## ROTES ENTERTAIN WASHINGTON CLUB HERE LAST

### Greenville Rotarians Forfeit Barbecue Dinner for Losing Attendance Contest

Local Rotary Anns. members of the Washington club and their Rotarians were guests of a barbecue at the Greenville Country Club yesterday evening. The entertainment of the Washington club by the local Rotarians was their forfeit for losing an attendance contest to the Washington club during the last quarter of the past year. The occasion proved an enjoyable one for all those present.

Following the barbecue which was held on the club lawn all the members and guests gathered in the club house where talks, stunts and songs were enjoyed.

R. H. Wright, of the local club delivered the address of welcome to the visitors and M. O. Fletcher, of the Washington club, responded. Next on the program was a group of selections rendered by the Washington club quartette and added much to the occasion. These songs were followed by a number of stunts participated in by members and ladies of both clubs and afforded much amusement for participants and onlookers. Two of the features of the evening were the address of Rotarian Ben Stewart and recitation by Rotarian Ben Taylor, of the Washington club. Mr. Stewart's address was real Rotary and was an inspiration to everyone to strive harder to attain the heights of the Rotary ideal of "Service Above Self." Mr. Taylor's recitation on "Not Guilty" brought forth bursts of applause and laughter from his audience.

### 373 Laws Added to Statute Books of Kentucky

Frankfort, Ky., Mar. 23.—(AP)—The 1926 session of the Kentucky General Assembly, in adjourning sine die, has added 373 laws to the statute books of the state, besides disposing of three major issues to the state at large.

The legislature, in the early days of the session, defeated attempts to rule legalized gambling, in the shape of pari-mutual-machines from Kentucky race tracks. Strong attempts to place a small production tax on all coal mined in the state was also defeated by a narrow margin, after heated debate.

Evolution was easily disposed of. The measure prohibiting the teaching of the theory of evolution was defeated by parliamentary procedure on an unfavorable report by a committee considering the bill. The measure did not reach the floor for debate.

A two cent increase in gasoline tax, making the total levy of five cents on the gallon; a levy of five cents on each pint of whiskey sold at retail and 10 cents on each gallon of whiskey stored in the state and a 30 cent reduction on \$100 of leaf tobacco stored in the state were outstanding points in the tax legislation of the session.

Good issues of nine million dollars to benefit the state penitentiary and charitable institutions and to reduce the state floating debt were passed to be submitted to the voters at the next election.

Creation of a state purchasing commission to do the buying for the state government; establishment of a Department of Motor Transportation, to control motor bus traffic and licensing in the state; and provision for a pardon attorney to investigate petitions for pardon of state prisoners were important additions to the state's administration forces.

Provision for a ten year adoption of school text-books; a state-wide adoption; and a possible change of twenty-five per cent every two years embodied in legislation passed during the session.

The remainder of the largest number of bills passed in 20 years were to strengthen loopholes in former statutes or changing routine administration policy in state courts and departmental administration of the state and county government.

Now this Gerald Chapman chap. He was bright, but not bright enough to be insane. Durham Sun.

### Mellon Given List Law Breakers

Harrisburg, Penn., March 23.—(AP)—Governor Pinchot today made public a letter to Secretary of the Treasury Mellon, accompanying a list of what he termed the law breakers in Philadelphia who are now withdrawing alcohol under federal permits. The governor would not make public the list but said it contained the names of 81 manufacturers and distillers who withdrew liquor under permit.

Another reason why liquor prices are hard to break is that so many of them overlap. Mobile Banner.

## FILES SUIT FOR \$25,000 AGAINST RALEIGH PAPER

### Rev. J. K. Pertuff Suing Times Publishing Co. on Charge of Publication of An "Injurious Article"

Concord, N. C., March 23.—(AP)—A suit for \$25,000 was filed in Cabarrus superior court today by Dr. J. R. Pertuff, Baptist minister here against the Times Publishing Company, of Raleigh, J. A. Park and Oscar Coffin, all of Raleigh, charging publication of an "injurious article."

The complaint charges that the article appeared in the Times on February 23, last and "was injurious to Dr. Pertuff as an individual and an educator," it being set forward that the paper referred to the minister as an "immigrant ignoramus." He alleges that it also called him "unmanly" and "discourteous" when appearing before a committee discussing the Ponce evolution bill at the last session of the general assembly.

He asserts that the article said he had to be "suppressed" by Chairman Connor of the committee. Mental anguish to his family and himself and an effect to his means of livelihood are charged in the complaint.

### SHIP WITHOUT A COUNTRY FLIES INTER-ALLIED FLAG

San Pedro, Cal., March 22.—(AP)—A ship without a country flies in the oil service out of this port and proves a puzzle to harborers of the world.

It is the tanker Niobe, which carries gasoline from San Pedro to Hamburg, Germany. The Niobe was built in Germany during the war and afterward "hotted to the United States. While the United States did not accept the ownership of the vessel, the shipping board controls it and allotted the tanker to the Standard Oil company. An American crew is carried although the ship has no American papers. For a flag, the Niobe carries that of the inter-allied Maritime council.

As to trusts or mergers, recite the quotation runs, "O investor, where is thy sting? O investigator, where is thy victory." Nashville Banner.

Gas-Electric Buses.  
Poor Little Lambs.  
You Can't Change Men.  
Conditions Good.  
By ARTHUR BRISBANE

"Brokers' loans drop \$163,000, 0.90 in week." That may mean little to you. It means much to Wall Street lambs. Brokers' loans drop because lambs were thrown out of the window and their stocks sold for lack of margin.

Seasoned old operators call that massacre of the innocents "healthy liquidation." It doesn't mean much, only that the lambs' pride and courage when prices go up, are frightened out of their wits when prices go down.

General conditions are better than they have been hitherto, according to Mr. Zukar, of the Famous Players, who has business connections in every community of 2,000 population and up. Talking yesterday to Mr. F. Foran, a merchant of Boston, now on his way to Europe, Mr. Zukar said: "everywhere conditions are better. The improvement is greatest in the rural communities."

Foran thought that would encourage business men generally, somewhat disturbed by recent shrinkage in retail sales, which he attributed to influenza throughout the east.

Motor omnibuses become constantly more important to public and railroads, for short hauls and long hauls. Omnibuses run from San Diego to Seattle, more than one thousand miles along the edge of the Pacific, and other omnibuses carry passengers between the Atlantic and Pacific on regular schedule.

Henry Ford's new two-and-one-half ton truck, soon to appear on the market, will interest everybody and disturb a good many. It will carry the engine of the Ford Tractor, won't cost much and will pull an omnibus with thirty passengers look ahead already being in omnibuses.

Corporation managers aide to bus operation, for instance, Thomas N. McCarver, head of the New Jersey Public Service Corporation, who operates 800 omnibuses, more than any other concern in the United States.

In his omnibuses gas engine develop electricity, and the omnibus is run by electric power doing away with gear shifting and possessing other advantages. The automobile industry is only beginning for those proficient in it. However help the others.

The French say "the more it changes, the more it is the same thing." It is so with the gambling at Monte Carlo. In old days the man with the stacks of 100 franc gold pieces and the piles of palmy French bank notes before him was a Russian grand duke. Now the Russian gentleman losing 600, 000 francs in an evening is Mr. Maleekin, official of the Soviet Republic. It is easier to change men's government than to change the men.

Two women were shot in a Mexican church riot. The populace, believing that the Catholic bishop of San Luis, Potosi, was to be arrested, attacked the troops with stones. A statement by the governor, Abel Cano, that the bishop was not to be arrested and that the government was not hostile to the church did not pacify the crowd.

The Department of Interior struggling with the religious problems in Mexico, declared that his satisfaction started when the number of priests in San Luis Potosi was limited to eighty-five, and all of the eighty-five refused to comply with the new laws.

Yesterday, after the exchange closed, you could buy twenty-eight and one-quarter francs for one dollar—a low price for the franc. Before the war, you could buy only five francs for one dollar. And France "won the war." There is no profit in war, win or lose, and the nations of Europe ought to know it. But some of them don't know it yet.

## LOYD GEORGE INITIATES THE GENEVA DEBATE

### Moves a Reduction in the Foreign Office Estimate; Says His Criticism is Two Fold

Washington, March 23.—(AP) Former Premier David Lloyd-George initiated the Geneva debate before a crowded house of commons today. He moved a reduction in the foreign office estimate in order, he said, to call attention to the recent League of Nations proceedings at Geneva and the action of Sir Austen Chamberlain, the British representative there. This motion is equivalent to one of censure. Mr. Lloyd George said his criticism was two fold:

First, that the Locarno powers were responsible for the failure at Geneva, and second that it was a failure which damaged the machinery of peace to such an extent that many of the best friends of Foreign Secretary Chamberlain despaired of all its effect.

London, March 23.—(AP)—Sir Austen Chamberlain, the foreign secretary, after defending his record at Geneva, today indicated in the House of Commons that if the vote tonight on David Lloyd George's motion to reduce the foreign office estimate was against the government he would resign.

### Sunday Baseball Been Legalized in Kentucky

Frankfort, Ky., March 23.—(AP)—Sunday baseball has been legalized in the state of Kentucky by action of the 1926 session of the general assembly in passing a measure to that effect into law.

The measure, passing both houses of the legislature, was vetoed by the governor, W. J. Fields, on the last day of the session. Receiving the measure with executive disapproval, the general assembly passed it over the chief executive's head, after the house had indulged in heated debate.

### Club Enrollment Agricultural Work Ends Apr. 1

Raleigh, March 23.—(AP)—Club enrollment in the agricultural club work being conducted by the agricultural extension service of State college will end on April 1, according to L. R. Harrill, club specialist in charge of this work. The only exceptions are in the case of some special projects, says Mr. Harrill.

Farm boys and girls in the state, therefore, are being urged to enroll in the club work prior to April 1. They may enroll with the county home and farm agents, Mr. Harrill points out.

Mr. Harrill has been constantly in the field since the first of February, working with the home and farm agents and helping with the organization of clubs in a number of different counties. This year five counties will be used in placing model organizations, to make demonstrations of how club work ought to be handled, says the club specialist.

"Work has been completed in these counties," he states, "and I am glad to state that we have some excellent organizations in the different communities all of which are headed up in one county-wide club. We are trying to teach in this work the most economical and practical methods of conducting progressive farm work. In every community where there are ten or more club members, we hope to form a junior community organization. Through such an organization we shall try to teach the boys and girls how to hold and conduct public meetings, organized plays, games, songs and to develop community leadership."

Local civic clubs, commercial organizations, bank, and individuals are cooperating in this work, says Mr. Harrill, by offering valuable prizes to members making the best records.

## MR. W. J. BAKER DIED LAST NIGHT

### Well Known Young Man Dies From Injuries Received in Automobile Accident Saturday Night

Mr. William J. Baker, 27, died last night at 6:30 o'clock in the Pitt Community hospital from injuries received in an automobile accident Saturday night. Funeral services were conducted from his late home on Myrtle avenue this afternoon at 1 o'clock, by Rev. H. Frederick Jones, pastor of the Memorial Baptist church. Interment took place in the family burying ground at Wilbanks, Wilson county.

Mr. Baker was a well known carpenter of this city, and had a host of friends. He received injuries Saturday night when his automobile driven by Mr. Fresh Water Godwin, of this city, left the hard surfaced road north of this city, ran into a telephone pole and overturned. Mr. Baker suffered a broken arm and internal injuries. The arm was so badly mangled that amputation was necessary.

Mr. Godwin received minor injuries.

The deceased is survived by his mother, Mrs. Mary Baker, of this city, three brothers, J. L. and Johnnie Baker, Greenville, Jodie Baker, of Farmville.

Raleigh, March 23.—(AP)—With income tax receipts of approximately \$260,000 reported today the state department of revenue now anticipates that income tax collections at the end of March will pass the \$5,000,000 mark. Income tax collections during the fiscal year just ended last June 30th totaled approximately \$1,800,000 to date.

## PROHIBITION TO REACH FLOOD TIDE DURING APRIL

### "Wets" and "Drys" Will Appear Before Senate Committee to Testify on Modification Proposals

Washington, Mar. 23.—(AP)—Debate on prohibition will reach floodtide in Washington between April 5th and 17th when wets and dries will appear before a Senate Judiciary sub committee to testify on five modification proposals. The wets will hold the floor during the first week and the prohibitionists will take the second week. The Judiciary committee has accepted the recommendations of its sub committee of five that public hearings be held and has appointed Senator Means, Republican of Colorado, as chairman.

The full committee approved as well the recommendations that only modification bills be considered at the hearing and that the measure by Senator Edwards, Democrat, of N. J., to repeal the Volstead Act be pigeonholed.

Senator Walsh, Democrat, raised the only objection in the committee to the hearings, arguing that they were sought merely to enable wet interests to spread propaganda. The wet leaders themselves hold no hope that any of their modification bills will be favorable reported, but they urged the hearings they explained, so that interested officials, educators, ministers and others could give Congress the benefit of their view as to how the prohibition laws should be revised in order to make enforcement easier.

The inquiry would be conducted by a joint congressional committee and would deal with enforcement and the effect of prohibition on national liberty and respect for law.

Senator Edwards' proposal was made in a resolution drawn up by him for presentation in the senate. To become effective it would need the approval of both the senate and house.

### Seek Name of Boy Lawyer Who Beat Lincoln

Carthage, Ill., March 23.—(AP)—Search for the name of an unknown boy attorney who defeated Abraham Lincoln and T. Lyle Dickey when they defended a Schuyler county murderer in May, 1839, and for a legal document filed in the case in Lincoln's handwriting, is being made in Carthage.

Statements that Lincoln would never defend a murderer are inaccurate, as court records will show, said J. A. Thompson, an old resident of Monmouth, who is acquainted with the case.

"Lincoln was a lawyer practicing before the bar, just as any other attorney," Mr. Thompson declared.

"Somewhere in Carthage there is a motion in arrest of judgment, in Lincoln's own handwriting, but that was taken from the records years ago, and has never been found since. The motion was overruled, and the murder was hanged on May 19, 1839."

"The mutilated records of the court and tradition give the names of the attorneys for the defense as Abraham Lincoln and T. Lyle Dickey, who later became a justice in the Illinois supreme court. No record of the man's name who appeared against them can be found, however."

"The wording of the old records of Hancock county court is that William Frame killed a man of unpronounceable name in a saloon brawl in Frederick, Schuyler county, and so on. Other records have the name of the murderer as Fielding Frame. The murderer and the man he killed were probably transients for neither was known to the settlers. The case went to Hancock county on a charge of venue from Schuyler county."

**SAYING IT IN PLAIN ENGLISH**

Total indebtedness of state and local governments at beginning of 1926, amounted to \$11,630,000,000, an increase of 34 per cent in the past three years.

After allowing for decrease in the purchasing power of the dollar and increase in population since 1913, the National Industrial Conference Board finds that the indebtedness incurred per capita in the last five years, is 40 per cent higher than in 1913.

Interest charges on new bonds since 1913, amounted to more than the average annual borrowing during the decade from 1904 to 1913.

**ISOLATING THE GERMS OF WAR**

Commenting in The Independent, on the aims of the Walter Hines Page School of International Relations being founded at Johns Hopkins University, Baltimore, Owen D. Young, private citizen of the United States, but one of the world's greatest men, says: "Nations through their diplomatic services, collect facts of tremendous importance, but in the nature of things diplomatic intelligence is to promote national interest. Consequently, there is need for disinterested study by men fully as acute as the diplomats, but who stand quite outside their circle of interest, and whose future do not depend upon the success or failure of any national aim or policy."

"The Walter Hines Page School of International Relations plans to begin this study in a modest way and grow up to its full opportunity by degrees. The cooperation of all American universities will permit the work to go forward in a large way at small cost. I dream of the time when similar units in Japan, England, France and elsewhere will be making contributions to the world's store of facts on international relations.

"This generation cannot reasonably hope that its posterity will be supermen; but our successors will be able to do their work far better if we do our level best to provide them with facts now unknown, but merely awaiting discovery. That is a big job, but surely not too big for a generation which has seen what we have seen, and which is marching from one triumph to another in so many lines of thought and work."

**BIG AMERICANS WANTED**

of George Washington, thus coining a new phrase which provides a standard by which we may measure public men and policies. Coolidge paid this tribute to the breadth of Washington's mind:

"No man clung more tenaciously to what he believed was right, or was prepared to make greater sacrifices in its support. But he viewed the right right as a universal principle to be

applied not only to himself, but to others, not only to his own state, but to the nation, not only to his own countrymen, but to foreigners."

He set a straight and narrow standard for our statesmen who feel inclined to exploit national or international problems for their personal aggrandizement, and thus brand themselves as "small Americans."

Too many of us seek laws for the special privilege and enrichment of our own states or sections of the country, lacking capacity to see that the greatness of our country arises from the common interest of all its people.

Washington stands as the greatest American, because he renounced the glory of a kingly crown to build a free republic on principles so sound and broad that we can stand before the world as an example for other nations, and help the world establish higher ideals for all humanity whenever there is opportunity.

**New Method Quickly Banishes Heavy Coughs**

Why be annoyed and weakened by persistent, strength-sapping coughing spells when you can, through a very simple treatment, quickly stop all irritation and very often banish the trouble entirely in 24 hours?

This treatment is based on the famous prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful at bed-time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly removes the phlegm and congestion which are the real cause of night coughing. Thus, with the throat soothed and cleared, coughing stops quickly and you sleep all night undisturbed.

Dr. King's New Discovery is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

**Conquers Bad Breath and is Popular Again**

"The day I started taking Carter's Little Liver Pills," says Mr. John A. Perry of New York City, "my habitual bad breath and bad stomach stopped. I strongly recommend them to all those afflicted with these nasty troubles. I assure you that my own case was a bad one, causing me untold embarrassment, and Carter's helped me right from the start."

Bad breath comes from sour stomach and can usually be relieved quickly by Carter's Little Liver Pills.

They are wonderful for constipation, sick-headache and indigestion and they physic the system in a mild and gentle manner, no bad after effects.

Recommended and for sale by all drug stores.

**Defends English Stage as Serious Profession**

London, Mar. 23.—(AP)—When John Beckett, Laborite Member of Commons, referred to the bejeweled peeresses at the opening of Parliament as a vulgar, garish mob of underdressed women, and compared them to chorus girls, he started something in the theatrical world.

These days one may say almost anything he likes about the nobility and escape unscathed, but the lack of Shakespeare resents onslaught on the stage. Of course, Mr. Beckett, who has achieved fame by wearing a huge sombrero which has perhaps the widest brim in the country, was not attacking the stage. He was after the nobility. But indirectly he hit the stage hard enough to get a sharp reaction.

"It seems an amazing thing, and a wicked thing, that frequent who people hit something particularly nasty to say about somebody they compare their victim to theatrical people," declares Miss Compton. "In this country the stage is a serious profession and our choruses are filled with well-bred, highly educated girls who are working hard and long to make careers."

Miss Compton is one of the leading actresses in England and is one of the most beautiful women on the stage today. She is best known for her work in Shakespearean

roles and other "straight drama." Miss Compton also has several other lines in musical comedy, and there is not much she does not know about chorus girls. "Garish and vulgar!" repeated Miss Compton. "Why, our chorus girls haven't the money to be garish and vulgar even if they were inclined that way, which they are not. They are hardworking girls with pay and most of them can't afford to dress better than I am dressed now."

Miss Compton glanced down deprecatingly at an exceedingly modest outfit of very ordinary material which she was wearing. She was costumed for the impersonation of a girl of the East End. "The majority of our chorus girls have no inclination to vulgarity for the simple reason that they come from good families and are well bred," continued Miss Compton.

West Virginia Lady Says That She Was in a Serious Condition, But Is Stronger After Taking Cardui.

Huntington, W. Va.—"I was in a very weak and run-down condition—in fact, was in a serious condition," says Mrs. Fannie C. Bloss, of 1964 Madison Avenue, this city.

"In my left side the pain was very severe. It would start in my back and sides. Part of the time I was in bed and when up I didn't feel like doing anything or going anywhere.

"Life wasn't any pleasure. I was very pale. I was nervous and thin, and so tired all the time.

"My druggist told me that Cardui was a good tonic for women and I bought a couple of bottles. I took two bottles, then I noticed an improvement. I kept on and found it was helping me. I have taken nine bottles. I'm stronger now than I have been in a long time."

Cardui is made from mild-acting medicinal herbs with a gentle, tonic, strengthening effect upon certain female organs and upon the system in general.

## Hauk's Sunshine Revue Pleases Large Audiences

Hauk's Sunshine Revue, cleanest and most entertaining show that has played Greenville in years, gave its initial performance last night to a packed house and was accorded by all as the greatest show for the money that has ever played Greenville.

Rightly billed, the show of features with Tom Collins and his big bass, fiddle, Billy Cullen and his uke, Baerney Kleeber and his violin, Dorothy Taylor, that cute little soubrette, Edith Cummins, singing the blues, Mary Williams, sweet soprano, Four Musical Kings and the Sunshine Chorus. The show that will please the most fastidious, nothing suggestive in either performance that will rank with a \$2.00 attraction. There will be a complete change of program each day, today featuring the Charleston Wedding and tomorrow the Charleston contest, opens to all local dancers with cash prizes. Special picture, each day, today's being Clara Bow in "Two Can Play." Popular prices prevail and a capacity house is expected to greet this capable company.

### Dwight F. Davis May Visit State During April

Raleigh, March 23.—(AP)—Governor McLean today announced that he expects Dwight F. Davis, secretary of war, to come to North Carolina in April or May, at which time he will take advantage of being in this state to pay a visit to Fort Bragg. Secretary Davis and Governor McLean are warm friends, the governor indicated. They served the national government together during the World War.

### WOMAN ENTERS MOVIE FIELD AS INDEPENDENT PRODUCER

Hollywood, Cal., Mar. 23.—(AP) Mrs. J. SHRDL, SHR SHR D DD Marion Marshall, in home life Mrs. Tully Marshall, is invading the last purely maculine stamping ground of the motion picture field—that of independent production.

The picture she is making will be an unalloyed feminine product, for she has written her own scenario from the novel and she will supervise every important phase of the work.

Male filmfom is waiting to see whether its last bastion is to fall before she attacks.

Miss Fairfax is not a newcomer in the screen field. She has been recognized for a long time as one of the ablest scenarioists in the game. She also has produced pictures under the banners of several of the big companies.

Women can produce pictures, good pictures, but they are prone to overlook the mass of business detail which men know is the key to commercial success," Mrs. Fairfax said. Then she added, "I am going to try to avoid that mistake."

### FIND RARIFIED AIR BETTER INSECT KILLER THAN FUMES

Washington, Mar. 23.—(AP)—Mountain climbers and aviators are familiar enough with the disabling and even deadly effect of rarified air, but it has remained for scientists to utilize thin air in beneficial ways.

E. A. Back and R. T. Cotton, of the department of agriculture, have first reported on the work they and others have done in using rarified air to kill insects in stored articles subject to their depredations. They have found that moths and other insects inside a locked trunk may

### Coolidges Arrive at Plymouth, Vt.

This is the first picture showing the President and Mrs. Coolidge arriving at the humble farmhouse at Plymouth, Vt., to attend funeral services for Col. John Coolidge. In the picture, the President is shown being assisted from the sleigh by secret-service men, while Mrs. Coolidge (on extreme right) awaits him before entering the house of sorrow.

be killed by exposure for a few days to atmosphere from one-fifth to one-thirtieth of normal.

A trunk was placed in a vault from which almost all the air was exhausted and after two days at the moths were found to have been killed and a few days longer exposure killed other insects.

The method is said to be more effective than fumigation.

### RETURNING U. S. ATTACHES ASKED TO MAKE TALKS

Washington, Mar. 23.—(AP)—Commercial attaches assigned by the Commerce department to foreign countries, upon their return to Washington at the expiration of their foreign tours of duty, are now instructed to write radio talks on the business, trade and social conditions of the countries they have been accredited to.

About 100 of these talks have been delivered in the past six months from nearly twenty cities and letters to the department attest to the public appreciation of this new type of instruction and entertainment.

### ANCIENT SQUARE PIANO IN DEMAND AS ANTIQUE

Los Angeles, Mar. 23.—(AP)—A corner in "squares," the ancient piano that was popular before the vogue of the upright or grand, has caused a mild flurry in the musical instrument market here.

The 'squares' until recently were to be found in some numbers at the large piano stores. But the craving for antique furniture and the demand from the movie studio for the instruments to be used in pictures having settings of seventy-five years ago, has virtually depleted the available supply.

A search of the piano shops revealed there are scarcely any left in playable condition.

The case of the old "square" was usually made of rosewood or mahogany; of solid pieces rather than veneering. There was art and skill in the work of the old cabinet makers and even modern owners who do not care for the old instruments for the superb craftsmanship and artistry that went into their making.

### COLLEGE MEN MAKE BEST OFFICERS SAYS VETERAN

Honolulu, March 23.—(AP)—College men make the best army officers when it is necessary to take officers from civil life, says Col. H. J. Koehler, for more than forty years drill master at West Point. It is because the collegian is by training more receptive to intensive study, he declares.

Another of Colonel Koehler's views is that "the American soldier does not fight so much for the flag as because he doesn't intend to be licked by anybody once trouble has been started."

The Colonel was the originator of the mass-command system of giving instructions to troops.

### KNITTED BROWS; CLENCHED FISTS, AIDS TO THOUGHT

Los Angeles, March 23.—(AP)—Knit your brows and clench your fists and you can think better than when you relax and smile. This has been determined by the psychology department of the University of Southern Cali-

fornia. In every test the students showed they could think faster and more accurately when muscles were tense. Frowns speeded examinations.

The experiments also disclosed that students used a difficult set of muscles, in concentrating on each subject of their courses.

True Americanism, about this time of year consists in remembering last year's batting averages of the year's recruits.—Arkansas Democrat.

So Was Mr. Little Who Tells His Experience

Are you tired all the time; worn-out night and day? Does your back ache as if it would break? Do you suffer dizziness, headaches, rheumatic twinges or distressing urinary disorders? You have good cause then, to be alarmed about your kidneys. Do as many of your town folks recommend. Use Doan's Pills—a stimulant diuretic to the kidneys. This Greenville case is convincing:

J. W. Little, grain broker, 1517 Dickerson Ave., says: "My kidneys became disordered from constant riding and weren't acting as they should. The secretions were scanty and highly colored. I had a feeling of listlessness and became tired more easily than usual. I lost no time getting Doan's Pills at Warren Drug Co. and one box put me in good condition."
