New York Times Publishes Copy Right Interview in Which Doheny Gives His Own Story

interview today, in which Edward L. Doheny giving his own story of the Naval Oil leases discloses what he indicates as being regarded hitherto as a great military secret. Speaking at Los Angeles to a staff correspondent against the advices of counsel, the Times says Mr. Doheny declared that there never would have been an Elk Hill lease, nor would his Company have undertaken the construction of the Pearl Harbor Naval Oil Base had not Rear Admiral John K. Robison, Chief of the Naval Bureau of Engineering, at Washington, convinced him that a great war in the ed victory of defeat for the United debt.

Mr. Doheny said that every one tion had been warned of the highly at Washington. Anxious consider-confidential and secret character bewho had been informed of the situaference, then in session at Washing what specifically can be proposed or might be wrecked for revels. accepted, of plans for a Naval Base in

WHY NOT STREET SIGNS?

Among other improvements that Greenville could make at a very small cost and at the same time one that would prove of great benefit to the public would be the displaying of street signs at every corner. At present there are but few street signs in this city and persons, especially new-comers, experience great difficulty in finding their way about. Often persons telephone the merchants for goods and ask that they be delivered at certain numbers on certain streets but due to the fact that the streets are not marked the delivery boys have experienced great difficulty in making prompt deliveries and the house-

Where Seven Died in Earthquake Collapse

Some idea is given of the violence of the earthquake in lower California, where a score were known dead as this picture was taken, and in which scores were injured and property damaged to the extent of \$10,000,000, in this photograph of the ruins of Santa Farbara's largest structure, the San Marco Building. This picture, with others, was rushed across the contnent by means of racing car, airplane and the new telephone transmission process.
