RE-ARREST GIRL CONNECTED WITH FORSYTHE KILLING

Evelyn Britt, the Girl in the Case—Placed in Wake Jail Pending Further Hearing.

Raleigh, Dec. 4.—(INS)—Evelyn Britt—the girl in the case in the investigation of the slaying of "Mighty" Forsythe, picturesque rum ring head—was behind the drab walls of Wake county jail again today, re-arrested on a charge of murder.

The young Durham girl, whose arrest a capias was issued late yesterday afternoon, was delivered over to Wake county authorities at 10:30 this morning.

The Britt girl was arrested early last week, but was later released on \$5,000 bond.

The arrest of the Britt girl was taken to mean that the coroner's jury hearing evidence in the case wanted to hear more of her story of how Forsythe met his death.

Robert Separk, and Harry Baum are the others under arrest here on connection with the Forsythe murder.

NEW EARTHQUAKE LENINAKAN AREA

Village of Kapli Destroyed But Reports Fail to State Number of Casualties

Moscow, Dec. 4.—(INS)—Another severe earthquake has rocked the Leninakan district, destroying the village of Kapli.

Dispatches fail to state the number of casualties.

Prolonged succession of earthquakes in this area has leveled many villages, caused hundreds of deaths and left thousands homeless, and suffering from exposure and want.

Scientists declared they are puzzled to explain the six weeks of subterranean convulsions which have been accompanied or late by volcanic eruptions on islands in the Caspian Sea.

The Near East Relief, with many American workers, has been actively engaged in affording relief to the homeless in the Leninakan area.

Bitter winter weather has added to the suffering of those whose homes have tumbled into shambles by the frequently recurring tremors, and each new earthquake strikes new terror into the hearts of frantic and panicky refugees.

Santa In Wall Street Wet and Dry News Selective Maternity. If Peter Were Here.

(By Arthur Brisbane)

Santa Claus will be busy all over this prosperous nation very soon. And the poor little rich men with this prosperous nation very soon, will not be forgotten. From 25 to 50 million dollars will be distributed in bonuses to workers.

And stockholders will not be forgotten. Year-end dividends of several hundred millions will set a new record.

Farmers, with their troubles, reading about this, will wish their business in life was to watch stock tickers instead of weaning calves.

Mr. Sussman chucked Mrs. Rosenberg under the chin and later, in court, offers this explanation: "I didn't have the nerve to come here this morning, so I went to get a couple of shots in me. The place I usually go was closed and it took me the better part of an hour to find another one. I got two shots. I guess I did go to Mrs. Rosenberg's store and maybe chuck her under the chin."

The judge said: "You have told a straightforward story, and let him go. So far as known, the judge did not ask him where he got his two shots or sent a policeman to find out about it. That will grieve the prohibitionists."

The province of Ontario, dry for ten years, has gone wet. At that news American "wets" cheer up—but without reason.

The Canadians can change their laws, prohibition is not frozen into any constitution. But here it would take 38 states to take out of the constitution the prohibition that was lawfully put in.

And nobody now living will see 38 states vote to remove the prohibition amendment.

Billy Sunday says he will run for President as a dry if Governor Smith, a wet, is nominated by the Democrats, and the Republicans nominate anybody but an out-and-out prohibitionist.

One thing is certain: With Mr. Sunday in the White House the United States would have four years without a dull moment.

Some one suggests selective maternity, no woman allowed to have children unless willing to give up her entire time to them and "foreign society."

That is not a good idea. If what you want is good children with power. The famous Olympians did not exactly "give up society," or devote her life to her maternal duties. And she had only one child. But that was Alexander the Great.

Nature and the mothers have done fairly well on this earth during the past five hundred years, changing us from cannibals and cave dwellers to half civilized beings.

DRYS MUSTERING FORCES FOR FIGHT IN NEXT CONGRESS

Will Seek to Enact a Dry Legislation Early in Session to Prevent Blocking By Filibuster.

Washington, Dec. 4.—(INS)—Despite widespread defeat, at the November elections, the organization drys today opened a drive to plug all legislative leaks in the national prohibition law.

Calling on Congressional dry leaders to wage an active campaign for the strengthening of prohibition enforcement, the Anti-Saloon League announced its legislative program for the coming session of Congress. The program will include enactment of:

1. The Andrews prohibition reorganization bill, already passed by the House but pending in the Senate, to create separate prohibition and customs bureaus in the Treasury Department with placing dry agents under the Civil Service.

2. The Goff-Griffin bill to strengthen the prohibition law by extending the government's control over cereal beverages, and denatured alcohol, by enforcing all international liquor treaties and by punishing counterfeiters of prohibition permits. It is pending in both House and Senate.

3. Repeal of all customs laws.

4. A bill making retired army and navy officers, available for appointment as prohibition officials without loss of their regular pay.

The Congressional wet bloc, meanwhile, will have but one legislative program—to defeat each of the above bills. The Senatorial wet bloc will hold a meeting in the near future to devise a campaign of action to insure the success of their defeatist program.

The drys, however, warned of the wet desires, will seek to enact their legislation early in the coming session. This plan was the basis of an appeal made to dry leaders by Wayne B. Wheeler, generalissimo of the Anti-Saloon League.

"I hope Congress can see its way clear to bring these bills to a vote early in the session so as to avoid the possibility of a filibuster later on when it is more difficult to get action," Wheeler wrote dry leaders. "The Anti-Saloon League and other dry forces, generally will make an active campaign for the adoption of this legislation in the short session."

Although the drys lost referenda in New York, Illinois, Wisconsin, Montana and Nevada, their leaders will face the coming session certain of an overwhelming control.

An example of their strength there will be 73 drys to 23 wets in the new Senate with 331 drys out of a total membership of 435 for the next House.

Despite these overwhelming majorities some doubt has arisen over their ability to enact the dry program into law at the short session. As Wheeler pointed out, unless the drys can get action early in the session, a wet filibuster could easily defeat the whole program. The dry campaign will be directed to prevent such a contingency.

NO TRACE FOUND MISSING RUM SHIP AND DRY OFFICERS

Authorities Fear For Safety of Prohibition Agents Aboard Escaped Rum Runner.

New Orleans, Dec. 4.—(INS)—"Now news" was all that chief prohibition administrator O. D. Jackson could say this morning in the effort being made by officials of the prohibition unit, the coast guard and the State Department, to capture the French rum runner Arsenic J. which kidnapped J. B. Matthews and his aide, coast guardsman Handley, of Biloxi, Miss., after midnight Monday.

On the urgent appeal of Jackson, the State Department and various government agencies have come to the assistance of the administrator with the broadcasting to consuls at ports in the Caribbean Sea to be on the look-out for the vessel, believed to be headed in that direction.

Hope that Matthews and Handley are safe had dwindled today to fears that they had met violence, if not death, at the hands of their captors, and efforts for a capture of the rum runner were doubled.

H. C. Anslinger, of the consular service, has directed all consular, diplomatic and other representatives of the Caribbean ports to be on the watch for the vessel.

Grant Alabama Permission to Meet Leland Stanford

Jacksonville, Fla., Dec. 4.—(INS)—The Southern conference in annual session here today unanimously voted University of Alabama permission to invade California for a football game with Leland Stanford at Pasadena on New Year's Day, the feature event of the tournament of roses to be held there.

Wallace Wade, coach of the Alabama team, expressed his pleasure at the conference's action but was unable at this time to announce the plans for the trip of the names of the men to go.

DEFENDANTS IN HALLS MILLS CASE FOUND NOT GUILTY

Bench Grants Motion at Today's Hearing That Further Indictments Be Quashed.

Court House, Somerville, N. C., Dec. 4.—(INS)—Judge Charles W. Parker today quashed the murder indictments remaining against Mrs. Frances Stevens Hall, her brothers, Henry and Willie Stevens, and their cousin, Henry De La Bruyere Carpenter at a hearing here today.

A verdict of "not guilty" was returned by a jury last night on the charge that Henry and Willie Stevens and their sister, Mrs. Frances Stevens Hall, were the slayers of Mrs. Eleanore Mills.

The indictment for the murder of Rev. Hall was still hanging over them when the defendants were brought into court this morning.

Attorney General Edward L. Katzenbach made the motion on behalf of the State to quash the indictments. He was representing the State in the absence of special prosecutor Simpson who had failed to put in an appearance, although he was notified of the hearing that would be held this morning.

"At the April term of the Grand Jury, indictments for murder were returned against Mrs. Frances Stevens Hall, Henry Stevens, William Stevens and Henry Carpenter," said Katzenbach to the court. "Three of these defendants have been tried on the charge of murder and have been found not guilty."

"The State of New Jersey now moves for the nolle prosequing of the indictments against all four defendants."

"The motion will be granted and the indictments nolle prosequed," ruled Judge Charles W. Parker, who was sitting on the bench with Judge Frank L. Cleary.

ALLEGED SLAYER OF SWEETHEART STILL AT LARGE

Mystery Still Surrounds the Finding Missing Girls Body in Imprisoned Grave.

Prairie Du Chien, Wis., Dec. 4.—(INS)—The peace and quietude of this picturesque Mississippi Valley, churned into turmoil with the discovery of the tragic death of Clara Dorothy Olson, will never again be restored to its former state until a solution of the murder has been reached.

The first step was taken today when Dr. D. R. H. Bunting performed an autopsy upon the body.

Much hinges upon his discoveries. As yet there has not been the faintest intimation as to the cause of death. Some say that she was shot—others that a knife had been used. There are those who believe she was strangled or poisoned.

Erdman Sanford Olson, her 18 year old sweetheart, is being sought by police of the entire nation. He disappeared two weeks after the girl was last seen, on the night of Nov. 9, Erdman, through his parents, Mr. and Mrs. Albert Olson, established a makeshift alibi for his actions that evening. He stated he had attended a dance at Seneca, leaving at midnight, and arriving at his home near Rising Sun, twenty-six miles north of here.

University N. C. To Play Georgia Tech Next Year

Chapel Hill, Dec. 4.—(INS)—The University of North Carolina and Georgia Tech will meet on the gridiron next season for the first time in eleven years.

Announcement of completion of negotiations for the game was made here today by graduate manager Charles T. Woolen, the date is set for October 22, the Saturday on which the Tar Heels formerly played Maryland.

It was explained that the Maryland game had been shifted to another date, announcement of which was withheld.

The game between North Carolina and Georgia Tech will be played in Atlanta next fall, and in Chapel Hill the following year. The present arrangement provides for these two games only.

Bolivia Accepts Taena-Arica Treaty

Washington, Dec. 4.—(INS)—Bolivia has accepted unconditionally the plan of settlement of the Taena-Arica controversy proposed this week by Secretary of State Kellogg, the State Department announced today.

Under the plan, Chile and Peru would turn over to Bolivia the territories of Taena and Arica for an adequate "compensation." Arica would be made a free port.

DEMOCRATS SEEK NON-PARTISAN TAX REDUCTION

Minority Leaders Invite Republicans to Aid in Measure Against Coolidge Rebate Plan.

Washington, Dec. 4.—(INS)—Declaring that President Coolidge's plan for a credit on income taxes next year cannot be enacted, Democratic leaders today called upon Republicans to assist them in passing a non-partisan permanent tax reduction measure at the coming session.

The invitation was extended by a statement issued jointly by Senator Simmons, of North Carolina, ranking minority member of the finance committee, and Rep. Garner of Texas, ranking Democrat on the House Ways and Means committee. These committees handle all tax legislation.

OUR SATURDAY NIGHT MEDITATION

"CHRIST COMING IN THE CLOUDS"

—II—
 St. Luke 21: 25-29:—"Signs in the sun and moon and upon earth distress of nations... men's hearts failing them for fear... the Son of Man coming in a cloud with great glory."

We saw last week that the Lord Jesus was depicting some social collapse and not the end of the world, as we used to be told; and that in every such time of trouble there is a return of that Son of God who is ever offering Himself to mankind. Out of this certain great truths may be gathered.

First: A time of social upheaval is not pure calamity; it is a great and solemn opportunity.

So Jesus would have us believe, and history confirms His teaching very impressively. Until men agree to build their lives upon the principles and leadership of God's Son, their life must collapse and collapse again till their folly and sin are demonstrated beyond dispute. It is not God who brings our "human" world to an end so persistently. The collapse is simply due to our attempt to build contrary to the Divine laws of human society—the only laws of sound building. "Except the Lord build the house they labor in vain that build it." "If any man hear my words and doeth them not, he is like unto a foolish man who built his house upon the sand."

But every collapse of this kind is an opportunity for examining afresh the foundations of society, for making a new beginning upon new principles. Upon every such "cloud of human disturbance" there comes riding the Son of Man hoping, as He said, "to find faith on the earth."

As we look back upon the story of the Christian era it is wonderful how this view of history is vindicated. It is the only explanation that is at all satisfactory to me of the Fall of Jerusalem in the very generation to which Christ spoke; of the later collapse of the great Roman Empire; of the terrible irruption of the Moors in the 12th Century; of the French Revolution, the Napoleonic Wars, and of the last great World War.

These were indeed days in which "men's hearts failed them for fear," but they should not be so to Christian hearts. Believing Christ's interpretation of history, we can see all the travail of time bathed in the light of a great hope. The passing

of the old order ever yields opportunity for the new. Not with the eyes of dull despair should we view the broken world of time, but with eyes eager to catch the glory of the dawn.

So our duty in this present age comes clearly into view, and it can be stated in the familiar terms that Jesus used.

Second:—Our duty is to watch for the Son of Man, and be ready for His coming.

How grievously men have mistaken Christ's meaning. "To watch for the coming of the Messiah" is not to study the horizon, but the social and political sky. It is to take a passionate interest in the spiritual and moral condition of humanity. It is to live towards every soul with such expectancy of good, such hope of Christ arising within, such trust in all noble impulses, that by the magnetism of FAITH men are led into a new reception of Christ.

To be "ready for His coming" is to be busy with His work in the world. It is not to neglect the moral obligations of life and the common duties of every day, but to strive to control the human situation in His interests, and especially to make a free and open way of one's own heart and life. "Occupy till I come," says Christ. "If the Son of Man come shall He find faith in the earth?" To order one's life by that faith—to make it one's chief "occupation," is to be ready and watchful for His coming.

Is it not highly significant that Jesus in this connection always uses the term "Son of Man" for Himself? These recurring crises are to be judged in the wholeness of their effect by the degree in which humanity is enriched and gains its true liberty and life. It is as the Son of Man, as the very Soul of Humanity, that Jesus is to return. His first incarnation was individual. His second, as St. Paul daringly taught, is to be social. "Ye are the body of Christ."

The difference between the watchful and unwatchful soul is strikingly pictured by the first Evangelist: "Two shall be working in the fields, and one shall be taken and the other left." How true a picture that is! One man sees in "the distress of nations" nothing but despair, and so lives meanly and ignobly. The other sees in it the great opportunity for Christian reconstruction and finds the glory and power of Christ in the cloud.

The great sin is the sin of "sleeping" in such a day of opportunity. "Watch ye, therefore," says Christ, "for ye know not when the Master of the house cometh, lest coming suddenly He find you sleeping. And what I say unto you I say unto all—WATCH!"

WHERE THEY ALL SAVE MONEY

Gorman's Market Report

The sales have not been large this week and this in the face of the Thanksgiving holidays when we had no sales and a heavy season the first of the week; showing that the crop is nearer sold than ever before at this time of the year. Owing to the taking off of one set of Buyers, giving us triple sales instead of four, as up to Thanksgiving; our sales card as printed the first of the season has caused much confusion this week and caused us to lose much tobacco; many of our customers leaving home expecting GORMAN'S to have first sale and finding on nearing town that we had a second and fearing a block went elsewhere.

ON ANY SALE WE HAVE FROM NOW ON WE CAN GUARANTEE TO SELL YOU SOON AFTER DINNER. There will be no more Block sales in GREENVILLE this season.

Prices on the fine wrappery tobacco and good tobacco with body and character is as high as it has been. The thin bright cuttery leaf from thirty-two up looks low, all tobacco under thirty is fully as high as it has been. We have sold lots of barn cleanings and damaged tobacco this week but little fine tobacco yet the 440,144 pounds we sold averaged \$26.47. GORMAN'S has sold to date 7,933,776 pounds. Bring us your tobacco and we will send you home satisfied.

Yours to serve,

J. N. Gorman and Sons

MARKET LETTER

New York, Dec. 4.—(INS).—Speculative interest was largely centered on Baldwin Locomotive and other high-priced industrial stocks in view of the report that Arthur Cutten and F. S. Chicago associates had locked horns with the professionals in Wall Street and had carried off first honors with the speculative coup which has been a thirty-day mystery in the financial district.
Baldwin opened at 162, unchanged, after which the stock advanced in heavy trading to 161 and fell back to 159.
The motor stocks displayed conspicuous strength and activity from the start. General Motors sold above 146 in active trading while Hudson reached a new high for the movement at 49 1-4.

The approach to the year-end has stimulated calculations of the full year's profits and earnings of the industrial and railroad companies.
On the whole these will be favorable as compared with former years. The advance in motor and industrial stock prices was checked near the end of the first hour by a huge wave of profit taking and short selling.
The underlying strength of the market was shown in the manner with which these stocks were absorbed.
International Harvest advanced 4 points to the year's highest price of 146 1-2. The upswing in Loew's carried that stock to 46 only fractionally below the highest price of the year.
The week-end business reviews were generally favorable.

A new steamship line to carry freight between Los Angeles and other west coast ports and the Gulf of Mexico will be started soon after January 1, representatives of the Finkbine-Gullid Transportation Co., or Gulfport, Miss., announced here today.
Primary purpose of the new line will be to haul redwood logs from California to the Mississippi mills, but on westward voyages the line will do a general freight hauling business.
