

M'LEAN ISSUES MOTHER'S DAY PROCLAMATION

Governor Calls Upon the People of the State to Observe the Day With Due Reverence to Motherhood

Raleigh, May 7.—(AP)—Governor McLean today issued his Mother's Day proclamation, naming Sunday, May 9. The Governor, through the proclamation, issued a "solemn call upon all of the people of North Carolina to observe the day with due reverence and appreciation of the blessings of Motherhood."

"If we approach the occasion not in a spirit of elaborate gesture," declares the proclamation, "but with true humility and solemn contemplation, we shall find that the day will afford not only a rich measure of spiritual value, but a most practical and enduring value as well."

"Each citizen of North Carolina is enjoined to wear a flower in honor of his or her mother, a red one if she be living; a white one if she has passed on to the Great Beyond, as a token of sacred regard for all the blessings which Motherhood has bestowed."

The proclamation follows: "In obedience to the sovereign will and laudable sentiment of the people of North Carolina, as expressed through the General Assembly, I hereby proclaim Sunday, May the ninth, 1926, as MOTHER'S DAY, and solemnly call upon all the people of North Carolina to observe the day with due reverence and appreciation of the blessings of Motherhood."

"The observance of the day is not merely the outward expression of a beautiful sentiment; it has the deeper and more vital significance of being a generous, wholehearted and solemn celebration of those spiritual qualities for which motherhood has been glorified throughout the ages; it symbolizes unselfish sacrifice and personal suffering without which nothing worth while and enduring has ever been achieved; it means paying homage to gentleness, love, and all those finer emotions which constitute the God-given attributes of motherhood; moreover, it is a call to keep alive the sacred virtues that have made the mother the foundation stone of the home which, after all, is the bulwark of our Christian civilization."

"If we approach the occasion not in a spirit of elaborate gesture, but with true humility and solemn contemplation, we shall find that the day will afford not only a rich measure of spiritual value, but a most practical and enduring value as well."

"Each citizen of North Carolina is enjoined to wear a flower in honor of his or her mother, a red one if she be living, a white one if she has passed on to the Great Beyond, as a token of sacred regard for all the blessings which Motherhood has bestowed."

"Done at our Capital City of Raleigh, this the sixth day of May, in the year of our Lord, one thousand nine hundred and twenty-six, and in the one hundred and fiftieth year of our American Independence."

ANGUS W. McLEAN, Governor

Business Section of Hendersonville Visited By Fire

Hendersonville, May 7.—(AP)—Fire of undetermined origin early today destroyed the building housing Smith's Bakery, and the Clinax Barber Shop, on Main street in the heart of the city, with a loss of approximately \$50,000 and only a small amount of insurance.

The other buildings in the district were threatened before the blaze was brought under control after more than an hour's work on the part of firemen and citizens who came to their aid.

The loss of the bakery was estimated at \$20,000 and that of the barber shop at \$30,000, these losses including the buildings.

Fighting Britain's Labor War

LORD HARDINGE

SIR WYNDHAM CHILDS

Here are the four men upon whom the Government's activities will fall during the great British strike. Lord Hardinge is responsible for the maintenance of street car, subway, bus, electric light and gas service. Sir Wyndham Childs and Sir William Horwood have charge of the regular and special police forces. Sir Samuel J. G. Hoare has the task of keeping the mails moving.

LOCALS ANNEX EIGHTH VICTORY OF THE SEASON

The Greenville High annexed their eighth victory of the season by running rough shod over New Bern by a 10-3 score yesterday p. m., on the local diamond at the fair grounds.

Chauncy worked out a nice game for Greenville, striking out 10 men and allowing but two base hits during the game. The Greenville team hit freely the offerings of all three pitchers used by the visitors.

The locals journey to Scotland Neck this afternoon for a game with the high school team of that town. They are hopeful but not over-confident.

State License Bureau to Open Here On June 1

The State License Bureau, operated by the Carolina Motor Club, will open in the Exide, Battery Service Station, this city, on June 1st, with Miss Ward Moore, in charge.

The public is urged to buy their plates as early as possible as Commissioner of Revenue, R. A. Doughton, has designated July 12th as the last opportunity to buy them. After this time the purchasers will be subjected to a fine. Heretofore, the time has been extended, but according to information, July 12th will be the last day allowed.

Challenges North Carolina Teams

Greenville, S. C., May 7.—(AP)—A challenge to the college teams in North Carolina which claims the baseball championship of that state to play a series of three games for the Carolinas' collegiate baseball title, was issued here today by Coach Billy Laval, of Furman.

HICKEY SEEKS IMPEACHMENT JUDGE MEEKINS

Washington, May 7.—(AP)—Impeachment of Federal Judge Isaac M. Meekins, of North Carolina, former counsel for the Alien Property Custodian under Thomas W. Miller, was asked by Daniel F. Hickey, former employee of the Internal Revenue Income Tax Unit, in a petition filed in the House today.

The petition declared that Meekins was receiving a salary as voting trustee in the Roessler and Haslach Chemical Company when that corporation's holdings were taken over by the property custodian and that he used his influence in the income tax office to secure release for the chemical company and affiliated concerns.

The House was urged to bring impeachment proceedings charging unethical conduct. The petition was referred to a committee.

O. K. K. Dance.

Will Attempt Reach Base In One Airplane

Fairbanks, Alaska, May 7.—(AP)—With chances of further success dependent upon Captain George H. Wilkins' ability to find an Anaktuvuk pass in the Brooks Range of Mountains, the Detroit Aerial Arctic expedition today prepared to attempt to reach Pelet Barrow, their arctic ocean base in the one remaining airplane of the expedition.

Until yesterday the expedition had two planes, the Alaskan and the Detroit, but the Alaskan was demolished when it struck a soft piece of ground in the aviator's field. The remaining plane, the three engine Detroit, has shown in previous tests that it could not rise fully loaded to the elevation necessary to cross the mountains, but Captain Wilkins hopes to pass through an Anaktuvuk pass which is used by dog teams in the trek from Interior Alaska to the Northern Coastal Plain.

George Vanderford Died Last Night

Mr. George Vanderford, 75, died last night at 8:40 o'clock at his home in Gold Point, Martin county, following a long illness. Funeral services were conducted this afternoon at 3 o'clock, with interment taking place in the Crawford burying ground.

Mr. Vanderford was a native of Pitt County and moved to Martin county a few years ago to make his home with his son, Mr. Allen Vanderford. He was a successful farmer and held in high esteem by a host of friends.

The deceased is survived by his wife, five daughters, Mesdames J. W. Warbritton, Pitt county; C. E. Ballard, Martin county; H. J. Forlines, R. B. Rouse, Pitt county; Mrs. T. E. Dickinson, Vance county; two sons, W. Allen Vanderford, Martin county and George S. Vanderford, Gold Point.

SEVERAL PROPOSALS TIGHTENING DRY LAWS ENFORCEMENT DISCARDED Washington, May 7.—(AP)—Several of the administration proposals for tightening dry laws enforcement virtually have been discarded by the Senate Prohibition Committee.

J. D. FLEMING IS PROBABLY FATALY INJURED TODAY

He and Negro Occupant of His Car Hurt in Collision at Fleming's Cross Roads This Afternoon

Mr. J. D. (Captain Dave) Fleming, of this city, was probably fatally injured and an old negro man, by the name of Daniels, was seriously injured this afternoon, when the automobile of which they were occupants was overturned in collision with another car driven by Percy Baker, young white man, of this city. The accident occurred at Fleming's Cross Roads, north of Greenville.

According to the information Mr. Fleming was driving in direction of Greenville and turned to the left to leave the highway at the Cross Roads, just as the other car, driven at a rapid rate of speed, attempted to pass. The Fleming car overturned twice, pinning its occupants underneath.

Baker, who was reported as drinking, was arrested and placed in jail, pending the outcome of the two men's injuries.

Mr. Fleming suffered a fractured skull and other serious injuries, and is in a critical condition. Although the negro occupant of Mr. Fleming's car is badly hurt, it is not thought that his injuries will prove fatal.

H. M. DAUGHERTY INDICTED TODAY

Charged With Conspiracy in Connection With the American Metal Company Case

New York, May 7.—(AP)—Harry M. Daugherty, former United States Attorney General, was indicted by a federal grand jury today with Thomas W. Miller, former alien property custodian, and John T. King, former Republican National Committeeman, for conspiracy in connection with the American Metal Company case.

The indictment charges conspiracy to prevent the Government from receiving the honest and unbiased judgment of Daugherty and Miller, both acting officially as to the turning over of the Metal Company's securities. The indictment charges that it was part of the conspiracy to enable Daugherty, Miller, King and the late Jesse Smith to receive from the claimants of the securities the sum of \$301,000 which was paid for putting through the transfer deal.

METHODISTS REVERSE YESTERDAY'S ACTION FOR CONSTITUTION

Memphis, Tenn., May 7.—(AP)—The general conference of the Methodist Episcopal Church South in session here today reversed its action of yesterday to constitute itself into a committee of the whole next Tuesday for the consideration of a proposed constitution. The conference voted to reconsider its action and passed a resolution to refer the report of the constitution committee to a special committee of 25 which is to report back to the conference Friday, May 14.

TODAY

(Copyright 1926) The World Grows Smaller. Britain's TOO MANY People. Land and Industries. Schwab and Fleischacker. By ARTHUR BRISBANE

Bad conditions in England, industry stopped, class arraigned against class, the fearful word "CIVIL WAR" used by Baldwin in the House of Commons.

No other news short of gigantic calamity near home can be very important while the British strike remains unsettled. It affects every human being on earth.

The entire world is now much smaller than it was when the little classical world scattered along the edges of the Mediterranean, thought itself so important.

Greece and Rome grew up not knowing that vaster, and older civilizations, China, India, dwelt on the planes with them. The journey of a Greek philosopher to Egypt, just across the Mediterranean, not more than a trip across Lake Superior, then, was as great an expedition as would be a trip to Mars now.

The world today is one little settlement, one newspaper tells it all, one stock exchange covers it all, one danger affects it all. Wall Street, the Bourse in Paris, and stocks in Berlin all shiver together.

Nearly 3,000,000 workmen say to the British Government, "You must be ruled by us since we no longer trust you," and that is new in the world's history.

Men have risen against their rulers many times in the world's long history, as the Gladiator slays Rome, or other slaves before the gods, or the Jacques in France. Many have been the springs of the masses, rising only to be put down again.

There have been revolutions successful for a time, as when the French revolution paved the way for Napoleon, and for rule by organized money instead of by organized soldiers.

This industrial civil war in England has able, earnest, EDUCATED and honest men leading. You sympathize with both sides—with Baldwin the Premier, devoted to the people and the welfare of the British, and with Ramsay MacDonald, equally sincere, and determined that the masses of the people, after the great war's sacrifice, shall have better conditions.

MacDonald's tone is conciliatory, but there is an ugly ring to the statement of his associate J. H. Thomas, head of the railway union. "Let us not lose our heads. WHATEVER WRECK IT MAY BRING." The wreck would not be for any one class and the hungry children would be the children of working men, not of the aristocracy.

There is ugly fighting and there may be more of it, and uglier. But there will be no "butcheries of aristocrats" as in France in the Eighteenth Century, or in Russia the other day. That is not the British character.

The losses to Britain will be gigantic and values cut down, for a long period. Striking workers alone will lose \$12,000,000 a day in wages.

The direct cause justifies the strike among workmen everywhere, and helps the cause of foreign agitators, if such are involved as is alleged.

Owners of coal mines that do not work, the greatest among those having inherited, in idleness, coal deposits millions of years old, announced that they would cut wages 13-13 per cent, and increase the hours of labor from 7 to 8 per day, wiping out concessions made to the workers when the war ended, and the cost of food went up.

In the Irish crisis long ago, the British simplified their problem by notifying Irish land owners that they must sell to the Irish farmers at cheap prices, fixed by the Government on long credit, Government financing the transactions. The farmers made their lands pay.

PREDICTS STRIKE MAY BE SETTLED EARLY NEXT WEEK

Optimistic Suggestion Comes From Influential Labor Quarters; Unofficial Peace Makers Work for Solution

London, May 7.—(AP)—The guarder prediction was made this morning by influential labor quarters that the strike might be settled early next week. This is the most optimistic suggestion thus far coming from a reliable source. Upon what it is based was not stated. Unofficial peace makers are steadily working for a solution and the pressure of the churches and other bodies as well as prominent individuals, is being brought to bear to end the trouble.

It is believed that Premier Baldwin and J. H. Thomas, one of the labor leaders, were closed at a late hour last night, but what took place is unknown, although it is assumed that they were discussing the strike.

Especially both the Trades Union Congress and the Government are studying not only how each thing may be done well in their respective ways.

The Government is now today stating that conditions were important throughout the country with only minor disturbances. Traffic conditions were easier with many trains and other transportation facilities available.

While influential labor quarters are guardedly hinting the possibility of a settlement of the strike, crisis may occur when the lock on the surface continues. The British labor chiefs are receiving encouragement from abroad and financial assistance is expected. A significant step has been taken away by the Danish Trade Unions, which has given notice they will strike in sympathy with the British workers.

A. J. Cook, the British mining chief, and Frank Hodges, who heads the miners' International Federation, are flying to Ostend, Belgium tomorrow to seek the support of the International Miners' Conference there.

Disorders aimed at stopping the emergency transportation services continued at widespread points in England, Scotland and Wales today. A growing tendency to interfere with the distribution of food supplies was also reported, but labor chiefs denied that Union men had anything to do with it.

Fresh anxiety was caused by the public by reports of increasing sentiment among Trade Unions in favor of calling the electrical and gas supply workers. This not only would affect lighting, but all electrical services and most of the refrigeration and other vital services.

Another 2,000,000 workers known as the Trade Union Congress' "second line of defense" will be called on strike in support of the present strikers, unless there are indications of a speedy settlement. This announcement was made today by E. L. Poulton, spokesman for the Trade Union Congress.

London, May 7.—(AP)—The Government announced by radio today that all ranks of the armed forces of the crown will receive the Government's full support in any action it may find necessary to take in honest efforts to aid in "roll overers in dealing with strike disorders.

Wearing steel helmets and carrying full field equipment, troops were sent this afternoon into the dock districts of London where the rough crowds are becoming too unruly for the armed police.

DANES SUPPORTING BRITISH STRIKERS

Copenhagen, Denmark, May 7.—(AP)—The Executive Committee of the Danish unions gave the Association of Employees preliminary notice today of their strike in support of the British strikers.

They're Selling it to the Sheriff Now

De Land, Fla., May 6—(INS) They're selling it to the sheriff now! Sheriff Stone and Chief of Police Wilcox of Sanford, stopping the Deland road, were told here some good liquor could be bought at \$37.50 per case. "Take us to it," said the sheriff. They were taken. Driving in a garage where they were to get the contraband, the sheriff saw C. M. Cone, whom the sheriff does not know him. The price was agreed on, and the whiskey was placed in the automobile. "My God, that you Ed?" queried Cone, recognizing the sheriff. "This is me," the sheriff assured him. Cone is out on \$500 bond.

BUSINESS OPPORTUNITY

We are desirous of making connections with a man of means of man who has vision, foresight and ability rather than capital to handle the exclusive distribution in this county for our iceless refrigerator which is made for the home.

ABSOLUTELY DIFFERENT

Our machine is absolutely different in operation. It operates on the city water pressure in the home. It has no wires, coils, valves, etc., and is fireproof and noiseless. It sells for less than \$200 and fits any icebox. Even a small county should net 1800 dollars a year.

STRICTEST INVESTIGATION INVITED

Credit line of credit from 200 to 500 dollars will be needed. This is no territory selling proposition, but is a legitimate business endorsed by bankers.

Our president will be in your city the early part of next week and will give personal interview to all applicants who qualify.

OUR TREES

Who loves a country with out trees?
Much of the beauty of America lies in its great forests and beautiful shade trees.
We all know that our forests are rapidly disappearing and we feel badly about it but most of us do nothing more.
Consider these facts:
Every four years, enough news print paper is made from trees for a strip of paper as wide as a daily news paper and long enough to reach to the sun and back.
North America with one-twelfth of the world's people uses about one-half of all the timber consumed.

Something like 5,000,000 trees are cut annually for telephone and telegraph poles and we use 500,000,000 fence posts every year.
Every year, largely due to carelessness of campers and tourists, an area nearly as large as the state of New York is burned by forest fires.
The railroads of the United States use about 13,000,000 new wood ties every year.
We are using and destroying our forests four and one-half times faster than we are replenishing them.
The area of waste forest land is as large as the states of Pennsylvania, New York, New Jersey, Delaware and Maryland.
With our present methods, in forty-one years, we shall have practically no fine forests left.
The saving of our trees is not a sentimental proposition. Look around and see how dependent we are upon wood. The destruction of our forests would be nothing short of a national calamity.
Popular opinion will bring action that will enact a national forest policy that will save our trees and this is the only large country that is without such a policy.
What can we do? We can be careful about starting fires when camping. We can plant or see that at least one tree is planted every year.
We can urge our congressmen to help secure proper laws for re-forestation.
The soundest kind of business sense demands that we do our part to save our trees. It means life and prosperity for the children of tomorrow.

WORLD LABOR AND THE STRIKE
The conservatism of European working-class com-

ment or the British strike is a reassuring index of the outlook of organized labor in most countries. Here and there an excited voice is raised. The German Communist organ, the Rote Fahne, calls for an international walkout. But in general labor takes a sober attitude, and fears that the strike will result in reaction rather than in winning radical goals.

It is with insistence that the strike is economic and not political that various labor bodies on the Continent have taken action to lend a passive assistance. The Transport Workers' Union in Holland has given notice that no coal is to be loaded for England. French miners, railway men and maritime workers have declared that they will assist the striking miners. The German Miners' Federation has decreed that no German coal must be sold in the British market. Secretary Oudegeest of the International Federation of Trades Unions has announced that his organization will support the British strikers. In effect this means simply that Continental labor will do its best to keep coal from starting for British ports. No labor official, not even of the French "C. G. T." with its Syndicalist traditions, is quoted as applauding the strike as a political coup. On the contrary, German labor leaders predict that the strike will be short, and that labor "constitutionalists" will maintain control.

As a contribution to this conservatism of thought no statement could be more effective than that of President Green of the A. F. of L. Mr. Green voices American sympathy with the miners but only American "interest" in the general strike. Indeed, he asserts that the sympathetic strike is fraught with grave dangers to labor in submerging the primary and probably meritorious causes of the dispute. This is just the opinion that Premier Baldwin quoted in the Commons from an utterance of Ramsay MacDonald's several years ago. Mr. Green went on to say that the A. F. of L. is strongly committed to the careful observance of all wage contracts—which sympathetic strikes would often rupture. Such sober comment on the part of labor furnishes a model for spokesmen of capital to imitate.—N. Y. World.

The Long-Awaited Opportunity
LOTS GO ON SALE TODAY AT BAYVIEW

ON THE PAMLICO

ALL WHO HAVE SEEN IT PRONOUNCE IT THE MOST IDEAL RESORT DEVELOPMENT EVER UNDERTAKEN IN NORTH CAROLINA

A development conceived by public-spirited men who were prompted not so much by a spirit of personal gain as a genuine desire to develop the unequalled resources of North Carolina's most favored section.

These men have financed the purchase of the property, the erection of the hotel, the casino, bathing pier, board-walk and other features of the resort. They have given of their time and energy in planning a project which is outstanding in its appeal to the vacationist, the fisherman and the hunter. An all-year round resort, with splendid bathing and boating, facilities for golf, tennis, boating, dancing and other pastimes.

All this has been accomplished without a single lot having been sold.

YOU, for the first time, are now given the opportunity to share in this undertaking; to secure at a reasonable price a part of this property; to provide yourself with an ideal summer home or to participate in an investment which is bound to be profitable.

YOU take no chances. Whatever risk of loss there might have been was borne by the leading business and professional men of various towns in Eastern North Carolina who sponsored the project. The money to do all the development work has been raised and is now being spent.

Like a magic city there is rising on the shores of the historic Pamlico a resort which for natural beauty and advantages cannot be surpassed anywhere.

BAYVIEW is located on the Pamlico, where the river is five miles wide. Nineteen miles below Washington, N. C., and three miles from Bath, the first capital of North Carolina, rich in its historic associations. The highway is paved as far as Bath; the remainder of the road is being put in first-class condition. Less than four hours' drive from Raleigh.

The Purpose of This Advertisement

Is to invite you to visit Bayview; to inspect the work that has been and is being done; to see for yourself the splendid opportunities which the resort affords, and to let us show you the ideal locations available for summer homes.

Big profits are made by those who know when to take advantage of a situation and who buy when they can do so at the lowest possible figure. You can buy lots at Bayview now at a most reasonable price. Within a month or two these prices will have advanced considerably. And the advance will continue, year by year.

We want you to be the guests of the Bayview Company any day you may designate. Merely drop us a card, notifying us when you will arrive. Without further obligations on your part we will be glad to show you over the resort and to answer any questions or give you any information within our power. Why not drive down this Sunday?

LOTS AT BAYVIEW GO ON SALE TODAY

Lots went on sale at Bayview today. This resort is located on the Pamlico, and is considered one of the most ideal developments ever undertaken in this state.

The development was conceived by a number of men who purchased the property, and is erecting a modern, up-to-date hotel, a casino, bathing pier and other features of a resort, without having sold a single lot.

The public is now being given the opportunity of sharing in the undertaking, by being offered lots on which to build a summer home or as an investment.

The hotel will be completed by June 15. All the amusement features will be centered on the pier.

SALE OF HOME MADE CAKES SATURDAY

MRS. FRED BRYAN ENTERTAINS BRIDGE CLUB

Mrs. Fred P. Bryan was hostess on Thursday evening to the members of her bridge club and a few friends. The home was attractively decorated with wild lilies.

During the progressions the hostess served an iced drink, and at the close of a most pleasant evening, the guests enjoyed an ice cream. The hostess was assisted in serving by Mrs. Jack Overman and Mrs. W. D. Tucker.

Mrs. A. J. Moore making the top score was presented an attractive powder jar, while Miss Virginia Suther, who will be married in June, was remembered with a handkerchief with a motto wishing for her much happiness.

MRS. T. C. YOUNG ENTERTAINS BRIDGE CLUB

Mrs. T. C. Young entertained the members of her bridge club and a few friends on Thursday afternoon at her home on Greene street. The home was decorated with spring flowers.

Mrs. E. H. Foley, making the top score, and Miss Virginia Suther, bride-elect, were presented Madeira tray covers. After a number of progressions the hostess served a tempting salad course.

SCOTTISH RITE MASONRY

No one is permitted or authorized to become a Mason. Of every candidate for the degrees of the Blue Lodge it is demanded that he come of his own free will and accord.

But it is permissible to suggest to those who have thus voluntarily joined the order, that they would receive great benefit from the higher degrees, both of the ancient and

accepted Scottish Rite or of the York Rite; and, indeed of both.

The York Rite is a Christian knightly development of the Blue Lodge work, and leads to the degree of Knight Templar.

The Scottish Rite is an elaborate unfoldment of the morals and ethical teachings of the order which are embryonic in the Blue Lodge. It leads from the 4th to the 32nd degree. It is impossible to over-estimate the value and beauty of this teaching. A man's

life is vastly enriched, and his influence wonderfully extended, if he receives this instruction.

The brethren in the Valley of Wilmington have expended many thousands of dollars to give these degrees an adequate representation, and their reputation for careful work is well known. Any Master Mason in good standing is eligible for these degrees and the next class will be held at Wilmington June 15-18.

World's Most Primitive People Found in Africa

Denver, May 7.—(INS)—A claim to have discovered the most primitive people in the world is made by the United States scientific expedition from Denver which recently spent some considerable time in South Africa investigating the habits and customs of primitive African races.

Members of the expedition, which included Dr. C. E. Cade, anthropologist, Dr. Grant H. John and Paul L. Hoefner, returning home, express themselves as delighted with the results of their researches.

Dr. Cade states that the primitive tribe were a race of Bushmen long believed to have become extinct, and that they were located in the famous Kalahari Desert. Complete movie representations of their life were made.

"The Kalahari Bushmen met us with some suspicion," stated Dr. Cade. "Shyness is one of the characteristics of these primitive races, and they can lie completely in the sand. The poisoned arrow is their only weapon, and one scratch from it means certain death.

"To test our bona fides," related Dr. Cade, "one tribe held a sort of seance. The headmen danced and went off into trances but nothing definite worked while we were there. At eleven o'clock we left, and at midnight the spell acted, so we learned, and the great super-headman, the god of the Bushmen, appeared.

"This great headman was asked whether our party was responsible for the scorpion and snake bites that had occurred while we were there. Fortunately for us the fellow decided in the negative, otherwise it would have been the poisoned arrow for us.

"The diminutive Bushmen of the Kalahari are not only the most primitive race of the present time, but of all time," declared Dr. Cade. "They were believed to be extinct, but I held the opinion that there were still some left. To prove it, we have brought back 50,000 feet of film showing their life and habits.

Paris Prepares for Their Great Suffrage Meet

Paris, May 7.—(INS)—Paris is preparing for her big suffrage conference which is to be held the first week in June in the halls of the old University of Paris. The League of Nations has promised to send a delegate and there will be one as well from the International Bureau of Work.

Miss Ellen Wilkinson will be the speaker from Great Britain, Dr. Gertrude Baumer from Germany, Mme. Hjelmer from Denmark, Madame Bakker-Nort from Holland, Madame Senator Plankova from Czechoslovakia and Mademoiselle Kethy from Hungary, who has the distinction of being the only woman member of Parliament.

West will exchange ideas with the East, for there will be delegates from almost every country in the world, including Japan, Egypt and Turkey. The smaller nations are showing as much interest as the greater ones. And besides, one of the first duties of the Congress this year will be to admit the new countries asking for affiliation.

The constitution of Cuba specifies that only male citizens can have the vote, which means that the women must secure a veritable amendment to the constitution and not only a new law.

women from a professional and civic point of view. But they are constantly refused the right to vote except in the Chambers of Commerce. Up to the present moment, the demand for suffrage has been made in vain, but the women are joining in the cry of "On to Paris" where many hopes may be realized.

The University of S. California Is Hopeful Winning

New York, May 5.—(INS)—After nearly what the outfit did to Stanford and California, to say nothing of the way it did it, only a "contaminated misanthrope" could see how the University of Southern California can go wrong when it comes East this month in quest of its second inter-collegiate track and field title. It seems virtually assured of at least 30 points and that is probably 10 more than it

will need. Seven men were lost from last year's championship team but only one of them was important and Dean Stromwell has made even his loss negligible by adding feet and seconds to the best performances of his remaining stars. Bud Houser, for example, is probably the greatest weight man in the world today and appears to have 10 points at his mercy in the shot put and the discus. At least 5 more will be added by Leighton Dye, who did 143-3 for the high hurdles at the Drake relays, and over the low sticks. The latter race probably will go to a team-

mate, Grambles, who made last year's victory possible. Grambles has done 23-5 this season. Reynolds, Seyer and Kuer are potential scorers in these events also. One of the new men added to the team is Lee Barnes, Olympic pole vault champion, and it is difficult to see how he can miss first place. Barnes recently created a new American record of 12 feet 5 1-4 in height and may go higher. U. S. C. has another 1000 vaulter in Rutz, whose 12 feet 6 inches should get in the money. California middle-distancers seldom run true to form in the East, but if Nienmeh proves the excep-

tion, he is the probable winner of the half-mile. Heiman, a two-miler, is another who should score while House and Smith in the dashes look as good as anyone in the East, if not better. If only 50 per cent of those mentioned were able to give a 100 per cent performance, Southern California probably could finish one, two, three, anyhow. But this percentage is giving the Westerners distinctly the worst of it. Most of their stars are finished products, who can be depended upon to come through under any and all conditions. However, their list is by no means complete. Alexi will score somewhat behind Houser in the shot and discus. Coggenshall could do no worse than third in the high jump and may win; Parsons is a good bet for a place in the furlong dash; Ofstad and Ross are right behind Coggenshall in the high jump and Reynolds looks good for a place in the broad jump. The Eastern field, besides, looks none too good this year. But I don't know that this matters either one way or the other. Taken at face value, Southern California seems to have mustered one of the greatest track and field teams of all time.

Shakespearean productions. "Ever since the wave of advanced plays began I have refused to act in them. But I am convinced now that all London want, sex plays, so I have accepted the inevitable," Miss Titheradge admitted. "It is distasteful to me, but wholesome drama is not successful."

DOCTOR GUEST OF JACKSON LATER SENT PHYSICIAN'S BILL New York, May 5.—(AP)—A doctor who called at his home for dinner and "a glass of grog" only to leave and send in a bill for minor services rendered while there, did not merit the approval of General Andrew Jackson. In the Americana collection of the late William Green Shillaber of Boston, sold at auction here, was a physician's bill to the general. On the back, Jackson made this notation: "Receipt in full of an extraordinary and unjust acct, called to take dinner and a glass of grog on 3rd of July 1804, billed Mrs. J. & charge \$8. No medicine was given."

DEPENDABLE MERCHANDISE

Spreads American Plan of Women In the Philippines

Manila, May 7.—(AP)—Mrs. Sofia Reyes de Veyra, wife of the former resident commissioner at Washington, takes much pride in being the pioneer in the work of teaching Filipino women to be of service in improving health and sanitation conditions in the Philippine Islands.

In 1907, in conjunction with an American woman, Miss Mary E. Coleman, and Mrs. de Veyra organized the first training school for nurses. Today there are nearly 1,000 Filipino trained nurses in the islands who are distributed throughout virtually every province of the archipelago. She also has taken great interest in the organization of some 400 women's clubs in the Phil-

ippines, all of which seek to uplift the native women.

While still a young teacher she was instrumental in starting the first dormitory for girls at Bacolod, Occidental Negro province.

Mrs. de Veyra was educated in a private school in Iloilo, which for more than forty years, has been conducted by the five sisters of the chief justice of the Philippine supreme court, Ramon Avencena. Her instruction at the school was entirely in Spanish, but in order to learn English she exchanged her Spanish for English instruction with an American teacher shortly after American occupation.

Six years residence in Washington while her husband was resident commissioner gave her a opportunity to acquire much information which she is now employing for the benefit of her own people. She became the

head of the domestic science department of Centro Escolar de Senoritas, a school of girls, in which an American cooking outfit is used in demonstration.

THOUSAND UKULELES MONTHLY EXPORTED FROM HAWAII

Honolulu, May 7.—(AP)—A thousand Hawaiian ukuleles a month are being sent to the Mainland, in addition to the dozens carried aboard ships by visiting tourists.

The nui kani, or singing coconut, put a new type of ukulele, also is gaining favor. Incidentally, the name of the most popular Hawaiian instrument is "ookay-laynay" not "youkaleylee" as often mispronounced.

Children, Foreign Born Will Soon Run U. S. Estimates Show

Washington, May 7.—(AP)—Within four generations the United States will be dominated by descendants of present foreign born residents, according to estimates by the Carnegie Institution of Washington, being studied by the House Immigration committee.

Whereas native white now constitute 76.73 per cent of the total population, birth control and other factors will have shrunk this group to but 39.37 per cent. Descendants of the foreign born will in the same period total 51.76 per cent of the whole population, if present birth records are maintained.

The results of three separate surveys by the Eugenics Record office of the Institution at Cold Spring Harbor, New York, on the relation between immigration and numbers and quality of future population, were laid before the committee by Dr. H. H. Laughlin.

"If in any geographical region," he said, "we have the time numbers and quality of its original seed-stock population, and for all subsequent periods we have a record of the age, sex, numbers and quality of all immigrants, the differential birth and survival rates for each population group, we can determine the population number, race and quality at any given future date."

ZULULAND PRINCE IN DIXIE STUDYING AMERICAN NEGRO

Lexington, Ky., May 7.—(AP)—Prince Bullamo, of Zululand,

is in Dixie studying the American negro.

"My purpose is to study my people here along educational and vocational lines," he said. "When return I will establish the same line of work among my people."

The Zulus, most warlike tribe in the whole of South Africa, at the same time are the most refined and Christianized, the Prince declared. He is the son of the war chief Gateway of Zululand who raised the insurrection against England in 1897.

London, May 7.—(AP)—The Government has decided to increase the London police forces by 80,000 by recruiting 50,000 special men as quickly as possible.

YORKSHIRE BOY OF 20 ENGLAND'S TENNIS HOPE

Wimbledon, May 7.—(INS)—John C. Gregory, a Yorkshire boy of 20, stands next to Henry Wilfred Austin as England's coming tennis hope.

Two years ago, in the Championships at Wimbledon, Gregory gave Manuel Alonzo the fright of his life by being two sets up on him in the second round. Since then Gregory has improved in strength and steadiness and also puts real brains into his tennis.

At the recent Roehampton tournament, Gregory easily defeated P. D. B. Spence, the South African Davis Cup player, and later beat G. B. Sherwell, one of the best players in Britain. Sherwell was forced to defend himself from the gack of the court, where he unsuccessfully tried to slow down Gregory's game by a series of high shots without pace but of good direction.

British tennis fans place high hopes in Gregory as a future title holder.

Leaders in social work from all parts of the United States and from many foreign countries will attend.

BRITISH HOME SECRETARY AFTER SCALF SAKLATVALA, MEMBER OF COMMONS

Westminster, May 6.—(INS)—Secretary is out to "get" Shapurji Sir William Joynson Hicks, Home Secretary is out to "get" Shapurji Saklatvala, Communist Member of Parliament who was refused admission to the United States.

"Mr. Saklatvala," said Joynson Hicks in a House of Commons speech, "has for a very long time been a very great temptation to me. I confess that more than once my fingers have itched when I have read some of his speeches."

Joynson-Hicks was explaining the British Government attitude towards Communist propaganda among British soldiers and sailors, in a debate calling for vigorous measures to suppress such propaganda.

HAWAIIAN FISHING VILLAGE OF HOOPULOA UNDER 50 FEET LAVA

Honolulu, May 7.—(INS)—The village of Hoopuloa, which was wiped out by the lava flow which swept down from the great volcano mountain, Mauna Loa, on the morning of April 18, was one of the few remaining old-time Hawaiian fishing communities.

Nestled at the foot of the giant mountain a grove of coconut trees, the village was one of the scenic spots along the entire Kona coast. It lay off the beaten path of travel, and access to it came only by the so-called beach road, a branch leading down about four miles from the main government road which encircles the island of Hawaii.

From this little cove, bronzed Hawaiian fishermen put to sea in their outrigger canoes—not for sport, but as part of the day's work, fishing supplied the chief means of livelihood of Hoopuloa's 100 inhabitants.

Now the little cove of sand where the canoes were beached lies fifty feet under a mass of black lava. The wharf has disappeared and lava fills the little bay which it overlooked.

TODAY

(Continued from page 1) Individual miners could not own and operate parts of coal mines, as Irish farmers work their land. Groups of miners might try but would probably not succeed in making of mining a commercial success.

Thus the Government would be forced to undertake the work. But that would be only one step, railroads would come next, other industries would follow.

It was proved in the French revolution that the only way to content an aroused people was to let them own their lands. It may be shown in England, where lands are less valuable and not able to support the population, that the only way to content an angry industrial nation is to let that nation own its industries, as the French, Swedish and Russian peasants own the soil.

This strike will tell more about that.

England's difficulty is lack of opportunity for all her ambitious men. Imagine Great Britain's population of from 42 to 43 millions crowded into a country a little more than half the size of California, with one tenth of California's fertility.

Such a country cannot feed its population, or supply openings for all the ambition developed there. More of it must go to Canada, Australia, New Zealand, South Africa, India, and the rest of the world. The British people should be more anxious to keep those territories for "overflow" than to fight each other in their little "main office" on the foggy northwest coast of

Europe.

British aristocracy is divided into utter fools and remarkably able statesmen and thinking men. The utter fools are already holding Lloyd George responsible for today's troubles, saying he has arrayed class against class, arousing dissatisfaction with his attacks on aristocratic monopoly of unused land.

They forget that, had it not been for Lloyd George, they wouldn't have any BRITISH Government problem. Without him the Kaiser or one of his sons would be looking after this strike, attending to it with machine guns carefully located in Trafalgar Square, at the Marble Arch and other useful points.

American high finance is worried, as usual. The fatter your white rabbit, the more thud. Fat keeps him from running.

But there is nothing to worry the United States except ITS OWN FOOLISH FEARS.

In New Jersey on the Atlantic, the cheerful Charles M. Schwab, tells this country it needn't worry, "having one-sixth of the world's good population, and most of the world's money."

At San Francisco on the Pacific, Herbert Fleishacker, head of a great bank with dealings all over the world said yesterday "A bad

situation, but the British will work their way out, as they always do. Nothing to worry this country."

The best word came from Baldwin, Britain's able, earnest Premier, at the end of what seemed a discouraged speech in the House of Commons.

"Everything I cared for is smashed to bits, ONLY FAITH AND COURAGE REMAIN."

Faith and courage are ENOUGH, and will solve any problem, Goethe wrote, "Courage gone, everything gone, better thou wert never born."
