LAST OF SERIES UNION SERVICES SUNDAY EVENING

Rev. L. E. Ballard to Preach Final Sermon of Series Which Has Been in Progress for Six or Seven Weeks

The Union Services which have been held on the Court House lawn during the past six or seven weeks will be brought to a close next Sun-

The Rev. Loy E. Ballard, pastor of the Free Will Baptist Church, and chairman of the Ministerial Association, will preach the final sermon, and we anticipate a large crowd to hear him.

Mr. Bailard has endeared himself to the whole city by his consecration and earnestness. No minister in the county works harder or more joyfully than does he, and we rejoice in the success of his labors as seen in the increased membership of his church, which is growing steadily all the time.

Jast Sunday night the required sum to liquidate the expenses of these meetings was met by the collection. There will be no collection on Sunday evening therefor.

Let every one who can possibly attend do so, and give the Rey. Ballard the finest audience of the series of this summer's meeting.

DON'T BE THE SUCKER

The report that the American public this year has invested another billion dollars in fraudulent schemes coming just on the eve of a wave of prosperity in this section should be a warning to our people to guard carefully the proceeds they receive from this year's crops. In recent years stock salesmen of every description have infested our section during the fall season with promises of great dividends on investments but the result has in most cases been the fleecing of the farmer of his hard earned cash. The sad experience of those who invested in Fisheries Products and like concerns should be fresh in the minds of our people when they are approached by the salesmen who paint beautiful pictures of flowing gold or bubbling oil wells, which will turn the small savings of the prospective purchasers into fortunes over night. Before you invest your money look the proposition over, consult your banker or some reliable investment house and make sure that your money is not being put into some" "fly by night" scheme. Let the citizens of our community make known the fact that they are not among the suckers who are alleged to be born every minute.

because there are not now enough prisoners to justify the upkeep of the institution by the county should remove from the minds of the calamity howlers the fears that "the country is going to the dogs."

ARE YOU GOING AFTER BUSINESS?

Are you taking advantage of your opportunities? When the tobacco market opens and the growers begin to do their fall trading they will spend their money with those concerns that have established themselves in the rural home through the medium of advertising. Already plans are being made for fall purchases and the buyers are choosing their prospective purchases from the advertising columns. Are you taking advantage of your daily opportunity to carry your message to these prospective customers or are you gonig to wait and let the progressive business man sell the goods?

A BILL NYE MEMORIAL

The dedication of a memorial window and tablet to Bill Nye yesterday in Fletcher, N. C., takes place on the seventy-fifth anniversary of his birth. It is almost thirty years since after long service as a staff contributor to The World, Nye died near Asheville. The memorial is another evidence of the genuine hold gained upon American affections by the group which included Nye, Josh Billings, Orpheus C. Kerr, Petroleum V. Nasby and Artemus Ward. Except for Ward, their books are forgotten. Only an occasional witticism is remembered. Probably older readers alone will recall how Nye directed so scribers to the office of his journal, the Boomerang, "go down the alley, enter the stable, twist the gray mule's tail and immediately take the elevator;" or how he wrote from a New England lecture tour that "I wore a plug hat, but conversed freely with the common people." Yet the reputation of the group will long endure. Trained for the most part on the frontier-Nye was reared in Wisconsin and became a Wyoming editor-they expressed an elemental humor which was sane and The announcement that a New Hampshire racily American. It is said that it will also contain the largest single area of virgin timber in Eastern America,

The indifference, or opposition, which was at first manifest, has entirely disappeared throughout the western part of the state, it is said, and enthusiasm for the park is growing rapidly. Leading lumber companies operating the section are giving the plan their support, it is stated. Lumbermen are quoting as saying that there remains sufficient timber in western North Carolina, in addition to the area to be embraced by the park, 'to keep them busy many years.

The Great Smoky Mountain area is said to contain the greatest variety of wild flora and fauna anywhere in the Southeast, as well as striking scenic beauty. The average altitude of the section proposed for park furposes is said to exceed 6000 feet,

many peaks running up even higher. The subject of a national park in Eastern America has created wide interest throughout entire western North Carolina, and there has been much speculation, ever since the question began to be agitated, as to what location would be chosen. Natives of western North Carolina have contended for many months that the Great Smokies offer exceptional advantages for park purposes. The large stand of virgin forest, the wide variety and beauty of plants and flowers, and the fact that much of the land is not inhabited and is used only for timbering purposes are among the arguments advanced in favor of the Smoky Mountain

YOUR MOUTH The Gate to Your Health

Bad teeth kill more people than bullets. Good teeth save more lives than police forces. Bad teeth harbor disease germs and feed poisons into the system. Good teeth give perfect mastication, aid digestion, and are an efficient protection to good health.

To the Tobacco Farmers of Eastern North Carolina

In engaging in the warehouse business in Greenville we have one fixed and determined policy, to which we shall endeavor to adhere at all times, and that is SERVICE TO THOSE WE SERVE.

We have secured as co-workers with us in this business as capable and well qualified men as ever handled the sale of a break of tobacco and the policy we have adopted will cover the entire range of the business from the trucker who unloads your tobacco to the office man who hands you your check. The same careful attention and courteous treatment will be shown the small farmer as the large one and likewise we propose to handle our business in such a way as to make every buyer who follows our sale feel a personal interest in doing so. In other words, we shall endeavor to so conduct our business as to make it pleasant and profitable alike to both the seller and the buyer.

On the strength of our ability as warehousemen and the merit of the policy we shall pursue we ask the patronage of the tobacco farmers of Eastern North Carolina.

Yours very truly,

O. L. JOYNER SONS CO.

Elaborate Styles Become The Fall Fashion Note

Let us tell you briefly some significant points about the Silk Frocks now coming in for Fall showing. First we note the tendency for gracefully flared lines and molded effects in the silhouette. Indeed, there is much versatility in the treatment of the skirts. The necklines come in for a good deal of attention. They are mounting while sleeves descend to wrist length. Tuxedo revers and shawl collars are some of the interesting details of the neckline. Gores and inverted pleats are skilfully used, and where bodices are slender skirts are usually circular. This just gives a sketchy idea of what the Silk Frocks are like, but why say more when you can so easily see them?

C. Heber Forbes

TELLLING TOUCHES

AUTUMN HATS

Fashion may be a whimsical creature, but she is very decided about certain things especially hats. This fall she gives free reign to small velours and felts; lets their brims be turned up, turned down, slashed, rolled and sometimes lets them almost disappear.

Crowns though, except for a few which go to slightly exaggerated heights, are small, snug, creased if one wishes, and by all means graceful. Of appliqued motifs and brilliant bugs, Fashion approves.

Need to Suffer Another Day Agonizing Torturing Those Pains

There is one simple yet inexpensive way to reduce inflamed, swollen toe joints and get them down to normal and that is to apply Moone's Emerald Oil night and morning and people who suffer from such enlargements would be wise to reduce them before they reach a more or less chronic stage. Ask Pitt Drug Co., or any first class druggist for an original two-ounce bottle of Moone's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time and further more if this wonderful discovery does not give you complete satisfaction you can have your money refunded. Special note People who want to recuce swollen or varicose veins should get a bottle of Emerald Oil at once. Applied night- and morning as directed they will quickly notice an

improvement which will continue until

the veins and bunches are reduced to
