OFFICIAL REPORT SAYS 2,500 LOST THEIR LIVES IN RECENT EARTHQUAKE

Reports From Stricken Area of Central Japan Bring Tales of Horror and Suffering

Tokyo, March 10.—(AP)—Official reports to the Home Office from the earthquake area say there are 2,450 dead, 4,107 injured and 88 missing. About 6,000 houses were destroyed by fire or collapse and over 2,000 were badly damaged.

Tokyo, March 10.—(AP)—Each succeeding report from the earthquake area in central Japan furnishes a fresh chapter in a tale of horror. Bitter cold, snow, rain, overflowing streams and lack of food and shelter all have added to the trials of the terror-stricken persons whose homes either tumbled about them when the earth rocked Monday evening, or were burned in the fires that followed.

The army, navy, and the police are making every effort to reach the sufferers but broken railway tracks, blocked roads and flooded country are hindering them. Violent winds and rough seas have prevented destroyers from reaching the scene with supplies.

Communications with the region is still spasmodic and thus complete lists of the casualties cannot be made. Figures compiled by the Home Office in accordance with its latest notices indicate that nearly 2,500 persons were killed and about 3,500 injured. Newspaper reports estimate the number of dead at between 3,000 and 5,000. Estimates of the homeless range from 50,000 to 75,000.

A tele dispatch from Miyazaki says the rain has stopped there, enabling relief work to be carried on. Survivors have again started the almost hopeless task of searching for lost relatives. Some bodies are being buried in pits dug by the soldiers. The police are maintaining strict order in the quake zone. Health officials are using their energies to prevent an epidemic and the thousands of coolies are at work repairing the roads as soldiers and sailors are collecting bodies, and building crude barracks to shelter the living.

Mineyama, Kayi, Onozaki, Yamada, Ichita and other desolated towns and villages are badly in need of food and other supplies, the rivers Mota and Fuda having overflowed to such an extent as to interfere seriously with relief parties. It is expected many of the injured will die through lack of medical attention, and that scores will succumb because of the cold and privation.

The Tokyo municipality and the Chamber of Commerce are raising relief funds. Prefectural governors are being urged by the Home Office to collect supplies and money. Charles MacVeagh, the American ambassador, called on Foreign Minister Shidehara today to present the sympathy of his country over Red Cross assistance. The foreign minister voiced his appreciation, but said he did not believe outside aid was needed, as the government and prefectures appeared to be able to handle the situation.

The center of Monday's quake was apparently 10 miles off Kyogasaki promontory, at the tip of the Taniguchi Peninsula, says a dispatch from Dr. Shidehara Kunitomi, seismologist of the central observatory of Tokyo who is now investigating the quake zone. If the movement had centered on the land instead of at sea, he added, the disaster would have been greater than that of 1923, in which 100,000 persons were killed.

Dr. Akitsune Imamura, a prominent member of the faculty of Imperial university who is also in the devastated zone, says the amplitude of the quake was twice as great as that of 1923, in which 381 persons were killed and its destructive force five times greater. He also believes that the quake zone is gradually moving eastward.

Three Hurt When Cyclone Strikes Alabama Village

Three persons were injured and property damage estimated at \$15,000 was caused yesterday when a terrific wind storm struck this settlement, uprooting trees and wrecking houses. Those hurt were fleeing their wrecked home for shelter in a barn which later was demolished. None of the injuries were serious.

SEE NO TROUBLE BETWEEN MEXICO AND AMERICA

Failure to Terminate Anti-Smuggling Treaty is Considered Good Sign Friendliness

Washington, March 10.—(AP)—One sign of stability in Mexican-American relations, for the present at least, is seen here in the fact that no official step has been taken toward termination of the smuggling treaty signed a year ago by the two countries to regulate the trans-border shipment of arms, liquor and other commodities.

The treaty became effective March 28, 1926, and was for one year. It provided, however, that it should continue in force after the year expired, providing neither side asked for cancellation. A thirty day notice from one of the governments would terminate it.

Under its terms notice of arms shipments or shipments of any other commodities embargoed by Mexico would have to be given the Mexican government even if the American embargo on exportation of arms to Mexico were lifted. State Department officials declined to say today whether there had been any recent discussion of the smuggling treaty.

One of Thirteen Students Suspended Re-instated Today

Chapel Hill, March 10.—(AP)—One of the 13 University of North Carolina students suspended Tuesday by the student council on charges of gambling, has been ordered reinstated, Sidney Chappell, president of the council announced today. This case was reconsidered, he said, adding that the cases of five others probably would be reviewed during the day.

Chappell said also that he had under consideration a petition signed by five of the suspended men requesting that he, as president of the student body, call a mass meeting to get the sentiment of the students regarding methods used in obtaining evidence against the suspended students. The complaint of the petitioners is that coercive and unethical methods were employed.

Has Narrow Escape In Falling Balloon

Spot Field, Ill., March 10.—(AP)—Captain Hawthorne C. Gray, army balloonist yesterday went through the narrow experience of using his lumbard experience to disengage sand bags in an effort to check the swift descent of his balloon in which he used an unsuccessful attempt to break the raw balloon altitude record yesterday.

Radio reception at the height of five miles was good, Captain Gray said. He lost consciousness at this height and failed to recover until the balloon descended to about 37,000 feet. The height to which he ascended will be known after calibration of several instruments by the department of standards at Washington.

Upon regaining consciousness, the balloonist found his craft descending at the rate of 1,200 feet per minute. He tried to cut away balloons but found three special knives used for that purpose had become too dull for use.

By dint of frantic efforts with his fingers he succeeded in tearing away enough ballast to slow his descent to about 600 feet per minute. At this rate his balloon crashed through telephone wires near Ashley, Ill., and the balloonist emerged with only a sprained ankle.

Harry Sinclair on Trial

Accompanied by his attorneys, G. P. Hoover (left) and Martin Littleton (right), Harry F. Sinclair, millionaire oil man, was photographed as he left the Supreme Court of the District of Columbia, where he was on trial for contempt in refusing to answer questions of the Senate oil investigating committee.

ENGLAND ACCEPTS INVITATION FOR ARMAMENT PARLEY

Washington, March 10.—(AP)—The British government has instructed Ambassador Howard here to accept the American proposal for a three power naval disarmament conference.

Although a reply from the Japanese government is still awaited, there has been no question here that Japan will respond favorably to the plan to further limit naval armaments. The actual dispatch of formal invitations for the conference probably will fix a date in June or July for the meeting which will be held at Geneva.

Ambassador Howard held the engagement with acting Secretary Grew today to discuss the question.

Tokyo, March 10.—(AP)—The leading vernacular newspapers are virtually unanimous in welcoming the proposed three power conference of the United States, Great Britain and Japan for the limitation of naval armaments not included in the Washington agreement.

Tar River Here to Reach Flood Stage Before Next Sunday

B. T. Clark, local weather observer, today received a telegram from the state weather bureau in Raleigh announcing that Tar river at this point would reach a stage of 15 feet by Sunday. Flood stage here is 14 feet which means that the river will spread far into the adjacent low grounds.

Two Officers Arrest Fourteen in Liquor Raid Early Today

Detroit, March 10.—(AP)—Patrolman Robert Gray rounded up 12 men, shooting four who attempted to escape, while his partner captured two other suspected liquor smugglers near the Detroit River early today. Two trucks and a \$42,000 cargo of Canadian whiskey were seized.

Twenty men, transferring the liquor from a launch to the trucks led by the officers approached. Patrolman George Hulbert, in a police river, successfully pursued two who took to an automobile. Gray fired four shots and dropped four men who ran, causing eight other to heed his commands. The twelve found in holding the 12 at bay. Only one was more than slightly wounded.

All are held on charges of violating the United States tariff act.

SAYS FLANAGAN MAY BE CANDIDATE LIEUT. GOVERNOR

Greenville Man Among Five Prominently Mentioned for the Office

Raleigh, March 10.—(AP)—No sooner had the 1927 General Assembly closed its doors and ended its lawmaking, than five members aspirants to be the next Lieutenant Governor of North Carolina and four, their friends say, desire to be Speaker of the 1929 House.

Rep. Ed Flanagan, of Greenville, is the latest to be mentioned by friends who say they will put him up as a business men's candidate for the office now held by J. Elmer Long, Lieutenant Governor.

Speaker "Dick" Fountain, of Rocky Mountain, was likewise discussed along with Senator Rivers Johnson, Warsaw, who confirmed reports he would run for that office. Former Senator W. H. S. Burgwyn, Northampton, is already active in the race and Dr. J. Vance McGoogan, Fayetteville, indicated two years ago he expected to be.

Threaten Another Strike in Shanghai

Shanghai, March 10.—(AP)—Headquarters of the Postal Workers' Union was raided by the police last night while a meeting was discussing preparations for another general strike. Seventy-nine men were arrested but all of these except two union officials were released.

Dunn, Prospect and Raleigh Win Basketball Titles

State College, Raleigh, March 10.—(AP)—With handsome trophies tucked under their managers' arms and miniature basketballs shining on their watch chains players on the Dunn, Prospect and Raleigh high school quintets were home today, crowned champions in the second annual invitational tournament. The three day and night series closed last night.

Sting of defeat did not hurt the runners-up so much; they, too, received cups and individual awards.

Raleigh, winner over Greensboro in Class A; Dunn over Roanoke Rapids, class B; and Prospect, over Everett, class C, were the champions. The teams received trophies. Individual players got miniature balls.

These outfits survived the elimination which started with 58 teams.

High scoring honors were divided between Captain Mooley Smith, Raleigh; S. Joyner, Woodland; and Jimmy Kimmer, Dunn.

Clayton Moore and N. A. Townsend Appointed From Eastern District Under New Law

Raleigh, N. C., March 10.—(AP)—Clayton Moore, of Williamson, and N. A. Townsend, of Dunn, have been appointed judges of the Superior Court of North Carolina by Governor McLean under authority conferred on the Governor by the 1925 General Assembly. They will hold office until June, 1929.

They were members of the General Assembly, Moore serving in the Senate and Townsend in the House. Under the emergency judge act, the Governor was authorized to appoint four judges to serve until June 30, 1929. The law specifies that two shall be from the Eastern Circuit and two from the Western.

Tarboro Man Gets Long Prison Term

Tarboro, March 10.—(AP)—One man was found not guilty and another given a long prison term in two murder cases disposed of in Edgecombe county superior court today.

A Hard road construction foreman was found not guilty of the murder of Mark Barnes, negro laborer, who was shot at the Pinetons road camp some weeks ago. Hardy based his defense on a self-defense plea and was acquitted last yesterday.

A Homer Smith, who was charged with the death of his wife and the serious injury of his two sons, submitted to a charge of second degree murder, and was sentenced by Judge R. A. Nunn, of New Bern, who is presiding at the court session, to not less than ten years and not more than 15 years in state's prison.

Evidence in the case, which was heard to enable Judge Nunn to determine the sentence upon Smith, tended to show he came home in an intoxicated condition and shot up his household.

Denied bond, Smith has been in the Edgecombe county jail awaiting trial since the shooting occurred in the fall.

SINCLAIR COUNSEL GETS ALL BALLED UP IN COURT TODAY

Judge Sends Jury Home Until Monday to Give Counsel Time to Uncross Wires

Washington, March 10.—(AP)—The contempt trial of Harry F. Sinclair moved haltingly through a forenoon session full of extraordinary features today and then adjourned until Monday.

Deciding that he wanted to hear the defense testimony himself before he decided whether it was admissible before the jury, Justice Hitz sent the jury home early, and then ordered the picture by moving from the attorney's table into the witness chair and submitting directly to the questioning of his colleagues.

Littleton testified that Sinclair was acting on his advice, as counsel, when he refused before the Senate oil committee to answer the questions about Teapot Dome that became the basis of the present contempt charge.

Previously the defense again had sought to set before the jury Sinclair's testimony before the Senate investigation prior to his final refusal to answer. The defense attorneys agreed that this evidence was pertinent in that it would show he did migrate had previously answered all the questions asked and let unanswered on the final day. But Justice Hitz, excusing the jury, said he wanted more light on the subject and would hear what the defense had to offer before he decided what should go before the jury.

The defense attorneys, in addition to calling Littleton as a witness, submitted Sinclair's statement before the committee that his refusal to answer was based on the fact that the Teapot Dome controversy already had been turned over to the courts. They also put in the record that the civil suit for cancelling Sinclair's Teapot Dome lease was filed nine days before Sinclair's final appearance before the committee.

Littleton said that in advising his client not to answer the questions asked by the committee, he had told him that if any questions were asked that might relate to legislation, he should answer them.

"I advised Mr. Sinclair not to answer the questions asked," he said, "because in my judgment they did not relate to legislation. I had heard the colloquy between the Senators on the committee that the questions would be related to the subject under litigation."

Recommend Hayes For Appointment New Judgeship

Washington, March 10.—(AP)—Johnson Hayes, an attorney of Greensboro, N. C., was recommended to President Coolidge today for the new federal judgeship of the middle district of North Carolina, created at the recent session of Congress, by a committee of lawyers, manufacturers and other business men of Greensboro, who called at the White House today.

Thirty-Seven Lose Lives in Movie Theatre Fire

Volodga, Russia, March 10.—(AP)—Twenty-seven persons were burned to death in a movie theatre fire in the village of North Avinsk and forty others were missing today. Women's International Emancipation Day was being celebrated when a kerosene lamp upset. The flames spread so fast that only a few in the audience had a chance to escape. Most of the victims were women and children.

New Outbreaks in China Today

Shanghai, March 10.—(AP)—Anti-foreign demonstrations occurred at Wuhu, 200 miles west of Shanghai, throughout Tuesday and Wednesday. In the course of which rioters wrecked the customs house and customs club. Foreign men were concentrated under the protection of warships.

### Dempsey Must Eliminate Once-Considered Ham

It may come to this. Jack Dempsey may have to face Paolino Uzcudum, just as the artist has brought them together here, in order to get a chance to win back the heavyweight title.

Lo, how the mighty have fallen, or something like that.

Time was when Jack Dempsey turned up his nose, probably for publicity purposes, at such as Gene Tunney. But that was before it rained in Philadelphia.

Even after that, the same Dempsey announced that he would condescend to fight to regain his title with Tunney or no one.

About that time Paolino Uzcudum appeared on the scene. He was a European, which classed him, quite properly, as a foreigner. And having been so classed he was regarded by almost all of fight followers, excepting his press agent and including Dempsey, as a ham.

"These foreigners get a reputation in their own

back yards, and then come over here. They can't fight. They don't raise fighters in Europe. One or two fights and they're through. Look at Firpo, Clarke, Pearson. Hurrah for the red, white and blue!" chanted the patriotic fans.

But now!

Dempsey can stage his comeback. He may have another chance to be heavyweight champion of the world.

But—

First he must put Paolino out of the way. Paolino, you know, beat Knute Hansen. And then he must defeat the winner of the Sharkey-Maloney fight. This, according to word from the headquarters of Tex Rickard, New York sports promoter, who has Tunney under his contractual thumb.

### Babe Ruth In Line-up and All is Well With Yankees

(By Brian Bell)

St. Petersburg, Fla., March 10.—(AP)—Babe Ruth is in the line-up and all's well with the Yankees. The slugging outfielder in practice promises to pick up his home run hitting just where he left off in the world series and the other players believe New York will ride to another American League pennant on the big bat of the Babe.

Those who believe "as Ruth goes, so goes the Yankees," find much to please them in the spring training program as Ruth slams the ball to distant places. Only a few nounds above the abnormal weight for an ordinary athlete that places him in the proverbial ink of condition, the home run hitter seems certain to be right at the top of his game when the season opens.

To support the Babe manager Miller Huggins will offer the same cast he used to win the pennant last season. He will have some added stars in the reserves but will stand pat on the regulars.

With Gehrig, Lazzeri, Koenig and Dugan enlisted for the duration of the baseball war, the infield contest is for assistant to Mike Gazella who is again first utility call. Ray Morehart, who came from the White Sox and Julian Wera, up from St. Paul, have shown so much in the spring camp that Spencer Adams may be pushed aside. There are several young infielders scamping about the field but Wera has shown an edge among those trying to break into the majors for the first time. Moving third or short equally as well he gets the ball away quickly and covers his territory. Close observers would not be surprised to see him win a place.

A similar situation exists in the outfield. Ruth, Combs and Meusel are fixtures with Pascal no less firmly entrenched as extra man. Durst, obtained from the Browns in a trade by which Sam Jones went to St. Louis, is said to have been brought on because he is a

left-hand hitter. Elias Funk, whose release was purchased from Oklahoma City, has shown a great deal in practice and he, too, is a left hand batsman.

Bengough and Collins, last year's catchers, have been joined by Grabowski, former White Sox who won a place on the staff in short order.

Jones and Braxton are missing from the pitching staff starting last season for Ruether, who was with Washington at this time last year, is on hand and Gland has taken off a St. Louis uniform to go on a New York color.

It seems certain early in the game that Myles Thomas and Walter Beall, who spent most of their time in the bull pen last year will be given more opportunity to do their stuff this season. Thomas especially has shown greatly improved form.

Of the few men on the staff George Pipgras, bought from St. Paul, will be kept and may be a starting pitcher. Wiley Moore, who won 30 games for Greenville in the South Atlantic Association last year, seems to have an excellent chance to remain under the big top. He is a big fellow with impressive "stuff" and a decided capacity for work.

Manager Huggins expects to again pin his faith on Pennock, Hoyt and Shoemaker as his shock troops on the mound.

"We will be better than we were last year," said Huggins in sizing up the situation, "but so will the other fellows. We will have to fight hard all the way to repeat."

The manager of the champions said he conceded five clubs a chance to win the pennant. He did not name them.

### Dempsey to Again Enter the Ring

New York, March 9.—(AP)—Jack Dempsey's publicistic future, rested today in the hands of Tex Rickard. The former heavyweight champion has empowered Rickard to match him against any opponent in the elimination tournament now underway at Madison Square Garden.

Return of the former "Manassa Mauler" to the ring he forsook after Gene Tunney whipped him in the rain at Philadelphia last fall, completes the string of challenges now awaiting for the champion's first title defense in September.

Dempsey wired the promoter from Los Angeles that he was ready to fight any contender that Rickard might choose and that it made little difference to him who that contender is. The recent infection of his hand and the "scrape" of a finger scratch, now has left his system, he said, and in a week expects to start training in a mountain camp.

Rickard, elated at the return to the lists of the most colorful drawing card in fistiana, immediately laid plans for two Dempsey matches. The first would bring the former champion against Paulino Uzcudum, another enterprising mixer, at the Yankee Stadium in the first week in June. The match will hinge on the Spaniard's showing against Tom Heenan of New Zealand, in the last indoor match of the series March 23.

Then if Dempsey proves he again is the weaving lattering fixture that ruled the boxing kingdom for seven years, Rickard will match him against the winner of the Jack Sharkey-Jimmy Maloney battle scheduled for May 19 at the Yankee ball yard.

## ESSEX is a SUPER-SIX

And it differs from all other "Sixes"—not by little margins—but bold, vivid advantages that instantly stand out from all comparison.

Here is 50 miles an hour all day long, with ease to car and comfort to passengers. (Yet that is far below its maximum speed.)

Here is size, generous passenger room, simple, positive controls. No car of any price excels its easy riding qualities.

Here is economy, engineered not only to savings in fuel and oil, but particularly to freedom from early depreciation, and to lowest maintenance costs.

There are four new bodies on the Essex Super-Six chassis—beautiful, smart in-line, luxurious in upholstery and appointment. They are the greatest and deservedly most popular values Essex ever built.

and a pipe

—that's my dish!

I COULDN'T ask for more. Prince Albert gives me everything I want in a smoke. It is fragrant, delightfully fragrant . . . both in the tidy red tin, and as I smoke it in my old jimmy-pipe. It is cool and sweet as an orange just off the ice. Refreshing!

If there's one thing more than any other which I like about this grand old tobacco, it is its mildness . . . mildness that is balanced, however, by a full, rich body that satisfies my smoke-taste all the way down. It was this rare combination of mildness and tobacco-body that won me to P. A. right off the bat.

I can't give you the complete picture, for taste is a thing that must be experienced. But I feel so sure that you will enjoy P. A. as you never enjoyed any other tobacco, that I am telling you, here and now, to buy a tidy red tin and get started. You can't lose, Men.

Thousands of pipe-smokers who thought they were all set have taken similar advice. They've agreed that it was worth the experiment. Today they are among the millions of P. A. regulars . . . the most contented bunch of pipe-smokers in the world. Come on in—the smoking's fine.

At the close of business the meeting was turned over to the hostesses who had planned a treat for us in the way of entertainment.

The Misses Morton, of the college, delighted all present with their first number, "Angels Serenade," a violin solo with piano accompaniment. This was very warmly applauded and a request was made for "Indian Love Call." The Misses Morton, in their song, graciously responded. Their interpretation of this popular number was perfect.

Miss Alma Lee gave a humor one reading, "Daisy's Peace." She generously responded to the applause with "Mary Had a Little Lamb," with variations.

Miss Bertha Lee Ferguson gave two very fine impersonations, "A Telephone Romance" and "Tit for Tat," the latter in Irish dialect.

The Misses Morton rendered "One Little Dream of Love," beautifully. This was followed by short, "catchy" number which everyone liked.

Miss Pearl Dawson sang all by giving a true-to-life reading "The Morning Call." She also gave a short child impersonation "A Little Shoo." Both of these were enjoyed very much.

More music was furnished by the Misses Morton, after which tempting salad course was served.

We adjourned tomorrow substantially, after a most profitable and enjoyable evening, to meet in April with Mrs. J. E. Winslow.—Reported.

### Doctor Battles Deadly Swallowed Safety Pin

Philadelphia, March 8.—(AP)—A safety pin has killed more children than have firearms in the opinion of Dr. Chevalier Jackson, of the Pennsylvania University medical faculty, who has designed instruments for retrieving small objects from lungs and stomachs.

Careless mothers who put pins in their babies' clothes when dressing their babies, he says, set an example which is likely to be followed with possibly disastrous results.

"It took me 25 years to master the swallowed safety pin," he declared.

He mastered his recovery with a safety pin closer, operated through a bronchoscope. The bronchoscope is a small, straight metal tube, inserted through the mouth. It has a tiny electric bulb at the end and breathing holes near the end.

Through it the operator can look inside the stomach or lungs, or operate safety pin closers, forceps or other instruments for handling small objects. A bronchoscope for a baby is hardly larger than a straw.

Dr. Jackson's records show that formerly 90 per cent of the children who got foreign objects into their stomach or lungs died. Today 98 per cent of the patients live. He has found tacks, whistles,

jackstones, buttons and scores of other small objects in the bags and stomachs of children. Recently he removed a glass bead from the right bronchus of the five-year-old son of a missionary, brought to him 32,000 miles from India.

Dr. Jackson is professor of bronchoscopy and esophagoscopy at Jefferson Medical College and the postgraduate school of Pennsylvania University. He was awarded a \$10,000 prize offered by Edward W. Bok for the person who "shall have performed or conferred a service calculated to advance the best and largest interest in Philadelphia."

Two inches. Choking and Smothering Relieved, A Liniment Did It. Mrs. Geo. Baldwin, College Place, Columbia, S. C., says she will gladly tell of a relief she has experienced to anyone about Sorbol Quinacryl, a cough-silencer, that came in from Sorbol Quinacryl, Mechanicsburg, Ohio. ## Spring Openings In Paris

IRENE CASTLE CORTICELLI FASHIONS The MAXIM Model

This dressy afternoon coat is of Cashmere Suede. The diagonal seams thru the skirt and sleeves are its trimming. The slight blouse is ever a youthful line. Fitch collar and Corticelli Thistle-down is the lining.

Gold braid embroidery trimming the bolero and sleeves of Corticelli Frances Ann Crepe enliven it greatly. The back is straight with two wide tucks falling from the shoulder. A white pleated vest with gilt buttons may be removed for cleaning. A gold buckle lends charm to the belt.

### Advance Predictions of Colors and Styles of the Spring Modes

A Cablegram from Irene Castle's Paris designers we feel will be of great interest to the Fashion Followers of Irene Castle.

"Colors stressed at the Spring Openings are Navy—Lipstick Red—Black and White—Worth Blue—French Nude and Grey. Bows—tucks—pleats—boleros and belts used in profusion yet so cleverly, the effect is one of uncompromising simplicity."

The several silhouettes this Spring are achieved by the intricacy of cut and design. However the feeling is not one of clever simplicity which can only be created by skillful designers. A pleated skirt—bloused bodice—or the clever bolero above a snug hip line and the entrancingly soft draperies hold the effect of the unbroken contour from neckline to hem. As a whole the new Spring styles are indeed kind to the woman who is seeking the chic mode yet desires the becoming frock or coat.

Thru the use of cablegrams and the alertness of our Paris representatives Irene Castle has been able to give to the Style World in her new frocks and coats, the many delightful features so recently brought out by the couturiers of Paris.

The lovely Corticelli Silks used in these styles are especially adapted to the spring modes.

We are the sole representatives in this city for these chic modes and they are now in our shop

**LIVE AND LEARN**

Nobody knows exactly how the McNary-Haugen farm relief bill would have worked out in real life.

It is an opening wedge for state ownership, state control of all business of every sort. As a financing plan, it will operate as long as the revolving fund lasts; if all that is spent in one year, or on one single kind of crop, there would be no more money, and farmers not fortunate enough to get in before the cake is gone will go hungry.

Too often easy borrowing is the direct road to worse troubles. As a substitute for too many acres too poorly tilled, borrowed farm money is a delusion. If it is a palliative or an anaesthetic to disguise the pain of bad farming, the remedy will be found worse than the disease.

**HOLE-IN-THE-WALL BANK DANGEROUS**

The National Association of Credit Men recovered practically \$400,000 from fraudulent failures during the past 15 months, and convicted 122 commercial crooks.

This is a very small proportion of the losses from such frauds, which are estimated to be \$250,000,000 a year. But the effect is good; the losses might have grown enormously, if these 122 professional operators had not been jailed, and others restrained through fear.

Some people still say, "I'm afraid of banks," and keep their money on their person or hidden about the place, to bring the footpad or murderer or to be lost by fire or their own death. The losses from the old-sock and hole-in-the-wall banks are more than all those from credit frauds, bank failures and all breaches of trust; and the loss of life is a thousand times greater.

It is not prudence to hide money away; it is sheer idiocy.

**CARELESSNESS CAN BE CURED**

San Francisco police and citizens are alarmed at the increasing number of automobile accidents occurring on the streets and highways. Last year 126 people were killed, and since January 1, fatalities have averaged almost one a day.

What is occurring in San Francisco is common to nearly all large cities. Careless driving is inflicting death or injury on an appallingly large scale.

That accidents can be prevented is proven by the railroads. The railroads meet the situation by organization of safety committees among their officers and employees. The committees' purpose is to eliminate carelessness by education in safe practices.

During the last seven

years the Southern Pacific alone has moved 300 million passengers more than 11 billion cumulative miles, without fatality to a passenger in steam train accident. In 1926 for each fatality to an employe in train and train service accidents, a train was run a distance equivalent to three times around the world.

Statistics of the Interstate Commerce Commission show a steady downward trend of accidents on all railroads with each succeeding year, the direct result of systematic safety work.

On the other hand, vital statistics show that in 1926 more people were killed by automobiles in San Francisco alone than by all the railroads of the Pacific Coast, including fatalities at grade crossings.

We hear much clamor of taxing the people for grade changes, but very little of curbing reckless driving, which is claiming nine victims on the streets and highways for every one at grade crossings.

The way to reform is to reform. Automobile clubs and associations may well follow the example of the railroads, perfect a "safety organization and educate drivers in safe practices. The railroads have greatly reduced accidents, and what they have done automobile associations can do, by adopting a like systematic method in dealing with accident causation.

Virginia Lady Tells of Taking Cardui and Says She Has Since Recovered Perfect Health.

Lynchburg, Va.—"I have taken Cardui several times for a run-down condition and have found it perfectly splendid," says Mrs. Lee T. Marsh, 715 First Street, this city.  
"About ten years ago," she explains, "I became so weak I could not go about. I looked like a skeleton and... was dreadfully worried about myself. A friend suggested Cardui and I decided to try it."  
"I kept up the medicine until I had taken six bottles. It regulated and built me up. I improved greatly."  
"Last year we drove up here through the country from Florida. I was exposed to the weather and must have taken cold, for I became ill... I got run-down, lost flesh... could not sleep and had no appetite at all. I was so nervous that I did not know what to do."  
"I thought of Cardui. I began to take it regularly and it was not long before I began to feel better. I took six bottles, one after another, and at the finish of the last one I was perfectly well again. Since then I have continued gaining in weight and all winter have been in perfect health."

### Amy Crocker Pays Hubby No. 5 Cut-Rate Wage, Awaiting No. 6

Heiress of the Crocker millions, Amy Crocker Ashe Gillig Mitzinoff Galitzin, and Prince Galitzin, her latest husband who contests her effort to divorce him.

What price princess for American heiresses? Quotations on the Paris bourse are in the routine class. Motormen get higher wages than Prince Galitzin, but he is going to make a fight to keep his \$200 a month, and, incidentally, his wife, Almee, formerly Amy Crocker Ashe Gillig Gorman Mitzinoff Galitzin.

She is fifty-six years old plus and he is twenty-seven, and she is paying him the \$200 a month. She is preparing to get a divorce on the ground that even on his luncheon allowance he has managed to afford to be a bad husband—Husband No. 5, to be exact, of the heiress of the Crocker millions.

Le Journal, a Paris newspaper, declares that the Prince has retained counsel there and notified his American Princess that he will not let her have a divorce. Her lawyer, Frederic Allain, declares there is nothing in the story of a contest, but he admitted that Prince Galitzin had denied all of the charges made against him by his wife.

In this connection it also became known that Princess Galitzine is paying her husband the \$200 a month as "living expenses," pending decision in the divorce.

**WEDDED BLISS SHORT.**

They were married in Paris in September, 1925, but separated within a few months, and have lived apart since then. Her previous husbands were Porter Ashe, Harry Gillig, Jackson Gouard and Prince Mitzinoff.

Husbands have not stayed husbands with her as long as the mt'ing on her arm. She is not only getting ready to drop No. 5, but in New York clubs they will lay you—if you happen to be a Knickerbocker or otherwise among the elect, with club privileges—3 to 5 that Almee has already plotted out a sixth wedding and has an option on her prospective No. 6.

Her father, Judge Edwin Bryant Crocker, of Sacramento, Cal., who made his many millions in the "days of old, the days of gold, the days of '49" and following, left half his Midas hoard to his daughter.

Her youthful career kept San Francisco society from taking itself too seriously and gave it no shock when she married R. Porter Ashe, December 16, 1882. He was a picturesque, high-class sporting man of his day in California and a nephew of Admiral Farragut. He and Harry Gillig, one of the first of the famous "men about town," were pals. Both were in love with the frolicsome Crocker heiress, and a story was widely told that the rivals, warm

friends, decided to cut the cards, toss dice or otherwise decide which should retire and leave the field to the other.

**SISTER-IN-LAW TO MOTHER.**

When Almee divorced Ashe, seven years later, she was married to Gillig and they moved to New York with Anna Ashe, daughter of Almee's first marriage. Her mother changed the child's name to Gladys Crocker, and some years later Powers Gouard, brother of the next of the Almee husbands, fell in love with and married Gladys. Of course, that made her sister-in-law of her mother and step-daughter of her brother-in-law, but nobody seemed to worry over it.

Jack Gouard, the third husband, died and his widow began to build up a family by adoption. She adopted three children and named them Reginald, Yvonne and Dolores. Then she took "Princess" Alexandre Mitzinoff, age twenty-six, for her fourth husband. She was past forty years of age.

When the expected crash came, Prince Mitzinoff was accused by his wife of having wooed and won her adopted daughter, Yvonne. Almee divorced Mitzinoff and he promptly married Yvonne. But Yvonne soon divorced her ex-stepfather, and was reconciled to her mother by adoption, Almee.

**TATTOOED.**

By this time America failed to adequately feed the temperance of Almee, and she moved to Paris and took on some permanent companions, judgment proof, a snake tattooed on one of her legs; a butterfly, symbol of the soul, on her back, and others on her left arm, showing plainly close to the jeweled bracelets on her wrists.

Stories told and not denied about the time Almee took on Prince Mitzinoff, indicate that the bridegroom's soul was sadly torn. He wanted to be a movie sliker and the Princess (Almee) could not see it for a minute or—more important—could not see it for just one dollar of her \$10,000,000 fortune, so far as its spending by Galitzine was concerned. He did not go to Hollywood.

Amy changed her name to Almee with her first marriage to a foreign Prince, and every time she dropped a husband she told newspaper interviewers that "Never again" was her anti-nuptial slogan for then and thereafter.

But the club scandal sharps of New York, London, Paris and points southward will bet you she is all set to revoke on that play again.

REVOKE LICENSES STEAMER CAPTAINS

Captains of Two Vessels in Recent Crash Found Guilty of Inattention

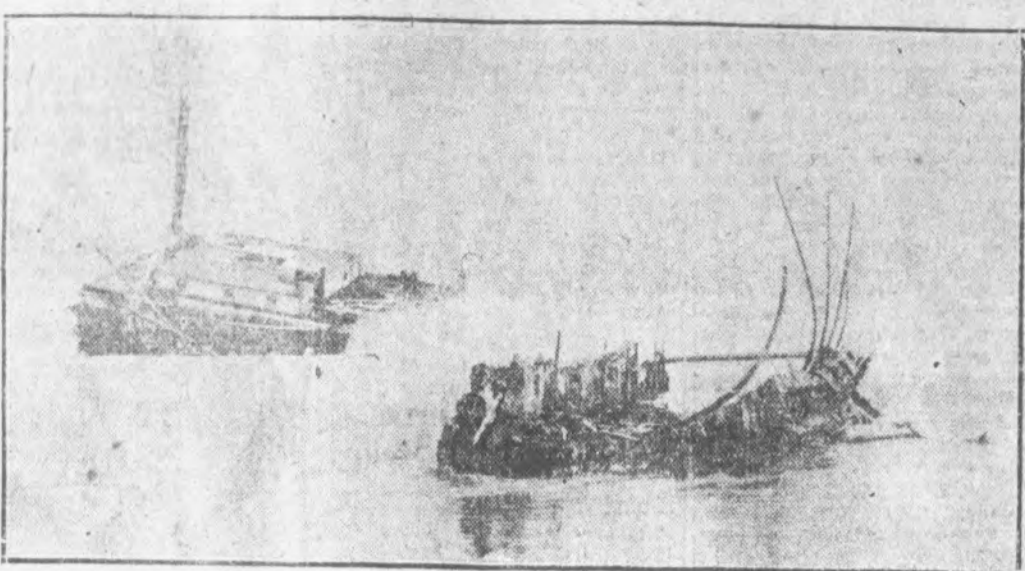

Baltimore, March 10.—(AP)—Both captains in the Chesapeake Bay steamer crash February 27 which cost the life of a woman passenger and imperiled 400 other passengers and crew members' lives today were declared guilty of inattention to duty. Their licenses were suspended for one year by the federal board of inland steamship inspectors.

The captains are Howard Will, captain of the City of Annapolis, and George C. Case, captain of the City of Annapolis. The City of Annapolis was in an early stage of loading at the mouth of the Potomac river.

ARREST TWENTY IN CONNECTION WITH RECENT ELECTION

Chicago, March 10.—(AP)—Twenty persons alleged to have served suspect notices which resulted in the names of hundreds of voters being stricken from the registration books just before the Washington's birthday primary, were indicted today for conspiracy.

Five Die When Ship Grounds on Treacherous Cape

Heavy seas battered the Nova Scotia schooner Montclair to bits after it ran aground on the outer arm of the cape near Orleans, Mass. The captain and four men were lost, and two were saved.

Kept Alive Four Days By Artificial Means Respiration

Chicago, March 10.—(AP)—Kept alive 96 hours by artificial respiration supplied by friends working in pairs, Alfred Frick was reported by his three physicians at 10 a. m. to have displayed unmistakable indications of improvement. The creeping paralysis which brought him to death's door Sunday morning had been reduced sufficiently for him to move his hands slightly and the soft palate moved several times. He was conscious and cheerful.

His pulse was 120 and his temperature 100. For an hour the pulse had remained stationary but the temperature dropped one degree. The normal pulse rate is 72 and normal temperature 98.6.

Just after 10 o'clock Frick fell into a natural sleep, one of the very few such instances since his long fight began.

Many volunteers waited at the hospital for a possible call for their services in the relay work of enforcing artificial respiration.

Frick's legs always have retained some sense of feeling, although he has been unable to move them. They are straight as he lies in bed, but his sensation is that they are in a cramped position.

The valiant sufferer was considered still to have a chance for life although the odds against recovery were almost prohibitive.

He had four respirators of coffee this morning.

REED COMMITTEE ENCOUNTERS SNAG

Senate Investigating Committee Without Funds With Which to Operate

Washington, March 10.—(AP)—Debarred from speaking in terms of millions, the Reed committee today is struggling to get together a few hundred dollars to permit continuance of its investigation during the summer.

Unable to secure an extension of its tenure during the close of hours of the Senate session, and denied further use of the unexpended balance of money previously authorized for its work, the committee's representatives asked for \$1,000 to buy round Pennsylvania ballot boxes under a special Senate rule providing for the secretary of the Senate to permit expenditure of \$1,000 on "extraordinary occasions."

But Senator Keres, Republican, New Hampshire, chairman of the committee on audit and control, ruled that his committee could get no money on this ground either, and Edwin P. Thayer, secretary of the Senate, declined to authorize the expenditure. Mr. Thayer said that in the past funds had been spent under this rule only for funeral expenses of Senators.

Await Identity of Alleged Mail Robber

Raleigh, N. C., March 10.—(AP)—Federal authorities today awaited word of identification of the man arrested yesterday on charge of robbing a mail train. The charge may assume more serious proportions, they said.

The union depot mail transfer office bars were nearly saved through. The man gave the name of William H. News, 41, born in a convict who escaped in 1924 from Atlanta penitentiary after serving 10 months of a 14 months sentence for theft of mail in Pennsylvania, his home State.

Authorities here received word that the Atlanta penitentiary officials were forwarding to Raleigh photographs and finger prints of News.

Disposition of the case depended on his identification.

Two Lose Lives In Hotel Fire

Amarillo, Texas, March 10.—(AP)—Two lives were lost and six persons injured in a fire which destroyed the old Amarillo Hotel Annex today. The dead are Mrs. Benito Gonzalez and her infant daughter. The baby was burned to death in the building and the mother died later in the morning.

The charred body of the baby was found in the ruins near where the 16-year-old mother was compelled to drop.

The building was a rambling two-story frame structure on the edge of the business district. The fire apparently started in the boiler room, has been caused by gas. About 70 men and other employees heard any persons were in the building and many escaped in scanty attire. The loss was estimated at \$25,000.

TO ABANDON 12 MILES RAILWAY IN THE STATE

Washington, March 10.—(AP)—Permission to abandon 12 miles of railroad between Burnsville and Bookie in North Carolina, was given by the Black Mountain Railway Company today by the Interstate Commerce Commission. Only one condition was attached by which the road will be required during 30 days to sell the line at salvage value to any persons who may offer to keep it in operation.

UNDERGOES OPERATION FOR APPENDICITIS AN HOUR AFTER BIRTH

Detroit, March 10.—(AP)—Operated upon for appendicitis within an hour after her birth, one of the twin girls born yesterday to Mr. and Mrs. Ollie Choise has a chance to live, physicians said today. The other child was in normal health at birth.

Pitt County Ships Another Car Poultry

According to E. F. Arnold, County Agent, Pitt county will ship another car of poultry today. Yesterday 3,961 pounds of live poultry was loaded in a car of Ayden and 5,275 pounds at Bethel. This shipment at Bethel brought the farmers \$1,167.50 in cash at the car door. The banker swears that what had hit the town when farmers began to roll in with their checks which kept up throughout the day.

The car from Ayden is in Greenville today, and at noon was more than half loaded. This car will put between \$2,500 and \$3,000 cash in the pockets of Pitt county farmers. Does the lovely hen pay?

Pitt county farmers can and should be shipping a car of poultry every week. A few cars of broilers just before Easter would bring fancy prices to the growers. But from what we have been able to learn all the broilers in Pitt county that are offered at the Easter market could be hauled on in one truck load. Martin, Jackson, Clay and a number of other North Carolina counties are feeding out carloads of broilers for shipment in April. How do they manage it? somebody asks. Well in these counties, the farmers cooperate with the county agent and order baby chicks in January and feed them out and have them ready for the Easter market. Each farmer makes himself to feed out so many, provided enough are pledged to ship a car. And when the required number is pledged, the county agent notifies those interested and since they are engaged of a market they get in the game. The Pitt county fair agent is planning just such a poultry program for next January. He did not get to Pitt county in time this year, but wishes to put the farmers on notice at this time so that they may be thinking it over and be prepared to get in the game right for next year.

Noted Golfers Will Be in Rocky Mount

Mont. N. C., March 10.—Two major events will attract noted golfers of Eastern Carolina to Rocky Mount Saturday when Joe Kirkwood, noted golfer professional and trick shot, will give an exhibition on the Kennebec Course. This will occur early in the afternoon, and a reorganization meeting of the Eastern Carolina Golf Association will be held at a supper conference immediately after the exhibition.

Kirkwood will participate in a tournament along with Eugene Mills, Raleigh golfer and former State Amateur champion, through Long Rock Mountain pro. At the conclusion of their match the former Australian champion will give a lesson and open his bag of trick shots.

The Eastern Carolina Golf Association will go into session immediately after his performance to elect officers, draft a schedule of membership play and arrange an Eastern Carolina tour which, it is expected, will be represented at the meeting include Wilson, Tarboro, Fayetteville, Greenville, Henderson, Booneville, Raleigh and Rocky Mount.

The reorganization meeting was postponed from last week on account of adverse weather and first round announcements as to the meeting for it was made by local officials today.

### THREE RUSSIANS ARRESTED WITH CHINESE TROOPS

Pamiat Lenina to transport troops to centers where they are needed to prevent an advance by the Southern Nationalist armies. The Pamiat Lenina was seized, because she was located with tons of propaganda against the northern Chinese armies. The Soviet government has sent two vessels to Peking urging that the vessel be surrendered and Mme. Borodin had the three other Russians arrested with her be released immediately.

### British Charge D' Affairs Reported Interceding for Women Also Held by Southern Army

London, March 10.—(AP)—Confirmation was lacking today of reports that three Russian couriers arrested with Mme Borodin when the Soviet steamer Pamiat Lenina was seized Saturday had been executed on orders of Marshal Chang-Tso-Lin, the northern Chinese war lord.

Shanghai, March 10.—(AP)—Owen O'Malley, British Charge d' Affaires, today was reported to be on the way to Peking in an attempt to intercede for Mme. Borodin, who was arrested when the Soviet steamer, Pamiat Lenina, was seized by units of the army of General Chang-Tso-Lin, several days ago, were reported to be holding up news from that place since a mob outbreak caused foreign women and children to leave the city by steam.

Reports that the British Charge O'Malley was to intercede with the Peking government for Mme. Borodin, lacked confirmation. It is believed here that Mr. O'Malley can only make efforts in an official friendly way. Cantonese commanders who occupied Wuhu, 200 miles west of Shanghai, several days ago, were reported to be holding up news from that place since a mob outbreak caused foreign women and children to leave the city by steam. The belief is generally held that order has been restored.

Peking, March 10.—(AP)—General Yang Yu-Ting, Marshal Chang Tso-Lin's chief of staff, declared today that Chang had not ordered the execution of the three Russian couriers arrested Saturday when white Russians, serving with the Shanghai defense army, seized the Soviet steamer Pamiat Lenina. General Yang added that the defender of Shanghai, General Chang Tsung-Chang, had reported to Peking that the three men were being guarded at Tsinan and were well treated.

### County Agent Organizes Boys' Club at Stokes

With the co-operation of the faculty of the Stokes school, the county agent, E. F. Arnold, organized the first boys' agricultural club for Pitt county. The following officers were elected: Jerome Perkins, president; Walter Cherry, Secretary; Cary Page, captain of the poultry squad, and Elbert Overton, captain of the pig club squad. Other members of their next meeting in April. The county agent's plan of work calls for three boys' agricultural clubs in the county this year. The next club will probably be organized at Simpson as they have entered the largest number of boys to date.

clubs in the county this year. The next club will probably be organized at Simpson as they have entered the largest number of boys to date. The agricultural extension program of work for Pitt county calls for the enlisting of 500 boys in better methods of farming as taught in boys' agricultural clubs during the next five years. While three clubs may appear a small beginning, but it is thought best to start small and do the work thorough and in a manner that will result in constructive work rather than to take on more work than can be accomplished with boys who have not had any experience in effective club work.

## The World's Most Powerful Sedan of Its Size and Weight -and the Safest

### NOW \$1335 F.O.B. FACTORY

**TO prove the ability of this Studebaker Custom Sedan, get behind the wheel yourself. Feel the power of its quiet L-head motor—most powerful in any car of its size and weight in the world. See how slowly you can idle along in high, how smoothly it accelerates, how lightning-quick it is on the pick-up, how easily it shoots through traffic, soars up steep hills and speeds arrow-swift down the free stretches.**

**Luxury for Your Wife**  
Then turn the wheel over to your wife. Let her learn what restful driving really means—the pleasure that comes from finger-tip response in steering—the ease of gear-shifting—the feather-light pressure on the positive-acting four-wheel brakes. And she will like the complete custom luxury of its richly upholstered, roomy interior.

**Fused Steel Assures Safety**  
This smart-looking Studebaker steel body saves gasoline and tires because it's lighter than wood—safer because it permits wider visibility than wood—safer also because it has been fused by electricity into a practically indestructible unit of steel—welded, not riveted—and longer-lived because steel wears while wood wears out.

**A One-Profit Price**  
At its new low price, \$1335—including over \$100 worth of extra equipment—this Studebaker Custom Sedan shatters all former standards of motor car value, thanks to One-Profits manufacture! See it—drive it—now.

### COTTON OPENING

New York, March 10.—(AP)—Cotton futures opened steady today. March 13.99; May 14.06; July 14.23; October 14.33; December 14.44 bid.

New York, March 10.—(AP)—Cotton opened steady today at a decline of 1 to 7 points under revised liquidation, accompanied by reiterated reports of a less active spot demand and talk of an earlier spot basis in some of the southern markets.

Trade interests were buyers on a scale down and offerings were well enough absorbed to steady prices.

Private cables attributed declines in Liverpool to hedging and Bombay selling.

### STOCK MARKET

New York, March 10.—(AP)—The upward movement of stock prices was resumed today with the rails again in the forefront of the advance. Seasoned dividend-paying rails and industrials offering a return in excess of the open market rate, and current high grade bond yields, were well supported by investment buying, which has been reported as fairly heavy in the last few days, despite the approach of income tax payments.

The closing was firm. Total sales approximated 1,800,000 shares.

### FOREIGN EXCHANGE

New York, March 10.—(AP)—Foreign exchanges mixed. Quotations in cents. Great Britain demand 4.84 1/2-16; cables 4.85 7/32; sixty day bills on banks 4.80 3/4; France demand 3.90 3/4; cables 3.91 1/4; Italy demand 4.44 1/2; cables 4.45; Belgium 13.50; Germany 23.70; Holland 30.18 1/2.

### COTTON

New York, March 10.—(AP)—The cotton market was quiet today with fluctuations comparatively narrow and irregular. An opening decline in response to a lower Liverpool cables was followed by rallies on reports that Southern spot markets were holding steady in most instances, but prices eased off again under continued liquidation, with new crop months relatively easy. May was selling around 14.09 and October 14.39 in the mid-afternoon market or about 1 to 8 points net lower.

Cotton futures closed barely steady, 2 to 13 points lower. Spot quiet, middling 14.23.

### TODAY

(Continued from Page one) all, not that they can be interrupted.

Charles M. Schwab, able business man, leaving Europe, says he is never going back. Also, he is getting old, "Because I am losing the thrill of gambling." That is not a sign of getting old, only a sign of getting wise. The wonder is that as able a man as Schwab should ever have found a thrill in gambling.

Gamblers substitute false excitement for real achievement. Men that are real doers are rarely gamblers, and men that have

no serious occupation are gamblers nearly always. All savages and few philosophers gamble.

Dr. James A. Beebe, president of Alleghany College, says protestants are constantly being told to pray but are not told how to pray. He advises them to use a rosary, and with its aid concentrate thought on "Iyer," "holding the mind to meditation at hand."

The Supreme Court decides unanimously that Texas law forbidding negroes to vote at Democratic primaries is unconstitutional. It is a most important decision, and not to the South only. It may mean federal control over local primaries.

This country last year imported more than \$80,000,000 worth of precious stones, \$5,000,000 of which were made with Tibetan and other eastern peoples out the assistance of the extinct race of bartenders, to each of whom a large diamond was as necessary as a white apron.

**"The New LEONARD Cleanable Models are Now on display here"**

"How could a refrigerator be any finer," you'll say to yourself when you see the new Leonard Cleanable. What a joy to have one in your home! Food chamber & glazing porcelain, so invitingly wholesome and clean; thick-walled pressure to keep milk sweet and pure, fruits firm and dewy cold, meats fresh and flavorful. The refrigerator that pays for itself in the least it saves. Over two million now in use.

The Leonard Cleanable's insulation is porcelain, on inside wood wall, a thick compressed cork board, asphalted sheathing, air space and outside wall of wood or porcelain.

Unexcelled for electric refrigeration. Call and let us demonstrate the Leonard.
