City Limits of Durham Will Be Extended Today

Durham, April 1. — "East side, west side and all around the town" became a part of Durham today. Extension of the city limits became effective, taking into Durham proper the former suburbs of East Durham, West Durham, Lakewood and a part of what is known as the Braxtown section. It is said that, with its limits extended, Durham now has a population of more than 40,000. For many years the boundaries of Durham had been circumscribed, a great proportion of the city's population, as a trade unit, being on the outside of the actual municipal limits of the place.

However, the extension of the corporate limits brings into the city several thousand citizens who will hereafter be enumerated as residents of Durham proper.

OFFICIAL OF COTTON GROWERS ASS'N. IS ASKED TO RESIGN

Raleigh, April 1.—Because of alleged "indiscretion" in connection with the North Carolina Agricultural Credits Corporation, Arthur E. Bing, secretary and treasurer of the North Carolina Cotton Growers Cooperative Association, has been requested to resign his position. Action by the board of directors was taken late yesterday. Confidence in Mr. Bing's integrity and efficiency was expressed in a resolution adopted by the board in requesting his resignation. The credits corporation was organized in 1923 to secure loans for members of Tobacco and Cotton Co-operative Associations of North Carolina, and Bing was named as its secretary-treasurer. The organization was re-organized on February 27th, of this year, when the Federal Intermediate Credit Bank of Columbia held up loans to it, pending settlement of certain internal difficulties. The nature of the "indiscretions" of Bing were not mentioned in the resolution adopted yesterday.

Raleigh, April 1.—Arthur E. Bing, Secretary Treasurer of North Carolina Cotton Growers Cooperative Association, whose resignation has been requested by the directors, stated at two o'clock this afternoon that he had not yet resigned. Reichswehr Soldiers Panicky and Dash Head Long Into Water

Velheim, Germany, April 1. — Further details of disaster yesterday at Detmold, in which 78 Reichswehr soldiers were drowned in the sinking of a pontoon, were received here today. When the pontoon, carrying about 100 men across the Weeser river, began to sink, the officers immediately ordered the soldiers, most of whom were young and inexperienced, to rid themselves of their guns and kits, but the men grew panicky and dashed headlong into the water. Many evidently thought they could wade to the shore, which seemed quite near, but as the river at that point is about 300 feet wide, and the current rapid, and the depth about nine feet, it was more than the soldiers could handle. They were hot from marching, and it is believed that many were numbed by the shock of the cold water, and thus rendered incapable of helping themselves.

PROSECUTION IN CHAPMAN TRIAL COMPLETES CASE

Two Pistol Experts Positively Declare That Fatal Bullet Was Fired From Chapman's Gun

Hartford, Conn., April 1.—After two pistol experts had positively declared that the bullet, which killed Patrolman James Skelly in New Britain last October 12, had been fired from Gerald Chapman's gun, the state's murder case against the notorious bandit was completed shortly before noon today.

Directly after the prosecutions closed, Nathan O. Freedman, one of Chapman's lawyers, moved that the indictment be dismissed on the ground that the state had not proven its case against Chapman. The motion was denied.

Testimony was given by Dr. Geo. W. Dunne, a state witness who attended Skelly when he was dying, that Walter Shean had been identified as the man who attacked Skelly, by the latter when he was dying.

Skelly was fast losing consciousness when Shean was brought before him and the identification was made, the Doctor said. When asked if Skelly had said "I am sure that man shot me," the Doctor said he could not remember.

Shean, who was witness for the state, yesterday had said that Chapman shot Skelly in a store robbery, and several other witnesses had testified to the same effect. The state closed its case with the introduction of the state's testimony by the two firearms experts, who had said that the bullet taken from Skelly's body had been fired with the gun found on Chapman when he was arrested at Muncie, Indiana, January 18.

OUR QUEEN

Miss Lillian Hooker, has been selected by a committee of the Local Chamber of Commerce to represent Greenville in the Queens' Contest at Smithfield during this month. Miss Hooker is making preparations to attend and with the support of the citizens of Greenville she will win honors.

In making the selection the committee could not have made a better one. Miss Hooker is one of the state's most beautiful and attractive young ladies. She is of a brunette type and possesses a striking personality. For the past few years she has attracted wide attention on account of her unusual beauty.

It is the custom each year for a Queens' Contest to be conducted in connection with the Eastern Carolina Exposition. Each town which is a member of the Eastern Chamber of Commerce sends a queen. On Queens' Day the young ladies selected appear on a stage and the Queen is selected by popular vote.

Miss Helen Joyner and Mrs. Curtis Per-

kins, formerly Miss Elizabeth White, have won in previous Queens' Contests by a large majority. Greenville has the reputation of having the most beautiful "little maids," in the state, and by sending another beauty, we will add to this reputation and win an enviable niche.

"Our Queen" will do her part and it is up to Greenville to support her.

Let's attend the Exposition, especially on "Queens' Day" and bring back to Greenville another honor and a \$500 diamond ring.

A WONDERFUL RECORD

The report of the Secretary of the Southern Association of Colleges shows that of the 25 members of the graduating class of 1923 of the Greenville High School 23 went to college and in the first year's work of these students more than 95 per cent of the work was passed. Out of the 23 students there were only three who failed any of their studies there being a total of six subjects failed. The failures were two in English, one in French, one in Mathematics, one in Science and one in Home Economics.

The average for the entire state was 87.8 which shows Greenville's percentage of 95 far in the lead. Such a record is much to the credit of the local schools both from the standpoint of the number of its students who attended college and the high averages made by them in their advanced work.

There was an amendment filed in reducing the authorized capital stock of F. P. Cover & Sons, Inc., of Andrews from \$1,000,000 to \$500,000.

WONDERFUL RESULTS

Mr. Philan writes that he had kidney trouble, purchased Hobo Kidney and Bladder Remedy from a drug store at Winfield, Louisiana, and now writes to give testimony of the wonderful results he obtained by taking it.

He says he never had a recurring symptom since taking Hobo Kidney and Bladder Remedy.

Hobo is an herb balm made from an herb that grows in Louisiana and East Texas. It contains no alcohol, opiates, or habit forming drugs but the herbs from which it is made carry a purifying property that has been found of great remedial value.

For sale by all druggists at \$1.20 a bottle. A six bottle treatment costs \$6.00 and is guaranteed to give satisfaction or money refunded.

"You Will See Many HORSEHAIR HATS

IN THE EASTER PARADE!"

One prominent fashion authority made this sweeping statement very recently.

15.00

Women want to look dressed-up on Easter—and the new, large horsehair hats are decorative and at the same time have the simplicity, typical of the season. Made up in lovely soft shades—or black. With a gay flower—or a glittering pin. Very smart. Come and see the Vogue versions of this mode. You'll want one for your own Easter bonnet!

THE WEATHER
Temperatures slightly warmer over the belt, light rainfall reported in Shreveport district, showers in San Antonio and Fort Smith districts also light rain scattered eastern portion of Oklahoma and around Okla. City.
Forecast: Wednesday eastern belt mostly fair; central belt slightly unsettled. Western belt cloudy to part cloudy.

COTTON
Hubbard: Generally speaking sentiment continues to be very bearish on the idea that the crop will probably look well in its early stages and that consequently buying cannot be expected until early summer. On the whole exports continue large and are very nearly seven millions bales which with the amount of cotton that American mills will need between now and the end of season should leave a limited supply in this country.
Munda: We think the technical position of the market as well as crop justifies a more friendly attitude toward cotton around current prices.
Weld: See no occasion to alter our expectations of a scalping market during the immediate future.
Orvis Bros.: Technical conditions in cotton appear sufficiently strong to warrant further rally which we expect.

GRAIN

Liquidation in grains is over as far as the largest holders are concerned, one of the largest commission men said yesterday. Several of the big traders in the east are said to be bullish and long on wheat regarding the break too rapid. At the same time they say they see nothing in the immediate future on which to make a big advance, but they believe there has been decline enough to warrant buying and a better tone for the markets.

VIRGINIA COLLEGE TO OPEN SUMMER SCHOOL IN MEXICO

Williamsburg, Va.—When the College of William and Mary opens a summer school, at the University of Mexico, in June of this year, the second oldest institution of learning in the United States will make an effort to promote better understanding and friendship between the two nations by studying the civilization of Mexico at its hub, the oldest university in North or South America. It will be the first instance of mutual recognition between the University of Mexico and an American college, officials have declared.

The agreement with the Mexican university was obtained in line with the policy of William and Mary to enlarge its foreign summer school idea. A group of students, under the guidance of C. E. Castaneda, of the Spanish department of the college, will spend six weeks in Mexico City. Regular courses in English subjects will be offered by four members of the William and Mary faculty, but the students may avail themselves of any of the branches of study offered by the University of Mexico.
