TWO DIE TRANS-ATLANTIC PLANE CRASH RECONSTRUCTION OF STORM SWEEPED AREA BEGUN TOBACCO AVERAGED \$28.48 HERE YESTERDAY

LATEST ESTIMATES OF STORM TOLL SAY 400 DEAD 5,000 INJURED

With the known death toll in the hurricanes that swept over the lower Florida east coast standing at 375 today and with the injured still estimated at 4,000 or more and property damage at \$50,000,000 or more, interest centered at what has happened to Pensacola on the west coast, and Mobile, 50 miles further west, and in relief measures to bring the stricken territory back to normal.

The known death toll computed by the Associated Press from all sources last night stood at 369 and was increased today by report of six deaths at Rockport. That the back country in the everglades will yield a still larger toll of deaths seemed certain today when the pilot of a Florida Airways plane which flew to Miami with relief supplies returned to Tampa and told a story of settlements along the streams in the Everglades being levelled.

Mobile and Pensacola, cut off from the outside world yesterday, when the hurricane hit both places with a velocity of 100 miles an hour still were unheard from directly today. Last reports from the hurricane were that it had gone inland over southern Alabama and Mississippi with waning force.

Birmingham, Sept. 21.—(AP)—Feverish courts to reach Pensacola by all means had brought no results today. Staff men of the Associated Press and newspaper reporters were bucking the storm in automobiles but, no word had come out of the silent area.

The last word late yesterday was a fragmentary statement by wireless from some station in the vicinity saying that property damage was heavy but there had been no loss of life.

Situated as Pensacola is it is believed the city withstood the hurricane without serious results. Other Florida towns in that section however are isolated and their fate unknown.

Southern Alabama towns were hard hit. An unconfirmed report said that Bay Minette suffered heavily and that loss of lives probably resulted. A report that several persons were killed at Jackson, Ala., had not been confirmed.

Miami, Sept. 21.—(AP)—400 dead and 5,000 injured was the estimate placed today as the result of Saturday's hurricane which laid waste a 60 mile stretch of Florida's east coast. Half a hundred still were missing.

As the out of the way places became accessible more injuries were found and more bodies located. The monetary damage also increased. Actual damage to homes and business buildings was estimated at nearly \$50,000,000, but many held that the value of the millions of priceless palms and pines, which were uprooted would double the damage estimate.

Paradise roads, sidewalks, property developments and club houses also had to be added and there was the loss to business firms by the cessation of work due either to storm or lack of power.

Sewage and water systems and power plants in a dozen of the stricken localities suffered great

damage, but most of them had started with limited service today. Relief work was underway everywhere and at Miami and West Palm Beach active headquarters were established to collect money and other donations.

Medicine by the truck load was rushed over the torn highway between the two cities and physicians, surgeons and nurses sped through the military lines in official cars.

The worst damage from the storm was in a section forming a triangle with the west shore of Lake Okechobee as its apex and the west gulf coast from Tampa to Fort Myers as its base. The triangle encompasses the richest citrus and vegetable district of the state. There are few large towns, but innumerable groves and small farms. For this reason reports of conditions in the interior were slow in coming in.

The plight of the population in the devastated area was described as pitiful. The living have no homes and hundreds lost their money and all goods.

Reports from every section tell of heroic efforts to save and preserve lives. Officials and volunteer workers were scouring the country side on planes, in automobiles or horse back, on foot, and in boats. Hotels and public buildings everywhere have been thrown open as refugee camps and the work of reconstruction taken up by the able bodied survivors.

WEEKLY NEWSPAPER BOOSTING PORT

Southport, Sept. 21.—(INS)—The State Port Pilot, a weekly newspaper, as North Carolina's youngest publication.

The newsy little sheet is published every Thursday here.

The Pilot is expressly dedicated to "A State Port and Terminal for North Carolina at Southport, Carolina's Ocean Gateway."

Nears Eighty

Judge Elbert H. Gary, head of the U. S. Steel Corporation, will be eighty years old on October 8.

DEMPSEY'S SHARE OF FIGHT MONEY TO BE ATTACHED

Champion's Former Manager, Jack Kearns, Seeking to Collect Money Due Him

Philadelphia, Sept. 21.—(AP)—An attachment for Jack Dempsey's share of the purse when he fights Gene Tunney Thursday night was issued in common pleas court today, at the request of counsel for Jack Kearns, Dempsey's former manager. Tex Rickard was named as garnishee and the bail to secure Dempsey's share of the assets was fixed at \$600,000.

Kearns is suing for money alleged to be due him under the terms of his contract with the heavyweight champion covering the last three years. Granting of the attachment came as a surprise and took place in common pleas court number five while Rickard's attorneys were arguing in common pleas court number four against the issuance of an injunction restraining Rickard from paying Dempsey and Tunney any money in advance of the fight in violation of the Pennsylvania law. This action was started last week by "a tax payer and ticket holder" representing Kearns.

Motion to dismiss the tax payer's action was denied by the three judges hearing the case and argument proceeded on the injunction suit.

Through a surety company Rickard was prepared to post bond up to \$1,000,000 if necessary to prevent any court action from interfering with the fight.

Philadelphia, Sept. 21.—(AP)—A bill in equity to stop the Dempsey-Tunney fight here Thursday night was filed in common pleas court number five today by B. E. Clements, President of the Chicago Coliseum Club.

Atlantic City, N. J., Sept. 21.—(AP)—Jack Dempsey, in an affidavit presented in Chancery court today answering Jack Kearns suit forcing him into receivership, charged Kearns with stealing \$500,000. Dempsey gave this as his reason for discharging Kearns. The case was continued for two weeks.

MARKET HAS SOLD NEARLY 7 MILLION LBS TODAY

The Greenville Tobacco Market yesterday broke the season's record average when \$39,676 pounds of the golden weed was disposed of for \$239,184.24, an average price of \$28.48 per hundred pounds. The market's average for last week was \$26.54 per hundred pounds, while the average for the entire season, prior to yesterday was \$26.08. Yesterday's offerings bring the total number of pounds for the season to within a few hundred pounds of the seven million mark. The large number of growers and visitors from a distance who have never before been on the local market, has attracted much attention this week. Warehousemen, growers, and local business men are well pleased with the record that is being made by the market so far this season and the money paid to the farmers to, along nearly two million dollars, has meant much to business in the section.

GREENVILLIANS IN STORM AREA SAFE

Wire Received From Former Greenville People That They Survived Hurricane

A telegram from T. O'H. Dupree, of Miami, received today by his mother, Mrs. R. Hymas, announced the safety of he and his family, his brother's family, and that of Dr. Cecil Hassell, son of Dr. S. Hassell, of this city.

The telegram, in part, follows: "Miami recovering from worst storm in history of United States. Probable damage in greater Miami area will reach nearly thirty million dollars. There are probably two hundred fifty people dead and a like number injured. All of my family and my friends, including Alvin's family, have escaped without injury. Doctor Hassell and his family escaped without injury. In ninety days from date there will be no evidence of the storm. Everybody's working to obliterate the damage."

University Meets Wake Forest On Next Saturday

Chapel Hill, Sept. 21.—(INS)—The University of North Carolina's 1926 football outfit, which consists mainly of raw material, will be given its first test Saturday.

Saturday is the day of the annual encounter between the Tar Heels and the Demon Deacons of Wake Forest. The clash is on Deacon ground.

Little if anything is known of the Tar Heel's strength. The squad has been engaged in secret practice for most of the season, and there is nothing more than the usual dope.

But Saturday will tell.

Mr. Daniel Guggenheim and his son have set an excellent example to other rich men by their financial encouragement of American flying and they might be interested in this suggestion.

Needless to say, Mr. Rickenbacker, whom this writer has not seen in months, knows nothing

Florida Don't Worry. The Fighting Yaquis. Lloyd George Sees Hope. Work for Rickenbacker.

By ARTHUR BRISBANE

The whole nation sympathizes with the city of Miami swept by severe hurricane.

But the people of Florida will not be discouraged or Florida's prosperity set back by it, no matter what the extent of the disaster.

Every region is subject to attack by earthquakes, tidal waves, cyclones or hurricanes.

What nature destroys man swiftly repairs. Within a few months the high wind will be forgotten and Florida will be going ahead as usual.

Spanish conquerors of Mexico would read today's newspapers amazed.

Mexican Indians that had Christianity forced upon them, often with horrible brutality and the massacre at now the aggressive defenders.

Of that religion in Mexico, the Mexican government with weapons and written denunciations curtailing the liberties and privileges of the Catholic Church.

The cry "Viva Mexico Y Muera Los Tiranos (Long Live Mexico and Death to Tyrants)" is the battle cry not of European bolsheviks or communists but of Matus, chief of the Yaqui Indians.

Yaqui warfare is not to be despised, they savage fighting Indians, operate well armed in small bands, harassing the Mexican soldiers.

Mexico's rulers, seeking to discourage banditry turn back to methods adopted by Louis the Eleventh in the fifteenth century.

Louis decorated branches of great oak trees with swaying broods of those he hanged and walked smiling among them.

The Mexican Government allows soldiers of captured laudits to hang from the trees to discourage the others.

Lloyd George's article yesterday was important, for the first time in years Lloyd George takes an optimistic view of European politics and peace prospects.

Unlike some other optimists including sentimentalists that would push us into the League of Nations through the World Court back door, Lloyd George knows what he is talking about. He sees hope of better understanding and firm peace among European nations and he sees clearly.

Eddie Rickenbacker, chief of the efficient air fighters produced by this country, gives up the vice-presidency of his automobile company. If this means that he has leisure it should be used by the United States Government, with Mr. Rickenbacker's consent, to promote flying in this country.

The United States needs men that know how to fly. Rickenbacker could teach them and could easily arouse enthusiasm that would bring thousands of volunteers.

Mr. Daniel Guggenheim and his son have set an excellent example to other rich men by their financial encouragement of American flying and they might be interested in this suggestion.

Needless to say, Mr. Rickenbacker, whom this writer has not seen in months, knows nothing

Giant Airplane Bursts Into Flames As It Starts On Its New York To Paris Flight

Pilot of Illfated Plane

RENE FONCK

Westbury, N. Y., Sept. 21

Two men lost their lives this morning when the trans-Atlantic airplane of Captain Rene Fonck crashed in flames in an attempt to take off on a 3,600 mile non-stop flight to Paris. They were Charles Clavier, French radio operator, and Jacob Islamoff, Russian mechanic. They were trapped in the closed cabin of the huge three motored bi-plane.

Captain Fonck, the French ace, in command of the flight, and Lieutenant L. W. Curtis, U. S. N. American alternate pilot, leaped to safety before the plane burst into flames.

An attempt was made to take off last Thursday but had to be postponed because of a gasoline leak discovered at the last minute. Afterward Paris friends of Captain Fonck urged him to make the flight for the honor of France even at the risk of death. The crash was caused by the buckling of a wheel on an extra landing gear that was to have been dropped into the ocean as soon as the plane got under way.

FUNERAL SERVICES FOR R. R. FLEMING THIS AFTERNOON

Prominent Farmer and Business Man Died at Home in Pactolus Late Yesterday

Mr. Robert R. Fleming, age 83, one of Pitt county's oldest and most prominent farmers, died Monday afternoon at three o'clock at his home in Pactolus, after a week's illness. He was a loyal member of the Presbyterian church in this city, having faithfully served as elder for a number of years. He was a Confederate Veteran, and a good Mason.

Mr. Fleming was married four times. His last wife, formerly Miss Margaret Langley; two sons, J. P. and L. S. Fleming of Pactolus; one sister, Mrs. J. R. Davenport of Pactolus; and seven grandchildren survive him.

The funeral services were conducted from the late home, at four o'clock this afternoon. Rev. W. S. Harden officiating. Interment followed in the Fleming burying ground.

The following served as pallbearers:

Active: Best Fleming, Will Chauncey, J. J. Satterthwaite, L. R. Whichard, Sam Fleming, Zeb Ricks, Robert May, Lon Nobles.

Honorary: R. R. Cotten, Dr. D. T. Tayloe, E. R. Mixon, Dr. Josh Taylor, E. W. Moseley, Dr. LeRoy Fleming, W. B. Wilson, E. G. Flanagan, John Short, E. B. Higgs, J. W. Higgs, F. G. James, H. A. White, S. T. White, G. E. Forbes, H. B. Clark, Willie Bragaw, Jesse Warren, Sam Williams, Dr. J. E. Nobles, J. L. Wooten, George Woodward, J. C. Williams, J. H. Little, J. J. Laughinghouse, G. V. Smith.

New Charles Store Opens Tonight

Construction Work on Interior Completed

The Charles store, Greenville's newest department store, will be opened formally from 7:30 to 9:30 o'clock tonight, according to an announcement made by F. W. Willock, superintendent of stores of the Charles Stores, Inc., which operates a chain of similar enterprises throughout North Carolina and Virginia.

Construction work and interior decoration of the store was practically completed yesterday and the stock has all been put in place in each of the 17 departments of the store. Fifty salesmen and saleswomen have been employed to serve the public.

Although none of the articles in stock will be offered for sale tonight at the opening, more than seventy-five people will be on duty at the store to assist in extending a welcome to the public. An orchestra will furnish music during the entire evening and free ice cream will be served, and balloons given to the children.

Every effort has been made by the owners of the store to provide for the conveniences of their patrons. Mr. Willock said today counters and merchandise have been conveniently arranged for accessibility and lights placed to operate most efficiently for the benefit of the customers. Rest rooms and similar conveniences are provided. The building contains 7,200 square feet of floor space. More than 5,000 different articles will be offered for sale. Ten cash registers are in use in the store.

The store in Greenville will be managed by Mr. John Weddell, who is to be assisted by Mr. James Batson. Besides Mr. Charles Coplon, president, the following are here for the opening tonight: J. R. Hoskins, general manager; F. W. Willock, superintendent; Miss Irma Groell, field representative in charge of personnel;

"I knew the wheel had crashed," said Fonck, "but could neither stop nor rise."

"The plane was driven ahead full power," said Lieutenant Curtis, "and reached a ground speed of 63 miles. Three quarters of the length of the run way it seems that the outboard auxiliary wheel collapsed carrying away the left lower rudder.

"The plane veered to the left, but it was impossible to head it again on a straight course and the plane went over the brink at the end of the run way at a speed of about 60 miles. When passing over the brink Captain Fonck pulled back the control to effect a normal landing and at the same time throttled down his motors. The gas tanks were apparently ruptured in view of the fact that live gas poured down over the heated exhaust pipe."

The plane burst into flames an instant after the two pilots leaped from it. Heavy clouds of black smoke rolled upward and the nearly 1000 spectators crowded forward. An airplane circling overhead sounded its fire siren and telephone calls brought the fire department within ten minutes. They used small fire extinguishers on the flames but these were of no use. There was no water available in the middle of the field.

McLEAN TO TAKE PART ROCKY MOUNT FAIR

Raleigh, Sept. 21.—(INS)—Governor McLean has announced he acceptance of an invitation to introduce Senator Thomas Heflin, of Alabama, at the Rocky Mount Fair on Wednesday, October 6th.

Miss Beatrice Smith, auditor; J. L. Cason, construction department; W. A. Clements, superintendent shoe department; J. E. Schnapp, supervisor of ready to wear department; and Mr. Louis Somerville, buyer.

NEGRO EXECUTED THIS MORNING

Halifax County Negro Pays Death Penalty for the Murder of Another Negro

Raleigh, Sept. 21.—(AP)—John Williams, negro, convicted of killing another negro in Halifax county, was electrocuted at State's Prison, this morning. Williams died without benefit of a formal appeal, either to the Supreme Court of the Government. He admitted the killing but

claimed it was an accident. Williams was pronounced dead at 10:40 o'clock following the administration of one shock of 2 1-2 minutes duration. He confessed the crime just before the straps were made fast about his head. He was convicted of murdering Alec Bradley, negro landlord, on whose farm he was a tenant.

LONG NIGHTIES BAD; SHORT SKIRTS SAVING MANY WOMEN'S LIVES

Bridgeport, O., Sept. 21.—(INS)—Short skirts are saving the lives of many women, Coroner Clyde C. Hardesty of Belmont county, said today. The coroner bases his statement on the fact that, for two years he has not had a fatality due to dresses igniting at bon-

fires or open grates. During his first two years of service in Ohio's eighth largest county, six such tragedies occurred. Long night gowns are causing some fatalities, Hardesty's records show. Each winter sees a number of babies and women dying of burns caused when long night-gowns ignite from open grates or gas stoves.

WILL BE U. S. DELEGATE TO WORLD MOVIE CONGRESS

Los Angeles, Sept. 16.—(INS)—H. B'Abadie D'Arrast, Paramount director, will represent the United States in the first International Motion Picture Congress to be held in Paris, September 27 to October 4. The conference, which is sponsored by the League of Nations, will devote itself to the influence

of motion pictures upon art, education and social welfare. D'Arrast, who is now on his way to Paris, will act as proxy for Jesse L. Lasky, who was unable to attend.

N. Carolina Has 300,000,000 Pounds Tob. Market This Year

Raleigh, Sept. 21.—(INS)—A thousand fires flickering fitfully throughout the hot summer nights—basket after basket of long ripe leaves gleaming under skylights—the song-song intonation of the auctioneer drowned amid a circus day atmosphere. Eastern North Carolina has gone about its business of curing and marketing about 300,000,000 pounds of bright leaf tobacco, and overnight sleepy villages scattered over the belt have been changed into beehives of industry.

Following close on the heels of the South Carolina and Georgia opening, the New Bright Belt—the world's biggest tobacco growing area—is now in the midst of the yearly marketing season, and all indications point toward the marketing of 300,000,000 pounds.

After seven "lean" years, prices are soaring to new high levels and are estimated to average 50 per cent better than prices paid out on the New Bright Belt floors in 1925. Prices are estimated to range from 25 to 32 cents a pound.

Sky high prices on the New Bright Belt bore out the prediction of veteran tobacco and warehousemen that this section faced "another 1919" after observing relatively higher prices on the South Carolina, Georgia and border markets.

The 18 markets which comprise the New Bright Belt last year produced something like 235,000,000 pounds. This year, the belt's total production will pass the 300,000,000 mark, according to present estimates.

The New Bright Belt is only a part of the North Carolina tobacco growing industry. Tobacco farmers of the entire state last year marketed more than 361,000,000 pounds of the weed for something like \$76,000,000.

The markets in the Old Belt will open late in September and early in October. The border markets—that is, the markets in South Carolina and those located just over the state line—are about to be brought to a close, after a record breaking season.

North Carolina, which occupies first place among the 40 tobacco growing states in the value of production, will, as a whole, sell more than 400,000,000 pounds of the leaf at higher prices than in seven years, if predictions of tobaccoists and warehousemen run true.

Goodyear Tires
People who wouldn't think of going to any but a good, reputable dealer for food, clothing, or furniture, patronize the worst kind of "dumps" when it comes time to buy a tire.
They do this thinking it is necessary in order to get a tire bargain.
We'll sell you the best tire made—a Goodyear—at a price as low as you can get anywhere.
We carry a complete line of ignition parts and

Peggy Paige Uses
Uneven Hemlines to Accent the Slender Grace of the New Full Skirt
The graceful fullness of the new short Skirt is a triumph of ingenuity for, as the clever designers treat it, it enhances rather than destroys the lissome slenderness of the prevailing Silhouette. With the new semi-fitted Bodice, it is particularly effective, as in these unusual Models for our Weekly Style Service.

Black Satin draped snugly over the hips and caught with a button in front, gives the new Blouse-back Silhouette in the Frock at the left. Rustia Satin is used for Vest, and for facing on Cuffs and Bodice. The Collar effects a bow and long streamers in back.

Strawberry colored Georgette in combination with Chavel Red Satin achieves a triumph of line and movement in the smart Afternoon Frock at the right. A shaded Flower at the shoulder is the only trimming. The Shirred Skirt is edged with Satin, wisely scalloped.

Specially Designed by Peggy Paige for the Weekly Style Service—Exclusive with this Store.

ON THE MAP

While we have urged the establishment of a fund for the purpose of advertising Greenville to the outside world and the preparation of suitable literature for those who make inquiry about our city, had we been asked if there was anybody within two hundred miles of Greenville who did not know of its existence, we would have answered most emphatically, "NO." Yet last night we learned that there were members of the staff of the Richmond Times Dispatch who were unaware that there was a GREENVILLE in NORTH CAROLINA. It came about this way:

About 10:30 o'clock we were informed by Long Distance that the Times Dispatch was calling for the Editor of the GREENVILLE NEWSPAPER and, naturally, we told the operator we were ready to talk. The voice from Richmond was that of the Sports Editor, who informed us that on yesterday he had requested us to furnish him a story on the game between the Richmond and Greenville baseball teams. We immediately informed the editor that he was talking to Greenville, NORTH CAROLINA, and that his team was plying in Greenville SOUTH CAROLINA. He immediately informed us that he was unaware there was a Greenville in North Carolina and apologized for having disturbed us. In reply we told him that it was no offense that he did not know of our existence, but that we did feel that he was loser if he did not know of Greenville, North Carolina and had never visited here. We then informed him that Greenville, North Carolina, was the capital of Pitt, one of the foremost counties in the state and the largest bright tobacco producing county in the world; the BEST TOBACCO MARKET IN THE STATE; the home of the EAST CAROLINA TEACHERS' COLLEGE; and set forth many of the other advantages offered by our city together with the fact that it was "Our Greenville, Yours If You Come." We assured the Virginia Editor that should he visit our city we would demonstrate our slogan to his entire satisfaction, and he has promised to crank up the flivver and pay us a visit soon.

olina was six and a half millions, with a toll of 293 lives, a record of which we should not be proud. Realizing that the adoption and practice of fire prevention methods will greatly decrease the number of fires and the amount of fire loss in our state, Governor McLean has set aside the week of October 3rd to 9th as Fire Prevention Week in North Carolina.

In his proclamation he has urged fire drills for schools, state institutions, factories, and stores during fire prevention week, and a continuance of this practice at regular intervals thereafter. In addition to this, all churches, schools, commercial and civic organizations are urged to spread the gospel of fire prevention during the week set aside. Only through this intensive campaign can the public at large be made to realize what fires cost us in life and property and only by the practice of safety methods can this loss be overcome. Every citizen is urged to take part in the observance of Fire Prevention Week and to follow fire prevention methods not only during that week, but throughout the year from year to year.

PRESS COMMENT

WHAT'S TO BE DONE?

(Richmond Times Dispatch)
Mexico in its relations to the United States is another of those subjects about which, like the weather, there is endless conversation with nothing accomplished. Now a fresh but not unusual twist is given to this conversation, official and unofficial, by the murder of another American citizen at the hands of bandits below the border. No more ruthless assassination than that of Jacob Rosenthal, a wealthy New York man, ever has been committed in the long list of barbaric and cold blooded crimes which has made Mexican banditry synonymous with all that is merciless and bloodthirsty. He, with his family, had been on a vacation trip in Mexico. Returning from Cuernavaca to Mexico City, he was captured by bandits. Other members of his party were released that they might be free to gather the ransom money and return it to the captors. Pursued by Mexican police, the bandits murdered the American, killed two of the police and made their escape. All this almost within sight of the capital of the Mexican republic. And what's to be done about it? Scores of American citizens have lost their lives in a similar fashion, and very little has been done about it. There will be official representations from the Department of State at Washington, of course. There will be

Says He Felt Drunk

Most of the Time
Brooklyn, Mr. Fred G. Marquart writes:—"I felt drunk most of the time. My head was dizzy. I couldn't think clearly. One day I dropped a coin and when I stooped to get it I got so dizzy I almost fell. I later found out that the cause of this condition was constipation. This was overcome by a short course of Carter's Little Liver Pills. My appetite has doubled, and my distress has entirely left me." Carter's Little Liver Pills move the bowels and relieve the system of its poisonous matter. Druggists, 25 & 75c red packages.

FIRE PREVENTION WEEK

Last year the property loss from fire in North Car-

official protestations of regret, avowal of blame, and assurances of every possible effort to bring the murderer to justice, from the Mexican government. Perhaps eventually the murderers will be captured, this depending on the measure of sympathy or the lack of sympathy there is on the part of official Mexico with the bandits. And eventually, perhaps, the family of the murdered man may receive something in the way of financial reparation. However, if either one of these eventualities should come to pass it would not be in keeping with the traditions of banditry and its almost unflinching success in avoiding retribution. But if either one or both of these things should come to pass, it will not make other American lives safe below the border. That will not be done until the representations on the part of this government to the Calles government become so stern and uncompromising that the latter, in the interest of self-preservation, it cannot be actuated by motives of humanity, will move relentlessly toward the eradication of that banditry which on so many occasions and for so many years has disgraced Mexico and disturbed the friendly relations of the two republics.

ALL THE WORLD IS SAYING "HAVE A CAMEL"

Why does Camel lead the world?

The answer is Quality. Camels contain the choicest Turkish and Domestic tobaccos grown . . . such blending as is found in no other cigarette. . . Care and skill that stop at no expense. When you buy a pack of Camels you get the finest cigarettes made, regardless of price.

Increasing millions who've smoked other brands now smoke Camels. Every week, every day, Camel wins and holds a growing army of experienced smokers. Since smoking began, Camel popularity is the greatest ever known.

Camel smokers are the most enthusiastic body of smokers in the world—for Camels never tire the taste, never leave a cigarette after-taste. Camels are a lifetime of smoking pleasure.

Just try a Camel and taste the smoke from nature's choicest tobaccos. . . Find the mildness and mellowness that have taught the whole world to say, "Have a Camel!"

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

Los Angeles, Sept. 21.—(INS)—A dozen of more boats are fitting out in Los Angeles Harbor to hunt sharks this fall down the lower California coast.

The industry, although new to Southern California fishermen, is said to be profitably maintained by Japanese in Baja, California. The fins of the predatory fishes are esteemed a delicacy by the Chinese. As in hunting whales, the fishermen use a harpoon. The fins of the sharks are removed and dried in the sun.

Beautiful girls who come to Hollywood with the hope of breaking into the movies are often handicapped by an incomplete wardrobe. The Screen Sisters' League is an organization now being formed for the purpose of giving film candidates access to modish apparel from evening gowns to riding suits.

The League, according to Mrs. Clarence Brown, wife of the well-known director, will rent the garments to the girls for a nominal consideration.

'Clothes mean everything to a girl trying to get into pictures,' Mrs. Brown explained. 'We will start out supplying clothes to a group of about twenty "extras," and when these girls win better parts, we shall adopt another group.'

Women are preparing to usurp another masculine occupation. Miss Gertrude Jeffers, 18, a recent high school graduate, applied to a downtown theatre for a position as a stage carpenter.

John Kelly, manager of the theatre, placed her name at the top of his waiting list.

I am well qualified to become a

stage-hand, the slender little applicant declared. I can shift scenes, place spotlights, paint scenery and do anything a man can do.

The success of the song, 'Valedicta,' and the impending introduction of a dance by the same name, has been reflected in the movies by a tremendous vogue for Spanish stories.

Enthusiastic over the reception given 'The Torrent' and 'Mare Nostrum,' the Metro-Goldwyn Mayer studio is now producing three more stories with a Castilian setting. Greta Garbo, the Cosmopolitan player who made her debut in 'The Torrent' has just completed the leading feminine role in another story by Ibenex, 'The Temptress.'

Ramon Novarro and Alice Terry are now working on 'The Graciar Galeoto,' a picture which gives an intimate glance into the life of the Spanish aristocracy.

Uncle Sam's weather department has joined forces with the government and county forestry departments to reduce the menace of forest fires in Los Angeles county, it was learned today. Three observation stations of the new "fire-weather service" will be established.

The stations will collect data on the velocity and direction of winds in the timbered regions and will chart temperature and humidity tables. These observations, it was said, will be invaluable to foresters. Each of the stations will be connected with the forestry department and weather bureau headquarters by telegraph.

U.D.C. Seeks Increase Confederate Pensions

Asheville, Sept. 21.—(NS)—Favorable action on the proposed increase in Confederate pensions will be sought at the next legislature.

The drive will come to a climax in Raleigh early in October, when special committees will meet with representatives from all over the state to co-ordinate the work, it

was said today. The Sons of Veterans also will assist in the movement, according to an announcement here.

Drake U. Football Facing Big Gaps

Des Moines, Iowa, Sept. 21.—(INS)—Ossie Svonn, football coach at Drake University here, this fall faces the task of filling several big gaps in the Drake machine before he opens the season October 2 with the Nebraska Cornhuskers at Lincoln.

Initial practice began September 15. Among the stars of last year about whom Svonn will mould his team this season are Captain Gail Fry, Church Everett and Lyle Newton, quarterbacks; Willard Sutherland, Bill Cook and LaVorne Greeflee, halfbacks; John Dustin, fullback; Jeff Roberston, Lyle Ewart and Willis Tipsford (tackles); and Roy Dalbey, end.

Graduation has taken the rest of last year's machine, including Ted Sloane, all-American and Earl Amberlang, guard, and Don Carlos, center, and much of Drake's success this year will depend upon the calibre of the men who will come up from the freshman ranks.

Drake faces what is probably its hardest schedule in years. While the opening game is with Nebraska, and both teams will be more or less untested, a great battle is expected. The Bulldogs took the Nebraskans into camp last year 14 to 0 and the Cornhuskers are reported out for revenge.

WAGE COMMISSION TO MEET ON FRIDAY

Raleigh, Sept. 21.—(AP)—Nothing but routine business is expected to come up before the meeting of the Salary and Wage Commission scheduled for Friday, September 24, according to Secretary Hoyle Sink. This is the regular quarterly meeting of the body, and Mr. Sink said that he expected a full attendance.

RED OAK NEWS

Mrs. N. S. Tyson, who is still confined in the Pitt Community hospital, is improving, and we hope that she will be home in a few days.

and potted plants. There was not a dull moment spent from seven-thirty until eleven o'clock.

Several games were enjoyed but probably the most enjoyable was "Shadows." The girls made their shadows on a sheet and the boys guessed who they were and then the girls guessed the boys' shadows.

Amid much merriment, after untying bundle after bundle, she came to a long-eared hound dog who will be her friend as long as she lives if she will feed him on black pepper.

While trying fortunes with pennies, we became uneasy about Mr. W. Hayes, who nearly shook his head off trying to get a penny off of his forehead, when there was no penny there.

Mrs. Tyson, assisted by Mrs. Raymond Tyson, served delicious block ice cream on the porch after which the class gathered around the piano and sang new and old popular songs and then some hymns.

At a late hour, they reluctantly took their departure declaring that words could not express their enjoyment of the evening.

Next Sunday morning, several of the members of Miss Ella May's Sunday school class at Red Oak, will graduate from "Bible Girls" to "Young Boys and Girls."

Next Saturday will be church quarterly meeting at the church. All members are urged to attend and see what your church is accomplishing.

COLLEGE FOOTBALL AT GOLDSBORO FAIR

Goldsboro, Sept. 21.—(NS)—There's going to be an added attraction at the Wayne county fair the last of October.

The additional attraction will consist of a grid clash between Duke University and Wake Forest College. The game, which was originally to be played at Durham, will come off October 30.

Announcement that the two schools had decided to accept Goldsboro's invitation was made here by officials of the County Fair Association.

TERRIBLE PAIN

Alabama Lady Tells How She Obtained Relief by Taking Cardui. Feels Fine and Enjoys Life Now, She Says.

Talladega, Ala.—Mrs. Mary Hardy, 406 Henderson Avenue, this city, says that seven years ago she "got down sick" and was unable to attend to her housework.

"I have never been so weak before or since," she says. "I had a terrible pain in my side—so sore in my side and the lower part of my body.

"Across my back ached, and I was so nervous I couldn't stand up. I had just about given up when some one who came to see me began talking about Cardui. This caused me to get it. I took about two bottles before I saw much improvement.

"After this, though, I picked up right away. I slept better at night. I was hungry, enjoyed my food, which I hadn't done for some time.

"The pain and soreness gradually left my side. I regained my strength. I took about six bottles and left off for awhile, then took two or three more. . . I feel just fine, enjoy life and can work now, too."

Cardui is purely vegetable, and contains no harmful drugs. It has helped thousands of suffering women and should help you, too. NC-153

Answering Some Questions About the Most Advanced Method of Tire Building

Steps in Building a United States Tire by the Flat Band Method

Some facts about the United States Rubber Company's "Flat Band Method" which ensures uniform stretch and tension of every cord in the tire

Q—What is the "Flat Band Method" of building a tire?

A—The tire is built in the form of a flat band upon a drum. The plies of Latex-treated Web Cord are laid and fitted by hand, one above the other. The opposite edges of the band are turned around and securely anchored to "beads" consisting of rings of many strands of piano wire imbedded in hard rubber.

Q—Does this differ from the usual method of building tires?

A—Yes. Before the United States Rubber Company developed the Flat Band Method, the usual practice was to use a solid, metal ring-shaped form on which the cord fabric was laid and pressed into place by a rotating wheel coming in contact with the surface of the rubberized fabric.

Q—What does Flat Band building add to the service of United States Tires?

A—It makes the tire uniformly strong throughout. It eliminates the fault often found in the old-style construction, of some cords being too taut while others were loose. In Flat Band building, all the cords are under even tension, and flexibility is uniform. There are no weak spots to develop trouble.

Q—What Company developed the Flat Band Method?

A—The Flat Band Method was developed by the United States Rubber Company and is patented and owned by this Company.

POLICE OF STATE TO FEET IN ROCKY MOUNT

Rocky Mount, Sept. 21.—(INS)—"Gee, but it's great to be a cop!"

For three days, this month the North Carolina bluecoats are going to take a vacation, and just let things ride.

They are coming over to Rocky Mount for their annual convention and merry-making September 28 to 30th.

There will be speeches, as usual, by satellites of the police world, but there's also going to be a round of entertainment for the cops, the three days they are here.

Color Change Proves Lucky for Wolf Pack

Raleigh, Sept. 21.—(INS)—What's in a color?

Take it from the Techmen, it means everything! Twenty years ago Mic's Whitehurst took charge of the Wolfpack, and at once discarded the old red jerseys in favor of pure white.

That year the Techmen won the undisputed title of champions of the South.

Eddie Green took up the reins and handled the Techmen for the next six years. During this period, the Techmen lost only one game on home grounds. In 1910 and in 1913 the team won the South Atlantic Championship—with white jerseys!

In 1919 Bill Fetzer became head coach. His 1919 outfit was conceded the greatest Tech aggregation since 1913. Still the white jerseys.

The Wolfpack, when it faces Elon Friday in the opening game of the Tech season, it will again fly the color of white.

NOTICE OF SUMMONS BY PUBLICATION

(Continued from page 1)

about it.

It is a pity that a man with complete knowledge of flying and great influence among young Americans should waste his time in any commercial pursuit. His knowledge could increase by five thousand within two years, the number of young Americans able to fly and ready to defend their country in case of need.

This is written on the train travelling from New York to the Pacific Coast. It would interest Governor Smith of New York and W. G. McAduff of California to know that reporters along the road frequently ask 'what is your opinion of Senator Reed's chance of the Democratic nomination in 1928.'

The answer to their questions that many Americans would like to see in the White House a man with Senator Reed's force. Also that certain Americans that dislike investigations also dislike Reed and would supply any necessary money to confine him to his seat in the Senate—which gives them trouble.

In one year Great Britain has paid out \$290,000,000,000 to the unemployed. The prosperous class considers this outrageous. They are taxed to support those not working. England, however, has managed for many years to keep away from revolutions. The prosperous should not forget that.

Duke Ready for Season's First Game

Durham, Sept. 21.—(NS)—With two scrimmages a day, and gym work at night, the Duke grid outfit this week was being whipped into shape for its first encounter of the season Saturday.

Duke's first game is with the Guilford Quakers on the home ground.

The tentative Blue Devil varsity:

Backfield — Balich, fullback; Adams, Fulford, halfbacks; choice of Hollingsworth, Frank, Reizel, Swift, Weaver for quarter.

Line—Bennett, Kelly, ends; Thompson, Jones, tackles; Culp, G. E., ends; Hunter, center.
