VOL. 91. NO. 65

GREENVILLE, N. C. FRIDAY AFTERNOON, FEBRUARY 25, 1927

PRESIDENT VETOES McNARY-HAUGEN BILL

PASS BILL TO RELIEVE GOVERNOR OF POWER TO APPOINT U. S. SENATORS

Measure Now Ready for Ratification. Ho House Sends \$30,000,000 Road Bond Bill to Senate

Raleigh, N. C., Feb. 25.—(AP)—By vote of 15 to 1, Austin of Ashe dissenting, the House judiciary committee today voted to report the unmaking bill favorably, after coming at conclusion of an hour's hearing in the House chamber. The bill goes to the House. It passed the Senate unanimously.

State Capitol, Raleigh, Feb. 25.—(AP)—Final passage into law was given by the General Assembly today of the measure to take from the Governor appointive power of a United States Senator when a vacancy occurs. The bill passed the House and upon ratification will go into effect. A special election by the people henceforth will fill such a vacancy.

Passage, 87 to 11, from the House to the Senate of the \$30,000,000 dollar road bond issue stood out among a number of other important bills passed from one House to the other. Special orders for consideration, the biennial appropriations county government improvement bills, were taken up in the House and Senate, respectively, for afternoon discussion. That standing ratification of the day was that given the Great Smokies park bill simultaneously which became law.

The House passed to the Senate the bill offered by Miss McLean of Mecklenburg to authorize enlargement of the boundaries of Charlotte to coincide with the boundaries of Mecklenburg county upon vote of a majority of the people in both city and county.

The elections would be called by petitions signed by 20 per cent of the registered voters. The consolidation would merge Mecklenburg county government machinery with that of the city of Charlotte.

The House slashed the \$90,000 radio provision from the \$5,500,000 permanent improvement bill before passing it on second reading today 89 to 4.

The radio station proposed was killed 52 to 30.

Several proposed amendments designed to decrease the amount further, were promised for tomorrow when the bill comes upon final House reading.

The bill providing a state tax for support of school, was passed on second reading 56 to 19, with major opposition promised for third reading tomorrow.

Bills passed by the House included one authorizing Governor and Council of State to borrow money in case of emergency; limiting issue of bonds in Goldsboro; authorizing Goldsboro to issue bonds; establishing the Burecumb county water system; on the Forsyth county Highway Commission validating Forsyth bonds; funding Beaufort county debt; enlarging boundaries of Charlotte; relating to commissioners for Green ville.

The House recessed until 3:45 p. m., to continue in session probably to midnight.

The Senate remained in session all day.

The Senate today echoing the House session of yesterday, tabled the Australian Ballot bill.

Senator Broughton of Wake, moved that the bill be recalled from committee and tabled because the House had done so yesterday. He took passing occasion to the motor traffic bill sponsored by the North Carolina Motor Club, was unanimously passed by the Senate to the House without discussion.

The Senate also passed to the House, 35 to 4, the bill of Senator Royall, of Wayne county, introduced at instance of Governor McLean, to fix the limit for bonded debt at five per cent for schools and five per cent for other purposes, and would make other provisions for counties having already reached four per cent for either of these purposes.

The measure, providing a constitutional amendment, would be submitted to popular vote in the 1928 election if passed by the House also.

The Senate passed the motor vehicle license measure with an amendment reading the number

BRANCH BANKING MEASURE SIGNED BY PRESIDENT

Federal Reserve Announces Establishment Branches Charlotte and Dallas

Washington, Feb. 25.—(AP)—The McFadden Branch Banking bill was signed today by President Coolidge.

The Federal Reserve Board's statement said: "A branch of the Federal Reserve Bank of Richmond will be established at Charlotte, N. C., and a branch of the Federal Reserve Bank of Dallas, will be established at San Antonio, Texas."

"The Federal Reserve Board has had under consideration requests for the establishment of these branches coming from the boards of directors of the Federal Reserve Banks named and after careful consideration of the needs of the territories to be served by the proposed branches has given permission for their establishment to take effect when the McFadden Branching bill becomes law."

"The McFadden bill confers upon the Federal Reserve Board the right to require at any time the discontinuance of any branch Federal Reserve Bank."

The bill provides for renewal of the charters of the Federal Reserve Banks and allows the establishment of branch banks of national banks in states where local legislation allows it.

Staging a political come-back, William Hale Thompson won the Republican nomination for Mayor of Chicago. A break between Hiram W. Evans, Imperial Wizard, and a large portion of the South Carolina organization of the Ku Klux Klan threatened to disrupt the order in that State. Secret Service men were ordered to guard President Gerardo Machado, of Cuba, during his visit to the United States. Mayor Freeland W. Kendrick, of Philadelphia, was injured in an automobile collision.

LARGE AUDIENCE HEARS SERMON OF DR. M'DANIEL

God's Call to the Christian Workers Was Subject of Last Night's Revival Message

And the Lord looked upon Gideon and said, Go in this thy night, and thou shalt save Israel from the hand of the Midianites. And Gideon being uncertain of the call tested God by saying, "Behold I will put a fleece of wool in the floor and if the dew of heaven is upon the fleece only, and it be dry upon all the earth beside, then shall I know that thou wilt save Israel by mine hand. And it was so. Then Gideon still doubted and he said, "Let me prove, I pray thee, but this once with the fleece; let it now be dry upon the fleece, and upon all the ground let there be dew. And it was so."

Two negroes were heard approaching and as the deputy raised up from his place of hiding a light was thrown on him and some one cried "shoot him." Two bullets pierced the officer, taking effect in the region of his heart.

Today the entire sheriff's force of Guilford County, with the aid of hoodlums, is on the trail of the alleged killer, and it is thought that he will land behind the bars with his companion within a short time.

Kentucky Town Wrecked by Fire

Covington, Ky., Feb. 25.—(AP)—Four buildings including the famous forty-room Carlsbad Spring hotel, in the business district of Ivy Ridge, Va., 34 miles southwest of Covington, were destroyed by fire early today. Loss is estimated between \$175,000 and \$200,000.

About three-fourths of the town was destroyed. Among other buildings burned were the Farmers Bank and Equity Building, the postoffice building, a moving picture show house, undertaking establishment, restaurant confectionery, grocery and six private homes.

Approximately twenty persons were left homeless.

COMPROMISE ON PENSION BILL REACHED TODAY

Increase of \$200,000 in Confederate Veterans Pensions Has Been Agreed Upon

Raleigh, N. C., Feb. 25.—(AP)—Foes and friends of the proposed \$300,000 increase in pensions for Confederate Veterans have gotten together on a compromise in the Senate and agreed on a \$200,000 increase for the first fiscal year of the coming biennium and a \$100,000 decrease for the second fiscal year.

This compromise, it is believed by some of those who have studied the situation, will insure each veteran of at least one dollar per day.

Under the provisions of the compromise the pensions appropriation of the first year will be \$900,000 and the second year \$600,000 for veterans. The annual widows' pension fund of \$500,000 was allowed to stand.

Senator Horton, of Chatham, led the fight for bigger pensions, and succeeded in securing the adoption of the pension committee minority report calling for an increase of \$200,000 over the recommendations of the committee majority.

The compromise rapidly followed.

Gang Warfare In Philadelphia

Philadelphia, Feb. 25.—(AP)—Four gangsters in a speeding sedan raked with machine gun fire a group standing in front of a night club here today, killing one and wounding two others. An underworld feud is blamed.

The dead man was John Bricker. He was shot six times in the neck and twice in the head. The wounded were Mickey Duffy, self-styled "king of the tenderloin," shot four times in the neck and twice in the body, and Earl Brown, doorman at the club, who was hit by one bullet.

Police arrested four men who are being held for investigation.

CHINESE FORCES GATHERING FOR BATTLE SHANGHAI

International Settlement Presents Warlike Aspect as Foreign Troops Set up Defense.

Hong Kong, Feb. 25.—(AP)—The transport Minnesota left here today for Shanghai with 1,000 British marines.

Shanghai, Feb. 25.—(AP)—Three thousand British regulars took up defense positions along the borders of the international settlement here tonight because of the snation created by the arrival of Chinese troops in increasing number in the city.

With the regulars in position, volunteer defenders of the foreign settlements remained on the alert to aid in preventing native incursions as opposing Chinese governments struggling for possession of the city continued to concentrate their armies south of here.

A volunteer machine gun company also was mobilized this morning and held in readiness, while the British troops paraded two six inch motorized howitzers along the boundary. The precautions were taken mostly to guard against invasion by defeated troops of Marshal Sun Chuan Fang.

The American defense force, having been augmented with 1,200 marines from San Diego, Calif., yesterday was strengthened further today with the arrival of three destroyers, the Preble, Naah and Hubert, from Manila.

More of the Northern Chinese troops under General Chang Tsung-Chang, military governor of Shantung, arrived this morning and it was estimated that 8,000 will have reached the city by tonight.

Officers of the Shantung forces said that the Northern Chinese battalions of 16 ships was due very shortly at Woosung anchorage, off Shanghai. The vessels, one of which is manned by Russians, also are bringing considerable Shantung land forces.

It was reported that a clash occurred yesterday north of Kashing between the Nationalists and soldiers of the defeated Marshal Sun Chuan-Fang. The engagement was not decisive, the Northern Army having been weakened by desertions and lowered morale. It also was learned today that the Nationalists are operating troop trains between Hangchow and Kashing, having captured some of the rolling stock formerly controlled by Sun.

The Northern forces have retired to Sungking, only 25 miles from Shanghai. It is estimated that their strength there is not more than 18,000. Men are still striking. The remainder have returned to work under the General Labor Union's order calling off the general strike yesterday. However, radical intimidation of workers continues. Leaflets were distributed among post-office employees promising death to those who disobeyed the strike order as soon as the revolutionary army reaches Shanghai.

No American marines were landed for the present, since defense plan do not call for the use of these in the border service. They are to be held for maintenance of order inside the settlements.

British troops occupied a 20-mile line, part of it running into Chinese territory, surrounding the international settlement. The line was considered indispensable to the defense of the city.

Fayetteville Klan Will Sit Steady

Fayetteville, N. C., Feb. 25.—(AP)—The Fayetteville Klan will sit steady in the boat and see how things turn out, said a high official of the order this morning following a regular meeting last night. Nothing else was given out as to the feeling of the members over the resignation of Judge Grady.

AMERICAN KILLED AT SINGAPORE TODAY

Singapore, Straits Settlement, Feb. 25.—(AP)—Edgar N. Lee, an American resident, was fatally injured in a fall from the second floor balcony of his hotel today. He was watching festivities in connection with the visit of tourists from the liner Belgenland.

Lee was an employe of the Standard Oil Company.

FARM RELIEF MEASURE FAILS GET SIGNATURE OF PRESIDENT COOLIDGE

Vetoed McNary-Haugen Bill Because it Would Not Benefit Farmer, President Says

Washington, Feb. 25.—(AP)—President Coolidge today vetoed the McNary-Haugen farm relief bill. The veto virtually killed all hope for farm legislation at this session, both advocates and opponents of the bill having conceded that it will be impossible to muster the two-thirds majority in Congress necessary to override the President's disapproval. In both Senate and House the margin by which the bill was passed was narrow.

The President said in a special message to the Senate that he had declined to approve the bill because the measure discriminated definitely against products which make up what has been universally considered a program of "safe farming."

The chief objection to the bill is that it would not benefit the farmer, the President continued. "Whatever may be the temporary influence of arbitrary interference, no one can deny that in the long run prices will be governed by the law of supply and demand. To expect to increase prices and then to maintain them on a higher level by means of a plan which necessarily increases production while decreasing consumption is to fly in the face of an economic law as well established as any law of nature."

"Experience shows that high prices in any given year mean greater acreage the next year. The bill singles out a few products chiefly sectional," he said, and proposes to raise the prices of those regardless of the fact that thousands of other farmers would be directly penalized."

Mr. Coolidge declared the bill clearly involved governmental fixing of prices. "It gives the proposed federal board almost unlimited authority to fix prices on the designated commodities," he said. "Nothing is more certain that such price fixing would upset the normal exchange relationship existing in the open market and that it would finally have to be extended to cover a multitude of other goods and services."

"It is an economic folly from which this country has every right to be spared." The message further more objected to the "remarkable delegation of the taxing power of Congress to the Federal Farm Bureau nominated by farmers," which would be established under the bill.

"His so-called equalization fee is not a tax for purposes of revenue in the accepted sense," said the President. "It is a tax for the special benefit of particular groups. As a direct tax on certain of the vital necessities of life it represents the most vicious form of taxation. Its real effect is an employment of the coercive forces of government to the end that certain special groups of farmers and processors may profit temporarily at the expense of other farmers and of the community at large."

Washington, Feb. 25.—(AP)—Chairman McNary of the Senate Agriculture Committee, said he would make no effort to override President Coolidge's veto of the bill.

Governor McLean Approves Move to Wear More Cotton

Raleigh, Feb. 25.—(AP)—Gov. McLean said today that he was deeply interested in the movement launched by North Carolina Federation of Women's Clubs to promote a more extensive use of cotton goods.

"Perhaps one of the most effective things that can be done at the present time to rehabilitate the price of cotton is bringing about a greater demand for cotton goods," he declared.

"If the women all over the South will enter upon a systematic campaign to promote a more extensive use of such goods, I believe that most beneficial results will be forthcoming."

"I regret very much that I am prevented from attending the King Cotton ball in Greensboro tomorrow night, but I am remembering from a deep cold and therefore it is inadvisable for me to travel."

TODAY

The Angel Moroni. Brave Brigham Young. See Death Valley. The Ghost City. (By Arthur Brisbane)

On one of your trips across America, stop at Salt Lake City to get acquainted with the Angel Moroni, and all the land that stretches around him. Moroni, very big in bright gold stands above the temple built by Brigham Young, for his "latter day saints."

Young has gone, with all his wives, let us hope, to the reward of daring men. Polygamy has gone, but the golden Moroni still stands high in air, his trumpet tilted up toward the mountains full of wealth, and over the wide fields of magnificent fertility.

Below Moroni, on his right, stands Brigham Young's monument, a naked bronze Indian on one side, a bearded Mormon frontiersman on the other, back to back.

A bronze tablet between them tells the story of amazing adventure. Driven by belief in special revelation, Brigham Young set out to find a place where he and his followers could live in peace, and obey the orders of God as they understood them.

The Mormon band, traveling through the wilderness eighty years ago consisted of 143 men, three women, two children, 20 wagons, one boat, one cannon, ninety three horses, fifty two mules, sixty six oxen, nineteen cows.

On one corner of the tablet, fenced off from the white man, you see written "Three colored slaves, Green Flake, Hark Lay, Osear Crosby." Their names are printed here and the others left out to even things up.

Wise was Brigham Young, afoot from the wife question. He made his streets 132 feet wide. If New York and Chicago had Salt Lake City's streets, their traffic problem would be solved.

Below the golden Moroni stands Brigham Young's house called "The Beehive." Colonial in style with a big gill see live on top. Nearby stands his other house, for move of the family.

Just across the way is the Federal Reserve Bank, of solid stone and beyond towers the snow-capped mountains.

CONGRESS ENTERS FINAL WEEK TODAY

Continued Filibusters Promise to Delay Action on Measures in Senate

Washington, Feb. 25.—(AP)—The Sixty-ninth Congress entered its final week today with prospects in the Senate of the usual fireworks that attend short session climaxes, but with the House in a more orderly mood and driving determinedly to clear most of its slate.

While both Houses moved today toward consideration of deficiency bills, additional fuel for the blazing Senate debate was promised as a result of a parliamentary situation leaving the much kicked about Boulder Canyon dam measure as the unfinished business.

Filibusters against this bill and the Tyson emergency officers, retirement proposal to prevent their reaching a vote are threatened, however, by efforts to invoke the rule limiting debate. A cloture motion circulated by Senator Johnson, Republican, California, co-author of the dam bill, will be voted upon tomorrow and if the required two-thirds majority is obtained a vote at this session on the bill itself is assured. If the Johnson measure fails, a vote also will be taken tomorrow on the Tyson bill cloture proposal.

### SAYS CHINESE FOLLOWING SPIRIT OF DEAD LEADER

Kinston, N. C., Feb. 25.—(A.P.)—The dead Chinese leader, Dr. Sun Yat Sen, is leader of more people than any living man in China and his spirit is directing the destinies of that country, an American who has just received his will, today told the Associated Press. He divulged the will contents to a correspondent.

A trustee of the Nanking University in China, Dr. Agram Co, Kinston native, who saw the Boxer rebellion at full tide in 1900 and has personally followed Chinese affairs to today, said that in light of the affairs at the beginning of the century "the present situation in China is of an entirely different origin and purpose."

"The Boxer movement was led by an ignorant superstitious Manchurian Dynasty seeking to hold its own by anti-foreign demonstration. The present movement is one led by educated Chinese who have been trained in the best universities of America and Europe.

"The present leadership is following Dr. Sun Yat Sen who was a man of great social and political learning, personal ability and energy. The movement of the people's party in the south is based upon his will and writings."

Dr. Cory then told the correspondent of his receipt, as trustee of the will and how Dr. Sen's spirit was alive, directing the natives to secure equality and freedom for China.

"These have become almost religion with the people," he said. "Dr. Sun Yat Sen in his will asked them to secure equality and freedom for China; to fight with the races that accorded the Chinese equal treatment; to study this book especially (the three principles of the people) which deal with Nationalism, Democracy and Socialism." His final request is that all unequal treaties shall be abrogated.

"The southern army that will control China is committed to the carrying out of this will."

"Dr. Sun Yat Sen, dead, is leader of more people than any living man. His capable and educated followers have three goals which, in my belief they will reach, viz., political unification of China, the readjustment of unequal international treaties, particularly those regarding the administration of the tariff; all treaties that hold that extra-territorial privileges must go and the betterment of the conditions of the laboring people.

"Russia has her place in China today because she treats China as an equal and as soon as other nations do away with unequal treaties, will have the same standing."

"America can regain influence in China if she will pass the Porter bill and take the lead in abolishing unequal treaties."

"The present anti-religious demonstration is in my judgment, incidental. It is based on the present foreign nature of the organization of the church and because it is claimed that the church is an agent of capitalism and an out-worn institution whose members do not practice what they preach, these will pass and China hold a great future for Christianity with an independent church under its own leadership."

"It must be remembered that Dr. Sun Yat Sen was a great Christian as is his wife and as are a host of present leaders. China has a great educational program under Chinese leadership. She is demanding that the foreign schools shall be on the same basis and that religious teaching shall be voluntary instead of compulsory. This means a readjustment but it will be both a great gain for China and Christianity."

"China does not want a single foreigner killer and, if they are, it will be an accident, because they are between two armies of the has a great future as a peace-loving of irresponsible people. China is a nation."

### Final Weighing in Ton Litter Contest This County Saturday

W. W. Shay, swine specialist from State College and R. E. Reeves, grower county farm agent will be in Pitt County Saturday weighing on the Ton Litters which have been on feed for the past six months at the county home under the direction of Mr. Corbett and the Ton Litter being fed out by Mr. Henry Moore.

The weighing will take place at 11 a. m. Saturday, Feb. 26 and farmers of Pitt County who are interested in hog production for market purposes are urged to attend this meeting.

According to E. F. Arnold, county agent, who succeeded Mr. Reeves the Ton Litter contest in this county is an outstanding one and farmers interested in feeding hogs for the market will do well to study the feeding ration used by these men where by they have taken a single litter of pigs and produced more than a ton of meat on foot in six months.

One Day Swine School

The special hog day or one day swine school which will be held at Blackland test farm promises to be a well attended affair. County Agent E. F. Arnold of this county has received the following announcement from Director I. G. Schaub, Director Schaub has authorized the county agents in the surrounding territory to attend this meeting and also insists that they interest at least ten farmers who are interested in pork production to attend this meeting.

The Blackland test farm is at Winona and since there is no place where farmers can buy their lunch they are requested to bring a lunch along with them. Those who contemplate going are requested to register at the office of the county agent either by telephone or by a personal call.

Surrounding counties are finding it profitable to feed out hogs and ship to distant markets. Is it possible that Pitt County farmers are not getting all that is coming to them by not feeding out the hogs produced in the county? Let's go over to the swine school and find out just what these other counties are getting out of their feeding projects, says Mr. Arnold.

### De Pinedo at Start of Flight

Commander De Pinedo, Italian aviator, is shown starting in the pilot seat of his machine just before he left Sardinia, Italy, on his heroic flight that carried him to South America.

### Former New Jersey Senator Is Dead

Camden, N. J., Feb. 25.—(A.P.)—David Baird, 78, former U. S. Senator and Republican political leader of Southern New Jersey died at his home here early today.

For more than a generation Mr. Baird held the undisputed leadership of his party in South Jersey.

He came to America from Scotland when a boy. His first employment in this country was that of a farm hand. Later he peddled eggs,

worked as a raft hand and lumber yard. In 1874 he started in business for himself, specializing in eggs.

He was appointed United States Senator by Governor Edge in February 1918, to fill a vacancy caused by the death of William Hughes. At the primary the next September he was nominated without opposition and was elected in November for the remainder of the term which expired in March, 1919.

### NOTICE North Carolina—Pitt County In the Superior Court T. H. Barnhill vs. Cora T. Barnhill

The defendant, Cora T. Barnhill, will take notice that an action as above entitled has been commenced in the Superior Court of Pitt County to obtain an absolute divorce from the bonds of matrimony. And the said defendant, Cora T. Barnhill, will take notice that she is required to appear at the office of the Clerk of Superior Court of Pitt County on the 26th day of March, 1927, or within twenty days thereafter, and answer or demur to the complaint of the plaintiff; or the plaintiff will apply to the court for the relief demanded in the complaint.

This the 24th day of February, 1927.

J. F. HARRINGTON, Clerk of Superior Court of Pitt County.

Julius Crown Attorney for Plaintiff. 2 25 27 711w twis.

### NOTICE OF SALE Under and by virtue of an order of C. B. Rowlett, a justice of the peace, of Pitt County, made in a civil proceeding entitled C. M. Warren & Co. vs. R. M. Johnson, the same being No. 67 upon the docket of said court, the undersigned officer will, on the 24th day of March, 1927, at 12 o'clock noon at the courthouse door in Greenville, North Carolina, offer for sale to the highest bidder for cash that certain house and lot, the same being 1100 West Fifth Street in the city of Greenville. This sale is being made to satisfy above claim of C. M. Warren & Co., the plaintiff in this action. This 24th day of February, 1927. J. G. S. STOKES, Constable.

## DO YOU SAVE?

"It's my fault." Is not one of the thoughts which have become shopworn from over-use. We are prone to blame the weather, Providence, an unkind fate, our relatives, associates, friends, enemies, neighbors, or anything or anybody rather than ourselves, for our short-comings. As a matter of fact, our destiny is in our own control except in instances so rare as to be negligible. You can save a part of your income if you determine to do so.

### Another Big Mule Auction

Mules—50—Mules

Greenville, N. C. Savages Stables  
Saturday, February 26, 1:30 P. M.

Mr. Farmer and Consumer of Mules:  
On the above date I will sell at Public Auction another load of fresh shipped mules consisting of several matched pairs and single farm mules ranging in weight from 900 to 1250 pounds. Ages from 4 to 6 years. These mules are all in the best of condition, broke and ready for work.

Mules are ready for inspection. Come in and see them. I have been selling mules at auction at Greenville and nearby towns for the past 4 months, selling a great many, and anyone who has attended my sales knows that I sell a better kind of mule than has ever been sold at auction in this section, giving everyone a square deal and a real auction. No by bidding allowed. Every mule is put and sold on its merits with no reserve.

If you are not acquainted with me and the way I do business it will pay you to attend the sale and get acquainted, see how I conduct my sales. You are cordially invited to attend whether you buy or not. Mules sold under a guarantee to be as represented. Don't forget the date.

### CARD OF THANKS

We wish to thank our many friends for their many kindnesses and expressions of sympathy during the sickness and death of our dear mother.

Mary Bell Miller

### MR. LEACH WINS REMARKABLE PRIZE

The largest number of Bibles ever printed in one year is all the world's history was printed in the year 1926—the inconceivable number of sixteen million! Take your mind try for awhile to take that in.

One of the largest houses engaged in this heavenly work of supplying this lost world with God's word, "which breatheth and abideth forever," is the Oxford Press, with head office in London, and branch houses in Toronto, New York, Bombay and Melbourne, putting out about one and a half million copies yearly.

The first Oxford Bible, ever printed was in London, in A. D. 1675, not many years after the famous Authorized Version, or King James Version, as it is sometimes called, was translated and given to the world in the matchless English tongue, in 1611, A. D.

From the very first publication of this first Bible by the Oxford Press, their publications have been marvel for skill and accuracy in

the printer's art.

And now we are getting nearer the point. The Oxford Press has always employed expert typists to proof-read the type of each type newly set up; and these experts always read looking for typographical errors, clear through seven times. Thus they have put out Bible ever since 1675 which have been practically perfect. More than that, The Oxford Press has always offered a prize of one guinea (\$5.00) to anyone who would report to the publishers any error in the type (typographical error), and their record that very few prizes have been raised because so few errors have been reported.

On Feb. 15, 1927, one of our citizens reported to the Oxford Press a very small typographical error which he accidentally found in an Oxford Scofield Reference Bible. It was the use of "e" for "c," a small error indeed, but the Press made good its offer and sent Mr. H. H. Leach, of Greenville, their prize, the like of which so very few have won in the last three hundred and fifty years.

### Special Wardrobe for the Big Kiwanis Minstrels Arrived

What ever are you doing Tuesday night—put it off—and make a date for the time of your life. Follow the crowds to the college auditorium where the hundreds of Greenville's fun loving citizens will view a new high light, in the Kiwanis minstrel entertainment which is heralded a world of pleasure, in two hours of music mirth and song.

It makes no difference who you are, where you have been or what you have been you probably have never had the opportunity of seeing as high class local talent attraction as the Kiwanis minstrel have developed into for their cast of 50 home town boys and girls have been trained to a gnat's heel in the arts of minstrelsy.

Only one ticket will be sold for each seat and when they are gone they will put on the ticket window "Sold Out." The Greenville Drug Co., handling the advance sale, and many tickets have been purchased, and many advise is to secure your seats early as there is no doubt that the house will be sold completely long before the brass band of the minstrel band announces the rise of the curtain of the stars and scarlets of Greenville's fastest stepping minstrel performance.

### LARGE AUDIENCE HEARS SERMON DR. McDANIEL

(Continued from page one) there are Christians today who are carrying their lights around in pitchers and they are not being seen by their fellowman. The pitchers of prejudice, inconsistency, indifference, gossip, amputation and others are hiding the lights and he appealed and begged his hearers to "Let their light so shine before men, that they may see your good works, and glorify your Father which is in Heaven." The speaker told of the seriousness of hiding our lights in any of the above named pitchers. Unaffiliation was discussed at some length and those who had their University Press, with head office in London, and branch houses in Toronto, New York, Bombay and Melbourne, putting out about one and a half million copies yearly. The first Oxford Bible, ever printed was in London, in A. D. 1675, not many years after the famous Authorized Version, or King James Version, as it is sometimes called, was translated and given to the world in the matchless English tongue, in 1611, A. D.

man to do the big things. "A man will even go so far as to break his arm over prejudice," said Dr. McDaniel. "Let's not be so little and narrow, but let us be strong Christian men and women ready at all times to let our lights shine. The illustrations used by Dr. McDaniel in developing his sermon are well chosen and add much to the effectiveness of the messages. A little poem "Gossip Town," was recited last evening showed just how gossip can travel and the number of byways it can reach when it once gets started.

The musical program was indeed a treat. An orchestra composed of Rev. H. Frederick Jones, Rev. Leland O'Brien and Mrs. Gus Forbes rendered two selections, "I Am Thine, O Lord," and "In the Sweet Bye and Bye." These musicians showed real talent. Mr. Allyn Howell, song director, sang "When They Ring Those Golden Bells." The chorus singing was also greatly enjoyed.

Great interest is being manifested in the services and each evening witnesses a larger audience. Dr. McDaniel is bringing some real gospel messages and those who are not attending the services are missing a real blessing.

Services again this evening at 7:30 o'clock. The public is cordially invited to attend.

### Pitt County Teachers Meet Here Tomorrow

The regular meeting of Pitt county teachers will be held here in the high school auditorium tomorrow. The sessions will be conducted in the morning and afternoon and an interesting and instructive program has been arranged for those who attend.

The morning session will be a joint session for the teachers of all the schools while the afternoon session will be divided into groups for the teachers and principals of the schools of the different sizes.

Primary Teachers of the Smaller Schools—Miss Carroll, chairman.

Teaching of Reading—Miss Red wine.

### Home of Former New York Judge Wrecked by Bomb

New York, Feb. 25.—(AP)—Threats that the home of John Palmeri, former city court judge, would be blown up unless he paid \$50,000 to the writers of anonymous letters were followed early today by the explosion of a bomb in front of his home in Brooklyn.

The family, including four children, escaped injury. Windows in the front of the house were shattered.

Threats of death unless they paid \$1,000 each have been made against Harry DeMott, president of the Mechanics National Bank of Brooklyn, police revealed today. Police records were assigned the two men while a score of detectives sought the writers of letters containing the demands.

### Water Knee Deep In Nebraska Town

Waterloo, Neb., Feb. 25.—(AP)—Water rushed knee deep through the town of 400 faced its most serious flood threat in years as the result of a mile long ice jam in the Platte River and the breaking of a dyke.

An ice gorge had formed between the Lincoln highway and the Union Pacific Railroad bridges.

Many families were driven from their homes and at least two men were marooned by the icy flood. Residents worked throughout the night to move belongings out of the danger zone.

### Klan Condemns Action Taken By Judge Grady

Raleigh, Feb. 25.—(AP)—Sergeant Klan No. 80, in regular meeting has decided, a statement from

Hand machine guns are part of the equipment of the Sacasa revolutionary forces in Nicaragua, this picture, taken on the battlefront in the Escondido River section, shows.

the spokesman said, "That Judge Henry A. Grady was seemingly moved by personal and selfish motives in divulging the private correspondence of the Imperial Wizard and strongly condemns his actions in denouncing and repudiating the Klan and resolved to remain loyal to our organization and its principles, pledging to faithfully co-operate in the preservation of our institution."

The report was telephoned to the Raleigh office of the Associated Press.

### MAIL AND BAGGAGE DESTROYED BY FIRE

Anderson, S. C., Feb. 25.—(AP)—

A wooden baggage car of Southern passenger train No. 18, Atlanta, Anderson and Columbia, was destroyed by fire early this morning at Westminster. All mail and baggage for Anderson, Columbia and intermediate points was destroyed. Blue Ridge Railway officials here had no information as to the cause of the fire.

### HIGH POINT COP SHOT BY NEGRO

High Point, Feb. 25.—(AP)—W. J. Reeves, a policeman, was shot through the left hand this morning shortly after 8 o'clock by a bullet from his own revolver while at-

tempting to arrest a negro for the theft of two automobile tires. The negro wrested the policeman's gun from his hand, shot him and fled. Bloodhounds were brought into action but, after trailing the fugitive for some distance, lost the trail on the Greensboro highway.

### IMPLEMENT DEALERS CONVENTION ENDS

Raleigh, N. C., Feb. 25.—(AP)—The Virginia-North Carolina Implement Dealers' Association was adjourned today following election of A. W. Burman of Richmond, Va., as president; J. C. Markham of Durham, N. C., vice-president, and

**BY ALL MEANS**

It is difficult to see how any one can reasonably object to Senator Borah's resolution which would empower the Senate Committee on Foreign Relations "to investigate and study conditions and policies bearing upon the relationship between the Central American countries, Mexico, and the United States." The resolution provides that the committee itself or a sub-committee may visit those countries. The investigation may be made during the recess of Congress.

There ought to be no questions about the passage of this resolution. The proposal means that in the long recess from March 4 to next December the Senate shall through its properly constituted committee keep a watchful eye upon Mexican and Central American affairs. The Senate would be abdicating its constitutional function if it failed to provide itself with an instrument like this for preserving its contact with the situation. For it is a long time from March to December. The situation south of the Rio Grande is charged with dynamite. The Senate cannot afford to put itself in a position where it can do nothing but discuss next December what happened during the long recess. All sorts of things may happen that the people of the United States would prefer not to have happen, and the Senate committee should be in a position to prevent these things from happening.

The only opposition to the Borah plan will come from those who will argue that the President ought to have a free hand and that such a committee would embarrass him. The answer to that is that this is a responsible Government and that no President ought to have a free hand in matters of this kind. There ought to be a continual obligation to justify and explain his policy. He ought not to be free to present Congress next December with an accomplished fact, with a protectorate in Nicaragua and Heaven knows what kind of muddle in Mexico.

The record of the State Department in the last six months is full of ambiguities and misleading promises. It has never been candid with the American people about its intentions and its actions. It has said one thing and done another.

Incident after incident could be cited to show that it has been disingenuous. Even its statements of fact have been open to grave question. The influences which have played so large a part in its Mexican policy are not the kind of influences which the American people care to trust very far. But even if the Administration had a record which was

fair and open and unquestionable, it would still be the high obligation of the Senate to keep a watchful eye on future developments. We are waging a kind of war in Nicaragua today. If diplomatic relations were broken with Mexico, there is no assurance we should not find ourselves sooner or later waging some sort of war down there.

Congress has a duty in the premises which is unmistakable.—New York World.

**SHOULD RECONSIDER**

Just what prompted the House yesterday to kill the Australian Ballot bill we are unable to conceive, but we cannot help but feel that there is a "nigger in the woodpile" somewhere. Persons familiar with the present form of elections in North Carolina and the activities that surround the voting places when an election is in progress, must realize that there must be election reforms in our state if we ever hope to attain a goal of absolutely fair and unbiased ballot. Under the present system it is necessary for the person who goes to the polls to vote, to work his or her way through a throng of professional ticket markers and various candidate lieutenants, every one of whom make an effort to mark the ballot of the voter according to their own liking rather than let the voter express his own wishes in his ballot. There are many instances here in our own county, and no doubt other counties are the same, that a voter casts his ballot and has no idea for whom the voter, other than that he accepted a ready marked ballot and knows that he voted it because one of the lieutenants gave it to him and told him to cast it.

The women of North Carolina have been given the ballot but the good women of our state are not going to use it under the present form of elections. They have asked the General Assembly to provide the Australian Ballot form of elections in order that they may, without hindrance, go to the polls and privately vote their own desires. The legislature has flatly refused the request which is indication that there is somebody who is not anxious for the good women of our state to use their right of franchise. Is it that the professional politicians are afraid of the woman's vote and the vote of others who would not doubt cast their ballots differently if the present methods of persuasion about the polling places were not used?

The Australian Ballot bill, as we see it, is one that should have been enacted into law, and it is to be hoped that the legislators who believe in fair play will permit reconsideration of the measure before the end of the present session.

**SEMI-FINALS OF CHAMPIONSHIP SERIES WILL START TONIGHT**  
 Raleigh, N. C., Feb. 25.—(AP)—Play in the semi-finals in the Eastern high school championship race will get under way tonight when Jamesville and Fremont clash in the high school gymnasium at Wilson. Sanford and Durham, the other semi-finalists, will meet tomorrow night at Chapel Hill.

In the west Winston-Salem and Leasville will clash today in one semi-final contest, while the Asheville and Charlotte quints clash Saturday or Monday in the other event. Leasville last night eliminated Greensboro, 41 to 22, while the Twin City team won from Churchland.

**Wants**

**NOTICE OF SALE**

**NOTICE OF SALE**  
 Under and by virtue of the authority contained in that certain order of the Superior Court of Pitt County entered on the 18th day of January 1927, in an action therein pending entitled "Nacey V. Potter vs. the American Wholesale Corporation and others," as appears of record in Minute Book No. 27, at page 294, the undersigned Commissioner will on, Monday, the 7th day of March, 1927, at 12 o'clock noon, before the courthouse door in Greenville, offer for sale to the highest bidder for cash, the following described lot or parcel of land and store building and improvements thereon, to-wit:

That certain lot or parcel of land situate in the Town of Greenville, North Carolina, beginning at a stake on the East side of College street near where the said street goes under the Norfolk and Southern Railroad and runs an Easterly direction at right angles to College Street 100 feet to a stake; thence in a Southwesterly direction 122.8 feet to a stake; thence a line parallel with the first line 29 feet to a stake on College Street; thence in a Northerly direction with College Street 100 feet to the beginning and being the lot or parcel of land upon which is situated the store building and garage of A. L. Potter.

Said sale will be subject to confirmation by the Court and the purchaser will be required to make a deposit of twenty per cent to await the confirmation thereof. This the 4th day of February, 1927.

L. G. Cooper, Commissioner  
 10-11w-4wks.

**NOTICE OF SALE**  
 \$16,000.00  
**FOUNTAIN SPECIAL SCHOOL DISTRICT BONDS OF THE COUNTY OF PITT, NORTH CAROLINA**  
 Sealed bids, addressed to the undersigned, will be received by the Board of Commissioners of the county of Pitt at Greenville, North Carolina, until March 11th, 1927, at 10 o'clock a. m., for the purchase of \$16,000.00 Fountain Special School District Bonds of the county of Pitt, maturing February 1, 1937. Bonds dated February 1st, 1927. Interest payable semi-annually, February 1st and August 1st. Coupon bonds, convertible into fully registered bonds, denomination \$1,000, payable in

**Utility**  
 For all around utility, CX-301 A is unexcelled. Use it in any or all sockets of your (5-volt tube) radio receiver. New York in gold.  
 The bonds are payable exclusively out of taxes to be levied in Fountain Special School District, in the county of Pitt.  
 Purchasers will be furnished with approving opinion of Messrs. Reed, Dougherty, Hoyt & Washburn, of New York.  
 Bidders are invited to name the rate of interest which the bonds are to bear. The rate must be a multiple of one-quarter of one per centum, must not exceed six per centum, and must be the same for all the bonds. The bonds will be awarded to the bidder offering to take them at the lowest rate of interest, at a price not less than par and accrued interest. As between bidders naming the same rate of interest, the amount of premium will determine the award. The right is reserved to reject all bids.  
 A certified check, payable to the order of the County or Cash, for two per centum of the amount of bonds bid for, must accompany bid. Dated February 7th, 1927.

# Daily News Letter

Gossip of Staff Correspondents at World Centers of Population.

Chicago, Feb. 25.—(INS)—The old hokum will continue to raise the guffaws as long as men get fat and insist upon losing their stovepipe hats, according to Charlie Christie, Hollywood film producer. Christie stopped out in Chicago recently just long enough to lay down a set of rules for the guidance of comedy writers as follows:

"Fill 'em with a custard pie  
"Blow a fat man's stovepipe into the ditch when he's trying to catch a train.  
"Make the rotund slip on banana peels.

"Have the little boy pull the teacher's chair away when she's ready to sit down."

Christie answered objections that such hokum had been pulled since the movies were in short pants by pointing to what he expected to pay in income taxes this year.

You wouldn't think the public was tired of such gags, said Christie. "If you knew that right now we are preparing to release 32 comedy films with the ingredients I mentioned.

The public still wants that kind of comedy. You see the public is always changing. The young person of today is the old person of tomorrow, but that young want to see ridiculous situations and its the young, after all, who fill our movies."

The young folks of tomorrow will be born with "aeroplanic" minds, in the belief of Sir Alan Cobham, noted British aviator.

Cobham declared while visiting Chicago recently that the reluctance of the average adult of today to take to flying will disappear in the next generation when the world will be peopled by flyers.

"After all," he said, "you can't expect today's man, accustomed to looking up at tall buildings and trees tops, to shoot up 10,000 feet in the air without feeling odd."

But the next generation will be born without fear of the air and they will soon acquire a love of soaring into the sky."

The flyer declared that by the time the average person had this "aeroplanic" type of mind, the engineers would have perfected planes suitable for doing many of the things now performed by automobiles and fast passenger trains.

Everyone knows that Pompeian flappers used the Roman equivalents for present day cosmetics but not many know the ingredients.

Miss Ortha L. Wilner, University of Chicago co-ed, discovered just what went into the paint and lotions that adorned the B. C. flappers, during an examination of old Latin records in preparation for her graduate thesis on the "Painted Ladies of the Roman Empire."

Ingredients made from the intestines of crocodiles, lotions consisting of ashes of snails, mixed with honey and asses milk and dough were among the favorites.

Emperor Nero's wife was credited with popularizing the milk and dough combinations.

The great Ovid, according to Miss Wilner, complained once that the odor from the cosmetics used by the ladies made him sick.

**MOVIE ACTOR TAKES OWN LIFE**  
Los Angeles, Feb. 25.—(AP)—Linn F. Reynolds, 32-year-old motion picture director, died in a hospital here today of a self-inflicted wound in the head. Two guests at Reynolds' home to a beauty show the suicidal director tested a perfume bottle against his head.

## Suicide and Two Accidental Deaths in Hotel During Night

Chicago, Feb. 25.—(AP)—Several hours after a woman guest was found dead early today, apparently asphyxiated, John Rich, manager of the Rich apartment in the fashionable Rogers Park neighborhood, was found shot to death in the basement of the hotel.

Police who had awakened Rich to tell him of the guest's death returned at the call of a house man to find the manager lying dead on a coal pile in the boiler room, apparently, they said, a suicide. The woman and child, were the

family of Howard Reneau manager of a branch office of the Postal Telegraph Company, who returned home to find them dead. They appeared to have been killed by sleeping poison fumes from an adjacent apartment fatigued yesterday, detectives said, after a preliminary examination.

The hotel was said to be owned by State Senator James Barbour of Springfield, Ill. Fumes in the Reneau apartment were so heavy that police experienced difficulty in entering and a physician declared that a small quantity of the fumes, evidently from use of liquid cyanide as a fumigating agent, would be fatal.

Hotel employees said nothing was seen of Rich between the time he was told of the deaths and when his body was found by the janitor.

## SMOKY PARK BILL MADE LAW TODAY

### Speaker Fountain Signed Bill With Same Pen Used by Coolidge for Park Measure

State Capitol, Raleigh, Feb. 25.—(AP)—The Great Smokies National Park bill today became law. Using the same pen with which President Coolidge signed the National Park bill, Speaker Fountain of the North Carolina House of Representatives today affixed his signature in ratification of the measure appropriating two million dollars for North Carolina's part in contributing to purchase about 400,000 acres of land, together with Tennessee, in giving over to the Nation for permanent maintenance the "Ceiling of Eastern America."

The bill had passed both Houses with but little opposition. Mark Squires, Lenoir County Representative and a leading spirit in the movement, handed the Speaker the bill which he said the President had given to U. S. Sen-

ator Overman of North Carolina after signing the bill. Lieutenant Governor Long, president of the Senate, likewise ratified the measure with the gold pen handed him by State Senator Ebbs of Buncombe county, author of the park measure.

### Noted Figure in Organized Baseball Died Last Night

Detroit, Mich., Feb. 25.—(AP)—Charles E. Bennett, 72, a noted figure in organized baseball of more than forty years ago died here last night following a long illness. Bennett was a leading catcher and hitter of the old National League during an era when gloves and other modern paraphernalia was unknown. He topped off his career by captaining the Detroit team to the world's championship in 1887. In recognition of his services, Bennett Park, former home of the Detroit Club, was named in his honor.

"Home Run Charlie," as Bennett was known to fans, played his first professional baseball with a team in New Castle, Pa., his home town and later joined a Milwaukee team at a salary of \$150 a month, which was regarded as a munificent pay for a player at that time.

In 1879 Bennett signed his first big league contract with the Worcester Club of the National League

and displaced Doc Bushong, until the regarded as the star catcher of the league, as regular back stop. Bennett caught Dr. Richardson, the first southpaw pitcher the league boasted and the battery attained much fame.

A few years later he signed with Detroit of the same league and while here perfected the first chest protector to be introduced in organized baseball. The device consisted of a pad filled with cork which was worn under the shirt. The invention was kept secret for a time and Bennett created a sensation by letting fast balls strike him full on the chest while the fans marvelled at his apparent immunity to injury.

Bennett was sold to Boston in 1888 for \$20,000, a record price at that time. He was forced to quit the game the following year, however, when he lost both legs in a train accident.

Of late years Bennett had been engaged in the pottery business here.

### NOTICE OF SALE

Under and by virtue of the power of sale contained in that certain deed of trust, dated January 18, 1925, executed by W. R. Tyson and wife, Vera Tyson to J. H. Blount, Trustee, of record in Book 13-16, page 458, of the public registry, and default having been made in the payments of the notes secured thereby, the undersigned Trustee will offer for sale, to the highest bidder for cash, before the courthouse door in Greenville, N. C., Wednesday, March 16th, 1927, at noon 12:00 o'clock, the following described parcel of real estate: Situate in said County and State on the North side of Tar River in Belvoir Township, adjoining the following lands: Renben May land; The H. R. Hearne land; the Godfrey Starnell land; the E. P. Norris land and being the same land described in that deed from A. J. Hearne to W. E. Parker, Book 13-12, page 505 and the same described in Book G-10, page 590 and the same described in Book G-11,

page 192 and the same in Book H-6, page 180 and said tract of land containing 75 acres more or less and being the same land that was conveyed to Sallie Bryan by W. E. Parker and wife by deed in Book H-14, page 76 of the Public Registry of Pitt County. This the 14th day of February, 1927. J. H. BLOUNT, Trustee. 2 15 27 11w 4wks.

### NOTICE TO THE PUBLIC

This is to give notice to the Corn T. Barnhill, has left my home and all persons, firms, and public generally that my wife, corporations, are hereby given notice that I will not pay any account which she may make and will not pay any indebtedness of any kind which may incur. This the 5th day of February, 1927. T. H. Barnhill. 5-11w-6wk.

Bethel, N. C., Nov. 13, 1926  
"We have been using 'AA Quality' Fertilizer for 25 years and as yet haven't found anything as good. This year we are making eleven hundred pounds of tobacco per acre with the dry weather we had. All we have sold to date has averaged \$40 per hundred, taking all our common and leaving our best yet to sell. We recommend it very highly and expect to continue using it."  
—W. G. Keel

Ahoskie, N. C., Nov. 2, 1926  
"I planted fifteen acres of tobacco, using 900 pounds to the acre of 'AA Quality' Fertilizer and will make about 1100 pounds of tobacco to the acre. Up to this date, I have sold about one-half my crop and will average \$500 to the acre.  
"I have been planting tobacco for 25 years, and during that time have used several different brands of fertilizers, but your 'AA Quality' Fertilizers have given me the best crops I have ever raised."  
—L. H. Braxton

## Make each tobacco plant give you more and better-quality leaves

It takes a complete fertilizer, well balanced, rich in plant food elements, to feed the tobacco plants properly and make smooth-textured, top-quality leaves. "AA Quality" Tobacco Fertilizers have been manufactured to meet the exact needs of tobacco. They are so formulated as to feed the growing plants right up to the ripening period. They are in perfect mechanical condition. They can be easily and evenly distributed.

Materials are carefully prepared, completely mixed, cured and remilled. Sixty years of fertilizer manufacturing experience goes into every sack you buy. The largest fertilizer manufacturing company in the world guarantees their dependability. Tobacco is too much of a money-crop for you to take any chances on your yield. Get these crop-producing fertilizers, proved reliable by year after year of results. Grow high-quality tobacco that means big profits.

**GRAIN**  
Chicago, Feb. 25.—(AP)—All grain advanced materially today after President Coolidge's veto of the McNary-Haugen bill. Increased buying was attributed largely to removal of uncertainty under which the grain trade had been laboring and to revival of confidence of the future. Corn showed relative greater strength than wheat. Previously both grains had been tending downward.

Wheat closed firm 1-2 to 1-4 net higher; corn 1-5-8 to 2 to 2-1-8 up; oats showing 1 to 1-3-8 gain and provision varying from 2 cents decline to a rise of 10 cents.

GRAIN	High	Low	Close
Wheat:

**STOCK MARKET**  
New York, Feb. 25.—(AP)—Mixed price movements reflecting the play of opposing speculative forces, again characterized today's stock market but the undertone generally was firm. The presidential veto of the McNary-Haugen farm bill was favorably commented upon by several brokerage houses, but was without apparent effect on stock speculation. Calling of about \$10,000,000 in loans incidental to month-end demand for funds, sent the call money rate from 4 to 4-1-2 per cent and had a tendency to stimulate profit taking.

Oil displayed a fairly firm undertone in the face of a cut in gasoline prices by the Standard Oil Company of New Jersey, and steels were slow to respond to a reported stiffening of pig-iron prices. General motors was run up several points on the report that Chevrolet production had exceeded that of Ford for the first time this month.

The close was firm. Total sales approximated 1,800,000 shares.

## One Person Killed When Winston-Salem Store Collapses

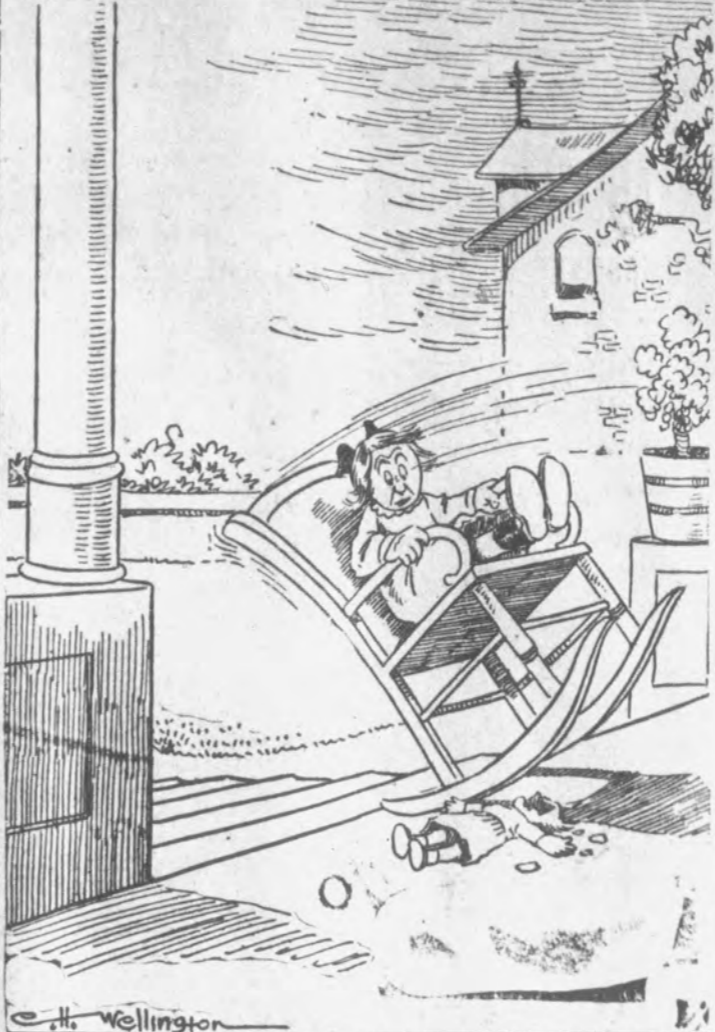

Winston-Salem, Feb. 25.—(AP)—As a result of the collapse of the Frank Urband store building on Main Street yesterday evening Mrs. Sallie Snow, 50, died at a local hospital a few hours later from injuries sustained.

Mrs. Anise Carson, 24, and her three-year-old daughter, were also badly hurt but attending physicians today said they will recover.

All three were on the second floor of the building when the crash came. S. G. Hampton clerk in the store, rushed from the building and escaped injury when he discovered that the structure was falling.

The collapse was the result of excavations being made for the erection of another building adjoining the Urband store. The loss sustained by the owners of the property is estimated at \$25,000.

**"MISMATES"**

It's Wonderful! With Doris Kenyon and Warner Baxter.

A woman's daring courage when her baby is in danger—the jewel pageant; the most magnificent scene ever produced—the Roman festival where a cowardly husband gives a feast for a lie—the pursuit by the armed constabulary—and a smashing climax as thrilling as the screen can give.

## Charlotte to Get Branch of Federal Reserve

Washington, Feb. 25.—(AP)—Establishment of a branch of the Federal Reserve Bank of Richmond at Charlotte, N. C., was approved today by the Federal Reserve Board.

## PASS BILL TO RELIEVE GOVERNOR OF POWER TO APPOINT U. S. SENATORS

(continued from page one)

of license plates from two to one as the proposed new law for the next two fiscal years, beginning July 1, and with license fees remaining the same. Another amendment adopted makes the expiration dates for the license year conform to the bill which was recently passed into law. The amendment measure goes to the House.

The Senate sent to the House the compromise Confederate Pension bill, estimated by Senator Horton of Chatham, its sponsor to give each veteran a dollar a day.

snow of Telescope Peak. Picturesque and convincing are names of places in that valley once the bed of an inland sea. Last Chance Mountain and the Grapevine Mountains close the southern end of the valley. The great Amargosa river of former times is dry. Gold, silver, copper, onyx are in those mountains. Many have died, searching.

streams of lava reach out into the desert, as they poured down from volcanoes, dead ages ago. You walk over plains of salt, a hundred feet deep, carefully avoiding alkali pools. Life is scarce there, a few snakes in summer, horned toads, the chuckwalla lizard, eaten by the Panamint Indians. Above puzzled vultures soar, wondering why the automobile doesn't die, as donkeys and mules used to die in that desert, giving the vultures something to eat.

**TODAY**

(Continued from Page one)

ered Oguroh Range, the wealth of the Utah copper mines hidden in it. Moroni looks down on a lake so salty you cannot sink; four quarts of water evaporating leave one quart of salt.

Many things are as Brigham Young would have them and as he left them. The Angel Moroni doesn't suspect that the real authority below is the Federal Reserve Bank. The gigantic copper mine on the mountain sides, and the big Union Pacific Railroad running west to the Pacific ocean, east to the land whence Brigham Young came so long ago.

D. F. Spencer, general passenger agent of the Union Pacific system, who shows you the Angel Moroni and almost tells you what that Angel thinks, says all intelligent humans should see the famous "Death Valley." The Union Pacific has arranged for you to see it without danger of leaving your bones in the valley.

For \$42 covering all expenses, you can spend two days motoring through the mysterious valley on your way east or west, inspecting in safety the strangest place on earth, stopping overnight at a modern inn, built on Furnace creek.

In Death Valley, you stand on the warm sand, far below the level of the Pacific and look to the west at the white top of Mount Whitney, highest peak in the United States.

The trip must be made between October and the middle of May. In summer Death Valley is the hottest place on earth not fit for a tourist accustomed to roughing it on the rear end of an observation car. During the Death Valley season, just opened by the Union Pacific, you have your comfortable automobiles, Death Valley Inn with swimming pool, electric light and bath for every room.

Providence seems to have created Death Valley to prove that southeastern California has every thing that anybody could want—you study brilliant colors of the appropriately named "funeral range" on the east, and on the west the tall panamints, Uncle Sam's most precipitous mountain range, rising from the floor of Death Valley, more than 300 feet below the sea level, to a height of 11,045 feet to the perpetual

## What Makes the Big Difference?

Why do some farmers succeed in raising good crops every year while others have to be satisfied with less favorable results?

## Half Your Farming Success Depends on the Way Your Fertilizer Acts

Past experiences of thousands of farmers have proved that Pamlico Fertilizers are uniformly good and can always be depended upon for the best results. The use of Pamlico Fertilizers, coupled with the proper cultivation of your crop, is bound to give you the very best results. If you stop to consider some of the most successful farmers of your acquaintance, you will be surprised to learn how many of them use Pamlico Fertilizers.
