## CANADIAN AUTHORITIES CARRY SEARCH FOR FLIERS INTO FORTUNE BAY SECTION

### Search to be Continued Through Fishing Villages of New Foundland

St. John's, N. F., May 16.—(AP)—Fortune Bay, a stocky finger of water poking into the south shore of New Foundland, was the hope of the Canadian authorities today in their tireless search for the White Bird and Captains Nungesser and Gail, missing trans-Atlantic fliers.

A report from Ocean Pond less than 100 miles east of the bay that a plane, apparently experiencing motor trouble, passing over the town last Monday, led the authorities to ask the French steamer Angaise at St. Pierre, Miquelon, to go to the bay and make a thorough search.

Should this mission prove futile the Angaise would cruise west along the South Coast where there are a number of small fishing settlements. These settlements have no means of communicating with the rest of the world other than by boat and it was considered a possibility that Nungesser and Gail might have been picked up by a fisherman and taken to one of the settlements.

The report about the passing of a plane over Ocean Pond, 25 miles southwest of Harbor Grace, where three persons reported hearing a plane the same day was forwarded by a member of the New Foundland constabulary.

He wrote that William Parsons, who said he heard the plane, told him that the noise seemed like the explosion of a boiler at first but it soon became apparent that it was overhead and the repetition of the sound, although not regular as in the case of a well running motor indicated that it came from an airplane.

## GUARDS PLAY HEROIC ROLE

### Over Thousand Refugees Saved by Work Of Coast Guard at Des Glaises.

Baton Rouge, La., May 16.—(AP)—Rivalling the river skill of Canadian voyageurs in the handling of their surf boats amid the treacherous whirlpools and roaring rapids of the Bayou Des Glaises country crevasses, 300 muscular and fearless members of the United States Coast Guard played roles of heroes in the rescue of 1,300 men, women and children from crumbling levees and floating house tops of the West Atchafalaya basin yesterday.

Performing feats in 30 foot surf boats which many veteran boatmen of the Mississippi would not dare, the coast guard crews shot their small craft repeatedly through the torrential chutes of the crevasses to carry families out to safety. With their small white caps perched at jaunty angles and wearing sleeveless jerseys and dungarees, the guardsmen stripped for action, and accepted every challenge offered.

Eked with spray, time and again, the surf boat crews crested distally through the narrow gaps to reach refugees in a hurry. But they did the job. Every life was saved, the coast guardsmen having met the severest rescue test of the flood and succeeded gloriously.

## Young Women of Stantonsburg in Services Here

Federation prayer services were conducted in the Woodmen Hall last Saturday evening at 7:45. Services were attended by numbers of members of this community and several visitors from Stantonburg and Connetquot.

The Young Women's Federation of Stantonburg conducted the meeting. Miss Ruth Skinner acted as leader. She brought a helpful message on "Use of Our Talents."

Misses Skinner and Stanton rendered a real gospel message in special song numbers.

The Federation was recently organized and the teachers have seen considerable experience in the field of religious service.

Meetings are held every Saturday evening at 7:45, and the public is extended a cordial invitation to attend.

## FLOOD RELIEF FUND

The local Red Cross relief fund for the flood sufferers was nearing the \$1,700 mark at noon today. While this county's quota was at first set at \$1,500, the increased sufferings in the flooded area have made more funds necessary, and persons who can give are urged to do so as early as possible.

## MRS. SNYDER AND GRAY GO TO SING SING

### Murders of Magazine Art Editor Escorted To Prison by Police Squad.

Ossining, N. Y., May 16.—(AP)—The gates of Sing Sing prison swung open today to admit Mrs. Ruth Snyder and Henry Judd Gray and clanged shut behind them. Barring successful appeal the Queens village housewife and her corset salesman paramour, jointly convicted of the murder of her husband, will never pass through those gates again alive.

The trip from Queens County jail in Long Island City was made at breakneck speed and with a heavy escort. As the two closed automobiles bearing the guarded prisoners swung away from the jail half a dozen armored motorcycles led the way through traffic held up to let the party pass. Half a dozen cars full of reporters brought up the rear and were hard put to it to keep the pace.

New York, May 16.—(AP)—Mrs. Ruth Snyder and Henry Judd Gray today began their journey to Sing Sing's death house where they are to die for the murder of Mrs. Snyder's husband, Albert Snyder, magazine art editor.

Mrs. Snyder, having said goodbye to her mother and her nine-year-old daughter Lorraine, was hurried into an automobile where she sat between two women deputy sheriffs.

Gray, her former paramour, was taken in a second machine, manacled to two other sheriffs.

Their automobiles were escorted from the jail in Long Island City and through New York by a squad of motorcycle police.

Mrs. Snyder was dressed in the black coat and hat she wore during the trial. Her face was pale, but she seemed to bear up well. Gray walked with brisk steps, his head erect, as the sheriffs led him from his cell.

The route to Ossining led them over a road they traveled on their "honeymoon" in 1927, when they made an upstate trip in Gray's car. At that time, Albert Snyder was at the Snyder home in Queens village, keeping house and caring for little Lorraine. But Albert Snyder thought his wife was visiting friends and Gray's wife in her East Orange, N. J., home, with their daughter thought the little corset salesman was calling on the trade.

At Sing Sing Mrs. Snyder will be put in one of three cells in the death house reserved for women. Gray will occupy one of twelve cells for men, and will have as his nearest neighbor Thomas "Red" Moran, slayer of two Brooklyn policemen. Moran, who has misbehaved, is in "solitary."

Even the wisest men go at life somewhat blindly—they admit they can't quite solve the riddle.

Charles Lindbergh, "the flying fool," is also known as "Lucky" Lindbergh. The daredevil, who now hopes to reach Paris from New York in his plane, is one of the aces of the air mail service. He took off from St. Louis one night in weather in which most airmen would not fly. He ran out of gasoline bucking head winds, and because of blinding snow, could not see a place to land. He dropped in his parachute from 13,000 feet up to safety. Picture shows what was left of his plane after it hit a field near Bloomington, Ill.

## THREE PLANES READY TO HOP OFF FOR PARIS

### Fliers Mark Time on Aviation Field Wait- ing Favorable Break in Weather.

Mineola, N. Y., May 16.—(AP)—Chances of any one of the three New York-Paris airplanes getting away from Roosevelt Field tomorrow seemed remote today as unfavorable weather seemed distressing to the fliers, anxious to be away or the long trail across the Atlantic. Forecaster Starr of the New York Weather Bureau said shortly after 10 a. m. that conditions today were not white better than they had been for the last ten days. It was hoped that Wednesday morning would bring an opportunity to start.

New York, May 16.—(AP)—Three monoplane today awaited only favorable weather to start them on non-stop flights to Paris, although last minute differences threatened for a time to wreck the plans of one of the contenders.

Possibility that Clarence D. Chamberlin and Lloyd Bertaud might not navigate the monoplane Columbia in its race with Commander Richard E. Byrd's America, and Captain Charles "Lucky" Lindbergh's Spirit of St. Louis arose as a result of a dispute between the two fliers and Charles A. Levine, chief backer of their flight, over contract terms.

The discussion was finally settled, however, by arranging for a new contract that appeared to be a victory for the aviators. They sought and received guarantee of all the money awards, totaling upwards of \$100,000, offered if they negotiate the New York-Paris non-stop flight.

The aviators signed a contract whereby they would surrender 50 per cent of the cash rewards to the Columbia Aircraft Corporation, the sponsor of the flight but the Brooklyn Chamber of Commerce, which has offered a \$15,000 prize for the Bellanca crew if they successfully make the hop, objected to this arrangement and demanded the aviators receive all monetary rewards.

The aviators also demanded that some provision be made for their wives in case the flight should end in tragedy; under the new contract the wives would receive \$50,000 each.

Heavy fogs and winds over the greater portion of the mid-Atlantic with no signs of clearing, continued to be received by the fliers. A flight within the next 24 hours was called inadvisable by the bureau.

A rumor that Lindbergh planned a surprise hop-off at 3 o'clock this morning, caused more than 500 persons to crowd about the hangar at Curtiss Field at that hour, but the "boy aviator" was sound asleep at his hotel in Garden City, 3 miles away.

Bert Acosta took Byrd's plane up twice Sunday. Tests were satisfactory enough to the polar flier and he said he thought he would be ready within 2 or 3 days for the ocean hop. Lindbergh after a single spin, pronounced his craft fit. The Bellanca plane, due to the controversy, did not go up.

Glowing enthusiasm, even though misguided, is better than languid unconcern.

## TODAY

Ready To Fly.  
Optimist and Skyscraper,  
Milking a Lioness.  
A Dinosaur Fight.  
(By Arthur Brisbane)  
Copyright 1927, by Star Co.)

Weather conditions, fog, cold and head winds prevailing over a wide stretch of the Atlantic make trans-Atlantic flight especially dangerous. But courage overlooks fog and wind and it is likely that some one or two or three determined American fliers may be on their way across the ocean within a day.

The latest arrival on the Atlantic coast, Captain Charles E. Lindbergh, young six-foot-tall air mail pilot from St. Louis, is a flier for America to be proud of.

He broke two records coming from the Pacific coast to New York in two hops, making the trip in twenty-one hours, twenty minutes. He is the only man that ever flew that distance ALONE.

And on the 3,600 mile non-stop flight across the ocean he will go alone, in his slim gray monoplane named "The Spirit of St. Louis." He sits in a tiny compartment with wings and fuel tanks so arranged that it is impossible for him to look ahead. To see before him he must use a periscope, like a captain on a submarine. On either side little windows let him look down. He steers by compass.

This young American boy's plan to cross the ocean in a monoplane with only forty-three feet wing spread, without a sextant, without any companion to allow him a few hours sleep or cheer him on the journey, is something altogether extraordinary.

If this effort of extraordinary courage is successful, you may be sure that Lindbergh will be welcomed in France and wherever courage is understood.

Mr. Judd Gray, who confesses he helped Mrs. Snyder murder her husband, is an optimist. He says: "Mrs. Snyder got me in this jam and I don't want ever to see her again, except in heaven."

Chicago invented the skyscraper and means to keep ahead and now plans a fifty million dollar building, according to the Herald-Examiner. That would make the (Continued on Page Six.)

## No Evidence of Dynamiting Fish At Hopedale, N. C.

Raleigh, May 16.—(AP)—State Department of Conservation officials today said that if Charles E. Ray, Greensboro, department field man, discovered that dynamiting un-earthed poisons which killed off the Haw river fish from St. Hopedale near Burlington, criminal prosecution could be instituted.

Officials were searching the statutes to uncover "the law" on the subject.

No evidence, however, of dynamiting has been produced and possibility of dyestuffs containing some strong acids turned into the river from some manufacturing plant near Greensboro may have caused the reported slaughter of thousands of fish.

Major Wade H. Phillips, director of the department, planned to leave on an inspection of the fish hatcheries in the western part of the state.

## MORE FACTS EXPECTED IN KELLY CASE

### What Happened in Ap- artment of Screen Juvenile Expected to Be Divulged.

Los Angeles, May 16.—(AP)—More evidence about what happened in the apartment of Paul Kelly, screen juvenile, while Ray Raymond, husband of Dorothy Mackays, actress was away playing the lead in a musical comedy, was expected by the state today as it summoned Teno Yobu, Kelly's house boy to testify against his employer, who is on trial for Raymond's murder.

Teno Yobu, otherwise known as "Jungle" was scheduled to take the stand as soon as Miss Mackaye, over whose love Kelly and Raymond mixed in a bare knuckle fight in the latter's home, finished her story of divided affections when the court resumes its work at 2 P. M. The state charges the fight resulted in Raymond's death. The defense maintains the musical comedy star died of other causes.

Miss Mackaye, who with Dr. Walter J. Sullivan is awaiting trial on an indictment charging them with attempting to cover up facts surrounding the death of Raymond, probably will be excused after brief questioning by the defense.

Jungle was expected to testify concerning previous testimony that Miss Mackaye's several times remained away from home all night and that on the morning following was reached by telephone at Kelly's apartment. This testimony was given by Charlotte Ethel Lee, Negro housekeeper for the Raymonds who was an eye witness to the fight.

Probably the most testimony expected to be adduced from the Japanese servant, the prosecutors indicated, will be an elaboration of Miss Mackaye's account of the conversation that passed between her and Kelly just before the latter left for Raymond's home where the fight occurred.

## Ten Men Injured At Mine Today

Seranton, Pa., May 16.—(AP)—Ten men were injured, nine of them seriously at 7 o'clock this morning when a cage on which the men were being lowered into the Johns mine of the Seranton Coal Company at Dickson City dropped sixty feet to the bottom of the 600 foot shaft. Four suffered broken legs and the others were injured internally.

Company officials said the accident occurred when George Brown, 55, engineer, became ill at his post and fell unconscious to the floor, allowing the cage to run away just as it neared the foot of the shaft. The cage struck the bottom with great force.

The injured managed to crawl to places of safety, just as the cable on the cage, measuring 700 feet fell into the shaft and crushed the cage to pieces. Had the men been in the cage when the cable fell they would have been killed, officials said.

## FAIL TO REOPEN TAX CASE IN SUPREME COURT

Washington, May 16.—(AP)—Wisconsin and Minnesota failed in the Supreme Court today in an effort to reopen the controversy over the validity of taxes imposed by them on national banks.

## TWO U. S. MARINES KILLED IN CLASH LIBERAL FACTIONS

Managua, Nic., May 16.—(AP)—Captain C. Bell Buchanan and private Marvin Jackson of the United States Marines were killed last night in a clash with a band of Liberals at La Paz Centro, near Leon. It was announced today.

Six Liberals are reported killed and several marines wounded.

Washington, May 16.—(AP)—An attack on the American Marine camp at Chinandega, Nicaragua, was made Saturday night by an armed band of natives who fled when the Americans returned the fire, the Navy Department was advised today. No casualties were reported.

## CHINESE TAKE PUKOW DURING SHORT BATTLE

### Northerners Evacuate Town Without Offer- ing Only Slight Res- istance.

Shanghai, May 16.—(AP)—Pukow on the northern bank of the Yangtze river opposite Nanking, fell to the Southern Chinese forces Sunday morning, says a wireless message from Nanking. The Northerners shelled the town with shrapnel after it was occupied by the southerners.

Troops of Chiang Kai-Shek, leader of the Nanking Moderate Southern Nationalists, who crossed to the north bank above Pukow some days ago, converged on the town early in the morning, while other Southerners moved down the river. The Northerners evacuated the town without fighting, returning up the Tientsin-Pukow Railway to Chuchow.

As soon as they departed, looters crossed the river in sampans but they were severely handled by Chiang's troops, who had occupied Pukow.

The Southern forces were pouring across the Yangtze yesterday above Nanking.

A wireless dispatch today from Hankow stated claims were being made by the Nationalist government that General Feng Yu-Hsiang, allied with the Hankowites, had captured Honanfu, capital of Honan Province.

Eighty per cent of the pickets at Hankow have been armed with rifles for service, ostensibly on the Honan front, but it is believed here they really will augment the forces in the vicinity of Hankow.

The Hankow government has issued a mandate prohibiting the execution of landlords, members of the middle class and "other reactionaries" by the peasants and other public bodies without reference to the government.

News from Hankow is that the rush of middle class Chinese to book passage for Chinghai continues. Japanese shipping companies are securing fancy prices for transportation.

## McLean Pleased Financial Report

Raleigh, May 16.—(AP)—Governor McLean today said he was very much gratified with figures showing a cash balance of \$3,333,167.60 in the general fund of the State as of April 30, 1927, reported by the State Treasurer and Auditor.

Prospect was seen by the Governor of a surplus at the end of the first fiscal year, July 1, of operation of the budget law in excess of the budget commission's estimate of \$1,293,000.

License taxes, due June 1, with penalties applying after August 14, expected by officials to swell the surplus.

## ITALIAN DOPE SELLER HELD UNDER HEAVY BOND

Raleigh, May 16.—(AP)—U. S. Commissioner Jones today ordered Attilio Scarfio, Italian, held on \$10,000 bail for federal court trial next week following his arrest with charge of having in his possession more than 15,000 grains of morphine and cocaine.

Marino, alias Charlie Compolo, was arrested following arrests of four women, three white and one negro, in Kingston Saturday, Peggy Wells, Irene Wells, Wilda Shaw and her negro maid. The women were held by Commissioner Sutton in Kingston in \$5,000 bail, but were brought here and released after they put up \$5,000 collectively.

Marino's drugs were valued by narcotic agents at \$10,000.

A business career never lowered the stature of any real gentleman.

## FIND PROOF CONSPIRACY IN BRITAIN

### Raid of Soviet House Brings out Facts Re- garding Operation Government.

London, May 16.—(AP)—Some of the morning papers supporting the Baldwin Government claimed it have learned that while the British State document, supposed to have been secreted in Soviet house, was not found during the police raid other discoveries amply justified the sensational forcing of the Soviet safes.

These discoveries alleged to include evidence of an anti-British conspiracy directed by the Soviet government, a list of British and foreign agents concerned, proof of the payment of British agitators by Moscow during last year's general strike, and establishment of suspicions that the operations of Arcos Ltd., the Soviet commercial organization, have been used to cover Bolshevik political activities here.

In quarters where these discoveries are alleged, it is declared that diplomatic action will inevitably follow the revelations of the raid.

Sir William Johnson-Smyth, home secretary, was to make a statement on the subject of the raid in the House of Commons this afternoon. The Soviet position does not lack parliamentary champions and the Laborites were prepared to heckle the home secretary.

The Trades Union Council has already sent a protest to Premier Baldwin regarding the relations of British Socialists and the Soviet mission.

The Daily Mail says examination of the staff register at Soviet house revealed a number of Socialist members of Parliament and local Soviet authorities, members of whose families are in the service of the Soviet Departments.

London, May 16.—(AP)—Questions regarding the place raid of Soviet house, Sir William Johnson-Smyth, the home secretary, told a crowded and animated session of the House of Commons today that information sent to him by the Secretary of War last Wednesday had satisfied him that a certain official document was or had been in the possession of some one on the premises occupied by Marcos, Ltd., the Soviet commercial organization.

The police had taken possession of certain papers which might bear upon the matter and the examination of these was still proceeding.

Acting on the information sent by the Secretary of War, the police had been authorized to search the premises under a warrant duly obtained. The search was carried out strictly in accordance with the warrant and was terminated at 10 o'clock last night.

The document in question was not found, but Sir William reiterated it was satisfied that it is or was in Soviet house. The document was one of which unauthorized persons were known to be attempting to obtain copies.

His action in authorizing the warrant, he continued, was with the knowledge and consent of the premier and foreign secretary. Replying to the Soviet charges that women employees had been roughly handled, he declared that no woman on the premises was searched; all that had happened was the searching of their handbags. He hoped to be able to make a full statement on Thursday to which date the discussion was adjourned.

Replying to a question in the same connection, the Under Secretary for Foreign Affairs, Godfrey Locker-Lampson, said that neither the Russian trade delegation, its staff or premises, nor its head as such enjoyed diplomatic immunity.

## Protection of Levee Between Barre and Butte Larose Aban- doned Last Night

Alexandria, La., May 16.—(AP)—A widow and her eight children were found drowned in the attic of their home today at Plaquemine, according to a message from Bunkie. The woman was a Mrs. Dupre. Efforts had been made to get her to leave following breaks in levees but she said she preferred to stay at home.

Opelousas, La., May 16.—Approximately 1,000 people are marooned on house-tops in St. Landry parish. Red Cross and city officials here were informed today.

A call for help came from the Morrow big cane sections in St. Landry during the night and trucks were dispatched to the scene to aid in the removal. Before they could reach them, however, the water had risen from 2 to 5 feet in the low-lands and they were forced to turn back.

New Orleans, May 16.—(AP)—Rolling relentlessly down the fertile west side of the Atchafalaya basin, flood waters from ten major crevasses in the Bayou Des Glaises levees, drew closer to St. Mary and St. Martin parishes, the heart of the Evangeline country, today, spreading devastation on its way to the Gulf of Mexico.

The Bayou Des Glaises crevasses are about 125 miles northwest of New Orleans, on the west bank of the Atchafalaya River.

Avoyelles and St. Landry parishes, with their fertile fields and green topped corn and sugar cane, have already been submerged by the torrents tearing through the Bayou Des Glaises levees and thousands driven from their homes. Other thousands are now preparing to seek safety from the advancing tide.

Work on the protection levee between Port Barre and Butte Larose in St. Martin parish was abandoned today.

## 41 KILLED BY CARS IN APRIL

### One Hundred and Twenty-two Died Vi- olent Deaths During the Same Month

Raleigh, May 16.—(AP)—Forty-one persons lost their lives in automobile accidents in April and 122 of 122 persons died violent deaths.

Burns accounted for a toll of 22 lives as compared to the 28 persons who were burned to death in March.

Spring like weather brought more automobiles into use and the result was that 16 more lives were lost from auto accidents than in March when King Winter sat astride his throne.

Warmer weather also brought an increase in the number of homicides and suicides. In April there were 20 deaths from homicides as compared to 13 in March, while the number of suicides stood at ten, one more than in March.

Three persons lost their lives in trying to beat the speeding locomotives by railroad crossings as compared to the two deaths in March. Gunshot wounds took a toll of one life as against eight in the preceding month. Gunshot wounds of a doubtful nature took a toll of five lives as compared to eight in March.

Five died from drowning as compared to four from a like cause in March.

Lightning killed four as compared to none in the preceding month.

## STATE DISCHARGES DEBT OF HONOR

Raleigh, May 16.—(AP)—The State of North Carolina today discharged its "debt of honor" to W. T. Worth, State Treasurer under Governor Russell.

A check for \$13,040.04 representing him for money stolen by a dishonest employee of the treasurer's office was sent through its first official check in the office of the State auditor.

Mr. Worth had made good the money out of his own pocket after it had been stolen from the State.

The recent General Assembly authorized the Council of State to reimburse Mr. Worth in its discretion.

# NEW YORKERS GET BIG LEAD OVER WEEK END

(By the Associated Press)

Wider gaps separated the league leading New York Yankees from their nearest rivals today as a result of the latest games.

The Giants drew a few notches further ahead of the field by beating the Cincinnati Reds for the second time in a row, while the Yankees added to their lead thru the defeat of the White Sox and Athletics, their nearest rivals.

Led by Hornsby and Terry, the Giants slugged the Reds' best pitchers in this latest victory while Hugh McQuillan pitched a steady brand of ball. Most of the damage was done in the third when five bunched hits off Rixey made four runs. The final count was 6 to 3. Hornsby's hitting mark for the day was 750, while Terry's was 500 with one of his hits a home run.

Pittsburgh's Pirates, who, with the Cardinals, have been pressing the Giants most closely for the league lead, moved ahead of the world's champions to second place when they defeated the Robins by 9 to 6 while the Cardinals were having a day off.

A rejuvenated Brooklyn team which has risen out of the cellar in the last few days gave the Buccaneers a hard tussle for their 9 to 6 victory. Making five runs in the fifth, the Robins knocked Lee Meadows out of the box and tied the score, only to lose out later when the Pirate heavy hitters resumed their onslaught on five of the best pitchers Uncle Robbie could produce.

Upsets marked both of the games played in the American League and both of them benefitted the Yankees who were rained out of their scheduled game with Detroit.

Their nearest rivals, the White Sox, lost to the Red Sox 2 to 1 through bunched Boston hits and a costly Chicago error. The wearers of the red hose made only four safe blows to nine for the white socked ones.

Another team that outlived the enemy but lost was Connie Mack's aggregation, the next nearest rival of the Yankees. With the bases full, Schang, of the Browns, poked out a homer in the third. The home team won 8 to 6.

Philadelphia, May 16.—(AP)—Mrs. G. Henry Stetson, national women's golf champion, finds no thrill comparable to the thrill of overcoming a seemingly insuperable lead on the late holes and winning on the extra green.

Mrs. Stetson recalls her victory over Miss Virginia Wilson in the semi-final round of the national at the Merion Cricket Club last year. Miss Wilson had just topped Miss Glenna Collett from the throne and was the favorite over the remaining players for the title.

"I was two down with only three holes to be played," Mrs. Stetson recalls. "I had made several foolish mistakes, but I managed to win the sixteenth hole with a good brace shot and square the match in the eighteenth."

"This somewhat restored my confidence, but the first hole, which we were to play as the nineteenth, was not one to make me feel sure of myself. I had started the round there by pulling my drive badly and losing the hole. The second time through I drove well. Then with my mid-iron I went for the green, almost hidden by the bunkers. It seemed a year before the ball dropped, but when it did it was right on the green. When Miss Wilson sliced her iron shot to a bunker, and I won the hole and match with a par 4, I felt my greatest thrill in golf."

"It was pleasant to win the final next day, but during that match my nerves were not so taut."

Mrs. Stetson's victory in the national was regarded as an upset. The first hint that she would be a factor in the national came in the eastern, in which she took a big lead over the field the first day by scoring 81 in a driving rain. She won the 54-hole tournament by three strokes over Glenna Collett. She had previously held only the Philadelphia championship.

William C. Fowles, Jr., president of the U. S. G. A., accounts Mrs. Stetson one of the best short game players in the country. Her work with the short irons and the putter place her in a class by herself. A notable feature of her game is her reliance upon her spoon.

# Brothers? Son, Diamond Has Been Chock Full of 'Em

The success of Paul and Lloyd Waner in the Pittsburgh Pirates' outfield recalls other brothers that have been famous, or almost famous, in the game. Numbered shirts have been suggested to tell them apart.

International Professional Sports Authority.

NEW YORK (I.N.)—This business of numbering football players may have to be adopted by Judge Landis for his wards, dependents and children.

This is apropos of Paul and Lloyd Waner, who do the brother act with and for the Pittsburgh Pirates. Paul plays right field and Lloyd plays left, and they look alike. Kiki Cuyler, differing slightly from the light brigade, has Waner to the right of him, Waner to the left of him.

But most Pittsburgh fans must be used to telling sets of brothers apart, and this is certainly no place to tell the story about the man who wore off that with Philadelphia and Washington and Joe, Tom and Willie played Waner side by side on the bench. For the Pittsburgh fans had learned to tell the Bigbees apart. Carson Bigbee was an outfielder of ability, and his brother, Lloyd, was a pitcher. Though both have left the Smoke City, Lyle is still pitching in the minors.

Cleveland has a set of brothers, too. They are Luke and Joe Sewell. Luke catches; Joe shortstops. And while the Waners and the Sewells are the best known pairs in baseball today, there have been many that shone, or almost shone, in yesterday's—or heyesterday's.

The Delehan brothers were probably the most famous—there were more of them shooting at fame to start with. Jim played with Washington and Detroit, Frank played with the New York Americans and the Cleveland Americans. Ed played

And the Billifers. Bill was often on the receiving end of the great Alexander, and his brother, Wade, played with the Reds for several seasons. Bill is now assistant manager of the St. Louis Browns and Wade is in the Coast League.

Then there are Emil and Bob Meusel; Karl, Ed and Ouis Crandall; Stanley and Harry Coveleski; Steve, Jack and Mike O'Neil; Jimmy andington and Detroit, Frank played with the New York Americans and the Cleveland Americans. Ed played

Indian Wins  
New York to Long  
Beach Marathon

Long Beach, N. Y., May 16.—(AP)—Racing through an alley land of city streets, a Hope Indian snake dancer from the desert country of Arizona outstripped a field of 136 of the country's foremost distance men in the 1927 New York to Long Beach marathon.

Quasowah wound his way through the mazes of New York and Long Island Sunday traffic for 22 miles, 385 yards, to finish first in front of the Long Beach City Hall nearly 150 yards ahead of Albin "Whitey" Michelson, Stamford, Conn., plumber, his nearest competitor.

# POINTERS HOLD LEAD POSITION IN PIEDMONT

Raleigh, May 16.—(AP)—High Point on top, Winston-Salem next, Raleigh and Rocky Mount tied in third, and Durham and Salisbury made up the Piedmont standings before today's battles.

Raleigh plays at High Point, Rocky Mount at Salisbury, and Durham at Winston-Salem in opening games this week.

A tightening up of the race among the first four clubs of the league resulted from last week's play. Fans faced the net week after one in which the first triple play of the season in minor circuits of this section was recorded. In the second game of Saturday's double bill with the Twins here, manager Allie Walt of the Capitals, went behind second to make a nice catch of a drive from Red Johnson's bat, doubled a runner off second and tossed to Lundeen to complete a triple play and wipe out prospects of a Twin threat.

Maloney Favored  
To Win Bout  
From Sharkey

New York, May 16.—(AP)—An injury to Jack Sharkey's left eye made Jimmy Maloney, his fellow Bostonian and rival contender for the heavyweight boxing crown, a 7 to 5 favorite today for their bout Thursday night at the Yankee stadium. An old wound was reopened in a match with a sparring partner Saturday.

Maloney is having 12 rounds of boxing in a final drive to get his weight down to 200 pounds.

FAMOUS WOMAN GOLFER  
STRUCK BY LIGHTNING

New Castle, County Down, Ireland, May 16.—(AP)—Miss Cecil Leitch, world famous British woman golfer was struck by lightning while watching the play in the British women's open golf championship here today. It is not believed her injuries will prove serious.

BRIDGE WORKER DROWNS  
WHEN CRANE BREAKS

Cohes, N. Y., May 16.—(AP)—A steel truss weighing 108 tons broke from a crane as it was being lifted into position on the New Mohawk River bridge of the Delaware and Hudson Railroad here and fell into the river, tearing away a portion of the scaffolding but not causing much damage to the bridge.

Frank Pangle, a bridge worker was drowned.

Wesley Ruth to Elvora Lewis, both of Greenville.

John Saunders to Lonnie Raynolds, of Ayden.

## MRS. LANIER AND MRS. WOOLFOLK ENTERTAIN

Announce the Engagement of Miss Lillian Hooker and Mr. William White.

The Country Club was the scene of a pretty party on Saturday afternoon, when Mesdames J. Conrad Lanier and S. M. Woolfolk entertained a large number of friends at bridge.

The club house was attractively decorated with profusions of Dorothy Perkins roses and a pink and white color scheme was effectively used.

As the guests arrived, they were welcomed by the hostesses and Mrs. J. T. Timberlake, of LaGrange, and shown to the punch bowl. Here Mrs. J. B. Kittrell, Mrs. John McKeithan, Mrs. J. H. Waldrop and Miss Hattie Sue Scoville served fruit punch.

Fifteen tables were placed for the games. Before the guests began playing, attractive bride tally cards on which was written "Hooker and Bill, July, 1927," were passed. This was to announce the engagement and approaching marriage of Miss Lillian Hooker and Mr. William White.

The bride-elect is the only daughter of Mr. and Mrs. S. T. Hooker, of this city. She is pretty, attractive, and popular, and numbers her friends by the score. The groom is the younger son of Mr. and Mrs. S. T. White, also of this city. He is a rising young business man with a host of friends and holds a position with the National Bank.

After the bride was showered with good wishes, bridge was enjoyed. Mrs. C. B. Rowlett, making the top score, was awarded a navelly pocketbook, and Mrs. Claude Brown was given a trump indicator for low score. Miss Hooker was presented lingerie; Mrs. J. T. Timberlake, of LaGrange, a recent bride, and Miss Kathleen Cousins, another summer bride-elect, handkerchiefs.

After the games, the hostesses, assisted by Mrs. John Clark, Miss Gladys Lanier and Miss Peggy Owens, served a pink and white ice course with salted nuts.

The occasion proved delightful, and much interest is felt in the approaching wedding of Miss Hooker and Mr. White.

## D. A. R. to Study Government and Its Problems

(By Bertrude S. Carraway)

Law Bern, N. C. May 16—The attention of Daughters of the American Revolution in the state and nation will be centered this year on the study of the United States Constitution, the Constitutional form of government, influences that threaten to destroy or endanger the government and the development of a higher type of patriotism and citizenship.

This plan is in particular accordance with the third object of the National Society, D. A. R., stated as follows in the national Constitution: "To cherish, maintain and extend the institutions of American freedom, to foster true patriotism and love of country, and to aid in securing for mankind all the blessings of liberty."

The first two objects of the N. S. D. A. R. in its Constitutions are: "1. To perpetuate the memory and spirit of the men and women who achieved American Independence, by the acquisition and protection of historical spots, and the erection of monuments; by the encouragement of historical research in relation to the Revolution and publication of its results; by the preservation of documents and relics, and the records of the individual services of Revolutionary soldiers and patriots, and by the promotion of celebrations of all patriotic anniversaries."

"2. To carry out the injunction of Washington in his farewell address to the American people: to promote, as an object of primary importance, institutions for the general diffusion of knowledge, thus developing an enlightened public opinion, and affording to young and old such advantages as shall develop in them the largest capacity for performing the duties of American citizens."

NEGRO BOUND OVER TO COUNTY COURT

John McCain, colored, charged with larceny of a pistol, was bound over to the next session of county court in a preliminary hearing today before Magistrate C. B. Rowlett.

W. T. Edwards and Jasper Reddick, held in connection with the same charge, were found not guilty and released.

## Gastonia Woman Killed in Wreck

Gastonia, N. C., May 16.—(AP)—Mrs. C. E. Hinson of this city is dead and her three children are injured as the result of a crash between two automobiles early Sunday morning at the corner of Second and Willow Streets.

Mrs. Hinson died while she was being taken to a hospital. Harry Hinson, aged 12, has a head wound, Oswald, 10, has more severe scalp injuries and the daughter, Maxie, 8, a broken collar bone and bruises.

Mr. Hinson was driving his touring car west on Second Avenue when he crashed into the Ford sedan driven by Herman Cross of Cherryville at the street intersection. Mr. Cross and Mr. Hinson received only scratches although all the occupants of the car were thrown out by the terrific impact. Both cars were completely demolished.

A coroner's inquest will be held Wednesday evening at 7 o'clock by Solicitor J. G. Carpenter. Mrs. Hinson will be buried this afternoon at Bethel Church in Lancaster County South Carolina.

## LOCAL MEN HONORED AT CONVENTION

## Greenville T. P. A. Post Wins Recognition at Session at Wilmington.

The State Convention T. P. A's (Travelers Protective Association) of America adjourned Saturday May 14th, at Wilmington, where the meeting had been in session for three days. This meeting goes on record as the very best the Association has ever had, with the largest attendance. The North Carolina Division won the great honor of leading the entire United States in increased membership during the past year. This is a record of which the Old North State should be proud for the fact that there are thirty-five state divisions and North Carolina is one of the youngest divisions. The Travelers Protective Association is 36 years old having a total of over 350 posts and a combined membership of about 140,000. The organization was started by traveling men, who had in mind the betterment of conditions for the traveling salesman. A great work has been accomplished during the past few years and there are now many matters pending that are of much importance to the general public.

Post "EE" which was organized here in November 1925 has to its credit a national record. This post was organized with a charter membership of 60, which is the largest charter membership of any post organized to date. The total membership to date is 90 which is another record for a new post. This is the largest increase for the same

length of time of any post in the State.

As recognition for the exceptional record of Post EE, which is the baby post of the State, President E. H. Wilson was selected fifth State vice-president, and J. B. Kittrell was elected a delegate to the national convention which meets in Denver, Colorado the last of June. All the posts make strong bids for representation to the national convention as funds are allowed by national headquarters to defray the necessary expenses of the delegates.

J. H. Boyd, Jr., secretary of the local post was appointed a member of the credential committee at Wilmington, which is also quite an honor.

The delegates to the State convention report a most interesting and enjoyable meeting. Many important business matters were handled in addition to the several social features, which included an elaborate dinner served at the Carolina Cottage, Wrightsville Beach and a big dance at the Cape Fear Hotel, Wilmington. The local post at Wilmington deserve great credit for the fine entertainment given the delegates, as well as the citizenship as a whole.

The convention meets at Winston-Salem next year and Post EE will no doubt be represented by a large delegation, with reports of more broken records.

## Tell Conflicting Stories of How Woman Was Hurt

Asheville, N. C., May 16.—(AP)—Two accounts, one explaining injuries early Sunday to Mrs. Sue E. Clay, of this city, who was still lying near death at a local hospital today, were told this morning to Deputy Sheriff Tilder Tillingham by W. N. Muir of Greensboro and Mrs. Mildred Mitchell at the county jail where they are being held without bond.

According to the version given by Muir, Mrs. Clay's injuries came as the result of a fight on the Hendersonville highway Sunday between the wounded woman and Mrs. Mitchell. Mrs. Mitchell denied that there had been a fight and said Mrs. Clay had jumped from Muir's automobile because he refused to grant her request to drive faster.

Mrs. Clay's condition was reported very serious at the hospital. It was thought that she was suffering from a fractured skull. Hope for her recovery was doubtful, attendants said.

Besides Muir and Mrs. Mitchell, two others were being held in jail without bond awaiting the outcome of Mrs. Clay's injuries. They are Bryan English and Walter Krause, both of Asheville.

Muir, Mrs. Mitchell, Krause and English are held on warrants charging "assault with deadly weapons with intent to kill."

Sheriff Dillingham said if Mrs. Clay succumbed to her injuries, the four would be formally charged with murder.

After a 35,000 mile trip during seven and a half months, the "floating university" reports success, but announces that no girls will be taken on the next cruise they having proved to be "something of a distraction" to the boy students. They usually so prove to be on land as well as on sea.

That the East, the richest part of the country, should contribute most toward the relief of the Mississippi flood sufferers is as it should be, but the West, so ready to charge Eastern love of money, might do well to take note of the fact.

Poor half-starved Poe was glad to get \$10 for "The Raven," little dreaming that in 1927 a collector would pay \$50,000 for an autograph copy of that poem. Too often genius is left to be its own and only reward.

Senator Reed of Pennsylvania urges the President to hurry up and have the duty on plate and window glass increased 50 per cent, but stops short of reminding him that the tariff was made "flexible" in order further to increase the profits of great industrial interests at the expense of the consuming public.

Admiral Sims ventures the not very new opinion that the battleship is out of date and that future wars will be fought with aeroplanes and submarines.

#### ARE YOU HELPING?

With the worst of the flood in the Mississippi valley yet to come, Governor Angus W. McLean has issued a third appeal to the citizens of North Carolina to do their duty toward contributing funds to be used for the relief of hundreds of thousands of sufferers in the flood stricken area. North Carolina, the Governor declares, is among the leading states in the whole nation and the contributions so far for the relief fund are not in keeping with what the state is able to give.

North Carolina has never shirked its duty in regard to aiding suffering humanity, and the Governor expresses confidence that the state will go over the top in its efforts in behalf of the Mississippi flood sufferers.

If you have not given to the flood relief fund, do so at once, or if you have not contributed all you are able to give, add more to the fund. The care of these people in the stricken area is the duty of the more fortunate citizens of the nation and every county in every state should have a part in it.

While Pitt county has

## —and the Worst is Yet to Come

done well in the way of contributions to the fund, there are still hundreds who are simply able to help in this work, and we urge you to give now.

#### POLICY IN NICARAGUA

For some mysterious reason the State Department has clung tenaciously to the transparent fiction that no force has been employed to gain its ends in Nicaragua. Even after the Liberals were ordered to disarm, it was announced that "as far as the Department knew, there had been no threat of force to induce the Liberal troops to give up their weapons." Later Mr. Kellogg let himself be quoted as saying that he "had not meant to be evasive," he having assumed that "the arrangement for disarmament had been generally understood."

The whole matter has long been "generally understood," but for some reason the Department has sought to convey the impression that eleven warships, more than 5,000 marines, and finally the order to disarm the Liberals, were employed merely for "the protection of American lives and property."

#### SHEET METAL WORKERS GO ON STRIKE TODAY

Charlotte, May 16.—(AP)—Approximately 100 sheet metal workers employed by various shops here went on strike this morning after employers had refused to accede to a series of demands, according to information received from officials of the G. G. May and Company and other construction firms. Some of the employers said they understood the strike probably would affect other cities in the State.

The chief demand according to employers, was that they operate under closed shop conditions and

## Late comers in suits for late comers in!

May be you've had your eye in another direction up until now and perhaps a pair of fenders has been more in your thoughts than a pair of sleeves

These suits are for the man who said "later on"—and there's nothing later on the market.

They are suits that you can look at from the three angles of designing, becoming and saving—and carry home to accomplish all three.

# Market Report

## Cotton--Stocks--Grain

**COTTON**  
New York, May 16.—(AP)—Rales followed an opening decline in the cotton market today. Selling developed at the start on favorable early weather reports but offerings were readily absorbed by buying attributed to the trade. Prices stiffened up later on covering promoted by prospects for showers in Arkansas and Mississippi. July advanced to 15.62 and was selling around 15.50 in the mid-afternoon market when prices showed net advances of about 3 to 6 points.

**STOCK MARKET**  
New York, May 16.—(AP)—Frequent selling squalls swept through today's stock market, giving it a rattled appearance, but operators for the rise continued to bid up stocks in various sections of the list, lifting several of them to new peaks. The selling presumably was inspired by the marking up of the renewal rate on call money to 4-1-2 per cent coincident with the calling of about \$15,000,000 in loans, and expectations of another sharp increase in Federal Reserve broker loans to be made public after the close of the market.  
The close was irregular. Total sales approximated 1,500,000 shares.

**Small Peach Crop Predicted for Year**  
Raleigh, May 16.—(AP)—Indications at present point to a 38 per cent peach crop as compared at this time a year ago to a 70 per cent crop. Frank Parker, crop statistician said today. This means he said that the 1927 peach crop will be about one-third less than it was last year.  
Frosty weather during March and April played havoc with the peach blossoms in the noted Sandhills section and resulted in the blasting of the prediction a month ago that the 1927 peach crop would be bumper one.  
About 1,700 carloads of peaches are expected to comprise the 1927 crop, he said. Last year about 2,700 equivalent carloads of the fruit was shipped to Northern markets.  
While the frosty weather wrought havoc with the peach crop it did little to hurt the dewberry crop which is already ready to be harvested. The huckleberry crop in Sampson County largely also suffered badly from the expiring breaths of King Winter.

General Motors building, in Detroit or Mr. Horowitz's Equitable building, in New York, look small. Chicago's building will contain an auditorium, seating 75,000; a 4,300 room hotel, a convention hall with 300,000 square feet of space, garage room for 1,500 automobiles, an athletic field for parents, etc., and a quarter mile cinder track. That sounds like a real building. It will be forty stories high, and twins.

To answer the scientific question "What sort of milk do young lions drink?" Captain S. H. Snyder, head-keeper of Berlin's zoo, recently milked a lioness at great risk to himself.

Professor Zerngros wanted to make experiments. He will find that lion's milk is much like other milk, so much sugar, so much fat, so much protein, etc. When a lion is killed the African chief eats its heart, thinking it will make him lion-like, but it doesn't. "Tiger, tiger, burning bright," and the lion burning similarly get their fearful powers from hisidity, the mystery of life, not from milk.

Messrs. Sloan, president, and DuPont, of General Motors, made a polite bow to their stockholders on Thursday, handing them an extra cash dividend of \$17,400,000, raising General Motors dividend from \$5 to 10 per cent, at least for this quarter.

If you have General Motors, or any other good American stock, hold it. There is no knowing what American things may be worth. But beware how you gamble. ESPECIALLY in automobile stocks.

General Motors is powerful, built on a rock of common sense, gigantic resources and diversified production. But in the distance there is a cloud. The size of Henry Ford's hand. There is an automobile eight coming, in advertising and in price. It will make a battle of dinosaurs look like a Maltese kitten frolic.

Americans are taught to revere the law of supply and demand. Labor and living cost must obey that supreme law. But Mussolini says "I AM THE LAW OF SUPPLY AND DEMAND!" He orders wages cut ten per cent, all over Italy, and orders prices of food and other necessities reduced to meet the wage cut.

There is something of Napoleon in Mussolini. When told that ev-

erything depends on circumstances, Napoleon replied: "Circumstances MAKE circumstances."

## FLOOD S'KADS INVADE MICHIGAN AS IT NEARS FERTILE LANDS OF THE EVANGELINE COUNTRY

(Continued from page one)

done last night when it was apparent that the flood moving down the basin through the crevasses would be from 2 to 3 feet higher than the dyke.

For 30 days, crews had been engaged in strengthening the dyke in preparation for an emergency, but Andrew Gay, president of the Atchafalaya basin levee board, said last night further work would be useless. Scores who had volunteered to work on the dyke left for their homes to prepare to flee before the advancing tide.

Army engineers estimated that the water flowing through from Bayou Des Glaives had covered 600 square miles early today, but that the rapidity with which the water spreads out will be lessened somewhat from now on.

Engineers also said the entire stretch of 50 miles of levee along Bayou Des Glaives probably would be carried away by the water.

Airmen returning from reconnaissance work over the levee late yesterday said that the big bend levees were practically gone for a stretch of 20 miles.

Throughout last night the stream of refugees into Manassas and Marksville continued unabated, as the flotilla of 50 coast guard surfboats combed the area behind the levees, bringing out marooned residents who stubbornly stayed in their homes in the face of repeated warnings.

More than 1,300 marooned persons were brought out of the area in two days by the coast guards who intrepidly steered their bobbing white craft through the roaring crevasses.

The fact that the crevasses were dangerous, more dangerous than rapids of some mountain streams, did not bother the rescue crews. The crevasse waters, boiling like giant cauldrons as the pent up floods swirled through the openings in the dykes were filled with whirlpools and eddies.

The official weather bureau forecast describing the flood now moving down the Atchafalaya basin said that it would "gradually increase to very great proportions." Some relief for the main line of levees along the Mississippi was believed in sight, as the weather bureau announced that within the next two days "the rise in the Mississippi below Old river should diminish."

The end is not yet in sight, how-

ever, as the crest of the flood moving down the Tensas basin has not yet reached Ferriday, though slight falls have been recorded at Newell-ton and Tallulah, the Mississippi river at Vicksburg is still higher than the record established in 1922. Aviators flying over the levee lines report that a serious situation exists at Morganza, where the current of the river at a bend beats on the levee.

Backwater from the Atchafalaya has spread over the lower part of Iberville parish where there are no levees, as lakes below are unable to care for the tremendous volume of water.

Refuge camps are being established at St. Martinsville and Opelousas to care for the lower basin. Advice from St. Martinsville last night said that 20,000 would have to be cared for there, while between 40,000 and 50,000 were expected to be concentrated at Opelousas.

Herbert Hoover, Secretary of Commerce, who with James Felsler of the National Red Cross, has been in the Bayou Des Glaives section, returned here today.

Mr. Hoover yesterday said the worst of the present flood should become known during the present week, and that until then it would be "impossible to estimate either the losses or the dimensions of our problem."

## SIBLY IS NAMED FIRST DIVISION SUPT.

Rocky Mount, May 16.—(AP)—C. G. Sibley, superintendent of transportation of the second division of the Atlantic Coast Line Railroad, with headquarters at Savannah, Ga., has been named general superintendent of the first division, including Virginia, North and South Carolina, with headquarters here.

Mr. Sibley, whose appointment was announced in an official statement from the general offices of the Coast Line at Wilmington, today, becomes effective June 1, will succeed W. H. Newell, who has held the position for a score of years. Succeeding Mr. Sibley at Savannah will be J. A. Wall, at present superintendent for the Waycross district.

## ITALIAN FLYER OFF TOMORROW

### DePinedo Postponed Flight Today Because of Ignition Trouble with Machine.

Chicago, May 16.—(AP)—A brother aviator will keep close watch from the sky for any trace of the intrepid French flier, Captains Nungesser and Goll, unheard from since they attempted to span the Atlantic when Commander Francesco De Pinedo, Italy's four continent aviator, passes over New Foundland and the North Atlantic later this week. De Pinedo plans to leave Montreal on Wednesday morning for Trepassy, New Foundland.

The Italian, welcomed in America as a modern Columbus, today postponed his take off for Montreal until 6 a. m. tomorrow Central Standard time.

Chicago, May 16.—(AP)—Commander Francesco de Pinedo, Italy's four continent flyer today postponed his flight to Canada until tomorrow after encountering ignition trouble with his Santa Maria II seaplane.

The aviator announced he would take off for Montreal at 6 a. m. Central Standard time tomorrow. De Pinedo took his plane about 7 a. m. today and for nearly three hours maneuvered on Lake Michigan, rising a little into the air and open land.

sinking back into the water before he postponed the hop off. "The forward motors would not tune up readily," De Pinedo explained when he came ashore, adding that dampness had "shorted" the ignition system. A stiff northeast wind also was blowing, and yielding to discretion and the importunities of the American-Italian delegation eager to entertain him further, the flyer finally announced postponement of his farewells to the U. S.

The seaplane was tied up at the Chicago Yacht Club. Coast Guardsmen kept back a throng of curious

## Heavy Forest Fire Loss During April

Raleigh, May 16.—(AP)—Heavy forest fire losses during the last six month period were reported today for April by the State Forest Service with estimated damages of \$89,117 for the counties with warden organizations.

Financing destruction of the fires during April came just under the total for November, when \$100,676 was reported, however, with the area covered during that month being smaller than in April. The coverage of the fires in November was 31,293 acres and in April 51,316.

Western North Carolina again experienced an increase in the number of fires and damages over previous months with 57 in April or almost a third of the total of 173 for all of the reporting counties. More than half of the damage reported in April was to the small growth which suffered an estimated loss of \$59,054; standing timber came next with \$24,256; forest products, \$9,736; and improvements, \$6,071. The fires covered 17,295 acres of land.

## Binds Woman and Then Rifles Home

Asheville, May 16.—(AP)—A young man, about 25 years old, walked calmly into the home of Carl Von Ohlsen, on a prominent residential street, Sunday night, pointed a revolver at Mrs. Von Ohlsen who was in the house alone, bound her hand and foot and proceeded to rifle the house. Upstairs Mrs. Von Ohlsen had \$200 in bills. The man went straight to her room, picked the money up from the bureau on which it was located, took three strings of beads and other trinkets and walked out of the house. Mrs. Von Ohlsen lay on the floor bound until her daughter, who is married and lives some blocks away, dropped in to pay her a visit. The daughter found her mother bleeding at the mouth, cut the cords and called the police. Mr. Von Ohlsen was not at home at the time of the robbery. Police were working on a clue to the identity of the robber on information furnished by Mrs. Von Ohlsen.
