means THE BEST in confining garmenis irrespective of price.

If your problem is the suppression of diaphragm flesh, you will choose the Warner Corsclette or Wrap around which conceals and finally eliminates it as does this model.

If you would flatten the unfashicnable curve of the lower back, you will appreciate the Warner feature of the diagonal thigh band which exerts a two-way tension between lower back and diaphragm, flattening both and preventing the Wrap-around's sliding up.

The same feature of diagonal thigh band is also to be had in the Warner Wrap-around Corselette together with an irreproachably flat back and a soft or brocade brassiere section. The problem of disproprotionate thighs is solved for large or small figures by the Wrap-around model with firm reinforcements of cloth held by hose supporters.

DIVERSIFICATION ONLY HOPE

The low price of cotton and high price of tobacco this season has brought forth expression from all sections that next year a goodly portion of the cotton acreage will go into the pro duction of tobocca. In the ed at expiration of time paid for. I face of the present prices such a step might appear a wise one at first glance, but ii the farmers will pause for just a moment to think what it means, they will immediately realize that such action on their part would be ruination for all concerned. An overproduction of tobacco next year would do to the tobacco prices what Boys will be boys and we the record cotton crop this year has done for the coting section.

PECULIAR CLOUDS IN TEXAS ADAPTED FOR LIGHTING EFFECT

San Antonio, Tex., Nov. 1 .-INS)-California, long the cher shed home of the motion picture industry, whose sunny skies and glorious climate have brought fortune and fame to the Golden State through the medium of the silver screen, now has another rival. It has been discovered that the peculiar cloud formations of South

Central Texas are unusually adapted for the lighting effect required

by many big feature productions. According to J. H. Jarbee, of the United States Weather Bureau, the white, fleecy Texas clouds, because of the absence of moisture and its accompanying density, are more conductive to good lighting effect than the heavier, denser louds of the Golden States. The Texas clouds, he says, permits, the sun's rays to penetrate them, making a softer lighting effect for motion picture photography.

Of all known drugs, creosote is rec-ognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creemulsion contains, in addition to creosote other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the crosside goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the grwth

of the germs. Creemulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchit's and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. the right kind of preparedness, a great battle fleet in the air an marines to destroy enemy ships a airships. Sink enemy merchant and war vessels. Those are the things this country needs,

The Vildiz Palace in Constantinople where the Sultan lived with fair ladies, occasionally having his canuchs strangle one or two of them, has been changed to a gambling house of the Monte Carlo kind. The Sultan is gone, his ladies, poor things, are working for a living, and so are the

The Vildiz gambling Casino has produced its first suicide, an attache of the Hungarian legation. He lost his money, lost more that he borrowed and couldn't pay and so a beautiful Russian dancer most beautiful girl in Constantinople,' lost interest in him. He blew out his brains.

That happens in Monte Carlo often. The authorities there will Iways pay your fare home when your money is gone, that you may ot 'die in the house.'

The gambling, probably, not the hincer, caused this Hungarian's suicidé. Men kill themselves after gambling, not because they have lost money, but because they can no longer satisfy their gambling passion, most violent of all passions that make fools of men. The confirmed gambler would rather be dead than not gamble.

The wise deplore smoking by veicen, at least until they finish having children. Hitherto men have done the foolish things, women have been wise, and children have had at least half a chance, But after all it is the individual woman's business to decide about

The lovely W. C. T. U. ladies of Kokomo, Indian, have written a letter to Queen Marie, who mokes, saying 'We are loathe to elieve that you do not understand

While theore cally it is control of Congress that is at stake tomorrow, actually the leaders have their eyes riveted upon 1928 Presidential candidates bloom thickly in tomorrow's harvest of

President Coolidge has staked his personal prestige upon the candidacy of his friend and political manager, Senator Wm. M. Butler in Massachusetts. If Butler is defeated by his Democratic opponent, ex-Scnator David L. Walsh, as many believe he will be, it will be a severe blow to Mr. Coolidge's "avai alvility" in 1928

In New York, Gov. Al Smith has staked his Presidential aspirations in 1928 upon his ability to gain a fourth term in Albany. A defeat would adn: ttedly remove the New York Governor from the list of Democratic "av / labies."

In Maryland, Gov. Albert C. Ritchie is again a candidate and probable winner. His re-election will definitely stamp his as a possible Democratic Presidentia nominee in 1928, his defeat similiarly remove him.

Two possible Presidential candidates are seen in Gov. Vic Danahey and ex-Senator Atlee Pomerene, both Democratis. Both have figured largely in Democratic speculation for 1928.
