

Generally fair tonight and Saturday, except local thundershowers Saturday in extreme west portion, somewhat warmer Saturday.

TRIALS TO END REIGN OF TERROR AMONG INDIANS

Evidence Costing the Government Close to \$250,000 Be Used in Prosecutions

Pawhuska, Okla., May 21.—(AP)—A long campaign to end a reign of terror among the Osage tribe of Indians comes to a head in the murder trials of William K. Hale, John Ramsey and Ernest Burkhardt, which opened in state district here May 24.

State prosecutors will rely on evidence collected by agents of the U. S. department of justice at a cost of approximately \$250,000. The government, barred from prosecution for want of jurisdiction, has thrown its support to the state.

The three defendants are charged with the murder of a white man, W. E. Smith, who with his Osage Indian wife, Rita, and a white servant girl, was killed by an explosion that wrecked their home March 10, 1923.

Although nearly a score of Indians and white persons lost their lives during the period under investigation, the government apparently concentrated its inquiries on three cases—the Smith explosion and the shootings of Henry Roan and Anna Brown.

Hale, a wealthy ranchman, was declared by the government to be the "master mind" of at least two crimes in which four lives were lost. In confessions made to federal operatives and since repudiated, Ramsey and Burkhardt asserted that Hale had bargained and paid for the deaths of the Smith family and Roan, a full-blooded Indian.

Burkhardt is Hale's nephew. His wife is a sister of Rita Smith and the last survivor of a family whose fortune is estimated at \$2,000,000.

Dr. Henry Tull Dies In Kinston

Dr. Henry Tull, one of Kinston's best known and most prominent physicians, died last night at 7:50 o'clock, following a short illness. Funeral services will be held from his home at 11 o'clock Saturday morning, with interment following in Maplewood cemetery.

Dr. Henry Tull was born January 4, 1855, in Lenoir county and was a son of Mr. and Mrs. John Tull. He began practicing medicine in Kinston in April 1876. His success as a family physician was outstanding and he was beloved in many homes of this section of the state.

The deceased is survived by his wife, two daughters, Mrs. W. C. Field, and Mrs. J. M. Parrot; one son, Henry Tull, Jr.; three sisters and two brothers.

Seeks Name

Zizi Lambrino, morganatic wife of Crown Prince Carol, of Rumania, announced she will continue her fight to establish the legitimacy of her son, Prince Mircea, above. Her first skirmish was lost in Paris courts.

CO-OPS TO APPEAR BEFORE MEEKINS

Ordered to Appear June 1 to Show Why Members Should Not Be Released

Raleigh, May 21.—(AP)—The Ter-State Tobacco Co-operative Association must appear before Federal Judge I. M. Meekins on June 1 to show cause why the members should not be released from the obligation to deliver the 1926 crop of tobacco to the association. An order to this effect was signed by Judge I. M. Meekins today following a hearing in the chambers in which counsel for Virginia members and for the association were present.

Judge Meekins also signed an order vacating his previous order in receivership proceedings and throwing the matter of the receivership open again for argument in court.

Milton Tops the Winners in Mem. Day Auto Race

Indianapolis, May 21.—(AP)—Nearly a third of a million dollars has been paid to winners of 500-mile automobile races over the Indianapolis Motor Speedway course in the last ten years.

Tommy Milton, only living driver who ever piloted two winners in the automobile classic tops the winners, his victories being worth approximately \$71,800. Winning the event in 1921, he collected \$20,000 for first place, \$6,300 in lap prizes and approximately \$8,500 from companies whose accessories were used in the car. In 1923 he won \$20,000 for first place, \$8,500 of the lap money and approximately \$8,500 in accessory prizes.

The lap prize plan was instituted in 1920, when automobile firms, manufacturers and citizens donated \$20,000 to provide for the payment of \$100 to the driver leading at the end of each circuit of the 2 1/2 mile course. Ralph complete the 500 miles but had DePalma in 1921, was unable to a profitable ride, winning more than \$10,000 of the lap money.

The Indianapolis Motor Speedway is the only racing organization in the world to give prizes to every starter, regardless of where he finishes. The first ten to finish divide \$50,000 prize money. The others divide \$10,000, the money being apportioned in the manner in which they finish or by the length of time they stayed in the contest.

There seems to be some doubt as to whether "malt tonic" is beer, but the vets leave no doubt what ever that beer is malt tonic.—Miami Tribune.

FARM RELIEF BILLS NOW IN POSITION FOR FINAL PASSAGE

Leaders Doubt Whether Action Disposing of Them Will Be Taken Before Tomorrow or Even Later

Washington, May 21.—(AP)—All three of the farm relief bills with which the House has been wrestling, were finally in position today for passage, but leaders doubted whether action disposing of them would be taken before tomorrow or even later.

Reading of the Haugen Price Stabilization Bill for amendment was completed late yesterday and the Tinchin Credit measure and Curtis-Aswell Commodity Marketing proposal immediately were offered as substitutes under a special rule allowing this unusual procedure. This opened the way for reading of the two substitutes for amendments which may occupy two or three days. Representative Aswell, Democrat, of Louisiana, announced just before adjournment that he would offer an amendment to the bill of which is co-author to authorize appropriation of \$140,000,000 for farm loans. The Tinchin measure carries \$100,000,000 for this purpose. In view of recent conferences between Tinchin and Aswell forces in an effort to compromise the Aswell amendment is taken as evidence that the Tinchin report will swing to the other bills.

Supporters of the Tinchin measure are understood to have no objection to the frame work of the other measures but under the special rule governing consideration of the three proposals it was impossible to offer an amalgamated bill.

Washington, May 21.—(AP)—By a vote of 201 to 182 the House today decided to vote immediately on a motion to send the Haugen Farm Relief Bill back to the Agriculture Committee. It upheld the chair in ruling that a recommitment motion by Representative Madden, Republican, of Ill., was in order and a vote on that motion was ordered.

Miners Delighted Over the Victory Of Pete Latzo

Scranton, Pa., May 21.—(AP)—Anthracite miners of the Wyoming Valley, the home of Pete Latzo, went into the earth today with smile and bulging pockets—the fruits of an amazing conquest.

Pete Latzo, the 23-year-old son of a miner, is welterweight boxing champion of the world. He got the decision in ten rounds last night over Mickey Walker, of Elizabeth, New Jersey, who was a two-to-one favorite. Prayers said in the mining region in the church for Latzo's victory, were answered in the decision of last night.

The owners urged restoration of the eight hour day to reduce cost of production. They maintained that if this were accepted the reduction in wages would be less than at present. The seven hour day is now the standard in the mines. The miners already have rejected Premier Baldwin's proposals by refusing to accept increased hours or reduced wages.

Tank Wagon Price Gasoline Advanced One Cent a Gallon

New York, May 21.—(AP)—The Standard Oil Company, of New Jersey, today advanced the tank wagon price of gasoline one cent a gallon throughout its territories. The price in North Carolina is 19 1/2 cents. The Texas Company met the advance of the Standard.

Russell Scott Is Found Sane Must Face Jury

Chicago, May 21.—(AP)—Russell Scott, convicted of murder and then sent to the prison for the insane, has been found sane and must face a jury again with the gallows a possibility in the background.

TODAY

(Copyright 1926) \$1,000,000 a Bore. Would Tax Church Land. Dangerous Bonds. The Kansas Farmers. By ARTHUR BRISBANE

Tom O'Rourke, prize fighter promoter, offers Jack Dempsey one million dollars to fight Willis, a negro. Dempsey says he can't consider that just now but may arrange through Mr. Rickard to fight Mr. Tunney, a white man. In fact, the discussion bores him. Make your little boy a prize fighter or not a university professor, if you want him to make money easily.

An Associated Press dispatch from Denver, in the Pueblo Chief, announces the drafting of an amendment to the state constitution that would tax church property. It reads "lots and buildings thereon used exclusively for religious worship shall not be exempt from taxation. The change in Colorado's constitution is drafted by Barney Haughey, single taxer. It will probably not be adopted, nor will a modified proposition, which would compel any church selling its property for profit to pay taxes with interest be adopted, nor will a modified proposition, which would compel any church selling its property for profit to pay back taxes with interest be adopted in all probability. Church and school tax free for so long will probably remain tax free.

American investors are warned once more to invest their money in America, and keep away from foreign bonds. Foreign nations want to pay, but if they can't pay they can't. And the private investor, unlike the United States Government, cannot bring pressure to bear on hundreds of millions of European bonds sold in the United States.

Interest payments will be stopped and the value of the bonds will gradually dwindle away. Take warning. Some of the bonds are probably good, but where European nations borrow at usurious rates, interest and principal will not be paid in full.

The train on which this is written is passing just now through Kansas wheat fields so big that from the car window you cannot see to the end of them. You can understand how farmers, scattered over these wide plains feel as they read the "grain market report," believing that men who never saw a wheat field or ran a harvesting machine, fix the price of wheat, and usually put it up after the farmer has sold his wheat.

The White House denies, unnecessarily, a foolish yarn about spiritualistic seances held there in the Coolidge administration. You couldn't have any first class table rapping in that atmosphere. One look at Calvin Coolidge's cold blue eye, and "little Minniebaha," spirit of the lovely Indian girl would say "let me get back to spirit land, where it is warm."

Tomorrow, at Reno, Nevada, two murderers, Sanko Jukich and John H. Randolph, will be suffocated in the "lethal gas chamber." One killed a young woman, the other killed his mother. The men locked in an airtight room will hear a slight hissing like that of a snake, and soon die. Representatives of the state and relatives of the condemned men, if they choose, may watch the performance through a peep hole. That latest fashion in killing may frighten murderers more than the rope or electric chair—but it will not prevent murder. The state must set the example and stop the killing first.

You will know about the senatorial election in Pennsylvania when you read this. Mr. Pepper, in the primaries represents President Coolidge and the administration. Congressman Vane, powerful Pennsylvania boss, runs as the representative of good old King Alcohol. Gifford Pinchot, Governor of the state, runs on an ice water platform, supporting prohibition because it is the law and because he believes in it.

That election will have important results now and in 1928 when Mr. Coolidge is to be nominated for his second elective term. If the great state of Pennsylvania should go "wet" various opinions

TEACHERS PASSING METAMORPHIC STAGE AT PRESENT

Different Communities Set Up Different Standards for Their Requirements as Regards Teachers

The school teacher is passing through a metamorphic stage at the present time and it is rather hard for the teacher training institutions to furnish copies of all the different editions called for throughout the state. There was a time not so many years ago when the school teacher was a rather definite type of person. This is no longer true. Different communities set up different standards for their requirements.

One superintendent who went to East Carolina Teachers College recently to hire teachers for the coming year said he did not want teachers who were too attractive socially. He said that beauty and social charm usually worked against a teacher professionally and made it harder for her to succeed.

Another superintendent said that he always wanted to hire good looking teachers, and that if they had a good college record he did not hold that against them.

Still another superintendent wrote the following:

"I really care a lot about the girl's being a person of more than average ability and personality. In trying to decide between the two you have in mind, let the fact, that a person of force of personality is needed to inspire the (—) with higher ideals, count ahead of the range of subjects that the girl can handle. Maybe that sounds like a queer way to put it. But if we can just get a person with a soul for teaching, I am not so concerned over the subjects taught."

Some superintendents want teachers with strong personalities. Others want the type whose personality can be submerged beneath the whimsical prices of the school authorities or an over exacting community.

One of the officials of East Carolina Teachers College recently received the following letter:

"I want a good teacher for the sixth and seventh grades. The teacher will be expected to live in the room, board and room for \$30.00 per month. We want a girl who is mature and can discipline the room. We also want a young lady who is willing to remain in her room at night. All teachers are required to be in their rooms for study and rest not later than nine o'clock, except by special permission. Friday, Saturday and Sunday nights more liberty, but certainly not later than 11:30 except by special permission. The principal will have charge of the teaching. We of course, will use common sense when it is deemed necessary to attend special occasions, such as church, good picture shows, etc."

From the way fighting continues China must have established a real league of nations rather than a republic of Chinese states.—Durham Sun.

would be hastily revised.

Democratic Politics considers the steady rise of Governor Smith of New York as a candidate for the next presidential nomination. He and his associates all over the country are working to abolish the two-thirds rule and the unit rule. Governor Smith would have some votes in many delegations that would be two-thirds against him. Abolishing the two-thirds rule would give him the nomination if he succeeds in getting a bare majority. Governor Smith has earnest workers, hundreds of thousands of them, thoroughly understanding politics, working for him day and night. His nomination is by no means improbable.

Had the two thirds rule been abolished earlier, Champ Clark would have been nominated instead of Woodrow Wilson. That would have made a considerable difference in the world's history. Champ Clark would not have gone to Europe.

McNary, of Oregon, announces he will insist on farm relief measures before Congress adjourns. Lieutenant-Commander R. E. Byrd is returning to the United States, abandoning polar exploration for the year.

NAVAL REDUCTION CONFERENCE NOW SEEMS PROBABLE

Great Britain, United States and Japan May Hold Three-Power Conference

Geneva, May 21.—(AP)—A naval reduction conference by Great Britain, the United States and Japan seems among the probable eventualities of the gathering of representatives of nations here.

The Japanese assert that they will advocate a three power conference if France and Italy adhere to their reported decision not to participate in a discussion of naval disarmament except at the general disarmament conference. Japan, it is stated, has abandoned its previous position and is convinced that naval affairs can be handled separately.

A three power conference, it is contended by the Japanese, would frame a supplementary Washington naval agreement to cover cruisers, submarines and seaplanes. A belief is expressed here that the 5-5-3 Washington Naval Conference power may make further naval cuts despite what France and Italy may do. Much interest is expressed here as to the ideas of the United States and Great Britain on the Japan viewpoint.

Roumania, Poland and Finland are standing with France, Belgium and Italy in the contention that greater securities than now prevail must be offered before further land disarmament may be carried out.

Bandits Release Thomas J. Betts From Captivity

Peking, China, May 17.—(AP)—After two days' captivity in the hands of bandits in Northern Yunnan Province Captain Thomas J. Betts, United States Army, is again a free man, the American Legation was informed today. The bandits released the prisoner on May 19. Captain Betts was attached to the American Legation, was making a journey across an isolated district when captured by the bandits.

TO PAY PENALTY IN GAS CHAMBER MURDER OF GIRL

Nevada Scientists and Doctors Say Death of Stanko Jukich Will Be Quick and Painless

Carson City, Nevada, May 21.—(AP)—Nevada's lethal gas chamber will claim its second victim today when Stanko Jukich, convicted of slaying a sixteen year old girl who refused to marry him, pays for his crimes.

The small concrete executive chamber in the prison yard was robbed of one victim yesterday when the State Board of Pardons commuted the death sentence of John J. Randolph, a matricide.

Prison attaches expressed the opinion that Jukich would die almost instantly. A steam radiator will raise the temperature of the room to 80 degrees insuring almost instant vaporization of the death dealing hydrocyanic gas, one of the deadliest one known to science. A slight hissing sound and possibly a faint odor which characterizes the gas, will be Jukich's only warning of the invisible death which will overwhelm him when the executor turns the valve admitting the gas. Scientists and doctors have said it will be a quick and painless death.

The execution is expected to take place between one and three o'clock today Eastern Standard Time. Jukich is 28 years old.

Farmer Killed By Tractor Today

Gastonia, May 21.—(AP)—Charles Hoover, 45, well known farmer of the Mount Holly section, was instantly killed at eleven o'clock this morning when a tractor turned over on him while he was at work in the field. The machine, it was stated, was crossing a ditch and had started up an embankment when it overturned.

The effort of the government to assert a monopoly of the air has failed, as might have been expected. Not even a hot air monopoly will be tolerated.—Greensboro Record.

THOUSANDS ARE TO BE ADDED TO FED. DRY FORCES

Executive Order Makes Possible Additions to Federal, County and Municipal Offices

Washington, May 21.—(AP)—Additions to the Federal Prohibition staff of State, county and municipal officers, was made possible today under an executive order issued by President Coolidge.

This move, made at the request of Assistant Secretary Andrews, in charge of prohibition enforcement, is expected by him to augment the Federal Dry Forces by at least several thousand immediately. Prohibition officers plan to place the local officers on the Federal staff perhaps as dollar-a-year men since they will be serving as Federal officers in addition to their regular duties.

While local officers in most states and cities already are cooperating with the Federal Government in enforcing prohibition, it was said at the Treasury today's action will do the them with full Federal authority and it is believed by Mr. Andrews to be a big step forward in the dry work. How soon, Mr. Andrews will take advantage of his authority and the exact extent of the scope under which he will use it has not been decided. The plan was first suggested by the California prohibition administration and it is expected to be put into practice in that area first.

Machine Gun and Ammunition Found On Motor Boat

New York, May 21.—(AP)—Marine police, who overtook a motor boat off Coney Island today, found a machine gun and 500 rounds of ammunition aboard the craft. Five men, all of whom gave New Jersey addresses, were arrested.

Six marine police were cruising in a patrol boat when they saw the motor boat slowly moving away from them. They overtook it and on boarding the craft found the machine gun and ammunition. The men on the boat said they had been hired by a man named Goldbird, whose address they did not know, to test the engine and that they knew nothing of the machine gun. They will be arraigned in magistrate's court charged with disorderly conduct.

Bank of Connelly Springs Fails to Open Doors Today

Connelly Springs, N. C., May 21.—(AP)—The Bank of Connelly Springs did not open its doors this morning by order of State Bank Examiner Latham. A sign on the door told depositors they would get 100 cents back for every dollar. An excess in loans was said to have caused the condition of the bank. The officials are D. W. Alexander, president; J. E. Hudson, vice-president; and C. J. Morgan, cashier. Examiner Latham has been here the last two days checking the books of the bank and he decided to close the doors late yesterday afternoon. Deposits on hand are being kept at the Consolidated Bank and Trust Company of Hickory.

Says Baldwin's Suggestion Would Limit Freedom

London, May 21.—(AP)—The mine owners today informed the Government that Premier Baldwin's compromise suggestions for ending the coal strike would limit freedom of administration and would not increase the efficiency of the industry.

ENGLISH COUNTRY FOLKS LIKE SHAKESPEARE BETTER THAN DO CITY AUDIENCES

London, May 21.—(IN)—Shakespeare's plays and "high-brow" drama in general is proving more popular before English rural and industrial audiences than in the first-class theatres of the West End of London.

"Clarence" Pleases Large Audience

A large and attentive audience greeted the young high school actors Monday night in spite of the many other interesting features in Greenville the same night. From the appearance of the first actress, Mattie Vines Mayo, the efficient secretary, the play commanded interest and held it throughout. Each student, it seemed, was well fitted for his or her part, but to Miss Mary Von Valkenburg, who coached the play, goes considerable credit.

"Clarence" is a typical American play through which runs a wealth of humor. Billie Brown, as Clarence, was thoroughly amusing with his indifferent and awkward mannerisms, while Forance Overton delightfully played the heroine's part of Violet Piny, the pretty young governess. Mr. Wheeler, the financier, was acted by Waddell Leggett, who first won recognition in scenes from Macbeth given by the Seniors in connection with their English work. Blanche Clark, as Mrs. Wheeler, the jealous wife, was unusually good.

Cora and Bobby Wheeler, son and daughter, who caused the family so much anxiety, impersonated by Elba McGowan and Calvin Gorman, were exceptionally good. None the less interesting were Dow Lassiter, as Hubert Stem; and the two house servants played by Dorothy Ward and Brown Mayo.

The thirty-piece high school band, directed by Mr. Robinson furnished classical and popular music before the play and during the three intermissions. It is probable that the cast will give the play again within the next few days.

Synopsis of the Play.
As Clarence, a discharged soldier from the army after the war, seeks employment from Mr. Wheeler, financier, he finds him-

A Menace

General Haller is looked upon as a possible menace to General Josef Pilsudski, successful head of the Polish revolt. Haller has a large following.

self in a scene disclosing all the family quarrels. Because the young daughter Cora, told her father Clarence could drive mules without swearing, he thought Clarence would be a good influence in the home. By his weird stories of cannibals and beetles, and with his saxophone playing

he captures the hearts of the whole household. Mrs. Wheeler, very jealous of her husband's attentions to Miss Piny, the governess, gets even by making him jealous of Clarence. The petty amours of Cora and Bobby which cause the family much anxiety are straightened out by this mysterious Clarence. Finally, he wins Miss Piny's love and she leaves to marry Dr. Smith, great authority on Coleoptera, who is really just "Clarence."

Wild Buffalo Preserve to Get New Herd Soon

Edmonton, Alta., May 21—(INS)—Buffalo in the government park at Wainwright, Alberta, have increased so rapidly in the last year that another consignment of 2,000 young animals will be shipped 700 miles north to the wild buffalo preserve on the Slave river early in June, according to an official announcement here.

"Selection of the buffalo will be on the basis of two females to one male," said the announcement. "The shipment will include 1,400 yearlings, 400 two-year olds, and 200 three-year olds. The stock is being rounded up by cowboys at the park in readiness for the journey. The animals will be shipped by rail north to the end of steel and herded on boats at Fort McMurray for a 260-mile water trip down the Slave river to their new home."

"Over-population of the Wainwright herd made it necessary to ship 2,000 young buffalo north a year ago. These animals acclimated themselves immediately and have mingled successfully with herds of wild bison which have ranged the Alberta hinterland for years. The herd at Wainwright park now numbers about 8,000 head."

Byrd Hopes to Win His Ancestral Home

Worcester, Mass., May 20—(INS)—The ambition of Lieutenant Commander Richard E. Byrd, the first man to fly over the North Pole, is to recover for his family, "Westover," the beautiful old estate which is one of the show places on the St. James River, in Virginia.

This was revealed here by Capt. Ralph Earle, U. S. N., president of the Worcester Polytechnic Institute, a warm personal friend of the aviator.

"Byrd," said Captain Earle "is a Virginian and a descendant in direct line, through I don't know how many generations of grandfathers, from the Byrd who built Westover."

"The fine old mansion dates from the early 1700s. As time went on the family became impoverished, and finally Westover passed into other hands."

"Now the deep-seated hope of the young Virginian is to recover the property for the Byrd family and there take his wife and their three children."

"I wish that his ambition could be realized. Perhaps one of the sponsors of the wonderful flight, or others, may see fit to make the dream come true in appreciation of his heroism."

EAST TENNESSEE DOUBLES TOBACCO SALES THIS YEAR

Knoxville, Tenn., May 21—(INS)—Between 45,000,000 and 50,000,000 pounds of Bright Burley tobacco—more than double last year's production—will be marketed in East Tennessee this summer, according to Walter Harper, manager of East Tennessee Association.

"The estimated increase in production will not have the depressing effect on market prices that some are inclined to believe according to best information obtainable," he said.

Felt Like He Couldn't Hold Out Much Longer

That's What a Run-down Condition Sexton Was in Before Karnak Built Him Up in Health and Strength

"I am just finishing my third bottle of Karnak and I'll tell the world I'm recommending it to all my friends—this medicine is a knockout," declares C. F. Sexton, of 209 Henry St., Spartanburg, S. C., Supt. Fred Dept. of the Spartan Grain & Milling Co.

"Here a short time ago I found myself in pretty bad shape," continues Mr. Sexton. "I tell you I was in such a run-down condition I don't believe I could have held out much longer in the fix I was in."

"My appetite was so poor I could not relish a meal, and I felt sluggish all the time, and just lost all my pep. I simply know I had to find something to build me up or I would be in for a long sick spell."

"Well, sir, everybody was talking Karnak so that I started taking the medicine and I want to tell you it has simply worked won-

ders for me. Why, I come in so hungry now I don't think of anything but eating, and I put my feet under the table and sure do a good job of it. I'm gaining weight, and just building up in health and strength all over. Believe me, this Karnak is some health builder—I don't believe it has an equal."

Karnak is sold in Greenville by B. S. Warren and all leading Druggists.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package, containing full directions. Only 35c. At any drug store. (Adv.)

Changed in No Way—Except Lower Price Chrysler "70" Supreme Quality and Performance Now Offered at Sensationally Lower Prices

Six-Cylinder Chrysler "70" Reduced \$50 to \$200

	Old Prices	New Prices	Savings
Coach	\$1445	\$1395	\$ 50
Roadster	1625	1525	100
Royal Coupe	1795	1695	100
Brougham	1865	1745	120
Sedan	1695	1545	150
Royal Sedan	1995	1795	200
Crown Sedan	2095	1895	200

(All prices f. o. b. Detroit, subject to current Federal excise tax)

From its very inception the unquestioned leader in modern motoring performance the Chrysler "70" gains, at the new lower prices, even greater pre-eminence in value as well as in quality.

Seventy miles and more per hour with silky smoothness; a flashing pick-up; amazing economy; magical ease of handling; unmatched riding comfort; Chrysler compactness; absolute safety which only Chrysler hydraulic brakes can give; joined to a complete freedom from mechanical worry and an enduring worth proved in tens of thousands of miles

of driving by thousands and thousands of owners—

These Chrysler "70" superiorities, absolutely unchanged even at the sensationally lower prices, continue to be the results of the inherent fineness of that Chrysler quality of design, materials and craftsmanship which from the very beginning have made Chrysler "70" performance unapproachable.

You will find us eager to demonstrate to you these extraordinary Chrysler "70" qualities which make it the most sensational value in all motor car history.

BUSINESS MEETING D. A. R. SATURDAY

There will be a business meeting of the Daughters of American Revolution at the Evans Street school tomorrow afternoon at 3 o'clock.

MRS. J. B. JAMES HOSTESS TO SUNDAY SCHOOL CLASS

On Thursday afternoon and evening, the country club was the scene of a most enjoyable "wiener-roast" and general good time, when Mrs. J. B. James was hostess to her Sunday School class. The class has forty-eight members and of the forty-eight, forty were present. About five o'clock, the girls and Mr. and Mrs. J. B. James went out to the country club and gathered around the fire near the water and roasted hot-dogs. There were quantities of sandwiches, pickles, cakes and food tea. When the hot-dogs and other good things were all gone, the guests went into the club house to carry on the good time. The twelve members of the class who are graduating from high school this spring, were presented beautiful gifts by their teacher. When all the graduates had been given their boxes, there was one left and it was decided that this box, contents unknown, should be given to the girl who could make up and tell the biggest fib. Miss Rowena Wood proved to be the biggest story-teller.

This affair has been repeated each spring for several years and the girls all say each time that "it was the best one yet."

ROUND TABLE CLUB MEETS AT THE COUNTRY CLUB

The Round Table club met in regular session Tuesday after-

noon, at the country club. Sixteen members answered to roll call and each member introduced a personal guest for the afternoon. Following the regular routine of business, a letter from Miss Fuller, city librarian, was read, in which she reported the rapid growth of the library this year and its many lines of present service to the public.

The literary program for the afternoon was devoted to the "International Mind Aleeve," a set of books recently secured by the library from the Carnegie Endowment Fund.

Miss Gray, of the Teachers College, briefly explained the origin of this "International Mind Library." It represents one of the divisions of the plan for international peace, proposed by Andrew Carnegie ten years ago, and backed by ten million dollars. The "Intercourse and Education" division, directed by Dr. Butler, of Columbia University, represents collections on various subjects, that the general public may become acquainted with the peoples of other lands. Greenville is fortunate in having this set placed in its library, and will prove itself worthy of keeping it by a continued circulation of the books.

Two of the books from the International Mind Aleeve were reviewed for the afternoon. Mrs. Austin read brief selections from "Beyond the Utmost Purple Rim" by E. Alexander Powell, introducing a country and people about whom little is known. Abyssinia was an old country when Genesis was written, and today, although a member of the League of Nations, its laws and customs are those of the time of Moses. Its inhabitants are colored, but are Caucasians instead of negroes. They are governed by a veiled Empress, who styles herself "The Queen of Kings" and traces her descent back to King Solomon and the Queen of Sheba. Her throne is guarded by live lions.

The country abounds in lakes and streams and its vast wealth of minerals is unexploited; while birds and beasts of all kinds valuable to commerce, are found here. The rare fluid ovel, used in making fine perfumes comes of Abyssinia and here is the original home of coffee, which derives its name from the town Kaffa.

The book takes its name from the changing colors of the mountain ranges, as they slowly deepen in the twilight, from yellow to lavender, lavender to amethyst, amethyst to violet, until they merge into one purple wall.

Mrs. S. J. Everett selected "Building the American Nation," by Dr. N. W. Butler.

"Building the American Nation" is a series of lectures delivered before English colleges on the Sir George Watson Foundation for the advancement of American ideals. Dr. Butler traces with consummate skill, the development of the ideals of the American government, in a new nation and delineates with peculiar charm the exponents of these ideals. The student of history and the casual reader alike, will be charmed by this wonderful galaxy of the ten men presented

by the author, will follow with eager interest their voyage upon the tempestuous sea of governmental chaos. Their task, not only one of construction, but of guiding that vessel upon the reefs and shoals of the untamed harbor of a Republican form of government.

Dr. Butler characterizes these men as follows:

Samuel Adams, the exponent of the town meetings where the movement for American Independence had its effective origin.

Benjamin Franklin, whose wisdom, skill and philosophy made possible the Declaration of Independence.

George Washington, the one figure in the War of Independence and in converting the nation from a hope and dream into a reality.

Alexander Hamilton, the far-seeing architect.

James Madison, the superintendent of construction.

Thomas Jefferson, the spokesman of the spirit of Democracy.

John Marshall, demonstrator to the world, that the Supreme Court of the U. S. A. was a co-ordinate instrument of government for the protection against other co-ordinate instruments of government.

Daniel Webster, the wonderful expounder of the constitution.

Andrew Jackson, in the proclamation against nullification, the winner of a place in the galaxy of nation builders.

Abraham Lincoln made the nation a political community without a political superior.

What is the American nation's place and purpose in God's plan? America's mission to the world is the betterment of mankind, a spirit of glad and generous service to countrymen and mankind, alike. Let us gain inspiration from these builders to fulfill our task.

Following the splendid review of the books the club members and guests were invited to the verandas of the club house where a picnic lunch was served in buffet style. A delightful hour of social intercourse concluded the last and best meeting of the club year.

MAYOR'S COURT

Bill Gorham, charged with being drunk and down. Fined \$10 and cost.

Jack Belcher, charged with vagrancy. Sentenced to thirty days to the county home.

Kid Hasket, charged with assault. Sentenced to thirty days on the county roads.

Walter Goodman, charged with vagrancy. Sentenced to thirty days on the county roads.

Ivory Carvers Say Mass For Elephant Spirits

Tokyo, May 21.—(AP)—Buddhist mass again has been held for the spirits of all the elephants that have supplied ivory for ivory carving in Japan. Members of a Tokyo Art Ob-

jects Dealers association and ivory carvers assembled at Gokoku Temple for the ceremony. It also was the occasion for dedicating a large monument erected in the compound of the temple in honor of the spirits of the departed elephants.

Fifteen priests opened the service with the reading of Buddhist prayers. Kakichi Ikeda, president of the association, said:

"We who obtain our living from this ivory cannot help feeling grateful to the elephants which have been furnishing materials for us to work with. It is for this reason that we comfort their spirits by holding a mass for them. We think we also do honor and comfort to the spirits of our ancestors who were likewise in the ivory trade. We wish all artists and dealers in ivory objects to visit the magu-

ment as a shrine when they come to Tokyo."

Nick Carter may have had his faults, but he didn't wind up every case by hugging the heroine.—Arkansas Democrat.

NOTICE OF SALE OF AUTOMOBILE

To Charlie Saulsbury, or any other Person, Firm or Corporation—at 12 o'clock noon, June 11th, 1926, I will offer for sale at public auction, one Ford Touring Automobile, Motor number 84-19912 North Carolina State license number 262216, said sale to be made for the purpose of May 21—25-28; June 2.

satisfying the Town of Greenville for the storage of said automobile. Said sale to be at the City Hall.

The above described automobile was picked up by the Police Department, of Greenville, N. C. March 20th, 1926, on Pitt St., and did contain a quantity of stolen goods which was claimed by the owner of said goods.

Any person, Firm or Corporation, having any interest in said automobile will apply to the undersigned on or before sale date and show said interest.

WORK, NOT LUCK, COUNTS

There is an adage that "There is luck in liesure," but there is no truth in that adage and there is as little truth in the preachment of many failures that "work and merit don't mean anything any more, the lucky man will win anyway."

Of course there have been battles won by luck in which the better man lost, but they are the proverbial exceptions which prove the rule and are so outnumbered by incidents the reverse as to be unworthy of notice. Luck-won successes are accidents. Work-won successes are incidents. Accidents always attract more attention than incidents for the same reason that normal human beings, which are incidents, pay money to see freaks of nature, which are accidents. To depend on luck is to play blind man's buff among the laws of nature and of man.

These laws, when studied carefully, seem to prove that in the long run the best man wins the best place, and personal merit does succeed. Evidences to the contrary are merely the flips of chance.

Luck smiles on those who take off their coats, put their shoulders to the wheel, and plug away at the task. Fortune favors men who are not afraid of dreary, irksome drudgery. Luck climbs no Everest. Luck transmutes no cataract into electricity. Luck is never a ladder from the earth of mediocrity to the heaven of achievement.

NEWSPAPER ADVERTISING

An enumeration of the reasons for advertising has recently been given out. There are eight reasons advanced, but there are many others, of course. However, here are eight that are very splendid and highly convincing, as given in a southern newspaper:

Newspaper advertising is a universal daily habit; newspaper advertising, therefore, reaches each day virtually all who buy.

Newspaper advertising is the life blood of local trade because it touches all con-

sumer sources in every community. It gives the national advertiser the same opportunity for complete consumer appeal in any locality.

Newspaper advertising cuts selling costs because it entails no waste in locality of circulation. Manufacturers use it to cover markets where it is profitable to do business.

Newspaper advertising insures quick, thorough and economical dealer distribution and dealer good-will because retailers are willing to sell products advertised direct to their own consumers.

Newspaper advertising enables manufacturers to tell where their products may be bought.

Newspaper advertising can be started or stopped over night, can be prepared between days to meet certain developments and to obtain immediate results.

Newspaper advertising enables manufacturers to check advertising results and costs in every market which they enter.

Newspaper advertising costs less than any other kind.

The merchants or other business man who is not taking advantage of the opportunities offered by newspaper advertising to boost his business now will still be facing readjustment problems when his competitor is back on a normal business plane.

"Unity Will Be Keynote Unitarian Convention"

Boston, May 21.—(AP)—Unity will be the keynote of Unitarian Anniversary Week this year. Sixteen organizations and agencies of the denomination will hold their annual meetings here May 23 to 29 and the underlying theme will be unity of purpose and work in church organization.

Two of the three sessions of the 101st convention of the American Unitarian Association will be held in Tremont Temple, where the Baptist congregation is accustomed to hear fundamentalism preached at the regular services. This will mark the end of the twenty-sixth year of service of Dr. Samuel A. Eliot as president of the association. He is the son of Dr. Charles W. Eliot, president emeritus of Harvard University.

The Unitarian Laymen's League, the Unitarian Temperance Society, Unitarian Fellowship for Social Justice, Alliance of Unitarian and Other Liberal Christian Women, Unitarian Sunday School Society, Young Peoples' Religious Society, are other bodies to meet at the same time.

Desire for Fine Arts Is Another Turkish Reform

Constantinople, May 21.—(AP)—Along with its extensive revolutionary reforms, the Turkish Government is finding time and money to concern itself seriously with the Fine Arts.

A committee has been formed, composed of twelve artist members, who will receive fixed salaries. This is an indication that the new Republic is not the heir of the old Ottoman Empire.

In recent centuries the sultans, especially Abdul Hamid, discouraged signs of artistic ability among the people for fear that revolutionary ideas might be expressed thereby. The sultans also prevented the rise of sculpture and painting by upholding the tradition the Koran forbids Moslems from representing the human form in any manner.

Labarba's Popularity Has "Neuritis" Now

Los Angeles, May 21.—(INS)—Fidel La Barba, world's flyweight champion, will have to defend his title this summer.

The boxing fans of Southern California and the members of the state boxing commission are a bit weary of La Barba's unwillingness to fight in a title bout. Since he won the championship from Frankie Genaro last August all of Fidel's bouts have been no-decision contests with the boys weighing over 12 pounds—the flyweight limit.

As a result La Barba's popularity has had a bad attack of neuritis. His appearances in the ring have usually been greeted with hearty boos from the guests. In his last fight, however, with Emil Paluso of Salt Lake City and New York, La Barba showed himself a real champion. The Los Angeles boy took ten of the twelve rounds from the vicious little mauler and came through the wash undamaged.

La Barba's probable opponent in his bout to defend his title is Newshy Brown of New York City, managed by Leo Flynn, Paluso's guardian angel. Flynn has posted a \$2500 binder for his challenge with the California state commission and La Barba will be required to act upon it. The scene of the bout, however, has not yet been decided, but will be either in New York or Los Angeles.

RESOLUTIONS OF RESPECT

In memory of our esteemed neighbor, Joseph David Fleming, who died May 7, 1926:

Death has again entered our camp, and the Supreme Head Consul has called a neighbor to the great forest, there to enter into peace, light and safety, and where he shall live in the eternal glories of his Master.

He has been a true and loyal neighbor. His name and deeds shall be ever green in our memory, and his excellencies as sweet as the fragrance of flowers unto future generations.

In appreciation of his faithfulness as a member of our beloved society.

Be it resolved: That Greenville Camp No. 13883 Modern Woodmen of America, located in Greenville, North Carolina, in testimony of our loss, drape its charter in mourning for thirty days and that we send to the relatives of our deceased neighbor our sincere condolence in their deep affliction, and that a copy of this memorial be sent to the family.

Mortals yet unborn shall stand Beside his lowly grave. Nor let his goodness be forgot While time its record keeps. But neighbors guard the sacred spot Where a Modern Woodman sleeps.

A. G. WALTERS,
W. G. CRAFT,
W. H. HINSON,
Committee.

Chicago Boxing O. K. Says This Promoter

Los Angeles, May 21.—(INS)—Southern California promoters do not believe that legalized boxing in Chicago will prove a detriment in lining up bouts for their coliseum.

"I don't believe boxing in Chicago will affect the game in California at all," Joe Levy, matchmaker for the Olympic coliseum, declared today. "We can pay our fighters just as well as any place in the country. Hitherto we have had to compete with New York and the competition of Chicago won't

hurt us. Of course, we may notice it in the winter time. New York's only important indoor arena is Madison Square Garden, while Chicago has three or four big coliseums. But on the whole I don't expect any trouble in lining up fights."

"Wad" Wadhams, matchmaker for the Vernon coliseum, echoed Levy's observations.

"We can pay for the type of bout we want," Wadhams said. "We aren't interested in the million dollar fights."

NATURE SOON TO RESTORE BALANCE BETWEEN SEXES IS GERMAN PREDICTION

Berlin, May 21.—(INS)—Men need not be afraid that the fair sex, some time hence, will take command of the world, simply because at the present time, women are in the majority. Dame Nature is much wiser than man. She re-

stores harmony between the two sexes by "some mysterious law regulating the proportion between male and female births," says an article in the Hamburg Nachrichten, discussing the alleged danger of a steadily growing surplus of women over men.

"There is, undoubtedly, a surplus of women over men in all countries of the world," but it would be entirely erroneous to believe that men, in future, will be wiped out by women.

"It may be safely predicted that within the next twenty years the surplus of women over men will be balanced out. And it seems equally safe to forecast that an equilibrium will be restored by another wave of female births. Nature is harmony."

ENGLAND URGED TO SAVE HISTORIC STATE PAPERS FROM LEAVING COUNTRY

London, May 21.—(INS)—In an attempt to prevent the sale of historic English State papers to foreign buyers, Professor Sir Charles Oman, member of Parliament for Cambridge University will ask Premier Stanley Baldwin in Parliament if he is able to suggest some means by which the State should resume possession of such papers when they are advertised for auction.

Sir Charles complains State papers such as the papers of Sir Henry Clinton, commander of the British forces in America during the War of Independence hundreds of warship books and logs dating from American war, and Lord Laudowne's collections of Shelburne manuscript have been auctioned and sold to American and other foreign buyers.

PEACE RIVER COUNTRY TO HAVE RAIL OUTLET TO THE PACIFIC COAST

Vancouver, B. C., May 21.—(INS)—Negotiations for the extension of two railroads which will give the Peace River country a rail outlet to the Pacific Coast, are being carried on by the governments of British Columbia and Alberta, according to an announcement here by Premier John Oliver, of British Columbia.

"British Columbia has set aside 16,000,000 acres of land as a grant to encourage completion of the Pacific and Great Eastern railroad from Soda Creek eastward to Prince George on the Canadian National railways and thence to the Alberta boundary," said Mr. Oliver. "Alberta plans to extend the Edmonton, Duvengan and British Columbia railroad from its present terminus at Spirit River, Alta., westward to the British Columbia border to connect with the P. C. and E. line. Ninety miles of the grade is already completed."

Van Camp's Evaporated Milk, tall can	10c
Sweet Potatoes, large No. 3 can	17c
Van Camp's Beans, can	8c
Brooms, No. 6 Special, each	40c
Gosman's Gingeral, bottle	15c
Schlitz Famous Brew, bottle	12c
Colonial Lima Beans, No. 2 can	17c
POTATOES	SPONGE CAKE
No 1 Whites—Cuban Yams 6 1-2c	7 1-2c
Ideal for making short cake, lb.	25c
IVORY SOAP	Our Pride Bread, 21 oz machine loaf
Family size 7 1-2c	10c
Jersey Corn Flakes, 3 packages	25c
Del Monte or Libby's Fruit Salad, large No 2 1-2 can	47c
BLACK FLAG	D. P. Yellow Label Tea—
Can 15c	Orange Pekoe, India Ceylon
FLIT	Trial pkg. 1-1 lb. 1-2 lb.
Pint can and sprayer 99c	9c 21c 39c
Land O'Lakes Sweet Cream Butter—	
Pound cut from tub 49c; Prints, the lb.	51c
The highest quality made from pure sweet cream. Every pound guaranteed.	

Know the refreshing goodness that is sealed only in this bottle!

A NEW and BETTER GASOLINE

THE TEXAS COMPANY, always active and aggressive in the development of high grade petroleum products, now offers the American motoring public a new gasoline with a combination of qualities never before attained in a motor fuel.

It is a product of perfectly balanced distillation range, more volatile, and vaporizes to a dry gas.

The new gasoline is made possible through the Holmes-Manley Gasoline Process, owned and controlled by The Texas Company, representing an investment of millions of dollars and many years' efforts of refinery experts.

The *new and better* Texaco Gasoline has *all* the good qualities of any gasoline or motor fuel, *regardless of price*. It contains no chemicals. It needs none. Over two million barrels of this new product are now on hand.

Stop at the first Texaco pump you see. All tanks and pumps now supplied with the new product. Fill with Texaco Gasoline; and Texaco Motor Oil, the clean, clear, golden oil, known everywhere for its quality, full body and purity. You will note with pleasure the improved operation and condition of your engine.

The New Low 400 End Point

A low end point, assured through the more accurate fractionating control of the gasoline runs, checked frequently by the volatility tests, leaving no heavy ends, promotes complete vaporization and burning of each cylinder charge.

Less Crankcase Dilution

—better cylinder lubrication, more perfect piston seal and greater mileage before the changing of crankcase oil becomes necessary.

The Low Initial Boiling Point

With the low boiling point, due to regulation of the still operations to retain the lighter fractions of the crude oil in the gasoline runs, the *new* Texaco provides a "high test" gasoline of greater volatility.

Easier Starting

—less load on the storage battery, and more power with below-normal engine temperature.

Anti-Knock Qualities

Successfully producing certain desirable aromatic and naphthene hydrocarbons in the final *new* Texaco, the Holmes-Manley Process produces an exceptional gasoline with combustion characteristics in the finished product which give it exceptional non-detonating qualities.

Smooth Engine Operation

—and more power, better hill work without retarded spark, and a quicker pick-up.

A Balanced Distillation Range

The distillation range, controlled by the Holmes-Manley proportioning of intermediate boiling fractions, provides a volatile fuel with a combustion rate balanced to engine requirements. The *new* Texaco works best on a lean mixture.

Maximum Acceleration

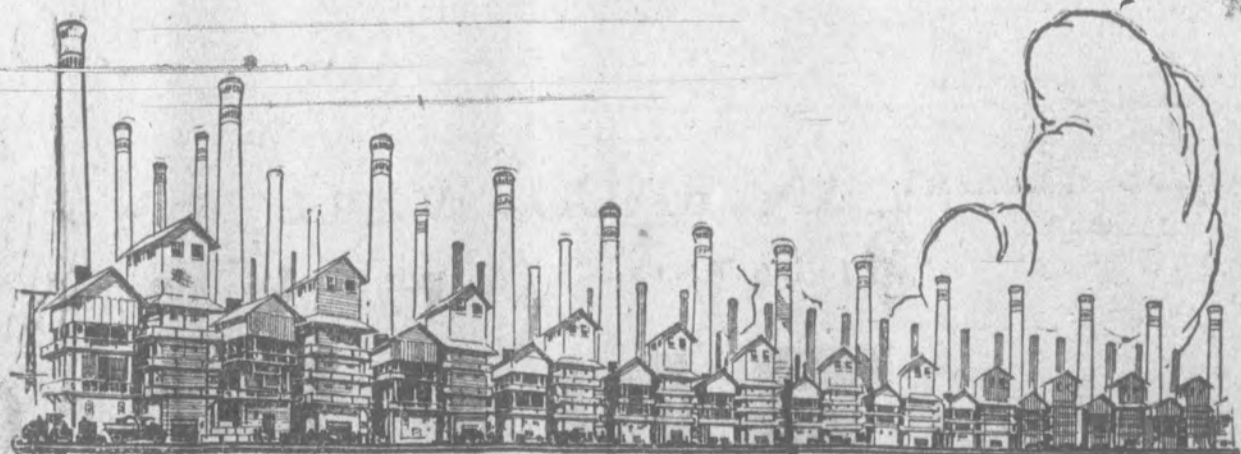

—quicker pick-up and more power on the hills. The *new* Texaco takes the acceleration load.

The New Volatile Range

By shortening the distillation range, the *new* Texaco Gasoline provides a higher volatility, which gives the maximum acceleration with a leaner mixture while the engine is warming up.

Greater Mileage

—no unburned heavy ends, greater gasoline economy (more air, less gas), and lower cost per mile.

One of the large installations of Holmes-Manley stills.
