CHINESE SITUATION IS GROWING WORSE

WORLD'S RICHEST MAN MUST HAVE PROLONGED REST

Henry Ford Removed to Carefully Guarded Portals of His Great Estate at Dearborn

Detroit, April 1.—(AP)—Behind the carefully guarded portals of his great estate of Dearborn, Henry Ford, reputed the world's richest man, flat on his back in bed today began a long period of absolute rest which his doctors said would fully restore his health.

Chafing at the restraint of treatment in his own hospital, Mr. Ford was returned to his home last night, a ten mile ambulance ride.

Splintered back and chest, to minimize the suffering from injuries received when the little coupe he was driving was side-swiped by a larger motor car last Sunday night, the manufacturer could be comfortable in no position except prostrate.

The same secrecy that surrounded Mr. Ford's admittance to the hospital last Tuesday, 48 hours after the accident, attended the return to his estate near where his small coupe was forced from the road by a heavier machine.

While officers of the Ford organization were reported to be preparing an official statement, they declined at first to confirm or deny that the injured motor king had left the hospital.

PREDICTS ANOTHER BIG COTTON CROP

Blalock Says No Reduction in Acreage This State Yet in Sight

Raleigh, N. C., April 1.—(AP)—Material decrease in cotton planting in North Carolina this year is not in sight, U. B. Blalock, general manager of the Cotton Growers Cooperative Association said today.

The official gave as reason for his statement, cheaper fertilizer; over-production of tobacco, and present low prices of other farm products. War induced fertilizer dealers caused cheaper prices, Mr. Blalock said, joining out that farmers are buying more of it than had been expected.

With the planting season almost here, prospects for less cotton planting are worse than they have been since the State-wide acreage reduction campaign, Mr. Blalock asserted.

"I have never seen anything like the throat cutting among fertilizer manufacturers," the co-op manager said. "Sixteen per cent acid phosphate, which sold for from \$14 to 20 a bag last year, is selling for \$10 cash, f. o. b. ports. Mixed fertilizers have been reduced in about the same proportion."

Farmers, who are able to plant cotton are going to plant it, Mr. Blalock continued, in commenting upon possibility of another large crop. He believes average reduction in North Carolina will be only about five or 10 per cent.

Mr. Blalock has already received reports of the boll weevil appearing in several sections of the State. An attack of the weevil would tend to keep down the predicted over-production, he added.

West Levee of Mississippi is Believed Safe

Snow Lake, Ark., April 1.—(AP)—Little apprehension was felt here today over the prospect of the West levee of Lodi Circle breaking as the result of pressure from about the flood waters, which stand from 10 to 12 feet deep all over the interior of the circle. The breaking of the levee on the Mississippi River side Tuesday afternoon has caused some damage, but it was held to a minimum due to the fact that warning signals were given several hours before the break.

TODAY

The Accident to Henry Ford. Why Save the Chinese? "News" of Coolidge Plans Must We Have Coal Strikes? (By Arthur Brisbane)

The world is shocked by news of the accident to Henry Ford, who went off a high bank in a small automobile coupe, rolling over two or three times, with him in it.

Great hostility has been expressed against Mr. Ford because of severe competition that stores, established by him for his workmen, have given to other stores. A statement issued for Mr. Ford strongly resents any suggestion that the accident to his car "was the result of intent on anyone's part."

The first accounts said that Mr. Ford's car had been knocked off the road over the bank by another automobile coming up behind it and "sideswiping" it.

A later report says that two boys saw Mr. Ford's car drive off the bank, with no other car near it.

The fact that waking to his spending forty-eight hours there, Mr. Ford was taken to his hospital "for a minor operation," worries his friends. A well known surgeon suggests that the belated trip to the hospital might indicate an operation for fracture of the skull, such injuries often remaining undiscovered for a considerable time.

In spite of Mr. Ford's great wealth and vast interests, the fact that he and his family own 100 per cent of his enterprises in the United States makes the widespread anxiety concerning Mr. Ford's condition purely a matter of personal friendship and sympathy. There are no financial interests involved except those of his immediate family. Mr. Ford, fortunately, is known to be a man of unusual strength and endurance, well able to survive even a severe accident and operation.

Hatred of foreigners and attacks upon them are spreading throughout China, north as well as south. Missionaries refuse to leave, their sense of duty keeping them at their task of saving souls. They are in China to give the Chinese an opportunity to go to heaven. But if those masses prefer to go in the other direction, why not let them?

Another of our American warships in China has "found it necessary to let loose its guns." Chinese revolutionary troops fired on the destroyer John D. Ford, going (Continued on page eight)

Former Deputy Sheriff Faces Grave Charges

Elizabeth City, April 1.—(AP)—Charges of housebreaking, drunk, disorderly conduct and driving an automobile while under the influence of liquor have been preferred against Horatio S. Seymour, former deputy sheriff of Camden county, as the aftermath of his arrest last night by chief of police Holmes in the residence of Mr. and Mrs. Thomas Cooper, on Greenleaf street.

Seymour was placed in jail after his arrest, and was released later in the night for his appearance in Recorder's court today. He failed to appear, and trial justice Sawyer ordered that his bond of \$50 be forfeited, and capias be issued for his arrest.

Chief Holmes, summoned to the Cooper home last night shortly before 9 o'clock, said he found Seymour in the house, trying to force open the dining room door. In the dining room, he declared, were Mrs. Cooper and two other women, the wives of neighbors, thoroughly frightened and making every effort to keep out the intruder. They did not know Seymour, he declared, adding that the unwelcome visitor had broken open the front door after it had been locked.

Seymour was considerably under the influence of liquor, the police chief said, and attempted to throw away a pint of whiskey after the officer arrived. Holmes declared he found a second pint bottle in Seymour's car, containing a small quantity of liquor. He expressed the opinion that Seymour was too much under the influence of liquor to realize where he was, and had no particular motive in undertaking to break into the Cooper home.

350 Escape Death in Pennsylvania Mine Blast

Of 350 men who were in No. 3 mine of the Pennsylvania Coke and Coal Co., at Ehrenfeld, Pa., only five are known to have been killed when a terrific explosion wrecked the mine. Upper photo shows rescue workers entering the shaft. In lower photo are seen anxious relatives awaiting news of mine workers. (Internat'l. Newsreel)

200,000 Miners Are Idle As Result Of Lockout

Mine situation area affected: Central competitive field including Western Pennsylvania, Ohio, Indiana and Illinois; Iowa, which is outside of the central field; and Southwestern fields, including Kansas, Missouri, Arkansas and Oklahoma. Miners affected. About 200,000 including Illinois 72,000; Kansas 8,000; Missouri 4,000; Indiana 22,000; Arkansas 9,000; Pennsylvania 40,000; Oklahoma 9,000; Iowa 9,000; Ohio 30,000.

Reason for shut down: Expiration of the Jacksonville wage agreement at midnight Thursday. Operators say they can not pay the wages of this agreement and survive non-union competition. Miners say they can not accept a cut.

Mines cooperative—about 2,000. Peace moves: Conference suggested by both miners and operators in Ohio. Southwestern representatives meeting today in Kansas City.

Temporary situation: Number of mines, claimed by operators to be small ones, plan to continue to work under temporary agreement. Today: All union mines closed in honor of "eight hour day."

Chicago, April 1.—(AP)—The coal mining industry in the central competitive field today entered a curious phase which was neither a strike nor a lockout but which forced thousands of miner into idleness as the Jacksonville wage agreement expired.

Many temporary agreements have been made throughout the mining area to continue work, but it was apparent that a large percentage of the nearly 200,000 employed in the central field and adjacent ranges had laid aside pick and shovel pending solution of a problem that the conference at Miami, Fla., several months ago failed to solve.

Probably the full extent of the shut down will not be known until early next week, as organized fields observe April 1 as "eight hour day" marking the anniversary of the first eight hour day legislation for miners. Saturday is a half holiday and on Sunday mines are not operated, so that the actual counting

COLLECTIONS OF AUTOMOBILE AND GAS TAXES MOUNT

State Department Reports Three Million Dollar Increase Over Last Year

Raleigh, April 1.—(AP)—State collections of automobile license and gasoline taxes and automobile title registration fees were almost three million dollars greater in the first nine months of the present fiscal year than in the first nine months of the preceding fiscal year, according to figures made public by the State Department of Revenue today.

Collections from July 1, 1923, to March 31, 1927, totaled \$12,025,781. Collections from July 1, 1925, to March 31, 1926, totaled \$9,240,315. This year's collections are \$2,785,466 ahead of last year's.

March collections were \$665,282, being subdivided as follows: License, \$58,427. Gasoline \$597,136. Titles, \$9,718. Last March total collections were only \$603,557.

WORLD WAR HERO BECOMES MEMBER OF CONTROL BOARD

Nashville, Ten., April 1.—(AP)—Governor Peay today signed a bill vesting the control of the York Industrial Institute in Fentress county in a board composed of Alvin York, world war hero, and the State Board of Education. The legislation ends a long controversy.

HEAVY SNOWFALL IN SOUTH DAKOTA

St. Paul, Minn., April 1.—Fifteen inches of snow fell in the Black Hills of South Dakota yesterday as a farewell from stormy March. The rest of the northwest had comparatively mild weather.

BROCK DAMAGE SUIT WILL END THIS AFTERNOON

\$7,000 Suit Against Community Hospital to Reach Jury About Noon Hour

The \$7,000 damage suit of Oris Brock against Pitt Community Hospital was begun in Pitt County Superior Court yesterday afternoon. The case will probably be completed shortly after the noon hour today.

The suit grew out of an operation which Brock had performed upon himself in 1924. He contends that a tube was left in his leg following the operation for an abscess and that it later worked its way out.

The hospital authorities contend that the tube was removed at the proper time, and that they had no knowledge of subsequent trouble with the injured member.

This session of civil court will be brought to an end this afternoon. The week has been a busy one, even busier than last week when numbers of important issues were settled. Judge Cranner has done everything possible to dispatch the cases as rapidly as possible, and it is more than likely the calendar will be practically completed.

DELEGATES HERE FOR CONVENTION

First Session of B. Y. P. U. Meeting to Open at 7:30 o'clock Tonight

Delegates to the regional convention of the Baptist Young Peoples Union began arriving here this afternoon, and by tonight it is expected that three or four hundred will be present. The convention will open at the Immanuel Baptist Church tonight at 7:30 o'clock, and will continue through Sunday.

One of the outstanding features of the first night's session will be an address by Dr. J. A. Campbell of Bules Creek. His subject will be "The Obedient Life."

The visitors will be welcomed by J. Conrad, mayor of Greenville. William Tyson will extend a welcome in behalf of members of the B. Y. P. U. of Greenville.

Special numbers will be furnished by Miss Jean Morton and members of the Eastern Carolina Teachers College.

The principal address of Saturday night's session will be delivered by Dr. Chas. E. Brewer of Raleigh. His subject will be "With All Thy Getting, Get Understanding."

The recreation will be brought to a close Sunday morning with an address by R. N. Simms, of Raleigh. He will speak upon the subject, "The Wealth of Youth."

Fishing Laws Effective Today

Raleigh, April 1.—(AP)—Attention fishermen. The fishing laws went into effect today.

It is an act "looking to the propagation and protection of the game fish in North Carolina" its title says.

Fishing licenses are required for any fisherman, resident or non-resident of the State, in any public freshwater streams, ponds, lakes, with reel, jointed rod, or both, or by casting with line and rod of any description.

For a resident county license fee is set at one dollar; for a State license, authorizing fishing in any county, two dollars; and for a non-resident of the State, three dollars.

Fishermen must wear buttons showing license numbers.

PITTSBURGH MINES SAY HEREAFTER THEY WILL RUN NON-UNION

Pittsburgh, Pa., April 1.—(AP)—The Pittsburgh Terminal Coal Corporation this afternoon announced that hereafter its mines in this district will be operated non-union.

SAPIRO AND REED CLASH AGAIN IN \$1,000,000 SUIT

Many Seats and Press Tables Empty When Case Was Resumed This Morning

Detroit, April 1.—(AP)—Aaron Sapiro, who is suing Henry Ford for a million dollars damage for alleged defamation of character, was on the witness stand less than 15 minutes today before he clashed again with Senator Leas A. Reed, Ford's counsel.

"I am angry," Judge Fred M. Raymond, the Senator said. "Your Honor, this witness is continually wronging over five points and finding fault with my questions, rather than attempt to answer them."

Reed had asked Sapiro as to speeches made in Texas in 1920 in behalf of the Texas Farm Bureau Cotton Association.

"You were still here in 1921," asked Reed.

Sapiro picked him up instantly. "You mean I was there again?" he asked. "Your question indicates I was there the whole time."

"All right, all right, sir, have it your own way," the Senator replied, and turned to the judge to proceed.

Sapiro was upheld by the court in this instance as justified in not answering Reed's first question. The Ford attorney started his third day of cross-examination by going into the organization of the Texas Farm Bureau Cotton Association. Sapiro testified there were bankers and heads of other agricultural associations on the pre-organization committee but no warehousemen that he could remember.

"You started in to get a million bushels of cotton contracted for?" asked Reed.

"That was our goal."

Many seats were vacant again this morning, and the press tables, which have been crowded with out of town correspondents, were almost deserted.

Sapiro said he had received no money for speeches explaining cotton contracts. That was considered part of his work. He admitted he related advantages he hoped would be realized by the association, and attempted to persuade farmer to join.

KING FERDINAND EXPECTED TO DIE

Bucharest, Roumania, April 1.—(AP)—King Ferdinand's condition has taken a serious turn for the worse.

Berlin, April 1.—(AP)—Reverend's reaching home from Bucharest and other Balkan points in disguise that the death of King Ferdinand of Roumania is imminent.

London, April 1.—(AP)—The Roumanian legation in Vienna is quoted by the Exchange Telegraph as stating that King Ferdinand is suffering from an attack of influenza.

Judge Dearth is Acquitted Today By Indiana Court

Indianapolis, Ind., April 1.—(AP)—Judge Clarence D. Dearth of the Delaware Circuit Court, was acquitted today on all seven counts of impeachment charges by the Indiana State Senate.

England Will Play Lone Hand in Demanding Reparations if Other Countries Fail to Co-operate

Washington, April 1.—(AP)—Orders for concentration of 1,500 additional marines at San Diego, Calif., to be held there for possible duty in China, were approved today by Secretary Wilbur.

The force will be gathered from the marine corps bases all over the United States.

Fifteen hundred marines already are ashore at Shanghai and 1,500 are gathering at San Diego to embark for Chinese waters on the transport Henderson next week.

Washington, April 1.—(AP)—Conditions at Chungking where the American Consulate was destroyed yesterday by Chinese, are growing worse, Admiral Williams, the American commander in China, reported today to the Navy Department.

He said advice received by him indicated the possibility of serious disturbances shortly in Hankow, present political capital of the Cantonese Nationalist armies, whose forward sweep has been accompanied by anti-foreign agitation.

The Admiral reported that 27 vessels of the second Japanese fleet, comprising three battle cruisers, five light cruisers, 14 destroyers, five submarines and auxiliary craft had been ordered to Amoy, no explanation being given in the report for the order. A news dispatch from Amoy, where a seaman's strike is underway, said 27 vessels of the second Japanese had arrived there on the annual China cruise.

Shanghai, April 1.—(AP)—Threats of disorders in the northern ports of China were claiming attention of American authorities today.

The United States destroyer William B. Preston has arrived at Chefoo, on the northern part of the Shantung peninsula, while the destroyer Pillsbury has left Shanghai for Tientsin, on the southern part of the peninsula, where large Japanese naval forces also are concentrating.

A move which is looked upon as signaling the beginning of complete American evacuation of the upper Yangtze is the official closing and sealing of the United States Consulate at Chungking on March 30. Mr. Adams is remaining aboard the gunboat Monocacy of Chungking until he hears from the handful of Americans remaining in the interior of Szechwan province as to their intentions—whether they have decided to heed the call and seek safety or remain at their posts.

It is understood that after the Consul hears from these Americans the United States embassy in the upper part of the river will be withdrawn.

Threatening situations are reported at Wuhu and Hankow. Rear Admiral H. H. Hough on the U. S. patrol vessel Isabel, left the Nanjing region, proceeding further up the river to Wuhu where parades and demonstrations were scheduled for today. The few Americans and Britishers remaining at Wuhu were directed to remain aboard warcraft in the river throughout the day, the British and American authorities having decided on all occasions to avoid clashes with the Chinese mob.

Stokes Bank Pays Another Dividend

Washington, April 1.—(AP)—The American government is believed to have decided on all occasions to avoid clashes with the Chinese mob.

The Greenville Banking & Trust Company, receivers of the Planter Bank of Stokes, report that they are now preparing checks for a total of 162.3 per cent payable to the depositors and other creditors of the Planter Bank of Stokes. These checks will be mailed within the next ten days.

This makes a total of 62.3 per cent that has been paid to the depositors of the Planter Bank of Stokes to date.

Rogers Hornsby Stock Tangle is Bound for Court

New York, April 1.—(AP)—The Rogers Hornsby stock tangle appeared headed for the courts today.

After bringing his last holdout Eddie Boush, under a three year contract, manager John McGraw of the Giants, came out in defiance to the orders of John A. Heydler, president of the National League, with an announcement that he intended to play Hornsby whether or not Rogers sells his stock in the St. Louis Cardinals.

"Hornsby can not play with New York while holding the one-eighth of the stock in the St. Louis club," said Heydler. "I believe I will have the support of the board of directors in this stand, even to the extent of defending my position in a court of law."

Dispatches from Chattanooga, Tenn., quoted McGraw as saying that the New York club made the deal for Hornsby in good faith and that "it is bound to protect itself, even if necessary to go to the courts."

Asserting again that no one could make him sell his stock for less than \$195 a share—which would net him more than \$190,000—Rogers declared he also would go to court if any one tried to stop him from playing ball.

There is no rule in the National League to prevent us from playing Hornsby," McGraw said. "If there was an objection it should have been raised before the deal was completed. It seems to me that President Heydler spoke too soon, when two months before the season was scheduled to open, he declared Hornsby could not play with us until he had disposed of his stock."

"I intended to see that he starts at second base whether he sells his holding at somebody else's price or not."

President Charles A. Stoneham expressed surprise at McGraw's stand, saying: "This is the first I have heard about the matter."

Rogers, last of the metropolitan major league holdouts, came into the fold astride a contract which is said to call for an annual salary of \$22,000—\$3,000 more than the giants offered him in his original contract.

SOUTH HAS THE INSIDE TRACK ON HIGH SCHOOL BASKET BALL TITLE

Chicago, April 1.—(AP)—The South had the inside track today to take the national high school basketball title.

Four of the eight teams surviving for the championship fight came from the land of cotton and although a hard luck draw made two of them opponents, tournament observers believed that one of the four smooth working combinations was destined to inherit the title won last year by Pittsfield, Mass.

Of the remaining four teams, two came from the north, one from the west, with Chicago backing one entry. Teams from the east and the Pacific coast have been eliminated. The two southern squads which face each other in one of tonight's games are Norfolk, Va., and Florence, Miss. Florence and another of the Southern quintets, Vienna, Ga., so far have shown the most finished team work of the entire field.

Today's pairings championship round:

- 4 p. m.—Pocatello, Idaho, vs. Huron, S. D.
- 7 p. m.—Grand Forks, N. D. vs. Batesville, Ark.
- 8 p. m.—Norfolk, Va. vs. Florence, Miss.
- 9 p. m.—Morton High, Cleve., vs. Vienna, Ga., consolation round.
- 10 a. m.—Durham vs. Walto High, Toledo, Ohio.
- 11 a. m.—Athens, Texas vs. Fort Fairfield, Maine.
- 2 p. m.—Daval High, Jacksonville, Fla., vs. Gilbert, Ariz.
- 3 p. m.—Northeast High, Kansas City, vs. Durant, Okla.

CAROLINA TO MEET VIRGINIA CINDER STARS

Chapel Hill, N. C., April 1.—(AP)—Carolina and Virginia Polytechnic Institute cinder stars met here this afternoon in a contest predicted to furnish coached with an eye-full of what they are to expect in the Southern Conference this year. Speculation was high as to the possibility of Captain Gus McPherson not being in the events. He was absent from the campus this week and Carolina supporters were somewhat uneasy about his return. Gersch and Harrison were ready

to do the century and furlong against Captain Montague Gobbler star, should McPherson fail to return.

STUFFY MCINNIS SAYS HIS TEAMS OUT TO WIN

Philadelphia, April 1.—(AP)—Back home with his Phillies after a month in Florida, Manager Stuffy McInnis spoke optimistically today of his team's chances in the National League pennant race. He was confident they would rise far from the cellar position. Tomorrow's series here with the Philadelphia Athletics.

DAVIDSON WILDCATS TO MEET STATE IN TRACK EVENT TODAY

Raleigh, N. C., April 1.—(AP)—The Davidson College Wildcat track team left today for Raleigh, where they meet State College cinder stars tomorrow afternoon. The meet will open the season for both outfits. Injuries to Wilcat stars may lessen Davidson's chances to play a large part in the race for State honors. Dick Flynn, Bob Kell and R. Calhoun were under doctor's orders to rest. Gedykowitz and Currie, Davidson's flashy dashmen, are being counted upon to place near the top.

BALTIMORE SLATED FOR RALEIGH TODAY

Raleigh, N. C., April 1.—(AP)—Victors over the Latham Bulls, the Baltimore Internationals blew into the Capital City today, booked to play Wain's Raleigh Caps this afternoon. Manager Walt planned to let Augustine, Hall and Perry pitch three innings apiece.

DEMPSEY CONFIDENT OF REGAINING CROWN FROM GENE TUNNEY

Los Angeles, April 1.—(AP)—Jack Dempsey's confidence in his ability to regain the heavyweight crown from Gene Tunney is increasing daily in more than direct proportion to his loss of weight at his "come back" camp at Wheeler's Hot Springs, north of here.

The former champion stopped his woodman's act long enough yesterday to tell visitors that he will be able to trim Tunney or any other heavyweight by July 4.

During the last ten days, Dempsey has been tackling every kind of job in sight, felling trees, chopping the wood, digging ditches, working on fire breaks and taking long grueling hikes over mountain trails. The pace has taken a tuck in his waistline and slicked several pounds from his bulky frame.

"You can tell the world that for the first time in my life I actually like training," Dempsey said. "The idea of a cramped city gymnasium never can compare with the outdoors."

When his frames, ropes and cut at six o'clock each morning, he has a car with him to an adjoining camp and a breakfast at which Dempsey eats everything and then orders more. After breakfast he works at whatever hard task is offered.

Dempsey promised to remain in his mountain camp at least a month longer. "Naturally I would like to beat Tunney first," he said. "But if Richard wants me to topple over one challenge on the way up, I'll be ready and willing."

MRS. HULDAH HARRIS DIES AT SUFFOLK, VA.

News has just been received of the death of Mrs. HulDAH HARRIS, wife of J. F. Harris, who died March 31st at her country home near Suffolk, Va. She had been sick only a few hours, and her death came as a distinct shock to her family and friends.

Mrs. Harris was the daughter of the late Edward H. Dudley, who was born in Paudah, Ky., July 10, 1878. She came to Greenville with her parents when quite young, and was a resident of the county for a number of years. She was married to Joseph Fenner Harris in 1897. She was a member of the Free Will Baptist Church at Parker's Chapel, a few miles from Greenville. Mrs. Harris was a woman of sterling character and was loved by all who knew her. She is survived by her husband and eight children: Mrs. Annie Lee Massey of Durham; Sallie, Martha and Nell and Herman Harris of Norfolk; Edward, Joseph and Charlie Harris, of Suffolk.

The deceased was buried in Bethlehem cemetery near her home.

April 1, Fool's Day, and
with it the annual coal
strike.

The forty-five mile auto-
mobile speed limit original-
ly announced effective April
1, does not go into effect
until July 1. Motorists who
with the coming of spring
weather, have a desire to
step on the gas, will have to
hold off for a few more
months.

American officials in Chi-
na urge Americans in the
interior to concentrate on
the coast under the protec-
tion of American guns. Now
comes the report that 100
missionaries decline to quit
their posts. The American
government is making every
effort to take care of its
nations in China, but it can-
not be expected to do so
when these nationals abso-
lutely refuse to co-operate.
By bringing out those who
are willing to come out and
leaving to their own fate
those who decline, the
American government can
best dispose of its part in
the Chinese muddle.

There seems to be very
little talk, if any, going on
now regarding the location
of the new river bridge.
Will Greenville citizens
again sit idle until plans for
the building of the bridge
are completed, and then
howl because the location
does not suit them? Before
the plans have gone too far
is the time to see to it that
the bridge will be placed at
the foot of Evans' street.
Now is the time for the citi-
zens to act.

A STRIKE A YEAR

Again we are treated to
the spectacle of hard-head-
ed coal miners and hard-
headed mine operators dead
locked over the question of
wages with the immediate
prospect of a long drawn-
out strike with decreased
coal production and mount-
ing coal prices.

The operators, who have
been paying a scale under
the so-called Jacksonville
agreement, decline to re-
new, declaring that scale
will bankrupt every mine
operator in the central field.
Why should they worry
about the scale except to be
sure that there is the yearly
wrangle about it and the
yearly strike? Already it
has become a settled policy
of mining operations that
there shall be at least one
strike a year. Occasionally
the strike at home will be
supplemented by a strike in
England. In either case, and
with increasing severity
when the strikes are simul-
taneously, retail coal prices
bear heavily upon the con-

—and the Worst is Yet to Come

sumer. The coal mining
situation every year results
in this sort of an equation:

No strike equals normal
revenue and normal costs of
operation and normal prices
to the consumer.

Strike equals increased
revenue, lower costs of op-
erations and high prices to
the consumer.

No wonder the operators
consider a strike a very
worth while adventure. Every
operator must have one
of these nicely framed busi-
ness mottoes hung up in
the company office over the
big iron safe:

"A strike a year swells
the profits here."—News &
Observer.

WOODCHOPPER WILL
STRIVE FOR CROWN
OF HEAVYWEIGHT

New York, April 1.—(AP)—
Paulino Uzcudun, woodchopper of
the Pyrenes, will attempt tonight
to hew his way through Tom Hee-
ney, New Zealand heavyweight ob-
stacle in the path of the Spaniard's
drive to the finals of Tex Rickard's
elimination tournament. The bout
is scheduled for ten rounds at Mad-
ison Square Garden.
Paulino is a decided favorite. In
Heeney, however Uzcudun will face
a rugged slugger of his own type.
Neither boasts flashy boxing
ability or more than ordinary de-
fense. Paulino probably will
weigh about 196 pounds, Heeney
slightly more.

**Jupiter Pluvius
Pulls Best April
Fool During Day**

April Fool!
Such expressions occurred frequently along Main street this morning, and many a good man and woman had the time of his or her life avoiding those literally bubbling over with "April fool" material.

The best April fool of the day however, was pulled off by His Honor, Jupiter Pluvius. This guardian of nature's sluice gates started off the morning with promise of abundant rainfall. By nine o'clock, however, the clouds disappeared and all this part of the country was taking a sunshine bath.

Intermittent showers are promised today and tomorrow despite April fools, because it is April; and April never did have anything but showers. The old saying that "April showers bring May flowers" is as true today as ever, and it will continue to be true despite all the fools April the first may produce.

**Poultry Shipment
to Be Made From
Farmville, April 8**

E. F. Arnold, farm demonstration agent of Pitt County, went to Farmville this morning to make arrangements for the shipment of a carload of poultry April 8th. Arrangements are also being made for the shipment of a carload from Greenville April 9th.

Advertising matter just issued by the farm department advises the farmer of the best way to market his offerings. Cash will be paid at the car the day of the sale. The shipment is strictly a co-operative project between the North Carolina Division of Markets, Raleigh, and the Agricultural Extension Service, represented by county agents.

The farmer is advised to use well ventilated boxes; not to put too much poultry in one coop or box; not to tie the legs of poultry and cram them into sacks; not to stuff feed in poultry the day of sale. It is also advised to come early and avoid the last day's rush.

**"Women Will Free China If Men Fail,"
Nationalists' "Joan of Arc" Promises**

**Hundred Girls Trained
to Carry on Work
of Revolution**

HANKOW, China, (Special).—"If our men fail, the women will liberate China!"

So declares Mrs. Sun Yat Sen, widow of the founder of the belligerent and bellicose Chinese Nationalist Party, and herself a high leader in the party's councils. The South China republic has no president, but Mrs. Sun is its First Lady. Some call her South China's Joan of Arc. Mme. Sun, who was educated in the United States, is now establishing a school of political education for Chinese women. In this school, located for the present in Hankow, 100 carefully selected young women will be trained intensively in the problems of China and the role of China's women.

"Women in China will never have to wage a battle for the right to vote," she said in an interview.

"Suffrage will be given to them as a matter of course by the Kuomintang national constitution drafted by Dr. Sun Yat Sen. Neither will women have to fight for property rights in China, nor the guardianship of their children, nor for fair and decent marital laws. Marriages and divorce will not work greater hardship for women than for men in the new China.

"Citizenship, suffrage, property rights, social rights for men and for women are as much a part of the fundamental revolutionary programme in China as is unhampered sovereignty of China in its relations with the world."

China must have women leaders in great numbers immediately. Mme. Sun believes, hence the school of politics. She is pleased over the South China (Cantonese) army's success, but does not condone its cruelty, its looting or its attacks on foreigners. Like other women, she prefers peaceful methods to bloodshedding and bloodletting. But she is convinced that armed force was necessary to spread the doctrines of Dr. Sun.

"Our grandmothers were 500 years behind the women of America," Mme. Sun said, in speaking of her school, "but our daughters will be 50 years ahead."

"I doubt if the women of America

Mrs. Sun Yat Sen, widow of the man who founded the new belligerent and bellicose Chinese Nationalist party, and herself a leader in the party's councils, is establishing a school of political education for women. "Our grandmothers were 500 years behind America, but our daughters will be 50 years ahead," she avers. Newest photo of Mme. Sun.

(International News)

can grasp the extent of the change upon them as creatures of another world. But we young women feel that there is a touch of envy in the hearts of the older women and, perhaps, a timorous applause."

Mme. Sun is a slender, delicate creature; but she is the nerve force of the civil affairs of revolutionary South China. She has traveled all over the empire, often secretly and usually with her life in her hands, organizing the revolutionary feeling

**INDOOR CIRCUS
PLANS RAPIDLY
ASSUMING FORM**

**Spaces Allotted to
Merchants and Business Men Went Over
Top Yesterday**

Everything is now moving along with a real bang pertaining to the big American Legion Indoor Circus Auto Show and Merchants Exposition, which will open for one week commencing Monday, April

18th, in Gorman's new warehouse. Spaces allotted to Merchants went over the top yesterday, and one of the most novel displays ever seen as an indoor exposition will be the different displays by the firms handling electric refrigeration.

Every known make of these economic electric refrigerators will be on display. The water and light department of the city of Greenville will display the Kelvinator machine in every detail. The Smith Electric Co. will show the Service Refrigerator and the Frigidaire Co. will have a wonderful display of every size machine. Each booth of the above makes will have attendants and every machine will be in full operation at all times.

Several out of town auto dealers that know of the success of the Wilson show and knowing of the cheap admission and the methods of the staging of the event directed by Messrs. Marr and Eger have taken spaces as well as several local dealers.

It is expected by night that most

all the auto space will be taken up. All in all everything now points to the biggest success ever for when one stops to think that the entire charge to the big show is only one dollar for a season ticket for six nights and this also gives the purchaser the right to participate in the giving away of valuable prizes each night. No indoor event of a similar nature has ever been attempted to be staged at such a price.

Mr. Eger, business manager for Mr. G. S. Marr the director for the American Legion stated today that different from similar events that with the small charge of admission and the different intermissions between the many acts, etc. that there will positively be no time that the exhibitors will not have people around their booths and that everything is done in every way to cater to the exhibitor and that nothing is done to distract from the fact that the Auto Show and Merchants Exposition is really the one big feature of this big event.

DUKE UNIVERSITY
READY FOR W. AND L.
Durham, N. C., April 1.—(AP)—Shades of such brilliant players as John Dempster, "Pewee" Turner and "Candyball" Smith, members of Duke's one time champions, focused over Hages Field today as the 1927 Duke team prepared to open its baseball season with Washington and Lee University.

With every position apparently clinched with veterans, excepting the catcher, Coach Whitford put on the field what students believe will have a big chance in the race for title honors.

Classed as dependable hurlers, Leight, southpaw; Thompson, Thoms, Jones and Bennett, right-handers, were in shape for the season to open. Others expected in the line-up included Wrick, C.; Weaver, JB; Rowe, 2B; Broome, SS; Saunders, 3B; and Huntling, 1B; Adams, CF.

COTTON
New York, April 1.—(AP)—The cotton market was lower today under southern and local selling or liquidation, attributed to prospects for better weather in the south and failure of more bullish reports on the acreage outlook to create any aggressive demand. July was selling around 14.25 and October 14.51 in the mid-afternoon market, or about 10 to 12 points net lower. Futures closed steady, 8 to 11 points lower. Spot quiet; middling 14.40.

STOCKS
New York, April 1.—(AP)—The persistent demand for U. S. Steel, common, which touched another new record high for all time; a temporary setback in the rails on selling inspired by the Interstate Commerce Commission decision in the St. Louis and O'Fallon and the renewed weakness of the oil, baking, tobacco and packing issues were the high lights in today's irregular stock market. The close was irregular, sales approximated 2,200,000 shares.

Why we sell the DUNLOP TIRE

FOR 39 YEARS Dunlop has been building the world's supreme tire. Dunlops wear longer because Dunlop knows how to build better at each vital point.

Take the hidden carcass beneath the tread. Dunlop owns its own cotton mills for no other purpose than to spin the best long-fibre cotton into the famous cable-twist cord that goes into this carcass.

The extra strength in these cords means an added factor of safety against constant load and pounding of roads—longer life and greater mileage.

The extra "stretch" enables the carcass to give under severe blows, and to come back into its original position without internal injury.

The Dunlop tread—the toughest rubber development known—wears slowly and smoothly, making sure that you get out of your Dunlops, all the extra mileage that added care and longer experience have built into them. We recommend that you put Dunlops on your car.

Gossip of Staff Correspondents at World Centers of Population.

St. Louis, April 1.—Six out of ten men on the St. Louis police force can bring down a running man seven times out of ten with a revolver.

The remaining four in ten on the force are receiving special training in revolver practice so that they, too, may soon join the ranks of qualified shooters, marksmen or experts.

In full figures there are 1,250 out of 2,000 officers who are qualified shots or better on the force. Of this number in the qualified ranks, 600 are marksmen and 151 are experts. To qualify, an officer must make 210 points out of a possible 300; 235 points to become a marksman and 250 to be rated as an expert.

Nick Bosch, Jr., target master and instructor, who served overseas as a lieutenant in the 39th Division, hopes to have the local force attain the highest degree of shooting accuracy of any police department in the United States. Detectives and uniformed men are given their training regularly and all must keep up their records or lose their standing. Training in riot gun shooting and machine gun practice is given on the range.

A marksman's button is given to the man making the required mark but he retains the emblem only so long as he keeps ahead of the man next to him.

In 15 matches with police teams of other cities, Bosch's men have won all but one. The Des Moines, Ia., team which scored the one victory over the local team was defeated once by St. Louis.

"I would like to have a match shoot of fifty or more men on each side," Bosch declared. "I am willing to bet that the St. Louis force would win over any police team in America."

This is the story of the hobby of a woman which had a demand, small at first, but which grew steadily until now it is almost a necessity to the success of every fashionable dance party or formal dinner. For what such affair is a success without its little novelty or favor?

Several years ago this woman's hobby was making paper flowers for friends. One day she overheard a demand in a store for such flowers. The storekeeper was unable to supply it, so the woman did.

That was the beginning of the business. She opened her first "shop" in a small room; she was the force, both factory and office. Now she is in active charge of a large factory which ships paper novelties to all parts of the United States and supplies the demands for formal affairs in Canada, Australia, New Zealand, Cuba and other parts of the world.

The firm's products are made entirely of paper and range from small place cards to elaborate dance favors. The fashion doll, one of the largest articles manufactured by the company, has become popular in the past few years. It is used not only as a favor at dances, but as a finishing touch in decorating the living room or boudoir.

Are American School Children Taught the Truth About The World War?

EDITOR'S NOTE:—Are American school children being taught the truth about the World War? Military authorities, among them Lieut. Col. Thomas J. Dickson, Chaplain General of the Military Order of the World War, have charged that present day textbooks are filled with inaccuracies, errors, and are presenting military "absurdities" to American youth.

up the Yangtze river. The American ship's four-inch guns and machine guns were instantly brought into action.

Doubtless it is necessary just now that the United States guns should be most conspicuous in attacks on Chinese, which of course, will concentrate Chinese hatred on this country and on American citizens.

But it is to be hoped that we shall soon have our citizens, boats and fighters out of China, and let that gigantic nation fight it out without help or interference from us.

When you read that nine out of ten Chinese men, women and children go to bed hungry, worried, poor and miserable every night of their lives, you cannot expect them to be philosophical or patient.

Each "well informed Washington correspondent" tells you something you didn't know. One gives you this, most privately, "President Coolidge has made up his mind not to run in 1928. He is in favor of the nomination of Herbert Hoover."

You can take that for what it is worth. Senator Borah will tell you that President Coolidge will SURELY be nominated again; also that Governor Smith of New York will be nominated by the Democrats.

However, nobody knows that

President Coolidge will do. He himself may not know. The "well informed" one suggests that President Coolidge plans to leave office, practice law, and accumulate some money for his wife and son. He has been a poor man all his life and has been able to save nothing from his salary as President.

The suggested nomination of Herbert Hoover, who has shown extraordinary energy and ability in working for national waterway power plants and other national enterprises, would please millions of Americans. So would the nomination of Secretary Mellon, who has handled national finances in a way that entitles him to the gratitude of all citizens, big and little.

If the President should decide not to be elected for a second time (there is no question of a third term when a man has only been elected once) it is safe to say that the Republican nominee in 1928 would be named Hoover, Mellon or Lowden.

Governor Smith's friends think he can give any one of them—Coolidge also—a hard fight. It will be an interesting campaign.

A coal strike, of a sort, will begin tomorrow in what is called "the central competitive field." Union men in the north cannot compete with non-union men further south.

The alleged attempt to reduce wages in the north would cause still further reduction of wages in the south. Industry and business are not civilized while it is

necessary for employers and employees to engage in periodical battles, at the expense of the workers' wives and children, to decide what is fair pay. Some impartial third party should fix wages. The public pays in the price of coal.

AMERICANS PREPARING TO SEND MORE MARINES TO CHINA IF NECESSARY

(Continued from page one) lieved to be giving consideration to formulation of a policy for retribution for the reported outrages at Nanking and for the exaction of guarantees for the safety of Americans elsewhere in China.

The State Department today, however, maintained complete reticence and officials in other departments declined to make a statement.

Press dispatches from London intimated that exchanges were in progress between capitals of various powers involved in the Chinese situation while conferences at the White House and State Department late yesterday appeared to give foundation to the belief that the drafting of an Amer-

ican policy is occupying the minds of officials.

The prolonged conference between Secretary Kellogg with Nelson Johnson, head of the department for the eastern division, of recommendations that have come from Minister MacMurray at Peking and Admiral Williams, American naval commander in Chinese waters.

Secretary Wilbur's visit to the White House likewise indicated that steps to fix the responsibility for the Nanking attacks had been discussed with the President. The only intimation obtainable was that naval officers have been directed to make their investigations to make the responsibility so complete as to defy challenge.

Both Chang Kai-Shek, Nationalist commander in chief, and Eugene Chen, Nationalist foreign minister, have expressed regret for the Nanking outrages, and promised reparation provided if

were established definitely that Cantonese were to blame, and apparently the next step for the United States is to build up thru its own agencies a case that can not be broken down.

Consul J. K. Davis, one of those rescued from Nanking and still aboard an American warship off the city, has given added evidence in this regard by reporting that the Cantonese military authorities had not controlled the situation at Nanking as late as March 28, or four days after the foreigners had been rescued from the city.

Canton, China, April 1.—(AP)—British women and children are understood to have been ordered to evacuate the native city of Canton and proceed either to Shameen, the foreign quarter, or to Hong Kong.

London, April 1.—(AP)—The

Cabinet met this afternoon to give formal consideration to the government's proposed demands on the Cantonese for reparation for the Nanking outrages. Hope is expressed here that the United States and Japan will join in the British action but the Associated Press is authoritatively informed that Great Britain intends to play a lone hand if necessary.

Shanghai, April 1.—(AP)—Reports from usually trustworthy sources indicate that Chang Kai-Shek has been dismissed as Generalissimo of the Cantonese army by the Hankow government. All indications are that Chang is concentrating his resources in the Shanghai district to defy the dismissal.

Tokyo, April 1.—(AP)—The Japanese cruiser Yakumo has been ordered to leave Yokosuka tomorrow for Shanghai, with a landing party of 500 bluejackets.
