TWO PERSONS BADLY INJURED BY TERRIFIC WIND AND HAIL STORM DURING YESTERDAY

Twister Exacts \$100,000 Property Damage Over Fifteen Mile Pathway.

Two persons injured and property and crop damage estimated in the neighborhood of \$100,000 resulted from a terrific wind and hail storm which passed over this community yesterday afternoon at four o'clock. Numbers of tobacco barns and out-houses in path of the "twister" were scattered several hundred yards over fields between Ballard's Cross Roads and the Stokes community. Hundreds of trees were uprooted, and telegraph and telephone communication paralyzed between Greenville and districts affected by the storm.

Two negro women fishing on the banks of Tar River, sought safety from the storm in one of the hatched buildings at the Ross Poultry farm, several miles north of Greenville, and barely escaped with their lives when the building was shattered over their heads. They were Margaret Wooten, aged 60, and daughter, Jane Wooten, 20. They were so badly cut about the face and arms that they were brought to Greenville a short time after the storm had subsided to receive medical aid. The older woman's injuries were considered serious, but not necessarily fatal.

The twister exacted the greatest toll on the Ross Poultry farm. Eleven buildings scattered over an area of half a mile or more were completely wrecked. One thousand chickens were killed. The hatchery one of the finest in this section of the State, was wrecked. Fifteen hundred biddies were due to have come off today. A silo, tobacco barn and an out-house or so were also razed. Damage is estimated at approximately \$100,000.

Charlie Ross, owner of the poultry farm, said the wind demon bore down out of the southwest with such fury and intensity that laborers barely had time to find shelter before timbers began flying in all directions.

The cloud came up in a short time, Mr. Ross said. It came at terrific speed, twisting and tearing away everything in its pathway. It was accompanied by a roar similar to several locomotives in action at one time, and continued for a period of two or three seconds. I saw the cloud when it first formed and called to men working in the various buildings to flee for their lives, that a cyclone was coming. The negro women, who had been fishing on the river banks at the lower end of the farm, reached one of the laying houses just a few seconds before the twister shattered it into a thousand pieces.

The wind continued in a north-easterly direction from the Ross farm to the Stokes territory, uprooting trees and razing out-houses and tobacco barns as it went. The village of Stokes suffered only slightly from effects of the twister, although the hail storm in that immediate vicinity was unusually heavy.

Herman Whichard, son of E. B. Whichard, who resides a short distance from Stokes, was lifted from a cart in which he was riding through a field, and carried fifty yards or more by the force of the twister. The front porch roof of the Whichard home was blown away, but other buildings on the farm escaped damage. Numbers of barns and sheds for miles around were either razed completely or moved from their foundations.

The path of the cyclone was not over a half mile wide. In some places the wind would pick up a building and leave others standing nearby. This occurred in numbers of places over the fifteen mile pathway from Ballard's Cross Roads to Stokes. The wind passed over into the Bear Grass section of Martin County.

The damage in Greenville was negligible to that in sections directly in path of the cyclone. The worst damage occurred in the blowing down of several trees, breaking of windows, and slight disruption of telephone and telegraph service. The total extent of the damage to all crops had not been determined today. The fields in numbers of places were badly torn up by the wind, and plants were injured to no little extent by hail stones. Although the hail continued only for a few minutes, the fall was so heavy that young plants of all descriptions were severely cut up.

De PINEDO RESUMES HIS FOUR CONTINENT FLIGHT

Philadelphia, May 12—(AP)—Commander Francesco De Pinedo Italian flier, resumed his four-continent air voyage at 7:25 A. M. today when he lifted his giant seaplane from the surface of the Delaware river, opposite the Philadelphia Navy Yard and started for Charleston, S. C.

As the Italian aviator is flying in a seaplane he is following the coast line to Charleston.

Charleston, S. C., May 12—Commander Francesco De Pinedo, the Italian flier, continuing his four-continent air voyage arrived in Charleston at 1 p. m. today from Philadelphia, making the trip in his giant seaplane in 5 hours and 35 minutes.

Robbers Make Big Haul Near Pittsburgh

Pittsburgh, May 12—(AP)—After kidnapping and binding the city Marshall and throwing the town into darkness, six robbers early today hauled away the two ton safe of the McCune State Bank at McCune, 20 miles west of here. The safe contained \$7,000 in cash and \$200,000 in registered securities.

Austin Appointed Royal Arch Captain

H. E. Austin was appointed Royal Arch Captain of the Grand Chapter of Royal Arch Masons at the annual meeting of the grand bodies of York Rite Masons of North Carolina in session at High Point, according to announcement made yesterday afternoon.

Mr. Austin is an instructor at the East Carolina Teachers College. He has been a member of the Masonic organization for many years, and his gradual rise in Masonry is watched with considerable interest by friends in all sections of the state.

BECOMES PAPA FOR TWENTY-FIRST TIME

Jacksonville, May 12—(AP)—Samuel A. Long, of Nortonville, became a father for the twenty-first time yesterday. Mr. Long, who has been married twice, is 69 years old and his wife is 25. Mr. Long's progeny now outnumber those of Herbert Clayton, a resident of the same neighborhood whose 20th child was born recently.

No Graft Evidence Produced In Board of Health Inquiry

Raleigh, May 12—(AP)—Investigation of alleged rigidity of enforcement of sanitary laws in Gaston county but nothing that would tend to develop any evidence of "graft" featured the first part of the hearing being conducted here today by Attorney General Brummitt into charges made against the State Board of Health during the Legislature.

J. M. Holland, Gaston County told the Attorney General that condemnation of previously approved sanitary arrangements had cost property owners in his county \$75,000. The attorney general was sitting as investigator on call of Governor McLean and at request of Dr. O. H. Laughinghouse, state board health and the state Medical Society, for a thorough investigation.

He asked each witness in course of his examination if any evidence of graft or misconduct had been evident on part of any of the 60 inspectors which have enforced the law since 1919, and the answer were all negative.

Dr. John P. Burroughs of High Point, President of the state Medical Society, reported he had wired the president of every county Medical Society in the state "Inquire in your community of any evidence of graft in administering the privy law and report results of inquiry of complaining parties, if any, to the attorney general."

FILM ACTRESS TO TAKE STAND IN MURDER TRIAL

Dorothy Mackaye Holds Center of Stage Today in Trial of Paul Kelly

Los Angeles, May 12—(AP)—Dorothy Mackaye, actress, became the center of renewed interest today in the trial of her admirer, Paul Kelly, screen actor, for the murder of her husband Ray Raymond, a silent comedian, as she faced the prospect of taking the witness stand not only to testify against Kelly but also to defend her own name.

The new turn in the story of the bare knuckle battle in Hollywood which ended in death came when it was made known that Miss Mackaye would be called to the stand immediately after completion of questioning of Charlotte Ethel Lee, negro maid in the Raymond home who witnessed the fight. The maid told the jury that Kelly, in Raymond's absence from the city during a tour with the musical comedy in which he was starred brought Miss Mackaye home almost nightly from the theatre, where she was appearing in the "Dove". There were many times, the actress did not return home at night.

Throughout the investigation of her husband's death following a battle with Kelly, which the screen juvenile has admitted was over the affections of the actress, Miss Mackaye has staunchly declared her friendship for Kelly was "clean and noble," and that she had refused the demands of Raymond that she give up this friendship.

The maid was still under cross-examination at the adjournment of court, but attorneys said her testimony probably would be completed soon after court opens this afternoon.

She gave the jury an almost blow by blow account of the battle. During the recital of what she described as a one-sided fight between the recital of what she described as a one-sided fight between the film actor and the fifty pound lighter musical comedy star, Kelly sat with his head bowed.

MITCHELL WINS GOLF TOURNAMENT

Wentworth, Surrey, England, May 12—(AP)—Bae Mitchell, noted British golfer and member of the British Ryder Cup team, today captured the Daily Mail golf tournament for professionals with an aggregate of 294.

Wentworth, Surrey, England, May 12—(AP)—Bae Mitchell, noted British golfer and member of the British Ryder Cup team, today captured the Daily Mail golf tournament for professionals with an aggregate of 294.

TO START FOR PARIS TONIGHT

This shows Charles Chamberlin seated in the Bellanca plane in which he and Lloyd Bertraud expect to hop off from New York tonight on a non-stop flight to Paris.

DES GLAISES LEVEE GIVES AWAY TODAY

Crew of Several Hundred Workmen Endeavoring to Stop Ten Foot Crevasse.

Eaton Rouge, La., May 12—(AP)—The levee on the Bayou Des Glaisses, one mile northeast of Cotton Port, broke today, crevasse ten feet wide occurring. Reports said that crews of several hundred workmen were endeavoring to stop the crevasse.

New Orleans, May 12—(AP)—Under the pressure of steadily rising backwater, the Bayou Des Glaisses levee was holding early today, but with warnings out that a break might occur at any moment.

Throughout the night citizens and laborers filled sandbags to stop the flow of water through hastily constructed topping and to raise higher the dyke between Bordeloville and Sarto, 125 miles on an air line northwest of here, and on the west side of the Atchafalaya river from the Mississippi.

Flood relief headquarters at Baton Rouge were notified last night that the water had early reached the top of the dyke and army engineers expressed the belief that before nightfall flood waters would be escaping over the top. If a crevasse did not occur before then.

Livestock in the threatened area has been removed to safety and all residents have moved to higher ground except the 1,000 or more determined men who sent out word early this week, "If it goes out, it will go out with us or top of it."

While outside the area plans have gone forward for relief in event of a break, the citizens have stoutly declared they would hold back the flood waters. A rescue fleet has been concentrated at strategic points to prevent loss of life.

A crevasse at the threatened point within the next 24 hours would cause much of the flood waters from the Arkansas breaks and the winter quarters and Cabin Teale crevasses to be diverted down the Atchafalaya basin, bringing a measure of relief to the main Mississippi levees.

A smallpox epidemic in the Bouef river section of northeast Louisiana was featured, according to Miss Winifred Callahan, Red Cross relief worker in charge of the refugee camps at Harrisonburg, Sicily Island and Rhinehart, who flew to Natchez, Miss., yesterday for vaccine points and anti-typhoid prophylaxis serum.

Fifteen thousand refugees are now being cared for in three camps she said, and this number is increasing rapidly.

LONE FLIER HOPS OFF FOR NEW YORK

Missouri National Guard Aviator Expected to Arrive Late Today.

St. Louis, May 12—(AP)—Captain Charles Lindbergh, only lone pilot entered in the \$25,000 Orteig trans-Atlantic contest, left here today on the second lap of his trans-Atlantic flight, for Roosevelt Field, L. I.

Monoplane into shape for the New York hop.

Leaving at 8:12 a. m., the former St. Louis-Chicago air mail pilot expected to complete the 950 mile air-line journey in ten hours. Lindbergh was unaccompanied on the trip as he will be on the trans-Atlantic hop. Completing his 1,550 mile flight from San Diego to St. Louis yesterday in 14 hours and five minutes, Lindbergh made the longest flight in this country of an unaccompanied pilot, according to available records.

Lindbergh is a flight commander in the Missouri National Guard Air Unit here.

Kansas City, May 12—(AP)—Captain Charles A. Lindbergh, who hopped off from St. Louis today for New York, from where he plans to attempt a non-stop flight across the Atlantic to Paris, is a comparatively new flier.

He began his flying career at the army flying school at Brooks Field, San Antonio, Texas, early in 1924 and at Brooks Field he became a member of the "Caterpillar Club" when a plane became unmanageable in the air, and he leaped in his parachute. Three other times Captain Lindbergh has saved his life by parachute jumps.

Continue Search For Boy Murderer

Robbinsville, N. C., May 12—(AP)—While all Graham County was discussing today the fatal results of a row at a box party in Enoch School Tuesday night county officers broadened their search for Howard Edwards, 16 years old, who was found to be missing from his home near here when he was sought Wednesday in connection with the killing of Joe Tipton and the wounding of Charles Tipton, brother of the latter.

Funeral services were held today for Tipton, who was slain following a quarrel over tabulation of votes in a cake contest at the party.

Charles Tipton, wounded three times in the chest, is expected to recover.

Edwards, sheriff officers said, is suspected of knowing something about the origin of pistol shots fired at the school building following an inside argument between speculators in which a dozen or more participated in a fist fight. The lights were knocked out, and as the Tiptons brothers left the building several shots were heard, one killing Joe Tipton.

HARRY HALL SUSPENDED FROM STOCK EXCHANGE

New York, May 12—(AP)—Harry E. R. Hall, member of the New York Stock Exchange firm of Bruning, Jackson and Company, was suspended for six months today by officials of the exchange for violation of regulations.

Mineola, N. Y., May 12—(AP)—Lloyd Bertraud announced today that he and Clarence D. Chamberlain are planning to hop off tonight or early tomorrow morning on their proposed non-stop flight to Paris in their Bellanca plane, the "Columbia."

Bertraud said the decision as to the definite time of the take off would depend largely on the afternoon weather report, which is expected here at 4 o'clock. He expressed doubt on the possibility of a get away before midnight, but was confident he would be on his way to Paris early tomorrow.

The Bellanca monoplane was kept behind closed doors in its hangar where mechanics replaced a metal propeller with a wooden one.

Observers at the flying field believed that the approach of Captain Charles A. Lindbergh, another trans-Atlantic contender who is due here in his Ryan plane tonight from St. Louis, may have spurred on the backers of the Bellanca flight.

From Angola south, thousands continued to strengthen the levees in preparation for the final assault of the Mississippi river as the flood water from crevasses north returned to the stream by way of Old River.

POLICE PATROL AND WOODSMEN OF NEW FOUNDLAND JOIN HUNT FOR MISSING FRENCH AVIATORS

White Bird Believed To Have Been Seen From Harbor Grace Monday Morning.

(By The Associated Press.) Word came today from Harbor Grace, N. F., that a third person in that far off spot in the British colony had heard the whir of an airplane high overhead in the fog last Monday morning at a time when Captains Nungesser and Gail in the White Bird were due over Newfoundland in their flight from Paris to New York.

Police patrols and woodsmen have joined in a search that will carry them far into the forests and wooded waterways that indent the country. It may be days before the hunt is concluded.

The dwindling hopes that the French aviators may be found seem to rest on the Newfoundland arch Captain R. D. White, naval attaché at Paris, informed the Navy Department that Nungesser's proposed route would have carried him over Northern New Foundland near the Belle Isle Straits. The aviators may have drifted in the fog southward and this would have brought them over Harbor Grace.

Meanwhile United States vessels and coast guard patrols are threading zig zag courses on the Western slopes of the Atlantic hunting for the airmen while the dirigible Los Angeles is waiting for better visibility before joining in the search. Wireless and steamship companies were still without any comforting word today of the French aces now three full days overdue at New York.

Charles Lindbergh, flight commander in the Missouri National Guard, hopped off from St. Louis for New York today. Lindbergh is the only lone pilot entered in the Orteig Trans-Atlantic contest. All is in readiness at Curtis Field, L. I., for the start of the Bellanca plane early Saturday morning.

SIX ARE KILLED AND 40 HURT BY EXPLOSION

Dallas, Texas, May 12—(AP)—Five men and a woman were killed and more than 40 persons injured in an explosion that wrecked a two-story brick building here last night. The explosion occurred while firemen were fighting a blaze in a drug store on the first floor. Upwards of 35 members of the metropolitan lodge of the I. O. O. F. were assembled in a hall on the second floor. A dozen persons were in the drug store.

Shortly after the arrival of the firemen, a quantity of gasoline was ignited and a terrific blast resulted. Spectators said the roof seemed to lift while the walls expanded slightly, then collapsed.

Persons in the street were injured by flying brick and glass. Windows in adjoining blocks were shattered. Several of the injured were reported in a critical condition.

W. Henry Lee, captain of the fire company, was killed and four other firemen injured. The woman victim was identified as Mrs. Christina L. Cour, 61. She was struck by a brick as she sat in an automobile in front of the store.

W. D. Hill, secretary of the lodge and O. D. Allen, owner of the store were crushed to death, as were Frank Linka and E. P. Norvell. Volunteer workmen today had virtually cleared away the debris and it was believed all persons in the building were accounted for.

Captain Charles Lindbergh, Missouri National Guard flier, who has reached St. Louis after a 1,550 mile non-stop flight from San Diego Cal., on the first leg of his journey to New York, plans to hop off for Paris within a week or 10 days. He expects to make the hop alone.

The Navy dirigible Los Angeles in cruising today along its hangar at Lakehurst, N. J., was under orders to pursue the search for the Frenchmen as far as feasible along the Long Island coast and in territory not previously covered by ship and airplane.

Virtually the entire coast guard in New England remained in the hunt. Coastal radio stations kept their instruments open for word of the missing airmen and captains of trans-Atlantic vessels scanned their courses for trace of the plane. The report of an airplane motor being heard over Harbor Grace during a dense fog early Sunday was made by Peter O'Brien, a farmer and was supported by Captain John Stapleton, also a resident of Harbor Grace.

O'Brien said he had not learned until yesterday of the flight.

Harbor Grace is 65 miles north of St. John's, N. F., and in the area over which Nungesser had chartered his course. Aviation authorities suggested the theory that the airmen might have been lost in the fog and forced down in one of the isolated sections of New Foundland where days might be required before they could communicate with the outside world.

A rumor that the aviators had picked up by the Canadian liner Camronia, was disproved when the ship's captain reported to the New York office that he had neither seen nor heard anything of the plane. While three days of fog and rain prevented use of airplanes off New England, Coast Guard officials said the area over which air search might have been effective had been (Continued on Page Eight)

WORLD EVENTS TOLD IN PICTURES

THE MAN WHO CAME BACK

Many try to come back in sports, but few succeed. But Thomas A. Heuston, who in 1908 became the first man to hold both the pocket and three-cushion billiard titles, has regained the world's pocket billiard championship by defeating Erwin Rudolph.

GIRLS GET \$1,000,000 ESTATE

Edna Davy (left), thirteen, is left \$1,000,000, and her sister, Ruth (right), fifteen, \$300 a month by the will of the late Dr. Edward E. Tull, of Salisbury, Md. The doctor had offered to adopt the girls, but their father, a farmer of Fairmount, Md., refused to permit it. Relatives of Dr. Tull are attempting to break the will.

BLAMED FOR LYNCHING

The Chamber of Commerce and other civic organizations are pushing ouster proceedings against these officials because they did not prevent the lynching of John Carter, a negro, accused of assaulting a Little Rock, Ark., woman and her daughter. They are (left to right): Mayor M. J. Haynie, Police Chief B. C. Rotenberry and Mayor Charles E. Meyer. Carter was hung, his body dragged through the streets and burned in the center of the negro quarter.

Do It NOW and Avoid this

The second installment of income tax is due June 15. Earlier payments will convenience both the Government and the taxpayer. Here is art that may be used with an appeal from your local Collector of Internal Revenue, or with a local editorial.

CHATEAU DE HONEYMOON

Here's the scene of the honeymoon of Pola Negri and Prince Serge Mdivani, her chateau at Reuil Seraincourt, France. Serge is the brother of David, Mae Murray's husband. (International Newsreel)

Tellegen's Child

To see her father for the first time in fifteen years and to make her stage debut, Mlle. Diana Von Dommelen arrived in the United States from France. She's twenty-three. (International Newsreel)

RUTH AND JUDD FACING DEATH

Ruth Snyder and Henry Judd Gray are clinging to the hope that an appeal will save their lives. Their attorneys are preparing briefs intended to stay the death penalty inflicted on the adulterous pair. New photos show (top) Mrs. Snyder and her lover facing death, and (bottom) Prosecuting Attorney Newcombe and Dana Wallace, Mrs. Snyder's lawyer, shaking hands after the verdict.

"HANDS OFF IN CHINA" IS THEIR DEMAND

The United States' participation with other powers in a show of force in China is not going without protest at home. Photo shows a monster demonstration in Union Square, New York, which was addressed by labor leaders, Liberals and Chinese notables. "Hands off in China" was the cry set up at the gathering.

SMARTEST STYLES: WHAT NOTABLES ARE WEARING

The latest of the mode in street costumes for late Spring is reflected in these photos taken on Park Avenue, New York, and showing notables in the so-called smart set: (1) Miss G. and P. Clark, (2) Miss Edna Canning, (3) Miss Hazel Lusk, (4) Mrs. Coradine A. and (5) Miss Whitney.

CARRY THREAT TO CAL

Chester H. Gray (left) and Frederic Brenckman, Washington representatives of the National Farm Bureau, are shown after calling on President Coolidge at the White House. What they told him was not made public, but they told reporters that unless farm relief was granted, farmers would make it an issue.

TOO GOOD AS A MAN!

A policeman was attracted by the remarkable pool-shooting of an individual in an Oakland, Cal., poolroom. As he marveled, the thought struck him that the player was not a man, but a woman. A police matron verified his suspicions. Grace Boehm, twenty-three, wife of an invalid war veteran and mother of a baby girl, confessed she's been supporting the family by operating a concrete mixer and driving trucks.

ADVERTISING LOWERS COSTS

Newspaper advertising in America cost \$235,000,000 last year, a gain of \$15,000,000 over the previous year.

It has been argued that advertising is so much waste, so much added unnecessarily to the cost of articles sold. In one sense it is true; if the sales could be made without it, the price could be just that much less to the consumer.

But the world buys only information. It travels because it knows where to go, what it can see, how much it will cost. It builds new houses because it reads how other people build and live and enjoy. It dresses in new fabrics because these come to its reading eyes. It is many times cheaper to get all this information by reading than in any other manner. The world would settle down into a jumble of ignorant, unkempt, leave-me-alone provincial units, but for what it reads in the advertising columns.

ACCIDENTS

The word "accident" by derivation means something which "falls across." Falls across what? Why, some orderly procedure! Accident implies an order violated. If there were no order in the world there would be no accidents, for all events would then be equally casual. Order implies purpose. A bad adventure is one contrary to order and purpose. It results in an accident. Cross a street absent-mindedly and in violation of the order of traffic. You wake up in the ambulance. That's a bad adventure, according to the National Safety Council.

PLAIN STATEMENTS ABOUT TAXATION

Total per capita expenditures of the United States Government, adjusted for price changes, were three times as large in 1926 as in 1915.

There has been of late a marked tendency for the Government to undertake activities with which previously it was less concerned. Each class of ordinary civil expenditure has doubled since 1915.

Each citizen of the United States is individually responsible for increasing or decreasing taxes.

The budget idea is the basis of all economy and efficiency programs, whether in Federal, state, or local jurisdiction. The budget function is never popular. It often requires a "hard-boiled" attitude to resist enthusiastic spending officers and citizens who are interested in particular projects. The general welfare can be the only guide for an effective budget agency.

Too many governments have followed the advice of

Bret Harte to young men: "Always live within your income, even if you have to borrow money to do it."

NOT EVEN TRANS-ATLANTIC FLYERS CAN GET UNTANGLED FROM FRENCH WAR DEBT.

It goes without saying that the present demonstration of anti-American hysteria in France over the apparent loss at sea of flyers Nungesser and Coli is not going to help the diplomatic relations between the two countries which have not been exactly up to par since the war debts became overdue.

Wide-spread intimations in France that the United States Weather Bureau deliberately falsified reports of weather conditions in order that Americans rather than Frenchmen might be the first to have the honor of making the New York-Paris flight are almost too silly for denial on this side of the Atlantic but the mere fact that they exist in France furnishes a startling sidelight on the intense unpopularity of the United States with a former popular ally.

That Washington regards the spread of the rumors as serious is indicated by action of attaches of the American embassy in Paris in seeking to have the French authorities stop said rumors.

In the meantime the American Ambassador at Paris has cabled Washington to hold up the American flyers for a few days until the feeling in Paris quiets down.

The whole affair is a strangely revealing exposition of the fiery Gallic temperament—wonderfully inspiring when it is aligned with us, bafflingly incomprehensible when directed against us.

Out of the present outburst we catch a glimpse of the state of mind of the German leaders who plan-

ned the World War and also see how baseball would be a fatal game for France. We can also sympathize with the sentiments of the hundreds of doughboys, who followed through into Germany with the Army of Occupation and came back home with the startling news that they had been fighting the wrong people. —Raleigh Times.

TWENTY PRISONERS OF CALEDONIA FARM TAKEN TO RALEIGH

Raleigh, May 11.—(AP)—Twenty prisoners designated as ring-leaders in the mutiny at Caledonia prison farm last week were brought to State's prison here today to await transfer to "Camp Incurable," a new prison camp to be opened next week at Stokesdale, Guilford County. George Ross Poir, prison superintendent, and Dr. J. H. Norman, warden, were in Guilford County today supervising finishing touches on the new camp.

SPECIAL NOTICE FOR

Listing Taxes

Notice is hereby given to all persons in this township required to list Property or Poll for Taxation, must list their Taxes during the month of May. I can be found at the time and place mentioned below for the purpose of receiving their list:

Court House in the Grand Jury Room from 8 A. M. to 5 P. M., Beginning May 3rd and ending May 31st.

And after the above dates the Tax List for this Township will be closed. Attention is also called to the fact, that

Failing to List Will Result in You Being DOUBLE TAXED.

You are required by law to meet the List Taker at the above named places and dates, and list all real and personal property. All Farmers must come prepared to list the number of acres of each kind of crops, including Fruit Trees and Truck, as required by an act of the last General Assembly. This is for statistical purposes and not for taxation.

Please do not fail to see me before expiration of above dates. Positive no extension of time will be given.

Respectfully,

H. S. RAGSDALE, List-Taker
For Greenville Township.

LOCALS

Mrs. S. M. Woolfolk left this morning for a visit in Norfolk, Va. R. E. Martin left this morning for Suffolk, Va.

Miss Ward Moore left yesterday for a visit in Goldsboro.

Mrs. H. S. Ragsdale has returned from a visit in Goldsboro.

Mrs. John F. Lynch and children and Master Tom Dupree, who have been visiting Mrs. Lynch's mother, returned to Erwin today.

Mrs. R. W. Johnson, of Holden, Mass., is visiting at the home of her parents, Mr. and Mrs. H. E. Austin.

Mr. and Mrs. W. M. Scales, Mr. and Mrs. C. S. Graves and Mr. and Mrs. J. P. Rowlett went to Goose Creek today on a fishing trip.

A. D. Hobgood and W. A. Knott, of Kinston, were here today.

Mrs. W. R. Jones and Miss Ada Jones have returned from a visit in Raleigh.

Mr. and Mrs. J. N. Gorman have returned from Buckroe Beach, where they have been spending several days.

Clubs from Mrs. R. R. Cotten which was given in her usual vividly interesting manner.

Then Miss Bessie Brown, accompanied by Mrs. J. L. Fleming, gladdened the occasion with two beautiful songs—Brahms' Lullaby, and Homing, the words of which gained new beauty by the loveliness of her voice.

Mrs. J. L. Fleming, the retiring president, who has so efficiently served the club for two years, thanked her corps of workers for their hearty co-operation, with special emphasis on the work done so ably by Mrs. E. T. Dickinson, chairman of the program committee.

In the name of the club, she welcomed the incoming officers and bespoke for them the same co-operation and sympathy which she had received, to which welcome Mrs. J. L. Little, the incoming president, responded in graceful manner.

The hostess then served delightful refreshments and the club reluctantly disbanded for the year 1926-27.

"The Lunatic At Large" will be shown at White's Theatre Friday evening. Benefit Circle No. 3 of the Kings Daughters.

ROUND TABLE CLUB MEETS WITH MRS. WINSLOW (Reported)

The ladies of the Round Table Club held a very enjoyable meeting at the home of Mrs. J. E. Winslow Tuesday afternoon. There were only two members absent and it was the pleasure of the club to have as guests Mrs. Mack Brown, of Greensboro; Mrs. W. A. Darden, Miss Pullen, Miss Woodfield, Miss Grey. After a brief business session and the exchange of books the library program was announced.

Mrs. W. C. Vincent presented an interesting and instructive paper on "The Honey Bee."

The honey bee family, composed of the honey bee, the queen and the drone, are a busy family, living together in harmony, thousands of them work industriously to lay up a common store of honey. Their ever busy and methodical habits teach a lesson of industry and thrift.

According to the tales of ancient mythology, the art of beekeeping is undoubtedly the oldest craft under the sun, and the honey bee the most highly specialized of living species of animal life.

After the discussion of current events a social time was enjoyed during which the hostess, assisted by Mrs. Jesse Moye, served a delicious salad course.

BOUND OVER TO COURT FOR STEALING CHICKEN

Because he stole a chicken from a colored man about 75 years of age, Roy Johnson, 16 year old colored boy, was bound over to the next session of county court in a hearing before Magistrate John Ivey Smith yesterday afternoon.

GREENVILLE PATRIOT CHAPTER D. A. R. TO MEET SATURDAY

The Greenville Patriots Chapter of the D. A. R., will meet with Mrs. Jesse R. Moye Saturday afternoon at 3:30 o'clock. All members are requested to be present.

AUXILIARY MEETS WITH MRS. BROWN AND MRS. HUMBER

The Auxiliary of the American Legion met yesterday afternoon at the home of Mrs. Wiley Brown, with Mrs. Brown and Mrs. R. L. Humber hostesses. Following the business session, the hostesses, assisted by Mrs. Mac Brown, served a tempting ice course, and a pleasant social hour was enjoyed.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief From Head-Colds! It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

TO SPEAK HERE Friday Night

To Speak Here Friday Night

R. H. BARBER, of New York Will deliver lecture in the Court House here Friday night, May 13th at 8 o'clock. His subject will be: "Many Coming Back From Hell Soon".

PARTY FOR MISS SMITH

Bethel, N. C., May 11.—The surprise of the season came Saturday afternoon when the engagement of Miss Frances Smith to Mr. John P. Nowell of Ahoskie was announced at a party given by Mrs. F. L. Andrews, Jr., and Miss Annie Gertrude Jones, apparently for Miss Louise Dixon house guest of Mrs. Andrews and Helen McLawhorn, bride-elect of May.

Six tables were arranged for bridge in the living rooms which were decorated with cut flowers, potted plants, and tapers forming a decorative color note of pink.

After several progressions, an elaborate salad course was served, and on each plate there was a tiny white wedding bell. The surprise came when one of the guests found in a bell this announcement: "Lass-Frances, June 1927." On the plate of the bride-elect, there was a miniature corsage of orange blossoms concealing her engagement ring.

Top score prize, a dainty brooch went to Mrs. W. J. Bundy. The hostesses remembered Miss Smith with a trousseau gift; also Misses McLawhorn and Dixon with guest of honor prizes.

The "Lunatic At Large," at White's Theatre Friday evening. Benefit Circle No. 3 Kings Daughters.

FIREMEN HOLD FINE MEETING IN THIS CITY

Good Attendance Featured Session of Eastern Carolina Fighters Tuesday Night

The Eastern Carolina Firemen's Association met with members of the local fire department at the Rotary building here Tuesday night, and pulled off one of the most interesting programs in many sessions. The next meeting will be held with the fire department at Williamson July 12th.

About one hundred and thirty-five members representing ten towns and cities in this section of the State attended the meeting here. All of them exhibited considerable interest in achievements of the association, and numbers spoke at length upon possibilities for development in the future.

Following the serving of supper the firemen appointed Press Harper of Kinston, to represent the association at the annual North Carolina Firemen's tournament to be held in Greensboro some time during the summer.

The seriousness of the flood situation in the Mississippi River district was discussed, and \$34.00 was raised and turned over to the local committee.

The visitors were welcomed by H. Waldrop. The response was made by W. C. Manning, of Williamson, president of the association.

Interesting talks dealing with organization activities were made by D. S. Spain, of Greenville, Press Harper of Kinston, and Herbert Cox, of Robersonville. The following towns were represented at the meeting: New Bern, Morehead City, Kinston, Washington, Farmville, Williamston, Plymouth, Belhaven, Snow Hill, Greenville.

To Organize New Chapters Of the D. A. R.

To carry out a national and state policy of increasing the number of chapters and members of the Daughters of the American Revolution

Dry Maharajah?

Seymour Lowman, former Lieutenant-Governor of New York, may be appointed Commissioner of Prohibition. Reports from Washington said he had an edge on Roy A. Haynes, temporary occupant of the post, for the job.

Mrs. Edwin C. Gregory, of Salisbury, State Regent, is particularly interested in the organization of new chapters and the addition of new members in North Carolina.

At present there are 51 D. A. R. chapters in the state, with over 2,500 members. The national organization has around 2,200 chapters with a total membership of 160,000. Mrs. Gregory hopes that the state lists will be greatly increased during the remaining year of her regency.

The state Regent is much gratified at the increasing interest shown in D. A. R. aims throughout the state. Much excellent work, along historical, patriotic, educational and benevolent lines, is being undertaken and accomplished by the organization and it is hoped to improve the

achievements during the year. Mrs. Gregory asks for suggestions and recommendations of D. A. R. members and prospective members in all parts of the state regarding the organization of new chapters and the increasing of the membership lists. She will be glad to co-operate in any way possible with the plans of present and prospective members.

Mexicans Ready To Meet Indians

Nogales, Ariz., May 12.—(AP)—A sleepy, dusty town just below the international boundary became the center of Mexico's latest revolutionary movement today as it awaited the arrival of a rebel Indian army bent on its capture, while the hills around bristled with the cannon of government troops.

Chief Luis Matuz, riding at the head of the Yaqui red men, has demanded that the border town of Nogales, Sonora, surrender to his rebel army before Sunday. Although no confirmation of this could be obtained from Mexican officials Adolfo De La Huerta, former Provisional President of Mexico, whom the Yaquis have proclaimed as their leader, stated in Los Angeles that he had verified the demand.

Opposing the rebels, who apparently have engaged in several skirmishes with federal troops below

Nogales, is General Manzo, said to have approximately 4,000 men available at Nogales and nearby towns. Observers on the American side of the line last night counted 14 gun emplacements on the hills about the town and about 700 men actively engaged in perfecting defense works. Matuz is believed to have about 1,000 warriors.

GREAT PREPARATIONS FOR KENTUCKY DERBY SATURDAY

Prohibition Agents Will See to it That Derby Parties Are Dry

Louisville, May 12.—(AP)—"It won't be long now" said the "Hard Boot" as he looked at the calendar and saw that Derby day was only two days away.

But the Kentuckian, who now shares his Derby with the remainder of the country, wasn't the only one who had been watching the calendar. Special trains and prohibition agents have begun to arrive—over separate roads. The first of more than 500 special cars is on the track here and the hotels are taking on that packed appearance indicative of Derby Day.

Kentucky, once famous for its beautiful women, fast horses and good whiskey, is going to have a super abundance of the last two, and a serious shortage of the last—if thirty-five agents have their way.

W. O. Mays, federal prohibition administrator for Kentucky and Tennessee, announced that every road and every bridge near Louisville is to be guarded in an attempt to head off streams of liquor expected here for the Derby crowds. Thirty-five agents from throughout the district have been ordered to report here today. United States coast guards will be on duty on the Ohio river and the banks will be patrolled, Mays said.

"The men will be instructed to arrest hip flask violators," the administrator declared. "Derby Day parties must be dry."

All of the horses that will start in the historic old race are believed to be at Churchill Downs. A few Eastern thoroughbreds that had been expected here have not been shipped, insofar as it was known here. Among these were the Canoe and Sweepster.

But the West has enough here as it is, the Hard Boot believes, as he looks over his own State's meager supply of bang up derby animals.

About a score probably will go to the post Saturday. At present the field appears to consist of the E. R. Bradley trio, Bewithus, Boo and Baddy Bauer; H. P. Whitney's Bostonian and Valorus; W. J. Solman's Black Panther, the Fox Catcher, Farm's filly Fair Star, Jock, owned by E. B. McLean; Klev and Osmond from the J. E. Widener Stable; Rolled Stocking, J. W. Parrish's Western Hopkin; Royal Julian owned by W. H. Whitehouse; Sage Stable's Rip Rap; Mrs. Payne Whitney's Saxon, and Scape Flow, W. M. Jefford's Man O'War colt.

Also eligible are two more Bradleys, runners; Biley M. CM and Bit.

O'Love, McLean's War Eagle and Hydromel and Nor'easter from the stable of Johnson N. Camden.

Michigan Asks Court Doom House of David

Benton Harbor, Mich., May 12.—(AP)—Benjamin Franklin Purnell "King" of the House of David, confronts at 66 an effort by the state of Michigan to break up a colony he founded in the name of a religious cult.

Beset already by criminal charges and a \$28,000 judgment against his colony, "King Ben," erstwhile house painter and tunnel watchman, must now face proceedings initiated by the state to throw the House of David into receivership and designed ultimately to break it up.

The receivership hearing is set for May 16.

Colony leaders assert that the cult is a religious association, not amendable to receivership action. The state retorts that it is "a humbug and a fraud," and purposes to picture its inner workings at the hearing.

The colony was founded when Purnell, born in Kentucky in 1862 and heretofore at 12 as a "boy preacher," gathered a following in Fostoria, Ohio, and brought his adherents to Benton Harbor.

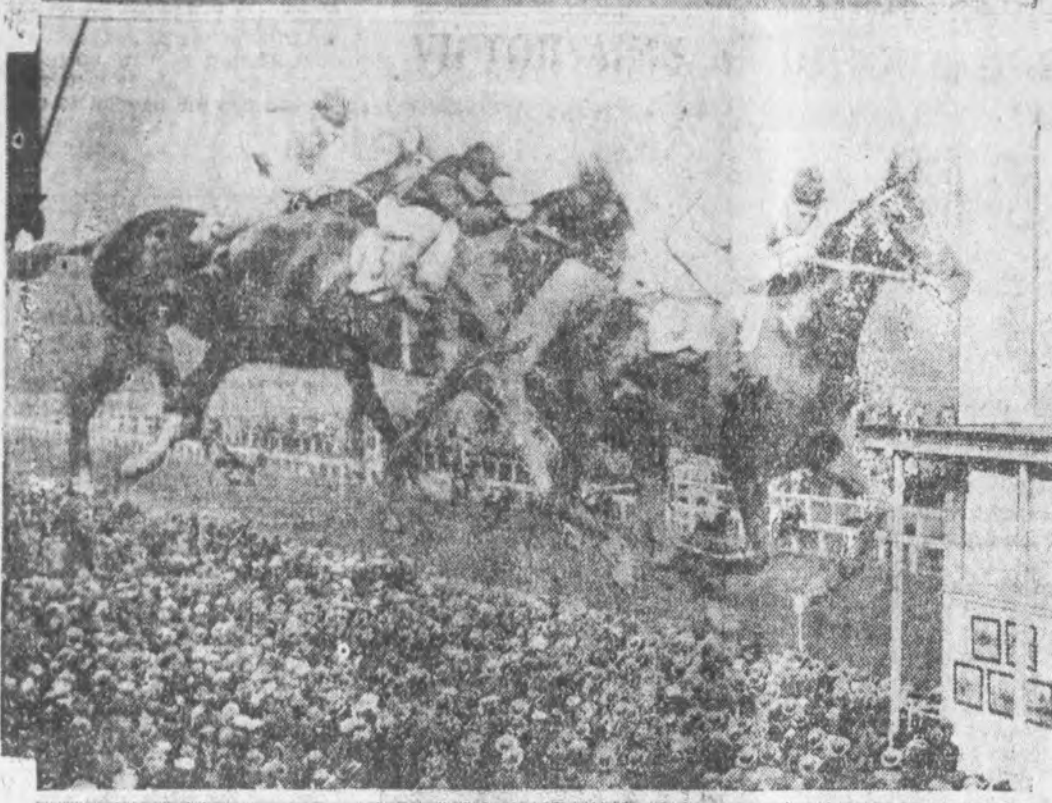

Benjamin taught that those who died had disobeyed his teachings, but death played no favorites: It took Coy Purnell, his son. The corpse was carted from the colony unburied.

John Hensel and his wife, expelled from the cult, sued for an accounting of property and for labor or compensation in 1923, asking \$80,000. They were awarded \$28,000, and from the suit came evidence on which the pending civil and criminal actions are based.

Three young women cult members filed charges of criminal attack against "King Ben," and he disappeared. A worldwide search ended with his capture last November 16 in a midnight raid on his room at the colony. Brought to court, he was not the erect man with long black hair and beard whom Benton Harbor had known, but an aged and feeble figure on a stretcher, his struggling locks turned gray.

The House of David promises other picturesque figures in the courts, beside Benjamin: "Queen Mary," his wife; H. T. DeWhirst, cult member, legal representative and former justice of the California supreme court; William J. Barnard of Paw Paw, Purnell's personal lawyer; and Myrtle J. Tulk, an elder woman colonist, who, women cult members charged, escorted them as girls of 15 to Benjamin's chambers in Shiloh temple.

PREAKNESS VICTOR AIMS AT DERBY

Bostonian, owned by Harry Payne Whitney, is being favored to win the historic Kentucky Derby as a result of his decisive victory in the \$53,000 Preakness at Pimlico. Photo shows the finish, with Sir Harry second and Whiskery third. Part of crowd that saw the race is in the background.

RED CROSS HAS GIGANTIC TASK IN FLOOD AREA

Organization Doubles Efforts at Relief Work as Flood Waters Recede

Memphis, May 12.—(AP)—Admittedly facing a serious situation as the flood waters recede, the American Red Cross doubled its efforts today to speed food supplies and feed to its 64 relief centers in the States affected by the Mississippi Valley floods.

While many of the camps are situated on ridges to which access may

be had soon by railway or highway, other centers lie within the level delta lands from which waters will recede slowly, and will see for several days a stage when neither boats nor land transportation can reach them.

Calls have come from Greenville, Miss., perhaps worst flooded of the delta towns, that livestock is perishing on isolated mounds, it was said, and unless feed is obtained soon many will die.

Former United States Senator Leroy Percy of Mississippi appealed to L. O. Crosby, flood relief dictator for that State, that Secretary Hoover or James L. Feiser, vice-chairman of the Red Cross, be induced to come to Greenville for a personal survey of conditions.

Mr. Percy said he was not criticizing the work of the Red Cross which has been "admirable," but declared that the vast problems faced by a county completely submerged demanded a close survey by high officials.

Forty thousand persons also receive their food from Greenville. In a statement last night, Henry

M. Baker, national director of disaster relief for the Red Cross, declared that the situation was serious but that the organization was prepared to cope with a "difficult" task.

During two days past, food has moved to all points and 300 tons of groceries have been sent to Greenville alone. In addition, the Red Cross prepared today to ship 300 tons of feedstuffs for the livestock driven to mounds and levees by the crevasse at Sticks Landing.

Greenville still is receiving water from the flood, although the crest has fallen considerably. Parts of the business district have emerged and stores are opening as fast as possible. There are 6,000 persons in the city including refugees.

OVER 100 REBELS KILLED

Mexico City, May 12.—(AP)—More than 100 rebels have been killed in two combats with federal troops at Rhinon Del Molino and San Jose De La Paz, state of Jalisco, says a report received by President Calles from war minister Amaro last night.

Carville Lepers Apprehensive Of Menacing Flood

Memphis, Tenn., May 11.—(AP)—Three hundred lepers, quarantined in the National Leprosorium at Carville, La., near Baton Rouge, watch with apprehension the menace of flood waters beating against the levees of the lower Mississippi River.

Headquarters of the American Red Cross announced today that the colony was fearful and that the plant was doomed if the levees below Baton Rouge should crumple before the flood. Senior Surgeon John McMullen, detailed by the United States Public Health Department to the Red Cross disaster relief headquarters here, has wired his department at Washington to "consider plans to evacuate the leper colony if it becomes necessary." Dr. McMullen said the lepers

would be taken to some nearby levee if evacuated, and sheltered in a tent colony until danger had passed.

Some members of the colony have spent years there. Established by the State of Louisiana more than 40 years ago, the colony was made the National Leprosorium about 30 years ago.

AFRAID TO EAT

Bloating Spells, from Indigestion, Put an Oklahoma Man in a Miserable Fix, But He Found Relief.

Swink, Okla.—In describing how he suffered from indigestion, Mr. S. T. Strain, of this place, says: "I have been a user of Black-Draught for four or five years. I have been taking it for stomach trouble. I suffered after eating with bloating and a 'tight feeling'."

"I had spells when I could not eat much of anything. I had severe headaches. I would be nauseated and hurt a lot. I was in a pretty bad fix."

"I began taking Black-Draught. It seemed to help me wonderfully. I hadn't found anything that benefited me as Black-Draught did. I certainly can recommend it."

"There were times when I just did without anything to eat until I was too weak to go. I was just miserable, and when I ate, my system seemed clogged."

"I had very severe headaches. So I didn't know just what to do. I knew I couldn't work if I didn't eat. Seemed like what I spit up was bitter as could be. I took Black-Draught pretty regularly and got where I could eat, and I don't have to take it so regularly now." NC-177

THOMAS A. EDISON ANSWERS ANOTHER QUESTIONNAIRE

It's the Same With Oysters and the Rods of Corti!

Millions of people imagine that they cannot enjoy classical music and without thought turn to the latest jazz hits for consolation. Increasing thousands, however, are making good music more and more a part of their lives. What is the difference between these two classes of people? Here is what Mr. Edison has to say on the subject.

Ques. If a million people love jazz for every thousand that love classical music, doesn't that prove there is something wrong with classical music?

Ans. No. The jazz lovers get a strong, immediate sensation. The rhythm stimulates them but the effect soon wears off. Popular music is immediately understood, but with repetition it becomes at first wearisome and then intolerable. Classical music is more subtly compounded; it becomes increasingly enjoyable as it becomes more familiar. Like a great painting or a great book, it broadens and enriches the lives of those who understand it.

Ques. Why does the average popular melody have so short a period of popularity?

Ans. I believe the mechanism of the inner ear may have something to do with it. The so-called "Rods of Corti" are located there—approximately 3,000 small stiff rods, massed together like the hairs on a brush. Each hair is supposed to be tuned to a definite note in the musical scale. When the note is sounded, the hair vibrates, transmitting the sound through the nerves to the brain. The too constant operation of any group of these hairs undoubtedly leads to irritation—possibly to an actual swelling at the base of the hairs. It is the theory of many scientists that this may be one of the underlying causes for the rapid way we tire of popular hits, with the endless pounding on simple sets of chords.

Ques. Are you of the opinion, then, that people should give up so-called popular music, and listen to nothing but classical compositions?

Ans. By no means. Life is a complicated experience. One needs change from day to day and from hour to hour. Most of us like ice cream for dinner and don't care for it for breakfast. Jazz is a splendid thing for the right time and the right mood. To fall into a rut in which it is the only source of musical enjoyment is, however, as dangerous as an unvaried diet of ice cream or candy would be.

Ques. How would you advise the average person to acquire an appreciation for good music?

Ans. Few of us are born with a natural taste for the better class of music. Like oysters, olives, tomatoes and tobacco, it is an acquired taste. Most of us don't take the trouble to acquire a taste for good music, and thereby shut ourselves out from an entire world of genuine enjoyment. I advise those who buy only jazz records and tunes with simple melodies to buy at least one record of the better class each time. You will gradually find that you will acquire a liking for this different music. Once you have so acquired this taste it will live with you, opening up a new world to you, which great composers have made so glorious.

OK
The Edison

A phonograph can be no better than the artist's performance

Five thousand times critical auditors have heard living artists sing or play in direct comparison with their Edison records in the leading concert halls of the world. Eminent musical critics have put themselves on record to the effect that there is no difference between the artist's performance and the New Edison Re-Creation of it. (Send for free booklet "What the Critics Say.")

Only the New Edison dares this test of direct comparison.

THOMAS A. EDISON, Inc.
ORANGE, N. J.

Edison dealers

The dealers listed below have been selected as carefully as they themselves have chosen the New Edison as the one phonograph that would meet the most exacting demands of the most discriminating music lovers.

Every dealer who has obtained the Edison representation has first heard the New Edison in side-by-side comparison with other phonographs and thus has been brought to the realization that through the Edison franchise he can best serve the people of his community.

Even with your present ice-box you can be free from outside ice supply

The Frigidaire frost coil does the work of 100 pounds of ice and never melts!

PERHAPS the ice-box you have is a good one. If it is, you can make a Frigidaire of it—easily and economically. A "frost coil" to replace the ice—a few simple connections and you are completely and permanently independent of outside ice supply.

Your foods will be kept in a uniform temperature 12° colder than you can expect with ice. You will have a dessert and ice-making compartment always below freezing. You will have genuine Frigidaire—the kind that is serving more users than all other makes of electric refrigerators combined.

Come in today. Let us show you how the General Motors plan of deferred payments makes it easy to own a Frigidaire.

MANY CHANGES IN STANDINGS IN BIG LEAGUES

(By the Associated Press)

Big league standings today showed the effects of something like a baseball earthquake. Its ravages were particularly severe in the National League where the Giants reappeared at the top of the heap in place of the Cardinals.

While the Cardinals ended up in second place, the Chicago Cubs who had been booming along in third position found themselves two steps below in fifth when the shaking down was over the Phillies and Pirates advanced a rung apiece.

All this resulted from a series of games between well-matched rivals who were close together in the percentage column.

With their lead in the league at stake the world champion Cardinals put forward their best pitcher, Jesse Haines, against the Giants, although Haines had won five straight games previously it took the Giant cannoners just three innings to blast him out of the box on their way to a 7 to 1 victory. Hornsby drove out a homer which made his total six for the year so far. Frankie Frisch, whom the Cardinals traded St. Louis for the Phillies, failed to make a hit.

Another game which played havoc with the rankings was the Philly victory over the Cubs. The heavy hitting Chicago clan was outbatted and outscored 5 to 2. Philadelphia's hits were bunched and timely, especially a double by old Cy Williams in the seventh, which counted two runs.

Rain flooded out the Pittsburgh-Boston game in the last of the eighth when the teams were locked at 4 to 4. Two of the Braves' runs came in the nick of time just before the skies opened.

At the bottom of the league, the Cincinnati Reds who were up at the top this time last year and finished second last fall, were pushed farther into the depths by Brooklyn, 7 to 5.

American League interest again was centered at Detroit, where Ty Cobb celebrated his homecoming to the haunts of his old team, the Tigers, by helping his new team, the Athletics, to beat them. The Mackmen made it two for a row by getting a 3 to 1 verdict. One of the runs was scored single-handedly by the Georgia Peach, who doubled, stole third, drew a wild

heave to the bag, and so went home. George Herman Ruth, whose talents came at a price even higher than Cobb's, helped his Yankees to a 4 to 2 decision over the St. Louis Browns by slapping one of Ernie Nevers' pitches for his eighth home run of the season with a man on base. For the Browns the defeat meant dropping to seventh place. A 4 to 1 decision over the Senators was added to the winning streak of the White Sox who thereby staked a stronger claim to second place, behind the Yankees.

MISSING WOMAN LOCATED IN OHIO
Norfolk, Va., May 12.—(AP)—Mrs. Mary B. Marshall, who disappeared March 21 from the Old Bay Line steamer State of Virginia, was located today in Cleveland, Ohio according to information received here by Federal authorities who have been aiding local police and her husband in search for her.

COBB SHOWED BAD JUDGMENT SAYS JOHNSON

Chicago, May 12.—(AP)—Ty Cobb showed "lack of intelligence" in "bumping" umpire Red Ormsby in the tumultuous Philadelphia-Boston game of last week, president Ban Johnson, of the American League declared in assessing a \$200 fine against the Georgia Peach.

The league president took a similar penalty on Cobb's teammate, Al Simmons of the Philadelphia Athletics, calling him "a young out-felder plainly lacking in knowledge of the American League's established customs," and at the same time he placed responsibility for the baseball outburst on the shoulders of manager Connie Mack. Johnson maintained that the Philadelphia management displayed lack of fairness, intelligence and true sportsmanship in the affair which resulted in the suspension of Cobb and Simmons and their later reinstatement, permitting Cobb to play in the "hot" game at Detroit Tuesday.

Ormsby was praised by Johnson as being "one of the highest types of manhood and of unimpeachable integrity." Eight thousand fans who were at the Philadelphia park when the umpire ruled Cobb's wallop poured onto the field and what Johnson termed "murderous pop bottles" were thrown. Ormsby was given a police escort from the field, after he had ejected Cobb and Simmons, and it was necessary to call additional police when the force at the park was unable to handle the throng.

Johnson in his ruling last night ordered Cobb and Simmons to pay their fines "by personal check" within 48 hours, under penalty of another suspension.

SAYS PRISONERS RESPONSIBLE FOR RECENT TROUBLE
Raleigh, May 11.—(AP)—Pardon Commissioner Edwin Bridges, hearing rumors today that the revolt of prisoners at Caledonia prison was instigated by outside influences, answered by saying "The prisoners hatched up the whole business themselves." Twenty of the 400 prisoners who revolted were being held in the central prison here, pending completion of the new stockade at Stokesdale, Guilford county, where they will be taken to finish their terms.

Wilcey Moore, at 29, Enters Majors to Find Self a Star

This twenty-nine-year-old, six foot, two hundred pound fellow from Greenville, S. C., is the newest star on big league horizons. Armed with a "heavy" dropping ball he's puzzling batters who face him in the Yankees' box.

By Jack Keene.
International Illustrated News Staff Correspondent.

NEW YORK (I.I.N. Special)—Miller Huggins has apparently panned the biggest Nugget of the season from Minors' Creek.

The nugget is Wilcey Moore, who's breaking into the large leagues at the ripe age (for baseball) of twenty-nine. Baseball is that way. The boys come in at between seventeen and twenty. They last for a few days or years, and then go the old route: minors—to farm—to cemetery. Once in a while a fellow keeps going beyond average ten years. Then he becomes a Connie Mack, a John McGraw, or a Miller Huggins, and doesn't have to play. Dizzy Vance broke in at thirty—Moore never faced a big league batter before in his life—he allowed four runs.

But Wilcey Moore, in Wilcey Moore, he was down in South Atlantic League last year, and he won thirty games. "Thirty games is thirty games, even in a Y. M. C. A.," roared Huggins. "We must pretend we're Northwest Mounties." They—the Yankees—got their man. Moore was lassoed a few miles north by east of Greenville, S. C., shipped as baggage to St. Petersburg. Huggins himself broke a bottle of grapefruit juice over his head, launching him as a Yank.

So far this season Huggins has given him frequent practice to show what he can do. He went in as reliever pitcher three days in succession one week. He allowed one hit in the three days. In his first twenty-nine innings in big league competition, he allowed one hit and one run.

TWINS HOLD ON TO TOP PLACE

Raleigh, May 12.—(AP)—High Point's double victory over Salisbury, Raleigh's slugfest at Durham; and Winston-Salem's rally in the eleventh inning at the expense of Rocky Mount were high spots in Piedmont League games yesterday as the mid-week series got under way.

The veteran "Rube" Eldridge pulled another of his old stunts in pitching the pointers to two wins in a day, this time against the Cardinals, the Colonials. The Caps served rotten pitching, won a game of 28 base hits from the Bulls.

Catcher Chisholm, hitting four out of four, singled in the 11th frame to give the Twins a 2-1 contest over Rocky Mount.

Four Teams Left High School Race

Raleigh, May 12.—(AP)—One of four high school teams, Winston-Salem and Cherryville in the west, and Wilson and Whiteville in the east, is slated to be crowned high school baseball champion of North Carolina this season.

The elimination series, participated in by 73 teams, has narrowed down to four. Regional winners will be decided this week-end while the state title comes off at Chapel Hill Saturday week.

Of the four remaining contenders, Winston-Salem and Cherryville both are former champions.

Where They Play

HEARS INJUNCTION CASE AT PITTSBORO

Pittsboro, May 12.—(AP)—Judge W. C. Harris held a hearing here today on the injunction restraining the sheriff of Chatham county from advertising lands for sale for delinquent taxes, and the county commissioners from advertising or selling lands on which taxes have not been paid.

Wake Forest and Duke Break Even

Raleigh, May 12.—(AP)—The Wake Forest-Duke University 1927 series stood one-all today, the Deacons having administered a 9-4 defeat to the Blue Devils yesterday at Durham as Key Joyner hurled the winning ball, despite a split finger.

State visits Wake Forest tomorrow for the third Tschmen-Dencon contest while Carolina stays at home to battle Virginia. Guilford invades the upper state also, meeting Hampden-Sidney on the latter's home grounds.

WATER AND LIGHT COMMISSION

Drive the car that established 10 world records—5000 miles in less than 5000 minutes!

The COMMANDER

A STUDEBAKER BIG SIX

Only by owning a Commander can you avoid taking Commander dust on hills and highways

FROM one Coast to the other. The Commander is smashing records of speed, records of hill climbing, records of sales!

5000 Miles in Less Than 5000 Minutes

In a recent sensational test at Culver City, California, under the auspices of the American Automobile Association, Harry Harts and three other noted pilots drove The Commander—a strictly stock, fully-equipped enclosed car—5000 miles in 4909 minutes, not including time, establishing ten new world records.

This is better than mile-a-minute speed for 81 consecutive hours and 49 minutes—the fastest speed for the farthest distance ever attained by any stock car!

The Commander Out-Climbs All Other Cars

In another public contest, five automobile dealers in Batavia, N. Y., challenged Studebaker's repeated statement that The Commander will out-perform any car selling within a thousand dollars of its price. The scene of the contest was a long hill near Batavia with an average grade of 10%.

The Commander won every test made—creeping test, standing start and flying start. Then, to cap the climax, The Commander carried sixteen men, weighing 2794 pounds, to the top in high gear, the speedometer reading 35 miles at the start and 22 miles at the finish.

Harry Harts wired us, after setting 10 new world records in The Commander

"Based on my experience driving my personal Studebaker Commander and in making the recent record run at Culver City Speedway with a Studebaker Commander strictly stock model, it is my opinion that it will maintain any given speed, up to 65 miles per hour, longer, more smoothly, and at less expense per hour traveled, for gasoline, oil and repairs, than any other stock automobile now being built in the United States."

Climbs 10-Story Building

In Washington, D. C., the Capitol Garage dedicated its new building by inviting all the automobile dealers to engage in an indoor hill-climbing contest—a climb of twenty ramps, ten stories in height.

The Commander wound its way easily up the steep ramps. In high gear—and 5000 people cheered its victory over the field. After the contest, 102 drivers of different cars tried to equal The Commander's time-record—but every one failed!

What These Records Mean to You

You probably will never need mile-a-minute speed for 5000 miles—you may never want to enter a hill-climbing contest. But these remarkable records are further proof of what we have demonstrated time and again on Studebaker's 800-acre Proving Ground—that The Commander in every phase of every-day driving will out-perform and out-live any other car, six or eight, selling for less than \$2500.

The best evidence for you of the thrilling performance of The Commander is what the car will do in your own hands. Get behind the wheel of a Commander as our guest—without strings or obligation. Learn for yourself why the Studebaker Big Six now far out-sells the combined totals of all other cars in the world of equal or greater rated horsepower. Phone us now and take command of The Commander today!

Commander Sedan, \$1585; Commander Victoria, \$1575; (broadcloth upholstery, \$1645); Commander Coupe, \$1545; (with rumble seat, \$1645). All prices f.o.b. factory, including front and rear bumpers, mudbers all around, and four-wheel brakes. Other Studebaker and Ertree models range in price from \$945 to \$2245.

This is a Studebaker Year

TODAY

(Continued from Page one)
thing more important than a horrible story, with its sash weight, picture wire, chloroform and unlimited bootleg whiskey.

The strange thing is the eagerness expressed by many women and men that the convicted woman and man should without fail die in the Electric Chair. Some apparently consider the approaching execution as a sort of victory for themselves.

What good will those executions do? They will add one more horror to a horrible crime. Is it desirable in the way of justice that a woman screaming and struggling be strapped in the electric chair, put to death by a combination of law and science? How much better is a legal killing done in the heat of alcohol and bestiality? Justice must forgo killing in the name of civilization before it can expect criminals to give up killing in the name of hatred and cupidity and vice.

Wall Street had a comfortable day today selling at high prices, oil just a little feverish. There is more oil than the country can use, but too much is better than too little, and our twenty two million automobiles, plus oil burning ships, locomotives and furnaces will attend to that.

Some wonder that the flood calamity does not disturb prosperity, as did, for instance, the great fire in San Francisco. The explanation is two-fold. Eighty per cent of those effected by the Mississippi flood are colored people, whose financial status does not affect general prosperity. And losses are all individual losses, not touching great corporations or values of securities.

The California fire, bankrupting insurance companies compelling them to throw their securities on the market, and thus depressing prices was felt all over the country. It is comforting to know that Mr. Mellon, with bankers of the north and of the stricken districts, are planning to provide immediately for planting new crops, financing purchases of seed and machinery, as soon as the waters retire.

The excellent Pennsylvania railroad train "Red Arrow" on which this is written travelling from Washington to Detroit, is passing through such a combination electrical and rain storm as makes mothers nature seem to have an attack of hysterics. The skies are black, dark green hills pelted with heavy rain, streams swollen.

Old philosophers suggested that as there are defective units in the human family, murderers, maniacs, etc., so there may be imperfect

specimens among the billions of planets, sailing through space.

Ours seems to be hysterical planet with its wars, plagues, race hatreds, tordadoes, earthquakes, famines. Fortunately it is still young, and may be only a baby planet having fits, soon to be cured.

POLICE PATROLS AND WOODSMEN OF NEW FOUNDLAND JOIN HUNT FOR MISSING FRENCH AVIATORS

(Continued from Page One)
combed by vessels.

Twenty coast guard patrol boats, eight destroyers, two naval tugs and innumerable small patrol craft hunted in vain from New York harbor to Nova Scotia. The search went on in an ever widening area, however. Two naval tugs are patrolling definite courses, and the cutter Tampa, on ice patrol duty off the Grand Banks, was assigned a 1,200 mile area northeast of Boston. The liner France, bound for New York was ordered 400 miles north of its regular course to cover more closely the vicinity over which Nungesser said he would fly.

Aviation experts renewed expressions of confidence that the airmen would be found.

Dakar, Senegal, May 12.—(AP)—Hope for the rescue of Captain St. Roman and Commander Mouneyres French aviators who left St. Louis Senegal, a week ago today for Pernambuco, Brazil, and have since disappeared, has all but been abandoned here.

Several vessels arriving at Dakar from Rio Janeiro and Pernambuco after passing through "the zone" where it had been hoped the aviators might be found, reported no trace of them.

Contrary to reports from Pernambuco, no search has thus far been made in the vicinity of Cape Verde the belief being that the aviators must have been lost somewhere off the South American coast.

Motion Picture Industry to Have House Cleaning

Los Angeles, May 12.—(AP)—The motion picture industry is tired of being "spanked" for the sins of its hangers-on, and in the future will

protect itself.

Mary Pickford so declared last night at an organization banquet of the Academy of Motion Picture Arts and Sciences attended by more than 100 leaders of the various branches of motion picture production.

As an engine of protection against

"those who would destroy us," Miss Pickford outlined the Academy's plan to publish a bulletin bearing authentic and constructive news of the industry which will be sent periodically to film fans the world over and will be designed to offset slanderous and misleading publicity from unfriendly sources.

"The chastisement from within," will be based it was indicated by Will H. Hays, director of the motion picture industry, in comment incidental to the meeting, on a paragraph in the by-laws of the Academy which empowers to directors to expel any members guilty of "dishonorable or unethical conduct or the commission of any act involving moral turpitude."

Justice of Peace Given Road Term

Charlotte, May 12.—(AP)—S. A. Mangum, tumultuous justice of the peace, today was sentenced to serve 90 days on the road and to removal from his office, for failing to make reports and payment of fines, fees and forfeitures collected by him while acting as rural police judge. The sentence was pronounced by Judge Currie in city police court after numerous efforts to get the magistrate into court for trial were brought to a successful termination only through his arrest and incarceration without bail.

Notice of appeal was given and bond fixed at \$1,000 for his appearance in Mecklenburg Superior

Court. Mangum was returned to a cell in city jail while attorneys attempted to arrange the bond.

Mangum originally was notified to appear in court to answer the charges. He failed to show up and a capias was issued for him. He was put under \$500 bond but trial was delayed when physicians said he was too ill to appear. Tuesday when the case was called he failed to show up and another capias was issued and he was arrested yesterday after a short foot race with city detectives. He was jailed without bond.

RUB PAIN OUT OF RHEUMATIC JOINTS

For 65 years, millions have rubbed soothing, penetrating St. Jacobs Oil right on the tender spot, and by the time they say Jack Robinson — out comes the rheumatic pain and distress. St. Jacobs Oil is a harmless rheumatism and doesn't disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia. 35 cent bottle guaranteed by all druggists.
