SAYS GREAT POWERS WILL PRESENT NOTE OF PROTEST TO PEKING GOVERNMENT

Washington Declines to Confirm Paris Despatch Regarding Reparations Demands for Nanking Outrage

Paris, April 8.—(AP)—The ministers of France, Great Britain, the United States, Italy and Japan have been instructed by their government, says the French foreign office, to hand a joint note of protest to the Peking government against the mistreatment of nationals of their countries.

The note (presumably in consequence of the recent outbreak at Nanking, with foreign casualties) will threaten penalties, but will not be specific as to the form they shall take, it is stated. If delivery will be the first concerted action by the powers in the present Chinese situation but the French indicate that his does not necessarily mean that joint punitive action will be taken.

The phrasing of the note has not been determined, but the various ministers have been instructed to draft terms along general lines laid down by the foreign affairs department of the five powers.

Whether the note will be forwarded also to the Cantonese government which is in power in Southern China is not stated. It is understood the ministers in Peking have been given authority to use their own discretion both as regards the form of the protest and to whom it is made.

Washington, April 8.—(AP)—Statements by the French foreign office that the United States, Italy, Great Britain, France and Japan were preparing to present a joint note of protest to Peking government over mistreatment of the various foreign nationals in China false did confirmation today at the State Department.

Secretary Kellogg said officials of the department declined to comment on the Paris dispatches for publication. It was evident, however, that they were not expecting any protest to the Peking authorities over the treatment of foreigners at Nanking. American demands for reparation, it has been consistently indicated, would be made by Minister MacMurray at Peking to the Nationalist regime.

Whether they will be presented also to the Nationalist military commander at Shanghai, Chiang Kai-Shek, is not so certain in view of the reports that he is at odd with political wing of the Cantonese government.

The dispatch served to bring out an intimation that the Washington authorities are still undecided as to what the general policy of the Paris government is to be in regard to measures to protect foreign nationals in China.

All of the powers maintained diplomatic relations of a formal character at Peking, but their course in that regard has been based to a large extent upon the fact that Peking is historically the capital of China and that seat of the central government.

ALDERMEN HEAR PETITIONS FOR IMPROVEMENTS

About \$15,000 Worth of Street Improvements Considered Last Night

Street improvements aggregating \$15,000 were considered at the regular monthly meeting of the Board of Aldermen last night. The session was one of the most lengthy in some time, and numbers of problems pertaining to the city's welfare were considered.

Alderman Sellars and Waldrop, appointed some time ago to consider the furnishing of water for the new cemetery, reported that all plans had been completed. A pump operated by an electric motor will be installed within short time.

A petition for the paving of Clark Street, between Dickinson Avenue and Winslow's stables, was approved.

The board also approved a petition for curbing and gutter on Summit Street, between Fourth and First Streets.

A petition asking for curbing and gutter on Tenth Street, from Charles to Lawrence streets, and on Yawence from Tenth street to Ninth street will be investigated and considered by a committee.

A petition for the paving of Eleventh Street, from Green Street to Evans Street, was referred to a committee and the city clerk to chalk up the measurements.

Contracts for public work approved will probably be awarded at the May meeting of the board.

A resolution was passed suspending the Warehouse Dance ordinance during the week of April 18th, while the American Legion Exposition is in progress.

Clerk Duval was instructed to employ additional clerical help during the illness of Miss Willis, city stenographer.

The mayor and clerk were instructed to draw up and deliver a deed in fee simple to Mrs. J. L. Nobles for the western half of block No. 25, in Greenwood Cemetery.

Malarial and mosquito control was placed in the hands of George Clark, manager of streets. The campaign begins April 1st and continues until October 1st.

Roy Corbett, of Raleigh, representing the State Historical Commission, presented the board with revised copies of local ordinances up to date, including those of the water and light department and school district. The ordinances were taken under consideration and final action will be taken at the May meeting.

The matter of exchanging land with J. V. Williams in order to get more frontage at the new cemetery was placed in the hands of a committee composed of Smith, Hollingsworth and Waldrop.

SENATOR REED ASSAILS LOANS MADE BY SAPIRO

Declares Evidence of Bad Faith Shown in Action for Potato Association

Detroit, April 8.—(AP)—Two loans totalling \$4,000 from the Los Angeles brokerage firm of Weyl Zuckerman through Aaron Sapiro to the organization committee of the Idaho Potato Growers Exchange were assailed today by Senator James A. Reed of Missouri, chief of counsel for Henry Ford, as evidence of bad faith and defended as entirely proper by Sapiro, who seeks \$1,000,000 upon \$6 allegations of libel.

Senator Reed termed Weyl and Zuckerman speculators, and demanded from Sapiro whether the notes and his subsequent actions did not indicate that the potato growers whom he organized cooperatively ostensibly to deliver them from speculators, had not instead been banded together by the speculators and finally delivered into their hands.

Sapiro replied that the loans, one for \$2,500 and the other for \$1,500, had been requested from the organization committee of the growers and that he acted for them in a manner entirely proper.

TODAY Blaming America Pinedo Still Hopping Pigs to Greece 21 Billions to Europe (By Arthur Brisbane)

BORAH AND BUTLER CLASH IN VERBAL BATTLE TONIGHT

Boston, April 8.—(AP)—Tickets for tonight's debate on prohibition between Senator Borah and Nicholas Murray Butler were scarce as for a football classic.

Even so, China is now boycotting American Goods. It doesn't take the seventh son of a seventh son to guess that China's dislike will be toward the United States if possible.

Four hundred million Chinese have got to COOL down. There's no use planning to SHOOT them down. You could not do it even if your conscience, directed by your pocketbook, would let you try.

Commander De Pinedo, Italian flier, having hopped from Europe to South America, then over the jungles of Brazil, to the United States, will now hop to the Pacific coast.

Our flying gentlemen in Washington, that don't fly ought to get De Pinedo to come down and tell the HOW he does his hopping, without falling down. We need to learn.

Famous Boar named Colonel Bradcaster and fourteen other pedigreed American swine were sent to Greece yesterday. The mountain that look on Marathon will soon see finger pigs rooting along the beach than they ever saw before.

Poetry is above pigs, but pigs that America sends to Greece will do Greece more good than the poetry that Byron wrote.

Greece has won for herself the freedom that Byron wished her. She couldn't win without foreign help such a pedigreed pig as Bradcaster.

The American people now have eleven thousand million dollars invested in foreign countries. This doesn't include ten thousand million lent by the United States to foreign nations in the war—thus purchasing the hatred of those nations.

Europe owes us, in all twenty-one billions—a good deal of money, and some of it will never come back.

If you are tempted by usurious interest rate on European bonds be careful at least to watch your investment closely.

Ford Libel Suit Delaying Action In Slush Fund Probe

Confession of Youth Allays Fear That Fire Was Result of Plot

PHOENIX, ARIZ. April 8.—(AP)—Confession of a young lieutenant that he started the fire resulting in the destruction of Commander Francesco De Pinedo's seaplane, the Santa Maria, still echoes of an anti-Fascist plot rumor as the Italian flier today became the guest of American pilots for a flight to San Diego, Calif.

REITERATING STATEMENT SHORTLY AFTER PLANE BURST AT ROOSEVELT LAKE DAM NEAR HERE WEDNESDAY

De Pinedo said there could be no doubt that the fire was set accidentally. He said he accepted the confession of John Thompson, 17-year-old Phoenix youth, that the boy dropped a match on the oil covered water as the plane was ready to take off for San Diego, as a full explanation of the affair.

Thompson, employed as a boat tender at Canyon Lake, Arizona, confessed throwing the match, to a reporter for the Arizona Republican. He then signed a statement to the effect in the presence of Commander De Pinedo and others who had conducted an investigation at Roosevelt Lake. De Pinedo was presented with the original copy of the confession. He said he would forward it to his government as final proof of the origin of the fire.

Four United States navy planes were turned up here today to take De Pinedo and his two companions to San Diego. The ships arrived from the coast city yesterday.

CONFEDERATES TO CONDITIONS AT HANKOW END CELEBRATION GROW MORE ALARMING TO FOREIGN GOVERNMENTS AT TAMPA TODAY

Veterans of the "Sixties" Spend Hour Following Old Flag in Parade

Tampa, Fla., April 8.—(AP)—One glorious hour of following the Confederate flag and then a journey home to while away fifty one long weeks before doing it all over again was the prospect today for the few thousands left of the soldiers who fought with Robert E. Lee.

The last day of the thirty-seventh annual reunion found Confederate hearts willing but strength of limb had given away at last to time and only few hardy souls hoped to remain on foot throughout the parade. Automobiles were provided for all who might find the going too tough.

Leading the veterans was a new commander-in-chief, from the Long Star State, General J. C. Foster of Houston. In electing him yesterday, the Confederates decided to meet next year in Little Rock, Ark., the home town of their retiring commander, General M. D. Yancey.

Despite Presence of Twenty Foreign Warships Lawlessness is Increasing Unhindered by Authorities

Flash—Washington, April 8.—U. S. decides to send 1,500 more Marines to China.

Washington, April 8.—(A. P.)—Conditions at Hankow, capital of the Cantonese nationalists' government of China, are steadily growing worse, with lawlessness increasing and with no apparent effort on the part of the local authorities to check it.

Although more than 20 foreign warships are gathered at the Chinese port, the American commander reported said evacuation of foreigners ashore was being rushed and that he was bringing pressure on all Americans to hasten themselves adjacent to steamers and hasten their departure.

"The Japanese evacuation of Hankow continues in large numbers," the report said. "One hundred Germans attempted to charter the steamship Chi Chug in order to evacuate Hankow."

"A Japanese civilian was shot in the head by a Chinese soldier outside the Japanese concession and took refuge at 2 a. m. on board the mine sweeper Pigeon."

"Fights between groups of Coolies on shore are becoming more frequent. The Russians are beginning to evacuate. I am bringing pressure on all Americans to hasten their departure."

"An additional Japanese light cruiser arrived today."

"All British gunboats which were stationed above Hankow have arrived at that place. The Kov has been completed. Italian British evacuation above Hankow has been ordered to resume."

"At Klukiung the Godown (warehouse) of the Anderson porters, was looted Saturday."

"Meyer company, American executive, reported the landing at Shanghai of 800 additional Japanese sailors as 'aresnipers' upon Japanese guards ashore."

"The destroyer Bulmer, at Anoy, he said, had reported the seamen's strike settled and the American consular staff was allowed to return to the consulate today. The port was functioning as usual except for the postoffice strike which continued."

Shanghai, April 8.—(A. P.)—Snieters operating from a 3-way and roof tops firing on a party of Japanese patrolling the municipal road, in the northern district, today. One marine was seriously wounded.

Shots were exchanged for about an hour, when the arrival of British and Japanese reinforcement caused the snipers to withdraw. Later sniping broke out in a new area of the same district. The Japanese replied and the firing ceased.

The Cantonese (nationalist) Generalissimo has issued orders that no civilians would be permitted on the streets with arms in their possession. Last night several armed agitators near the west gate of the native city were shot dead by Cantonese troops when they refused to give up their arms.

Shanghai, April 8.—(A. P.)—General Chiang Kai-Shek left Shanghai for Nanking this afternoon. It is believed his trip is to prepare for further Cantonese military operations north of the Yangtze river.

Wang Ching-wei, chairman of the Kuomintang, left yesterday for Hankow. He has made strenuous efforts to repair the breach between the moderate branch of the Cantonese, headed by Chang Kai-Shek, and the left branch.

The consular body met this afternoon and discussed the protest received from the Soviet consul-general against the stationing of municipal police around the consulate. It was decided to refer the protest to the Shanghai municipal council with a request for an explanation of its action in ordering the guard placed.

Plane to Carry 100 Passengers Under Construction at Famed Junker Factory

World's largest airplane is being built in the Junkers works at Dessau for transatlantic passenger service. The machine, the creation of Professor Junker's himself, will be 120 feet in length, with accommodations for 100 passengers.

DESSAU, Germany (I. I. N. Special)—There is no limit to the size of airplanes.

That is the opinion of Professor Junker, head of the most important works in Germany.

To prove his contention he is now supervising a plane larger than any in existence. It will accommodate 100 passengers in comfort and safety.

"I feel I have said an amazing thing and other planes, including the wing spread of power in one

portion, the head and engine mounted in the front part of the wing. The fuselage will be a complete roomy shop affording a safety of operation and providing a convenience equal to low land conveyances.

The new plane will have a carrying capacity of one hundred persons. The Junker believes that it is possible to make one carrying 200 persons that would be possible.

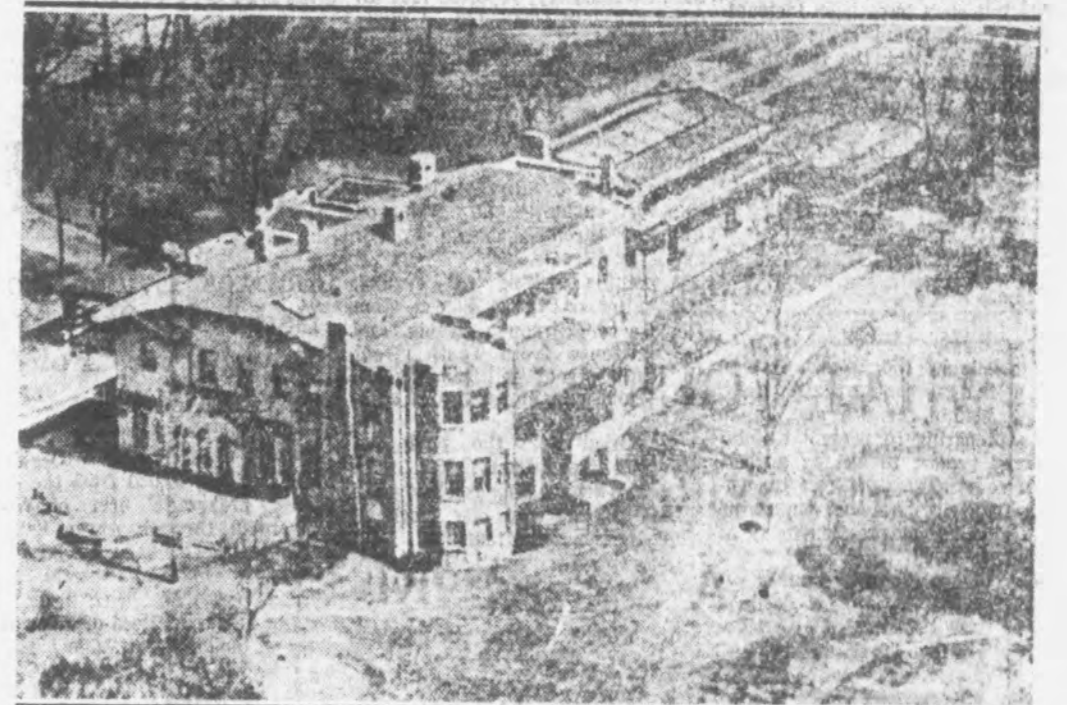

The new Junker is of unusual design. It has no empty, useless cabin and a great flying wing.

It is 120 feet in length, driven by four motors,

mounted in the front part of the wing. On board will be a complete roomy shop affording a safety of operation and providing a convenience equal to low land conveyances.

While the plane is being built for aviation use, and the German Government is careful to make no military machinery of note, it is believed that a fleet of planes similar to this could serve a whole army from one end of Germany to the other in a few hours.

Rockefeller, Nearly 88, Plays Best Golf and Takes Livley Interest in Daily Affairs

Ormond Beach, Fla., Apr. 8.—(AP)—My life has been one long and happy holiday.

"Full of work and full of play; I've dropped my worries on the way. And God's been good to me every day."

John D. Rockefeller watched one of his especially good drives go sailing down the fairway and then turned, smiled and repeated this jingle to his companions. He likes golf and as he approaches his eighty-eighth birthday, July 8, he has shot eight holes in 45, a feat comparable with breaking a hundred.

This is the time when most other captains of finance of the same age confine their playing to mere putting on the green. Old friends tell him he is playing his best game of golf in years.

Whacking the white ball is Rockefeller's chief outdoor diversion and the weather must be bad to interfere with the daily game. At his winter retreat, by the sea and the winding tidal reaches of the River Halifax the magnet for years has been a familiar figure and the town people respect his desire to be a casual citizen. But the club's newspaper folk and tourists flock to see him.

After a fine drive or successful putt he may be expected to vent his enthusiasm in quaint ways. He jokes with his caddies, recites jingles to friends and sometimes may do a little sort of a dance.

Rockefeller is deeply religious, and if he has any worries the world doesn't know any of them. His routine, from breakfast and the daily game of Numerica, through eight holes of golf, the afternoon ride at a lively speed and quiet evening with friends, or reading his favorite publication to the bedtime hour, is unhurried but intense.

On Sunday he attends church services and the evening usually finds him at a religious concert in the tourist hotel across the street from his home. At both places he remains open to chat a few min-

utes with friends.

He maintains his interests in business and human affairs, and though he lives simple, has not lagged in enjoyment of modern inventions. While hardly a radio fan, he derives pleasure from his set.

Despite enormous wealth, Rockefeller does not waste money. His household expenses are carefully budgeted. He may give away bright new things increasingly, but he does this, he says to encourage thrift.

His desire to avoid publicity is not so much because he dislikes appearing in print as it is that he wants to be left alone to live his own life without having every act chronicled, his friends point out.

Few photographers have been able to make study pictures of him in his home. If he is not pleased with a photograph he rarely grants a second sitting. On the other hand, he has been known to call a photographer with whom he is acquainted to come for the purpose of making pictures.

One day, it is told, Rockefeller asked a photographer to accompany him on a visit to the home of a child who had been admitted to a well through an operation provided by the marquis. He scanned several pictures of the child climbing a tree. But when his household objected on the ground he already was too much in the public prints the photographer's picture was not to be made.

ing means and every citizen must strive to eliminate conditions which cause fires." The third week in April has been set aside as "Fire Prevention Cleanup Week." Let's join the movement, clean up our fire hazards and in turn reap the benefit of more safety and the lowest possible insurance rates.

Now comes word from Wayne county to a farmer who, for three years, has not planted tobacco because "the use of tobacco is a sin." In the same family are four sons, William, Bill, John and Johnny.

The Foreign Relations Committee of the Senate representing the people of the United States was not permitted to make an official visit to Nicaragua to study conditions at first hand but now a personal representative of the president and state department has been appointed to make a study of conditions in the country. Apparently the public has no business knowing anything about the real conditions beyond what the state department sees fit to give out.

RESULTS
 Here are a few specific examples that show the effect of safety teaching.
 A small colored boy was one of a class in Springfield Mass., that worked out an elaborate project in fire prevention. Among other things the class made a trip to a fire station, and was taken to a fire alarm box and taught to ring an alarm. In their classroom work, in addition to the more usual activities they also built a fire station and an alarm box. A few months later a fire broke out in the kitchen of the small boy's home. His mother lost her head and stood in the middle of the floor crying, but Nathaniel ran out and rang an alarm, waited for the fire engines to come, and directed them to his home. The next day the father told the principal of the school that the action of the boy was undoubtedly all that saved his home from burning, a home dilapidated which cause fires."

Despite the fact that fire alarm boxes are located in convenient places throughout our city there is a comparatively small percentage of our population that really knows how to turn in a fire alarm. The teaching of such a method in our city schools might at some future date be responsible for preventing some great conflagration.

The city of Morgantown, W. Va., according to C. L. Topping, state fire marshal of that state, has just furnished an illuminating example of what can be done to keep insurance rates down. The University city has gained the new and improved classification in fire insurance for which its officials have been striving for nearly a decade, and it will mean an annual saving to that city in insurance prem-

Friday evening, "The Day of Suffering."

These services are designed to be spiritually helpful especially to all professing Christians. There will also be the evangelistic note. A cordial invitation is extended by members of the church and pastor to all to attend these services.

GREENVILLE HIGHS DEFEAT WASHINGTON

In a fast and exciting game the locals defeated Washington yesterday, at the Fair grounds by the score of 6 to 5. The game was very interesting and fast except for a few miscues on both teams.

The Greenville team, as a thing although at times the high wind caused them to make some bad plays, Denton's and Respress' fielding featured also.

Walker and Girkins were the stars for Washington with three hits out of five each, while Respress led for Greenville with a triple and double. Although Harrington was wild he pitched a pretty fair game, striking out one of his opponents.

Washington 5 11 9
Greenville 6 8 5
Girkins and Brown; Harrington and Curry.

MRS. MOYE ENTERTAINS WOMAN'S CLUB

The meeting was opened by Mrs. J. H. B. Moore. Mrs. F. K. Futrell, secretary, read the minutes, and Mrs. Ellen, treasurer, gave the financial report.

Mrs. Joyner, of Farmville, who is chairman of music of this district, gave a most interesting talk on "What Music meant today to an educated person—you must know music or your education was not complete." The meeting was then continued by the various reports from the different chairmen. Mrs. Harvey Gardner dept. — reported she would have three speakers at an early date on plants and shrubs.

Mrs. Ray Tyson, musical department, insists on the town taking great interest in what is known as national musical week. Mrs. Ailsbrook, civic department, announced that in November Dr. Futrell would hold a T. B. clinic.

Mrs. Key Brown, ways and means, announced her plans to raise money for finances through the summer. She is treasurer and will receive any money the members will turn over to her.

Only two changes in executive board. Mrs. H. E. Austin is chairman of garden department. Mrs. D. L. Mangum is chairman of literary department. When business was completed the club was served an ice course.

The state Federation will meet in Durham the first week in May. The president, Mrs. J. H. B. Moore and three delegates

Mrs. J. N. Gorman, Mrs. Ray Tyson and Mrs. Travis Hooker will attend. —Reporter.

Market Report

Cotton--Stocks--Grain

COTTON

New York, April 8.—(AP)—The cotton market was very quiet today and prices fluctuated within a narrow range. July sold up to 14.35, on early reports of unsettled weather in the South but failed to hold the advance, which attracted some commission house realising. At 2 o'clock July was selling around 14.31 with the general list about 3 to 5 points net higher.

Futures closed firm. 8 to 11 points higher; spot quiet; middling 14.45; High Low Close Fr. 71.

STOCK MARKET

were numerous exceptions in New York, April 8.—(A. P.)—The stock market was a "twisted affair" again today, with the rails climbing steadily to new high ground while the industrials were inclined to sell off. There were numerous exceptions in each group but major speculative activity appeared to be on the upside. Trading showed a sharp reduction in volume.

The close was firm. Total sales approximated 1,000,000 shares.

BODY OF DEAD MAN FOUND ON STREET IN FRANKLIN, N. C.

Franklin, N. C. April 8.—(AP)—Charlie W. Haynie, 39 years old, a horse trader, was found dead early today lying in the street almost in the center of the city. His body and officials said after an examination they were unable to find any wound that would have been fatal. The coroner's jury impaneled soon after the body was found adjourned until this afternoon while officers sought two men and a woman with whom Haynie left town last night. When the body was found he had only a few cents. Names of those held was withheld.

Franklin, N. C. April 8.—(AP)—Harry Shepherd and DeWitt Sutton of Franklin and Miss Blake Addington of Clayton, Ga. are held in the county jail here charged with the murder of Charlie W. Haynie, 39, a horse trader, whose body was found lying on a street here early today. The trio, apprehended at Tryon, was returned here this afternoon.

The coroner's inquest into the death of Haynie, postponed early today, was to be resumed at 4 o'clock. Officers said that the automobile in which the trio were riding when arrested contained blood smeared and that a hat identified as belonging to Haynie was found in it.

Raleigh, N. C. April 8.—(AP)—A man giving his name as Garland W. Daniels, of Henderson, N. C. today was held by Richmond, Va. police on charges of stealing an automobile in Raleigh, but also for breaking out of Meriden, Conn. jail.

Federal agents charged Daniels with the auto theft.

Are you feeding the by-guess and-by-gosh way. If you are, you're not getting the results you should. We have a little book here at our place called the Dairyman's National the asking and Bank. It's your for you'll find a lot of common sense in it. The book is put out by the Purina people.

Why is it that over 1000 hatcheries recommend Purina Poultry Chows? The answer is easy. They want their chicks to live and make profitable chickens.

Feed those young pigs Purina Pig-chow and make market hogs out of them by September. The average weight of one litter was 227 pounds in six months on Pig-chow and corn at La Grange, N. C. Have you ever made good on one job.. for 39 years?

THE extra mileage you get from Dunlop tires starts with the fact that Dunlop has had thirty-nine years of tire-building experience—more than any other tire-maker.

Each part of each Dunlop is built right. Dunlop owns its own cotton mills to spin selected long-fibre cotton into the special Dunlop cable-twist cords.

These cords mean extra strength—an added factor of safety against constant load and pounding of roads—longer life and greater mileage.

They mean extra "stretch"—so the tire carcass will give under blows, and come back to its original shape without the slightest injury.

Every Dunlop you buy has extra miles built into it because Dunlop knows each part of its job. That is why we recommend you put Dunlops on your car.

Most Formidable Array Of Talent To Represent America 1928 Olympics

New York, April 8.—(A. P.)—Having solved its transportation and housing problems at one stroke by deciding to charter an ocean liner for the entire trip of America's athletes to the 1928 Olympics, the American Olympic committee under the leadership of William C. Prout, of Boston, today launched a program designed to marshal the most formidable array of talent it has ever sent after athletic conquest. With the exception of tennis, which has been withdrawn from the Olympic program as an outgrowth of unsatisfactory conditions at Paris in 1924, the machinery has been set in motion to form the strongest and most representative teams possible in all abroad at a cost of approximately \$350,000.

Especially keen competition for the track and field teams, major unit of the American contingent, is anticipated by the committee in framing its plans for nationwide tryouts leading up to the final tests in the east just prior to the departure of the athletes, now slated for between July 4 and 8, 1928.

Although no coaching selections yet have been made, it is considered likely that Lawson Robertson, of the University of Pennsylvania, again will coach the track squad, aided by other experienced mentors.

Olympic committee members regard prospects also as particularly bright in such sports as rowing, swimming, boxing and wrestling, all of which will be held during the two weeks' period of main activity at Amsterdam, starting June 28.

The development of such swimming stars as George Koike, 17-year-old New York school boy together with the rise of a new group of mermaids to replace Gertrude Ederle, Aileen Riggin and Helen Wainwright, is regarded as a good augury in aquatics.

At rowing, Yale, which won the 1924 Olympic title, is expected to enter its varsity crew in the tryouts again, along with the Naval academy and possibly the University of Washington, whose crews have divided domination of the Pauckkeepsie regatta for six years in a row.

Colleges and clubs throughout the country, as well as the numerous sports governing bodies, will all be raising the fund at a rate of \$1000 per athlete. This work will be directed by the new treasurer of the committee.

Contender

With Suzanne Lenglen out of the picture, and Helen Wills' ability to come back a matter of speculation, ambitious women tennis players are vying their rackets with special zest this Spring. In Europe Milla, Didi Vlasto is considered the most likely successor to La Lenglen's crown. Helen Wills defeated Milla, Vlasto, here shown on the courts.

With The Big Leaguers

New York, April 8.—(A. P.)—Gotham welcomes home three thumping metropolitan teams tomorrow afternoon after a hectic training campaign which has strengthened prospects of powerful pennant drives by the Yankees and Giants.

First of the northward bound clubs to reach New York will be the Yankees, who pulled stakes in Nashville, Tenn., last night, after holding the Cardinals even in a spring renewal of their world's series struggle. Tomorrow they play the Brooklyn Robins at Ebbets field.

A suite of home runs by Frank Frisch, whose bat accounted for six Cardinal runs, enabled the world's champions to carry off the eighth game of their tour with the Giants, 10 to 8. The Cardinals broke even four games to four in the series.

The Giants at the same time again with a high peared clout-stove in the Senators defense safe smashes told the tale, clinching attack 19 to 9. Twenty-threeing the series for New York, 7 games to two.

Three battles remain to be played, one today at Washington and the remaining two at the Polo grounds.

Cincinnati, April 8.—(A. P.)—The Cincinnati Nationals close their long training tour with a single contest against the Indianapolis club of the American association at Indianapolis today. Saturday and Sunday the Reds play the Cleveland Indians on Redland field here.

Cleveland, April 8.—(A. P.)—The Cleveland Indians have backed their straw hats to beat north for the beginning of the season.

A game with the University of Alabama at Tuscaloosa today completes the southern program.

Chicago, April 8.—(A. P.)—The dean of the Chicago White Sox pitchers, Red Faber, has at last established his fitness for the last established his fitness for the last season, after two discouraging starts. Facing Memphis yesterday, Faber yielded three successive hits at the start but the opposition dwindled. Manager Schalk has now three pitchers.

A day of rest was presented the Cubs in Kansas City by the weather man yesterday.

Philadelphia, April 8.—(A. P.)—The Athletics already have won a baseball championship although the major league opening is still in the offing. They stopped the Phillies, 2 to 1, yesterday, clinching the municipal title, three games to one. Eddie Collins was in lead-off position but failed to get a hit.

Pittsburgh, Pa., April 8.—(A. P.)—Indications are that Ray Kremer will pitch the opening game for the Pittsburgh Pirates at Cincinnati on April 12. Dallas, Tex., trimmed the Buccaneers yesterday 3 to 1. Today the Pirates were to oppose the Little Rock, Ark., Travelers, of the Southern association.

Washington, April 8.—(A. P.)—The series of hard knocks that McGraw's New York Giants have been handing the Senators is causing Manager "Bucky" Harris to become impatient to return to the Washington lineup. Walter Johnson expects to have the cast removed from his injured leg within a week or 10 days.

THINGS QUIET WITH THE "BIG FIVE"

Raleigh, April 8.—(A. P.)—Things were quiet today along the "big five" North Carolina college baseball front, with two units of battlers engaged in battles outside their territory.

Wake Forest, winners over Guilford yesterday, was in Asheville for a sham engagement with the Asheville Sally League entry-while Davidson, defeated by Wofford yesterday, moved into Greenville, S. C., to meet Furman university.

Carolina and State engaged in final drills for their encounter at Chapel Hill tomorrow. Duke's Fred D. is supposed of Durham after losing to Kinston yesterday 9 to 10 homers. They go to High Point college for a game tomorrow.

Atlantic Christian was at home to Wingeo college in Wilson while Lenoir Rhyme winners over High Point yesterday, met Catawba at Hickory.

EAR HEEL AMONG LEADING HURLERS

Raleigh, April 8.—(A. P.)—Victor Sorrell, former Wake Forest college pitcher, "will be among the five leading hurlers in the national league this season," is the belief of Frederick Wilson, Toronto, Canada, newspaper man.

Mr. Wilson said the Wake county product "has everything it takes to make a good pitcher. And he is one of those chaps who seem destined to continue development on and on."

Daily News Letter

Gossip of Staff Correspondents at World Centers of Population

Denver, April 8.—(INS)—Although she has never seen a note of music, Miss Blanche McCarl, who was born blind, plays brilliantly the most difficult classics, and what may seem more marvelous, is teaching a class of youngsters who can see the musical symbols she has only "felt."

For Miss McCarl learned her notes from a musical staff constructed of five taut wires, on which were strung cleft, notes, and bars, and her mind's eye, she visualizes the appearance of the music she plays.

Her method of learning a new composition is to have a friend read her the staff. She memorizes each note, and in a short time is able to play the complete piece.

Musical ambition stirred in Miss McCarl's breast when she was a seven-year-old inmate of the Colorado Springs Home for the Blind. She heard someone playing Beethoven's dainty minuet, and her little heart yearned to reproduce the haunting melody.

Her impulse was noted by a teacher, and she was given a chance to practice finger exercises. Her course through simple melodies, up to Beethoven's Sonata Appassionata, by latest accomplishment has been one of painstaking care and minute work.

First she learned the New York point system, consisting of raised dots, representing musical notes, similar to the Braille system for representing letters. Then she became familiar, through feeling the notes on her wire staff, with the actual appearance of the musical symbols, learned their names, and was able to translate them into piano notes when they were dictated to her.

She is now studying under Charlton Harris, himself blind, and expects to receive her diploma and a certificate to teach in a short time.

The mellow note of the huntsman's horn will soon resound from the foot of Pike's Peak, as the morning sun gilds the snow at the summit of the famous old mountain, and the eager baying of the hounds will echo as the scarlet-clad horsemen dash across the foothills after elusive Br'er Reynard.

Fox-hunting, held in as great reverence by your English squire as the ancestral sport of golf is by the kilted Scot, will invade the land of chapparal and spur this summer when the Colorado Springs Riding Club unleases its pack of hounds for the West's first taste of the ancient pastime.

Riding is already one of the most popular sports in the Pike's Peak playground region, with the establishment of the U. S. Army Remount Service and many private stables. The addition of the pack of 17 hounds a gift of Austin J. Niblack, of the Lake Forest, Chicago, Hunt Club, is expected to add a new stimulus to the flare for fine horses.

During the winter, the pack has been received primer lessons in the pursuit of the wily fox at the expert hands of Col. W. H. Neill, in charge of the Army Remount Station, and several practice chases have promised well for apprentice hounds.

Until foxes can be secured—coyotes, the prairie member of the canine tribe not being very satisfactory as game—"drag hunts" will be in order.

One reader is amazed that doctrines of the Russian "red communists" should be taken up so greedily in China. There is where many of us own something, we don't think much of communism, but in China, where 300,000,000 haven't got much of anything, a suggestion to divide might be carried.

Japan has learned to do everything in a big way, has what call a big failure. The great Tokio firm of Suzuki suspends payments, with liabilities of a quarter of a billion dollars, has a million yen. Arrest Negroes Who Kidnapped Chattanooga Child

Chattanooga, Tenn., April 8.—(AP)—Charges against Mrs. Annie Tominson and Frank Baskett, former policeman, out on bonds of \$4,000 each in connection with the kidnaping March 27 of Virginia Jo Frazier, two-year-old daughter of City Commissioner and Mrs. Fred B. Frazier, will be dropped. W. H. Hackett, chief of detectives announced today following the arrest of the two negro boys. The boys have made complete confession of the kidnaping of the baby, Hackett said.

Lewis Willis, 18 and Arthur Willis, 14, negro brothers, in their statements to officers, did not implicate Baskett or Mrs. Tominson, Chief Hackett said. "There is only one thing for us to do, and that is to drop charges against Baskett and the woman," Mr. Hackett said.

The negroes said Virginia Jo was kept in an attack in the Willis shanty. Officers found three full cans of ether and one half empty can in their home.

Virginia Jo was under the influence of an anaesthetic when she was left on the porch of a minister three days after she disappeared from the Frazier home, physicians said. Lewis Willis formerly worked as a yard boy at the Frazier home and Arthur Willis had been employed by a Chattanooga hospital, Hackett said. Of the \$3,300 ransom money, \$3,100 in bills, the numbers of which had been noted by police was found in the negro boys' home.
