When You Trade Your Car-

Ford owners are continually be- The amount of the trade-in aling approached by automobile lowance you can get is not the salesmen who wish to "accept" Fords as part payment on more expensive cars.

It is perfectly logical that automobile dealers everywhere should be eager to trade with Ford owners. The Ford is the most popular automobile in the world. No other used car is so easy to sell as a used Ford - because everyone has confidence in Ford quality. And it is not expensive to re-condition, since Ford replacement parts are lowest in price.

Most automobiles carry greater discounts to dealers than the Ford - another reason why other dealers may offer the Ford owner a larger trade-in allowance.

But when you come to buy a new car, bear these facts in mind:

most important thing for you to consider. The big thing is the difference you have to pay. and remember, that the higher priced car will not be so easy to dispose of when you come to trade it in.

If you wish to trade your Ford for a new automobile, stick to the car that you know to be dependable, useful and economical. Go to your Ford dealer!

He will give you a fair and liberal allowance for your present Ford and will gladly arrange payment of the balance to suit your convenience.

When the deal is over, and you have your new and improved Ford, you will have the satisfaction of knowing positively that you took advantage of the greatest automobile value the world has ever seen - and saved a lot of money, too.
