JUDGE SAYS SAPIRO'S DECLARATION IN FORD LIBEL SUIT IS FAULTY

Editor Dearborn Independent Says He Alone, Not Ford Responsible for Attack on Sapiro

Trial Judge

Here is Fred M. Raymond, Federal Judge, on whom rested the responsibility of deciding the delicate points in the trial of the million dollar libel suit brought against Henry Ford by Aaron Sapiro.

Detroit, March 22.—(AP)—The plaintiff's declaration in Aaron Sapiro's million dollar libel suit against Henry Ford was pronounced faulty and in need of several amendments today by Federal Judge Fred M. Raymond, of Grand Rapids, Mich.

"The declaration as it stands is insufficient in many of its allegations," said the judge. "I suggest to counsel that before the case can go to the jury it needs to be amended in several particulars to clarify the issues so that the trial can bring about an equitable result."

The declaration consists of 21 counts including 141 points and makes 569 paragraphs.

The first count was being taken up when Ford's counsel made its allegation of insufficiency.

After Judge Raymond's pronouncement William Henry Gallagher of Sapiro's counsel protested that it was a late day for the defense to bring the matter up.

"Do I understand counsel to intend to say that he thinks the declarations should stand without amendment?" asked the court.

"Oh, no, no, no," replied Gallagher. "It will be amended."

"Of course that is up to the discretion of counsel and certainly not of the court," replied the judge.

He added that amendments could be made at any time but urged that they be made as soon as possible.

The first count contains 20 allegations of libel and it was one of the 20 under discussion.

Sapiro's counsel said they probably would file the amended declaration tomorrow morning.

The paragraph to which the judge took exception and which resulted in his criticism of the declarations reads:

"Cattlemen of the West last year reorganized their association partially on the Sapiro plan with Jewish agents hovering around the new project to get control of it. The Sapiro plan will get 'em if they don't watch out."

W. J. Cameron, editor of the Dearborn Independent, assumed full responsibility for everything published in the weekly and denied it devolved upon the motor car manufacturer.

Sapiro, Chicago attorney, who became widely known for organizing farmers' cooperative agencies, alleged that he was damaged by anti-Jewish articles printed in the Independent.

"You're the editor; be sure your are right," became a formula for Mr. Ford's remarks to him, Cameron testified, when he sought to go into matters of the editorial policy of the publication, of which as president, Mr. Ford was titular head.

Even after the independent received a demand for retraction after it had printed articles naming Sapiro in connection with an "international band of Jews seeking to dominate American agriculture," Cameron said that Mr. Ford's formula still was applied.

"Did he ask how far you had gone?" asked William Henry Gallagher, chief of Sapiro's counsel. "I never discussed details with Mr. Ford," was the reply.

Georgians to Study North Carolina's System Government

Raleigh, N. C., March 22.—(AP)—Governor-elect E. D. Hardman of Georgia, and several members of the Georgia State Legislature today advised Governor McLean they would arrive here tonight to go into a study of North Carolina governmental methods with a view of regaining their own State of the approaching legislative session.

Governor McLean said the Georgians had indicated their intention of making an especially close study of the executive budget system under which State general affairs have been administered for the last two years.

North Carolina is the only State to be visited, the Governor said he had been advised.

He commented that North Carolina had been widely heralded in Georgia as the most progressive Southern State and frequently held up as a model.

North Carolina talk became so common in a recent Georgia assembly that a resolution was proposed to prohibit mentioning the Tar Heel State in legislative halls.

ROTARIANS HEAR FINAL REPORTS OF CONFERENCE

Also Listen to Detailed Account of Track Meeting Here Monday Afternoon

Final arrangements for the handling of the Pitt County track meet at the fair grounds next Monday afternoon, and reports of the district conference recently held in Wilmington, constituted the principal features of the regular meeting of the Rotary Club here last night.

Following the regular evening meal, Judge Rose presented a detailed report of the preliminary track meetings now being held throughout the county and appointed committees to handle the final event here Monday. He said indications pointed to the best meet in years and that large crowds from all parts of the surrounding counties were expected.

Informative talks dealing with the district conference at Wilmington were made by Haywood Dull, club president, and Colin Stokes, member of the Ayden club.

D. L. Turnage made a talk upon the subject "Who and What I Am." It was one of a series of talks being made at each meeting by members of the club in which they review the history of their lives up to the present time.

SUIT FOR ACCOUNT OCCUPIES OPENING SUPERIOR COURT

Curlee Clothing Company Suing Ayden Merchants for Unpaid Account

The first day's session of Pitt County Superior Court which convened in this city yesterday morning with Judge E. H. Cramer, of Southport, presiding, was consumed in the hearing of the suit of Curlee Clothing Company against R. C. Cannon, Ayden merchants. The case more than likely will not be completed until this afternoon.

The suit is for an account of \$2,000 which the Curlee Clothing Company claims the Ayden firm owes them. The defendants claim that the bill of goods shipped them by the plaintiffs did not measure up to expectation. They also contend that some of the goods was returned without being credited; that they offered to return the remainder of the shipment and the firm declined to accept it. It is also contended the shipment was never offered for sale, and that it is still at their store boxed up.

The Curlee Clothing Company contends that the shipment was according to the original order placed with their representative by the Ayden merchants.

TODAY We're Getting Moral. A New Vitamin Food. On the Way to Heaven. Newton's Birthday. (By Arthur Brisbane)

The Vatican, watching all corners of the earth with a million eyes, says the turn has come, and the world is recovering from the jitters of the war immorality. The jazz period, in dances and in morals is passing, in Christendom and pagan lands.

Turkey is suppressing immoral dances. Japan is dealing seriously with the social evil, "all governments" says the Vatican report "are occupying themselves with the task of checking immorality."

That is gratifying, important news, and then more important news that tells of the discovery by British scientists of a new vitamin, 1,000 times more powerful. (Continued on page six)

ONCE FAMOUS WALKER NEAR DEATH IN N. Y.

Modern Cinderella Again Faces Privation

New York, March 22.—(AP)—Midnight having struck in the Cinderella life of "Peaches," the 16-year-old bride of Edward W. Browning, today was separated from the riches and splendor to which she had become accustomed.

No longer must her wealthy husband pay her \$300 a week allowance. In fact he need not pay her a cent.

The Cinderella of fiction retired to her chimney corner. Peaches went to bed where she sobbed her disappointment over losing her separation suit against the 52-year-old wealthy real estate operator. He won his suit for separation.

Automatically deprived by the decision of the \$300 a week allowance she had been receiving since November, Peaches and her mother, Mrs. Catherine Heenan, are without funds to pay for an appeal. Mrs. Browning's only claim to continued support is to return to her husband should he desire to take her back.

The decision found Browning strangely reticent. "I haven't word to say—not a word," was his only comment when informed of the decision of Supreme Court Justice Soeger handed down yesterday at Carmel, N. Y.

Peaches received the news on returning home from a shopping tour with her mother.

Four Die Aboard Army Transport

San Francisco, March 22.—(AP)—The United States Army transport Chateau Thierry, 700 miles from San Francisco, raced toward this port at maximum speed today while ship doctors fought to stave off an attack of influenza which so far has seized 58 of the 900 or more persons aboard.

Four have died aboard since the transport left New York for her Pacific Coast destination. The Chateau Thierry is carrying recruits drawn from all parts of the country. Several officers and their families also are on board.

The wireless message from the transport did not say that the four deaths were caused by influenza but such was assumed to be the case.

Because of the emergency situation the Chateau Thierry will be warped into her pier without being stopped for quarantine.

Washington, March 22.—(AP)—Names of four privates who have died aboard the Army transport Chateau Thierry, enroute to San Francisco, in an influenza epidemic affecting 58 persons, were announced today by the War Department. They include: Graver L. Daniel, private, infantry, Rocky Mount, N. C., died March 16 of intestinal indigestion.

CONTRACTS FOR NEW MARKETING AGREEMENT PROGRESSING NICELY

Raleigh, N. C., March 22.—(AP)—Contracts for the new marketing agreement "are progressing in a very satisfactory way," Manager T. B. Rinkoff of the State Cotton Growers Association said today.

"About 20,000 bales are represented in contracts signed by members during the past six weeks," Mr. Rinkoff said. "More interest is being manifested by members in the planting of better staple cotton than ever in the history of the cotton. Numerous inquiries are coming in from members asking where to get improved seed."

SMUGGLING PACT WITH MEXICO TO END MARCH 28TH

United States Makes Announcement Following Treaty Negotiations

Washington, March 22.—(AP)—An intimation that the United States had been unsuccessful in efforts to negotiate a commercial treaty with Mexico was continued today in a State Department announcement that the smuggling convention between the two nations would be terminated on March 28.

The department, in whose hands has rested the long standing and delicate situation involving American property rights in Mexico, issued a formal statement explaining that notice of termination of the treaty has been served on the Mexican government last night by the American Embassy at Mexico City.

In the absence of a commercial treaty or other arrangements with Mexico to "safeguard American commerce against possible discrimination," the statement said, "the American government did not deem it advisable to continue the smuggling convention which might in certain contingencies bind the United States to cooperation for enforcement of laws or decrees relating to the importation of commodities of all sorts into another country."

The smuggling convention has a direct bearing on the American embargo on arms shipments into Mexico. Under the convention even if the embargo were lifted, the United States would be required to notify Mexico of impending shipments from the United States of arms or any other commodities prescribed from importation under Mexican law.

Whether the recent secret correspondence with Mexico involved a renewed American effort to negotiate a commercial treaty with that country to protect American-owned property, has not been disclosed.

PRESBYTERIANS LAY FIRST BRICK ON NEW CHURCH

After Which Construction Work Actually Gets Under Way on \$40,000 Structure

The laying of the first brick in connection with the construction of the new Presbyterian Church, corner of Pitt and Fifth streets, occurred yesterday afternoon with appropriate exercises. Members of the congregation and many friends gathered at the site of the new structure and heard Dr. J. N. H. Sumrell, pastor of the Presbyterian Church at New Bern, tell an interesting story of the early history of the Greenville congregation.

The services opened with the singing of a song by the entire assembly and prayer by Dr. Sumrell. Dr. W. S. Harden, pastor of the local church, told of the new building, giving several facts regarding its size and general arrangement. He said the building would have three floors and that there would be eighteen classrooms. The Sunday school will be arranged for departmental work purposes. The seating capacity of the auditorium will be five hundred, while the Sunday school plant will accommodate a similar number.

Dr. Sumrell said he organized the church 35 years ago with seven members. He said he also took an active part in the erection of the old church building, and served it for some time following completion.

He laid the first brick for the new structure, being followed by Dr. A. J. Crane, superintendent of Home Mission work of Albemarle Presbyterian. The third brick was laid by Mr. Harden, the present pastor of the local church, and was followed by members of the church and friends. Some laid as many as four bricks in memory of former members who had died. The exercises were concluded with a prayer by Dr. Crane.

The active building committee is composed of J. S. Ficklen, G. V. Smith and N. O. Warren. The new edifice will cost \$40,000 and is to be completed within a period of four months. It will be one of the most handsome structures in the city.

New Cement Plant to Locate in Eastern North Carolina

Raleigh, N. C., March 22.—(AP)—New Bern place was selected as the site for a mammoth cement manufacturing plant financed by Mid-Western capital.

J. A. Acker, Port Huron, Mich., told The Associated Press how that definite details of the enterprise would be announced later.

Mr. Acker, in company with other foreign capitalists, has been in the State for several days investigating possibilities for locating such a plant in Eastern North Carolina.

New Bern was selected for adjacent deposits of limestone, and for transportation facilities. The investors have expressed their interest as greatly pleased with the prospects in Craven County.

Tentative plans call for the erection of a plant to cost about \$1,000,000 with a capacity of a million and a quarter barrels of cement annually.

The recent representation conferred with Governor McLean yesterday about North Carolina's attitude toward foreign capital. They also called to see Herman Bryson, State geologist, but Mr. Bryson was by Birmingham attending the Southern mining conference.

Locations were considered near Rocky Mount, Tarboro and Wilson, where there are also limestone deposits in commercial quantities.

To Give Decision on Western Union Petition Soon

Raleigh, N. C., March 22.—(AP)—The Corporation Commission's decision on the petition of the Western Union Telegraph Company to increase its toll rates within the State will be handed down in the next few days. W. T. Lee, chairman of the body, announced.

Mr. Lee said that unless attorneys for the State ask for a reopening of the hearing so that they may present additional argument, the report will be ready soon.

The petition asks that the company be allowed to put into operation a graduated system of rates on 10-word "fast telegrams." The present rate is 20 cents in the State but the company is asking right to make its maximum rate 45 cents.

COLLIDGE WILL NOT GO SOUTH

Washington, March 22.—(AP)—Prospects for President Coolidge going South for a brief rest this spring were virtually killed today at the White House. It was said the President doubts very much if he can get away to accept any of the invitations.

STRONG SERMONS FEATURE REVIVAL

Mr. Stanford to Speak on Second Coming of Christ Tomorrow Morning

From the text, "Almost persuaded thou me to be a Christian," Rev. A. L. Stanford preached to a good audience on last night. The minister defined what a Christian really was, as that individual who had been convicted of sin by the Holy Spirit—who repented of his sin, made restitution as far as he could and steps out on God's promises. He declared that we can't afford to be in doubt as to the relation we sustain to Jesus Christ. King Agrippa was not a Christian because he was not willing to meet the conditions as laid down by the Apostle Paul.

This morning, Mr. Stanford preached from the 23rd Psalm. You are invited to bring your friends and come to these services. Each morning at 10 o'clock, each evening at 7:30, until announced differently.

Tomorrow afternoon at 4:00 o'clock there will be a young people's meeting in the main auditorium of the church. All the girls and boys want to bear this meeting in mind and be there.

CHARGED WITH BURNING SCHOOL HOUSE OVER SIX YEARS AGO

Raleigh, N. C., March 22.—(AP)—Charged with setting fire six years ago to the Sears school house in New Light township, Wake County, Bud Ray and Owen Wolkoff, of that section, were at liberty under bond today, pending outcome of a hearing set for Saturday.

The school was burned during the term of the late Soldier Herbert E. Norris, who collected much data on the case.

Ray was also under bond to answer charges of assault with intent to kill.

Slayers of Art Editor Plead Not Guilty Today

New York, March 22.—(AP)—Mrs. Ruth Snyder and Henry Judd Gray, who signed confessions that they had murdered Mrs. Snyder's editor husband, Albert Snyder, in a love and insurance plot, pleaded not guilty in Jamaica magistrates' court today and were held without bail for the Grand Jury. They repudiated their confessions.

New York, March 22.—(AP)—Having confessed to killing a husband by clubbing and strangling, a drifter salesman and a young widow were being held today for murder. An elaborate alibi carefully arranged had collapsed.

The love of Mrs. Snyder, 32, and Henry Judd Gray, was disclosed as the motive for the killing of the woman's husband, Albert Snyder, 45, magazine art editor, who was clubbed, choked and strangled in his modest home in Queens Village early Sunday. Gray was arrested in Syracuse yesterday.

Gray, married and the father of a 10-year-old daughter, told the authorities, they said, that he agreed to the murder plot when Mrs. Snyder threatened to reveal their relations to Mrs. Gray, unless he helped dispose of the art editor whose insurance had been recently increased from \$10,000 to \$25,000.

SHANGHAI IS TODAY DESCRIBED AS CITY OF NUMEROUS HORRORS

GUARDSMEN IN FINAL ROAST OF OYSTER SEASON

Local Military Unit Hosts to Numbers of Visitors at Armory Last Night

The final oyster roast of the season was given by members of the local unit of North Carolina National Guardsmen last night at the armory over the Dail building on Fifth street. The affair was probably one of the most enjoyable of the season. The artillerymen had numbers of guests, and did everything to make the evening pass off pleasantly and profitably for everyone.

Preceding the oyster "slaying" the guardsmen were lined up in regular formation. The guests looked on interestedly, many of them recalling the exciting days of eight years ago when such scenes were ordinary occurrences.

The armory had plenty of tables and what is more important—plenty of oysters. Old men and young men vied with one another to see which could eat the most and get by with it. Frank Herz, of Boston, did the honors for the visitors and it is more than probable that Raymond Elmore or Arthur Corey carried off honors for themselves. They didn't eat ravenously either. Frank Herzminden seemed to take more than usual time, but the way the oysters disappeared in front of him and in front of those eating next to him was appalling. The reason he didn't eat more, he confided to friends after it was all over, was because he didn't have any room left.

Captain Jones, who is chief of police in Greenville in civil life, says he has one of the best training schools in the state. While the majority of members are young, they were able to compete with experienced and seasoned soldiers at the annual encampment last summer. Captain Jones is of the opinion they will be able to make even a better showing at encampment this year. They are going through regular training with that end in view, anyway.

Sniping, fires and looting continue in the Chapel quarter where mobs composed partly of Shantungese soldiers, partly of ordinary criminals and partly of Nationalist gunmen, hold sway.

The streets are strewn with dead. In numerous cases the robbers have cut off women's fingers to obtain their rings.

The looters are having trouble getting away with their booty for as they leave the city, they are met with swarms of entering looters and bloody fights occur.

Numerous innocent people were reported to have been killed.

The scenes are as horrible as describable. Blocked thoroughfares prevent the escape of the victims from the robbers.

Nothing is to be heard but shots and the screams of women and children, running hysterically to and fro. Many of the women, afraid to remain in the houses, are coming the streets unhealed, having been stripped of their clothing by the soldiers in their wild hunt for loot.

Sometimes loot-laden soldiers are protected by comrades with machine guns, who think nothing of clearing the way down a crowded street by opening fire and killing scores of people.

Two Killed in Illinois Wreck

Villa Grove, Ill., March 22.—(AP)—E. M. Robinson, Salem engineer; Ed Bruce Brown and C. A. Farlow, head brakeman, both of Villa Grove, were instantly killed when a train of a C. & N. Y. freight train they were on ran into a passenger train.

International Settlement is Veritable Isle of Safety Surrounded by Sea of Terrors

(By The Associated Press) Shanghai's international settlement, harboring thousands of foreigners and protected by a steel ring of armed forces today was a veritable isle of safety, surrounded by the angry waves of Chinese fighting, rapine, looting and incendiarism.

With the native sections of the city utterly given over to rioting, plundering and bloodshed in which both the victorious Cantonese and the defeated Shantungese took part, the foreign defenders anxiously paced the barbed wire boundaries and repelled all attempts at invasion.

Cut off by the Cantonese army, those remnants of the Shantungese forces not engaged in looting strove to pierce the barriers and gain the protection of the foreign fighting men against their enemies.

Hundreds of them were admitted after surrendering their rifles, but others, throwing themselves in apparent frenzy upon the foreign defenders, were repulsed by force of arms.

In one clash a few were successful in breaking through, but were quickly ejected. Another charge broke when the British opened fire, killing at least twelve and wounding about a score.

An armored train, manned by white Russians, allied with the Shantungese, moved up and down the railway to the north, its artillery being used to bombard the city.

One shell struck the premises of the Presbyterian mission in the international settlement, causing much damage but, luckily, injuring no one.

It is understood that the Japanese disarmed and admitted several hundred more.

Dark Horse of American League May Wear Tiger Stripes

(By Brian Bell)
San Antonio, Texas, March 22.—(AP)—The dark horse of the American League may wear a tiger's stripes. Detroit players are exhibiting what boxing followers call a "sock" which has nothing to do with a covering for the foot. Straight down the batting order the Tigers can hit and it seems possible that a change in strategy may result in the maximum offensive being mustered.

An impression is created in the training camp of the Jugernauts that the players will be held responsible for individual initiative. It was no secret that under Ty Cobb, the manager did the thinking for the club. It was said that the great Georgian was frequently ahead of the rest of the team.

George Moriarty, called the managerial responsibility after ten years as an umpire, has let the players know that he expects them to win baseball games and would just as soon have them win them their way as his.

The Tigers also will be able to hunt if the need arises. Much time is devoted to hunting practice. Moriarty reasoning that a well placed hunt will win a close game and is good strategy to mix with the powerful straight-away attack of his sluggers.

The new manager was a remarkably successful base runner when he was an active player and he thinks that this department of play has been neglected in recent years. He will restore it in a measure. The hit and run long a feature of the Detroit player, seems to have been placed in the scrap with the old balls.

In the Detroit outfield will be found three of the main cogs in the offensive. Moriarty expects to make his team a serious factor in the race. Manush, current batting leader of the league, Hellmann, who held the title three times, and Fothergill, who was a menacing candidate for the same honor. "Red" Wingo is returned from last year's cast as an extra outfielder and has been joined on the bench by Arthur Rube, a competent batsman from the Southern Association.

The addition of Marty McManus, late of the Browns, has added power to the infield. McManus will play second base and bat second in the line up from the outset. Jackie Tavener, diminutive shortstop, has been moved to the top of the batting order, where he will be able to use his size to make it hard for opposing pitchers. He also bats left handed, an asset under ordinary conditions for a lead-off man. Warner will be back at third base and Lucerne Blue will take care of first with a promotion to field captain to speed him up.

An extra infield is available in Neun at first. Gehrig, second or third, and two recruits, Bernard Deiveros and George Redfern was promoted from the Texas League and Redfern was promoted from the Southern Association. One of the infielders will probably pass out of the picture when cutting is in order.

Early season injuries have upset the catching staff to some extent, but there seems a chance that a recruit may crash his way into the select circle of receiver. The Tigers have three veteran catchers, Bassler, Woodall, and Manion and if Marvin Shea makes a place for himself one of the older men will have to go. Shea was going at a rapid clip when he hurt a toe.

Cutting the top of his shoe off to give the injured toe more room added to his hurts, a foul striking fairly on the already disabled member. Manion was also hurt in spring training and incapacitated.

There was a belief in the camp that the fight for the catching place was all square between the two hospital cases.

Manager Moriarty believes the 1927 edition of the catching staff is an improvement over that of 1926. He thinks some of the pitchers of last year will show decided development.

George Duas has been lost to the club through sickness but Jess Doyle had returned from the International League to shoulder the relief burden. Whitehill has been showing good left handed form supported ably by Wells and Johns. Gibson, Collins, Stoner.

Whiteman is centerfield himself, while other players reporting for the initial workouts are: Pitchers, Smith, Hammock, J. T. Wilson, Fitzgibbons, J. S. Wilson, Harrington, Parker, Nox and Cosby. Catchers: Forrest Banderro Tillman and Edwards. Infielders: Zinker, third; Clark and Haynes, short; McCueston and Johnson, second; Windle, first; Outfield: Bolick, Baucom, former Wake Forest star, Harris, Johnson and probably others.

The team has been gathered from all parts of the country, many of the lads coming from Texas and far western cities.

Workmen are busy cleaning up the park, grading the field and otherwise getting the place in readiness for the opening of the season. Handsome new uniforms have been purchased along with plenty of other equipment, and

the club is in readiness to be molded into a formidable aggregation.

RAIN HALTS PRACTICE OF BOSTON RED SOX
Boston, March 22.—(AP)—Bill Carrigan's hard working Red Sox almost had an off-day when the first rain in three weeks put an end to sunshine and diamond practice at New Orleans.

CONNIE MACK'S BOYS FIND BATTING EYES
Philadelphia, March 22.—(AP)—Connie Mack's Athletics have found their batting eyes. Yesterday they gathered a total of 12 safeties, including three doubles and a home run off the Boston Braves.

The Phillies also are showing improvement in batting. Against Columbus, of the American Association, yesterday, the second string squad had made eleven hits.

BABE RUTH LIVING UP TO REPUTATION

This modern age knows that Camel goodness is dependable

THIS modern age is the hardest to please ever known, and it delights in Camel. The smokers of today find tobacco enjoyment in Camels, for their goodness always is so dependable. The choicest tobaccos, and the most superb blending known to the smoking art are Camels.

In Camel you will find out what modern smokers demand—a smoothness, mildness and mellowness that you've never known before. That's why Camels never fail to meet the strict, exacting demands of present-day smokers. This modern age knows the sure call to smoke enjoyment: "Have a Camel!"

Tension Relaxes in Controversy With Jugoslavia

Paris, March 22.—(AP)—The tension arising out of the Italo-Yugoslav-Albanian controversy, had relaxed today. This was attributed to the prompt steps taken by the Paris, Berlin and London governments.

After a brisk exchange of views yesterday between the various capitals, there was further negotiation today.

For the first part the diplomatic efforts are understood to be directed toward satisfying Italy without having to invoke the good offices of the League of Nations' council. Italy declined to accept the authority of the council in the dispute with Greece over the Island of Corfu. But the urgent summoning of the council still remains a possibility and the powers interested will not hesitate to do this should the situation show further signs of becoming aggravated.

SIXTH ANNUAL SCHOOL TRACK MEET MONDAY

Preliminaries Under Way Throughout the County; Prizes to be Given by Merchants

The sixth annual public school track meet, sponsored for as many years by the Greenville Rotary Club, will be held next Monday afternoon at the Pitt County Fair Grounds, Greenville, beginning at two o'clock. The number of events has been reduced and the meet will be finished by four o'clock. The number of events this year is 22. Preliminaries have been held throughout the county in five different places, namely, Ayden, Bethel, Grimesland, Farmville and Greenville. Never before in the history of the track meet has such interest been shown as was shown this year. At some of the preliminaries there were more than a thousand people present. On Monday afternoon there will be more than five thousand at the final meet.

Prizes will be given by the Greenville merchants to the winners of all first places. The list of prizes and the donors will be published in this paper tomorrow. The most amusing the greatest number of points will not be awarded a silver loving cup this year as has been the custom in the past, but rather will be given a thirty dollar collection of books. The school can choose the books it wants and the Rotary Club will then award them.

Competition will be keen this year. Certain of the schools have a very equal number of entries in the final meet. The number of first places which each school has won is shown as follows: Bethel 14; Stokes 3; Belvoir 5; Farmville 12 and tied two more; Falkland 8 and tied two more; Ayden 19; Winterville 6; Clay Root 1; Reunion 1; Griffin 3; Grimesland 12; Simpson 8; Black Jack 2; Ballard's 1; Paeletous 6 and tied 1; Greenville 14 and tied 1. However the Greenville entries are split up as follows: High School 5; Intermediate School 7; Model 1; West Greenville 1; Evans Street 1.

At the meeting of the Rotary Club last night various committees were appointed to make Monday a big day. Also the police of the city have agreed to help keep back the crowds so that the meet can be run off without interference. The chief starter will be W. H. Adgers, chief of judges Mr. Arch Flanagan of Farmville, a former captain of the Wake Forest track team. The secretary of the meet, who is also the chief scorer is Mr. Judson H. Blount. The assistants will be announced later.

ness men of Greenville to get together and put Greenville on the map. The opportunities are knocking. We are letting them knock and pass on. A live Chamber of Commerce is the door thru which these opportunities would enter our community. Let's have one now.

NOT THE CURE

Pointing out the move on the part of women of the state to substitute cotton wearing apparel for silk in an effort to bring about a desired increase in the price of cotton, the Raleigh Times declaring that the "sacrifice of silk for muslin is no panacea for sick cotton," says: "Under the lead of the Fayetteville High School, which has pledged itself to hold a 'cotton commencement,' Mrs. E. H. Williamson, head of the Back to Cotton Committee of the N. C. Federation of Women's Clubs, expects to have every high school girl in Cumberland county outfitted in muslins or other familiar mill products when the Spring term ends.

"This and other similar adventures by groups of women are in all respects worthy and of value, so long as nobody persuades himself that they can directly or indirectly, now or hereafter,

hope appreciably to influence the price of cotton or to give a stimulus to a convalescent textile industry.

"Cotton is distinctly a world crop, important as the South is as one of its major producing areas. Its price is fixed by world supply and demand, which reflect production in many countries and consumption for manufacture on a large scale in England, France, Germany, Italy and every other industrial nation. If one judges by the super-abundant display of silk-clad legs, by the absence of petticoats, and by the paucity of frocks, one might think that cotton was going out of style. All these things are nevertheless the barest incident to the demand for the staple itself and to its infinite variety of uses in the arts and industries. All the outer and under silk things might be discarded tomorrow in favor of old-fashioned cotton goods and the difference in price would not be noticeable.

We imagine—though by no means certain of even this much—that cotton for commencements would tend to produce something definite in the way of economy. Emphasis on the home staple as proper wear has its value as fixing a vagrant attention of the people generally on the situation confronting both the growers and the manufacturers of a basic crop. But beyond that aid of the cotton problem wearing of cotton does not go. In fact, much of the so-called silk which is sought to condemn is really cotton in processed form.

As to cotton growing, whatever relief may be had depends on growing less, and on making smaller acreage produce more and better cotton per unit of production. Such a reaction to disaster would carry the double cure of lowering the cost of growing cotton and growing cotton of a grade to bring a higher price. As to the textile industry, its problem is admittedly one of supplying a shifting market with the fine goods it demands and ceasing to overstock it with the low grade goods with which it is surfeited. The answer to all these sentimental recurrences to cotton is that cotton itself is being bought and consumed by the world in steadily increasing quantities."

Tarahumaras, World's Greatest Runners, to Compete in Texas

Men Think Little of 600 Mile Run to Town and Return

FROM a land where running is the national sport and the only recreation, men and women are coming to the United States to show us a little about foot races.

Members of the far-famed Tarahumara race of Indians of Mexico—the world's greatest endurance racers—will be permitted to race from San Antonio to Austin, Tex., on March 25, under a special ruling of the Department of Labor. The 22-mile race is to end at the University of Texas Stadium, and is to mark the opening of the annual relay contests there.

The world probably never has known an entire race in which endurance is so inbred as the Tarahumaras, natives of the Sierra Madre foothills.

Foot races are held the year round. Fortunes are won and lost on the results. Racing is done in teams. Each team carries a ball, about two and a half inches in diameter, carved from the root of the oak. The leader of a team throws the ball as far as he can and the team sets out. The first man to the ball tosses it with his foot as far as he can. Throughout the race the ball may be touched only with the foot, unless it is lodged in a crevice or falls on water, when the hands may be used.

Women have separate races. They use the same kind of a ball, but instead of with their feet, they bowl it along with a forked branch of a tree.

No man is ever beaten in a race. If he loses, it is because he was bewitched. At least so he and his tribesmen believe.

Races are preceded by strange ceremonies, designed to speed the runners on their way. Strange rites are undergone and charms applied to insure success.

Here is Miss Juanita Paciencia, a Tarahumara, who ran more than twenty-five miles in less than five hours.

One of the most potent lures for success is the smoking of a cigar especially prepared for the occasion. Drops of blood from a turtle or a bat are sprinkled on the leaves of tobacco before it is rolled.

Woman of Tribe Covers 25 Miles in Four Hours, Fifty-six Minutes

The races vary in length, from short distances up to twenty-five miles. So great are the powers of endurance of these Indians that they appear fresh at the end of the longest contests under the hottest suns. Even the poorest runners of the tribe think nothing of making forty miles in from four to six hours.

Almost unbelievable tales are told of their abilities. Karl Lumholtz, in his "Unknown Mexico," said that men could be hired to run messages from their native hills to Chihuahua, 300 miles away. They would make the round trip in five days. One runner was known to have kept on from midday to sunrise the next day without stopping.

Men use the Indians to round up strayed horses. The method is simple. The Tarahumara merely follow the animal, making no effort to capture it until it is exhausted by the pursuit. And though the horse be unable to take another step, the Indian appears fresh at the end of such a chase. The same method is said to be used in capturing deer.

On long expeditions the Indians carry a gourd of water and a small cake of pressed meal. Their costumes are brief, almost to the point of embarrassment to the Caucasian.

Picked teams only will appear in the Texas races. Elimination meets were recently held in Mexico City. In one heat Juanita Paciencia ran forty-five kilometers, a little over twenty-five miles, in four hours and fifty-six minutes. This compares favorably with the men's straightaway long-distance record, established by S. C. A. Schofield, of England, who made twenty-five miles in three hours, thirty-seven minutes, six and eight-tenths seconds. Juanita, of course, has not a man's build, nor was Schofield bothered with a ball of oak.

Market Report Cotton--Stocks--Grain

COTTON OPENING

New York, March 22—(AP)—Cotton futures opened steady today. March 14.02; May 14.12; July 14.31; October 14.50; December 14.67.

The cotton market opened steady today at a decline of 7 to 9 points under renewed liquidation by buyers of yesterday and southern or local selling probably encouraged by prospects for better weather in the south and relatively easy Liverpool cables.

Some trade buying and covering on the opening decline was supplied on bulges of 2 or 3 points, and the market was about 7 to 10 points net lower at the end of the first hour. May selling around 14.14 and October 14.47.

STOCK OPENING

New York, March 22—(AP)—Renewed buying of high priced railroad shares features the irregular opening of today's stock market. Pittsburgh and West Virginia opened two points higher and Lackawanna and Union Pacific made substantial fractional gains. Motors were inclined to heaviness.

LIVERPOOL COTTON

Liverpool, March 22—(AP)—Prices steady; American strict good middling 8.68; good middling 8.33; strict middling 7.98; middling 7.73; strict low middling 7.23; low middling 6.78; strict good ordinary 6.48; good ordinary 6.03; sales 7,000 bales, including 5,800 American. Futures closed steady: March 7.38; May 7.51; July 7.65; October 7.74; and December 7.79; January 7.82.

POTATOES

Chicago, March 22—(AP)—Potatoes receipts 70 cars; on track 255; total U. S. shipments 611; demand and trading slow; market steady; Wisconsin sacked round whites 1.85 to 2.00, mostly 1.90 to 1.95; Idaho sacked russets 2.70 to 2.95, mostly 2.80 to 2.90.

NEW YORK DAIRY

New York, March 22—(AP)—Butter strong; receipts 11,506. Creamery extras (92 score) 49; creamery, firsts (88 to 91 score) 48 to 48 3/4; eggs firm; receipts 91,307. Fresh gathered extra firsts 31. Cheese steady; receipts 14,553.

GOVERNMENT BONDS

New York, March 22—(AP)—U. S. Government bonds closed:

STOCK MARKET

New York, March 22—(AP)—Pronounced reactionary price tendencies again developed in today's stock market. A few venturesome pools attempted, at intervals, to rally the general list by bidding up their favorites but the pressure of offerings became so large that bullish operations were either restricted or abandoned altogether.

Calling of about \$30,000,000 in bank loans, due to the return of income tax checks, for payment, sent the cash money rate from 4 to 4 1/2 per cent, the first return in several weeks.

The closing was weak. Total sales approximated 1,900,000 shares.

Wise Farmers Will Demand High Grade Tobacco Fertilizers

Winterville, N. C., January 14, 1927
I used 17 tons of your Tobacco Special 8-3-3 last season at the rate of 900 to 1,000 pounds per acre. I got 1,000 to 1,200 pounds per acre of tobacco, which sold from \$400 to \$450 per acre. I also used some of this same fertilizer under my cotton and made a fine crop.

Paris, March 22.—(AP)—Baptiste Baland is the oldest waiter in the restaurants of Paris. He was born at Montbréhan (Aisne) seventy-nine years ago and has been waiting on hungry people sixty-four of them.

The people will find their own way," S. Dante said. Give HEALTH and they will have energy to work well.

Morals change, and return to normal, with time. Health and knowledge are what count.

With the approach of warm weather Paris' shopless shopkeepers are coming out in great numbers. These are the numerous dealers who don't pay rent, for they do their business in the entrances to cinemas and theatres, where a street is closed for repairs or just anywhere that clients happen to come along.

The most beautiful tree in France is said to be at Montigny-Lencoup, Seine et Marne. It measures forty feet in circumference and is about one hundred and six feet high.

Paris prisons are not empty. Recent statistics given out by the Municipal Bulletin show that there are a good number of pensionnaires, foreign as well as French, in all the jails of the Seine Department.

There are 1,030 Frenchmen and 262 foreigners, with 102 French women and two foreign men.

In the Haute counts 973 Frenchmen and one third as many foreigners.

In the Contergerie, which has had many celebrated boarders, numbers 29 French and seven foreigners.

In the Petite Roquette, which houses the younger culprits, has 412 French and 49 foreigners.

A lion at the zoo took the place of the proverbial bull in a circus, the other day when the circus came to Bourges. Everybody was there but Monsieur Coiteau who was ill abed, in the room above Madame Coiteau's grocery.

BIBLE TRAINING SCHOOL BEGINS

Numbers Enrolled at Opening Session at Christ Church Last Night

The Leadership Training School for Sunday school workers at the Eighth Street Church of Christ, began last night with almost 50 in attendance.

Rev. R. J. Bamber, pastor of the church, and Rev. E. B. Quick of Atlanta, Ga., superintendent of Religious Education and Dean of the school, while highly pleased with the attendance last night, urged all to invite friends to take advantage of the splendid lectures and helpful conferences.

Four courses are being offered in the school. Rev. M. E. Sadler of Richmond, Va., Superintendent of Religious Education in the Chesapeake area, is teaching the course on "The Educational Task of the Local Church."

One of the outstanding features of the school is the inspirational lecture each evening between the class sessions. These lectures take place at 8 o'clock. All Sunday school and church workers of the area are invited to hear these discourses covering all phases of religious education.

The opening lecture last night was given by Mr. Sadler. The speaker answered the question, "When is a Sunday School a Real School?" as follows:

First, when it is departmentalized. When it has a graded organization with graded instruction adapted to each age group. Second, when it is pupil centered. "The need of the pupil is the law of the school."

The lecture tonight at 8 o'clock will be given by Mrs. McArdle on "The Vacation Church School."

THREE EASTERN BANKS TO BE LIQUIDATED

Raleigh, N. C., March 22.—(AP)—Three Eastern North Carolina banks, which failed recently, will be liquidated by the Banking Department of the State Corporation Commission under the Royal Banking Act, enacted by the last legislature.

The banks are located at Washington, Belhaven and Creswell. Given power to appoint receivers for banks where no permanent receiver has been appointed by court order, the commission has put the new law into use by naming receivers for the three banks.

The Royal Act will expedite winding up of affairs of the defunct banks, officials believe. The three banks are the Savings & Trust Company, Washington, the Bank of Belhaven, Belhaven, and the Peoples Bank, Creswell. Banking Department officials said today.

MASLIN DEFENDANT IN SNIPES' SUIT

People Are Learning the Value of Occasional Use.

EVERYONE knows that a laxative stimulates the bowels. A diuretic performs a similar function to the kidneys. Under the strain of our modern life, our organs are apt to become sluggish and require assistance. More and more people are learning to use Doan's Pills, occasionally, to insure good elimination which is so essential to good health.

signed an order making Thomas Maslin, president of the defunct Merchants Bank and Trust Company, defendant in the suit of the estate of the late W. F. Snipes.

This action was in connection with the charges contained in the answer made by the Wachovia Bank and Trust Company, receiver, that Maslin had embezzled or fraudulently misappropriated \$35,171.84 of the Snipes' trust fund.

Under and by virtue of power of sale contained in that certain deed of trust executed on the 15th day of July 1925, by Edwin E. Rawl and wife, Josephine L. Rawl, and Lula Little to E. D. Schumacher and E. R. Chesterman, Jr., Trustees, recorded in book D-16, page 51 of Pitt County registry; the said trust deed containing full power of sale in case of default, and the indebtedness secured thereby having been declared due and payable on account of default in payments and default in complying with the terms of said conveyance, the undersigned trustee will on Thursday, April 21, 1927, at 12 o'clock noon, before the court house door in Greenville, N. C., sell at public sale to the highest bidder for cash the following described lot and tract of land, with all improvements thereon, and described as follows:

All of that certain piece, parcel or lot of land together with all the improvements and appurtenances thereto attached lying, being and situated in the town of Greenville, Pitt county, North Carolina, and more particularly described as follows: Beginning at a point on the east side of Pitt street which point is distant in a northerly direction 90.5 feet from the point of intersection of said line of Pitt street with the north line of Fourth street, thence along the line of Pitt street, north 17-30 E. 56.5 feet to a point; thence S. 72-30 E. 132.5 feet to a point; thence S. 17-30 W. 56.5 feet to a point; thence N. 72-30 W. 132.5 feet to the point of beginning, the said premises being known as the property of Mrs. E. E. Rawls, according to survey made by Henry L. Rivers, Engineer, under date of July 1925, and being the same premises acquired by the said Josephine L. Rawl under the name of Josephine Phillips by descent from her father, J. B. Little, and by deed from R. S. Atkinson et al dated June 22, 1923 and recorded in book S-14, page 150 of the office of register of deeds of Pitt county.

Langsville, Ohio.—"For years and years I suffered with severe headache," says Mrs. Jane Campbell, of this place. "It wasn't any pleasure for me to go places, for I came home with sick headache. If I went to church or to any social gathering or to town to shop, when I got back I would have these headaches and have to go to bed for a day or more, till I would just get out of heart and would not try to go."

"About 15 years ago I discovered that Black-Draught was good for these headaches. I began using it. I would take it two or three nights in succession if I felt the least bad, and it sure did wonders for me. It is about 14 years since I had sick headaches, and I can go places and really enjoy life. It surely is splendid."

Headache often is a symptom of constipation. The best relief is secured by treating the cause of the trouble and in such a case many people have been greatly helped by the use of Theford's Black-Draught.
