

1925 SESSION GENERAL ASSEMBLY PASSED INTO HISTORY TUESDAY NIGHT

Many Changes in Politics of State; Many Important Measures Now on Statute Books, While Ground Work is Laid for a "Balanced Budget"

Raleigh, March 11.—The 1925 session of the General Assembly passed into history last night at 11:30 o'clock, official time, but 11:22 Eastern Standard Time. Both gavels fell simultaneously as presiding, declaring adjournment sine die. The clocks were pushed forward eight minutes so that adjournment could be taken at 11:30.

Marked by many changes in the policies of the State, but by tranquility of the most part in this session opening January 7 during the administration of former Governor Morrison, then the new Governor was inaugurated and then the legislators looked to him for declaration of policies which was made in such messages.

Many important measures are now on the statute books as a result of the session just ended.

The accrual basis of dealing with the State's Revenue has been discarded, and ground work has been laid for an executive "balanced budget." There has been a Wage Commission authorized to equalize the salaries paid by the State, and to weed out the inefficient and unnecessary employees. The Revenue and Appropriation bills were made to balance as nearly as possible.

Incidentally legislation was passed affecting other state policies, institutional and administrative.

The Governor has been authorized to appoint a Commission of Pardon to take from his shoulders the necessity for giving his whole time to consideration of pleas for clemency, should he hear all who applied.

Relates Incidents That Led to Investigation of Tea Pot Dome Scandal

Cheyenne, Wyoming, March 11.—How the scramble of all independent oil operators for a lease on the big Tea Pot Dome Oil Reserve led to a Senate investigation of a report early in April, 1922, that the Naval Oil Reserve had been leased to the Mammoth Oil Company, was related on the witness stand in the government suit today by Senator John B. Kendrick, of Wyoming.

Senator Kendrick told of the events leading up to the time he introduced a resolution in the Senate calling on the Interior Department for information on reports that negotiations were being carried on with private interests for the reserve developments. The testimony of Senator Kendrick and a deposition by William A. Anderson, his secretary, were introduced by the government in an effort to show that Albert B. Fall, then Secretary of the Interior, continued to receive independent oil operators proposals, under which they would lease Tea Pot Dome, or parts of it, although Harry F. Sinclair already had been given a lease.

DUCHESS OF YORK IDEA CREATES WORK FOR NUMEROUS ARTISTS

London.—Hand painted slippers for evening wear, which are the vogue just now, have created work for numerous artists who had never thought of doing anything of the kind before but who have found that this kind of painting pays them better than turning out pictures.

The novelty was introduced in London by the popular Duchess of York who is one of the smartest of the smartly attired young women. The idea spread like wild fire, and was quickly taken up by other society women.

The foundation of these shoes is satin, mostly in delicate shades, although there have been some exquisite models in old gold, bronze and black. On the toe caps, and special car Wednesday night, March tapering off along each side, neat 25. During the convention they designs are painted in delicate shades to match the color of the satin.

SEALING STEAMER CRUSHED IN ICE IS SINKING SAYS RADIO

St. Johns, New Foundland, March 11.—The sealing steamer, Stella Mers, one of the fleet which sailed from this port Saturday for the annual seal hunt, sent a radio message at day light today, that she had been crushed in ice and was sinking. The crew of 80 men had been taken over by a sister ship, the Prospero, the message said.

LANIER TO SUCCEED JUDGE ALBION DUNN IN HIS LAW PRACTICE

Judge Dunn Today Announced Selection of J. C. Lanier to Take Over His Offices Here

Col. Albion Dunn, of this city, recently appointed Judge of Superior Court, stated this morning that he would receive his commission on March 21 and that his first term of court would begin in Buraw, on Monday, March 23. During the intervening time Judge Dunn is winding up his legal affairs in preparation for his retirement from practice on the date of his commission.

During his more than ten years in this city Judge Dunn has built up an enviable law practice and while his many friends are proud that he has received the unsolicited appointment to the bench his retirement will be a loss to the local bar.

In an interview this morning Judge Dunn announced that he was turning his practice over to Mr. J. C. Lanier, popular young attorney of this city and solicitor of the county court. Mr. Lanier will immediately move into the offices occupied by Judge Dunn. In commenting upon his successor Mr. Dunn said, "I appreciate the liberal patronage that I have received during my career here as a practicing lawyer and I have every confidence in the ability of Mr. Lanier to care for the interest of my former clients."

Regarding his appointment Judge Dunn justly appreciates the unsolicited honor he has received and expresses desire that he may measure up to the confidence displayed by the governor in his selection.

As a resident of Greenville and a member of the Pitt County Bar Judge Dunn has been a big factor in the public affairs of the city and county having served as Mayor of Greenville and in other public capacities including Vice President of the State Bar Association.

Mr. J. C. Lanier, who is to succeed Judge Dunn in his law practice here is a native Pitt County man. He is a graduate of the University of North Carolina and a law graduate of Georgetown. Upon completion of his education Mr. Lanier has devoted his time to the practice of law here with the exception of a short period spent in Cuba. Mr. Lanier is considered a young lawyer of exceptional ability and has been honored with the public office of solicitor of county court which he now holds.

Denver Woman is Called as Witness in Defense of Name

Chicago, Ill., March 11.—Mrs. Helen Elwood Stokes, of Denver, today was called to the witness stand in the trial of her husband, William E. D. Stokes, charged with conspiracy to defame her.

Her appearance as witness marked departure of the Illinois statute which prohibits a wife testifying against her husband. Judge Gammill ruled that her testimony should be so circumscribed that it would not be used against her husband, but rather as defense against her name.

The Durham Rotarians, about 32 in number, will leave Durham on a special car Wednesday night, March 25. During the convention they will present a model Rotary meeting.

Cabaret Apaches Rob Another Bejeweled Woman

Above: LOUISE LAWSON; Below: DOROTHY KLING. MRS. FAY PERKINS. Above: MRS. IRENE SCHELLKOPF; Below: EDITH BOBE.

To the long list of jewel robberies that have followed the custom of New York women of wearing thousands of dollars worth of gems to the supper clubs and cabarets has been added the sensational robbery of Mrs. Fay Perkins, who, with her escort, Milton Abbott, was held up in her home and relieved of \$4,000 in gems. Both Mrs. Perkins and Abbott were savagely beaten. Dorothy King and Louise Lawson, robbed in the same way, were killed by their assailants. Mrs. Irene Schoellkopf, wife of a Buffalo manufacturer, was robbed of \$350,000 worth of gems in a like fashion, while Mrs. Edith Bobe, wealthy modiste, lost a fortune in jewels in a similar holdup.

FINAL PASSAGE OF BILL VINDICATING FERGUSON ASSURED

James E. Ferguson Removed From Governor's Chair Seven Years Ago Has Virtually Won A Long Fight to Clear His Name

Austin, Texas, March 11.—James E. Ferguson virtually has won his long fight for vindication from the judgment, which seven years ago removed him from the Governor's chair, and deprived him of the right to ever again hold state offices.

By a vote of 80 to 53, the House late last night passed on third reading the Woodward bill already passed by the Senate granting legislative amnesty to Ferguson. Opponents to the bill asserted that it was unconstitutional and that the only legal way to vindicate Ferguson was to submit the matter to the poles in some of the constitutional amendments. Proponents declared that if the legislature had impeached Ferguson, it could invoke this action. In view of a substantial majority given the bill last night, its final passage is assured.

Ferguson's removal from office in 1917 followed his conviction on several counts of malfeasance in office, the principal charge against him being that of misapplication of public funds.

Oleomargarine Bill Passed by Nebraska Senate This Morning

Lincoln, Neb., March 11.—The Oleomargarine bill, prohibiting the use of any imitation butter, passed the Nebraska Senate this morning by a vote of 17 to 15. The measure passed the upper body only after a bitter fight, wedged by members who declared it was "discriminatory against other States" in that it prohibited oleomargarine which contains cotton seed oil.

President Coolidge Nominates Nicaragua and Honduras Ministers

Washington, March 11.—President Coolidge today nominated Charles C. Eberhardt, of Kansas, to be minister to Nicaragua, and George T. Summerlin, of Louisiana, to be minister to Honduras.

At the same time Mr. Coolidge accepted the resignation of John W. Riddle as Ambassador to Argentina.

CASE OF ZABAN CHARGED ARSON GOES JURY TODAY

David Harris, Indicted Jointly With Merchant Released at Conclusion of State's Evidence

Greensboro, March 11.—The case charging Mary Zabab, a High Point clothing merchant, with arson as the result of a fire in his store there on January 22 of last year, will go to the jury in Superior Court here late this afternoon. The addresses to the jury and the judge's charge were to begin at 2 o'clock this afternoon. David Harris, indicted jointly with Zabab, was released Tuesday at the conclusion of the State's evidence. Judge Webb ordered non-suit. The same motion made shortly before noon today on behalf of Zabab was denied, and an exception was filed by the defense's attorneys.

Farmers National Counsel Seeks Extra Session Congress

Washington, March 11.—The Farmers' National Counsel announced today that it had requested the cooperation of several members of the President's Agricultural Conference in seeking to have President Coolidge call an extra session of Congress to enact agricultural relief legislation. Unless this is done, said the counsel, legislative relief will probably come too late for next year's crop.

Local Post's Quota National Endowment Fund is \$1,078.00

Post Commander, S. L. Bridgers, has been notified by Wade H. Phillips, Department Commander, that the quota of the National Endowment Fund for the Pitt County Post of the American Legion is \$1,078.00. For the purpose of raising this quota Dr. C. O. L. Laughinghouse has been appointed Chairman and S. O. Worthington, Secretary and Treasurer. Committees to assist these will be appointed, and a drive put on in an effort to raise the county's quota.

COUNTY TO STAGE CAMPAIGN AGAINST THE BOLL WEEVIL

Local Business Men Engage Services of Expert to Direct Efforts to Exterminate the Pest

At a meeting held this morning in the directors room of the Greenville Banking and Trust Company business men of this city decided to stage an extensive campaign against the boll weevil this season and have engaged the services of an expert to direct the work in this community. It is understood that similar meetings have been held in other places in the county and experts employed and indications are that the campaign will be general and upon extensive lines throughout the county.

The meeting was held under direction of Mr. N. G. Bartlette, secretary of the Eastern Carolina Chamber of Commerce. The organization is making an effort to get the farmers and business throughout the eastern section of the state to aid in the campaign to exterminate the weevil to insure fuller crops for the state this year. Reports of government tests made in various localities have shown that the work of the weevil can to a great extent be checked and it is only in this way that farmers can produce cotton at a profit. Mr. Bartlette went fully into the details of the proposed campaign and at the conclusion of his explanation those present agreed to employ at least one expert and it was indicated that the services of additional experts would be sought as soon as the nature of the campaign against the weevil is fully understood by all farmers in this section.

FAMOUS SWEDISH REMBRANDT WILL BE LOANED TO HOLLAND

Stockholm.—Sweden's most valuable Rembrandt painting, the gigantic "Claudius Civilis," which the city councilors of Amsterdam once rejected for their court house as not "handsome enough," the Dutch capital now wants to borrow back from the National Museum of Arts here to be shown at the jubilee exposition to commemorate the 650th anniversary of Amsterdam as a city under that name.

Though the painting is now beyond price, not being for sale at any figure, the request has been granted. Other European museums will lend their choicest Rembrandts and for the first time the Swedish art treasure will be exhibited side by side with such famous pictures as "The Night Watch" and "The Weavers."

COOLIDGE ADVISED BY SENATE NOT TO RESUBMIT WARREN FOR CABINET

FOUNTAIN AND TOWNSEND ANNOUNCE CANDIDACIES SPEAKER OF HOUSE '27

Raleigh, March 11.—Robert T. Fountain, of Edgecomb county, today definitely stated that he would be a candidate for speaker of the House in 1927. Representative Natl. A. Townsend, of Harnett, authorized formal announcement of his candidacy last night.

Republican Leaders Declare That Nomination Cannot Be Confirmed; Coolidge Makes No Statement

Washington, March 11.—President Coolidge was advised today by Republican leaders in the Senate not to re-submit the nomination of Charles B. Warren, of Michigan, to be Attorney General, because it could not be confirmed.

A number of administration Senators visited the White House early today to discuss the situation growing out of the rejection of Mr. Warren's nomination. Senator Cummings, of Iowa, chairman of the Judiciary Committee, which favorably reported the nomination, said that he could not see where another vote would change the situation, adding that most of the Senators who were absent yesterday were paired.

The leaders, who visited the White House, said the President had given them no indication as to what course he would follow, but some of them were of the opinion that he would make another selection.

Mr. Coolidge was informed that the full support for Mr. Warren had been counted yesterday when the nomination was rejected 40 to 49, the absent Republican Senators favorable to confirmation, being paired with the Senators in opposition.

Washington, March 11.—The Senate's rejection of the nomination of Charles B. Warren, of Michigan, to be Attorney General, at the session yesterday featured by the dramatic effort of Republicans to over rule a tie confirmation vote, has left the question of filling that office, enveloped in uncertainty.

As the White House declines to comment on the matter, there was no indication today as to what course President Coolidge might pursue. Only by President Coolidge re-submitting the nomination can it again come before the Senate, whose action yesterday after voting 40 to 49 on confirmation in finally tabling 41 to 39. A motion to reconsider as the up shot of hurried strategy to overcome the tie, is final and irrevocable.

As an alternative to resubmit the Warren nomination, or sending a new one to the Senate, the President may even leave Solicitor General Beck in charge of the Justice Department until next session of Congress, or make recess appointment for that period.

Detroit, Mich., March 11.—Charles B. Warren, whose nomination to be Attorney General, was turned down by the Senate yesterday, left at noon today for Washington, where tomorrow he will confer with President Coolidge and Senate Republican leaders as to what future course of action is to be taken.

President Sends the Nomination of Moffett To the Senate Today

Washington, March 11.—The nomination of Rear Admiral William A. Moffett to continue as chief of the Navy's Bureau of Aeronautics today was sent to the Senate by President Coolidge.

WHY NOT A QUEEN?

As the date for the Eastern Carolina Exposition, to be held this year in Smithfield, draws near our attention is called to the fact that so far Greenville has chosen no young lady to be entered as "Miss Greenville" in the queen's contest which is a part of the annual exposition. Heretofore Greenville has been represented in such contests with very gratifying results and this opportunity to again gain distinction for our city should not be allowed to pass. The final date upon which entrants in the queen's contest can be filed with exposition headquarters is March 15 and it is high time that Greenville was getting busy if it is to be represented when the great event comes off.

In view of the limited time which is left us in which to select our queen it is inadvisable to undertake at this date to stage a local contest for such a selection and we suggest a meeting composed of one representative from each of the city's clubs and civic organizations to whose judgment is left the selection of "Miss Greenville."

Greenville should by all means be represented in the contest but prompt action is necessary if this is to be possible.

TO FIGHT THE WEEVIL

Local business men and farmers, we believe, took a wise step this morning when they decided to wage an intensive campaign this season against the boll weevil and to employ experts to direct the work in various sections of the county.

While this section so far has been fortunate in escaping the severe ravages of the pest it is realized that the danger of such a catastrophe is not passed if no steps are taken to check the onslaught. Government tests have proven that the only weapon against the disastrous results of the weevil is poison and Pitt county is determined this year to see to it that the remedy is given a fair trial. The weevil must be exterminated or cotton raising in the section must be discontinued and the business men and farmers are determined to carry out the former if such is humanly possible.

JUDGE ALBION DUNN

(Kinston News)

The Morning News congratulates all hands on the appointment of Albion Dunn, of the Greenville bar, to the Superior Court bench, as successor to Judge J. Lloyd Horton, resigned. The Governor could have made no wiser selection. The appointee is a first rate lawyer, and a man of the highest character, is a courteous affable, dignified gentleman. He has back ground and performance.

The appointment will give satisfaction and the traditions of the bench will not suffer by the elevation of such men. Judge Dunn will add through the years to its record of learning and probity. It is generally predicted among the members of the bar in the State and in the company of Judge Dunn's wide circle of friends that he will have great success in his new field. By character and habits, by training and education, by practice and experience he is admirably equipped for honorable and eminent service on the bench.

LITTLE MISS JANE AND MASTER C. B. ROWLETT, JR., CELEBRATE BIRTHDAYS

On Tuesday afternoon at their home on Dickinson Avenue, little Miss Jane and Master C. B. Rowlett, Jr., children of Mr. and Mrs. C. B. Rowlett, entertained a large number of their little friends at a party in honor of their third and fourth birthday days.

Upon arrival the guests were welcomed by the little host and hostess and invited to the lawn where several interesting games were enjoyed. Miniature bags filled with candies were hidden on the lawn and the children had a merry time finding them. One bag containing a rabbit and candy caused an interesting search as this was to determine the winner of the prize. Miss Helen Willis, being the successful contestant was presented an attractive basket filled with candies.

After the games an ice course was served. Jane and C. B. Jr., are attractive and lovable children and were the recipients of a large number of beautiful gifts. Their little friends wished for them many happy birthdays.

No Definite Action Taken in Employing Director Bus Law

Raleigh, March 11.—Though the matter has been under consideration, no definite action has been taken nor have the applicants who have filed for the position been given any indication as to their chances, declared Allen J. Maxwell today, discussing the post of director of the bus control law passed by the General Assembly. Mr. Maxwell is a member of the Corporation Commission which is charged under the law with prescribing regulations for operation of inter-city bus lines.

Several applications have been received, Mr. Maxwell stated, but the three members of the Commission have not held any conferences relative to selection of a man. It is the plan, he added, to get a well trained man who will be able to handle all the minute technical details of the administration of the law, but of course the final decision in matters of importance touching on bus operation will be decided by the commission.

Removal of tax collecting powers of other state departments to the department of Revenue, it is expected will affect the Corporation Commission also so far as collection of bus line revenues is concerned and it is expected that elimination of this feature will materially reduce the work of the new director. However, Mr. Maxwell stressed the point that it would be necessary to have a well trained man in preference to an ordinary clerk as there would be considerable detail work which a clerk could not be expected to do.

UNERVING EFFICIENCY NOW MARKS U. S. A. FINGER PRINT SYS.

Washington — Finger print identification has been developed by the army to the point of efficiency where its application at times vies with the thrills of detective fiction. Any unidentified man who has served in the regular army can be located in from 10 to 20 minutes, and his full record laid bare. In that short time a searcher finds him among the more than 7,000,000 men who have been in the army since 1906, when the finger print system was introduced. He may have been one of the 30,328 Smiths, the 40,101 Johnsons, the 28,902 Browns, or one of the 27,938 named Williams. All the army needs is his finger print to turn up his record.

Walter S. Kaye, in charge of the bureau, says the indexing has been worked out so efficiently that even a new clerk, one never before having had knowledge of the system, can begin work as a searcher with little preliminary instruction.

The science of finger print reading is based on the study of the curious, circling network of all but invisible lines on the ball of the thumb and each finger. Examination of millions of specimens shows that the normal formation is the whorl, or the scroll which winds these lines from the outer edge in a gradually reducing circle to their inner termination at the core of the network. A majority of human beings are marked with this scroll, but there are others whose finger print lines run in flattened fingers or in complications of figures far removed from the simple, easily read whorls. The first step in identification has to do with determining the broad general division in which the prints under examination are to be sought.

There are but four main groups or classifications of prints, arches, loops, whorls and composites. Each type has its gradational cases. The whorls have 1,024 values or combinations and the loops, arches and composites have each their respective values to simplify segregation for filing and to make them easily located when identifications are sought. The evaluation of prints thus made has overcome all difficulty of dealing with large collections of finger markings, such as are in the army files.

Finger prints, since their adoption in 1906, have exposed frauds, protected innocent men from injustice, kept undesirables of the criminal type out of the service, protected the government from unscrupulous claimants and uncovered the guilty. Many interesting accounts of such instances are contained in official papers of the war department during the last 15 years.

Those who have worked in the identification bureau since its establishment are authority for the statement that never has a mistake been made. They have made more than 200,000 identifications.

"The finger print system," Mr. Kaye says, "is superior to any other system so far devised in that it permits of no error. This may seem a strong statement, but the finger print, when clearly made, allows of no misrepresentation; it is an actual presentation and does not permit the personal equation of error to enter. Other systems allowed errors of measurement and errors in location of marks."

In the more than 70,000,000 digit photographs in the identification bureau's files, Mr. Kaye says, there are no two of them alike. There is just as much chance of finding two prints alike as there would be in going into the fields and finding two flowers exactly alike."

COAST POWER TUNNEL BORED THRU SOLID STONE IS COMPLETED

Los Angeles. — The Florence Lake tunnel, 15 feet high and the same width, extending more than 13 miles, mostly through solid granite in a shaky line under the high Sierras, is a construction feat that has drawn the attention of the engineering world. It has just been completed.

The tunnel is one of the most important works in the Big Creek-San Joaquin River project of the Southern California Edison Company. The entire project will bring in 1,407,000 horsepower, and with its transmission lines, sub-stations and accessories, will cost \$375,000,000.

The tunnel itself cost \$17,000,000. It was started in the fall of 1920, and since then without a stop the work has been maintained in relief shifts. The scene of operations is 250 miles north of Los Angeles and 35 miles south of the Yosemite Valley. The purpose of the tunnel is to convey water from the Florence Lake watershed, source of the south fork of the San Joaquin river, through the barrier of a 10,000 foot mountain ridge into the watershed of Huntington Lake. Huntington Lake is the reservoir of supply for the four great units of the electric company which supplies a large part of central and southern California with light and power.

World records for tunnel construction have fallen during the four years' progress in the Sierras. The 13-mile bore was divided into three sections, with two lateral adits cut into granite slopes and a crew working each way from each adit. The bore was completed a year and a half sooner than the most optimistic estimates contemplated when the tunnel was started.

The completion of the tunnel will be followed by the creation of Florence Lake, to store 31,900 acre feet of water at an elevation of 7,300 feet. The total drop from Huntington Lake through a chain of tunnels and power houses to the lowest power house is about 6,900 feet.

The whole project when complete will have 86 miles of tunnel, with about 18 power houses. The original development in the Big Creek project, started in 1912, consisted of two power houses developing 88,000 horse power.

A 220,000-volt transmission line conveys the power generated by these plants 270 miles to Los Angeles.

SILVER FOXES FROM CANADA FINDING HOMES IN ENGLAND

London. — British farmers are watching with much interest the experiments which are being made here in an effort to make silver fox farming in England a paying proposition. Farms have been started at Alness in Scotland, and Oxfordshire and Bexhill-on-Sea. What effect this move will have on the price of silver fox fur in Great Britain cannot at present be stated, but it has been proved during the last 15 years that the best and most costly examples of the silver fox are those of animals bred in captivity. The foxes have been brought here from Canada.

SALE OF VALUABLE FARM PROPERTY.

Under and by virtue of authority conferred upon us in a deed of trust by John Harris and wife on the first day of February 1923, and recorded in book of mortgages T-14 at page 210, we will on Saturday, the 14th day of April, 1925 at 12 o'clock noon, at the court house door in Greenville, sell at public auction for cash to the highest bidder the following land, to-wit:

Adjoining the lands of the heirs of Henry Harris, on the North, formerly the lands of Howard Harris on the east, the land of the Smith, heirs, and Samuel Joyner on the S. and Mrs. Alice King on the west.

Beginning at a bridge on the Farmville and Center Bluff road, thence along said road S. 70-35 W. 1302 ft. thence S. 71-05 W. 598 ft. thence S. 73-20 W. to an iron stake on S. side of road; thence S. 3-30 W. 6131 ft. to an iron Axle, a corner between J. T. Harris, Samuel Joyner and Mrs. Alice King, thence N. 45-30 E. 730-55 ft. to a pine stump, a corner between J. T. Harris and Samuel Joyner, thence along old Tram Road N. 67-30 E. 4924 ft. thence S. 83-10 E. 1321 ft. thence S. 82-20 E. 300 ft. thence S. 78-15 E. 142 ft. thence S. 65-20 E. 177 ft. thence S. 75 E. 95 ft. to a big long strawed pine, a corner between J. T. Harris, and Smith heirs in Howard Harris line, thence N. 7-30 W. 4070 ft. to a gum stump with pointer, a corner between J. T. Harris and Howard Harris, thence S. 54-12 E. 619 ft. to a stake on east side of path, a corner between J. T. Harris and Howard Harris, thence along the various courses of Meadow Branch to the beginning, containing 943 acres, according to a survey made in 1915 by W. C. Dresback, C. E. which plot is duly of record in Map Book 1, at page 47 of the Pitt county Registry.

This sale is made by reason of failure of John Thomas, Harris, and wife to pay and discharge the indebtedness secured by said deed of trust to the North Carolina Joint Stock Land Bank of Durham.

This the 23rd day of Feb., 1925.

WALL ST TRICKSTERS FOREVER ON SEARCH FOR NEW VICTIMS

New York. — The financial underworld, which fringes Wall Street steadily hits upon new methods to keep up with the times and ahead of the law. Its jargon is elastic, impromptu and bizarre.

For example, swindlers who fleece the public through sales of fake stocks work by telephone in what is called a boiler room. Telephone salesmen are said to "hook-the-suckers," dynamiters, so-called, "build up" the victims and hoodwink them into switching from standard securities, first held out as bait to attract investment, to worthless stocks which the conspirators are in business to unload.

Gone is the "gold brick," gone the bunco man who struck up acquaintance with prosperous visitors from the interior at metropolitan railway depots in the '90s. The get-rich-quick man of today has imagination. Avoiding the mails as much as possible, he strikes over the telephone and telegraph, often to bring down quarry as much as several states away.

These swindlers operate from offices that usually are obscure, sometimes merely desk room, so customers will find telephone calls hard to trace. In the larger plants there often is a battery of as many as eight telephones. This is the boiler room, the term being derived from the practice of creating an atmosphere of bustling activity to impress inquisitive suckers who cannot be kept away.

The hustle is not wholly fictitious, the Better Business Bureau investigators have found. Hour in, hour out, salesmen with good voices canvass by wire a list of names selected either from a secret "sucker's list" or the telephone directory.

They hook their man by offering to let him buy some active standard stock guaranteed to advance, on a partial payment plan. He can sell out at the rise and take a profit perhaps equal to as much as he has paid in. The money is duly received, but the stock is never bought.

When the stock goes up and the customer has a substantial paper profit to his credit, the dynamiter steps in to give him high-pressure treatment.

"Bully!" comes a smooth, congratulatory voice over the telephone. "Did not we tell you so? See what a concern like ours can do for you?"

The dynamiter, if he is a good one, persuades the happy plunger to switch to another stock, equally guaranteed, which will bring far higher profits. This will take a slight additional investment, of course,—"It takes money to make money, but you know by this time you can trust us!"

The new stock, the luckless customer finds, is worthless. If he threatens to make trouble he sometimes gets an adjustment. Not often usually salesmen and dynamiters quietly pack the boiler room in a suitcase and fade away—to bob up elsewhere tomorrow.

An attorney in Toledo, Ohio, was reached by long distance telephone from Philadelphia and New York. He placed \$515 on a curb stock here, and won. He was persuaded to switch to a worthless mining stock, and agreed to send \$2,500 more. Postal inspectors nabbed one of the swindlers at a telegraph office as he was waiting for remittance. Later they caught two others.

MEAT DEALERS ANGRY AS LONDON TURNS TO FRUITS

London. — An "eat more fruit" campaign throughout England has recently brought the American apple into more prominence than it ever has enjoyed heretofore. The fruit is now being sold in the groceries and the luxury shops, and from push carts in the streets of London.

The campaign has brought to the fore also the American apple's neighbor, the Canadian apple, but in most cases the products of Oregon, Washington appear to be the favorite. American apples retail here at a few cents a pound more than they do in cities of the United States.

In addition to American cranberries, Florida and California grape fruit and oranges, various other fruits from the other side of the Atlantic, Americans in London this winter have enjoyed the privilege of being able, when they were willing to pay the price, to treat themselves to fresh corn on the cob, at about one shilling the ear. The corn, in the husk, has full white grains and is imported in barrel lots from South Africa. It has much the same appearance as the corn from America, excepting that the ears, perhaps, are a trifle longer and more slender.

Butchers are far from happy over the efforts to popularize the eating of fruit. Boosters for the apple recently set going a song, "Don't eat mutton, don't eat lamb," which made them particularly wrathful. In complaints to various official sources they described the song as an insult to the trade, and retaliated with another composition extolling "beef for brawn and brains."

Durham, March 11.—A large percentage of the membership of the local Rotary Club will attend the district meeting of Rotary to be held in Richmond, Va., March 26 and 27, according to M. S. Llewellyn, chairman in charge of arrangements for the trip. He says that he expects more than one-half of the members to attend.

ONE PIECE - PORCELAIN LINED
"Like a Clean China Dish"

The easiest thing in the house to clean—and the most important.

The Leonard Cleanable Refrigerator stands today as the realization of that aim. Its scientific and sanitary construction insures a constant circulation of pure, dry, cold air, according to natural laws—the cold air sinking from the ice to the food, forcing the warm air up to the ice, where it is cooled, dried and purified and passed back again through the same process. The air vents at the extreme top and bottom eliminate all dead air spaces, with their resulting stagnant and foul air.
