding communities have been visited by conflagrations, tornadoes and the like. During such times of distress there is one organization above all others to which everyone looks for aid, the American Red Cross.

During the past few days a campaign for memberships in the Red Cross has been under way in Pitt county, but reports yesterday from the committee in charge of the campaign are anything but encouraging.

The reports showed less than \$150 had been collected in the city of Greenville, only a small percentage of what the town should have subscribed.

Never in the history of Greenville has the city been known to refuse to extend a helping hand to suffering humanity, but unless efforts today bring tremendous results for the campaign committee the town will hold the record of being the first in eastern North Carolina to fail to raise its quota since the world war. Such a condition is one of which we should be ashamed.

As above stated we have been blessed in many ways and now that we have the opportunity to help in a small way to bring blessings to some less fortunate than ourselves are we going to close our ears to the call and permit suffering to exist when it is

in our power to relieve it with but very little if any sacrifice on our part?

Will we allow it to be said that we are ungrateful for the goodness and mercy that has been showered upon us?

We have received in abundance. Let us show our appreciation by giving to the cause of mercy.

THANKSGIVING 1924

The whole world is beginning to emerge from the smoke and wreckage of the Great War, a more hopeful spirit is prevailing all nations, the world is growing better with signs of health and peace and prosperity, and these are grounds for thanksgiving on the part of all peoples.

This general outlook upon the world is one cause why we should join in thanksgiving unto God of nations that in His goodness is leading the great human family to become increasingly conscious of its common life and needs and is rolling it through the shadow of the globe into a better day.

The year has been one of unmeasured prosperity and goodness. The harvests have reaped boundless fields of golden grain and our barns are full. Employment has been general and business has run at full tide. Peace has prevailed throughout all our borders, and no pestilence or great calamity has befallen us. It is of these material conditions and goods that we first think in connection with this day as it was originally observed with these things in view.

But there are deeper grounds for thanksgiving in the social and moral and spiritual life of our people. It need not be said that there are wide shadows of evil and some very black spots in our national life, but these are mostly such as are common to men. Really, America is sound to the core on the essentials of integrity and truth in our civil and moral life. There is no cleaner spot or more decent people on earth, and this is something to be thankful for, however much we have of which to be ashamed.

Under an order from the Interstate Commerce Commission forty-nine railroads are preparing to install automatic train control systems at once. Each road will select on the average about 100 miles of track for the purpose and some 5,000 miles in all will thus be equipped. Many of the systems of automatic train control have been tested and developed beyond the experimental stage. The purpose of the order to install these devices is the first step intended to do away with the human factor in railroad accidents caused by the imperfect reading of signals and their disregard through carelessness.

Germany Again Uses U. S. Cedar for Making Cigar Boxes

Hamburg, Nov. 25.—American cedar for cigar boxes is again being brought to Germany after an interruption of more than ten years. During the war the Germans made cigar boxes chiefly of a paper composition. After the armistice, when the market began to tumble, the trade could not afford American cedar, but with the virtual stabilization of the market the manufacturers have been able to bring the wood from the other side of the Atlantic. The cigar business, and the cigar box factories, at present report a splendid business.

ORDER.
North Carolina, Pitt County, In the Superior Court.
IN RE: Election of a Drainage Commissioner for Pitt County Drainage District Number Two:

Whereas, the term of office of T. R. Hodges as Drainage Commissioner for Pitt County Drainage District Number Two, for which he was elected, expired September 30th, 1924, and that he will continue in said office by operation of law until a successor is elected and qualified. The court will appoint as a commissioner from among those receiving a majority of the votes cast at said election. If any one of such proposed commissioners should not receive a majority of the votes cast, the court will appoint a commissioner from among those voted on at such election in the exercise of its discretion. It is further ordered, that a copy of this order be posted at said court house door and five other conspicuous places within said Drainage District for two weeks, and be published once a week for two week next preceding November 10th, 1924, in some newspaper published in Pitt county. FUNERAL SERVICES CONDUCTED FOR MISS MARY M. PARKER SUNDAY
Mrs. E. L. Perkins has returned from Henderson where she attended the funeral of her niece, Miss Mary Marshal Parker, who died Saturday morning. Miss Mary Marshal Parker 19, was the only daughter of Dr. W. W. Parker, of Henderson. She had been ill for several months returning from Southern Pines about five weeks ago where she had been taking tubercular treatment. She was an attractive and lovable young lady and was very popular with a host of friends.

Dr. Parker is well known in Greenville having visited his sister, Mrs. Perkins a number of times. He has the sympathy of his friends in this city, in the loss of his only daughter.

The deceased is survived by her father, step-mother, and two brothers.

The funeral services were conducted from her late home Sunday afternoon interment taking place in the Henderson cemetery.

MISS NELLIE DENNY HOSTESS ROUND TABLE CLUB

On Tuesday afternoon, November 25, Miss Nellie Denny entertained the ladies of the Round Table in one of the most delightful meetings of the season.

The spirit of Thanksgiving was felt in the hearty hand clasp, the words of welcome, and the beautiful decorations of cut flowers and pot plants.

Mrs. Claude Grant presided, and after hearing reports of different officers including that of the treasurer, who reported that all outstanding obligations had been met, notable among these items being the hospital fund, which the club is always interested in, she then addressed Mrs. E. C. Campbell, of Waterbury, who was guest in the home of Mrs. Austin and asked for a message from her home town. Mrs. Campbell spoke briefly, but stressed the importance of concerted effort in club work. After this Mrs. Herring took charge and announced as the subject for the afternoon, "Adventures" under the general subject Biography. Mrs. Wiley Brown read a most interesting paper on Richard Harding Davis, closing with several letters

from him to his mother and father and wife, and some from them to him. All of which gave us an insight into the character of one of the leading writers of short stories, plays, moving pictures, and dramas from his words of our day.

Mrs. Everett then followed with a lucid and comprehensive study of Jack London. After hearing this we were perfectly prepared to understand the authors style when writing of wild things and places.

Mrs. Jesse Moya then read selections from "The Call of the Wild," completing one of the most attractive programs ever enjoyed by the Round Table.

The hostess assisted by her nieces Misses Priscilla and Elizabeth Austin served a tempting luncheon.

Besides Mrs. Campbell, others adding pleasure to the meeting as Miss Denny's guest were Mrs. S. B. Curran, Mrs. G. E. Powell and Mrs. Lee Sadler.

OUR GLORIA GONE? NOT BY A LONG SHOT SEE "HANHANDLED"

If you are one of the millions who have loaned an ear recently to the mysteriously recurrent rumors of Gloria Swanson's demise, we say, we beseech you, to take a trip down to White's Theatre Thursday, this week and see "Manhandled," Gloria's latest production for Paramount. And if after that you still think Gloria's a dead one, then we say that she never was alive.

But we admit ourselves that it is a different Gloria Swanson you see on the screen at White's Theatre. That is, different as far as picture characterizations are concerned. She's the liveliest person you ever

saw in your life in this Allan Dwan production, an adaptation from Arthur Stringer's Saturday Evening Post story by that name.

MAKES FAT PEOPLE SLIM

New York Physician Perfects Harmless Method of Reducing Weight

The loss of as much as a pound of excess fat a day with no harmful results is the record made by many patients of Dr. R. Newman, a licensed practicing physician of 80 Fifth Avenue, New York, who announces that he has perfected a treatment which has quickly rid fat people of excess weight. What is more remarkable is the Doctor's statement that he has successfully treated thousands of patients for fat reduction without change of diet or unnecessary exercise. It is also said that fat people who suffer from chronic rheumatism, gout, asthma and high blood pressure obtain great relief from the reduction of their superfluous flesh. Realizing that this sounds almost too good to be true, the Doctor has offered to send without charge to anyone who will write him, a free trial treatment to prove his claims, as well as his "Pay-when-reduced" plan. If you want to rid yourself of superfluous fat, write him today, addressing Dr. R. Newman, 286 Fifth Avenue, New York City, Dept. R 32.

Why Are Drugs Standardized?
They are standardized in order to bring about uniform therapeutic efficiency to the patient whenever required. This efficiency is most needed in the sick room—not merely in the laboratory.
What is true of drugs must be true of foods. Purity and efficiency in the can is only part of the problem—purity and efficiency in the kitchen is the true test.
The law requires that baking power contain 12% leavening gas at the time of sale to the consumer. This measure insures uniform leavening efficiency and protects the health of the public.
In order to comply with this fixed standard for baking powder, manufacturers must produce and pack their product so as to avoid the deterioration which may result from absorption of atmospheric moisture.
Baking Powder manufacturers to avoid violation of the law, also spend thousands of dollars yearly in testing grocers' stocks and removing "spent" goods from his shelves, in spite of the fact that every possible precaution had previously been taken against deterioration.
With the exception of Texas, the pure food laws are not applied to baking powder mixed with flour at the mill and sold in bags as "Self Rising Flour." There is no penalty on the manufacturers if this fails to "self rise"—the consumer is the "goat"—he is the one that pays the penalty through indigestion and ill health that comes from eating bakings that are not properly raised. The standardization of baking powder is a protection to both the consumer and the manufacturer—who welcomes such laws and co-operates in every way possible. But!
Not so with the self rising flour manufacturer—he resents such laws and fights such legislation. Why? Because a standardization of self rising flour would require moisture-proof containers instead of cheap sacks—because low grade "clears" could no longer be sold as "fancy patent flour." It would also mean he must maintain expert chemical control such as is now maintained by baking powder manufacturers.
Calumet Baking Powder contains only such ingredients as have been officially approved by the U.S. Food Authorities.

Liverpool was due 20 to 24 down by New Orleans and 21 to 23 lower by New York compared with last year stock on shipboard at Galveston yesterday was 107,900 vs. 78,000; at New Orleans 28,000 against 33,000.

Weekly weather and crop government report mixed owing rains and cold weather south Atlantic and southwest. Good weather prevailed in central belt past week.

Cables, weather conditions, trade advices and tenor of weekly weather and crop government report has to be reckoned with, perhaps additional December notices if issued.

Holiday American markets tomorrow, Thanksgiving day. Southern spots yesterday were 15 to 40 down except unchanged at Augusta. Texas market 15 to 40 lower sales all told 28,720 vs. 26,760 Monday.

Sentiment remains divided but apparently more bearish than otherwise for the present.

THE WEATHER

Temperatures quite cooler over belt No rainfall reported anywhere.

Forecast: Entire belt generally fair except east Texas, partly cloudy slightly warmer western belt.

Weekly: Past week light to moderate rains scattered eastern belt, also coldest weather of season north belt as whole. Winter rainfall exceedingly short for central and western belts. Winter plowing farther advanced than usual account more rapid picking of cotton. Better winter season in ground is desired for entire belt.

GRAIN

Lower for what wheat and corn are expected unless there is a decided improvement in the buying. There traders say they looked for prices to go a few cents lower before the end of the December liquidation. When that is over they say the markets should do better.

Scattered reports from In. said farmers were buying corn for feed and in some localities they are buying corn futures in Chicago as a hedge against future requirements.

We expect foreign buying to be renewed on any further dip in wheat. Coarse grain needs better buying power.

German Ends Long Exile As Citizen of Franke, Reported

Strasbourg.—Ten years to a day since his departure from this city to join the German army, Charles Wolff, first posted as missing and later as dead, has returned to his home town.

In October, 1914, Wolff was called up for service in the German army. Made prisoner by the Russians a few days after he arrived at the front, he was sent as an agricultural laborer to the Don district, where he remained until peace was signed at Brest-Litovsk. He married a young Russian woman and purchased a farm in Siberia, 500 miles from the nearest railway station. He claims that the Bolsheviks robbed him of all his livestock, but he rode away on his last remaining horse and after travelling for several months he reached Berlin, whence he was sent to Strasbourg.

Ten years exile in Russia and Siberia has had the effect of changing Wolff's nationality, and the German soldier who left in 1914 has now become a French citizen. He will resume farming on the property of his father at Marmoutier, on the lower Rhine, and has sent for his Russian wife.

BOOK ON RELIGION PROVES GERMANY'S BEST SELLER

Freiburg.—Racy topics do not always furnish the year's best sellers in German literature. Last year's selling record was held by Bishop Keppel's religious book, "Mehr Freude" (More Joy), which scored 175,000 copies on the first edition. The demand was so large that translations were made into Bohemian, Danish, Norwegian, English, Flemish, French, Italian, Dutch, Portuguese, Swedish, Spanish and Hungarian.

AMERICANS READY DEVELOP WATERPOWER IN BULGARIA

Sofia, Bulgaria.—A New York engineering concern has made two important local development proposals to the Bulgarian government. One is to provide Sofia with a plentiful and constant supply of water, and other to apply American irrigation methods to the fertile but dry plains of Tator-Puzdjik.

The plans submitted have met with approval, but there is some question as to the financial guarantees.

Those Long Winter Evenings

keep your home warm and cosy with a

COLE'S ORIGINAL

HOT BLAST HEATER

THE health of your family depends upon properly heated rooms—warm floors. The maximum radiation, low base heat, air tight construction, and Hot Blast Combustion insure even temperature in all parts of the room at all times.

And besides, Cole's Original Hot Blast Heater is guaranteed to consume one-third less fuel than any underdraft stove on the market—guaranteed to hold fire for thirty six hours.

Let us show you yours today.

Let's all be thankful for the many blessings which we have received this year.

While being thankful—you can cause others to feel blessed. The greatest blessings you can give your family is a warm home. A Cole's Hot Blast Heater will supply this need.

Cole's Hot Blast Heaters makes a warm, happy home.
