

STONE NOMINATION AGAIN REFERRED TO SEN. JUDICIARY COM.

Decision to Remove Case From Senate Floor Reached in Order to Give Stone and Department Hearing

Washington, Jan. 26.—Administration leaders today decided to remove the controversy over the confirmation of Attorney General Stone as Justice of the Supreme Court from the floor of the Senate to the Judiciary Committee.

As a result of conference over the week end definite decision was made today by the Judiciary Committee which once reported it favorably will receive the nomination back so that Mr. Stone and other department officials may present their side of the dispute centering about the move to secure the second indictment against Senator Wheeler, Democrat, Montana.

At the present stage the Wheeler case present, the chief obstacle to the Stone confirmation which the leaders had hoped to bring to a vote today.

The whole situation including plans of the Department of Justice in connection with the case and the outlook presented by the Democratic and Republican insurgent effort to hold up the Stone nomination was talked over during the week end by Mr. Stone and Assistant Attorney General Donovan who plans to present the Wheeler case to the grand jury next week. President Coolidge also entered the discussion this morning when he took the matter up with Senator Curtis and Watson.

Washington, Jan. 26.—The Senate found the fight against immediate confirmation of Attorney General Stone only one of several issues before it today which had caused a tangle in the legislative program.

At the opening of the morning session the Isl. of Pine, treaty came up as unfinished business but at the same time the postal bill was on the special order calendar for immediate consideration this morning.

On top of this several Senators leading the opposition to immediate confirmation of Attorney General Stone as a Supreme Court Justice, announced they would carry their fight to a finish on the floor of the Senate today.

Meanwhile administration Senators had nothing to say and it was indicated that perhaps an agreement would be reached outside the hall of the Senate between the opposing forces so that the nomination would go through.

President Coolidge, in the meantime was conferring with Mr. Stone but had little to say.

Oystermen Noisily Invite Predatory Ducks Begone

Olympia, Wash.—Confronted with the devastation of their oyster beds by the predatory activities of coots and bluebill ducks, and being prevented by law from routing the invaders by the ordinary shotgun process, members of the Olympia Oyster Growers' Association have determined on a novel campaign of bloodless "frightfulness" to protect their bivalves, according to E. N. Steele, secretary of the organization.

With the reported approval of state fish and game officials, a speedy launch has been equipped with a gun which discharges a blue carbide flame into the air at regular intervals. The boat carries also a mortar which discharges smoke and noise bombs, hurling the projectiles into the air a distance of 150 yards. This permits reaching out over the exposed beds when the tide is too low to approach the feeding birds.

This craft will cruise about the beds, belching its flames and hurling its deathless projectiles in hopes that the thousands of predatory birds, which feed upon the oysters may be routed without depleting the game supply, or running counter to the federal game law provisions.

As a monument to Thomas A. Edison, noted inventor, while he is still alive, a mammoth office building for the electrical trades is to be erected in New York City. Naval Secretary Curtis D. Wilbur narrowly escaped death when his automobile, driven by his chauffeur, collided with another car at a street intersection in Washington. M. Clementel, French Finance Minister, has been told by Washington that the American Government did not consider his proposition to cut France's debt to America offered any basis for negotiation. Deciding upon publicity as the best weapon to combat the senders of Black Hand letters received by Benjamin Gigli, tenor of the Metropolitan Opera Company, his secretary gave copies of them to the press.

EDWARDS HEIRS FILE SUIT FOR RECOVERY NEW YORK PROPERTY

Bill in Equity Asks for Turn Over of Trinity Church Holdings With Rents Since 1866

New York, Jan. 26.—Suit to compel Trinity Church to turn over the bulk of its property in lower Manhattan to the heirs of Robert Edwards was begun in Federal court today by the filing of a bill in equity by Arthur J. Edwards, of Guilford county, North Carolina, and Wesley J. Edwards, of Los Angeles, California.

The real estate involved in the suit includes the church property, the old cemetery at Wall Street and Broadway, and land extending from this plot westward to the Hudson River.

Counsel for the heirs estimate the property to be worth considerably more than \$10,000,000. Trinity which is said to be the wealthiest church in the United States, would be barred by the heirs from all claims to the property. The bill asks that receiver be appointed and the church compelled to account for all rents and profits derived from the lands since May 1, 1866.

Inspection National Guard Units Called By War Department

Raleigh, Jan. 26.—The annual inspection of the National Guard Units in North Carolina, has been called for by the War Department through the Fourth Corps Area, with headquarters at Atlanta, Ga., according to an announcement made here today by General J. Van B. Metts.

The inspection, states General Metts, will be conducted by a detail of Regular Army officers and is to be completed by April 30. The itinerary for this inspection has been forwarded to the Corps Area at Atlanta for approval, and according to this itinerary the inspection will begin February 16 and will close April 12.

The State Inspector General Marston of Durham, will accompany the Federal officers on the inspection tour.

Bethel Ladies Injured in Auto Accident Saturday

Mrs. Wadie Carson and Miss Effie Martin, of Bethel, suffered painful injuries on Saturday, when their automobile, collided with another car near House Station. The contact was so great that the automobile containing the two ladies and a young man from Rocky Mount, turned over three times. Mrs. Carson was badly bruised while Miss Martin suffered more serious injury. They were carried back to Bethel after the accident and reports received today state that they are getting along nicely.

Mrs. Carson, Miss Martin and the young man, were coming to Greenville, when the accident occurred. Just how it happened it is impossible to relate, but the two automobiles collided with the result that the cars were badly damaged.

Course Home Making Subjects Be Given Summer School State College

Raleigh, Jan. 26.—A short course in homemaking subjects will be given at State College during the Summer School this year, says Mrs. Jane S. McKinnon, in an article that will appear in next week's issue of the Extension Farm News.

In commenting on the course Mrs. McKinnon says: "Planning the family meals, costume planning, which includes dress-making millinery and household furnishings, will be the subjects taught on the home economics side, and poultry and the home dairy will be the agricultural subjects.

"I hope at least ten women from each county will come, and that we will have large enough group to tax our capacity.

"A woman can arrive at the college on Monday, register and be ready for work on Tuesday. She may return Saturday afternoon, and I believe with proper planning many women can arrange for this course.

"No woman can select more than two subjects, as we wish to have time for conferences and recreation.

"A statement in detail regarding expenses and the exact date will be announced later, but I can say now that the expenses will be very moderate."

TAX INCREASES TO BE LEFT TO LAWMAKERS SAID DOUGHTON

Chairman Declines to State What Recommendations Assessment Board Will Make to Assembly

Raleigh, Jan. 26.—Definite decision on the increase in franchise and income schedules for the revenue bill will have to be made by the legislature it was indicated by a statement issued this afternoon by R. A. Doughton, chairman of the State board of Assessment.

Just when the revenue bill will be introduced in the General Assembly is problematical but Mr. Doughton said the board expected to turn it over to the legislators within the next two days.

Chairman Doughton declined to make any comment on the reports as to the contents of the proposed bill. He stated definitely, however, that there would be no suggestion as to ad valorem tax on real and personal property for state purposes. He predicted substantial increases in income taxes but said the Board of Assessment would not make these increases but would leave it to the legislature.

Asked about the report that the bill contained recommendations for a tax on cigarettes and other forms of tobacco he gave no intimation as to the correctness or incorrectness of these reports. He did say, however, in his formal statement that there would be proposed levies on subjects not heretofore taxed. However he made it plain he did not know where the proposed new levies would fall.

Favors Preliminary Surveys of Proposed National Park Sites

Washington, Jan. 26.—Secretary Work in a letter to the House Public Lands Committee today recommended favorable action on bills to provide \$10,000 and \$5,000 respectively for preliminary surveys looking toward establishment of national parks in the Blue Ridge, in Virginia and the Great Smoky area of North Carolina and Tennessee.

Ku Klux Klan to Hold Klonsel in Asheville in May

Asheville, Jan. 26.—The first annual Klonsel, of the members of Province Number Three, Realm of North Carolina, Invisible Empire Knights of the Ku Klux Klan, will be held in this city during the latter part of May, according to an announcement made here by an official of Asheville Klan No. 40. It is expected that the meeting will be attended by about 8,000 members, officials state.

In addition to the members attending it is stated that at least 10,000 visitors are expected to be present to witness the exercises. It is said that several hundred new members will be initiated.

A lecturer of national reputation, it is said, will make an address which will be followed by a barbecue, and a parade through the street of the city if the local authorities will permit. The exercises will last one day and night.

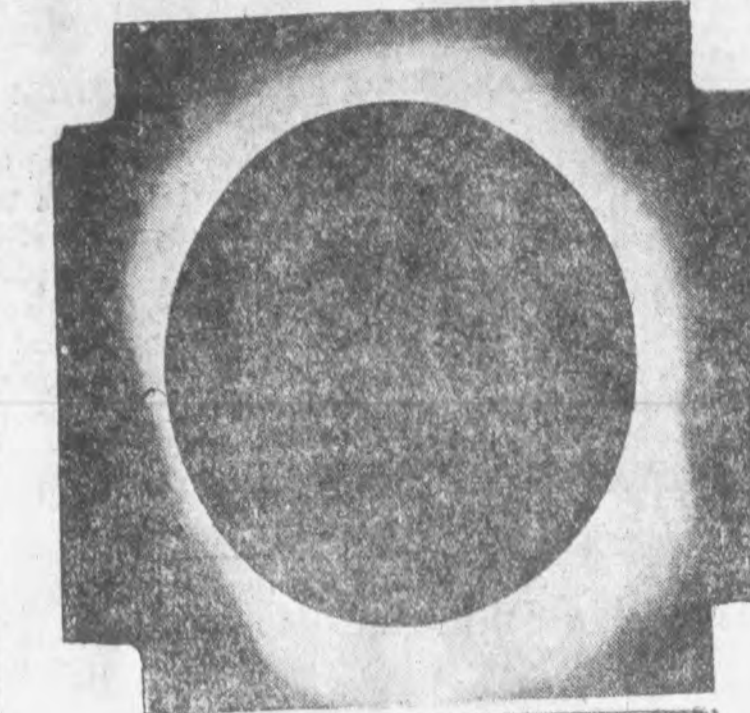

Fight vs. Pool Rooms Now Being Waged In Asheville

Asheville, Jan. 26.—The fight on the operation of pool rooms in this city is now on in earnest. The city scored its first victory Friday when Judge Cameron McKrae adjudged P. W. Davies and W. H. Dawson guilty of violating the anti-pool ordinance and fined each of them fifty dollars.

The defendants gave notice of appeal and their bonds were fixed at \$200 each. The case is scheduled to go before the Buncombe county grand jury Monday morning, January 26. Chief Messer has ordered the police department to keep close watch on the pool rooms.

Prof. G. C. Buck, of Grangers, spent Saturday in this city with Mr. and Mrs. E. F. Tucker.

Petition for Increased Street Car Fares Be Given Hearing Tues.

Raleigh, Jan. 26.—Hearing of the Tidewater Power Company's petition for increased street car fares in Wilmington and vicinity will take place before the corporation commission Tuesday, according to an announcement that has been made here by the Corporation Commission.

The power company is asking for an increase within the city limits of three cents on each fare, the present fare being seven cents. Under the ten cent rate the company proposes to sell four tickets for thirty cents, or a weekly pass for \$1.25. The company also asks that it be allowed the privilege of withdrawing the above rate, and substituting therefor a straight rate of 8 cents for each fare, and four tickets for thirty cents.

On the suburban line the company asks for an increase from fifteen and twenty-five cents to twenty and 30 cents, to Seagate, and from twenty-five and forty-five cents to thirty and fifty cents to the beach.

Raleigh, Jan. 26.—97 applicants for license to practice law in North Carolina took the bar examination before the Supreme Court today.

WASHINGTON MAN IS INJURED IN ACCIDENT

Washington, Jan. 25.—James Ellison, of the wholesale firm of James Ellison and Company, while riding a bicycle down Second street was knocked down by a runaway horse with the result that his right thumb was nearly severed from his hand and other bruises inflicted on his body. The horse became frightened at an automobile and before the colored driver could gain control of him he dashed down the street striking Mr. Ellison and knocking him from his wheel. Although his injuries are not serious he is suffering much pain in consequence. His escape from serious injury was miraculous.

REAL WORK GENERAL ASSEMBLY WILL GET STARTED THIS WEEK

Roads and Revenues Together With Governor's Address Will Feature the Week's Program

Raleigh, Jan. 26.—A crowded slate will face the General Assembly when it reconvenes at eight o'clock tonight and indications are that it will be the most interesting program the assembly has had any week since it began its session, January 7.

The high spots on the program are the report of the Budget Commission and Board of Assessments and the Governor's second message to the making bodies.

The time for the Budget and Assessment bodies to submit their report on which the principal financial measures will be based, expires on Saturday and it is understood they will file their findings and recommendations before that time, probably Wednesday or Thursday.

Governor McLean has announced that he will deliver his second message as soon thereafter as possible and that in it he will outline more definitely than in his first message, his financial views recommending the amount favored for new road bonds at this time. This sum it has been reliably learned, will be considerably less than the \$35,000,000 proposed in the Bowie-Heath bill introduced in both branches last week.

Besides these three major events the legislative program will include a number of other developments of real importance among them being several committee meetings to consider legislation of state-wide interest which has been presented. Chief among the committee meetings will be that of the House Road Committee to consider the Bowie-Heath bill Thursday while the Insurance Committee of both branches will meet the same day to conduct a hearing on the MacKeithan infantile insurance bill which would bar the insuring of children under a certain age.

Whale, Trapped in Nets, Wrecks Them To Gain Freedom

Cordova, Alaska.—A whale, chasing a school of herring into a lagoon during high tide at Kachemak Bay, S. Idovia, found himself trapped and, before he followed a gasoline boat three weeks later out of the lagoon toward the north Pacific ocean, damaged more than \$5,000 worth of fishing nets after being wounded by hundreds of bullets, Fish Commission or William P. Studdert recounted on his return here.

The lagoon, noted as one of the finest herring banks on Cook Inlet, being crowded with fishermen during the season, is four miles long and two miles wide. It connects to Kachemak Bay by a narrow, shallow channel.

Twelve nets were destroyed this first day the whale made his appearance. Fishermen, aid by Commissioner Studdert, trained every shotgun in camp on the whale as he sped from one end of the lagoon to the other without finding an exit. Hundreds of nets were ruined before he followed a small boat through the channel.

ATTEMPT ON LIFE OF FORMER KING AROUSES INDIGNATION OF GREEKS

Bucharest.—Copies of Greek newspapers received here show that public opinion in Greece is very much in favor of ex-King George and that the recent attempt to assassinate him has caused indignation among the Greek people.

Details of the attempt upon the life of the former king disclose that he was surprised in the forest near Sinnia by a band of Greeks who fired several shots at him, none of which, however, hit their mark.

The police allege that the would-be assassins, all of whom now are in jail, were in close contact with an organization in Athens, which aims to remove the ex-king from the list of pretenders to a re-created Greek throne.

FIRE DESTRUCTION AFFECTS EVERYONE

When a serious fire occurs, particularly if it involves a business structure, its ramifications are almost endless. Suppose, for example, an enterprise constituting the major support of a whole town is wiped out by the flames and because of various reasons the plant is not rebuilt. Employees' wages are at once cut off and it becomes impossible for them to find other work in that town. They must fall back on their savings accounts and money begins to flow out of the banks and from the treasuries of the building and loan societies. Cheaper living quarters must then be sought and the storekeepers begin to notice that their sales are falling off. The amusement business drops to almost nothing and church contributions decline. Soon there begins a general exodus to other cities where jobs are to be had. Families are up-

rooted, children taken out of school and in a few months the place is only a shadow of its former prosperous self. Every factory fire has a similar effect in a lesser degree. Of course, insurance against fire and business interruption can prevent such disastrous consequences and is doing it every day, but insurance does not restore; it simply replaces destroyed buildings and commodities; property that has gone up in smoke is forever lost to society.

TAX-EXEMPT BOND COMMUNITIES DEAD

A dollar spent in building up a local industry—a factory, a specialized crop, a big utility—pays more than a dollar invested in a tax-dodging public security. The industrial investment pays its interest, it builds up local payrolls and general prosperity, and it makes your dollar express your community confidence and pride. Too many communities register only as "It" because the people do not build personality and faith into their own outstanding industries.

Construction in 36 eastern states during first 11 months of 1924 totaled \$4,154,753, 100, four per cent over total for 1923, the record year to the present.

Better transportation, better farm financing, and political and business stability, and the stabilizing of European business through the Dawes-Young plan of settling reparations, are main reasons for expecting 1925 to be a banner year in American history.

Department of Labor reports increasing employment in most western and many east-states, and generally satisfactory business everywhere.

LEW RIESS PICKED BY GREECE TO TRAIN LOCAL ATHLETES

Salonica, Greece. — Greece, the birth-place of athletics and the cradle of the Olympic games, has turned to the United States for guidance in the training and conditioning of her athletes by engaging Lew Riess of Philadelphia as national physical director.

Riess will divide his time between Salonica and Athens. The Greek Athletic Federation in announcing his engagement, said: "Mr. Riess will invite our athletes to regular meetings in the stadium, giving them all the necessary instructions and supervising their training with characteristic American zeal and the noble desire to help in the development of sports."

Riess has been a physical director and athletic coach since 1908, first at Hampden-Sidney College, Va., later at Randolph-Macon College in the same state, and then with the University of Virginia up to 1917. From 1919 to 1922 he was physical director of the American Army of the Rhin, stationed at Coblenz.

GERMAN EMIGRANTS RATES DISTURB ENGLISH SHIPPERS

London.—German shipping firms have re-established the German mercantile marine with such great success, that they are now reported to be threatening a rate war in the emigrant traffic of South America, according to London shipping circles.

The severe restrictions on immigration in the United States have diverted this traffic, particularly so far as eastern and southern Europeans are concerned, to Brazil, Argentina

and Uruguay. Emigration to these countries amounted in normal times to about 400,000 persons yearly, but double this number is foreseen, and it is said that the German line, are trying to corner the whole of the traffic for themselves by reducing the passenger rates.

PROTEST ARMY DRILLS IN JAPANESE SCHOOLS

Tokio.—The proposed institution of military training in the middle and higher technical schools has aroused violent opposition among students, many intellectual societies and in the bulk of the native press. Student bodies have sent deputations to the war department to register their objection to the plan, and a number of educators have made public addresses or contributed articles to the newspaper, against it.

The supporters of the plan maintain that it has not essential military objective, but is intended as a substitute for sports, and to invigorate the youthful mind as well as body. "We have studied how the American authorities are, through military discipline, trying to keep the spirit of the nation vigorous, steady and energetic," said General Baron Tanaka, former minister of war, "and we have found their system so clever that we intend to copy it. To impute any intention to us of making preparations for war is absurd."

Don't wait too long before making sure of your insurance. Fire gives no warning — often comes like a thief in the night. Are you fully protected?

Greenville, N. C. Jan. 24, 1925

Mr. H. A. White, City.

Dear Sir: Ten days ago the garage building occupied by the Carter-Cobb Co., was destroyed by fire. Today your companies satisfactorily adjusted our insurance loss.

Many thanks for the prompt and satisfactory manner in which you handled our interests.

Yours truly,

New Way to Quickly Stop Worst Cough

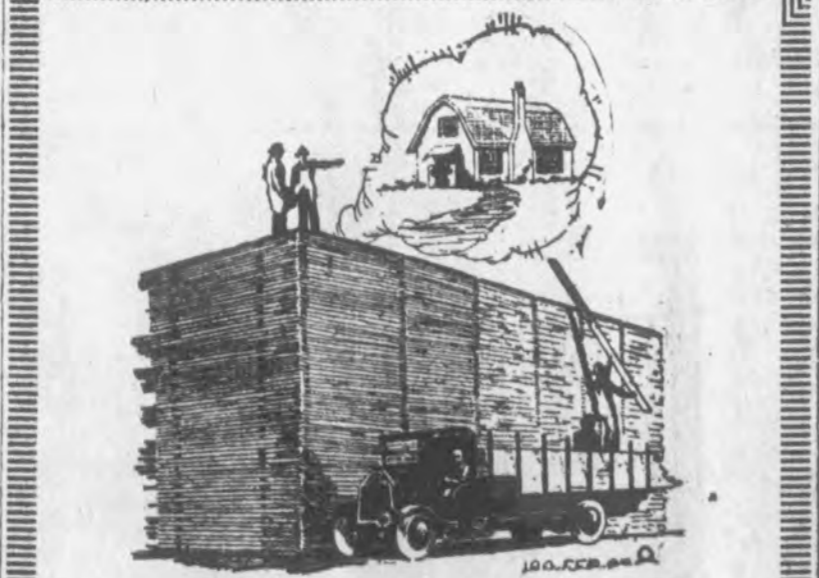

A remarkable new and simple method for treating a cough gives relief with the first doses and usually breaks a severe cough in 24 hours.

The treatment is based on the prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing, without following with water. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. People have been astonished how quickly the coughing stopped with this new treatment, and the whole cough condition goes in a very short time.

The prescription is for coughs, chest colds, hoarseness, bronchitis, spasmodic croup, etc. It is excellent for children as well as grownups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

PALESTINE FUND EXTENDS FINANCIAL AID TO FARMERS

Jerusalem.—More than \$250,000 was advanced during the month of October by the Zionist Organization to settlers in the 40 odd co-operative and individual holders' units, founded by the Palestine Foundation Fund, states a report just issued by the treasurer of the Palestine Zionist Executive.

It is explained that this large outlay for the Zionist settlements occurs at the beginning of the agricultural season every year. The money was advanced for the purchase of draft animals, cattle, machinery, seed and poultry.
