COL. MITCHELL ASKS **COURT TO SUMMONS**

Name of President Coolidge Not on List Named by Defense of Those it Would Like to Appear as Witnesses

Washington, Nov 2 .- (AP) -Col. Mitchell on trial by court martial as a result of his criticism of the conduct of the Government air services, today asked the court to summens Secretary Davis of the War Department, and Wilbur, of the Navy Department, as witnesses. Several other high officers of the two departments, reveral members of Congress, and more than 60 army and navy officers also were named by the defense in a list of those it would like to question.

The name of President Coolidge did not appear on the list. The Colonel and his counsel had made up their minds not to try to summon

It was apparent from the Colonel's actions in seeking to bring cabinet . officers and members of Congress into the trial that he hoped to thrash out in court the whole range of issues involved in the service controversy and thus present a justification of his charges that the services had been administered with "criminal and almost treasonable" negligence. Whether the court will admit that procedure is questionable.

The court proceeded with the acal opening of the trial without inmed for Celepel Mitchell's d no furnalistica, was quickly re Dis rict Forester of State Forjed. Asheville, Nov. 2-(AP)-Surrounded by a detachment of National guard troops and deputy sheriffs, Alvin Mansel and Preston Neely, negioes charged with attacks on white women were arraigned in Superior Court here this morning. Shortly after Judge Arthur M. MAN: BUILDER

Man is the huilder of his own fortune. The mark he sets is the plan by which he will work and the blocks with which he will build are the hours of today. An hour misspent today is a block mislaid which must be torn out tomorrow and replaced. On the other hand, an hour improved today is the block laid trim and true that may be forgotten but that will stand the ravages of the storm and leave the tomorrow for other blocks.

The time allotted to man in which to complete his building is short; old age is the taskmaster swooping down upon the worker toiling with mislaid blocks. Men who misuse their hours of youth will spend old age learing haste to spread a protecting roof over their in a hard-working tree. declining years. Not so with the man who makes every hour count in his building plan. His walls shall defy the chill blasts of old age.
