BOOSTER PARTY TOURS EASTERN CAROLINA TODAY

Thirty Automobiles Decorated With Streamers and Carrying Advertising Matter Tour Eastern Carolina in Interest of Exposition

The Eastern Carolina Exposition booster party, composed of about thirty automobiles from Greenville, Farmville, Bethel and Ayden were off this morning for all points in Eastern North Carolina. All cars were well decorated with streamers and carried a full supply of placards, posters, caps, and other advertising matter which will be distributed in the various towns visited. Altogether eight routes will be covered, some cars going over to the counties of Bertie, Hertford, Gates and Northampton. Others to Halifax, Nash and Franklin, and some down to Craven, Onslow, Jones and Duplin. The Exposition will be well advertised in every town in these counties, as well as the points near by, as other cars are covering the nearby points. Every member of the booster party seemed to have the boosting spirit and it is a certain fact that a large number of people will visit Greenville during the Exposition week as a result of this booster trip. Members of the booster committee expressed keen appreciation for the cooperation in making this trip a success, which will result in good advertising for Greenville and Pitt county. In conversation with officials of the Exposition it was stated that twenty-five to thirty thousand people would visit Greenville during this week. Among this number being people who have never been to Greenville before, and some who may never come here again. The people of Greenville should make it a point to welcome these visitors and invite them to visit us again. Acquire the habit of boosting your town and county, of making visitors feel at home, and learn that you will appreciate the community in which you live a great deal more.

Report Expresses Opposition to Impeachment
Washington, March 25.—(AP)—Opposition to impeachment of Federal Judge George W. English, of Illinois, is expressed in a minority report prepared by three members of the House Judiciary Committee.
Washington, March 25.—(AP)—Formal articles of impeachment against Federal Judge W. English of the Eastern Illinois District were presented to the House today by its Judiciary Committee.
The articles were five in number and were based on evidence presented at prolonged meetings. A minority of the committee held this evidence insufficient and recommended against impeachment.
Washington, March 25.—(AP)—House leaders plan to call up on the House next Tuesday, the Judiciary Committee report submitted today recommending impeachment of Federal Judge English, of Illinois.

McLean Is Not Man Who Worked With Abernathy
Hickory, N. C., March 25.—(AP)—A. T. Abernathy, candidate for the Legislature from Burke county, who recently made the claims that he had worked on a Philadelphia newspaper with Governor McLean, was informed of the Governor's denial of this fact yesterday and today he wrote a letter to the Hickory Daily Record in which he said:
"I have always been under the impression that Angus W. McLean, who so ably represented the Philadelphia North American in Washington and who, so I thought became identified with President Wilson's administration, was the same man who is now making us the sanest and soberest Governor I have ever

BOARD OF HEALTH HOLDS REGULAR QUARTERLY MEET

Discusses County-Wide Vaccination of Dogs Against the Rabies; Splendid Work Accomplished in Past

The regular quarterly meeting of the Pitt County Board of Health was held in the Health Office a few days ago. The Health Officer made his yearly report showing work accomplished during the year, after which same was discussed by members of the board.
The Board of Health is very much interested in stamping out diphtheria and plans to use the methods we have to prevent same and advise the people of the dangers of come in every way possible.
The attention of the board was called to the fact that some of the places, along the public highways and in towns and country places, fresh meats have been exposed by hanging on the outside of the buildings where flies, dust and other filth had free access to same. After some discussion, an ordinance was passed, requiring the meat handlers to keep the fresh meat under a screen at all times. This ordinance to take effect on May 1, 1926.
The matter of protecting the county from rabid dogs was taken up and this was also freely discussed and the need was pointed out for an ordinance requiring county-wide vaccination. The Board contemplates such an ordinance at an early date, as it seems a very simple matter to stamp out rabies.
There being no further business, the meeting adjourned.

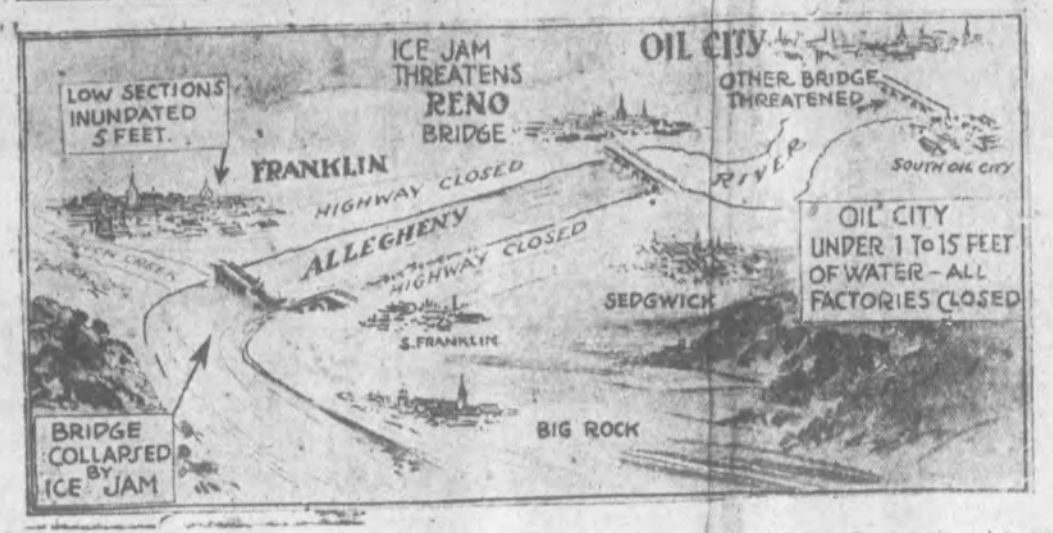

Tax Returns Expected Reach \$435,000,000
Washington, March 25.—(AP)—Income tax collections for the first quarter under the new Revenue law are now expected to reach \$435,000,000, or within \$6,000,000 of the collections a year ago under the higher rate.
This total predicted today at the Treasury exceeds by \$35,000,000 the first estimates of Secretary Mellon on the collections for this quarter under the reduced tax rates. These figures take into account only the income tax collections, but considerable reductions are expected in the miscellaneous tax collections since the new law repeals many of these levies. The increased returns, despite the lower rate, was attributed by Secretary Mellon today to the larger profit last year and to the stimulation in business which he believed resulted from the anticipation of tax reductions.

Ted Coggeshall and Floyd McClelland Electrocuted Today in Georgia
Milledgeville, Ga., Mar. 25.—(AP)—Ted Coggeshall, of Clayton Co., and Floyd McClelland, of Brocken, N. Y., were electrocuted here today for the murder of a year ago of Professor W. C. Wright, Superintendent of the Putnam County Schools.
Coggeshall's aged father and brother entered the death chamber a few minutes before the condemned youth and quietly took their seats, after being searched.
As Coggeshall was being strapped in after he had calmly lighted a cigarette, his father stood before him and grasped his hand and a smile that seemed to be of pride illuminated his face. "Look at him gent'eman," he said. "He is as clean and innocent as the day he was born."
Coggeshall looked him squarely in the eye but did not reply, and his father continued.
"You were a good boy and the future will show it. You have been a good boy all your life and I am proud that you are dying like a man."
Coggeshall's voice was as clear as a bell as he calmly replied: "Good bye, Dad."
Two charges of electricity were necessary because Coggeshall was pronounced dead.
"He was a good man and you found him hard to kill," the aged father commented as the second charge was sent through Coggeshall's body.

STATUTE BOOKS LITERARY JUNK HAPS, SAYS JERSEY JUDGE

Trenton, N. J., March 25.—(INS)—Justice Charles W. Parker of the New Jersey supreme court, is in favor of putting a time limit on laws as a remedy for the present multiplicity and confusion of statutes in the United States.
"The enactment of laws with a time limit," said Justice Parker, "was a very old and frequent practice both in England and New Jersey before the Revolution, a practice which, in my view, could be revived with great benefit to the public."
"Our statute books resemble an old storehouse cluttered with the accumulation of generations. Most of the states from time to time have tried to clean house by revising or consolidating their statutes, but while they have been at work in one part of the house, the legislatures have kept dumping in new measures with little regard to orderly arrangement."

No British Hysterics. A Chinese Lexington. Thicker Than Rubber. Where Is Look-Ah-Tam? By ARTHUR BRISBANE

Bermudsey, one of the Boroughs of the city of London, decides thru its town council, to fly a red flag, instead of the British Union Jack, over the town hall.
Another London Borough, Battersea, inhabited like Bermudsey, by British working people, largely discontented, set the red flag example.
The British don't have hysterics over an incident of this kind, and don't try to put everybody in jail, or otherwise act childishly. On the contrary, they say, "If you WANT a red flag go ahead and HAVE IT."
Wise Britishers know that foolishness is less dangerous if you give it rope.
Ten months ago Chinese students were shot down in Shanghai by the European police in the "international settlement."
You are told that this shooting will be as important in history as the shot fired at Lexington in 1776. But that's a mistake. Shooting a few students in a nation of five hundred millions, overwhelmingly illiterate, is sad, but not important, historically.
Four hundred million of the five hundred millions Chinese have probably not yet heard about the shooting and never will hear of it. It is AVERAGE intelligence that makes events important.

Those that have worried because America's business is getting "too big" may soon worry because American business is not BIG ENOUGH to compete with big business in Europe.
Blood is thicker than water. Britain and the United States are friends. But blood is not thicker than WATER, and the United States have been taking an thoroughly and legitimately through their giant rubber monopoly, with government assistance.
Now comes a great European steel trust, not limited to Britain but taking in France, England, Germany, Belgium, and leaving out the United States. All European nations concentrated on iron and steel production during the war. Now the allies unite with Germany to make that production profitable. Our steel companies are not suffering yet, however. Mr. Schwab's Bethlehem steel raised more than thirteen millions last year and Judge Gary's big United States steel earned more than ninety million yet.
It earned on Feb. 1 pay \$12 a share on the common stock, and the company has more than five hundred million dollars in cash reserve.
If things do not get worse, the big steel company might pay out \$109 cash per share of common stock, and then go on caring \$12 a share. But don't let that make you speculate in steel stocks, or anything else. Big cash reserves are necessary and things may get worse.

ARE THEY TRAINED FOR EVERY DAY LIFE?

To learn how well the elementary school teachers of Chicago are succeeding at their tasks, a random sampling of eighth grade pupils were examined in public by seven appraisers drawn from the city postoffice, association of commerce, and various civic clubs. One appraiser examined their clothes, teeth, hair and general presentability. Another tested the mind use of common tools by asking them to repair a window screen. One gave a ten-minute speech on "What the Public Expects of Its School," and the other pupils were asked to relate what statements had impressed them most. They were asked to look up the life of John Quincy Adams and thus demonstrate their knowledge of the use of reference devices. Further tests given them by the qualified appraisers included: Adding up bank deposit slips; illustrating ability in penmanship, drawing, art appreciation, composition showing literary taste, good manners, and demonstrating knowledge of music, history, civics and safety methods. The appraisers and audience reported that the pupils performed very satisfactorily indeed.

The children examined had been under the direction of trained teachers. Would pupils under immature, untrained, and inexperienced teachers, such as are all too frequently found, particularly in rural schools, make an equally good showing? Granting that the saying, "teachers are born, not made," is true, no one would seriously argue that the professional preparation would not make of a good teacher a better one. Professional preparation implies a body of cultural, scientific and technical knowledge together with the requisite skill to utilize this knowledge for the welfare of society.

and outgo has won the presented figures showing praise of Secretary Mellon, that even if congress made no appropriations outside the regular budget the surplus in 1927 would amount to only \$11,000,000. When total expenditures run into the billions this is entirely too narrow a margin for safety.

Meanwhile, congress is contemplating a number of appropriations outside of the regular budget. The house has already authorized a special outlay of \$25,000,000 for public buildings, and Representative Tilson, the republican floor leader, points out that this single item will convert the \$11,000,000 surplus into a \$14,000,000 deficit. In addition, there is an ambitious aviation program that calls for an expenditure of nearly \$100,000,000 during the next five years; the farm-relief lobbyists desire a special appropriation of \$250,000,000 (to be repaid later if their scheme works), and the rivers and harbors bill and the usual flood of special pension bills will also demand consideration.

The President, therefore was obviously right in warning the country of a possible deficit next year. The fact that tax collections this month have run about 5 per cent above expectations does not really change the situation. These receipts are based on business conditions in 1925, with prosperity at high tide, and there is no real assurance whatever that conditions in 1925, with prosperity at high tide, and there is no real assurance whatever that conditions will be equally favorable twelve months hence. The administration will be fortunate if it succeeds in holding down appropriations so that both ends will meet, and thus avoid the necessity of higher taxation before the end of 1927.—N. Y. World.

OPEN FORUM

To The Editor,
Daily Reflector:
Dear Sir:

Last Easter Sunday a beautiful sunrise song service was held on the Court House steps. Some three hundred of our people enjoyed it. I am writing to express the hope that the same observance of Easter dawn will be held this year.

This should be a communal affair—all the choirs of the city united in leading the songs of the people; and I suggest that the hymn-words be printed for their use.

A piano would add to the melody, and no doubt one could be procured for the occasion.

Mr. W. Haywood Dail, Jr., had the matter in hand last year and we hope he will "start something" this time also.

Yours truly,
CONSTANT READER

Colleen Moore and Carl Miller in "We Moderns" WHITE'S TODAY

Again the society madcap, after a couple of excursions into more mature veins of characterization, Colleen Moore was taken to the hearts of the patrons of White's Theatre, who will see her today in the first local showing of her latest First National offering, "We Moderns."

The plot has to do with Mary Sundal's association with the Blue Bohemians, an ultra-modern

set that is apparently committed to despise and ridicule all that spells convention, old fashioned ideals and formalities of society. Of course, Mary's disillusionment in the end is complete, and old fashioned John Ashlar, as played by Mulhall, is there waiting for her after her fling.

You'll find "We Moderns" just about the best thing Colleen Moore has given you.—It was produced by John McCormick, John Francis Dillon directed.

still doing helpful work among the people by urging a greater appreciation for the things that are being done all over North Carolina for its negro people.

The foremost teacher, Selma Lang, in the Bethel school, cooperating with the principal, Rev. Williams, invited the faculty and former students of the Greenville school to render a program. The purpose of the entertainment was to awaken an interest among parents in this section of the county to a greater appreciation for Messrs. M. O. Blount and R. G. Fitzgerald, who are causing the white citizens to do what they can to make the negro laborer happy here in his homeland.

"Yesterday and Today," was the subject of Principal Epps' address. He said that North Carolina negroes have headed the advance of the once hated conservative negroes and are thereby slow-

ly coming into their own by having here and there over the state great brick structures which are being erected to accommodate negro children. Bickerings and racial strife are passing. Because we are cultivating a saner attitude, we are respectfully requesting, not demanding.

Rev. Joseph Lang, whose wife is a teacher in the school, responded to the address, and also urged the people to practice thrift endorsing Prof. Epps' idea of racial cooperation. A large number of our colored citizens went to Bethel and paid tribute to County Superintendent Fitzgerald and the school authorities. It will be the second brick structure for negroes in Pitt county.

DR. KING'S NEW DISCOVERY FOR COUGHS The most stubborn cough is relieved with the first dose, and is very often broken up entirely in 24 hours by this new method based on the famous Dr. King's New Discovery for Coughs. Here is the method: You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but also loosens and removes the phlegm and congestion which are the direct cause of the coughing. So with the cause removed, the severest cough usually disappears quickly. Dr. King's New Discovery is for coughs, chest colds, bronchitis, whooping cough, croup, etc. Fine for children, too—no harmful drugs. Very economical as the dose is only one teaspoonful. Were You Ever Told

that this Store is as much a "local store" as any other?

that while it is a unit in the buying power of a great National institution, it loses none of its "localism" on that account?

that it is not only local in fact but is all that, plus a position in the open markets of the country which enables it to give a service to the public that is equalled by no other chain department store organization or any other retail concern?

that if it were not for the fact that it sends its money to one centralized point in order that there a buying department can use the ready cash to eliminate the middlemen's profits by commanding quantity purchase prices from the mills, this Store could not give you the savings it does every day in the year?

If you were never told these facts, ask the Manager of this Store to explain them.

Time Students Waste Eating and Sleeping

Evanson, Ill., Mar. 25.—(INS)—Such important points as whether men or women students sleep the most, which takes the longest to dress, which requires most time for study, which spends most time in campus tea fights and the like are being studied at Northwestern University.

It was quite the contrary six or seven years ago, when nearly every club in baseball was well headed at the short field and Maranville, Bancroft, Scott, Fletcher and Gerber were on view.

That layout leaves quite a few clubs who are trying to worry along with indifferent shortstops. To these, we might add the Cubs with Shannon, once before discarded by the majors; the Phillies with Sand, the Yankees with Koening, the Reds with Emmer, the Cards with Thevenow, the Tigers with Taverner and the Red Sox with what have you?

The Council would be composed of the Secretary of Commerce, the Secretary of the Treasury, the Secretary of the Navy, the Secretary of War, the Postmaster General, the president of the Emergency Fleet Corporation and seven civilians, to be named by the President. The latter would represent as many different sections of the country.

The field of first class men, therefore, is narrowed down to Sewell, of Cleveland; Wright, of Pittsburgh; Bancroft, of Boston; Jackson, of the Giants, and Galoway, of the Athletics. The writer is not so certain that Galoway belongs, at that. As a matter of fact Connie Mack evidently felt the same way about it a year ago, for these was some talk of him sending the young man hence. He seems to be a chronic in and out.

There is no such doubt about the other four, however. Three of them, Wright, Bancroft and Sewell, are good enough to have played with any man's ball club, present and past.

French francs fell yesterday below three and one-half cents each a long drop from pre-war value nineteen and three-tenths cents and three-tenths cents. Speculators who expect the French franc to follow the German mark will be with reasonable economy in armaments, an end to financing Poland and other allies, and with reasonable taxation, the French will bring the franc back as rapidly as they choose. To sell France short is dangerous.

Money talks, and says it thinks light wine and beer, or at least beer, will come back. Old brewers are bought by far seeing gentlemen and will be put in condition to produce real beer that the human system can absorb and digest, instead of the "needle" poison sold by injecting poisonous alcohol into non-alcoholic beer.

Citizens buy and drink beer "with a kick." The kick comes from denatured alcohol sold at gasoline stations to prevent freezing. Bootleggers resist the non-freezing product, take one part of the poison and inject the rest into the beer.

NOTICE OF SALE OF REAL ESTATE. By virtue of power of sale contained in that certain mortgage executed by B. F. Parrott and wife, Lucretia, to J. N. NOTICE OF SALE UNDER EXECUTION. Atkinson - Clark Canal Co., vs. W. B. Pollard. By virtue of an execution directed to the undersigned from the Superior Court of Pitt County in the above entitled cause, I will, on Monday, the 19th day of April, 1921, at 12 o'clock, noon, at the court house door of said County of Pitt, sell to the highest bidder for cash to satisfy said execution, all of the right, title and interest which the said W. B. Pollard, the defendant, has in the following described real estate, to-wit:

Rub Rheumatic Pain From Aching Joints. Rub Pain right out with small trial Bottle of old "St. Jacobs Oil". Stop "dosing" rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot", and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacobs Oil" is a herald's rheumatism treatment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones. Stops sciatica, lumbago, backache and neuralgia.
