## FALL AND DOHENY TO BE TRIED ON CHARGE CONSPIRACY DEFRAUD

Government and Defense Counsel Today Agreed That Elk Hill Oil Lease Case Be Tried at Early Date

Washington, Oct. 29.—(INS)—Defense and government counsel agreed today to bring to trial ex-Secretary of Interior Albert B. Fall and Edward L. Doheny, oil magnate, on charges of conspiracy to defraud the government in connection with the Elk Hill, Calif. Naval Oil Reserve lease.

Frank J. Hogan, defense lawyer, asked the criminal court to set the date for January 10, when it is expected that the Supreme Court will have rendered a decision in the civil suit involving the legality of Harry F. Sinclair's lease to Teapo Dome. Many points in both cases are similar, Hogan said.

Owen J. Roberts, government counsel, urged that the trial begin on November 22. Justice Hoehling took the question under advisement.

## RALEIGH POLICE ATTEMPT UNRAVEL MURDER MYSTERY

Hundreds Visit Morgue Today in Effort to Identify Victim of Alleged Mysterious Killing

Raleigh, Oct. 29.—(INS)—As authorities today attempted to unravel what they termed "the perfect crime," every means was put into motion in an effort to identify the man whose mutilated, knife-scratched body was found in a remote section of the county Wednesday.

Hundreds of persons today filed by the morgue here, viewing the body, but they all shook their heads and walked away. Officers regard identification of the body as the first step toward solution of the case.

County authorities were working on the theory that the man was murdered, his body fiendishly mutilated, and then placed on the track of the Norfolk and Southern Railroad to obliterate all traces of the crime.

When the body was found by Ed Strangham, Norfolk and Southern conductor, only a little distance from the track, it was clad in a new blue denim shirt, according to Coroner L. M. Waring. The man's clothes had been removed and blood stains carefully washed away, he said.

Examination of the body by physicians revealed that the unidentified man's neck had been slashed and he had been stabbed in the heart with a knife, according to the coroner. Either of these wounds, it was stated, would have caused instantaneous death.

The identification bureau of the Raleigh Police Department has taken fingerprints of the man and these prints were forwarded today to the identification bureau of the war and navy departments. It was said.

CAPITOL POLICE FIND FOR BEING INTOXICATED DURING QUEEN'S VISIT

Washington, Oct. 29.—(INS)—Policeman Lafone Starweather drew a fine of \$75 for being intoxicated while guarding the Roumanian legation during Queen Marie's visit here.

The charges were preferred by Sergeant H. A. Burlingame, who testified he saw Starweather "sitting down at a box in an apparently dazed condition."

Lieut. Michael ready said Starweather was assigned to the post because he was not a drinking man "could stand the temptations thrown at the legation."

"The hospitality was too generous," said Starweather.

## BAR ASSOCIATION ELECTS OFFICERS HERE LAST NIGHT

Judge Sinclair Addressed Gathering on the Advantage of a Six Months Grand Jury System

The Pitt County Bar Association met in its regular annual meeting at the Greenville Rotary club building Thursday evening. At 6:30 all present gathered in the dining room and partook of a very splendid dinner. So soon as the inner man was satisfied the meeting was called to order by the president, Col. F. G. James, for the routine of the evening.

The president first introduced Judge Sinclair, who delivered a very interesting talk on the six months grand jury system. He showed clearly to all present that such a system was by far the one most progressive step in that any county could make; that with such system the people of the county always had eighteen men investigating conditions and acting as guardians for the affairs of the county.

Following Judge Sinclair, Judge Albion Dunn, of this city, was next presented to the meeting by the president, and he proceeded to give a very enlightening and humorous talk on lawyers' fees as charged and collected—collected possibly.

The next event on the program was the election of officers for the ensuing year, the following officers being elected: Col. F. G. James, president; Col. Albion Dunn, vice-president; and Arthur B. Corey, secretary and treasurer. The president and secretary-treasurer succeeded themselves.

The most colorful thing of the whole evening was the delightful music rendered by Messrs. Jean and Mary Morton, two students of the East Carolina Teachers College. It is absolutely needless to add that their music was most interesting and entertaining.

## ASHEVILLE WILL RECEIVE VISIT FROM QUEEN

Manager of Asheville Chamber Commerce Has Been Assured Queen Marie Will Visit There During December

Asheville, Oct. 29.—(INS)—Asheville today was assured of the visit of Queen Marie of Roumania.

F. Roger Miller, manager of the Asheville Chamber of Commerce, announced here today upon his return from Washington that Queen Marie would visit Asheville from one to three days on her southern tour. In Washington Miller conferred with attaches of the Roumanian Legation relative to Queen Marie's proposed stay at Asheville.

Queen Marie's visit here will be during the second week of December, Miller declared. Plans have been made for Governor McLean to officially welcome the Queen to the state.

At a wine tasting contest in Wiesbaden, Germany, it was found that, though hock is generally not believed to be preservable beyond 60 years, a large number of choice wines had retained their qualities over a hundred years.

## DEMOCRATIC RULE SUITS REPUBLICANS REYNOLDS SAYS

Says State Too Prosperous Under Democrats for Republicans to Want Change

Democrats have given the state of North Carolina such a good and honest administration during the last 25 years that not even the Republicans wish a change, R. L. (Boh) Reynolds, Democratic speaker declared last night at a political rally at the courthouse.

The meeting was well attended by an audience that was visibly impressed by the speaker. Mr. Reynolds stressed the accomplishments of the Democratic party in power, declaring that during its entire time of control that there has not been a shadow of fault in its conduct of the affairs of the state.

"Everywhere you can hear the compliments even of Republicans over the administration of the governor and other state authorities," the speaker declared. "Governor McLean has made a good executive. He is not of the sensational type and has not asked the newspaper men of the state to spread his name across the headlines of the press. He has simply gone about his duties with a business-like precision."

"Governor McLean has been what I would term a conservative progressive executive. He has handled the affairs of the state with good judgment in the face of a great number of duties of his office. The Republicans cannot complain of a single instance of corruption."

Mr. Reynolds then gave an account of achievements of the Democratic party during its tenure of office, declaring, however, that if a party does not claim credit for the prosperity of the state but that it has been an instrument in bringing about North Carolina's prosperity by utilizing the natural resources of the state in a proper manner.

The speaker described the Democratic party as an organization with a conscience. "If you want to sound the depth of a person and determine his real worth and what he really is," declared the speaker, "just ascertain his love for his parents and see how he respects them. Also notice his treatment of a dumb animal; if his action toward them is kindly, he is the right kind of a person, but if he is cruel, you can put him down as a mean person."

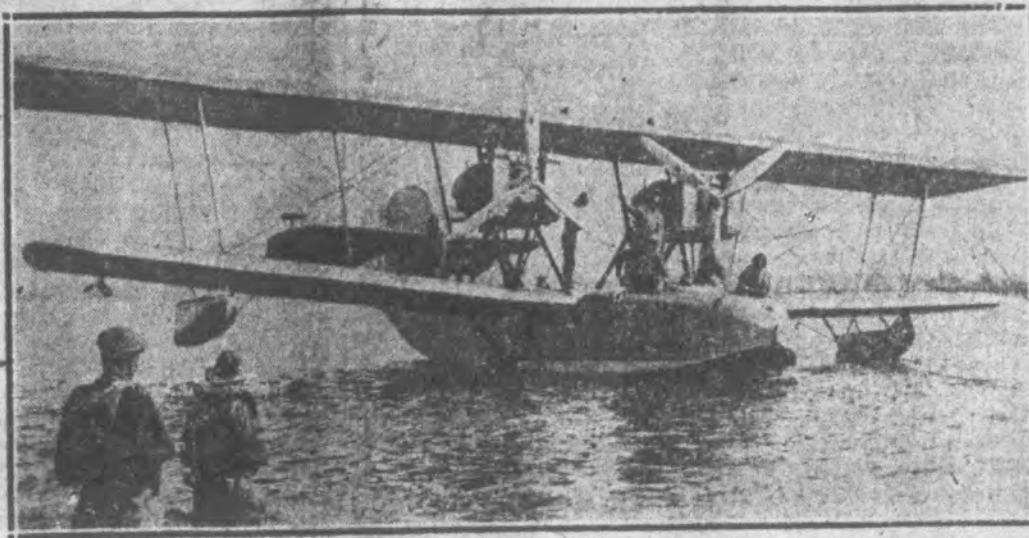

"Is the Democratic party a good party? Well, let's see how it meets its responsibility toward the unfortunate of the state. Look at its institutions for the care of the crippled, the insane, the blind and the dumb. These institutions are the best that could be asked. They are a pride to the state and to its people. As long as the Democratic party controls the government of the state this situation will exist."

"The record of the Democratic party has been such that its majority in the election next week will be the greatest that has ever been given it. Senator Lee Overman will be returned by a majority of 80,000, while every member of congress will be returned. In the western part of the state in counties that are normally Republican we expect to elect county officials, and in Henderson county, an example of the disgust of the people over the Republican administration a Democratic sheriff and other officials will be elected where there is a normal Republican majority of around 2,000 in the county."

Mr. Reynolds traced the development of North Carolina's good road system, its advance in public education and development of public institutions through the Democratic administrations. He declared that he does not apply vicious terms to the Republicans, such methods not being necessary since the progress of the state under the Democratic control is so outstanding that there is not occasion for a campaign of vilification.

More than one hundred billion pounds of milk are produced annually in the United States, according to Roberts Everett, manager of the National Dairy Industries exposition.

## Ready to Hop Off on Flight to Panama

This shows the crew working on one of the PN-10 planes at Philadelphia, which will be used in the Navy's non-stop flight of 2,100 miles to Panama.

## SMITH AND MILLS CLAIMING VICTORY IN NEW YORK RACE

Democratic and Republican Nominees for Governor Both Confident of Election

New York, Oct. 29.—(INS)—Forty-eight hours before the close of one of the most vigorous state campaigns of recent years today found Governor Al Smith and his Republican opponent, Representative Ogden L. Mills, both claiming victory.

Confident that he will carry greater New York by 400,000 to half a million votes, Governor Smith believes that when the election day smoke has cleared away he will have been returned to the executive chair by one of the greatest votes he ever received.

Mills is counting on coming down to this city on election night with a lead of from 350,000 to 400,000 over Governor Smith and he does not believe the governor can carry the greater city by much more than 300,000. Mills told his campaign managers today he was certain he would win by from 50,000 to 100,000.

The governor has questioned the fitness of Mills to sit in the governor's chair, and he has charged the Republican opponent with injecting "false" issues into the campaign. The last week of the campaign has found Mills attacking Tammany Hall and demanding that Governor Smith order a state investigation of New York City's \$34,000,000 milk scandal.

The betting odds today were 2 to 1 that Governor Smith would be re-elected.

The state campaign has overshadowed the senatorial fight. United States Senator James W. Wadsworth today was quoted as 2 to 1 favorite over his Democratic opponent, Robert F. Wagner.

## FLETCHER TO COACH NEW YORK GIANTS

New York, Oct. 29, Oct. 29th.—(INS)—Reports today declared that negotiations virtually have been closed for Arthur Fletcher to become a coach of the New York Giants next season. Fletcher recently deposed as manager of the Phillies, made his reputation as a ball player while playing as shortstop with the Giants' pennant winners of 1911, 1912, 1913, and 1917.

## LIFE OF PARTY DROPS DEAD ON DANCE HALL FLOOR

New York, Oct. 29.—(INS)—Mrs. Rose Nevellino, sixty-three, was one of the guests at a wedding reception in a dance hall here early today. Laughing and whirling about the hall, she matched the young people in vivacity. At the conclusion of an unusually lively fox-trot, Mrs. Nevellino collapsed and dropped dead. A physician said over-exertion of the heart caused death.

Wireless Power  
Rarefied Air—Thought  
Big Business Is Big  
Busy Again  
By ARTHUR BRINBANK

It has been suggested here occasionally during several years past that solution of the flying problem would eventually include (italics) wireless transmission of power. What men can imagine they can do when imagination ran on same lines.

Electric waves are power and can be sent without wires. It is not too much to hope that power generates at one place on the earth will be sent without wires to another place, or sent to machines flying in the air.

Latest, most important news is that marconi speaking cautiously as usual, suggests the possibility of power transmission without wires as a scientific possibility, not a mere hope. There could be no greater practical scientific achievement.

Scientists think, some of them, that no intelligent life exists on the planet mars because of the planet's great age, as millions of years pass, the atmosphere on a planet becomes more rarefied, therefore harder to breathe.

How do they know that a more rarefied atmosphere does not mean a more highly developed thinking life? During the carboniferous era, lasting millions of years, when the five toes salamander crawled and laid the foundation of our decimal system by handing us ten fingers and ten toes, when dinosaurs monopolized power on this earth for nine million years before men came, men could not possibly have breathed the air that they breathed.

The giant reptile, breathed a thick atmosphere, that would have been more poisonous to our lungs. Perhaps the air that we breathe would be too gross for purified human beings that will come ten or fifty million years hence, and demand a more rarefied atmosphere. There is nothing to warrant our assumption that we are last word of creative evolutionary power.

The Martians, in their rarefied air, may be just entering upon the highest phase of their civilization.

Reports from our big business proves that it really is big. No wonder Europe envies us. While doubting Thomases ask "what do you think of the business outlook?" reports of great companies answer the question.

In the first nine months of this year General Motors earned more than \$145,000,000, and the big United States Steel Company more than \$145,000,000.

It is interesting to see one of the automobile organizations making bigger profits than United States Steel, biggest industrial organization in the world.

In nine months United States Steel earned more than \$13 a share on five hundred million of common stock that was once called "big air." It wasn't even "water." Now, with earnings "put back" it represents no one knows how much real wealth.

Leaders of the bolshevik Russian government inform their followers that everything is going nicely. Russia propaganda is re-

## COTTON POOLS ARE BEING ORGANIZED IN THREE STATES

Coolidge Committee in Conference Today With Bankers of Tennessee, Arkansas and Mississippi

Memphis, Oct. 29.—(INS)—Formation of pool corporations in Tennessee, Arkansas and Mississippi to withdraw from the market nearly 1,000,000 bales of cotton was outlined to bankers of the three states here today by Eugene L. Meyer, chairman of President Coolidge's emergency cotton commission.

At least 200,000 bales of cotton retired by the pools will be stored in Memphis, under Meyer's plan. Memphis warehouses which have a total capacity of 600,000 bales are only one-third filled.

Organization of pools in each of the three states will be started immediately after the close of today's meeting, under sponsorship of the State Bankers' Association in each state.

## Witnesses Called In Investigation of Missing Liquor

Wilmington, Oct. 29.—(INS)—With the serving of subpoenas in the mystery-veiled case of the "United States vs John Doe" initial steps today were believed to have been taken in an effort to account for 12 cases of whiskey alleged to have been stolen from the cargo of the rum boat Elma.

The following witnesses have been subpoenaed to appear before Federal Judge I. M. Meekins at the November term of court here: Mattie Branner, Lillian Smith, Lillie Walton, Charles Kunold, Daniel O'Meara, on the Coast Guard Cutter Red Wing, and B. J. Fadden, radio operator on the cutter Modoc.

Officials who had the subpoenas issued refused to divulge any information other than the subpoenas had been served.

An investigation of the alleged theft of 12 cases of whiskey from the Elma's cargo was started here after Federal Agents made a check-up of the some 4,000 cases of liquor before it was destroyed by court order.

## Explosion Wrecks Frisco Cathedral

San Francisco, Oct. 29.—(INS)—A terrific explosion tore away the door of St. Peter and Paul's Cathedral here early today, causing nearly residents to hurry to the street in alarm. The force of the charge broke many windows in the vicinity.

Police believe a charge of dynamite was used to wreck the front of the building.

## YOUTH OF NINETEEN GOES TO GALLOWES

Chicago, Oct. 29.—(INS)—Richard Evans, 19, slayer of a police officer, was hanged in the county jail here today. The trap was sprung at 7:12 and the young killer was pronounced dead at 7:20 o'clock.

## EFFORT BE MADE TO BREAK WILL OF BILLY MCCLINTOCK

Shepherd Will Encounter Suit From New Angle When Will of Millionaire Ward is Filed

Chicago, Oct. 29.—(INS)—Admission to probate of the will of orphan "Billy" McClintock within the next ten days, as ordered by the State Supreme court yesterday, will be immediately followed by efforts of the youth's fiancée, Miss Isabelle Pope, and his cousins to break it.

Miss Pope's attorneys, so announced today while Weymouth Kirkland, representing William D. Shepherd, was preparing to demand his qualification as executor of the estate of the millionaire ward who made him principal heir.

Civil suit to break the will and keep the estate away from Shepherd on the plea that he used undue influence over young McClintock is the step that probably will be taken by Miss Pope and the cousins. If the suit fails, Miss Pope, under the will, receives an annuity of \$8,000. She wants a widow's share on the estate that only the intercession of Shepherd and his wife kept her from becoming McClintock's wife as he lay on his death-bed. Evidence not brought out in the fight to keep the will from probate or in Shepherd's trial on a charge of murdering his ward by inoculating him with typhoid germs will be introduced in the suit, Miss Pope's attorneys said.

## LABOR FEDERATION IS TAKING ACTIVE PART IN POLITICS

Will Seek Election of Candidates in Two Hundred Congressional Districts

(By William S. Nea)  
INS Staff Correspondent  
Washington, Oct. 29.—(INS)—The American Federation of Labor will seek the election of candidates in more than 200 Congressional districts and will actively use its influence in a half-dozen Senatorial fights, it was announced here today.

Pursuing a non-partisan policy the Federation's campaign committee, which is headed by William Green, Federation president, said its support was about equally divided between Republican and Democratic candidates.

In addition to the Federation's activities, the railroad brotherhoods have announced their participation in many contests. In some instances, the brotherhoods are throwing their strength behind candidates for whom the Federation has taken no public stand. Coupled with labor's efforts to achieve a balance of power victory in next Tuesday's election, was an appeal for a full vote.

"Unless a full vote is polled a reactionary Congress and State legislatures will be elected and hope for remedial legislation for labor and the people generally will be lost," said Green.

Because of the strain upon labor's funds to support strikes the Federation treasury is supplying funds for the political campaign committee's activity.

In letters to state labor organizations, the Federation's campaign committee announced its support in Senatorial contests of Wagner, New York; Walsh, Massachusetts; Brookhart, Iowa; Blaine, Wisconsin; Barkley, Kentucky; and Wilson, Pennsylvania. Two of the men, Brookhart and Blaine, are Progressive Republicans, and the others are Democratic candidates. A statement was dispatched to the membership of organized labor in Ohio this week announcing opposition to Senator Willis Republican candidate for re-election.

## REV. HERMAN T. STEVENS CLOSES REVIVAL MEETING

27 Members Added to Church As Result of Revival Meeting in Baptist Church

The last of the series of revival services were held last night in the Immanuel Baptist Church, and despite the other attractions in the city, the church was completely filled.

Before the service, Rev. Stevens made a short talk in which he thanked each and every one who had a part in the services, and the other churches or their support during the meeting. "I have been in many towns and cities," said Mr. Stevens, "but I have never been given the cooperation or have I been treated more royally, than by the good people of Greenville. There has been just that personal touch, just that spirit of friendliness that warms my heart, and I thank you for it. May God bless Greenville and its people."

For his last message, Mr. Stevens spoke on "Decision," using as his text the 18th chapter of II Kings, mainly, a part of the 21st verse: "How long halt yet between two opinions? If the Lord will, we will go down thither." The speaker could not have selected a better subject or a greater theme than that which he used as a final message last night, bringing out each point simply and clearly, so humbly, so appealing and yet so eloquent that he touched the hearts of his hundreds of hearers. Truly it was a challenge to every man, woman, boy and girl present.

"Why do you halt," Mr. Stevens asked, "between taking the step that leads to a life of joy, peace and contentment; between serving God and the devil. Many of you are on the fence tonight, wanting to make the final decision, but yet you are holding back."

"Many reasons are given by people for not joining the church, and perhaps one of the most common given by men and women today is that 'there are too many hypocrites in the church.' But let me say to you that I am really glad that we do have a few hypocrites in the church, because it shows that there is really something to the Christian religion. A hypocrite is the best imitation the devil can make of a real Christian."

The speaker closed with a plea to the unsaved to give Christ their hearts; to the back-sliders to renew his vows; to the unenlightened Christian to find his place of service; and for the cooperation among church members. The music has been a feature of the revival and has been greatly enjoyed by those who have attended. It was voted on last evening to have Rev. Stevens return again next year, but the evangelist would not definitely accept. During his stay here Rev. Stevens has made many warm friends. His messages have been very inspiring, and it is hoped that Greenville will again have the pleasure of listening to this wonderful speaker.

As a visible result of the meeting 27 have already united with the church. Others will follow soon.

## Striking Students Charlotte School Suspended Today

Charlotte, Oct. 29.—(AP)—Approximately 75 members of the freshman class at the Johnston C. Smith University, an institution here for the education of negro men, were suspended today when they ignored a demand of the faculty that they attend classes.

This announcement was made by Dr. H. L. McCrory, President of the University. The students went on strike Monday after the freshmen had been suspended for having two students who attended chapel services Saturday evening after the freshmen and sophomore classes voted not to attend in celebration of the football game. Dr. McCrory said, he denied earlier statements by John Williams, of New York, spokesman of the sophomore class who said that 750 students were preparing to go home.

PEOPLE OF NATION  
TO RENDER VERDICT  
ON NEXT TUESDAY

Senator Reed Completes Series Slush Fund Probes and Leaves Verdict to American People

(By William K. Hutchinson)  
INS Staff Correspondent  
St. Louis, Oct. 29.—With the completion of the next Senate session hanging in the balance, Senator James A. Reed, of Missouri, today turned his Senatorial slush fund "case" over to the American people for a verdict.  
After revealing an ocean of slush in Pennsylvania and a \$1,600,000 primary in Illinois, the Reed inquiry closed here with a final picture of the Ku Klux Klan's tremendous political activity and its glove-tight relation to the candidacy of Senator James E. Watson in Indiana. While no slush was found in the Hoosier state, Reed looked upon the Klan's revealed activity in national politics as of more far-reaching significance to the electorate than even the buckets of slush uncovered in Pennsylvania and Illinois.  
He declined to forecast the result of the Senate investigation upon the elections Tuesday. His friends pointed out that Reed's inquiries involved three states where four senators will be elected, led to investigations in Wash-

ington and Oregon, while provoking slush charges in Connecticut, Oklahoma, Ohio and Arizona, and that the investigations might easily determine which party wins control of the next Senate.  
Throughout the Middle West at least, the Indiana race will be watched the closest because of the testimony involving Watson and Robinson in activities of the Klan. Both Senators have wired Reed formally denying any connection with the Klan but the record of the Hoosier inquiry reveals sworn testimony declaring both are members.

THREE WEDDINGS  
BE NECESSARY FOR  
ROYAL WEDDING

Brussels, Oct. 29.—(INS)—The religious ceremony, uniting Prince Leopold, heir to the Belgian throne, and Princess Astrid of Sweden in marriage, to be performed in St. Gudule Cathedral on November 10, will lack much of the pomp usually attending royal ceremonies, it was learned today. This is due to the opposition of the Catholic clergy to the marriage, inasmuch as Princess Astrid intends to keep her religion, even though she has agreed to sign a statement pledging that any children of the union will be brought up in the faith of Prince Leopold.  
Three wedding ceremonies probably will be performed before the marriage is complete. The civil ceremony will be performed in Stockholm next week. This, it is understood, will be followed by a secret Lutheran ceremony in Stockholm, in deference to the wishes of Princess Astrid. The third ceremony will require only thirty minutes, though it will be the first royal wedding in Brussels in 75 years.

TRICK SHOT DECLARES  
HE DIDN'T KILL SHERIFF

Meridian, Miss., Oct. 29.—(INS)—Kennie Wagner, gunman and ex-circus trick shot, maintained from the witness stand in his trial for murder here today, that he did not kill deputy sheriff Murdock McIntosh until the latter first fired at him.  
Both sides rested after Wagner gave an account of the shooting. The State denied Wagner's story. Its witnesses claiming that Wagner shot the deputy without warning.  
Wagner said the officers approached the house in which he was hiding following his escape from jail. The house was subjected to a bitter fire, he claimed, and he shot in return. Wagner then fled and for a long time was a fugitive.  
Closing arguments were begun this afternoon and it was expected the case will go to the jury tonight or early tomorrow.

STEAMER AGROUND  
OF NEW ORLEANS

New Orleans, Oct. 29.—(INS)—The Southern Pacific Steamship Creole, bound for New Orleans from New York, went aground at near the mouth of the Mississippi today. There are 150 passengers on the steamer.  
Upon learning of the mishap, officers of the Southern Pacific immediately dispatched to the scene the tug boats R. W. Milmot and Barranca, these boats are expected to tow the liner back into the channel before nightfall.  
The Creole is believed to have gone aground near where the freighter Louisiana sank Thursday after colliding with the Gulf and Southern passenger ship Madison. The currents where the river reaches gulf are treacherous.

BULGARIAN WOMEN FORM  
SOCIETY TO POISON MEN

Sofia, October 29.—(INS)—The Bulgarian police have uncovered a secret society composed of women whose avowed object is to poison and otherwise secretly rid themselves of male relatives.  
It is stated that a number of young women belonging to the society—which is named after Saint Lucretia—have found it the medium of avenging themselves on lovers who have tired of them.  
A number of women have been arrested and are now awaiting trial on charges of having poisoned their husbands and relatives with a view to obtaining monetary benefits.

WOOD BURNING BUSES  
NEW PARIS EXPERIMENT

Paris, Oct. 29.—(INS)—Wood burning buses are an interesting feature of the Automobile Salon in Paris this year. They make use of logs instead of high-priced gasoline and are capable of seating from fourteen to twenty passengers. The Bercet Company has been demonstrating them and giving gratuitous rides to many people who find the new invention quite delightful. Just how long before one will see the buses on the regular schedule lines, is still a question.

U. S. FURNISHES HALF  
OF AUTOS FOR ENGLAND

London, Oct. 29.—(INS)—50 per cent of the automobiles sold in England are of American manufacture, according to statements made at the Automobile Exposition here.  
It was stated that automobile sales in Great Britain during 1925 totalled \$260,000,000. Of this figure \$128,000,000 were paid for American cars.

Attachment Suit  
Against Effects  
of Pola Negri

New York, Oct. 29.—(INS)—An attachment suit against the effects of Pola Negri, motion picture actress, was filed today in the Supreme court by a German jewelry firm which alleges Miss Negri owes it \$100,000.  
A letter attached to the papers filed by Gargraf and Company of Berlin, is from Miss Negri and says she is returning an emerald ring purchased from the firm because she had trouble getting it through the customs inspectors.  
The suit alleges that the company drew drafts on P. S. Negri through her bank here, but that they were denied.

Cashier Absconds  
Leaving Shortage  
Hundred Thousand

Memphis, Tenn., Oct. 29.—(INS)—Courtney Gibson, teller at the Bank of Commerce and Trust Company has disappeared, leaving a shortage of \$100,000, it was learned today. Police have issued circulars to nearby states asking the authorities to be on the watch for him.

RAN SILK CLOTHES  
HELP COTTON PRICES

Columbia, Miss., Oct. 29.—(INS)—Twelve hundred students at the Mississippi College for Women here adopted a resolution banning silk hosiery and "unmen's" until cotton prices recover. They wear only cotton garments.

Princess Ileana, Queen Marie of Rumania and Prince Nicholas are shown examining the sword presented to the Queen after she reviewed National Guard troops at Brooklyn. (International Newsreel)

## LOCALS

Mrs. Winnie T. Barnes, of Wilson, returned home yesterday after visiting her daughter, Mrs. J. J. White.

### END OF CENTURY MEETING

The End of the Century Club held one of the most interesting meetings of the fall on Tuesday afternoon, at the home of Mrs. W. A. Bowen, with a large attendance.

In the business meeting, Mrs. R. L. Carr gave a gratifying report from the Public Library. The club voted to assist in beautifying some consolidated school. Mrs. R. R. Cotten gave a very pleasing report of the district meeting at Belhaven.

An unusually interesting program followed the business. Mrs. R. H. Wright gave a charming review of "After Noon," by Susan Ertz, and Mrs. Harry Skinner made a most able criticism on "Lolly Willows" by Sylvia Townsend Warner.

After the program the hostess, assisted by Mrs. Francis Bowen, served an elegant salad course.

### MRS. CLARK IN HOSPITAL

Friends of Mrs. O. F. Clark will regret to learn that she is in Norfolk Va., in a hospital, and hope for her a speedy recovery.

### BRIDGE CLUB ENTERTAINED

Miss Ernestine Forbes was hostess to her bridge club Wednesday evening. Two tables were placed for the games. Miss Mary Warren, making top score, and Mrs. W. T. Bryan, low score, were presented attractive prizes. After the game, the hostess served tempting date roll sandwiches and tea.

### MR. C. W. EXUM IN HOSPITAL

Friends of Mrs. C. W. Exum will be glad to learn that he is getting along nicely following an operation which he underwent in the local hospital today.

### J. D. ENRIGHT HERE

J. D. Enright, factory representative for the Seller, Kitchen Cabinet, Elwood, Ind., is in the city for a few days and will have charge of the cabinet sale at Quinn-Miller's.

### FOOTBALL IN GOLDSBORO

A large number of local football fans of this city, expect to attend the football game tomorrow afternoon in Goldsboro. The teams of Duke University and Wake Forest College will meet at that time, and it is expected to be one of the most interesting games of the season.

### GREENVILLE GIRL IS Y. W. SECRETARY UNIV. OF WASHINGTON

Miss Louise Fleming was installed September 20 as the new secretary of the campus Y.W.C.A., succeeding Mrs. Willard Watles (Mary Brownlee) who was married last June.

Miss Fleming served last year as secretary of the Y.W.C.A. at the South Carolina State College for Women. During the summer of 1925 she was an American delegate to the International Student Service meeting in Geneva, Switzerland. She also attended the British Student Christian conference at Swanwick, England. This summer she studied with an international group in Canada under the leadership of Dr. H. B. Sherman, of Toronto, Canada.

Miss Fleming received her AB degree at Meredith College and her M. A. at Columbia. She has had special training in work with foreign groups.

The above was taken from the University of Washington paper, Seattle, Wash., and will be of interest to the many friends of Miss Louise Fleming, daughter of Mrs. J. L. Fleming, of this city. It is very gratifying to know that one of Greenville's young ladies has had so many honors bestowed upon her.

### U. D. C. MEETING

The George B. Singletary Chapter of the Daughters of the Confederacy held an interesting meeting Thursday afternoon with Mrs. C. S. Forbes.

The following officers were elected: Mrs. R. C. Deal, president; Mrs. T. A. Person, vice-president; Mrs. R. H. Wright, secretary; Mrs. Hortense Moya, treasurer; Mrs. J. B. Spilman, historian; and Mrs. J. L. Little, registrar.

Mrs. J. L. Fleming, who was a delegate to the recent state convention held in Fayetteville, gave a most interesting report of the meeting.

The following were elected as delegates to the General U. D. C. convention to be held in Richmond early in November, Mrs. J. B. Spilman, Mrs. T. A. Person and Mrs. J. L. Fleming. The alternates are Mrs. J. N. Gorman, Mrs. S. T. White and Mrs. H. F. Jones.

At the close of the meeting, the hostess served tempting refreshments.

Mrs. H. F. Jones, Reporter

### Football Squad of Battery "E" Suffer Defeat

The gridiron warriors of Battery E-Field Artillery, local unit of the National Guard and a team representing the fire department of Washington, were engaged yesterday on the fair ground field in one of the most hotly contested grid battle ever witnessed here, and it was not until the third quarter that either eleven were able to make gains of any consequence as they struggled near the center of the field. During the latter part of this period, West for Greenville, attempted to forward a pass, which was intercepted by Hodges of Washington, who at that time had practically a clear path to the goal, and after making a beautiful run for a gain of 65 yards, he was downed on the 5-yard line by Sammie Carson. After three hard plunges at the local's line the ball was carried over for touchdown after which the seventh point was added by clean drop kick.

This aroused the real fighting spirit of the Greenville boys and they entered into the remaining periods of play with the determination to equal what had previously been done by their opponents, but the almost impenetrable line of the opposing squad kept Greenville far from the coveted goal. Several times the locals attempted gains by forward passing, but only twice were they completed, and then the receiver was downed in his tracks. In the fourth quarter Greenville gave the Washington eleven the bitterest fight of the contest, and when the time keeper's whistle sounded, ending the game, the locals were making good gains which no doubt with a few seconds more to play, would have resulted in a touchdown and possibly a tie score.

In only one department of the game did the visitors have the Greenville team bested and that was in running interference. In this respect the locals offered practically none, and several attempts around the ends resulted in the player being thrown for a loss.

Although outweighed by several pounds as a team, the Greenville boys made a remarkable showing against the Fremont which squad was composed almost entirely of former college football stars. Fraser and Leach were the outstanding stars for the visitors, while for Greenville every member starred in his respective position. To Carson, Herring, Porter and West special mention is deserved for the way they ploughed through stiff interference and displayed some of the prettiest feats of tackling ever seen on the local field.

Yesterday's game brought the two squads to a tie. The locals having defeated the visitors in Washington two weeks ago by a score of 2 and 0. The third contest to prove the superiority of the eleven, will probably be played shortly, but as to where it will be staged has not yet been determined.

### AGED FLAGMAN KILLED BY TRAIN

Birmingham, Ala., Oct. 29.—(INS)—Struck down by a train as it backed from the terminal station, W. E. Harper, 75, a crossing flagman, was killed here today.

Witnesses declared the dead man apparently failed to see the train and walked directly into its path. Both his legs were severed from his body.

## WYOMING ELECTION IS CLOSE CONTEST

Cheyenne, Wyo., Oct. 29.—(INS)—With the electors of Wyoming ready to determine by their votes who the Governor and other elective officers of the state shall be during the next four year term, the indications are that the result will be close.

Governor Nellie Tayloe Ross, who was unanimously re-nominated at the primary election in August as the Democratic candidate to succeed herself as chief executive of Wyoming, has been very active since the campaign opened over a month ago, and has covered the entire state on her speaking tour.

Frank C. Emerson, Republican gubernatorial nominee, has also been actively engaged in campaigning, the stumping tour laid out for him virtually paralleling that of Governor Ross.

In Cheyenne a few days ago, Mr. Emerson said:

"I certainly expect to be elected by a substantial majority and I have abundant reasons for such expectation, but I do not care to indicate at this time the probable size of my majority. The voters generally will go to the polls on election day."

Governor Ross also appears to be confident of re-election and anticipates receiving a majority approximating that given her two years ago, when she led the ticket and defeated her Republican opponent by 8,048 in a total vote

of 84,822. She declines, however, to be quoted for publication concerning what her probable majority will be this year.

The Democratic campaign managers declare that the little lady governor cannot be defeated, while Chairman P. C. Spencer of the Republican state committee, asserts with positiveness that Emerson will be elected Governor by a normal Republican majority.

Mrs. Ross was elected two years ago to fill the unexpired term of her husband, William B. Ross, who died after having served one year and nine months. Wyoming has never had a lieutenant governor.

The little lady governor is seeking re-election this year on her record as chief executive, claiming for herself vigilance in the enforcement of law, economy and efficiency in government, preservation of the direct primary, a sympathetic consideration of the welfare of labor and opposition to special privilege of every kind and character.

### Asheville Police Probe Killing

Asheville, Oct. 29.—(INS)—Police today were investigating the shooting of Raymond Burgess, of West Asheville. Burgess was shot supposedly by a group of men at target practice while he was walking on the highway. Police reports show. After the shooting he was picked up by a passing motorist. He may recover, physicians said.

### BRITISH COAL STRIKE HURTS SHIP BUILDING

London, Oct. 29.—(INS)—The effect of the British coal strike

on the shipbuilding industry here is shown by the big reduction of tonnage on the slips, as recorded by Lloyd's return, for the quarter ended September 30.

The tonnage then under construction in Great Britain and Ireland—774,749 tons—was 266,541 tons less than at the end of June 1926, and about 236,000 tons less than the tonnage building a year ago.

### Farmer Takes Life After Conference With His Banker

York, S. C., Oct. 29.—(INS)—Complaining of a headache, Claude

Wilkerson, wealthy farmer and owner of Hickory Grove, went to his room after a conference with his banker Thursday afternoon. Soon after a loud report was heard and Wilkerson's body was found on the floor. He leaves a wife and five children.

**Daily News Letter**  
Gossip of Staff Correspondents at World Centers of Population.  
New Haven, Conn., Oct. 29. (INS)—Yale finds her golf course is expensive. Although the land on the western slopes of the city wastegiven as a memorial to Ray Tompkins, once a noted athlete here, and expense of the building the course was met thru gift. Yale is losing \$15,000 on the golf course. This fact was revealed when the city desired to tax the golf course on the ground that it is not strictly an educational proposition. Yale's golf course has been considered "one of the three finest on earth" and has been open to any player at a price, whether he was a Yale man or not.  
"By selling neckties, eight students earned \$1,224," says the annual report of the Yale bureau of appointments, the medium by which students are working their way through college get jobs. One-third of the Yale student body is self-supporting wholly or in part, and this group earned a total of \$590,339 in the year ending last June when college closed. Scholarships, and loans, rather for short or long terms, provided students with \$333,724, and the grand total of all earnings and scholarship aids reached a new peak of \$925,135.  
Coming down to details the report shows one man earned \$3,000 working part-time, four earned over \$2,000 apiece, 17 earned between \$1,000 and \$2,000 each, and 64 earned between \$500 and \$1,000 each. The workers stood high in their studies into the bargain.  
Investigating what Yale students did during the summer with out aid from the Bureau of Appointments it has been discovered that they earned \$93,176. Twenty of the group went over seas and back as cattle hand, and the rest ran the usual gamut of summer employment. Then the bureau of appointments found places for 450 other students who earned \$173,928.  
New Haven proposes to spend a few millions immediately to help cleanse Long Island Sound. Plans are in the works to construct huge sewage disposal works in the harbor, off the land but inside the city's harbor lines, and so take care of the city's potential growth for the next fifty years. Not only the city but its remote suburbs will be included in the sewage attached to the city because of sewage may be removed.  
The State has passed a law giving every town in its area a certain time in which to quit dumping sewage into its streams, all of which empty into in many cases are atrocious in hot weather. Sewage has reduced New Haven from the largest oyster port on earth to a mere nothing in that industry and sewage has been threatened to knock the great "summer visitor industry" into a cocked hat.  
Civic pride is being stirred in the matter of populations. Hartford, twenty years ago succeeded by Bridgeport as second city in the state, is now back in that place unofficially and its business men are claiming it will have 200,000 in 1930 because of the enormous expansion of its insurance industry. Already Hartford has gone next to Boston among New England cities in the matter of bank clearings and postal receipts.

**IT MUST BE CUT**  
Urging the necessity of cutting down the 1927 cotton acreage and all future plantings if the farmer is to avoid another such situation as now prevails, and pointing out that financial aid to handle the present crop cannot be had unless growers agree to cut their next crop, the News and Observer says:  
"The time to strike a blow for the curtailment of the 1927 cotton crop is now when the result of overplanting is acutely obvious.  
"There can be no conflict between the financing of the present crop and the saving of the next from the necessity of emergency measures. Of course, North Carolina cannot reduce acreage sufficiently to save the South; but its failure or refusal to co-operate at a time when all the cotton growers of the South are bent on relief for next year can be disastrous.  
"North Carolina has organized a million dollar financing corporation. The banks of Richmond, Va., have provided a revolving fund of five million dollars available to their customers in the Fifth Federal Reserve District. Advertising their readiness to lend this money, the Richmond banks couple their announcement with a plea for curtailment next year.  
"This is the remaining step in the program which North Carolina cannot ignore. We must not stop half way. If it were not true that cotton growers, like other humans, are disposed to forge disasters that are past, the present situation would not be upon us. Since they are, any program of relief which does not include help for this year's crop and insurance against a repetition of the distress next year will be just half effective."

**Brewster Weds**  
**Movie Protege**  
Los Angeles, Oct. 29.—(INS)—Crimaxing a romance of several years standing, Eugene V. Brewster, millionaire publisher of motion picture fan magazine, was married to Corliss Palmer, his movie protege, in Ensenada, Mexico, last Wednesday afternoon, according to reports here today, following Brewster's return to the film colony.  
The publisher several weeks ago sought divorce in Mexico as his wife is said to have blocked his efforts to obtain a decree in the United States.  
As soon as Brewster learned Tuesday afternoon he had been granted the Mexican divorce, he was said to have left Hollywood with Miss Palmer. Arriving in Ensenada, Brewster persuaded the Mayor to overlook a claim requiring a fourteen day interval between the granting of a divorce and a subsequent marriage.  
There was some speculation here today as to final disposition of the \$200,000 alienation of affections judgment against Miss Palmer which Mrs. Brewster won in New York. The publisher's wife some time ago brought a suit in local courts in an effort to collect this judgment.

## COTTON FARMER LIVING AT HOME

**E. W. Smith, of Har-  
nett County, Is Not  
Worrying Over  
Slump**

A cotton farmer, who lives soybeans in summer. Mr. Smith said to be the largest farmer his hand under the

wagon market for cotton in the world, is not seriously worried by the low price for cotton since he produces his crop cheaply and grows everything else that is needed on the farm, according to O. F. McCrary, district agent, who visited this farm last week. "I consider Mr. E. W. Smith, who lives on Route Four from Dunn to be one of the best farmers in North Carolina," says Mr. McCrary. "He has 240 acres on his farm and of this amount 72 acres are in corn each year and 130 acres are in oats followed by soybeans in summer. Mr. Smith keeps the land fertile, states Mr.

## SCHOOL DAYS — By DWIG

McCrary. Mr. Smith gets a yield of 10 bushels of soybeans under such a system. He harvests the beans for seed. He has never bought a bale of hay nor an ear of corn, except when perhaps a new tenant comes on the place and is not supplied.

"The first thing I noticed about this farm was the big corn barn full of hay," says Mr. McCrary. "I found too that Mr. Smith had about 300 paying hens. He told me that he sold nearly all of the eggs, but kept his young chickens to supply his own needs. He has 20 good cows and is shipping the cream to the Benson Creamery twice each week. He has eight brood sows and raises all the meat needed on the place. He also intends to raise his own mules but has not been so successful with this work."

Mr. Smith secures his meat supply in quite an unusual manner, according to Mr. McCrary. The fresh meat is all sold as soon as the hogs are butchered. A good market found at a nearby cotton mill. With the money from the fresh meat, Mr. Smith lays in a supply of salt meat and hams that he uses for his tenants during the year. He finds it more profitable to sell the fresh or green, heavy meat and to buy back cured meat than to try and cure out the meat itself.

Mr. Smith plants 12 acres of crops to each acre and has a 20 horse farm. Each tenant is encouraged to have his own cow, chickens and garden and some of the tenant, have been on the place for fifteen years and longer. When they leave, they most always come back.

The land that is left for cotton is made to produce heavily. Mr. McCrary noted one small of two acres that produce 4,500 pounds of seed cotton largely due to the practice of planting legumes in rotation. Mr. Smith uses

only about 500 pounds of fertilizer per acre under his cotton farm. There is natural pasture. He has a home orchard with age on the farm used for grazing some of the trees about six years in the cows, but additional pastures of age and this is considered one tree will be planted this winter.

## Extra Milk from Checkerboard Bags

HERE'S how sure we are that Cow Chow will make you more milk and make it at less cost per pound!

We will see that you get milk scales at cost, or we'll lend them to you, so you can weigh the exact amount of extra milk you get each day from Cow Chow. And what's more—we will give you some Record Blanks free, so you can see how much Cow Chow cuts your cost of producing milk each day! Isn't this a fair proposition? Phone us.

## MUCH WANTED FUGITIVES ARRESTED IN TENNESSEE

Chattanooga, Tenn., Oct. 29.—(INS)—Three men, arrested for questioning here last night in connection with alleged passing of worthless checks, today appeared to be much-wanted fugitives police claim.

The prisoners, who gave their names as James E. Burke, Atlanta, Ga.; C. A. Carter, Pittsburgh, Pa.; and Jackson Boyd, no address, were taken into custody by police at a local hotel after

they were alleged to have passed two worthless checks on Chattanooga merchants for about \$250. Telegrams from New Orleans, Gulfport and Hattiesburg, Miss., and other southern cities, state that this trio is also wanted in those towns for passing alleged worthless checks.

Jazz has been banned from the public civic week entertainments in Manchester, England, because the authorities believe people get enough of it in music at other times.

## STATE EXPLODES A BOMBSHELL IN McPHERSON CASE

**Clothing Found in the Trunk of Missing Radio Operator Is Identified As Property of Mrs. McPherson**

Los Angeles, Oct. 29.—(INS)—The sensational *Amee Semrle* McPherson case was blown wide open again here today.

On the very day her attorneys rested their case, after the preliminary hearing of the evangelist her mother, Mrs. Minnie Kennedy, and Mrs. Lorraine Wiseman-Sieatt, all charged with conspiracy to manufacture false evidence, had dragged through five weeks, the State exploded a bombshell by announcing that Kenneth G. Ormiston's trunk had been discovered in New York and that it was expected to arrive at the District Attorney's office at any time.

Ormiston, former radio operator at Angelus Temple, is alleged to have been the companion of Mrs. McPherson at a cottage at Carmel, Cal., while her follower, thought her drowned.

In Ormiston's trunk, according to the District Attorney, is sufficient evidence to make a settlement of the case, quickly and conclusively.

It is crammed with women's wearing apparel, dairy frocks, expensive shoes, imported lingerie, silk stockings—and a silk "evangelistic" robe.

Practically every article in the trunk was purchased in Los Angeles.

A Chicago evangelist, Rev. Rader, it is recalled, occupied the pulpit at Angelus Temple while Mrs. McPherson made a pilgrimage to the Holy Land a year ago. The trunk also contained a lace bonnet cap. In this cap was a single strand of hair—a hair of decidedly reddish hue.

This single strand of hair was sent to District Attorney Keyes from New York by air mail. That

## A Goo-Goo-Glimmed Auto

This auto was knocked dizzy, and looked the part, too, when it ran into a tree at Washington, D. C. Five were hurt.

single strand of hair, according to Keyes, is going to have an important bearing on the outcome of the case.

Although District Attorney Keyes has not yet delved into the contents of the trunk, the identification of the articles it contained was made possible by the photographs and descriptions forwarded from New York.

Tracing Ormiston's trunk took investigators to various sections of the country. It was first shipped from Pasadena by a man using the name of Herbert C. Cornell. Keyes said he was positive this man was Ormiston.

From Pasadena, the trunk was shipped to Jacksonville, Fla. It was consigned to a "Ralph Stinger."

The trunk next was shipped to New York—Ralph Stinger writing to Jacksonville that he would not be in that city for some time and asking that it be shipped to the Cumberland Hotel in New York.

The trunk was finally seized in New York, where it was in storage. Checking the movements of the man known as "Cornell"

and "Stranger" disclosed that his activities were exceedingly mysterious. Like a shadow, he flitted from city to city, always a step ahead of officers, and today he is still a phantom—but when he is found, according to Keyes, it will be found that he is Ormiston, long sought as a confederate in the McPherson conspiracy case.

Keyes announced today that he was positive the contents of the trunk, upon its arrival here, could definitely be traced to the owner.

Following the announcement yesterday that the defense rested its case, a recess until Wednesday was agreed upon. In the meantime attorneys for the state and for the defense will prepare briefs and submit them to Judge Blake Monday.

# ROUMANIAN QUEEN ENJOYS BIRTHDAY

## Queen Marie Celebrates Fifty-First Birthday Speeding Through Wilds of Canada

(By David P. Sontner, HNS Staff Correspondent)

Aboard Queen Marie's Special Train, Oct. 29.—(HNS)—Speeding through the wilderness where there are no high hats, Queen Marie of Roumania today celebrated her fifty-first birthday quietly with her children, Princess Ileana and Prince Nicolas. The royal train will not stop until it reaches White Sulphur, a distance of 1200 miles through the Cobalt gold fields and virgin unsettled Canadian territory, a two day trip.

Her majesty let it be known that was 'family day' in the royal suite. Nevertheless, she was kept busy reading thousands of congratulatory telegrams from all over the world. Her suite was lowered with gifts of flowers.

A cablegram from King Ferdinand was her birthday gift. Then Princess Ileana and Prince Nicolas rushed in to kiss their mother, a happy birthday.

Ram Williams, who porters for the royal party and Wm. Martin, who is in charge of the royal cuisine, spent most of the day in Ottawa searching for a turkey.

Surfeted with homage and of-

beat receptions, her majesty listed next Monday as a day when she may act like a woman and forget she is Queen.

When Queen Marie arrives in Fargo, North Dakota, she will begin her day of freedom and mix with the middleclass life of America that she yearns to know.

Visit and talk to farmers and their wives, cowpunchers and cattlemen and ride 'cow girl' fashion at Medora, where a rodeo will be in progress.

The farmers and cattlemen will be picked up in pairs along the route. Her majesty is anxious to talk with farmers with small holdings as these are typical of the Roumanian land owners and she wants to talk of similar agricultural problems.

### Moonshine Feud to Raise Price of Xmas Booze

Memphis, Tenn., Oct. 29. (HNS)—"Buy your Christmas liquor early. Because by the holiday season it may be much higher in price or even hard to get."

On this, advice prohibition officers, and moonshiners agree.

Here's three reasons why:

1. A bitter moonshiners feud is in progress. Rival gangs are tapping off officers as to the locations of each still. This is done by anonymous telephone calls. Rivalry is so keen gangs have been dynamiting stills owned by their competitors. Bloodshed is threatening among those connected with Memphis liquor industry.
2. President's Island, long a thorn in the side of prohibition officers, has a new enemy. It is

Mrs. John K. Green, of New York, took over the manufacture of a safety guard for window cleaners after her husband died. Since then she coached the business.

a powerful coast guard cutter recently assigned here. Motorboats bringing whiskey from the still-in-fested island to the local market are being captured nightly.

3. Police and county officers taking advantage of the shimmers war, have inaugurated a sweeping drive on the local market of which has been flooded, running the price down to \$2 per gallon wholesale of \$4 retail.

From the rumbling domes grapevine reports of brewing violence. Suchplots as destruction of the new government chaser leak to the ears of local officers.

Authorities recall Sheriff W. S. Knight's attempt to battle the rum runners on the Mississippi. Sheriff Knight some two years ago was given a fast motorboat by the county with instructions to check the flow of liquor into this city from river islands.

Manned by six picked deputies the boat proceeded to numerous islands above and below the city wrought havoc on stills and captured several liquor cargoes.

But the underworld swore revenge. One evening at dusk the officers were returning from a busy day of raiding. Three launches came in view. They were all highpowered, fast rum-runners boats.

When the largest of these boats charged on the officers, a gun battle ensued. But the driver of the liquor boat crouched low and piloted the powerful craft-head-on into the sheriff's launch.

The officers boat was split in two, the deputies and sheriff swam ashore as the officers boat sank to the bottom of the Mississippi.

Since that time, raids on the islands have been few as boats must always be borrowed for the occasion and liquor interests control most of the boats.

For weeks, however, Sheriff Knight and his deputies have found many stills on telephone "tips". This information is from rivals. In some raids they find where stills have been dynamited by hi-jackers or rivals.

One report from the underworld, brought in by a stool-pigeon, was that open warfare was brewing. "They say they are to make the morning," said the excited police informer.

Later during the night, officers received reports of automobiles, driving at terrific speed, loaded with men armed with sawed-off shotguns, in various parts of the city.

No blood was shed that night and police say it was only "a demonstration" by the underworld.

## BODY MRS. MILLS WAS RETURNED TO THE GRAVE TODAY

Examination of Body Woman Slain Four Years Ago Shows 3 Bullet Wounds in Head

Greenville, N. C., Oct. 29.—(INS)—Inquest of the Hall-Mills murder mystery declared today that the two bullets extracted from the examined body of Mrs. Eleanor R. Mills, choir singer, who was slain here four years ago with her lover, the Rev. Edward R. Hall, will have an important bearing at the trial next week of the Rev. Hall's widow and her brothers, Henry and Willie Stevens, charged with the murder.

Whether 440. revolvers were used in the dual slaying long a mooted question may be established by a study of the bullets, investigators said. Three bullets were fired into Mrs. Mills' head, but one passed through and was not found.

Examination of the body by Dr. Otto H. Schultze, autopsy surgeon, also disclosed that the tongue was missing—a recently reported fact which hastened special prosecutor Simpson's decision to order the humation.

Dr. Schultze indicated that the tongue had been cut out, although he said it might have disintegrated during the long period the body had lain in its grave.

The body of Mrs. Mills was reburied in its grave this morning. This was the second time Mrs. Mills' body had been examined and

## Earl Accuses American Wife

Lady Cowley, formerly Mae Pickard, American actress, was charged with intemperance and with intimacy with another man in a divorce suit brought by Earl Cowley in London.

and autopsy performed.

The autopsy revealed that the "necklace" wound on the throat, which nearly severed the head, began at the back and was slight as its inception. Increasing in width as it continued. The physician suggested that a pair of shears might have been used. Once the instrument had slipped making a cut in the breast.

For legal purposes James Mills, husband of the murdered woman, was called in to identify the body.

"Yes, that's Eleanor—that's my wife," he said in a colorless voice.

Then he raised the left arm and patted the wedding ring he once had placed on a finger. He turned away, bowing his head, and was led from the room by a detective.

Prosecutor Simpson has found a new witness, a woman, whose testimony may be of startling importance at the trial. She asserts Ralph V. Gorsline, a vestryman in Dr. Hall's church, admitted to her that he turned the headlights of his car on the murder scene. His story is that he was in De Russay's lane that night, with Miss Catherine Rastall, but he denies that he switched on the lights.

The new witness, whose name the prosecutor is guarding, corroborates Mrs. Jane Gibson, "the pig woman," an ace among the stage's humdrum witnesses. Mrs. Gibson says she saw Mrs. Hall, her brother Willie and her cousin, Henry De La Carpenter, in the lane. She explains that she was

enabled to recognize them by the glare of automobile headlights. Carpenter, also charged with murder, is to be tried later.

New York, Oct. 29.—(INS)—Lieutenant Walter P. Cieluch, representing Senator Alexander Simpson, special prosecutor in the Hall-Mills case, appeared in court here today with an application for a court order authorizing the examination of the body of Rev. Edward Wheeler Hall, who was murdered four years ago with Mrs. Eleanor Mills.

Mrs. Mills' body, buried in New Brunswick, was exhumed yesterday and an autopsy performed.

## Sex Plays on Both Stage and Screen

Hollywood, Cal., Oct. 29, (INS)—Sex plays on both stage and screen are becoming a drug on the market. Balboni, First National director, declared today. Melodrama will soon have full sway.

"Problems and sex plays run in cycles. They interest for a time and then become passe because they deal with only certain phases of life. Melodrama typifies real life; it includes every phase. That is the great difference.

"Melodrama changes in aspect, but not in spirit. The bewhiskered villain, mortgage on the farm melodramas of 15 years ago are foolish today because living and working conditions have changed."

# Gorman's Market Report

The sales have been smaller this week. Prices on the thin bright tobacco which had been selling from thirty to fifty cents were easier Tuesday and Wednesday. All other grades have been full up with the wrappery tobacco higher than at any time this season. On Tuesday they were much stronger and our sale of 60,064 pounds averaged \$33.77 and we had the usual amount of very common tobacco in this sale. We believe prices will be stronger the coming week, as some new orders came on Thursday for the grades that had weakened.

GORMAN has FIRST SECOND SALE MONDAY, FIRST SALE TUESDAY, SECOND WEDNESDAY, FIRST THURSDAY, 2ND FRIDAY.

McLawnhorn and Dail—152 at 88, 160 at 80, 126 at 43, 54 at 38, 120 at 34, 20 at 33 ..... Average \$60.73

# J. N. Gorman and Sons
