AN APPRECIATION.

The Daily Reflector, Greenville, N. C., My Dear Sir:

I desire to express to my Methodist friends in Greenville and to the entire community, through your columns, my heartfelt sympathy in

the loss of their pastor, and my friend and brother, Rev. V. P. Scoville. In his death I have lost a personal friend which loss I feel very keenly.

Brother Scoville was a loyal Methodist but his friendship and love were not limited by denominational lines. He loved all who loved his Lord and his consuming passion was to win others to Him.

Like Barnabas he was a good man, full of the Holy Ghost and faith and through him much people were added to the Lord.

Not only the Methodist church but the entire community and the cause of Christianity have sustained a heavy loss in the home going of this man of God and my friend. He is richer but the world is poorer.

"Go to the grave, at noon from labor cease, Rest on thy sheaves, thy harvest work is done.

Come from the heat of battle, and in peace, Soldier, go home; with thee the fight is won."

Cordially yours,
T. H. PLEMMONS,
Brinkley, Ark.

EVERYBODY'S THEATRE TO MAKE IMPROVEMENTS

Mr. D. Monte Bain, director of publicity, of Stevenson Theatres, Inc., of Henderson, operators of Everybody's Theatre here, is in the city to put on an advertising campaign in connection with the theatre where many improvements are under way, according to Mr. Bain. While the admission price of the theatre is being dropped to ten cents Mr. Bain declares that it does not mean a cut in the quality of the program or the service to the public. Contracts for some of the greatest pictures now being shown have just been closed by his concern, said Mr. Bain and it is the intention of the Stevenson Theatres to give to the theatre-goers the best on the market for the lowest possible price.

GROTESQUE BIRD OF EGYPT FILMED BY PATIENT SWEDEN

Stockholm.—The giant stork "abu markub," or "father shoe-beak," rarest and most fantastic among living birds and looked upon as a curious relic of prehistoric eras, has at last been seen in its native haunts by white men, and has been induced to pose before a motion picture camera. This is the accomplishment of Bengt Berg, called "Sweden's bird wizard," who has just returned from Africa.

Bengt Berg has devoted his life to the study of birds and migratory wild fowl in their habitats, especially rare specimens. He seems to have an almost uncanny knack of getting on familiar terms with them by dint of extreme patience and carefully planned ruses. His latest exploit, the filming of the "abu markub," was preceded by weeks of cruising on the upper Nile. The discovery of the strange bird was made on an unnamed, almost impassable tributary of the Nile. The bird has a body

somewhat like that of a European stork, while the large bill reminds one of the pelican. The eyes are large and yellow, and his whole aspect is that of a creature of fable.

Berlin Designs Side Door Buses
Berlin.—Berlin has found that its motor busses are top-heavy. Since the streets have become congested with the grow in the number of automobiles there has been an increasing number of accidents in which the busses have figured, and some have upset with serious consequences.

The authorities are now considering a lower vehicle, with side instead of rear doors, and a covered roof to give shelter in rainy weather.

Forests Safeguarded.
Plovdiv, Bulgaria.—Effective use of conscript labor is being made by the Bulgarian government in reforestation. The program for this year covers virtually the entire country, and includes the Balkan mountains.

SOUTHEASTERN STATES

REPORT SHAD SEEK-

ING OTHER WATERS

Columbia, S. C.—Scarcity of shad found along the south Atlantic coast, as compared with the number caught in former years, is causing apprehension in the minds of members of the boards of fisheries of various south-

eastern states, it was stated in the annual report of the South Carolina board to the state legislature.

While in 1907 fishermen along the coast of this state caught 110,000 shad, this year the catch amounted to only 65,280 and 25,000 of these were caught several miles at sea.

Many methods of replenishing the species have been tried, among which are fish hatcheries, pan smelting and time limits upon the shad season.

Resolutions Praising the Company's Attitude Toward Growers Adopted Last Night

At a special meeting of the local Chamber of Commerce, held in the courthouse last night resolutions commending the attitude of the Imperial Tobacco Company toward growers in this section were unanimously adopted.

The meeting was largely attended and was presided over by Mr. W. H. Dail, Jr., president. The following resolutions were adopted:

"Whereas, Recent press dispatches convey information that the Imperial Tobacco Company, will be investigated by the Federal Trade Commission, and is charged with conspiracy in lowering the price of leaf tobacco produced by the growers in this country. Now, therefore;

"Be it resolved: That it is our desire to attest that the policy of the Imperial Tobacco Company during more than twenty years' operation on the Greenville market has been one of liberality towards growers, and a stabilizing influence that has added greatly to the welfare of tobacco growers in this section. Their attitude toward growers has remained unchanged during all the years they have operated on this market. It has always been their policy to buy liberally on the floors of the auction sale warehouses, and during some seasons their purchases have exceeded 50 per cent of all the offerings. In our judgment, their policy of buying direct from the growers, rather than through dealers, has resulted in higher prices for the growers, as it eliminated the middleman's profit. We feel that they should be allowed to continue to buy our tobacco in their own way, and that they should be encouraged to secure their needs from American producers, rather than be forced to seek their needs elsewhere. Now, therefore;

"Be it further resolved: That we desire to express our confidence in the integrity and honesty of purpose of the Imperial Tobacco Company, and to request the Federal Trade Commission to bear in mind the intent of these resolutions when making the proposed investigation."

SAYS SEN. COUZENS BEING PROMPTED BY PERSONAL ANIMUS

Ernst Declares Michigan Senator Trying to Find Something Harmful to Secretary of Treasury

Washington, 14.—A charge that Senator Couzens, Republican of Michigan, was prompted by personal animus in his recent attack of the Treasury Department, was made in the Senate today by Senator Ernst, of Kentucky, another Republican member on the investigating committee, of which the Michigan Senator is chairman.

"Not once during the entire investigation has Senator Couzens forgotten his personal feeling against the Secretary of the Treasury," said Senator Ernst. "He has been hunting not for facts, but for something harmful to the Secretary and to the Bureau of Internal Revenue, but during all of the months of the investigation not a single fact has been brought out reflecting on the character, or integrity of the Secretary of the Treasury, or the officers under him."

SHEPHERD HELD FOR MORE QUESTIONING

Heir to Million Dollar Orphan's Estate Held Today for Further Interrogation

Chicago, March 14.—William D. Shepherd, chief heir to the estate of William N. McClintock, the million dollar orphan, who died of typhoid fever last September, was held for further interrogation today after his dramatic midnight call to the State attorney's office, where he was questioned for hours concerning statements by Dr. Charles Fauman, head of a Germ Culture school, that Shepherd had sought information on administering typhoid germs.

Routed from bed and taken to the prosecutors' offices, Shepherd was confronted with Dr. Fauman, and flatly denied that he had asked about introducing typhoid germs into the body. Mrs. Shepherd, co-guardian of young McClintock, was taken to the prosecutor's office later, but was permitted to return home after two hours of questioning.

State's Attorney, Robert E. Crowe, pleaded to renew interrogations later today, and also to take steps to block plans of Shepherd's attorney to apply for a writ of habeas corpus.

SENATE RATIFIES ISLE PINES TREATY LATE YESTERDAY

Senate Clears Calendar of Foreign Treaties by Returning Lousanne Pact to Committee

Washington, March 14.—The Senate calendar stood cleared of all Foreign Treaties today, but only by a decision to return to the committee the Lousanne Pact to re-establish diplomatic and commercial relations with Turkey, action thus going over until the next session.

Prior to its decision late yesterday on the Lousanne Treaty, after the administration had redoubled its efforts to obtain ratification at this session, the Senate ratified the treaty recognizing Cuban sovereignty of the Isle of Pines. As approved by a vote of 63 to 14, the Cuban treaty carries minor reservations. The World Court question also has been definitely put over until the next session under an agreement of yesterday to make it a special order for next December 1.

PRESIDENT AWAITS FURTHER ADVICES ON DISARMAMENTS

Executive Believes Recent Developments Here Indicate Definite Approach to Arms Conference

Washington, March 14.—While awaiting more complete and authentic advice concerning the disarmament situation abroad, President Coolidge believes recent developments here as already indicated, a far more definite approach of another arms limitation conference to be called by the United States.

As soon as more definite advices are on hand as to the effect of recent developments at Geneva concerning the League of Nations Disarmament and Security Protocol, the president proposes to give close attention to the matter in conferences with Secretary Kellogg. Many steps approaching a formal presentation of the conference idea to the nation interested, however, will await a survey of the situation on the basis of more authentic advices to be received through official channels. As yet there has been no actual approach to any of the powers on the subject, and conferences planned by President Coolidge, as his Secretary of the State will, in fact, be the initial pool in getting the many preliminaries attending the project under way.

COOLIDGE REQUESTS VOTE ON WARREN BE PUT OFF 'TIL MONDAY

Some Believe Executive is Fully Convinced Nomination of Warren Cannot be Confirmed

Washington, March 14.—President Coolidge asked today that a vote on the nomination of Charles B. Warren, to be Attorney General, be deferred until Monday.

This word was taken to the capitol by Senator Curtis, of Kansas, the Republican leader, who had been summoned to the White House.

Some Senators said the President had been convinced that the nomination could not be confirmed, and that he wanted time in which to make another selection before the Senate adjourned.

There was no indication, however, that the President would withdraw the nomination. On the other hand, it was said that he still was insistent that a full statement on Mr. Warren's qualifications should go into the record in reply to the charges against him.

Administration leaders in the Senate were convinced that a second rejection of the nomination of Mr. Warren was inevitable, and the request for time, it was indicated, practically was an admission that their last hope of victory was gone. Some of them believed that President Coolidge, himself, had become convinced that Mr. Warren could never be confirmed.

The White House, itself however, gave no sign that the light had been abandoned, officials there indicated, on the contrary that the President was determined to wage war to a finish with his opponents in the Senate. The understanding among the Senators, who were asked to consent to a delay until Monday, was that President Coolidge wanted time in which to make a new selection.

NOTED FOOTBALL COACH DIED TODAY

Walter Camp, Found Dead in New York Hotel When Sought By Associates

New York, March 14.—Walter Camp, noted football coach and critic, died today. He died of heart failure in the Hotel Belmont.

When the football rules committee assembled this morning in the Hotel Pennsylvania, the members delayed the meeting pending the arrival of Camp. When some time had elapsed and he had not appeared, Bill Roper, Princeton coach, was delegated by the committee to look for Camp at the Belmont. Roper went to the coach's room, and getting no response had the door opened. Camp was lying dead on his bed.

TOMORROW IS LAST DAY FOR FILING OF INCOME RETURNS

Returns From Cotton Mills So Far Are Only Thirteen Per Cent of Last Year's Total

Raleigh, March 14.—Income tax returns made by Cotton mills in North Carolina today were only 13 per cent of what they were this time last year, it was stated today by Commissioner of Revenue Doughton. In other words there is a deficiency in these returns of 87 per cent.

"Of course," said Commissioner Doughton, "subsequent returns may bring the percentage up, but there is every indication that a falling off will be very marked."

"Last year the state realized from cotton mill income," said the commissioner, "between \$600,000 and \$700,000." Commissioner Doughton indicated that returns from individuals, railroads, tobacco and furniture factories, will hold their own. In some instances increases have been shown. Returns upon railroads showed about 5.3-4 per cent more than last year. While the commissioner was not in a position to state the total amount of taxes collected through his department up to the present, he indicated there was in the neighborhood of \$1,000,000. It is believed that inheritance tax of this year will exceed those of last year on account of deaths of several persons whose estates are highly valued.

Although March 15th, tomorrow, is the last day on which returns may be made, it was stated that returns mailed tomorrow and bearing the post mark of the 15th will be accepted as though they were made today, owing to the fact that the expiration date falls on Sunday.

Freight Wreck Causes Delay in Traffic

Florence, S. C., March 14.—Four cars have been destroyed and two tank cars of gasoline are burning, as the result of a freight train wreck near here today on the Florence-Charleston division of the Atlantic Coast Line main line. Traffic will be delayed for a day or more, it was stated, as more than 40 feet of the road's double track were torn up.

present prices are low," he adds, "hence, there is every reason why orders for calcium arsenate should be promptly placed. This is timely advice given out from the meeting of Southern Agricultural Workers in Atlanta and further emphasized at a conference of Entomologists at Tallulah, La.

Prof. Sherman continued: "To stimulate production of an adequate supply of calcium arsenate that which is already on hands needs to be covered by orders or options at the present low prices."

The extension service at the State College is now preparing a circular entitled "Boll Weevil Program for North Carolina for 1925." This circular will give, briefly and explicitly, the main points to observe in the war against the weevil.

Department of Agriculture Says Poison is Only Insurance Now Against Boll Weevil

Raleigh, March 14.—The North Carolina Department of Agriculture, through its division of publications, has announced that farmers planning to insure their cotton against boll weevil damage by making preparations for proper poisoning should begin now to place orders or inquiries so as to be assured of getting the calcium arsenate which they may need. Further, it is indicated that merchants who intend to handle this calcium arsenate and machines for farmers should also be assured of their supplies.

GERMAN REPRESENTATIVES RECOMMEND ENTRANCE INTO LEAGUE OF NATIONS

Paris, March 14.—A Havas dispatch from Geneva this afternoon says: "The Havas correspondent is in a position to state that the German representatives on the Sarre and Danzig question, who are attending the council session here, have made it known to Germany that it would be to Germany's interest not to defer longer her entrance into the League of Nations."

TOY BALLOONS

Down the street comes the balloon - man. He is hoarse of voice and somewhat shabby of garb. A few dozen balloons tug at the strings loosely knotted on a frame around his waist. The balloons are vivid in color and enticing in curve. Many children will clamor for them—and so the balloon-man makes his living.

An automobile slithers to a halt before the curb and some lucky child gets a balloon. Then there is a scuffling of worn shoes and there still another child—clutching a small coin with tenacity born of experience—finally exchanges that hard-earned cash for a balloon. Knowing the importance of those purchases to the respective buyers one can readily guess which balloon will be lost or exploded first, but eventually both of them will probably go.

For there is always the temptation to puff just a little more air into that tight skin—to have a balloon just a little bigger than that of your neighbor. There is always the

fun of letting go the string just to show how swiftly you can grab it again. It is too much of a temptation for most of childhood.

Sometimes when we read or hear the radiant promises of sundry exploiters of the public we think of these toy balloons. The public has stood so much bad service, so much graft, so much general mauling. Why not just a little more—and why not a little extra profit on a transaction already unfair? But the balloon bursts in the face of the blower—and there is wailing over the gains that might have been—the wreck that is.

Down the street comes the balloon - man. Perhaps he was once a dealer in gaudy promises, perhaps he merely took the long chance that offered—he thought that the rubbing might stretch.—The Rotarian.

BILIOUS ATTACKS

From Which Kentucky Man Suffered Two or Three Times a Month, Relieved by Black-Draught.

Lawrenceburg, Ky.—Mr. J. P. Nevins, a local coal dealer and farmer, about two years ago learned of the value of Theford's Black-Draught liver medicine, and now he says:

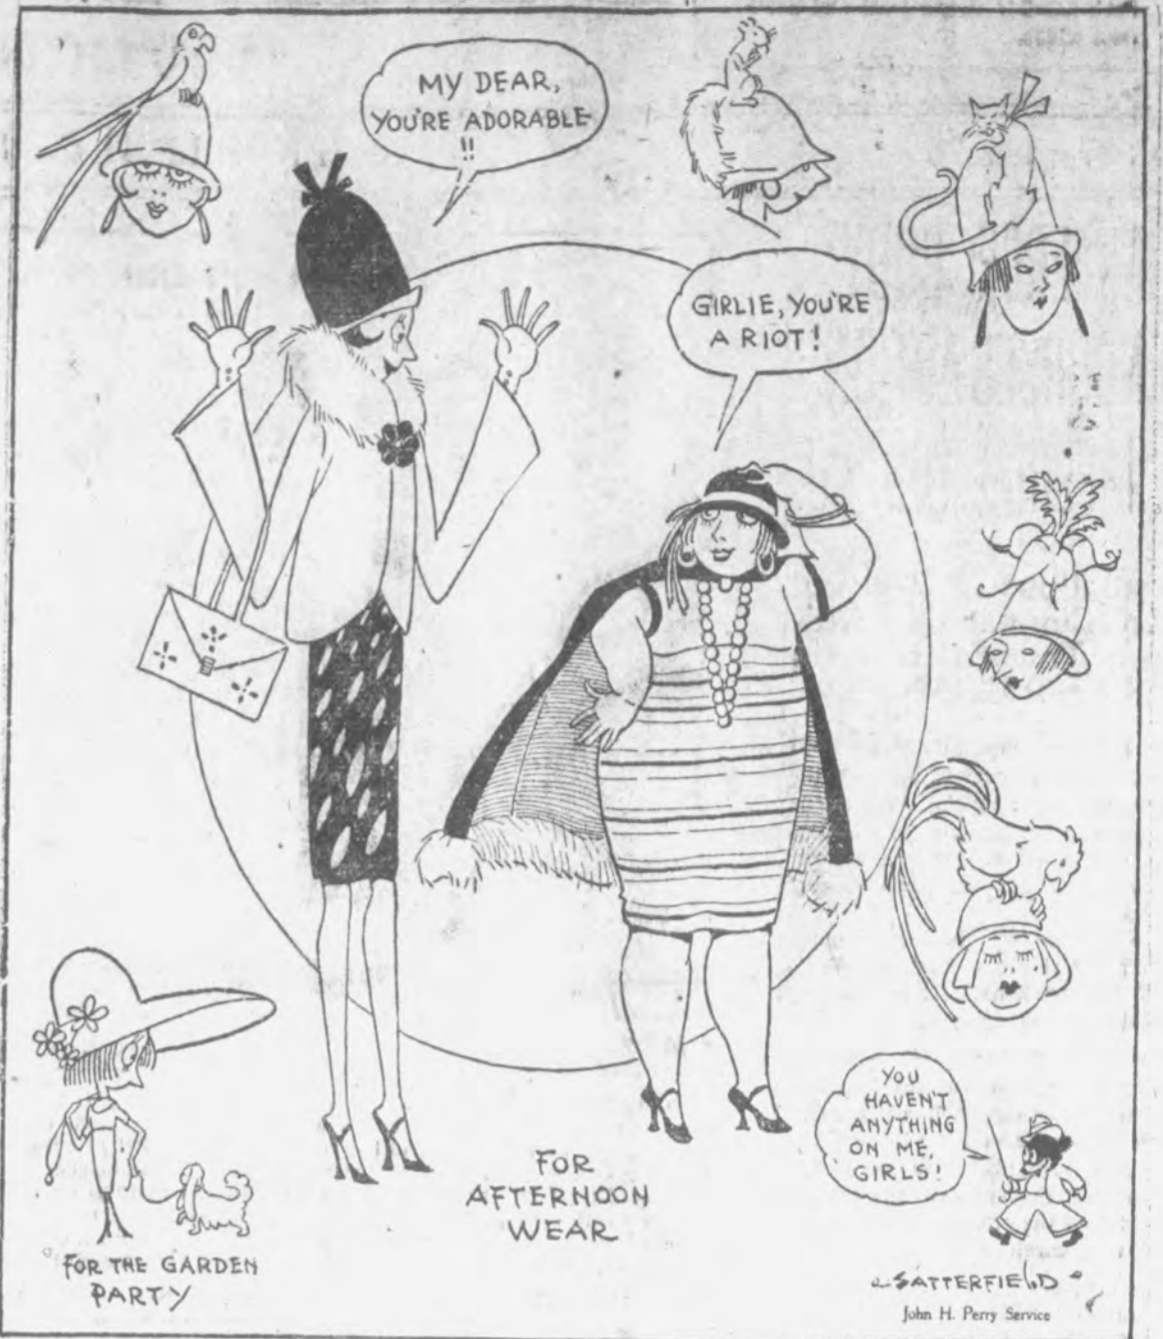

"Until then I suffered with severe bilious attacks that came on two or three times each month. I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief. After taking the pills my bowels would act a couple or three times, then I would be very constipated.

"A neighbor told me of Black-Draught and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. "It seemed to cleanse my whole system and make me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of 'pep' and could do twice the work."

HAWAIIAN CANNA STARCH FINDS READY MARKET IN UNITED STATES

Honolulu. — Hawaii's most recent industry—the production of starch from canna plants—came through the past year with a total output of 22,000 cases, according to announcement by Edouard R. Doty, secretary of the Hawaiian Starch Company.

The entire production will be absorbed on the mainland and is sought anxiously by mainland manufacturers of starch who mix it with their own product to raise the quality, Doty said.

The manufacture of starch from are afoot to celebrate the 650th anniversary this year of Amsterdam's status as a city. It was in the year 1275 that the municipality received its first charter as such from Floris V, Count of Holland.

The center of attraction is to be an exhibition in the famous Ryks Museum and the City Museum of all paintings, prints, sculptors and other works of art having relation to Amsterdam during the past six and a half centuries.

In addition to such famous Rembrandts as "The Night Watch" and the "Stadmeesters."

EXPERTS TEST AIRPLANES FOR FLIGHT TO POLE

Oslo, Norway.—Successful tests have been carried out by the first of the two airplanes which Captain Roald Amundsen will use in his flight to the North Pole. The trial was conducted at Pisa by Lieutenant Dietrichsen, who is to pilot one of the machines when the actual flight is made.

A second airplane, now nearing completion, is to be tested shortly and should it pass the test both machines will be packed and shipped to Spitzbergen. Captain Amundsen intends to start on the flight to the Pole about June 1.

ATWATER KENT RADIO

ATWATER KENT R-A-D-I-O

THINK WHAT IS BACK OF IT

Stability of Policy

Makes the Atwater Kent Satisfactory to Both the Dealer and the Purchaser

When Mr. Average Citizen buys an Atwater Kent Radio or Loud Speaker he can feel satisfied that he is getting a square deal all around. And the Average Citizens are rapidly reaching that conclusion for themselves. There is no question of price—the price is already as low as the quality of the instrument will permit. There is no question of after service—the purchaser knows that his dealer will give service—if it should be needed.

And the Atwater Kent—made in the largest factory of its kind in the world—is without an equal in the Radio field.

WE PROTECT THE DEALER AND THE DEALER PROTECTS THE PUBLIC

Back of the Atwater Kent there is an experience of 25 years in the making of electrical instruments of exact precision. Back of this "know-how" ability, and unlimited facilities, is a superb organization. This organization of factory men, road men, distributors and local dealers all work in harmony. Even such details as a National Advertising Campaign are so arranged as to protect the local dealers in the small towns and to give them the benefits.

We invite inquiries from prospective purchasers or dealers in towns where we are not represented.

Miller & Rhoads

The World is Your Market-Place!

MILLER & RHOADS serves a vast and diversified clientele, whose wants are almost as numerous and varied as there are individuals.

In one respect, however, their requirements are identical: whatever the article or merchandise, our patrons have come to expect of us the best.

Because no single country can adequately supply these universal wants, we draw upon the markets of the whole world.

England excels in certain merchandise; France in others; Belgium, Austria, Germany, Italy, Checo-Slovakia, the Orient—each has its specialties. America, of course, enjoys world-leadership in many lines. To these lands, and numerous others, the long arm of the Miller & Rhoads Store reaches out and picks of the best.

In addition to the foreign purchasing offices which we maintain, representatives of the Store make trips abroad yearly to make personal selections.

Thus, the world becomes your market-place when you shop at Miller & Rhoads'. Feel free to call upon us, in person or through the mails, whenever we can be of service.

Parroll Bros.: We are bullish at
these prices.

J. S. Bache: It looks as though
the market was quiet. Thoroughly
liquidated.

Monds: Market has beenish aver-
age on belief that spot shorts are in
easier position and prospects are
better for rain in Texas.

Orvis: The market has lost im-
portant bull friends and any substan-
tial rally is calculated to bring out
liquidation on the part of those who
failed to accept the recently higher
quotations as a good selling level.

Hubbard Bros.: Unless a general
soaking rain comes the market will
recover from any further break.

Gwathmey: The materialization of
rain in the southwest might cause
some further sharp setback in prices
but otherwise we think the market
has acted remarkably well, and do
not look for any substantial further
reaction.

GRAIN

Tribune says: The wheat was dis-
posed to look for lower prices should
the selling continue on a liberal scale.
Enormous liquidation has been on in
wheat for several days, with pressure
from professional who are bearish
and from foreign hedgers. It is said
that the foreigners sold around ten
million bushels during the day here
and in Winnipeg. Under the condi-
tions, opinions are worthless.

Clement, Curtis and Co.: News re-
mains generally bearish.

Bartlett, Frasier: We do not hesi-
tate now to advocate purchases.

Harris Winthrop: The situation
is still very much unsettled.

Stein: Liquidation is pat to ex-
tend somewhat further.

Logan and Bryan: While some
further downturn is possible, we would
not press the selling side at this
level.

make a new high eventually it should
sell upwards of 176, but whether its
sponsors can keep it strong is an
open question. Allis Chalmers also
made industrial headway, among trad-
ing leaders heavy buying orders were
thrown into American. Can several
times when the general list gave
signs of falling. The outlook for
Can is bullish enough that any sym-
pathetic decline with the market will
be brief and may not come at all.

PEDESTRAINS GIVEN RIGHT OF WAY OVER LOS ANGELES AUTOS

Los Angeles. — The new traffic or-
dinance recently made effective here
gives pedestrians the right of way
over motorists outside of the central
traffic zone. One afoot desiring to
cross a street at any intersection not
under police control is supposed to
signal his desire by holding up his
hand to approaching motorists, whom
the law obliges to stop until the cross
walk is clear.

The pedestrians, however, are held
rigorously to rules, in that they are
prohibited from crossing streets any-
where except at corners. "Jaywalk-
ers" are liable to arrest. In the down-
town congested districts the foot traf-
fic is required to follow the police
signals and move with vehicles.

Violators of the ordinance, includ-
ing "Jaywalkers," are subject to a
fine of \$50 and a jail sentence for the
first offense; a \$100 fine and ten days'
confinement for a second violation,
and for the third transgression a fine
of \$500 and a six month jail sentence.
A dozen pedestrians were arrested
the first few weeks of the new law.
Police officials look for more complete
cooperation when it is realized that
the regulation saves time and pro-
tects life.

The original draft of the ordinance
proposed that horse-drawn vehicles be
banished from the congested districts,
but that section was revised to ex-
clude horses from the downtown street
between the hours of 4:30 and 6 p. m.
The ordinance in general has em-
braced the recommendations of the re-
cent national conference on street and
highway safety held in Washington at
the request of Secretary Hoover.

Lloyd George Still Guarded.

London.—Although no longer in
office, former Prime Minister Lloyd
George is still attended by a detec-
tive, says the Evening Standard.
More than once he has asked to be
relieved of this supervision, but the
government, mindful of what hap-
pened to Sir Henry Wilson immedi-
ately after police protection was
withdrawn, has been unwilling to
take the risk.

Ancient Books Durable.

Seattle, University of Washington
library officials declared that pro-
ducers of books in the days of Swift
and Dryden put more durable bind-
ings on their books, than do mod-
ern printing establishments. As
evidence it was pointed out that one
book published in 1683 and several
issued shortly after that were on the
library's shelves for circulation.
