WHO'S WHO IN DOUBT AS THE VOTE TOTALS MOUNT HIGHER

Contestants Urged to Keep Standing Well Toward Top of List; Few Days Remain for New Workers to Enter

If you are one of the contestants in The Daily Reflector's subscription and prize campaign who put in some real hard work last week, there is no question about you having made rapid progress. Your vote total is usually mounting and the names of those who can continue such good work should be well up on the list when the judges announce the winners to the waiting multitudes on Friday night, October 29th.

Contestants should take little notice of the idle gossip one may hear on the street about this and that one going to win. There is no other person connected with the subscription drive of The Reflector's outside of the campaign manager who knows anything about who is in the lead or any other phrase of the campaign.

Don't take any stock of what some may say because like you they are guessing. Nobody knows how many votes you have but yourself and the campaign manager and nobody else will know until the campaign is over and the final standing of the workers are made public.

The list of candidates have been carefully trimmed by the campaign manager who has left only those on the list, with the exception of just one or two, who have showed by their own individual efforts that they are interested enough to put forth effort in order to share on October 29th in over \$2,700 in prizes and commissions.

If anyone who has been taken from the list feels that an injustice has been done then The Reflector will be glad to restore their name upon receipt of two yearly subscriptions.

Now that the campaign has settled down to a selected few, all workers are urged to publish some of their small reserve coupons in order to keep their name well toward the top of the list for the public and their friends alike to see that they are in the running.

The rules provide that a contestant may publish enough of any votes held in reserve to equal the leader of the previous list and then 10,000 additional. It is good policy to stay around the top of the list if one has the necessary votes for a lot of support will come your way that would otherwise go to some one else. Get to the top and stay there from now on should be the watchword of those who want to gain every vote possible.

Candidates should exercise extreme precaution in filling out the stubs they turn in to the campaign department. Make sure the name and address is written plainly and complete. This insures the subscribers getting their paper on time. If your friends are kind enough to give you a subscription the least you can do to show your appreciation is to make the stub out correctly and do your part in helping The Reflector to put on and deliver promptly to a large number of both old and new subscribers.

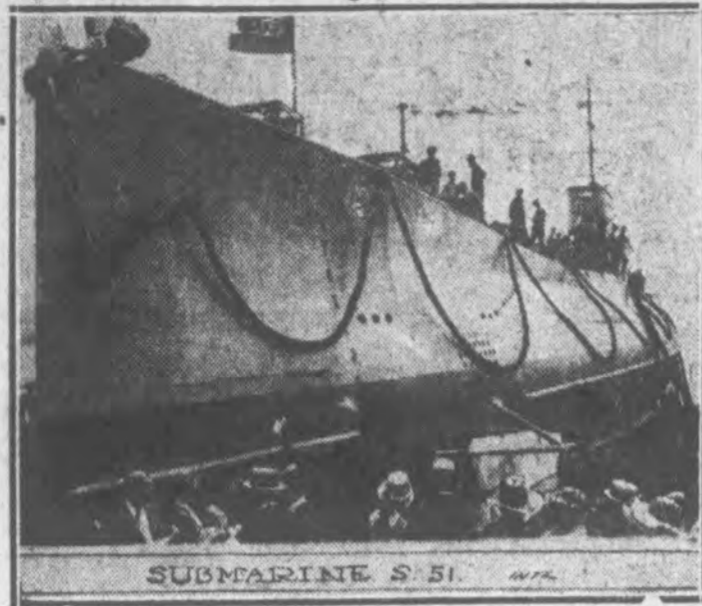

Just a few more days for new workers to enter. Oct. 8th will close the list. A Hudson Coach, 1926 Ford Coupe, \$50 Living Room Suit, \$187 Dining Room Suit, \$115 Radio Set, \$50 and \$30 in cash besides commission checks to all non-winners waits those who send in their name to The Reflector. To win you clip the free \$50 vote coupons from the paper and secure other votes by having your friends subscribe.

Woman's Club Will Meet Thursday

The Woman's Club will hold the first meeting of the year on Thursday afternoon at 3:30 o'clock in the annex of the Model School. Every member is urged to be present as many matters of vital importance to the club will be discussed. Plans for the selling of tickets to the annual banquet on Thursday evening Oct. 8, will be made.

The club this year expects to accomplish great things which will be impossible without the interest and co-operation of the entire membership.

Rammed by Steamer

The U. S. submarine S-51, rammed by the coastwise steamer City of Rome, near Block Island, R. I., was sunk with thirty-seven men on board. The submarine was making a trial run, one of her first trips. The steamer was not damaged.

WEATHER EXPERT TESTIFIES BEFORE COURT OF INQUIRY

Lieut. Joseph Anderson Describes the Terrific Storm Which the Shenandoah Encountered

Lake Hurst, N. J., Sept. 28.—(AP)—That the great airship Shenandoah held true to her course in the face of gathering clouds in which the responsible officers aboard it looked no menace for the craft, was disclosed today before the Naval Court of Inquiry by Lieutenant Joseph B. Anderson, weather expert aboard the ship. Describing the cloud which had covered the airship throughout the night of September 23, Lieutenant Anderson said there was nothing that showed a severe storm in the formation and when the ship began her first ascent no concern was caused to officers in charge. In a few minutes however it came home to all that the craft was in the worst storm she ever had encountered.

The statement of Lieutenant Anderson disclosed that a study of the weather map made soon after the Shenandoah left Lake Hurst satisfied Commander Lansdowne the Captain and Anderson that thunderstorms would be encountered on the next day in the Ohio Valley. Lieutenant Anderson was awakened at three a. m. and Commander Lansdowne drew his attention to a storm in the offing. Prior to this Lansdowne had changed the course of the ship to the South, but Anderson after studying the clouds advised that the original course be adhered to, which was done.

After that clouds began to form rapidly and a strong wind came up and Anderson then suggested a change of course to the South, but since neither he nor the captain could see any immediate danger in the clouds ahead the captain decided to hold the prescribed course until danger threatened.

Shortly after when the ship began an uncontrolled ascent it was realized that the air currents were stronger than expected. From that time until he smashed up, the Shenandoah virtually was out of control in the terrific winds that first carried her back down at an alarming rate and finally broke her in two.

Local Tobacco Market Averaged \$23.09 Yesterday

According to official figures made public by Secretary K. W. Cobb, the local tobacco market on yesterday averaged \$23.09, the highest average of the season. The day's sales totaled an offering of 729,054 pounds which sold for \$168,337.90.

80 Departments Are Against Consideration Amer. Debt Proposals

Washington, Sept. 29.—(AP)—The French Mission was advised today by Pierre Bertrou, editor of Le Quotidien, a French newspaper, that local legislatures of 80 departments out of the 93 have sent representations to Premier Painleve against consideration of the American Debt proposals.

FASHION DISPLAY IS NOW CREATING MUCH ENTHUSIASM

Fall Fashion Display and Automobile Parade Will Take Place Tuesday Evening, October 6

No one event of its kind ever before undertaken in Greenville among the merchants has created as much enthusiasm as has the Fall Fashion Display, window exhibit and automobile parade which takes place on Tuesday evening of next week, October 6th. Without a single exception those participating are making preparations to have displays that will equal those of the larger cities, and already merchandise bought especially for this event is beginning to pour in and in most cases are being unpacked and secreted away to be shown for the first time locally on the evening of October 6th.

This joint showing of seasonal merchandise is bound to meet the approval of the buying element, and it has already been termed by the business interest of the city as the beginning of a new era in retail merchandising in Greenville. The merchants are directing their efforts as one unit to make the occasions excellent yet attempted in this part of the state.

The display will be different from that of former years, because of the fact that the showing will not be confined to any particular line of merchandise. While it has been a practice heretofore to show just such items as belong to the wearing apparel of men and women, it is the purpose of the business places participating to make the exhibit applicable to their every department which means a new showing of all general lines of merchandise to be found in the retail district of the city.

There are several features connected with the event, among them being an automobile parade, participated in by dealers who are members of the Association, in which the newest types of cars will be shown. A free open air radio concert will be heard from the street curb, and a voting booth will be placed at Five Points for those in attendance to vote for the most attractive couple seen among the crowds. In voting neatness of appearance must be considered with that of looks. A cash prize will be awarded the couple receiving the largest number of votes.

Negro Bandit Arrested Here Saturday Night

Ellis Fagan, negro bandit, was arrested here last Saturday night by the police department. This negro is noted for being a highwayman and robber, having served on many road gangs in this state and also the state prison. He stated when arrested that he had been arrested and had had his finger prints and photo made many times and that his finger prints and photo had traveled many miles. He is known to many police departments in this state and other states.

FINAL PREPARATIONS MITCHELL BEGINS ARE BEING MADE TESTIMONY BEFORE FOR TRIAL OF COLE AIR BOARD TODAY

Fifteen Lawyers for Prosecution and Defense Hold Conferences

Richmond County Court House, Rockingham, Sept. 29.—(AP)—While the case of the state versus W. B. Cole awaited the arrival here tomorrow of the 200 veniremen from Union county, the 15 lawyers for prosecution and defense today made their final preparations for the trial. Conference among attorneys to whom have been added four from Union county, was the order for the day. William B. Love has been retained as additional counsel by the state and John C. Sikes, and Vann and Millikin have been added to the defense.

During the lull, citizens from Rockingham either turned their attention to the court house and the second criminal case for which yesterday it was arraigned, or discussed the trial of Cole which tomorrow will advance into the jury selections made.

AUDIT OF STATE PRISON SHOWS A SURPLUS \$38,375.80

Statement Included as Revenue \$33,333.57 Wages Earned by Convicts But Not Collected

Raleigh, Sept. 29.—(AP)—An operating surplus of \$38,475.80 in the \$198,842.91 extended for preparatory year ended June 30, 1925, was shown in a statement issued today by the state auditor. The surplus, however, did not take into account the \$198,842.1 extended for preparation of the 1925 crop, nor an amount of \$94,351.84 spent for "betterments" and when considered showed for the fiscal year an excess of expenditures of income of \$254,729.95. The statement included as revenue \$33,333.57 wages earned by convicts but not collected.

The audit took into account moneys spent on crop where the crop had not been harvested and subtracted these moneys from the operating expenses. It also took into account wages earned by convicts on state projects which had not been collected, and listed these as assets. The state auditor department in making the audit public confirmed the fact that this was the first audit prepared during the McLean administration for any state institution, which took into consideration the so called "accrual basis" of financing. Simultaneously with the issuance of the audit, a statement was given out at the government's office dealing with management of the state prison under the McLean administration.

Automobile Service Ass'n. to Be Held in Greensboro Oct. 20

Greensboro, Sept. 29.—(AP)—A short program, with informal talks rather than prolonged addresses, has been decided upon for the program of the first annual convention of the North Carolina Automotive Service Association to be held here October 20 and 21, says C. W. Roberts, secretary of the organization.

Reports received here indicate a minimum attendance of 200 gasoline, tire, battery, and accessory men, Mr. Roberts states. Automotive service men, whether members of the Carolina Automotive Association, or not, are being invited to attend the convention.

At the convention, a successor to F. O. McArthur, of Asheville, who has resigned, as an official of the organization, will be chosen. The directors of the association have recently adopted a resolution protesting against the war exercise tax on new automobiles and accessories.

Resumes Onslaught Among Nation's Air Policies Before Coolidge's Investigating Board

Washington, Sept. 29.—(AP)—Colonel William Mitchell today resumed his onslaught among the nation's air policies before President Coolidge's investigating board. To a click of cameras and snapping of photographic apparatus, the former Assistant Chief of the army air service began his testimony, first asking that he be sworn. He had spread before him a large map of the world and two aides carried voluminous documentary exhibits. The board declined to place him under oath and assured him his testimony would be given credence.

In America the developments of aircraft "has been slow and inefficient," he said. "No surface vessels can exist so long as air crafts are in existence. They can put out of commission any naval surface vessel more effectively and economically than any other unit."

"The destructive" paper he had ready to read, he declared dealt with the administration of the army's services. Chairman Morrow informed him he was free to proceed as he chose.

For exterior enemies, Colonel Mitchell said "we must look across the Atlantic and Pacific," adding that although there was no necessity to expect hostile relations with the English, it must be considered in drafted defense plans, declaring that Great Britain's forces of 1000 airplanes could be landed in Nova Scotia within eight or ten days, he said that American cities then could be reached in about three hours.

Colonel Mitchell said the proposal to develop air defense does not entail larger appropriations, but a redirection of present expenditures.

"Other nations," he said, "are aware of these matters, while we bury our heads in the sand like an ostrich." The army air service, the colonel declared, "is not equipped to meet emergency and many changes should be made in the army organizations including the establishment of a separate artillery corps. Present equipment of the air service was described as of an antiquated type in deplorable condition."

Jardine to Issue Decision on Restrictions of Narcissus Bulbs

Washington, D. C., Sept. 29.—(AP)—William M. Jardine, secretary of Agriculture, will within a few issues his final conclusions on the restrictions on the entry of narcissus bulbs into the United States, it was announced by him today.

The restrictions in question were adopted early three years ago, to go into effect January 1, 1926, and have the subject of wide discussion, both favorable and adverse. The restrictions came to Secretary Jardine's attention when he took office in March, together with arguments to the effect that conditions might have changed since the plan was decided upon originally.

The Agriculture secretary then determined upon a detailed review of the extent to which pests carried by the bulbs might already have a foothold in this country.

The information being assembled by experts from imports still coming in and from field surveys will be available to a sufficient extent to permit within a few weeks a decision based exclusively on actual facts as they exist today, it is stated at the Department.

Mrs. Lansdowne to Appear Before the Court of Inquiry

Lake Hurst, N. J., Sept. 29.—(AP) Margaret Ross Lansdowne, widow of Commander Zachery Lansdowne, Captain of the Shenandoah accepted today the invitation of the Naval Court of Inquiry to appear and make a statement.

Mrs. Lansdowne's telegram to the court suggested no date for her appearance other than that it be made at the latest possible time. It may be that she will not be heard here, but in Washington, if it finally is decided to transfer their inquiry to that city.

Senator Heflin Will Speak in Kinston On October 8th

Kinston, Sept. 29.—James Thomas Heflin, United States senator from Alabama, will speak here October 8 as a headliner at the annual district fair. Willard T. Kyzer, secretary of the Fair Association, today announced that Heflin had been engaged to deliver an address from the grandstand. He will have an audience of thousands of Eastern Carolina farmers and others. His subject has not been announced. He may speak on some economic theme.

Heflin is one of the most popular of Southern orators. He is a native of Randolph county, Ala. He has been in congress since 1914, and previously held a number of local and state offices in Alabama. The senator makes his home at Lafayette, in that State. Kyzer said that with fair weather Heflin would be assured an audience of ten or twelve thousand people.

Two Bands Engaged. The MacDonald Highlanders' band has been employed for the annual fair here October 6-9. The Scotch musicians will be assigned to the grandstand. Another band will play at other points in the grounds. More than forty bandmen will provide the music for the ten-county exhibition.

A soprano soloist is booked for afternoon and evening concerts in the main stand. The music will be a feature of the daily programs.

Hylan to Retire to Private Life At End of Term

New York, Sept. 29.—(AP)—Mayor John F. Hylan today made a matter of formal record, his intention to retire to private life at the end of his present term and to virtually eliminate the possibility of an Independent ticket in the November mayoralty election.

Eminent French Statesman is Dead

Paris, Sept. 29.—(AP)—Leon Bourgeois, eminent French statesman and former Premier, is dead.

The Body of John L. Gibson, Engineman, First to Be Taken From the Wrecked Ship By Divers; Lack Air and Cold Water Keep Bodies in Good Condition

New York, Sept. 29.—(AP)—The Independent Wire & Telegraph Company received a radio message at noon today from the Coast Hampton Air Station, announcing that the S-51 had been raised to the surface and that all on board were dead.

New London, Conn., Sept. 28.—(AP)—The body of John L. Gibson, engineman first class, of Portland, Oregon, was removed from the wrecked submarine S-51 by divers today.

Gibson's body was the first to be taken from the wrecked ship and its recovery followed the complete suspension of attempts to lift the craft with wrecking ships and a concentration of efforts on the part of divers.

The recovery also indicated to those at the submarine base here that the divers at last had been successful in their attempt to get inside the submarine.

Last night when the sea became too choppy for the wrecking ships to work, the divers went down but were unable to get near the hatch which they hoped to enter because of strong tide, which swept them off their feet in the water. Gibson's body was found in the battery room, that part of the submarine which was rammed by the Savannah Line steamer, City of Rome, last Friday night. The message from Admiral Henry P. Christy, in command of the rescue forces, said the divers still were working in this compartment as they plowed their lead weighted feet, through the passageway of the vessel and it was expected more bodies would be found.

Boston, Sept. 29.—(AP)—Orders were received at the Boston Navy Yards today directing that 20 navy caskets stored at the navy hospital at Chelsea be shipped to New Port, R. I. New Port is one of the bases from which operations are being directed in connection with the submarine S-51, which sunk with 33 men last Friday night after a collision.

On Board U. S. S. Camden off Block Island by Wireless to The Associated Press, Sept. 29.—A bugler called attention and blew taps today as the blanket wrapped bodies of two victims of the ramming of the submarine S-51 were lifted tenderly over the side of the U. S. S. Camden, which is working to recover the 33 men who sank with the ship. The first body brought aboard was that of John L. Gibson, 24, of Portland, Oregon, and the second was that of William C. Teschemacher, 19, of Bangor, Penn., whose twin brother also is among the missing.

Both the bodies were in condition, the lack of air in the sunken submarine and the intense cold of the 128 feet depth prevented decomposition.

Blames Army General Staff for Handicaps Upon Air Service

WASHINGTON, Sept. 29.—(AP)—The policy forming body of the War Department the Army General staff, was blamed today for the handicap placed upon the army air service by Lieutenant Benjamin U. Foulois, Commandant of the Mitchell Field, Long Island, and a pioneer in the army air service.

THE VALUE OF EDUCATION

There is no fixed measure of the relative value of trained men and of untrained men. The dean of a Boston college fixes the average maximum income of the high school graduate at \$2200 and of the college graduate at \$6,000. His figures may be accurate as averages, but there are untrained men earning more than trained men and there are trained men earning more than other trained men.

But it is averages in which the world is interested. That one man is made by education or that another gets by with mother-wit does not interest the public. It cares only for generalities, not the exceptions. That is why the statistics of the Boston dean are accepted and why the world concedes the value of an education.

Two who have gone through the same curriculum may be poles apart in the use they make of their minds. One man owes more

to mother-wit than the books could teach him. But he who goes farthest absorbs theory and learns from practice too. The most skillful craftsman at the work-bench does not pour contempt on technical literature, but consults it at every opportunity, knowing where to put his finger on the reference he wants.

The minister who predicts that in another great war in 10 years "Germany will probably wipe France off the earth" may be as badly in his guess as was Germany only a few years ago.

Fair time is here, pick out your best products and enter them for the premiums.

TELL 'EM & SELL 'EM
TELL 'EM & SELL 'EM

THIS IS A STUDEBAKER YEAR

Pledge to the Public on Used Car Sales

- 1 All used cars offered to the public shall be honestly represented.

If a car is suitable only for a mechanic who can rebuild it, or for some one who expects only a few months' rough usage on a camping trip, it must be sold on that basis. Each car must be sold for just what it is.
- 2 All Studebaker automobiles which are sold as **CERTIFIED CARS** have been properly reconditioned, and carry a 30-day guarantee for replacement of defective parts and free service on adjustments.

This is possible because tremendous reserve mileage has been built into every Studebaker, which it is impossible to exhaust in years.
- 3 Every used car is conspicuously marked with its price in plain figures, and that price, just as the price of our new cars, is rigidly maintained.

The public can deal in confidence and safety only with the dealer whose policy is "one price only—the same price to all." For, to sell cars on this basis, every one of them must be honestly priced to begin with.
- 4 Every purchaser of a used car may drive it for five days, and then, if not satisfied for any reason, turn it back and apply the money paid as a credit on the purchase of any other car in stock—new or used.

It is assumed, of course, that the car has not been damaged up by collision or other accident in the meantime.

Not only to the public, but also to The Studebaker Corporation of America, whose cars we sell, we pledge adherence to the above policy in selling used cars.

SUMRELL MOTOR CAR COMPANY

The Studebaker Corporation of America takes pride and pleasure in announcing that the above Pledge is being carried out by

SUMRELL MOTOR CAR CO., Inc.
B. S. SUMRELL, Mgr.

THE Pledge speaks for itself.
It is a formal declaration of the fair and square attitude of Studebaker dealers toward the public.
It is an assurance of honest dealing in a line of merchandising which in some times and places has fallen into ill repute.
It is an assertion of confidence in the reserve mileage built into the sturdy "one-profit" Studebaker automobiles.

"THANK MY LUCKY STARS I TOOK THIS KARNAK"

"I'll Tell Anybody Under the Sun it Took Karnak to Do the Work for Me, and It Sure Did Do It," Says Charlotte Man

"When I tell you that since taking this new medicine Karnak, I can eat anything I want and feel as fine as a diddle afterward it means more than you might think it does, for before I got this medicine fifteen years suffering from indigestion had gotten my stomach in such bad condition it simply rebelled against any kind of food," declares R. R. Hardwell, of 1011 S'egel St. Charlotte, N. C., in his hearty endorsement of this great health builder.

"Yes, sir, I had gotten to the point where everything I ate hurt me," continues Mr. Hardwell. "I was always in misery after eating for my food would sour and form gas on my stomach which was terribly painful and aggravating."

"I tell you I felt so weak and bad for the past several years that I was forced to stop work at times and take a rest trying to build up my run-down condition. I would simply get to the place where I wasn't able to go."

"Well, sir, when I began noticing in the papers how Karnak was fixing up so many people I decided to give it a trial, and I thank my lucky stars that I did. Why, three bottles of this medicine has set me eating like a house afire, and my food is now doing me the good it should be doing and is not causing me one bit of trouble afterward."

"I'll tell the world I'm thankful to be rid of all the suffering I went through with, and I'll tell anybody under the sun that Karnak is what it took to do the work for me. It's a remarkable medicine, have no doubts about that."

Karnak is sold in Greenville by B. S. Warren's, and by all good druggists in every town.

SALE SHOW GERMAN POTASH TRADE THREE TIMES PRE-WAR BULK

Berlin. (AP) — Potash concerns are among the very few German industries that have not suffered materially as a result of post-war financial and industrial crises. They not only have not suffered, but have succeeded in almost tripling their business.

During the first six months of the year 1925 the amount of potash sold by the German industries amounted to 780,000 tons which is almost three times the amount disposed of during the same period of the preceding year and also represents a vast increase over the total of 520,000 tons of the pre-war record year 1913. Every ounce of the stock left over from last winter has been sold, and all the concerns today are working at full blast.

This showing of the German potash business is regarded as quite remarkable in view of the fact that Germany's world monopoly of the business suddenly was broken by the loss of the Alsatian mines in France, followed by the discovery of promising potash deposits in Texas, Spain, Galicia, the Balkans, Mexico and elsewhere.

As to the competitive menace likely to emanate from the newly discovered deposits in other parts of the world, opinions in German potash circles are divided. The heads of one group ridicule the idea of these new potash finds proving competitive in the near future, since, in consequence of the extraordinary potash demand, the reopening of abandoned pits is being considered. On the other hands, the heads of the other group, represented by Director Rossberg of the powerful Winterhall concern, are inclined to view this prospective foreign competition with some uneasiness.

To counteract such a danger, perhaps, the Winterhall concern has started the chemical refining of potash on a large scale. At Kaiserroda on the Werra, a chloride of potassium factory is being erected at the cost of several million dollars which promises to become one of the largest chemical enterprises in Germany.

lice exhibit was the section devoted to German women's police. Cologne with the assistance of American and English women, was the first city to organize a women's section of its police force, the organization being patterned after those of New York and London. Leipsic now is planning to follow Cologne's example. The women police of Cologne, besides acting as a protective force for girls and young women, also exert an influence in child labor.

LAND SALE. By virtue of the power of sale contained in that certain mortgage executed by J. L. Gardner and wife to G. N. Gardner, on the 1st day of

John Robinson's Circus to visit Wilson on Tuesday, October 6th. The earth's circus, John Robinson's will soon be in our midst.

John Robinson comes this year with an entirely new performance from the opening of the gorgeous spectacle, "Peter Pan in Animal Land"

International troupes and families of repute will also be found performing under John Robinson's big seven pole top. The Morales Family from

Mexico, the Sing-Sing Chinese, the Rody Rudynoff's Family from Austria, Sencriva Piedra from South America, and other foreign countries will all be represented.

Tomorrow is the day, White's Theatre the place, and "A Little Bit of Broadway" that clever, scintillating and highly amusing entertainment is the attraction.

Another attractive feature of "A Little Bit of Broadway" will be the singing of some of the latest song hits.

A musical comedy would hardly be a comedy without the comedy, and as this play is a thoroughly modern, up-to-the-minute musical comedy.

Greenville is the only town in this section of the state which will have the opportunity of seeing this play which has made such a big hit wherever it has been produced.

By virtue of the power of sale contained in that certain mortgage executed by J. L. Gardner and wife to G. N. Gardner, on the 1st day of

Robert M. Koenig Found Remedy For Pimply Skin

For years my skin would break out every once in a while—and ointments did very little to help me.

I read a doctor's article stating that pimply skin usually comes from the stomach—and bowels not getting rid of the poisons.

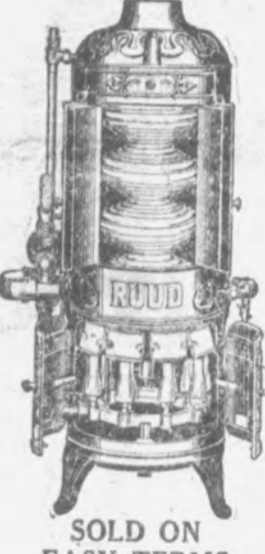

I tried Carter's Little Liver Pills for a few days—and since that time my skin is smooth and clear.

I tell my friends the right way of getting rid of a broken out skin—and also for

of steering clear of upset stomach and sick headache. Carter's are all you claim for them.

ORIGIN OF JAPANESE RACE WAS IN NORTH, SCIENTIST BELIEVES

Tokyo—(AP)—Dr. Ruozo Torii, formerly of the Tokyo Imperial University and one of the foremost authorities in Japan on anthropology, is of the opinion that the Japanese race originated in the North and not in the South Seas. Dr. Torii was quoted recently as stating that the evidence indicated that the larger part of the stock from which the race developed migrated from Korea, Siberia and Manchuria.

copper drums parts of Chugoku, Shikoku, Tokkaido and Kaga are similar to those which have been found in Yunnan, Indo-China and Siam. There is a great deal of evidence pointing to Malay origin; but the overwhelming proportion of the evidence points to Korea, Manchuria and Siberia.

EDITOR CRITICISES GERMANS WHO COME TO U. S. TO STUDY

Berlin.—Germans who go to America for the purposes of study, are criticized by Siegfried Hartmann, one of the editors of Deutsche Allgemeine Zeitung, in an article in that newspaper. While conceding that the United States has attained much that is laudable, the writer warns his countrymen against apeing American things in general, especially such as are to be considered not meritorious.

"It must not be imagined for a moment," Herr Hartmann writes, "that the United States owe their present economic prosperity to post-war enterprise. Long before the war they had accomplished most things on which many Americans are inclined today to pride themselves. Let us admire the iron energy the American manifests in his industrial life; let us concede the efficiency of his scientific management, but do not let us adopt as our life's objects those of that strange, mixed race overseas. Do not let us sacrifice for the sake of efficiency all our intellectual and cultural ideals, nurtured, cherished and developed for centuries."

ALBINO BABY ALARMS SAVAGE TRIBE IN WHICH IT WAS BORN

Seattle.—Curtis King, a Memphis manufacturer, in Seattle this summer, returning from the Far East, told of an albino child that had been born to parents of the Moie race, a savage tribe wearing brass rings on ankles and wrists and whose ears are pierced with strange ornaments. King said he traveled hundreds of miles out of his way to the settlement of Djiring, French IndoChina, to take pictures of the youngster. When the baby was born the parents and the rest of the jungle community were so amazed that they feared some evil was descending upon them, King related. The child is now four years old.

When Goose Goslin started with the Senators, it was an even bet that a fly ball to him would land on his head. Now he ranks with the best as a fielder. He was always ace high at the bat.

FALKLAND NEWS

Falkland, N. C., Sept. 29.—The Parent-Teachers' Association of the Falkland Consolidated School held its first meeting of the school year on Friday night. At this time the following officers were elected to direct the work of the Association for the coming year: President, Mrs. Sellers M. Crisp; vice president, Mrs. C. H. Hayo; secretary, Miss Lowney Olive; treasurer, Mr. G. H. Pittman. After the election, there was a general discussion of the school needs, and a tentative plan of work for the Association for the coming year was mapped out. This begins the fourth year of the Association in the Falkland school. The people of the community feel very fortunate in having secured so splendid a line-up of teachers for their school this year. They are as follows: David T. House, principal; Misses Lowney Olive, Chapel Hill, Seventh Grade, Hansford Patterson, Manteo, Va. Sixth Grade; Dorothy Hart, Henderson, Fifth Grade; Dora McGlohon, Winterville, Fourth Grade; Ina Belle Worthington, Winterville, Third Grade; Gladys Brown, Macesfield, Second Grade; and Ellen Gilkeson, Staunton, Va., First Grade. The Falkland school will this year be the group center to which the teachers from the Fountain, Arthur and Carraway schools will come for group meetings and observation, according to the plan now followed in the Pitt county school system.

EXPERIMENTS PROVE EFFICIENCY LAGS UNDER HIGH TEMPERATURES. Erivan.—Science has come to the aid of the man who does not want to work in hot weather. Experiments carried out by the Near East Relief among the 15,000 children in its orphanage schools and workshops here prove that mental and physical efficiency are seriously lowered when the temperature rises above 73 degrees. The experiments covered summer

Miss Novella Exum, of Greenville, superintendent of Junior Christian Endeavor work for the Northeastern District of N. C., was the guest of the Juniors of the Endeavor Society here on Sunday morning, when, at their usual time of meeting, just after Sunday school, they gave a splendid program on the topic: "Our Pledge." Miss Exum made a helpful and encouraging talk to the Juniors and gave them an invitation to visit the Greenville Juniors some time

soon. On Saturday night the Intermediate Endeavors gave a most delightful Camp Supper down on the river at Pillsboro Landing, in honor of the teachers of the Falkland school. The big camp fire burned brightly on the broad sand beach, adding its cheerful light to the light of the moon, and close by was spread a most tempting supper—sandwiches, fried chicken, cake, pickles, and other things of equal tastiness. After supper was over a sand-battle was staged everybody was just six years old again; and nobody knew who won or who lost, for when the battle was over, sand covered them all. About twenty-five people from Falkland went over to Fountain on Wednesday to hear Rev. Wm. Black, who, assisted by his singer, Mr. Burr, is holding a series of Revival services in the Fountain Presbyterian church. Mr. Black and Mr. Burr have on several occasions held meetings in the Falkland church, and are well-beloved in this community.

Lady Says She Took Cardui and Never Saw Such Improvement—Was So Weak Couldn't Stand.

Weathersby, Miss.—Mrs. James M. Hall, of this place, writes that she was "getting weaker all the time" when Cardui, the woman's tonic, was first brought to her attention. After she had taken Cardui a while, she writes that she "never did see such an improvement." "I suffered all the time and had pains all over," says Mrs. Hall. "I was so weak I could not stand. My skin was cold and flabby. I did not have any color. I had always been a very active woman—used to outdoor exercise, walking and going where I pleased, and to get down, not able to get myself a drink, was indeed a hardship. "Nothing seemed to help me, till I began on Cardui. The first bottle seemed to strengthen me, and I sent for five more. By the time I had taken these, I was on my feet, going around, doing my work, gained in health and strength. "I took two more bottles, and I am well and strong. Can work my garden. I haven't had any more sickness." Ask your druggist. NC-165
