## WATCH YOUR DOG

Other cities about us have been experiencing the mad dog menace and now comes the report that several persons in this city have been bitten by dogs. There is already an ordinance here that prevents dogs from running at large in the city, but this is not enough precaution to take with rabies so prevalent all about us. Persons who have dogs would do well to have them examined and innoculated. The dog that has not been treated with the preventative is indeed unsafe and under no circumstances should the children be permitted to play with the dog that has not been treated.

STONE MOUNTAIN Stone Mountain Confederate Memorial, daily growing into shape and figure, depicting the likenesses of Davis, Lee and Jackson, stands not in glorification of any one man or woman, nor any one sculptor, politician or special group of people.

It stands, even in its incompleteness, as an honor

bestowed upon the armies of the South, who served in the years 1861-65 and to us of the South in the year 1927, who are making possible the building and finishing of the world's greatest monument.

Furthermore, at this time it stands as an everlasting memorial to some 40,000 liv ing veterans of the armies of the. Confederacy, who now within the next few days, in thinning ranks, will pass in review, along the streets of Tampa, Florida.

Those who are directing the affairs of Stone Mountain, during the past two weeks, have been the recipients of messages of approval from all southern patriotic and civic organizations, because of a special movement that has been set on foot to signally honor these

We won't dispute the fact that wealth alone does not make happiness. Nor will we say that poverty kills happiness.
