OUR SATURDAY NIGHT MEDITATION

NO. III

"Not foraking the assembling of ourselves together, as the manner of "some is." Hebrews, 10:29 .--

It is probable that the neglect of public worship to which the writer to the Hebrews refers was partly due to the fascination of other cults. There were many religious sects and semi-philosophic societies clamoring for notice in that day and age; and "some" of the early Christians were tempted to join these contempory schools of thought, and to esteem them higher than the new religion of Jesus.

Just as to-day good men, who ought to have joined the Church, are to be found in Masonic, Odd-Fellow, Pythian and kindered lodges; and quite content with their fraternal affiliations.

Far be it from me to say a word against these organizations. I know something of the value of the vast work they are doing for God and man. I would not minimize their influence or unselfishness. But I want to point out and emphasize the fact that none of these Fraternities would be in existence if it had not been for the Church and the truths the Church taught and preserved. Secret Societies of this sort can be, and ought to be, the handmaidens of the Church, for they were all born of Religion and nourished by Religious faith.

Sell Your Tobacco with MOYE & GENTRY

Our sales this week have been very satisfactory. Tips and heavy tobacco are selling good. We advise the farmers to grade tips and heavy tobacco next and hold their primings that are not graded until later. When the bulk of them have been sold we think they will bring more money. Our sales are increasing daily, and our customers are pleased with the effort we are making. FARMERS, now is the time you need strong warehousemen to protect you. If you are not selling with us it will pay you to come over and see what we are doing. Hear F. E. Boone, our Auctioneer, and see Moye and Gentry making the hardest fight of their lives to get the highest market price for every pile of tobaccco they sell.

Urges Big Attendance

At Sunday School The city schools have just opened with the largest attendance on reccord. The program of work is the biggest ever undertaken, and great results will be accomplished by every one connected with this work.

The tobacco market has recently opened with the prospects of the biggest season we have ever had. Prices are not as high as some anticipated. but they are getting better every day and in due time they will be most satisfactory to all concerned.

A great construction program is under way in Greenville and Pitt county. This is the foresight of some for a bigger and better Greenville and county. To grow in any line means growth in other lines. Prosperity for you means prosperity for me. To get the most out of life we must be interested in the growth of our community as a whole. Selfish interest is a draw back to any individual or any community. The fact that we all are working for the interest of the other fellow and for the interest of our town, county and state accounts for the great stride' we are making.

Now, for the opening of our Sunday schools Sunday morning at 9:45 and our church service at 11:00 a. m. and 7:30 p. m. Possibly the hours of opening have been mentioned to you before. If they have not, without fail, make note of them and be sure to be on hand at each of these services at the opening hour. There is no bigger and better work for anyone than the Sunday school work. Plenty of work for everyone, from

the youngest to the oldest. We have LEAVES FOR CHINA grown on a large scale in a material Mr. Alfred Kennedy, of Rocky way and to what extent? GORMAN'S MARKET REPORT

The sales this week have been large but there has been no "Block;" although to avoid blocking GORMAN'S has had to double up; that is run two sales at the same time in our house, but with Dick Gorman and Will Moore to take one of the sales and the "Old Man" and Claude Brown the other, our Customers were well protected and went home satisfied. On GORMAN'S first sales this week we have had a house full and sold all of each day. Our second sales were about as large as any sale in town. There is a reason for our selling so much. We have no hired neighborhood Drummers, pay no Truckers and give no rebates. If you are not selling at GORMAN'S, talk to some of our many satisfied Customers or come see our sales and compare with others

GORMAN'S sold this week 736,702 pounds at an average of \$16.23 and we sold a lot of mean common tobacco, some so common we had to put it in the stables. Prices on the better primings have been easier since Tuesday as the Imperial stopped buying the priming grades they were buying but they went on TIPS very strong and we have a strong tip market. We feel sure we will have a much stronger market on the bright primings and we advise you to stop grading on the thin brights and grade your tips as we believe they are about as high as they will be.
